MANILA DISPATCHES

General Otis Says He Thinks 30,000 Troops Are Enough to Control the Islands.

GENERAL LAWTON IN CHARGE

The People of Negros Help Americans to Punish Robber Bands in the Mountains and Desire Permanent Protection.

Washington, June 1.—Replying to inquiries of the secretary of war, General Otis telegraphs that he is still of the opinion that 30,000 troops only are necessary for effective control of the Philippines.

AFFAIRS ON NEGROS ISLAND.

Washington, June 1.—The war department has received the following dispatch from General Otis:

"Smith reports from Negros that he punished the insurgents who murdered Captain Tilley on that eastern coast island, now under the American flag. The inhabitants ask protection against robber bands. The bands have been pursued into the mountains by United States and native troops and severely punished."

AN OFFICER MISSING.

Washington, June 1.—A cablegram received from General Otis says Captain Charles M. Rockefeller, of the 9th Infantry, is missing.

LAWTON COMMANDS DEFENSES.

Manila, June 1.—General Lawton has been given command of the city. Troops are forming a line around Manila.

General McArthur commands the outlying garrisons, his troops holding the railroad and river.

The Santa Fe Breaks a Record.

Chicago, June 1.—The record was broken by the Santa Fe railroad to bring Collier P. Huntington from Kansas City to Chicago. A special train of two private cars left Kansas City at 8:30 a. m. and entered the Chicago yards at 6:00 o'clock in the evening, making the run in 9 hours and 30 minutes, an hour faster than the trip was ever made before. The average time, including all stops, was 49 miles per hour.

Jail Rescue Thwarted.

Leadville, Colo., June 1.—The attempted rescue of several robbers recently arrested here was frustrated by the vigilance of the officers at the jail. J. W. Breath, supposed to be from San Bernardino, California, was seen to scale a high fence around the jail. He resisted arrest and fought like a tiger, severely injuring Under Sheriff Lechner by biting his face. Lechner shot and killed Breath.

American Scheme Adopted.

The Hague, June 1.—The American mediation scheme was unanimously adopted at yesterday's sitting of the committee.

The first commission, by a vote of 18 to three, adopted a resolution prohibiting the use of that nation's bullets. Italy, Austria and Great Britain form the minority. It was also resolved to prohibit the use of explosives from balloons and explosive bullets. Agreement was found impossible on some important proposals. The conviction is growing that the work of the first commission is doomed to failure.

A French Hero.

Paris, June 1.—Major Marchand received a great ovation on arrival at Paris today. Crowds, despite the efforts of the police, broke into the procession and surrounded Marchand's carriage, cheering, waving hats and sticks. Marchand appeared on the balcony with other members of the expedition, and repeatedly bowed to the spectators who acclaimed until hoarse. An enormous crowd gathered in front of the military club and cheered for the army. The explorers were received by President Loubet this afternoon.

Generous Mrs. Stanford.

San Francisco, June 1.—Mrs. Stanford, widow of the senator who endowed Stanford university, has deeded the bulk of her stocks and real estate valued at \$10,000,000 to the university. This, added to the previous endowment of over \$15,000,000, makes Stanford one of the richest institutions of learning in the world.

Bryan Talks.

Louisville, Ky., June 1.—The Young Men's Democratic club of Louisville tendered a banquet last night to Judge James P. Tarkin. Bryan responded to the toast "Democratic Party." He said the Chicago platform was written for all time, not for one campaign, and more votes would be lost by changing it than would result if left as it is.

Chicago Will Honor Dewey.

Chicago, June 1.—The Lincoln Park board has decided to erect a \$100,000 monument to Admiral Dewey, the money to be raised by subscription.

Another Painter Dies.

London, June 1.—John Smart, landscape painter, is dead, aged 61.

THE FOUNTAIN CASE

A Witness Says That Killing the Little Boy Was Declared Not Worse Than Killing a Dog.

JACK MAXWELL'S TESTIMONY

It Is Expected That Several Mysterious Murders Will Be Explained in Endeavoring to Impeach Witnesses.

Hillsboro, N. M., June 1.—In attempting to show the enmity for Lee and Gilliland on the part of witnesses being used by the prosecution, the defendants attorneys by cross examination today are resurrecting incidents of several old feuds the prisoners are said to have participated in. It is promised that before the trial concludes numerous killings will be brought up to impeach witnesses, some of which have heretofore been unattested by any arrests.

James Gould, cowboy, distantly related to Gilliland by marriage, began his testimony saying a letter came to McNew's house the night before the murder. McNew got cartridges and rode away saying to tell enquirers that he had gone to Roswell, but really going north in the direction of Dog canon, where the blood was later found.

About a week later McNew and Gilliland came back together and told of A. J. Fountain, Jr., trailing his father. They said he came to Lee's ranch and while at dinner swore dire vengeance against his father's murderers. "Later," said the witness, "I had a talk with Gilliland and he said Colonel Fountain (applying a vile name) came from Texas in a chicken coop." Said the witness, "he said the deceased raised hares everywhere he went but would not do so again. He remarked he might have needed killing but not his son. Gilliland then said the boy was a half breed and it was no more than killing a dog."

During the cross-examination witness said he supposed he is now an enemy of Gilliland and McNew.

"Has there been threatened trouble between your people and Gilliland's friends?"

"Don't know of any threats?"

"Were you not all well armed?"

"Yes, thought Gilliland might raise trouble with me, and I carried firearms some time before McNew's preliminary hearing."

Riley Baker, former deputy sheriff in the Sacramento mountains, who married the sister of Mrs. Gilliland, told of Gilliland having shown him a point on the mountain from which Lee, McNew and Gilliland watched with glasses the movements of the Fountain trailing posse ten miles away.

"When I deprecated the killing of the child, Gilliland said he thought it (the child) little better than a dog," said the witness. "He said that if the body of Colonel Fountain's son had to be found before any one could be convicted no one would be convicted. Later, he said that things had been more quiet since old Fountain disappeared. On election day in the spring of 1897, I was on top of a house at Alamogordo with others, all armed, waiting to capture Lee and Gilliland."

Witness said on cross-examination: "I was then an officer and had a warrant charging them with the Fountain murder. We made portholes in the parapet. I have always been friendly with Gilliland."

"Did you not propose to Jake Gould in April 1897 that you would take to the house in the mountains and kill Gilliland and McNew, and Jake was to swear you out of it, and were you not held up by McNew in Grapevine canon and ordered to explain following his trail?"

"Nothing of that kind happened; I had no such conversation as is detailed with reference to killing McNew and Gilliland." Witness denied that he was to be paid extra for killing Lee.

YESTERDAY'S TESTIMONY.

Hillsboro, N. M., May 31.—John Maxwell was brought here under attachment to testify in the trial of Lee and Gilliland, charged with the murder of Colonel Fountain and son. He told of seeing two men whom he believed to be defendants in the vicinity of the scene of the murder about that time.

On cross examination it was shown that Maxwell had given testimony of a different character at the habeas corpus trial. Maxwell said he had a contract with Charles Perry, ex-sheriff of Chaves county by which he was to receive \$2,000 for evidence to convict the Fountain murderers. He denied that he had said he could clear Lee and Gilliland.

T. B. Heman testified that he was foreman of the Lincoln county grand jury in January 1898 and that he was mainly through the efforts of Colonel A. J. Fountain that Oliver Lee and Wm. McNew were indicted for stealing cattle.

Cross examination showed that Les Dow, afterward sheriff of Eddy county, was the chief witness before the grand jury. Dow was afterward assassinated by unknown parties in Eddy, though it is not claimed that the defendants were responsible for this crime. Eddy parties were suspected but guilt was not proven.

Saturnino Barela, mail carrier on the Lincoln route, on February 1st saw at a point about three miles north of the

Chalk hills, three men on horseback coming from the opposite direction, who turned off the road at his approach and he could not see their faces. A little later he met Colonel Fountain with his little boy driving slowly and he appeared very much worried and anxious.

Fountain stopped and asked him who those three men ahead were, and said that he feared an attack. Barela said he did not know, and suggested to Fountain that he turn back and stop over night at Luna's Well with him, and they could go on into Las Cruces together next day when he would be returning with the mail from Tularosa.

Fountain appeared to hesitate a moment or two and then said that he had to get home that night and would go on and take his chances. Then they separated. Fountain driving on towards Las Cruces and Barela on towards Luna's Wells.

Next day, Barela fearing that some accident had befallen them, watched their tracks carefully as he drove towards Las Cruces on his return trip. About two and a half miles south of the Chalk hills, or about five and one-half miles from where he had met him the day before, the witness found that Fountain's track left the road and turned toward the Jicarillas.

He followed the tracks a short distance, but finding no signs of the buckboard he turned and drove hastily into Las Cruces and gave the alarm.

After the disappearance he found a pool of blood dried and soaked into the sand near the point where the tracks of Fountain's buckboard left the road.

Major E. Yen Patten, ex-sheriff of Dona Ana county, then took the stand. He testified that he went out from Las Cruces with a searching party when the news of Fountain's disappearance came.

At a point about 425 steps from the Chalk hills he found a pool of blood soaked into the sand. This he collected and delivered to Governor Thornton. At the same point he found a 5 and a 10 cent piece each bearing spots of blood. Blood was also found on a patch of grass there.

Dreyfus May Go Home.
St. Pierre, Martinique, June 1.—It is stated that the steamer Lafayette which has just arrived here, brings officers who will take Captain Dreyfus home from the island.

Rain in California.
San Francisco, June 1.—Rain has fallen in nearly all sections of the state and will be of much benefit.

Albuquerque Items.
Miss Bessie Irvin and Hugh J. Trotter will be married tonight.

While on a mountain trip Miss Grace Hahn had a light paralytic stroke and lost the power of speech, but has recovered.

A forest fire started near Las Vegas has reached San Geronimo.

A curfew bell now rings at Las Vegas for small boys.

Charles Newcomb, railway engineer, died at the insane asylum.

An incendiary tried to burn the barn of Mrs. E. B. Gallegos.

Take your lawn mowers to J. A. Davis for repairs. Frisco street.

Ice cream soda at Fischer's every day. All kinds of soft drinks served in first-class style. Everything neat and clean.

Las Vegas Notes.
Judge McFie sentenced Juan Jose Martinez to 50 days in jail for a pistol play. He had savagely and maliciously shorn the locks of a maiden who resented his love.

THE TRANSMISSISSIPPI CONGRESS.

A Flood of Bills Offered Upon Many Subjects.

Wichita, Kas., June 1.—Governor Shaw of Iowa today wired approval of the objects of the Transmississippi congress and his regrets at being unable to attend.

Ex-Governor Prince of New Mexico introduced a resolution declaring the Carey act should be so amended as to be equal in operation over the territories and states. The act relates to the cession of public lands for irrigation purposes.

W. P. Ross, of New Orleans, presented a paper on the necessity of keeping the mouth of the Mississippi river open. He said the Mississippi would be great harbor as far as St. Louis and even to Kansas City if the mouth were kept open.

There is a flood of resolutions in the hands of the committee, bearing on every subject mentioned in the program, and many others. Congressman Flynn, of Oklahoma, presented one asking that American-built, American-owned, American-manned ships be given the carrying of our foreign commerce.

The officers elected are as follows: President, E. Standard of St. Louis; first vice president, Walter Gresham, Galveston, Tex.; second vice president, L. B. Prince, New Mexico; third vice president, E. V. Smalley, Minnesota; fourth vice president, J. H. Hudson McKnight, Wichita.

The election of a secretary and assistant was deferred until the next meeting point is named.

The committee on permanent organization recommended that commercial travelers of America be allowed ten delegates to be chosen from Transmississippi states and territories. The selection of time and place for the next congress will be fixed at 11 o'clock tomorrow.

Ice cream soda at Fischer's every day. All kinds of soft drinks served in first-class style. Everything neat and clean.

OHIO REPUBLICANS.

The State Convention Doing Business Today at the Same.

Columbus, Ohio, June 1.—The Republican state convention met this afternoon. It is thought the only trouble will be over contests from Cleveland. Cuyahoga county has three contesting delegations, one headed by chairman Hanna's friends, another by chairman of the county committee, another by Mayor Kisson.

Cyrus Halling, chairman of the state committee, made the usual congratulatory address on the work of the committee in the last campaign, and announced as temporary chairman, Congressman W. S. Kerr.

After the speech of Chairman Kerr, congressional districts were called for reports of members of committees selected at district meetings earlier in the afternoon.

MARKET REPORT.

New York, June 1.—Money on call nominally 2 1/2 @ 3 per cent. Prime mercantile paper, 3 1/2 @ 3 1/2. Silver, 60 1/2 @ 60 1/2.

Chicago.—Wheat, July, 70 1/4 @ 70 1/2. Corn, June, 35; July, 33. Oats, June, 23 1/2; July, 22 1/2.

Kansas City.—Cattle, receipts, 3,000; market steady; native steers, \$3.75 @ \$5.35; Texas steers, \$4.00 @ \$5.00; Texas cows, \$3.25 @ \$4.00; native cows and heifers, \$3.25 @ \$5.10; stockers and feeders, \$3.00 @ \$5.50; bulls, \$3.15 @ \$4.60. Sheep, receipts, 3,000; steady; lambs, \$5.00 @ \$7.00; muttons, \$3.25 @ \$5.25.

Chicago.—Cattle, receipts, 10,000; quiet but steady; heaves, \$4.40 @ \$5.00; cows and heifers, \$3.50 @ \$5.10; Texas steers, \$4.00 @ \$5.00; stockers and feeders, \$3.80 @ \$5.15. Sheep, receipts, 12,000; steady; sheep, \$3.50 @ \$5.30; lambs, \$4.35 @ \$6.50.

Two Deaths.

Mrs. Juana Gonzales died yesterday at her home on the south side. She was aged about 60 years and is survived by two sons and two daughters. Her husband died about 25 years ago. Mass will be said at the Guadalupe church tomorrow forenoon.

Diego Garcia, of Canada de Los Alamos, about ten miles from here, died last night at the home of Mrs. Martin Quintana. Mr. Garcia came here about a month ago to be treated for heart disease. He was aged about 50 years and is survived by his wife, four daughters and a son. He was well known in Santa Fe. Requiem mass will be said at the cathedral tomorrow.

Murder Trial Postponed.

The trial of Cosmo Zapata, charged with the murder of Rojario Beanieba, at Santa Rita, has been continued at Hillsboro until the October term.

Does Your Back Ache?

In constant pain when on your feet? Is that dragging, pulling sensation with you from morn till night? Why not put the medicine exactly on the disease? Why not apply the cure right to the spot itself? You can do it with

Dr. Ayer's Cherry Pectoral Plaster

Immediately after the Plaster is applied, you feel its warming, soothing influence. Its healing remedies quickly penetrate down deep into the inflamed tissues. Pain is quieted, soreness is relieved and strength imparted.

No plaster was ever made like it. No plaster ever acted so quickly and thoroughly. No plaster ever had such complete control over all kinds of pain.

Placed over the chest it is a powerful aid to Ayer's Cherry Pectoral; relieving congestion and drawing out all inflammation.

Weekly, per quarter, \$4.50
Weekly, six months, \$12.00
Weekly, per year, \$22.00

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Postoffice in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

ADVERTISING RATES.

Wanted—One cent a word each insertion. Local—Ten cents per line each insertion. Reading Local—Preferred position—Twenty-five cents per line each insertion. Displayed—Two dollars an inch, single column, per month in Daily. One dollar an inch, single column, in either English or Spanish Weekly. Additional prices and particulars given on receipt of a copy of matter to be inserted.

THURSDAY, JUNE 1.

Later reports from different parts of New Mexico show that the fruit crop was not damaged as much by the May frosts as was at first supposed.

Las Vegas people are preparing an attractive program for the rough riders. The word of Governor Roosevelt has been given that he will attend. Las Vegas will do the rest.

The Socorro Chieftain warns the Bernalillo county commissioners to build their bridge across the Rio Grande high enough to let steamboats pass or the United States Supreme court may order it removed.

If the Democratic party misses the opportunity of making a bad break by declaring against national expansion, it will be about the only time that it has ever had a chance to do the wrong thing and failed.

Under the new ruling by the president about 4,000 persons are liable to be succeeded in office pretty soon, for probably 40,000 people are sitting up nights pulling for the 4,000 places. The variety of pulls will be effectual.

New Mexico hot and mineral springs have not as yet received the attention that they will. Someday they will be resorted to by the scrofulous, the rheumatic, the gouty, the dyspeptic and the bilious as generally as the territory is by pulmonary sufferers.

Santa Fe has had several weeks of sensational reading in district court hearings but this week will get a rest. Next week the grind will begin again and the court of private land claims will furnish some interesting information though scarcely sensational in character.

It is announced in Albuquerque that active preparations are being made to build a railway to Bland from the Santa Fe line at Thornton or Santo Domingo if an investigation as to the quantity of shipping ore at the mines results favorably. A railway will make this excellent camp well known.

Folsom, Union county, boasts of a new weekly newspaper or rather the sixth revival of the Folsom Idea, established in 1888. The name of the new paper is "The Actual Settler," and it promises to stay. It is neatly printed and Folsom, if it ever intends to amount to anything, should support the paper handsomely.

Copper still sticks around the bargain counter figure of 19 cents, but when the Standard Oil people gobble up a few more mines like those of Grant county just bought 1 cent will be added to make an even 20 and a cent may be stuck on daily until the price gets up to the desired notch.

After all is said, it must be admitted that the country press must surrender some of its pride over vituperation hurled at coteries, to the Washington Post, which calls the New York Post, "the congenial sewer through which the country is delivered of its treason, its falsehoods against the government, and its unpatriotic libels."

The Colorado fed lamb now brings 7 cents per pound in Chicago. Feeders in the Pecos Valley, now having quick transportation to Chicago and Kansas City, are also getting better prices than before. The alfalfa fields of that valley need never lack for water and feeders of sheep and cattle are as well off as those of Colorado. Perhaps better off, because there is no cold winter.

The Albuquerque Citizen suggests that Albuquerque shall make June 24, the anniversary of the battle of Las Gueasmas a public holiday; that a train be chartered and the entire population of the city go over and join Las Vegas in doing honor to Governor Roosevelt and his heroic rough riders. The New Mexican takes pleasure in indorsing the same program for Santa Fe, which had the honor of being the place where the soldiers were mustered in for the war.

Peace jubilees and military reunions do not seem to bring the church militant into harmony. The Presbyterians at their meeting last week talked down a proposition to unite the two branches, in northern and southern states. The two branches of the Methodist church are as far from union as ever, although the differences are mainly matters of prejudice, politics and geographical lines. The confederate and union soldiers are nearer to unity than the branches of churches kept apart through prejudices and ambitions of the clergy.

New Mexico has many woman postmasters, perhaps more in proportion to population than any other territory or state in the Union. Life offers too many opportunities in New Mexico to allow an energetic man to sit day after day distributing mail in some corner postoffice. It is work for which women are well adapted, and the generous men, as long as they get the better paying postoffices, are glad to let the smaller crumbs fall to their wives and sisters.

The necessity of the Cattle Sanitary Board applying the tuberculin test when cattle are inspected is forcibly illustrated by the fact that this week twenty-five cows, looking perfectly healthy were tested at the Chicago stockyards and it was found that every cow was in an advanced state of consumption. From the lungs of one cow a pint of tubercular germs was taken and another cow had tuberculosis of the liver. But a week before the milk from those cows was sold in open market. No wonder, that some physicians assert that eighty out of every hundred cases of consumption originate from the drinking of unboiled cow's milk.

It is now given out that Chauncey Depew will come to Las Vegas with Governor Roosevelt. If he does, the senator should bring a new lot of stories for the occasion. The antiquities that he works off on New Yorkers, such as that concerning the Yuma soldier who went to hades and returned for his blankets because he could not endure the climate below without extra clothing, are worn out in the highly original west. Most of the high-class imaginative stories of the day have their birth in the artistic west and are transplanted to the Depew metropolis. Let the senator beware of repeating ancient western anecdotes, lest the cowboy rough riders call him down.

The narrow strip of Texas squeezed in between New Mexico and Mexico should by right be a part of New Mexico. El Paso is in appearance and surroundings more like a city of New Mexico than of Texas. It gets more trade from New Mexico than it does from Texas, and is to all purposes a city of the territory. There is little reciprocity, however. El Paso would be badly off but for her business from New Mexico, while the territory receives little benefit from the Texas city, whose people lose no opportunity to block such development propositions as the irrigation of the Mesilla valley.

Secretary Wilson, of the agricultural department, has made experiments which convince him that tea can be grown in southern states to supply this country. Imports of this article now amount to \$13,000,000, requiring an expenditure of but 17 cents per capita. While it is well enough to make the country self supporting, this tea proposition is getting things down to a fine point. The orientals can grow the tea, handle and cure it so cheaply that the American farmer will find no profit in it. The amount needed is so small that protection would not result in building up a big production, for only the home market could be supplied. The \$13,000,000 paid China comes back, to a great extent, anyway. The American farmer can make it pay better to grow articles of more general consumption, that can not be produced in China at a cheap price and floated across the ocean at a nominal freight rate.

Silver in the Background.

It is significant that at the banquet at St. Louis where 1,400 representative Democrats met to talk over the issues for the coming campaign the orators spoke but little on the silver question. "Of course," said Bryan and others, "we must stand pat on silver. But what else shall we whoop?" The leading Missouri silver champions were not invited to be present because it was not desired to say too much on this subject. There was no end of talk about trusts. The silver issue drove away many Democrats from the party. Mr. Bryan knows this and with all of his assertions that silver is not a dead duck. The trust is to be the bogey held before voters, with a claim that Republicans are the parents. If the claim were true the new tack of the Democracy might carry it into port, but it is not. The Republican press, Republican orators and Republican states are doing what they can to correct trust abuses.

A Fake Boom.

The latest gold boom in Lower California has a suspicious feature about it. The telegrams state that the way to reach the placers is via a new steamship line to be established—if the rush demands it. San Diego press dispatches do the booming. There is much placer gold in Lower California, in sections to be reached by stage lines, but in almost every case expensive hydraulic machinery is required to get the gold, as water has to be piped long distances and the gravel elevated for washing, there being no fall to the ground where the gold is found. An individual miner can not work to advantage in such localities. The placers in Lower California, which are being advertised at present, are in a district where there is absolutely no water and it is hundreds of miles away from supplies, while the natives on the ground have the chance to take the best of the field before any considerable number of Americans can get there. Still there will be a rush, for difficulties seem to attract the adventurous who would not go to a mining country easy of access. Some tall stories will soon float northward to be followed by a tardy statement of facts.

The Rock Island Railway Coming.

Some of the papers in Indian Territory and Texas announced some weeks ago that surveys were running a line

RUNNING SORE ON HIS ANKLE.

After Six Years of Intense Suffering, Promptly Cured

By S. S. S. entire circulation is in a depraved condition. They are a severe drain upon the system, and are constantly sapping away the vitality. In every case the poison must be eliminated from the blood, and no amount of external treatment can have any effect.

There is no uncertainty about the merits of S. S. S.; every claim made for it is backed up strongly by convincing testimony of those who have been cured by it and know of its virtues by experience.

Mr. L. J. Clark, of Orange Courthouse, Va., writes:

"For six years I had an obstinate, running ulcer on my ankle, which at times caused me intense suffering. I was so disabled for a long while that I was wholly unfit for business. One of the best doctors treated me constantly but did me no good. I then tried various blood remedies, without the least benefit. S. S. S. was so highly recommended that I concluded to try it, and the effect was wonderful. It seemed to get right at the seat of the disease and force the poison out, and I was soon completely cured." Swift's Specific—

S. S. S. FOR THE BLOOD

—drives out every trace of impurity in the blood, and in this way cures permanently the most obstinate, deep-seated sore or ulcer. It is the only blood remedy guaranteed purely vegetable, and contains not a particle of potash, mercury, or other mineral. S. S. S. cures Contagious Blood Poison, Scrofula, Cancer, Catarrh, Eczema, Rheumatism, Sores, Ulcers, Boils, or any other blood trouble. Insist upon S. S. S.; nothing can take its place.

Valuable books mailed free by Swift Specific Company, Atlanta, Ga.

Code of Civil Procedure.

Every practicing attorney in the territory should have a copy of the New Mexico Code of Civil Procedure, bound in separate form with alternate blank pages for annotations. The New Mexican Printing company has such an edition on sale at the following prices: Leatherette binding, \$1.25; full law sheep, \$2; flexible morocco, \$2.50.

Application for Bids for Territorial Certificates of Indebtedness to Pay Deficiencies.

The undersigned will receive sealed bids up to 10 o'clock a. m. on the 27th day of June, A. D. 1899, for the purchase at not less than par of the whole or any part of the following certificates of indebtedness of the territory of New Mexico, dated March 1, 1899, issued for the purpose of paying deficiencies in territorial revenue, amounting to \$125,973.47.

These certificates are issued under an act providing therefor, by the 33d legislative assembly, approved March 10, 1899; they are dated March 1, 1899, bearing interest from that date at the rate of 6 per cent per annum, payable semi-annually evidenced by coupons; principal and interest payable at the office of the territorial treasurer, Santa Fe, New Mexico, principal payable five years after date, but may be paid at the option of the territory at any time after one year from date.

The law provides that one-fifth of the entire issue will be paid annually with interest. These certificates will be issued in denominations of one hundred dollars or multiples thereof. Sales will be made of the entire issue, or of the entire issue in any series, or portions of any series will be sold in blocks of ten thousand dollars or more, to the highest and best bidder for cash, delivery to be made in Santa Fe.

For further particulars address the undersigned at his office, in Santa Fe, New Mexico. SAMUEL EIDOPY, Treasurer of Territory of New Mexico.

OJO CALIENTE (HOT SPRINGS.)

THESE Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Barranca Station on the Denver & Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90° to 125°. The gases are carbonic. Altitude 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1686.34 grains of alkaline salts to the gallon; being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested in the following diseases:—Paralysis, Rheumatism, Neuralgia, Constipation, Malaria, Bright's Disease of the Kidneys, Syphilis, and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, Lodging and Bathing, \$2.50 per day. Reduced rates given by the month. This resort is attractive at all seasons and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 10:08 a. m. and reach Ojo Caliente at 5 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, \$7. THE CITY COUNCIL.

Marshal Chosen and Jobs Given to a Councilman and a Councilman's Son.

There was a deal worked through yesterday, and an unannounced special meeting of the city council was held last evening at which several members who had refused to sustain the mayor and endorse his selection for marshal confirmed T. P. Gable for that position. Sol. Spilberg and Celso Lopez being the only two who voted in opposition.

A resolution was passed reducing the number of policemen from four to one and the marshal was authorized to select one whom the mayor will recommend.

Councilman Climaco Trujillo was appointed to run the city sprinkler at a salary of \$65 per month. Benito Alarid, son of Councilman Canuto Alarid, was appointed to gather garbage, the pay being \$95 per month. Ascencio Guerrero was elected city magistrate to succeed J. M. Garcia.

The election contest between Eugenio Sena and David Gonzalez was placed in the hands of a committee consisting of John Patterson, Canuto Alarid and Climaco Trujillo, which will result in seating Mr. Sena.

Another resolution was adopted accepting the plaza in front of General E. L. Bartlett's residence as a city park, the citizens residing around the plaza having donated the land and offered to sod plant it with trees and to otherwise beautify it.

The councilmen who refused to endorse the action of the council in creating new positions for a member and paying a salary, maintain that it is illegal. The law distinctly declares that no councilman shall be interested in any contract or receive compensation for any service rendered the city.

Heretofore the garbage work and sprinkling have been in charge of one man employed for that purpose.

There is a rumor that an application for an injunction will be made to prevent the city from paying money to a member of the council and that some taxpayers will ask to have the city disincorporated to prevent taxes being collected and disbursed in such a manner.

"THE OLDEST MINE."

Said to Be One Now Operated by a St. Louis Company.

Within the last few months active operations have begun at Dolores, Santa Fe county. Dolores is one of the oldest strictly mining towns in New Mexico, but up to a few months ago no mining along modern methods has been going on in Cunniffham, mountain which is a mass of gold bearing rock, the lowest assay of which was \$4 to the ton. It is said that the oldest mine in the United States is two miles from Dolores and has penetrated the mountain only to a depth of 300 feet. It is called the Ortiz and is on the Ortiz grant. It is now operated by a St. Louis company who have built a Huntington concentrator with amalgam plates and gravity tables. The mill has a 120-horse power boiler, and 80-horse power engine. The mill has a capacity of 50 tons a day. The high grade ore is shipped while the low grade ore from \$4 up is concentrated.

Long ago, at Dolores, wire gold and rich gold combinations were found by placer miners. The miners uncovered a rich ledge full of free gold. But until a short time ago no mining on a scientific and modern basis was done there.

The Mimbres Hot Springs

The Mimbres Hot Springs in Grant county are not so well known as some others in that section, but must be regarded as among the most efficacious in various diseases to be found anywhere in the world. There are a great number of springs within a radius of a few hundred yards, ranging in temperature from cold to almost boiling heat and containing a great variety of minerals, such as sulphur, magnesia, iron and alum. The springs are 33 miles from Silver City, on the Mimbres river. They are known to have effected cures in many cases of severe rheumatism, building up depleted systems and purifying bad taints in the blood.

PERSONAL MENTION.

E. H. Humes, of Las Vegas, is a guest at the Palace.

Frank Conklin went to White Rock this morning.

Charles Atchison, of Reading Pa., is a guest at the Palace.

L. Skinner, of Albuquerque is a guest at the Exchange.

Ernest Schneider, of Denver, is stopping at the Palace.

W. R. Forbes, of Albuquerque is stopping at the Exchange.

L. H. Darby, a Denver traveling man, is stopping at the Palace.

Mr. and Mrs. W. P. Gould, of Cerillos, are guests at the Exchange.

J. H. B. Gilmore, a ranchman from Pecos, is stopping at the Palace.

E. S. Mason, a traveling man from Pueblo, is a guest at the Palace.

Col. George W. Knaebel went up the canon this morning on a fishing trip.

W. H. Gibbs, of the south side is confined to his home with serious illness.

Misses Amelia and Gertrude Santistevan, of Taos, are guests at the Palace.

Mrs. Henrietta Hild returned home last evening from a visit to Las Vegas.

Theodore Rickenbacher and E. F. Anderson, of Topeka, are guests at the Palace.

Harry G. Wilson, of Chicago, a commercial traveler, is stopping at the Palace.

Nelson Chamberlain, of Santa Fe, after making a leisurely bicycle trip, has arrived at Socorro.

Territorial Auditor L. M. Ortiz has returned to Santa Fe from a visit to his home at Los Luceros.

George Lewis, of Las Vegas, came in last night to work at the capital building. He stops at the Bon-Ton.

Chas. Stump and George D. Stump, of Colorado Springs, are sojourning in the city. They are guests at the Bon-Ton.

Lieutenants Page B. Otero and Sherard Coleman left this morning for the Pecos, where they will camp several days.

J. E. Mack, representing a Denver brewery, registered at the Exchange last evening. He went to Espanola this morning.

Contractor A. Windsor went to Espanola this morning to open a stone quarry from which stone for Bond Bros., new building is to be taken.

W. G. Rock and A. R. Gibson drove overland this morning to Chamita to look up some mining property. They have taken up their residence with their families at the cottage of Celestino Ortiz on the south side.

Dr. Francis Crosson, formerly of Santa Fe and who has been writing and speaking all over the country in behalf of Santa Fe as a health resort for consumptives, passed Lamy last evening on the way south.

Rafael Herrera, of San Ildefonso, is in the city. Mr. Herrera says that the smallpox at San Ildefonso has disappeared. There were only four cases, but they all proved fatal. There are still two cases about two miles from the town.

Mrs. T. D. Burns and daughters arrived in Santa Fe last evening and are stopping at the sanitarium. They have been at Santa Monica, Oakland and other California seaside resorts and enjoyed several ocean voyages. They intend to return home to Tierra Amarilla tomorrow.

Mr. and Mrs. G. L. Strowger, who came to Santa Fe a few months ago on account of Mr. Strowger's health have been advised by a physician to go home as the altitude of Santa Fe is too great for the sufferer. They will leave this evening for their home. Wheaton, Travis county, Minnesota.

Sold Out for \$5,000.

Peter Spray an old miner at Cook's Peak, Grant County, has sold all his interests to C. H. Tuchwood for \$5,000.

Good for Itching Backs

MOTHERS! Mothers! a hot bath with CUTERA SOAP, when followed by a single application of CUTERA Ointment, will afford the most grateful and comforting relief in the severest forms of itching, burning, and scaly skin and scalp humors, rashes, and irritations, and point to a speedy, permanent, and economical cure when all other remedies and even the best physicians fail.

Sold throughout the world. Forgive Deeds and Cure, Cook's, Topeka, Kansas. How to Cure Itching Humors, etc.

AROUND AZTEC.

Impressions of An Immigrant from Missouri to San Juan County.

In a letter to the Reflex, published at Buffalo, Mo., W. A. Coon, who recently arrived in Aztec with a party of fellow-Missourians, describes his trip and the country through which he passed, ending it with the following accurate and interesting description of San Juan County:

By this time we were sick and tired of the reservation, and proceeded down the valley for Aztec. After reaching the territory of New Mexico the valley becomes broader, and many beautiful farms were to be seen on either side of the stream. Instead of beholding snow we saw all kinds of fruit trees in bloom. Upon reaching Aztec we soon found Granville Pendleton, who welcomed us in the good old Missouri manner and made us feel at home.

Our journey lay on down the valley to Farmington, which is one of the prettiest places I have ever seen. The roads are good, and one can easily drive sixty or seventy miles in a day. Our crowd was highly pleased with the country, and frankly told Judge Pendleton he had not over-estimated the country in the least particular. From Farmington we went up the San Juan river, where Mr. Corkins purchased a lovely ranch of 250 acres under fence and irrigation for only \$1,500. Mr. Corkins has a fine farm of 200 acres of fine Missouri land near Bethany worth \$8,000 or \$10,000, and he will go back home and dispose of it and come to his beautiful farm and stock ranch in San Juan county, N. M. I think there is no question but that Drs. Phillips and Clayton will locate also.

Aztec has a fine two-story brick school building, a roller mill, one or two churches, a good bridge across the Animas, and is the county seat of San Juan county. Nearly all of the settlers are from Missouri, so you may know the society is first class. Land can be procured for a small sum, already irrigated and in cultivation. The soil is of the best quality I have seen, and is of great depth. Taxes are low, and all farm products are very high. The water supply is inexhaustible, and there is no such thing as a failure in crops. It is the greatest fruit country in the world. Time will not permit me to give a longer account of this lovely country, but if any of the readers feel interested in this country I will take pleasure in writing them personally about this lovely climate, where a poor man can grow rich and live happy.

Beautiful Sea Shells.

Every one admires them. Since coming south I have received numerous inquiries from northern people for sea shells, and now I am prepared to answer yes. I can send you shells, for I have made quite a collection of lovely shells, both from our own coast, the coral reefs and some beautiful ones from the West India Islands. I will mail a dozen or more different kinds, not two alike, to any one who sends a stamp for postage. Mrs. F. A. Warner, Jacksonville, Fla.

Texans Visit New Mexico.

About 125 excursionists from Amarillo, Texas, visited Eddy and Roswell, but were in too bad a humor to appreciate the hospitality of the two beautiful towns of the Pecos valley. They had been 22 hours on the train, having been delayed half a day by a washout at Canon City. They arrived at Eddy in the middle of the night and most of them started for home at daylight. Some of them had never been out of Texas and were afraid they would get lost if they left the train.

MINOR CITY TOPICS.

The trout season opened today. Half a dozen laborers from Albuquerque went to La Veta pass this morning.

A regular meeting of the Guild will be held tomorrow afternoon, at the residence of Mrs. J. T. Newhall, at 2:30.

The board of county commissioners will meet Monday, June 5, as a board of equalization and remain in session until all assessments have been examined.

A large number of small holding claims for Santa Fe county are being filed in the surveyor general's office and the chances are that \$5,000 will be expended this summer to survey the township.

Charles Wagner, the furniture dealer and undertaker today resumed his former position in the advertising columns of the New Mexican. He recently received a large consignment of carpets and rugs which he is selling at reasonable prices.

Hon. T. B. Catron is having the small triangular plaza in front of his residence and belonging to the federal building fenced, soiled and trees planted on it. There can not be too many pretty spots of that nature in the city.

Justice J. M. Garcia this morning heard the case of Felipe Ortiz, mayor-domo of a local ditch, against Abel Casados, who was accused of using water without authority of the mayordomo. Casados was fined \$1 and costs and was advised to recognize the authority of the mayordomo in the future.

Secretary Wallace has received a digest of the laws passed by the last legislature of Washington. Judging by the size of the book the Washington legislators found it necessary to pass three times the number of the laws that the New Mexico legislators did. The secretary also received a blue book of North Dakota, that is neatly printed and handsomely bound. It is a book of information and statistics about North Dakota and is a good advertisement for the state.

The 55 gallon chemical engine purchased by the Santa Fe fire department arrived at the depot last evening from Denver and was this afternoon taken to the fire station. It will be tested tomorrow evening on the plaza. The engine cost \$425 and makes a very neat appearance. Its body consists of a cylindrical tank containing chemicals and mounted on an iron truck that is painted red and inscribed with "Santa Fe No. 1." Above the tank is a wire netting box containing hose. A tool chest serves as seat for the driver, and at the side of the tank are the man's axe and pick. The engine was built by the Fire Extinguisher Manufacturing Company of Chicago.

U. S. Weather Bureau Notes.

Forecast for New Mexico: Partly cloudy weather tonight and Friday. Yesterday the thermometer registered as follows: Maximum temperature, 72 degrees, at 3:50 p. m.; minimum, 46 degrees, at 4:15 a. m. The mean temperature for the 24 hours was 59 degrees; mean daily humidity, 14 per cent.

Why Women Are Nervous.

[British Medical News.] The frequent cases of nervous prostration or utter collapse of the nervous system under which women "go all to pieces," as the saying is, have caused much thought and investigation on the part of physicians.

Certain inorganic substances are well known to cause various forms of nervous diseases which are readily traced to the poisons producing them. Further research leads to the belief that aluminum is a prevailing cause of so-called nervous prostration, for the symptoms it produces on the nervous system after its absorption into the blood are very remarkable indeed. Experiments physiologically made upon animals by Orfila, Professors Hans Mayer, Paul Seim, and others, show that aluminum frequently produces no visible symptoms for many days after its introduction into the body. Then follow loss of appetite and other alimentary disturbances, and finally a serious prostration of the whole nervous system. The most prominent physicians now believe that "nervous prostration" and many affections of the nerves from which both men and women suffer are caused by the continued absorption of aluminum into the body.

It is probable that many medical men are unaware of the extent to which salts of alumina may be introduced into the body, being under the impression that the use of alum in bread is prohibited. Alum, however, is still used surreptitiously to some extent to whiten bread, and very largely in making cheap kinds of baking powder. In families where baking powder is generally used great care should be exercised to procure only those brands made from cream of tartar. The alum powders may generally be distinguished by the lower price at which they are sold.

A Mining Corporation.

The Blue Rapids Mining & Milling company today filed incorporation papers in the secretary's office. The object of the company is to do mining and reducing of ores, buy and sell ores, acquire mines, mining claims, mill sites, tunnel sites, town sites, operate and sell the same, build and maintain and operate telegraph and telephone lines, board houses, etc. The capital stock is \$100,000 of which \$50,000 is paid up. The company will have its headquarters at Cook, Grant county. The directors are J. F. Drake, R. S. Millmore, J. O. Nevin, S. C. Cratt, W. P. Brown, of Blue Rapids, Kansas.

CAUSED A CHANGE.

"We have used Hood's Sarsaparilla in our family for a number of years and have found it one of the best medicines we can get. Our little boy had been sick for some time, but Hood's Sarsaparilla has made him strong and hearty. We recommend this medicine to others." MRS. FLORA M'GEE, Tucson, Ariz.

Hood's Pills cure nausea, sick headache, biliousness, indigestion, constipation.

Cattle Items.

Otero county has 39,000 cattle, 35,000 sheep and 5,000 horses. A. Baldwin, of Rincon, has bought out the Bar Cross cattle and range property and has received upward of 12,000 steers to date.

Floersheim & Abbott, near Springer, have already 13,000 lambs and expect an average of 60 per cent.

Colonel Dick Hudson and Watkin Bros., of Deming, sold and delivered 250 yearlings to George Chessman, of Denver.

Lon H. Brown, of Deming, sold and delivered a trademark of 1,000 yearlings to E. W. Rankin, who sent them to Dunsmuir, Neb., to fatten.

Baer Brothers have purchased 500 head of cattle from Dan McMillen, Charles Campbell and S. T. Toney, the prices being \$15 for yearlings and \$18 for two, in Grant county.

A representative of a Kansas City firm recently purchased from T. J. Clark and a number of others 900 cattle. The stockmen brought the cattle to Silver City but to their chagrin the purchaser failed to show up.

Thomas Lyons shipped 1,500 cattle from Silver City to Colorado.

Frank Johnson brought a wagon load of hides to Santa Marcial taken from cattle that died at his range within a few weeks, owing to the scarcity of water and feed.

A big movement of cattle from Socorro county to Kansas, Colorado and other points will begin this week.

Only 25 Cents

Is all they ask you for the best meal that you ever saw. If you don't believe it call at the Bon Ton Restaurant and be convinced.
