BANDITS' BULLETS

Another Squad of Soldiers Run Up
Against the Terrors of Philip-
pine Hills.

MOVEMENTS OF VOLUNTEERS

They Are Being Sent Home by General Otis
As Rapidly As Transports Are Ready—
An Order Sent to Him to Expedite
the Movement.

Washington, July 26.—Three cable
messages from General Otis were re-
ceived at the war department to-day, as
follows:

"The following was received from Ce-
bu to-day: 'Bandits from Cebu moun-
tains are robbing and impressing people
of the coast towns. Monday, Lieutenant
Moore, with a detachment of the 23d
infantry, while scouting in the moun-
tains, was fired upon from a strongly
fortified position; one private was killed
—name not given. No other casualties.
Enemy's loss, five bandits killed, seven
captured.'

"Bell has enlisted about 500 men. Wal-
lace is still south, and has about 400.
Lockett is now enlisting; has over 400
applications, which are coming in rap-
idly. Might raise here an additional
regiment exclusively volunteers."

"The storm has abated. The Sherman
has sailed, and leaves to-day with all
troops from California. The Grant is
being loaded, and leaves in about four
days with troops of North Dakota, Wy-
oming and Idaho. The Minnesotans are
preparing to leave on the Sheridan as
soon as the transport can be unloaded
and loaded. Other volunteer organiza-
tions will leave as soon as transports
are available."

VOLUNTEERS TO HURRY HOME.
Washington, July 26.—General Otis
has been cabled to send volunteers home
as rapidly as possible.

Big Fire in Prussia.
Berlin, July 26.—A great fire is raging
at Marienburg, West Prussia. At noon
forty houses had been razed. Fire brig-
ades from Danzig and Elbing were
summoned to assist in subduing the fire.

POISONOUS CANNED FRUIT.

Guests of a London Hotel Died As a Result
of Eating It.

London, July 26.—Much excitement
has been caused here by the mysteri-
ous poisoning of a score of guests at
the Court hotel, which, it is alleged, was
due to American canned fruit. F. W.
Bartlett, of Philadelphia, died during the
night. The fruit was eaten a week
ago. All who partook of it were made
ill, one dying July 21. The medical
certificate assigned gastro-enteritis as
the cause of death.

Idaho Striker's Trial.

Wallace, Idaho, July 26.—Owing to
Council Reedy's continued illness, no
session of court was held to-day. The
judge announced that a night session
will be held to-night, and the Corcoran
case will go to the jury before adjourn-
ment. At the close of this case, a recess
will be taken before beginning the next
one, but its length is not determined.

Not the Post.

Boston, July 26.—Governor Wolcott
to-day nominated Judge Oliver Wendell
Holmes to succeed the late Walbridge
A. Field as chief justice of the supreme
court of Massachusetts.

The President's Outing.

Washington, July 26.—President Mc-
Kinley and party left Washington at 3
o'clock on the Pennsylvania railroad for
Lake Champlain.

Pingree Shoe Factory Strike.

Detroit, July 26.—The combination
strike and lockout of the Pingree &
Smith shoe factory has ended. All of the
600 employees will resume work to-mor-
row. The company gained a victory
over the union, but according to strike
leaders there will be warfare against
the factory by the international union.

Dreyfus is Ill.

Paris, July 26.—The Petit Journal says
Captain Dreyfus is ill with fever, and
his condition is serious.

TERRITORIAL TOPICS

CHAVES COUNTY.

D. S. Rosenwald, of Albuquerque, has
associated himself in business with Mr.
Fletcher, of Roswell, under the firm
name of Fletcher & Rosenwald.

F. P. Morgan, general live stock agent
of the Pecos Valley & Northeastern
railroad, is exhibiting an automatic car
coupler that is a success. It was in-
vented by a cowboy named J. W. Gilles-
pie, but Mr. Morgan owns the control-
ling interest in the invention.

R. J. Dunahoo and Miss Mary Chew-
ning were married at Roswell by Rev.
G. W. Read.

Five cars of a freight train bound for
Roswell were derailed on the Pecos Val-
ley & Northeastern railroad near Elida.
George M. Gaither, a cattle buyer
from El Paso, has secured an option on
160 acres of land two miles from Ros-
well. W. G. Hamilton is the owner of the
land.

W. E. Thorne, civil engineer of the
Roswell Land and Water Company, left
for Auburn, Cal., where he has accept-
ed the position of manager of the Gold
Bug mine.

TAOS COUNTY.

Amsett is making pretensions to be-
ing a summer resort, and there is talk
of building a sanitarium there.

A. Lovato, of Rancho, has been
awarded the contract to carry the mail
between Embudo and Taos.

Mrs. Rafaelita Simpson Brooks, 19
years of age, died of uremic convulsions
at Taos. She was a daughter of
Captain and Mrs. S. H. Simpson.

STRIKERS QUIET NOW

The Presence of Militia Has a Salu-
tary Effect Upon Strikers
at Cleveland.

ALL CAR LINES OPERATING

A Serious Riot Occurred Last Night at
Collinwood, a Suburban Town—About
1,300 Soldiers Assisting the
Police Force.

Cleveland, July 26.—That the presence
of a strong force of militia now doing
service in this city has already had a
salutary effect upon the lawless element
was evidenced this morning by the fact
that obstructions placed upon the tracks
of the Big Consolidated street car lines
last night were fewer than at any time
since the strike was inaugurated. This
morning practically the full quota of
cars were running on nearly all lines.

About 1,300 troops are now acting in
co-operation with the regular police
force.

A riot, which was not reported until
to-day, occurred at Collinwood, a sub-
urban town, last night. A spike was
placed between the ends of two rails
and caused the car to jump the track.
A mob of 400 persons pelted the non-
union crew with missiles. A call for as-
sistance was responded to by Captain
Radder, of the naval reserves, with fif-
teen men. Captain Radder said he
would order a charge unless the crowd
immediately dispersed. The mob an-
swered with a shower of stones, several
reserves being struck. A charge with
fixed bayonets was ordered, and the mob
quickly scattered in all directions.

Cleveland, O., July 26.—At noon the
Brooklyn trolley car was stopped on
Brooklyn-Brighton bridge by strikers,
who boarded the car, dragging conduc-
tor and motorman from their posts. The
two men were beaten and roughly han-
dled, but not seriously injured. Soldiers
acting as special police and on duty at
the barns came up on a run, but the
mob dispersed.

CASE OF MRS. RICH.

The Mexican Government Grants Conces-
sion to the Prisoner.

El Paso, July 26.—Mrs. Rich, accused
of having murdered her husband in
Mexico, will be kept incommunicado in
Juevez forty-eight hours, instead of
seventy-two, as the law directs. To-day
she was arraigned by direction of Gov-
ernor Ahumada. The prisoner will be
permitted to receive visitors two days
in the week, and newspaper reporters
at all times. The trial will begin six
weeks hence.

Since being locked up in Mexico, Mrs.
Rich has refused to eat, and is said to
be very sullen.

MARKET REPORT.

New York, July 26.—Money on call

steady 3 1/2 per cent. Prime mercantile

3 1/2 @ 4. Silver, 60 1/2; lead, 43 1/2.

Chicago.—Wheat, July, 70 1/2; Sept.,

71 1/2. Corn, July, 32 1/2; Sept., 32 1/2. Oats,

July, 24; Sept., 19 1/2 @ 19 1/2.

Kansas City.—Cattle, receipts, 5,400;

steady to strong; native steers, \$4.25 @

\$5.50; Texas steers, \$3.35 @ \$5.30; Texas

cows, \$2.00 @ \$3.35; native cows and

heifers, \$2.50 @ \$3.15; stockers and feed-

ers, \$2.25 @ \$4.85; bulls, \$2.50 @ \$4.00.

Sheep, receipts, 2,000; steady; lambs,

\$4.00 @ \$6.00; muttons, \$3.80 @ \$4.50.

Chicago.—Cattle, receipts, 13,500;

stronger; best steers, \$4.50 @ \$5.35; cows

and heifers, \$2.00 @ \$4.00; Texas steers,

\$4.00 @ \$5.30; stockers and feeders, \$3.15

@ \$4.85. Sheep, receipts, 11,000; steady;

sheep, \$3.00 @ \$5.00; lambs, \$4.00 @

\$6.75.

A Reformatory Ship Burned.

Liverpool, July 26.—The Roman Cath-
olic reformatory ship Clarence was
burned this morning. Intense excite-
ment prevailed until it became known
that 100 lads and officers on board were
saved by ferriesboats.

The Horticultural Society.

The meeting of the Horticultural so-
ciety last evening was well attended and
decided upon many of the arrangements
for the annual fair. At a meeting this
evening the date will be finally deter-
mined upon, after consulting exhibitors,
with reference to the fair in Alberque-
que and the festival in Denver.

SCHOOL HOUSE NEWS.

Outside Papers Commenting Upon Santa
Fe's Intention to Build.

The mere fact that Santa Fe is dis-
cussing the erection of a new school
building is a good advertisement for
the city. Nearly every paper in the
territory has called attention to the
matter, and the Denver papers noted it.
The school journals are also comment-
ing upon the proposition. An inquiry
was received to-day from the Central
Trust Company of Denver asking about
the issue of bonds that would be placed
on the market to pay for the new build-
ing, undoubtedly with the intention of
bidding on them.

At the Hotels.

At the Claire: H. S. Hall, Ignacio, Col.

At the Exchange: C. J. Shaffer, Pitts-

burg; W. S. Connett, Denver; W. W.

Jones, San Marcial.

At the Palace: H. L. Waldo, Las Ve-

gas; George Saxon, Alamosa.

Las Vegas Notes.

Messrs. Strouse & Bacharach have
decided to erect a business block opposite
the Castaneda. Mr. Strouse lives in
Philadelphia and was formerly a resi-
dent at Mora.

Sunday evening Miss Lillie Davis and
Oscar Land were married at the resi-
dence of B. M. Blauvelt.

Maxie Townley, the 8-year old boy
who threw a stone and killed a girl
named Manuella Trujillo, has been
held to answer before the grand jury,
on a bond of \$1,000.

The E. Romero hose company has
enlarged its building and secured new
equipment, the expenditure for both
purposes being about \$1,000.

MADE A COMPROMISE

Newsboys at Cincinnati Practically
Won Their Strike and Went to
Work Again.

MESSANGER BOYS STILL OUT

The Strike of Messengers in New York
City Has Also Been Settled—
The Police Interfered in
Cincinnati.

Cincinnati, O., July 26.—The messen-
ger's strike continued to-day, but law-
lessness is much lessened by the active
work of the police. Several new messen-
gers were beaten, but the police ren-
dered prompt assistance. No crowds
were allowed to collect.

Cincinnati, O., July 26.—The evening
newspapers this afternoon reconsidered
the decision about accepting unsold pa-
pers, and offered to compromise, which
was accepted, and the papers were
again on the streets a little before noon.

New York, July 26.—The messenger
boys' strike has not been officially de-
clared off, for no leader or committee
makes such an announcement, but the
strike is at an end.

PITTSBURG BOYS SURRENDER.

Pittsburg, July 26.—The strike of
Western Union Telegraph messengers
ended to-day, and the boys are all at
work again. They claim the company
promised to concede their demands, but
this is denied by officials.

Start for Home.

Manila, July 26.—The transport Sheri-
dan sailed to-day for San Francisco
with the California infantry, two bat-
teries of the California heavy artillery
and 275 discharged soldiers of other reg-
iments.

Bringing Gentry Back.

Sheriff Blackington, of Socorro coun-
ty, wired to Santa Fe this afternoon
that he had secured Ernest Gentry in
California, and would start home with
his prisoner this evening.

Gentry is accused of holding up the
office of the Alamogordo Lumber Com-
pany, and was arrested in northern
California for Sheriff Blackington.

FOR CENTRAL SCHOOL.

But Would Retain Ward Buildings for
Primary Classes.

To the Editor of the New Mexican.

I noticed in the columns of your paper
of Tuesday, July 25, that I have been
quoted as saying that I favored the dis-
posal of the ward school buildings. I
wish to say that I do not. I said at the
meeting that the ward school buildings
should be retained because they would
undoubtedly be needed for primary pur-
poses.

Member Board of Education, Ward 1.

U. S. Weather Bureau Notes.

Forecast for New Mexico: Generally
fair tonight and Thursday.

Yesterday the thermometer registered
as follows: Maximum temperature, 83
degrees, at 3:10 p. m.; minimum, 56
degrees, at 5:50 a. m. The mean tempera-
ture for the 24 hours was 70 degrees;
mean daily humidity, 45 per cent.

Race with Death.

El Republicano, of Socorro, says:
"One hundred and fifty miles on horse-
back in 28 hours is pretty fast time, but
was made by Reed Dean, a ranchman
living west of here, whose child had been
bitten by a polecat. The ride was made
against time in order to save the little
one's life. A few applications of J. J.
Leeson's mad stone on the lacerated
places relieved the baby and he is now
resting easy, with fair chances of recov-
ery. A dog that went to the rescue of
the child was also bitten and is now held
in quarantine to see if he will develop
symptoms of rabies."

Largest Turquoise Ever Found.

Two miles from the depot at Jarilla
on the El Paso & Northeastern railroad,
a new turquoise mine has been discov-
ered. It is on the property of Lorenzo
Luna, who recently picked up a piece of
turquoise that weighs nearly two pounds.
A force of men developed the property
in one day picked up two gallons of
turquoise.

A Happy Mother's Gratitude

[LETTER TO MRS. PINKHAM NO. 26.]

"DEAR MRS. PINKHAM—I have many,
many thanks to give you for what your
Vegetable Compound has done for me.
After first confinement I was sick for
nine years with prolapsus of the womb,
had pain in left side, in small of back,
a great deal of headache, palpitation
of heart and leucorrhoea. I felt so
weak and tired that I could not do my
work. I became pregnant again and
took your Compound all through, and
now have a sweet baby girl. I never
before had such an easy time during
labor, and I feel it was due to Lydia
E. Pinkham's Vegetable Compound. I
am now able to do my work and feel
better than I have for years. I cannot
thank you enough."—Mrs. Ed. ER-
LINGER, DENVER, TEX.

Wonderfully Strengthened.

"I have been taking Lydia E. Pink-
ham's Vegetable Compound, Blood
Purifier and Liver Pills and feel won-
derfully strengthened. Before using
your remedies I was in a terrible state;
felt like fainting every little while. I
thought I must surely die. But now,
thanks to your remedies, those feel-
ings are all gone."—Mrs. EMILIE
SCHNEIDER, 1244 HELEN AVE., DETROIT
MICH. ©

TROOPS IN GEORGIA

A Negro Prisoner's Life Is Still
In Danger In Decatur
County.

A MOB IS GOING BY TRAIN

State Troops Found That One Mob Had
Dispersed—More Militia Being
Rushed to Bainbridge, the
Seat of Trouble.

Bainbridge, Ga., July 26.—Two com-
panies of the state militia, ordered here
by Governor Chandler to prevent fur-
ther lynchings, arrived to-day, and are
now on duty around the Decatur county
jail. John Williams, the negro whose
life was threatened last night, was not
lynched, and when the state troops ar-
rived they found the mob dispersed. It
is alleged the mob will be reorganized to-
day.

Albany, Ga., July 26.—Two companies
of militia here are under orders to await
instructions from Governor Chandler to
go to Bainbridge in case they are need-
ed to suppress further trouble.

IN ALABAMA ALSO.

Birmingham, Ala., July 26.—Hender-
son Tunstall, the negro who killed Jus-
tice of the Peace J. K. Hamilton at
Blount Springs last Friday night, while
resisting arrest, was captured at Cull-
man last night. When the news reached
Blount Springs a mob formed to go to
Cullman and lynch Tunstall. The mob
left Blount Springs on a north-bound
passenger train at 1 p. m. to-day. The
governor has ordered out the Birming-
ham rifles to protect the negro.

Detroit May Have a Strike.

Detroit, Mich., July 26.—A strike of
street railway employees at Detroit is
among the possibilities of the near fu-
ture. The executive committee of a lo-
cal union was in conference this after-
noon with company officers, the chief is-
sues being changes in the number of
working hours and increase in pay from
21 to 25 cents per hour.

The Dock Strikers.

Ashtabula, O., July 26.—The result of
a conference between a committee of
striking ore handlers and Manager L.
C. Hanna, of the M. A. Hanna docks,
held in Cleveland, was unsatisfactory,
although some concessions were offered.
The company consented to dismiss Chief
Engineer McNutt, but declined to let
Superintendent Razer go. The strikers
have not yet taken action on the report.

Low Rates to Mexico City.

The Mexican Central Railway will sell
round-trip excursion tickets from El
Paso to Mexico City on July 22, 23, 29,
30, August 5, 6, 1

Weekly, per year, by mail.	9.00

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Postoffice in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

ADVERTISING RATES.

Wanted—One cent a word each insertion. Local—Ten cents per line each insertion. Reading Local—Fifteen cents per line. Twenty-five cents per line each insertion. Displayed—Two dollars an inch, single column, per month in Daily. One dollar as such, single column, in either English or Spanish Weekly. Additional prices and particulars given on receipt of a copy of matter to be inserted.

WEDNESDAY, JULY 26.

Colonel Ingersoll is to have no rest. Missouri Spiritualists have already secured an interview with the dead disbeliever.

Otero county is young, but her word is good for a few thousands of dollars any day, and capitalists are willing to pay for the privilege of lending her money.

An issue of \$5,000 of Otero county bonds sold yesterday above par. This is worthy of comment, as the issue was so small that the large bond dealers generally did not care to bid. Indeed, the bonds brought a small premium.

Over one-third of the 15,000 men to be sent to the Philippines have been enlisted. Probably more than the entire number wanted have offered to enlist. Still, there has been no appeal to patriotism nor any brass-band business to stir up the people. There are plenty of men who wish to go to the war and need no urging.

The Duncan tax law is bearing excellent fruit. Tax collections for the month of June were better and more satisfactory than ever in the history of the territory. The law operates well, although its working discloses some defects that can, however, be easily remedied by the thirty-fifth legislative assembly. Upon the whole, the Duncan tax law is all right.

The commissioner of the general land office has given permission, according to a Washington dispatch, for sheep to graze for two months upon the open portions of the Uintah reservation in Utah. There is no official confirmation of this statement. A few weeks ago sheepmen in this territory were very anxious for a privilege of this character, but were denied. Nature, however, was at last kind to them, and rains have relieved the stress caused by drought.

The imports from Germany to the United States of manufactured articles increased from \$76,000,000 to \$86,000,000 in the last fiscal year. A considerable part of the imports from Germany consisted of beet sugar. It seems strange, indeed, that the splendid opportunities that New Mexico offers for the raising of sugar beets and the manufacture of beet sugar are neglected, while it is necessary to send gold to Germany for this commodity.

At the Kansas penitentiary striped suits have been discarded for gray, and a prisoner wears stripes only when he has been disobedient or deserved punishment. This is a humane reform. The striped garment is everywhere a sign of disgrace, and a man who wears it can never feel that he is being given credit for proper conduct, when he is clothed in such a manner as to indicate disgrace. The garb was originally designed to be odd, in order that it might be difficult for wearers to escape. But with the present methods of guarding penal institutions the reason for its use has almost entirely disappeared.

President McKinley certainly secured a man versed in colonial law for the war department, and will need him both before and after the war ends. Undoubtedly the president means to direct the military campaign himself, for he would hardly consider that any one without experience could direct as well as he can. As a general thing, the secretary of war has not been a soldier, and has been chosen for business qualifications. Fortunately the president is able to attend to planning and leave the secretary to manage details. And that the new secretary is a good business man, as well as a good lawyer.

The state department has its hands full even in days of piping peace, or rather, with countries that are on a friendly footing with the United States. The lynching of five Italians in Louisiana has given the department trouble. Austria has presented a damage claim for the Hungarians that were shot down in a riot at a Pennsylvania coal mine. China has made a demand for money on account of a Celestial or two being mobbed. These are very ticklish questions to deal with, and while they may not cause war, they might eventually result in the loss of trade with friendly countries, or establish precedents to cause embarrassment when the United States may have counter demands for damages to make upon other nations.

Several hundred woman suffragists met in London last week to talk. Perhaps it is superfluous to say that they met to talk, for what else do women ever meet? At any rate, they talked. Queen Victoria, of course, is not for woman suffrage, and she could not properly go over to hear the women from all over the world who had hired a hall. So she sent them word that if they would come over to her humble abode they might take tea. They attended, to a woman, and the good old lady saw the aggregation of talkers. Only two of the guests, however, were introduced to the hostess, and they were Americans. But all took tea and saw the woman who has outlived the weakling monarchs of a dozen kingdoms, despite teas. So, whether suffrage was helped or hindered, the women who went to London and saw the queen will not consider steamer fares lost.

Crippled by Rheumatism.

Those who have Rheumatism find themselves growing steadily worse all the while. One reason of this is that the remedies prescribed by the doctors contain mercury and potash, which ultimately intensify the disease by causing the joints to swell and stiffen, producing a severe aching of the bones. S. S. S. has been curing Rheumatism for twenty years—even the worst cases which seemed almost incurable.

Capt. O. E. Hughes, the popular railroad conductor of Columbia, S. C., had an experience with Rheumatism which convinced him that there is only one cure for that painful disease. He says: "I was a great sufferer from muscular Rheumatism for two years. I could get no permanent relief from any of the remedies prescribed by my physician. I took about a dozen bottles of S. S. S., and now I am as well as ever was in my life. I am sure that your medicine cured me, and I would recommend it to any one suffering from any blood disease."

Everybody knows that Rheumatism is a diseased state of the blood, and only a blood remedy is the only proper treatment, but a remedy containing potash and mercury only aggravates the trouble.

S.S.S. For The Blood

being Purely Vegetable, goes direct to the very cause of the disease and a permanent cure always results. It is the only blood remedy guaranteed to contain no potash, mercury or other dangerous minerals.

Books mailed free by Swift Specific Company, Atlanta, Georgia.

A quarrelsome boy who would carry a pistol or knife, and, relying on these, would give offense, is made ashamed. If a couple of the youths quarrel they are required to go into the open with gloves and thump each other until one surrenders. They can do no great harm in this way. But the certainty of having to fight prevents wrangling in many instances, and when a battle is ended peace follows. The boy who learns to use his fists skillfully does not wish to carry a pistol, feeling no need of it. If all men had such self-confidence and were not afraid of bruises there would be no pistol-packing and few homicides.

"'Tis worth a bag of gold." This applies with special force to Hood's Sarsaparilla, America's Greatest Medicine.

THE TERRITORIAL PRESS.

HURT BY YELLOW JOURNALISM.

(Albuquerque Citizen.) No other portion of the United States has been so systematically slandered as New Mexico. The "yellow" newspapers locate all their imaginative scenes of bloodshed within our borders. It does little good, apparently, to deny these falsehoods and prove the mythical character of the wild stories. From Mayne Reid, in 1845, to the latest liar on the New York Journal, the stream of sensational report has steadily flowed, and the turgid mass of villainous matter is liable to flow on forever. One of the meanest slanders of New Mexico and Arizona is "M. Quad," of the Detroit Free Press. The writer of the alleged witty stuff in the "Arizona Kicker" never saw Arizona. He draws on his vivid imagination for his scenes, and relies on the stupidity of the American people to believe in his statements.

The people of New Mexico feel that they deserve the respect of the people of the United States. In a half century they have converted a desert region into a prosperous commonwealth. They found a captured province, the people speaking a foreign language, and have built up an American community, with cities, railroads, newspapers, public schools, and every element of comfort and prosperity. When war has roused the people and the American flag has proudly responded, the slanders of New Mexico should see the deep injury and injury they are doing to a deserving people, who came here to found an American state, and who have carved out of the desert a community that in the near future will become one of the most prosperous states of the great American Union.

The record kept by the government of immigrants who came to the United States in the year ending June 16 shows but 143 from Mexico. The item is certainly erroneous. Owing to the ease with which people can remove from Mexico across the border and become residents of this country, a proper count is difficult to keep. In fact, the poorer of them who come avoid inspectors, who seek to exclude them under the pauper and contract labor laws. At El Paso, for instance, the people from the other side of the river cross at will, and are rarely turned back. If they were, they could wait until night and come over along the unguarded river bank. The increasing numbers upon the poll lists of the border cities, who take naturalization papers in order to vote, would show more immigrants than are reported, unless it be assumed that these men are not bona fide immigrants and only meander over the river in order to exercise the privilege of voting and indulging in the hospitality of candidates upon election day. Undoubtedly fewer citizens of Mexico came to this country last year than in preceding years, because increasing industries in their own country and the construction of railroads made it easier for them to find employment at home than in other years. But that only 143 came to remain is certainly untrue.

The record may be approximately correct as to fifty-eight persons coming from Central America. Neither that section nor South America have sent many immigrants to this or to any other land. They are not a migratory people. Nor are the Cubans. Last year but 1,074 males came from that war-torn island, and but 300 women. But one immigrant came from Switzerland, the country of watches, music boxes and high mountains.

In all, 321,925 immigrants were counted as added to the population of the United States.

The country sending the most people was Italy—12,986 northern and 65,639 southern Italians removing to the United States in the year 1898. After the Italians come the Hebrews, who came from several countries. It is probable the larger number came from Russia, though Poles and Russians are classified by themselves. Of the Hebrews, there were 37,420. Next in order come the 25,466 Poles, the 25,541 Germans and the 22,967 Scandinavians. Ireland sent 31,895. England and Scotland sent over some thousands. There are thousands from different sections of the Austrian empire, Hungarians, Magyars, Bohemians, Moravians, Croats and Slavs, while only 119 are set down as Austrians.

That is not at all a bad idea in practice at the New Mexico Military Institute at Roswell to teach pupils to rely on themselves instead of knives and pistols, in personal difficulties. The youngsters are given exercise to develop strength, all are taught to use boxing gloves and the art of self-defense.

Low Rates to Mexico City.

The Mexican Central Railway will sell round-trip excursion tickets from El Paso to Mexico City on July 22, 23, 25, 26, 27, 28, 29, 30, August 6, 12 and 13, at \$25.00, United States currency, for the round trip. Tickets good for thirty days from date of sale, and allow stop-overs. For further information address

OJO CALIENTE

(HOT SPRINGS.)

THESE Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Santa Fe, and about twelve miles from the Denver & Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90° to 120°. The gases are carbonic. Altitude 5,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain alkali, and are said to be the most efficacious for the treatment of the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis, etc. Board, Lodging and Bathing, \$2.00 per day. Reduced rates given by the month. This resort is attractive at all seasons and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 10:30 a. m. and reach Ojo Caliente at 5 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, \$7. For further particulars address—

SANTA FE MERCANTILE CO.

NEW MEXICO MINES

What Prospectors Have Around San-
ta Fe to Encourage Them to Dig
and Delve in the Earth.

TERRITORIAL INFORMATION

El Paso People Who Have Struck It Rich
Near Lordsburg—Otero, Taos, Sierra,
Dona Ana, Grant and Socorro Items
Relating to Mines.

There is considerable prospecting and
development work being done in the
mountains in the vicinity of Santa Fe
for precious minerals, and it seems as
if the persistent efforts of a few parties
are about to be crowned with success.
It is astonishing how much mineral
wealth is indicated by the fact that is
picked up from time to time near this
city. Gold, turquoise, silver, copper, iron,
mica, gypsum, limestone, clay and oth-
er minerals exist in this vicinity in enor-
mous quantities. A well-known pros-
pector in this city, who for the present
desires his name kept quiet, will to-
morrow morning start a force of men
on a claim about six miles southeast of
the city. A shaft 50 feet deep has been
sunk through a siliceous formation, and
quartz, with copper and pyrites of iron,
has been struck in large quantities. A
tunnel has also been drilled, and three
distinct veins on a 7-foot ledge have
been laid bare. The ore assays \$8 in
gold and 8 per cent copper, and in-
creases in value with development.

Several miles north of town a 17-foot
ledge of brown and yellow carbonate
of iron has been found. There are also
encouraging quantities of copper and
gold in the ore. Some of the spathic iron
ore is the best ever brought to Santa Fe,
and it exists in large quantities. The
same prospector also has a claim about
five miles southeast of town, on which
he is developing a 7-foot ledge of ore
that shows silver in considerable quan-
tities. He also found a goodly sized
piece of turquoise only two miles from
the city. He has specimens of gold ore
that assay in the thousands of dollars,
but he is keeping the location quiet
from which they came, as he deems the
find too valuable to make public at
present. He has also found large ledges
of mica, some of it mineral bearing, and
some without other mineral constitu-
ents. The specimens compare favorably
with the mica found at Tres Piedras,
which is being mined at present by a
Colorado Springs company. Large beds
of gypsum that look like mica ledges
also exist in the near vicinity. The
limestone northeast of town is pro-
nounced the best to be found in the
United States, and there is a solid
mountain of it. It is being worked on
a small scale by penitentiary convicts
for public buildings being erected at
present.

J. E. Lacombe also possesses several
valuable claims in the mountains to the
northeast that are being worked quiet-
ly but systematically, and that promise
well. Several other parties are interest-
ed in claims near here to the southeast,
the northeast and near Tesuque, and it
seems that before long Santa Fe will
experience a mining boom.

SIERRA COUNTY.

The Gypsy mine has closed down.
Five new locations have been made in
the Caballero mountains.

A big strike of 1,000-ounce ore has
been made in the old Illinois.

The Garfield has again commenced
shipping ore to the Porter mill.

The new cyanide mill for the Barney
Martin mines will have a capacity of
100 tons a day.

A new boarding house is being built
on the Snake to accommodate the in-
creased number of leasers.

The Richmond has contracted for the
delivery of 230 tons of second-class ore
to the Percha mill during September.

Joseph Spence has bought a half in-
terest in the Roadside mine, and has
put a development crew to work on it.

The Lookout mine is being patented.

Professor Jones, of the Socorro School
of Mines, inspected the Wickes mine at
Hillsboro.

The dry washers of the Hillsboro dis-
trict last month produced \$2,355 worth
of gold dust, which was all purchased
by Hillsboro merchants.

John W. Dawson sold the Fifty-Eight
mine at Hillsboro to Manager E. H.
Bickford. The Fifty-Eight is an exten-
sion of the Golden Era mine.

The last shipment of the K. K. run at
the Charter Oak mill, which consisted
of 120 tons of ore, netted the min-
ers \$55 per ton over and above all ex-
penses.

A thirty-ton shipment of gold and sil-
ver ore worth \$1,500 was made the other
week from the Lookout mine to the El
Paso smelter.

William Thurmond, of the Hillsboro
district, has secured a patent on a dry
ore concentrator, and is organizing a
company to build a \$50,000 mill to han-
dle the ore of Sierra county. The mill
will be located at Cold Springs, and will
be of 125 tons capacity.

DONA ANA COUNTY.

The latest discovery reported in the
Organ mountains is a tin mine. Mica is
found in combination. The ore body is
immense, and if the mineralization
turns out to be sufficiently rich, a new
and very profitable industry will be es-
tablished.

tablished.

In the Torpedo mine near Las Cruces
rich copper ore has been plainly visible
for years. Many noticed it, and pro-
nounced it nothing but copper stain. A
man who knew nothing of minerals con-
cluded to send a sample to an assayer,
and much to everybody's surprise the
ore was found to contain 35 per cent
pure copper.

GRANT COUNTY.

B. B. Ownby will commence working
his lead mines five miles from Lords-
burg.

A California company is operating the
Eighty-Six mine, near Lordsburg, and
is daily shipping ore.

The Golden Cross Mining Company,
operating in the Carrizillo district, has
suspended operations until August.

Richard L. Powell has secured a lease
of the Foster interests at Gold Hill, and
also the Wood mill, and is making prepa-
rations for operating them.

The new owners of the Santa Rita
mines will take possession August 3,
and then commence active operations.
They have let large contracts for tim-
bering the mines.

Eight citizens of El Paso have struck
it rich just across the line in Arizona.
Four miles from Lordsburg. The lucky
parties are D. W. Reckhart, H. G. Ross,
John Julian, E. Kohlberg, H. B. Char-
man, S. T. Chapin, D. M. Payne and W.
S. McCutcheon. A surface sample of
the new find was sent to D. W. Reck-
hart to be assayed, and it ran \$10 in gold
and 55 ounces in silver to the ton, and
showed 25 per cent lead and 4 per cent
copper. The El Paso owners of the new
mine are figuring that the gold and sil-
ver alone in the ore will yield more
than \$800 per car load of twenty tons.

OTERO COUNTY.

W. R. Huellitt, of the Leah H. Mining
Company, made a big strike of copper
ore on the holdings of the company
while prospecting northeast of Tularo-
sa. While sinking a shaft recently he
opened a large strata of copper-bearing
ore, and proved the continuance of the
deposit by sinking several additional
shafts in various portions of the prop-
erty. The strata as disclosed in the
workings varies from 2 to 4 feet in
width, and runs high in copper. It will
be merely necessary to remove the iron
rock cap and then the deposit can be
operated by scrapers, and no blasting
whatever will be necessary. This find
eclipses the prospect shown in the No.
1 shaft, and work on this shaft has been
suspended for the present to put all en-
ergy into working the new find.

The Lucky, in the Jarillas, has a
steam hoist, and the ore is taken down
the bins by a long tramway and loaded
from them into cars for shipment. The
Lucky is equipped with an air compres-
sor and up-to-date drills.

On the Nannie Baird an enormous
shaft will be sunk and air drills be put
in. The ore taken from the mine is
dumped direct into cars.

The St. Louis company owns a group
of patented claims one mile north of
the Lucky, and has already shipped three
cars of copper ore to St. Louis.

The placer discoveries in the Jarillas
have brought a number of people who
are panning dirt. One rocker is already
in operation, and several more are be-
ing built. A number of dry washers
have also been ordered.

Sheriff Pat Garrett, Breece Hegon
and Major W. H. H. Llewellyn have a
shaft down 22 feet on the Monogram,
and a car load of first-class shipping ore
is on the dump. The ore carries gold
and copper. The shaft will be sunk 100
feet.

There are now 350 people in the Jarilla
camp.

SHIPMENTS FROM ALAMOGORDO.

Alamogordo is the nearest shipping
point for the mining camps recently es-
tablished in the San Andres mountains,
being thirty miles nearer to them than
Las Cruces. The road from Alamogordo
to the camps is as smooth as a floor, and
does not contain a single hill. A recent
shipment of ore from that point brought
the purchasers of the Nellie mine \$2,200.
S. Hopkins purchased the mine from
Eugene Beard for \$2,500. Green Crawford
also purchased a mine in the San An-
dres mountains from Price & Pat-
rick for \$6,000, and the first shipment
via Alamogordo netted him \$3,000. The
Alamogordo News predicts that the
county seat of Otero county will have a
smelter before long.

TAOS COUNTY.

Bert Phillips, of Taos, is doing his an-
nual assessment work on the Shoshone
at Amizett.

Major Eugene Fechet, of Washington,
inspected the Iron Dyke mine at Amiz-
ett, in which he has a large interest.

Another fine lead has been opened on
the Memphis mine at Red River.

The Leader at Red River has ore as-
sayings \$13 in gold.

J. M. Moad took out of the Ethel at
Red River a piece of native copper
weighing 3 pounds.

SOCORRO COUNTY.

J. R. DeMier shipped to the Socorro
smelter thirty tons of high-grade cop-
per from his San Andres property.

COCHITI DISTRICT.

The Properties of the Camp to Be Described
in This Paper.

The New Mexican will in the course
of the next two weeks publish the most
comprehensive and complete write-up
of the Cochiti mining district that has
ever been printed. Every claim, and
even prospect, that pays, or gives prom-
ise of being a paying producer, will be
treated in a conservative and compre-
hensive manner. The article is being
prepared by the New Mexican's special
correspondent, Mr. George Marsh,
than whom there is no better posted
mining man in the country. He is thor-
oughly acquainted with the Cochiti dis-
trict, and has been since the day of its
discovery. Those wishing copies of the
paper containing the article will please
notify this office at once, as only such
extra copies will be printed as are or-
dered beforehand.

The best fresh meats at Walker's.

Stamp Your Checks.

Judge A. L. Morrison, Internal re-
venue collector for New Mexico and Ari-
zona, this morning received an order
from Internal Revenue Commissioner G.
W. Wilson revoking a former order and
deciding that in the future banks must
not affix stamps to unstamped checks
presented and must return to the owner
any such checks presented for payment.
