Groceries, Provisions, Flour

**Hay, Grain, Lumber,
Doors, Sashes, Etc.**

Canned Goods, Breakfast Foods, Preserves.

All Goods Fresh and Prices as Low as the Lowest.

Water Street Santa Fe

CALAMBA BATTLE

It Was a Warm Engagement and
Seven American Soldiers
Were Killed.

TWO BRAVE OFFICERS SHOT

The Insurgents Desired to Hold the Town,
Which Is the Key to the Lake
Road—Sixteen of Them
Killed.

Manila, Aug. 1.—Sunday's fight at Calamba was a warm one. The insurgents were unwilling to abandon the place, which is the key to the lake road. General Hall, hearing General Macabab was preparing to attack, sent Major Welschenberger with two companies of the 21st Infantry, the troops of cavalry and one of Hamilton's guns to attack the insurgents. The detachment found 1,000 rebels behind hastily made intrenchments. The rebels held their fire until a contingent of the 21st regiment was within 300 yards, when they fired a volley. The Americans dropped in high grass out of sight, returned the fire. Lieut. Love walking erect along in front of men, was shot in the arm. An insurgent officer, equally brave, stood at the top of the trenches, directing the fire of insurgents until killed, when the Filipinos fled.

During the fighting on the north side of town a small body of insurgents attempted to enter the south side, but a troop of cavalry repulsed them.

The total American loss at Calamba was seven killed and 21 wounded; 10 dead insurgents have been found.

The American garrison at Morong is going to Calamba. A body of insurgents visited Tay-tay, where they killed several natives who were friendly to Americans.

New Deal in Santo Domingo.

Santo Domingo, Aug. 1.—Vice President Venesio Figueroa, as a result of the assassination of President Henreux, has taken charge of the government of Santo Domingo as president and formed a cabinet.

The Presidential Party.

Plattsburg, N. Y., Aug. 1.—Postmaster General and Mrs. Charles Emory Smith joined the presidential party here this morning for several weeks. Mrs. McKinley continues to improve steadily.

Dewey's Engineer Rewarded.

New York, Aug. 1.—James Entwistle, chief engineer of Dewey's fleet during the battle in Manila bay, has been notified by the navy department of his retirement with the rank of rear admiral.

A STEAMER COLLISION.

The Secretary of the Navy On One of the Vessels.

New York, Aug. 1.—A collision occurred this morning between the ferryboat New York of Wilburys, and the United States gunboat Dolphin. The bow of the gunboat cut through the ferryboat into the engine room, breaking the main shaft and damaging the machinery. The gunboat's bow was bent and several feet of rail torn away. She continued on her way up the river. Secretary Long was on board.

The Window Glass Trust.

Pittsburg, Aug. 1.—Consumption of the window glass combination is practically assured. It has been decided to take up options on five plants in the west that expire today and the money probably be paid before tomorrow. A charter was granted yesterday to the American Window Glass Company, under which the combination will be perfected. The company is capitalized \$37,000,000.

Consolidation of Cattle Interests.

New York, Aug. 1.—"I am progressing slowly but satisfactorily," George B. Loving of Fort Worth, said to a Times reporter.

Loving is here to organize a big cattle syndicate with a capital of \$25,000,000 with adjoining ranches in Texas and New Mexico capable of herding 600,000 cattle. "A dispatch from Chicago," he continued, "announcing that John V. Farwell, Swift & Co. and others are interested in the scheme is correct. I am satisfied there is plenty of money in the plan and it can be operated very successfully."

SEVERE HAIL STORM.

Did Great Damage in South Dakota and Minnesota.

Desmet, S. D., Aug. 1.—A terrific hail storm passed over this section last night, totally destroying crops on 2,000 acres of land, and severely damaging those on several thousand acres more. But little grain in the path of the storm had been cut. The full extent of damage is not yet ascertained. A similar storm is reported in the vicinity of Dawson City, Minn., which did considerable damage to grain. Several farmers are reported to have lost their entire crops by hail.

A Cabinet Resigns.

Brussels, Aug. 1.—The cabinet ministers this morning decided to resign in view of the rejection yesterday by a parliamentary committee of 15 of all government electoral bills.

MARKET REPORT.

New York, Aug. 1.—Money on call nominally 3 1/2 % @ 4 per cent. Prime mercantile paper, 3 1/2 % @ 4 1/2 %. Silver, 60 1/2 % lead, \$4.35.

Chicago.—Wheat, Sept., 69 1/2 %; Dec., 71 1/2 % @ 71 3/4 %. Corn, Aug., 30; Sept., 30 @ 30 1/2 %. Oats, Aug., 19 1/2 %; Sept., 19.

Kansas City.—Cattle, receipts, 9,800; good grades strong, others weak; native steers, \$4.35 @ \$5.70; Texas steers, \$3.30 @ \$4.40; Texas cows, \$2.15 @ \$3.75; native cows and heifers, \$1.50 @ \$4.25; stockers and feeders, \$3.00 @ \$4.90; bulls, \$3.00 @ \$3.75. Sheep, receipts, 3,000; steady; lambs, \$4.00 @ \$5.75; muttons, \$3.40 @ \$4.65.

Chicago.—Cattle, receipts, 1,500; steady; beefs, \$4.50 @ \$5.80; cows and heifers, \$2.00 @ \$4.85; Texas steers, \$3.50 @ \$5.25; stockers and feeders, \$3.25 @ \$4.00. Sheep, receipts, 6,000; steady; sheep, \$3.50 @ \$5.00; lambs, \$4.00 @ \$5.75.

FEVER SITUATION

No More Cases Have Been Reported to the Authorities at Washington.

DISCUSS REMOVAL OF TROOPS

The Officers Believe the Contagion Can Be Confined to the Locality Where It Now Prevails—Time Nearly Due for New Cases.

Washington, Aug. 1.—The Marine hospital service up to noon today had received nothing from the center of yellow fever infection at Hampton later than Dr. Wadlin's report last night, placing the total number of cases in the yellow fever outbreak at 37, and 7 deaths.

Dr. Farquhar at Portsmouth, reported this morning that he was in close touch with the authorities at Portsmouth and Berkley and all was quiet with no suspected cases. The situation is regarded as favorable today. There has been no outbreak of fever outside of the original quarantine line. Each day that passes without such development increases the confidence of the surgeon general that the fever will be confined to the original focus of infection. The usual period of incubation of the disease is from three to five days, although it has extended 11 days. The time since the first outbreak is now almost up to the usual quarantine limit.

An objection has already been raised to the determination of the government to send the garrison at Fort Monroe to Battery Point, Del.

Surgeon General Wymann called attention of the War department to the fact that it is not far enough north to take a garrison which possibly may have yellow fever infection. It would be dangerous, he says, to the troops and to the people in the vicinity. At the War department it is said the whole matter has been turned over to General Merritt.

FOUR MORE DEATHS.

Newport News, Va., Aug. 1.—There have been four deaths from yellow fever at the soldiers home today.

IMMUNES NEEDED.

Washington, Aug. 1.—Surgeon General Sternberg today received the following telegram from Surgeon Vickery, in charge at the national soldiers' home at Hampton, Va., the scene of the yellow fever epidemic:

"Our epidemic is not extending; in the last day, two cases and one death; origin not discovered. Do you know if we can get immune surgeons and nurses?"

Surgeon General Sternberg responded to Surgeon Vickery's question in the affirmative, and will furnish him immediately a list of surgeons and nurses who may be employed by him, for the surgeon is without authority to pay for them out of his own appropriations.

A Church Incorporates.

Incorporation papers were filed today in the territorial secretary's office by the First Presbyterian church at Las Cruces. The incorporators are John R. DeMier, Samuel A. Steele, Roy R. Larkin, Joseph V. Cowan and Rollie E. Banner. The first three are named as directors of the congregation.

Taxes from Rio Arriba County.

Territorial Treasurer J. H. Vaughn today received from John Sargent, tax collector of Rio Arriba county, \$1,640.50 taxes collected from April 10 to July 31 of this year. Of this sum \$981.75 is for territorial purposes and \$317.03 for territorial institutions.

U. S. Weather Bureau Notes.

Forecast for New Mexico: Fair tonight and Wednesday.

Yesterday the thermometer registered as follows: Maximum temperature, 82 degrees, at 2:50 p. m.; minimum, 50 degrees, at 4:10 p. m. The mean temperature for the 24 hours was 70 degrees; mean daily humidity, 55 per cent.

COCHITI DISTRICT.

The Properties of the Camp to Be Described in This Paper.

The New Mexican will in the course of the next two weeks publish the most comprehensive and complete write-up of the Cochiti mining district that has ever been printed. Every claim, and even prospect, that pays, or gives promise of being a paying producer, will be treated in a conservative and comprehensive manner. The article is being prepared by the New Mexican's special correspondent, Mr. George Marsh, than whom there is no better posted mining man in the country. He is thoroughly acquainted with the Cochiti district, and has been since the day of its discovery. Those wishing copies of the paper containing the article will please notify this office at once, as only such extra copies will be printed as are ordered beforehand.

THE RECRUITING SERVICE.

Arizona and Albuquerque Furnish More Men.

No applications for enlistment were made at the recruiting office today and no enlistments were made. Three applications are pending, but as Lieutenant Coleman has run out of the necessary blanks the applicants will not be examined until blanks arrive from Fort Logan.

Lieutenant Maximiliano Luna has returned from Phoenix to Albuquerque, where he has been joined by Mrs. Luna. Lieutenant Luna reports that he has sent to Fort Logan 49 recruits from Arizona and five from Albuquerque, and has 26 more recruits at Albuquerque to send to Fort Logan at the earliest opportunity. Lieutenant Luna will visit Las Cruces, San Marcial and Flagstaff, where 30 applicants are awaiting his coming. Sergeant Edward Armstrong, who was in Cuba, enlisted and will accompany Lieutenant Luna on his recruiting trips. Sergeant Perry will remain in charge of the Albuquerque station.

Captain M. Carr, formerly of Albuquerque, has been appointed a captain in the 34th regiment.

The following are new recruits at the Albuquerque station: John M. McIntire, Arthur Dial, Monte A. Moore, P. J. Murphy, Walter Chatham, James Welsh and James Smith.

OHIO OUTRAGES

Lawless Acts in the City of Cleveland by Street Railway Strikers and Their Friends.

CAUSED CARS TO COLLIDE

The Boycott Has Extended to the Downtown Wholesale Houses and Department Stores and Employees Are Asked Not to Ride in Cars.

Cleveland, O., Aug. 1.—This is the 16th day of the street car strike, and apparently it is no nearer settlement than when it began. Late last night some unknown parties pushed an electric freight car loaded with ties from a switch on Mayfield heights, just east of the city, out on the main track and down a steep hill towards Euclid avenue. Half way down the incline it collided with an up-bound car with terrific force. Both cars were badly wrecked but no fatalities resulted. The boycott movement has reached down town wholesale and department stores. Proprietors of many establishments are requesting employees not to ride in Big Consolidated cars.

COLLISION AT SEA.

A Ship Supposed to Have Sunk a Bark in a Fog.

Queenstown, Aug. 1.—The Cunard line steamer Cephalonia, Captain Pearce, from Boston July 22 for Liverpool, which arrived today at 9:55 a. m., was densely befogged during the night. Between 2 and 3 o'clock in the morning while nearing the Irish coast she collided with a sailing vessel supposed to be a bark. The vessels separated quickly and a boat was launched from the steamer, but all search for sailing craft was unavailing. The Cephalonia was not damaged.

SOLDIERS SAIL.

Some of the Troops from the Northwest Re-enlisted.

Washington, August 1.—According to advices received to-day by the war department from General Otis, a good many northwestern volunteers re-enlisted in the new regiments being organized in skeleton form in the Philippines. Following is General Otis' cablegram:

"Manila, July 31.—Adjutant General, Washington: Transport Grant sailed yesterday, with seventy-eight officers, eight citizens, 1,353 soldiers and discharged men of Wyoming, North Dakota and Idaho organizations. Left behind about 200 discharged men, good many having re-enlisted. The only sick soldiers left are Corporal Frank Gore, of H company, Wyoming.

"The Minnesota regiment and discharged men go on next ship, to leave in a very few days. OTIS."

Injunction Not Issued.

In the case of Edward Miller et al. vs. Alfonso Dockweiler et al., Judge McFie this afternoon refused to issue a temporary injunction and referred the case for further testimony to determine the ultimate rights in the matters involved in a dispute over a ditch and a water-right near Tesuque. B. M. Read is attorney for the plaintiff and E. A. Fiske for the defendant.

How Old She Looks
Poor clothes cannot make you look old. Even pale cheeks won't do it. Your household cares may be heavy and disappointments may be deep, but they cannot make you look old. One thing does it and never fails. It is impossible to look young with the color of seventy years in your hair.

Ager's Hair Vigor
permanently postpones the fall-like signs of age. Used according to directions it gradually brings back the color of youth. At fifty your hair may look as it did at fifteen. It thickens the hair also; stops it from falling out; and cleanses the scalp from dandruff. Shall we send you our book on the Hair and its Diseases? The Best Advice Free. If you do not obtain all the benefit you expect from the use of the Vigor, write the doctor about it. Probably there is some difficulty with your general system which may be corrected by a course of treatment.

MAIL TRAIN WRECK

A Fast Train Leaves the Rails and Many Persons Are Killed and Injured.

POSTAL EMPLOYEES SUFFER

Several Train Men Injured—List of the Mail Clerks and Others Who Were Killed or Hurt in the Accident.

Boone, Ia., Aug. 1.—The fast mail train on the Chicago & Northwestern railroad, which left Chicago last night, jumped the track at the "Kate Shelly curve," just east of the Des Moines river bridge, this morning. The engine and all cars were wrecked. The following were killed: Engineer John Masterson, Fireman Arthur Schmidt, Boone, Ia.; Postal Clerk G. G. Stone, Austin, Ill.; J. J. O'Brien, postal clerk, of Chicago, died after reaching this city.

The following were injured: Postal Clerk Fackert, Dixon, Ill.; Postal Clerk A. W. Hoyt, Cedar Rapids, Ia.; Postal Clerk E. H. Shirk, McCausland, Ill.; Postal Clerk C. C. Roorick, Dixon, Ill.; Messenger Helper F. L. Sigafos, Missouri Valley, Ia.; Brake-man Thomas Flannery, Postal Clerk E. C. Lindell, Chicago. The engine rolled completely over and the front truck was thrown 150 feet into a corn field. All cars went over the bank.

Dewey Goes to Naples.

Trieste, Aug. 1.—The United States cruiser Olympia started for Naples at 4 o'clock this afternoon.

PLAIN MR. ALGER.

Steps Out of Office and His Successor Is Seated.

Washington, Aug. 1.—Elithu Root took the oath of office as secretary of war today. The oath was administered by Judge Cole, of the Supreme court of the District of Columbia.

"Here is your commission," said Mr. Alger, with a smile, handing it to Mr. Root, "in which you lose your identity and become Mr. Secretary. I go back to become a sovereign citizen of the United States and Mr. Alger."

"I sincerely wish 'twere otherwise," said Root.

General Miles entered with his staff in full-dress uniform as major general commanding the army. He stopped to talk with Secretary Root some time.

3 Snaps WALKER'S
—AT—
1—Just received a full line of PAINTS and OILS to be sold cheap.
2—Full line of WINDOW GLASS to be sold cheap.
3—Assortment of GLASS TUMBLERS only 40 cents per dozen. Also imported pure white China Dishes only 75 cents per dozen.

We still keep pounding away at everything that is good to eat. The store is yours. Come and see us often.

A PREMIUM OF \$5.00 IN GOLD

Will be given by the A. WALKER CO. to the boy or girl under fifteen years old who gives the nearest correct answer to the amount of money the above firm will pay out for flour in the month of July, 1899. Each cash purchase of a nickel or more of anything out of the store entitles you to another guess. The correct amount and name of lucky one will appear in this space August 1!

The New Mexican is the oldest newspaper in New Mexico. It is sent to every Postoffice in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

ADVERTISING RATES.

Wanted—One cent a word each insertion. Local—Ten cents per line each insertion. Reading Local—Preferred position—Twenty-five cents per line each insertion. Displayed—Two dollars an inch, single column, per month in Daily. One dollar an inch, single column, in either English or Spanish Weekly. Additional prices and particulars given on receipt of a copy of matter to be inserted.

TUESDAY, AUGUST 1.

Senator Morgan of Alabama, continues to show that he is a broad-minded Democrat. His latest utterance of interest in this region is that he believes New Mexico should be admitted as a state without further delay.

It has cost the Cleveland street car companies more to fight the strike of their employees than it would have to settle it. The same remark might be made of the smelter trust. Compulsory arbitration might be a good institution financially and otherwise to employer as well as employees.

The climate of New Mexico is acknowledged to be superb by every one who has lived in the territory. Yet, there are some who have not noticed New Mexico climate at its best, and that is just before and just after sunrise on a summer morning.

The newspapers should speak more kindly of Aguinaldo, for he used to publish a paper when he was a youth and may have then learned his sprinting habits through the necessity that sometimes arises to those who publish yellow journals in slow towns.

The labor party, which used to claim to be a factor in political campaigns, appears to have passed out of existence. The members have probably not been able to keep from going to work in these piping times of prosperity and are letting politics alone.

Early to bed and early to rise makes a man healthy, wealthy and wise is an old adage that is much ignored, but the fact remains that a person can do better and quicker work early in the morning after a good night's sleep than he can in the evening after a long day's work.

When Contractor Onderdonk gets through with the twin dredgers that are to open a channel in New York harbor 40 feet deep and 2,000 feet wide he should loan them to El Paso for a few days so that the sands of the Rio Grande could be scooped up and a case of navigability established.

Congress will at the next session probably enact legislation that will put it out of the power of the president to redeem the obligations of the country in silver. When this is done financial interests will not be frightened by the candidate of a man who threatens to unsettle the system of the government.

The prosperity of the farmers in the wheat states who were told that their grain could never bring high prices while silver was cheap, has settled the fate of silver so far as their votes are concerned. They have had years of high prices without legislation favorable to silver and now see that depression did not result from adhesion to the gold standard.

The Democratic party is going into the open bearing the banner of 16 to 1 again, and challenges its opponents to combat under the banner of the single gold standard. The outlook now is that there will be no straddle in 1900 and that prior to that congress will limit the authority of the president so that he cannot by an executive order establish a silver basis at the treasury.

Admiral Dewey is getting on dangerous ground now and may yet go the way of other indiscreet heroes if he starts in to talk to reporters about Germany and her piggy policy as he is reported to have talked a few days ago. The admiral will undoubtedly tell the truth if he tells anything, but as he is educated to fight and not to talk, he is not likely to make a break in the proprieties. Neither sailor nor soldier is entitled to make expressions about nations with which this country is at peace which may embarrass the government. Admiral Dewey's prompt denial of the alleged comment will be gladly accepted by the American people.

The Osage Indians now have \$9,000,000 and every man, woman and child of the tribe is rich. But the Indian commissioner says that the money is ruining them morally and physically. They receive interest upon the principal, which is in the federal treasury, and are spending it in indulgences that are not for their good. If the government would pay the principal to the owners it would doubtless soon fall into the hands of people who would put it to better use than do the Indians. And as the present owners would have to go to work again they would improve instead of retrograding as at present. However, it is their own money and if they pursue the pace that kills, it will be their own funeral.

The People Busy.
The scarcity of railway laborers in New Mexico and Colorado is equaled by the shortage in California, where the Southern Pacific needs 700 on its coast extension and cannot secure them. There should be a shortage of tramps this year as they all have an opportunity to earn a great many honest dollars now. Perhaps never before have railways had trouble in securing plenty of help. While the work is arduous there have always been plenty of men who would labor for less than is paid this year. The presumption is that the most of the people are now busy at work that involves less hardship and is nearer their habitations, and they will not accept employment which involves absence from their homes. If a man tramps this year it is because he is trying to get away from work.

Great Dredging Work.
One of the greatest undertakings in harbor work will soon be commenced in New York harbor, where the East Channel is to be dredged until it is 2,000 feet wide and 40 feet deep for a length of six miles from the Narrows to the sea. Two steel dredging steamers to cost \$450,000 each will be built for Andrew Onderdonk, the contractor. The dredges are so constructed as to hold the material sucked up and when loaded will steam out to sea to dump the mud and clay. In dredging the steamers will move at the rate of three miles an hour. The undertaking will cost a large sum of money, but nothing is too large for so important a harbor.

Change in Military Punishment.
Even militarism is adopting civilized ways these days. Instead of shooting or hanging a deserter or tying by the thumbs, he is now dishonorably discharged, sentenced to a year at hard labor and deprived of all back pay and allowances. Such was the fate recently of Henry H. Johnson, who deserted from battery L, fourth artillery. As soon as militarism is rid of its autocratic form of government, its cruelties, snobbery and tyranny so soon it will be regarded less of a bugaboo by the American people who believe in a representative form of government and abhor the absolute one-man power in vogue in armies.

Suicide and the Causes.

A Newark man has gone to the trouble of counting the number of suicides mentioned in the New York Sun during the first six months of 1899. To these he added the number of suicides given by the vital statistics of the leading cities of the United States which showed that out of 10,000,000 inhabitants 1,135 committed suicide and if the same proportion prevailed among the other 65,000,000 people of the United States at least 8,500 ended their lives by violent means during the first six months of 1899.

The causes for suicide were: Inability to secure work, 16 per cent; love episodes, 10 per cent; domestic afflictions, 10 per cent; ill health, 19 per cent; business troubles, 8 per cent; crime, 7 per cent; alcoholism, 15 per cent, and the remainder undetermined. Shooting was the favorite method of people who launched themselves into the other world, poison came next, carbolic acid being the favorite. Drowning was third in the list and hanging came fourth. One woman killed herself by eating spiders while a convict soaked 200 matches in water to secure the means to extinguish the spark of life. More men than women committed suicide.

The New York Sun also showed one-fifth of the attempts at suicide were unsuccessful. But many such are never reported and it may be safely said that in one year at least 30,000 people in the United States make attempts upon their own life and that 15,000 of them succeed. If yellow fever, cholera or even smallpox were to remove so many people it would be regarded as a national calamity.

Some of the reasons given for suicide are very trivial. One man hanged himself in the stairway because his wife was too busy to read the Bible to him on a particular occasion. A farmer cremated himself to spite his wife. A woman burned herself to death because she was displeased with a hen house built by her brother. Another woman took gas because her husband very properly objected to her riding a bicycle at night unattended.

Money to Come West.

Hundreds of millions of dollars will be paid over to the farmers of the west and northwest during the next few months for wheat and corn, of which there are large crops. The demand assures good prices. And if any many times a millionaire again attempts to corner the grain of this country, farmers of the prairie states will want to run for congress on their money instead of on their tale of miseries. Kansas has the greatest corn crop ever known, while the wheat crop of all the states of the plains is enormous. In the dull years of Clevelandism and the gloomy times when the eloquence of Bryan made the farmers think eternal ruin could only be avoided by trusting to him to sweep aside the cause, crops sold for poor prices. The wheels of industry in this broad land had stopped because of the imports of European made goods and raw material under the free trade laws of the Democratic party, with threats of further adverse legislation by the Bryanites. The people could not afford to buy freely of the output of farms and factory. But now, when everything in the industrial life is booming, and everybody at work at living wages or profitable business, money moves freely. Americans are not misers, and most of the earnings of the people are spent for food, clothing and comforts of life. These may mostly come through factory or mill, but the material necessarily comes first from the energy of the farmer, the stock grower and producers generally.

The people are in a buying mood, can afford to live well, and the west, which furnishes the wherewith, will get the money that the centers of population and the manufacturing districts have to expend.

THE TERRITORIAL PRESS.

A HINT TO A PAPER.
(Alamogordo News.)

The Socorro Chieftain in one column dilutes the loyalty of the native New Mexicans and in another publishes a statement from some irresponsible drummer that a New Mexico legislature can be bought for a thousand dollars to do the bidding of the trust agents. A thousand dollars was not enough to purchase a county for the Mogollons and it is evident to the editor of the Chieftain that many times that amount would not have the desired effect. When a newspaper man arrives at the stage where the people of the state are too mean for him to say a good word for, and the officials are so corrupt that he lends his columns to unjust criticism of them, it is time for him to seek a new locality, where he can adjust matters to suit himself. A few such attacks are about as good campaign matter as the Democratic party wants. Yet no one ever heard of the Chieftain asking for patronage from the Democratic party.

WHAT SOCORRO HAS.

(Socorro Chieftain.)
The practical visitor to Socorro is at once impressed with the possibilities for industrial enterprise, the extreme fertility of the soil, the adaptability of the climate to the production of all agricultural and horticultural crops, the unequalled facilities for the construction of reservoirs for the storage of water for irrigation purposes, the near proximity to immense coal fields, assuring cheap fuel for manufacturing and domestic purposes, the limitless forest of fine pine timber for lumber and building purposes, and of cedar, juniper and pinon for fence posts and other domestic purposes. These, in connection with the inexhaustible bodies of gold, silver, copper, lead and iron ores, all within easy reach, go to make Socorro one of the most desirable towns in New Mexico for the investment of capital, which is sure to come eventually.

MAXWELL GRANT DEALS.

(Springer Stockman.)
The contemplated disposal of thousands of acres of land by the Maxwell grant company adjacent to Springer will no doubt be a big boost for southern Colfax county. The company has for some time had this land on the market at very reasonable figures and easy terms. Several large deals are on foot.

JUDGE McFEE'S DITCH DECISION.

(Albuquerque Journal-Democrat.)
The favorable decision of the court in the ditch matter seems to have put new life into every enterprise in Albuquerque. The proposed canal is very properly regarded by nearly all of our people as one of the most important of all the various enterprises in contemplation for the benefit of the town—many persons believing that in its influence upon the growth and prosperity of the place its construction will be of more value to us than the coming of a new railroad. There is no doubt of the fact that the building of this canal will exert a most permanent influence for the good of the town, and the moral effect of the court's action in clearing the way for the completion of the enterprise is already apparent in the more hopeful and confident spirit which animates all of our people.

PRESS COMMENTS.

THE PHILIPPINES IN POLITICS.

(Washington Post.)
It is by no means certain that expansion, or any question growing out of that accomplished fact, can be made to cut a very prominent figure in the presidential campaign. The ratification of the treaty with Spain transferred Puerto Rico, Guam and the Philippines to the sovereignty of the United States. In other words, that ratification validated the expansion which war and diplomacy had accomplished, so far as was possible without the approval of the senate. Mr. Bryan was an important factor in securing that approval. Some of his enemies in his own party assert that had he opposed ratification instead of advocating it, the expansion program would have failed. This may or may not be true. We can not name a senator whose affirmative vote would, in our opinion, have been changed to a negative at the request or through the influence of Mr. Bryan or any other man. But he was a factor all the same, in that his influence helped in the creation of that public sentiment to which a vote for ratification was a response. Having aided in the accomplishment of expansion neither Mr. Bryan nor his party is in a position to oppose it.

A SERIOUS SITUATION.

(Washington Times.)
It is now acknowledged that the Alaskan boundary dispute has reached a serious phase, entirely owing to the impracticability of the Canadian government. Our own authorities admit that it may be necessary to send troops to Pyramid harbor to protect our miners and prospectors on the upper Lynn canal from further aggression. The seriousness of that step lies in the fact that the Canadians already occupy territory notoriously American, and that, if we cannot negotiate a temporary modus vivendi with Great Britain, national dignity and self-respect will compel us to turn them out of it; in which event probably there would be a fight, and possibly that might bring us unpleasantly close to a state of war with England.

OJO CALIENTE
(HOT SPRINGS.)

THESE Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Barranca Station on the Denver & Rio Grande Railway, from which point a daily line of stages runs to the Springs. The temperature of these waters is from 90° to 125°. The gases are carbonic. Altitude 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1682.54 grains of alkaline salts to the gallon; being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the numerous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidney, Syphilis, and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, Lodging and Bathing, \$2.50 per day. Reduced rates given by the month. This resort is attractive at all seasons and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 10:05 a. m. and reach Ojo Caliente at 5 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, 75¢. A Mother Tells How She Saved Her Little Daughter's Life.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in its worst form. We thought she would die. I tried everything I could think of, but nothing seemed to do her any good. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended and sent and got a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter much suffering.—Yours truly, Mrs. Geo. F. Burdick, Liberty, R. I. For sale by A. C. Ireland.

Do It, Say It.

If you've any task to do
Let me whisper, friend to you.
Do it.
If you've anything to say,
True and needed, yes or nay,
Say it.
If you've anything to love,
As a blessing from above,
Love it.
If you've anything to give
That another's joy may live,
Give it.
If some hollow creed you doubt,
Tho' the whole world foot and shout,
Doubt it.
If you've any debt to pay,
Rest you neither night or day,
Pay it.
If you've any joy to hold,
Near your heart, lest it grow cold,
Hold it.
If you've any grief to meet,
At a loving father's feet,
Meet it.
If you know what torch to light:
Guiding others in the night,
Light it.
—St. Paul Pioneer Press.

Rev. J. M. Yingling, pastor of the Redford Street Methodist church at Cumberland, Md., says: "It affords me much pleasure to recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have used it and know others who have done so. I have never known it to fail. It is a sure cure when taken in time." For sale by A. C. Ireland.

Why.

Why isn't a wrinkle a nick of time?
Why isn't a pony of brandy a fiery steed?
Why are beads of perspiration the jewels of toil?
Why does the walking delegate usually ride in a party?
Why does a man like to be mistaken for more than he really is?
Why does a law suit invariably wear out at the pockets first?
Why should the wheel-barrow come under the head of a garden truck?
Why are the affairs of others always so interesting to most people?
Why isn't it superstitious to pick up plus at the end of a bowling alley?
Why would the average man rather be charged with malice than with making a blunder?
Why does the man who retaliates with emphasis that he will never do a thing again do it if you give him time enough?

[The soothing and healing properties of Chamberlain's Cough Remedy, its pleasant taste and prompt and permanent cures, have made it a great favorite with the people everywhere. For sale by A. C. Ireland.]

Trapped.

Expert—There is no good in this ore. It is mostly ordinary trap rock.
Victim, of Mine Swindle—By gum! Now 'bout a thought they was any trap 'bout it?—Detroit Journal.

During the civil war, as well as in our late war with Spain, diarrhoea was one of the most troublesome diseases the army had to contend with. In many instances it became chronic and the old soldiers still suffer from it. Mr. David Taylor, of Wind Ridge, Greene Co., Pa., is one of these. He uses Chamberlain's Colic, Cholera and Diarrhoea Remedy and says he never found anything that would give him such quick relief. It is for sale by A. C. Ireland.

The Lamb Eye Shield.

The Only Perfect Eye Protector on the Market. The LAMB EYE SHIELD fits closely to the face, around the eyes, a soft, perforated felt rim on the face side rendering it impossible for dust or any other substance to enter between it and the skin. Small perforations in the felt rim admit sufficient air for the eyes to retain their normal moisture. The lenses are formed of the clearest mica and are perfectly transparent. The LAMB EYE SHIELD is much lighter than the ordinary Driving Goggles or Spectacles, affords relief and comfort to both the eyes and upper part of the face, and while it fully protects the eyes, gives them the widest scope of vision. Horsemen, Bicyclists, Street-car Drivers, Motor Men, Train Men, Stone Cutters, Blacksmiths, Iron Workers, Roofers, Metal Polishers and Grinders will find the Eye Shield invaluable. All Winter Sportsmen, Skaters and persons sleighing or tobogganing will recognize the safety and comfort to be derived from using the Lamb Eye Shield. Absolutely water-proof, as there is no glue or cement used in their manufacture. All shields are folding and put up in a neat pocket case. Colors—Clear, Blue, Smoke, Green.—25 Cents.

WANT KETCHUM AND OTHERS.

Rewards Offered for Arrest of Alleged Train Robbers.

Rewards amounting to \$1,400 are offered for the capture, dead or alive, of William H. McInnis and G. W. Franks, the two men alleged to have assisted in the robbery of the Colorado & Southern train near Folsom, Brothers of Sheriff Farr of Colorado, who was killed by the robbers, offer \$400 of this amount and the rest is offered by the Wells-Fargo Express company and the Colorado & Southern. The men are supposed to be with Thomas Ketchum in Texas.

Ketchum lived in Tom Green county, and has many influential friends among the stockmen of western Texas. He and his posse are well armed and prepared for a desperate resistance. Thomas Ketchum has the reputation among Texas authorities of being the most desperate outlaw in the southwest. It is said he led the band that held up and robbed a through California passenger train on the Southern Pacific road, near Los Angeles, three years ago, securing from the Wells-Fargo safe more than \$40,000 in cash. They were pursued over more than 400 miles through west Texas by rangers and United States marshals, but escaped to New Mexico. It is claimed that shortly afterward Thomas Ketchum and his brother, Samuel Ketchum, who was fatally wounded in the battle with officers near Folsom, N. M., recently, participated in the Texas & Pacific train robbery near Coleman, Tex., securing the express company's safe. It is supposed they then fled to Arizona and committed other train robberies, but were pressed hard by officers, and sought refuge in New Mexico, where they remained until a short time ago, when they re-entered Texas and planned the last train robbery in New Mexico. Thomas Ketchum was raised a few miles north of Austin. He is a little over 30 years of age, and before entering on his career of crime was widely known in that section as a dead shot with rifle and pistol.

Capital Rebuilding Board.

The capital rebuilding board will hold a meeting some time this month. It is the intention of the board to have the capitol completed by January 1, so that the Supreme court can meet there in January. Good progress is being made with the plastering. Yesterday a high steel flag-pole was erected on the lantern above the dome.

PERSONAL MENTION.

Mrs. W. J. White of the south side, is seriously ill.

Attorney D. W. Johnson of Albuquerque, is a visitor in the capital.

W. G. Sargent, the well known merchant of El Rito, is a visitor in the city.

Judge J. R. McEneaney expects to go to St. Louis on private business within a few days.

Miss C. E. Fenton and Miss Isabel Chavez, of Las Placitas, are visitors in this city.

Mrs. Irene Chaves, who has been very ill with heart trouble, expects to be out again in a few days.

Mrs. Henrietta Hild left on a visit to her daughter Mrs. L. L. Bacharach, at Las Vegas last evening.

D. S. Lowitzki and C. G. Wood returned home last evening from a several days' visit to Las Vegas.

Mrs. Olive Ennis Hite, of Washington, D. C., is spending a vacation in this city, where she resided many years ago.

Sister Angelica of the Sanitarium, Mrs. Conners and Miss Conners went to San Juan today on a photographing tour.

Mrs. McEneaney, Mrs. Whitman and Miss Crane have issued invitations to a garden fete and observation party to be held Saturday afternoon.

John S. Clark, territorial coal oil inspector, is in the city from Las Vegas on official business. He expects to return here this evening.

Hon. H. O. Bursum, superintendent of the penitentiary, went to Lamy yesterday afternoon and returned to the penitentiary on the evening train.

Mrs. H. L. Waldo and daughter, Miss Helen, arrived last night from Kansas City. The ladies are here to see Miss Mamie Waldo who is a guest at Judge and Mrs. Laughlin's and who has been seriously indisposed for a week or more.

Fred McKay, a well known rough rider, who formerly worked in the New Mexican job room, was married a short time ago at Mora to Miss Irene St. Vrain, the daughter of Mrs. B. M. St. Vrain of Mora. Father Picard performed the ceremony. Miss Eva St. Vrain, sister of the bride acted as bridesmaid and Joseph Harberg was best man.

Mr. McKay, who is at present employed by the Optic Publishing Company, after the wedding went to New York on business for the company.

Miss Elizabeth Kendall, one of the teachers in the Normal School at Greeley, Colo., is here on a visit to Miss Daisy Patterson.

Governor Otero left this afternoon for Silver City on private business. At Lamy he will be joined by Chief Justice Mills, who is also on route to Silver City.

Hon. Matt G. Reynolds and son have returned from the Sulphurs and expect to leave tonight for St. Louis.

Mr. and Mrs. Charles Hull and child will leave Arizona in a few days bound for Kansas City, to visit the relatives of Mrs. Hull. On their way to Kansas City they will stop over in this city about a week visiting Mr. Hull's father and mother, Mr. and Mrs. John Hull.

Mr. Hull is well known here and his many friends will be glad to meet him. Mr. Hull is a station agent in Arizona on the Santa Fe-Pacific railroad.

Hon. T. B. Catron is expected here tomorrow evening and Mrs. Catron a few days later.

Sold throughout the world. PURRIS D. 1215 C. Street, San Francisco, Cal. "How to Have Beautiful Hair," Free.

AUGUST WEATHER.

Should Be a Pleasant Month with Some Rain.

The following data of August weather has been compiled at the Santa Fe weather bureau for a period covering twenty-five years:

Mean temperature, 66; warmest August in 1870, with an average of 72 degrees; coldest August in 1894, with an average of 64 degrees; highest temperature August 9, 1873, 97 degrees; lowest temperature, August 31, 1882, and August 25, 1888, 40 degrees; average precipitation for August, 2.56 inches; average number of days with precipitation of .01 inch or more was 12; the greatest monthly precipitation was 6.28 inches in 1881; least monthly precipitation was .81 inches in 1892; the greatest precipitation in any 24 consecutive hours was 2.02 inches on August 19, 1890; average number of clear days, 9; partly cloudy days, 18; cloudy days, 4; prevailing wind from southeast, highest velocity of wind 40 miles from east, August 2, 1875.

Notary Appointed.

Governor Miguel A. Otero to-day appointed James E. Johnson, of Rana, Union county, notary public.

MAGDALENA MINES.

The Rise in the Price of Lead Will Benefit the Camp.

Capt. A. B. Fitch, general manager of the Graphic smelter at Magdalena, and his son M. B. Fitch, superintendent of the smelter, arrived in this city last evening and went north this morning on the D. & R. G. railway, intending to stop off at a number of stations. Superintendent Fitch, speaking of the mining situation around Magdalena, said that the Graphic smelter has been shut down for repairs but will resume operations in a week or two. Only two mines are being worked at Magdalena at present, the Kelly and the Graphic, but several prospects are also being worked in a desultory manner. The outlook for the future is promising, as the rise in the price of lead will benefit Magdalena, which is essentially a low grade camp.

Death of B. P. Schuster.

B. P. Schuster, who resided in this city for years and traveled for a wholesale house here, and afterward was engaged in business at Bernalillo and lived in Albuquerque, died Sunday night in Philadelphia. His demise occurred at a hospital where he was receiving treatment. Two of his daughters are visiting in Germany but the rest of the family are in Albuquerque.

Killed by Lightning.

Eduardo Figueroa, of Puertecito, San Miguel county, was killed Saturday by lightning while standing under a tree on the ranch of ex-Sheriff Lopez near Las Vegas.

The New Mexican's Cochiti Write-Up.

A well known mining man, who has been permitted to examine a proof sheet of the New Mexican's forthcoming article descriptive of the Cochiti mining district, writes as follows concerning the same: "Your Cochiti article will become famous. It is the first and only full, clear, comprehensive, attractive, and convincing report published of the immense treasures of Cochiti. It is widely circulated. It will tend to provoke a stampede to the camp. Reserve me 20 extra copies."

Football, Baseball and Bicycles.

In the contest at Albuquerque Sunday the Browns were beaten by the Maroons by 7 to 5.

The half-mile novice bicycle race was won by Ralph Hunt in 1:18; Thomas Crumpecker, second; Mike Sikoya, third; and Frank Harris fourth.

In the quarter-mile open, Ben. Weiler won in 34 seconds; Jose Armijo, Ralph Hunt and Mike Sikoya finished in the order named.

In a 15 mile race E. P. Lewis of Colorado, won in 46 minutes, 58 seconds; E. P. Kingsbury, second, and W. Q. Drummond, third.

W. A. Davis, coach for the football team of the Indian school at Albuquerque, was in Denver Saturday to see about getting some games in Colorado for his team. The D. W. C. team of Denver will probably give the Indians a game in November, the exact date to be settled later.

Rations Distributed to Zias.

The once powerful tribe of Zia Indians, now reduced to less than 100 souls, have been in a condition approximating starvation for several months, in part owing to smallpox, which raged there last winter. Under instructions from the commissioner of Indian affairs, Albert B. Reagan, farmer at the Jemez pueblo, purchased several hundred pounds of flour, beans, bacon, coffee and sugar, which he distributed to the tribe on Friday last. It is hoped that this supply will tide them over until their growing crops will mature. The Zias are not good farmers, but generally raise enough to eke out an existence with the aid of a few milch cows and goats.—Albuquerque Citizen.

A Lucky Gasser.

Carl Bishop was the lucky boy who received the \$5 gold piece awarded by A. Walker & Co., in their guessing contest as to the value of flour the firm would buy and pay for in the month of July. His guess was \$2,500. The actual amount paid out by the firm for flour during the month was \$2,427.

LIVE STOCK NOTES.

A \$30,000 delivery of beef cattle will be made from Sierra county in August. Floorsheim & Abbott's wool clip of Colfax county this season, amounts to 140,000 pounds.

W. Babbit of Flagstaff, brought a carload of cattle to the ranges in the vicinity of Springer.

The Red River Cattle Company recently shipped 22 carloads of cattle to Colorado from Springer.

A herd of 150 horses belonging to Mrs. Rafael Barera near Las Cruces, were attached for back taxes.

Thousands of sheep are being sheared and clipped this week in Colfax county. One man from Springer received the contract to shear 9,000.

D. A. Clouthier of Springer, went to McPherson, Kas., with 300 head of cows and 200 calves. The cattle were sold to a Kansas stock raiser.

July Collections Large.

Major Fred Muller reports that the tax collections in Santa Fe county for July were exceptionally good. He will have his report ready in a few days.

A UNIQUE COLLECTION.

The Stone Idol Collection of Hon. L. B. Prince Photographed for the Bureau of Ethnology.

F. W. Hodge, of the bureau of ethnology at Washington, D. C., and Photographer A. C. Vroman, of Pasadena, have been engaged for three days taking photographs of the unique collection of stone idols belonging to ex-Governor L. B. Prince, which are partly at the rooms of the historical society of the territory at the old palace and at his home. There are over 1,000 stone idols, collected in all parts of New Mexico by ex-Governor Prince in the last seventeen years. The idols were all recovered by excavations made upon the sites of ancient Pueblo villages. Many of them are so brittle that they have been broken despite the most careful handling. The appearance of the idols is curious, and, besides representing human beings, with faces expressing all sorts of emotions, and having their hands folded in a peculiar way across their chest, there are representations of all sorts of animals. The idols are sculptured out of sandstone, pumice stone, lava and other material. Some are light enough to float in water. Some of them are almost 6 feet high. It is difficult to tell the age of the idols, and by the ancestors of the present Pueblo Indians before the Spanish conquest. The collection of ex-Governor Prince has been seen but by comparatively few persons thus far, but for seven years the bureau of ethnology has been anxious to obtain photographs of them. Their owner has hinted that he may write a book descriptive of the idols and his theories about their origin and meaning. Ex-Governor Prince also possesses pottery and charred corn taken out of the excavations in which the stone idols were found. When he discovered the first stone idol seventeen years ago he thought that he had made one of the most wonderful finds on record, and never imagined that he would be able by hard work and thorough research to obtain so large and fine a collection as he now possesses.

Walker has only one price.

At the Hotels.

At the Exchange: T. C. Brandon, Chattanooga; Miss C. E. Fenton, Miss Isabel Chavez, Las Placitas.

At the Claire: J. F. Bulger, Gallup; Max Goldsmith, Chicago; W. G. Sargent, El Rito; W. H. Pittenger, New York; A. F. Towler, Chicago; R. L. Robinson, Chicago; Mrs. Olive Ennis Hite, Washington, D. C.

At the Palace: Newton Evans, St. Louis; D. W. Johnson, Albuquerque; D. H. Barry and wife, Las Vegas; F. H. McGee, Denver; R. N. Russell, San Francisco; John S. Clark, Las Vegas; R. T. Clarkson, St. Louis; Mrs. H. L. Waldo and daughter, Kansas City; A. B. Fitch, Max B. Fitch, Magdalena; C. A. Simington, Chicago.

D. & E. G. Change of Time.

From today the Denver & Rio Grande passenger train will leave this city ten minutes earlier than formerly, an order having been received last evening from headquarters to change the time of departure from 9:10 to 9:00 a. m. This will give the train ten minutes more time at Espanola. A number of people came to the depot after 9 o'clock this morning and were astonished and vexed to discover that the train had gone.

TO QUIET TITLE.

A Suit Commenced by Owners of the Lamy Grant.

G. W. Knaebel as attorney, today filed a suit in the district court entitled F. A. Manzanares and Artless E. Browne vs. Juan Sena y Blea, Antonio Sena y Blea, Ciriano Sena y Blea, heirs of Marcos Sena y Blea and Luciana Blea de Sena, deceased, all the unknown heirs, successors, assigns and legal representatives of Carlos de Herrera, deceased, and of Lorenzo Marquez, deceased, who may not have conveyed their respective interests to plaintiffs or to their predecessors in title. The suit is brought to quiet title for the plaintiffs, to the Lamy grant of 16,546.85 acres, the part of the right of way and grounds of the Santa Fe railway at Lamy amounting to 140.9 acres, and a tract of land near Lamy of 543.50 acres. It is understood that the defendants pretend to have some legal claim upon the lands.

Keep Big Balls.

On Friday a big Indian dance will take place at Santo Domingo pueblo near Thornton. Indians from many miles around will assemble at Santo Domingo on that day.

Walker sells cheap.

WATER RIGHT SUIT.

Ditch Companies in San Juan County Claim Prior Appropriation.

Granville Pendleton, an attorney of Aztec, San Juan county, today filed a suit in the district court of San Juan county for The La Plata Indian Ditch Company, the McDermott Ditch Company, the Larkin Reynolds Irrigating Ditch, the Left Hand Irrigating Ditch, the Helper & Williams Ditch Company, the Firebaugh & McDermott Ditch Company, the Thomas Irrigating Ditch Company, the Hillside Irrigating Ditch, the Greenhorn Ditch, the Highland Park Irrigating Canal, the Cunningham Ditch Company, the Living Spring Ditch Company, the Pioneer Ditch Company, L. P. Dale, James Dawson, John Greer.

The plaintiffs assert that their ditches were constructed long before the ditches of the defendants and that the defendants ditches take nearly all the water, and in time, will take all of the La Plata river. The plaintiffs ask the court to determine and define what right the parties to the suit have to the water of the La Plata for irrigating purposes.

Representing Six of the largest Tailoring Houses in the United States.

The Santa Fe Mercantile Company has opened a tailoring made to order establishment on the west side of the plaza, next to the Wells-Fargo express office, under the management of Mr. G. R. Collins. A perfect fit and satisfaction in every respect is guaranteed. Don't buy your suits of would-be traveling agents. We are here to do business, and we'll do it. Prices as cheap as any living soul can possibly make them.

SANTA FE MERCANTILE CO.,
AD. GUSDORF.

TERRITORIAL TOPICS.

SIERRA COUNTY.

Ethel, daughter of Mr. and Mrs. John Burk of Hillsboro, broke her right wrist by falling from a horse.

Mr. and Mrs. Alfred Shepard and the family of the assessor, Andrew Kelly, have removed from Cold Springs to Hillsboro.

Professor A. F. Haggerty of Bland, and Miss Annie B. Robertson of Deming, will be teachers of the Hillsboro public schools next year.

William P. Kell, Isaac Knight and Oscar Groely have been appointed school directors of Hillsboro by Dr. F. I. Given, county superintendent.

SOCORRO COUNTY.

Rufino Sedillo, aged 50 years, died at Socorro.

Dr. Hernaty has removed from Socorro to El Paso.

F. Andrews purchased the Abernathy residence at Socorro.
