A BORDER TROUBLE.

Sequel to a Fight Between a Cowboy and
Custom Guards.

Bisbee, Ariz., September 12.—The lat-
est reports from Naco indicate that ev-
erything is quiet. Mexican guards, over
100 in number, are patrolling the line.
Cowboys are still arriving here. No
arrests have yet been made of cowboys
who killed the Mexican guards on the
San Pedro. It is reported that some
have left the country in order to avoid
being turned over to the Mexican au-
thorities.

Dreyfus Boycott Feeling.

London, September 12.—While the
papers are full of letters from individuals
and several firms announcing with
drawal from the Paris exposition and

urging the government to do likewise,
there is no intention upon the part of
the British government of taking any
such step. It is also unlikely the agi-
tation will result in any general with-
drawal of British exhibits.
Berlin, September 12.—The German
government organs have been quick to
issue a warning against the proposed
boycott of the Paris exposition. "Ger-
many has no occasion to take the lead
in this matter," says the Cologne Ga-
zette.

Cyclone in Bermuda.

Island of Bermuda, September 12.—A
cyclone swept over the island last night,
and houses were blown down.
The storm raged the whole of last
night. No lives were lost, but heavy
damage was done.

The President of the Republic of

FOR THE PARIS EXPOSITION

Dreyfus Is Liable to Collapse and It Is
Said That President Loubet Will Issue
a Full Pardon to the Unfor-
tunate Prisoner.

Paris, September 12.—Mme. Dreyfus
fears her husband's health may soon
break down completely. Dreyfus never
himself up during the Rennes trial, but
the reaction is such that physicians
consider his case hopeless, and say any
day a fatal collapse may ensue. Mean-
while, intervention by President Lou-
bet, by according Dreyfus a full pardon,
is regarded by those nearest the presi-
dent as almost certain. This would be
followed by wiping out all old scores,
reducing the pending trial which origi-
nated in the Dreyfus affair to mere
empty formalities, releasing Dr. De
Rouille and his royal companions, and
liquidating the whole situation by a
general amnesty preparatory to the
world's fair in 1900.

TALKING ON TRUSTS.

The Attendance Is Very Light, But May
Increase.

Chicago, September 12.—The civic fed-
eration conference on uses and abuses of
trusts and combinations, with repre-
sentative men from nearly every state in
attendance opened here to-day. Central
Music Hall was packed with 200 dele-
gates and hundreds of spectators. The
meeting was called to order by chairman
Franklin H. Head.
Roll-call disclosed the fact that the
greater part of the delegates are yet to
arrive. Responses were few and far be-
tween. Governor Plngree, it was an-
nounced, would arrive to-night. Sec-
retary Easley said the delegates would
arrive to-night and to-morrow, having
found it impossible to attend the open-
ing session.

The New York delegation, headed by
W. Bourke Cockran, was well repre-
sented. Dr. Howard S. Taylor, as rep-
resentative of Mayor Harrison, and
Attorney General E. C. Atkin, acting
for Governor Tamm, delivered ad-
dresses of welcome.

The first taste of real business con-
fronting the delegates came in papers
delivered by Professor J. W. Jenks and
Professor Henry Carter Adams, both
under the caption of "Problems Before
the Conference."

"Where competition is excluded or
where conditions are such as to give
one competitor an advantage over an-
other, nothing remains but public super-
vision," said Prof. Adams.
John Graham Brooks, who lectures on
social economics at Harvard Univer-
sity, read a paper under the head, "Are
the New Combinations Socially Dan-
gerous?"

A resolution was adopted that a com-
mittee to conduct the business of the
conference after to-day be made up of
one representative of each state dele-
gation, and each delegation representing a
national organization. Delegates rep-
resenting local organizations from var-
ious cities, it was decided, should have
a hand in selecting committeemen of
the delegation for their state.

Trouble started immediately after a
motion to appoint a committee on pro-
gram and rules was carried. Secretary
John W. Hayes, of the Knights of La-
bor, announced he did not propose to
be associated in any way with the New
Jersey delegation. This announcement
was vigorously applauded. August
Gans, of Chicago, moved that the
Knights of Labor and other labor or-
ganizations be recognized on the same
basis as the states. After much discus-
sion the motion was carried.

LOVING BREAKS OUT AGAIN.

He Is Still Talking of a Great Cattle
Combination.

New York, September 12.—"The live
stock combination is practically as-
sured," said George B. Loving, of Port
Worth, Tex., after a conference last
night with prominent New York and
Boston capitalists before his departure
for Chicago. "I shall return to New
York after the Dewey day bustle has
subsided and complete the organization
of the combination. It will have a capi-
tal of not less than \$30,000,000, and will
take in about all the ranches and live
stock of Texas, New Mexico and Ariz-
ona."

A fagged out, tearful little
woman said this in telling her
cares and weaknesses. Her
friend encouraged by telling of a relative
who was cured of just such troubles by

now has tears of joy, for she took Hood's,
which put her blood in prime order, and
she lives on the strength of the present in-
stead of worrying about that of the past.

poison on my neck 42 years Hood's Sarsa-
parilla completely cured me. I was so
glad I told friends about it and a lady in

she also took Hood's for the same trouble
and was cured. She thanked me." Mrs.

NOT ADMIT SOVEREIGNTY

The British Officials Wish to Ascertain If
the Transvaal Proposition of Last
Month Had Any Strings At-
tached to It.

London, September 12.—The Associ-
ated Press learned to-day that the Brit-
ish message to the Transvaal does not
demand a reply in forty-eight hours,
but requests an immediate reply. The
message is not an ultimatum in the gen-
erally accepted sense of the word. It
expresses the hope that President Krug-
er will accept the propositions, to re-
lieve the present tension. The only part
at all aggressive is the reiterated decli-
nation of the British government to
discuss the matter of sovereignty in any
form. British officials refuse to deny
or affirm the correctness of the latest
Pretoria dispatches, saying the British
terms are a five-year franchise, quar-
ter representation for gold fields, equal-
ity for British and Dutch in the Volks-
raad, and equality for old and new
burghers in regard to presidential and
other elections.

A special to the Pall Mall Gazette
from Cape Town says: "The British re-
ply is regarded equivalent to an ulti-
matum. Correspondent advices from
Pretoria indicate that war is inevita-
ble."

A report that Rand Irishmen have
formed a corps to help President Krug-
er is confirmed. It is said at Cape
Town that a cablegram has been re-
ceived from New York saying that ten
thousand Irishmen will be ready to help
the Transvaal.

A message of the secretary of state
for the colonies, Mr. Chamberlain, says
he understands the concessions made in
President Kruger's note of August 18
have been withdrawn on account of the
British attitude regarding sovereignty,
and adds: "Her majesty's government
absolutely repudiated the view of the
political status of the Transvaal taken
by the Transvaal government, claiming
the status of a sovereign state, and
therefore are unable to consider any
proposals made conditionally on ac-
ceptance of this view."

Continuing, the note says the British
government is satisfied the law em-
bodying the proposed alleviating mea-
sures for Outlanders is insufficient to se-
cure the immediate and substantial rep-
resentation which it is understood the
Transvaal admits to be reasonable. It
then says: "Moreover, the presentation
of proposals in the note of August 9
indicates that the government of the
South African republic itself recognized
its previous offers might with advan-
tage be enlarged and independence of
the republic thereby in no way im-
paired."

The dispatch then goes on to say that
Great Britain is still prepared to accept
the franchise proposals of August 9,
provided the court of inquiry shows the
new scheme to be unencumbered by
nullifying conditions. In this connection
the British government assumes that
new members of the Volksraad will be
allowed to speak their own language,
and adds that acceptance of these
terms would at once remove the ten-
sion, and would in all probability ren-
der unnecessary any further interven-
tion by her majesty's government to
secure redress for grievances which the
Outlanders themselves would be able to
bring to the notice of the executive
council and the Volksraad. Her maj-
esty's government is increasingly im-
pressed with the danger of further de-
lay in relieving the strain which has
already caused so much injury to the
interests of South Africa, and earnestly
presses for an immediate reply.

London, September 12.—A special
from Pretoria says the leaders of the
Afrikanerbond have telegraphed
President Kruger, urging him to yield
to Chamberlain's last demands.

COCKRAN TO M'KINLEY.

The Latter Urged to Act As a Peace
Maker.

New York, September 12.—Ex-Con-
gressman W. Bourke Cockran has writ-
ten an open letter to President McKin-
ley, suggesting that he make a proffer
of friendly mediation in the British-
Boer trouble. He says: "If there be
other and sounder reasons than those
assigned by the press for the attitude of
the British government in South Africa
its position will be strengthened by a
disclosure of them. A friendly but
urgent tender of your good offices would
undoubtedly evoke a full and complete
statement of the grounds on which the
peace and integrity of the Transvaal
are threatened. Such a statement
would be a powerful obstacle to hostil-
ties, for it would enable the civilized
world to form a judgment on the merits
of the controversy, and in all probabili-
ty that judgment would impose itself
on both disputants."

TROUBLE OVER A TRANSPORT.

It Is Said to Be Crowded with American
Soldiers.

Hong Kong, Sept. 12.—The United
States transport Tartar, which expected
to sail today, has been detained by the
harbor authorities under the British
merchant shipping act whereby her
capacity is limited to 750 passengers,
although the Tartar has a licensed
capacity of 1,340.

Consul Wideman, representing the
United States government, took the
matter at once before the local govern-
ment authorities and maintained that
the Tartar is an American troop ship,
although she is flying the British flag,
and is not subjected to the merchant
shipping act.

It is probable that 450 soldiers on
board will be left behind when she is
finally permitted to sail for San Fran-
cisco. Several discharged soldiers on
board the Tartar filed complaints of her
unsanitary condition, which started the
proceedings to detain the vessel.

The 20th Kansas volunteers, with
General Funston, are aboard, but it is
believed the volunteers made no com-
plaint, and are anxious to have clear-
ance granted the ship in order that they
may proceed homeward. A private cab-
legram says the complaint over the
crowding was made by discharged regu-
lars.

The Tartar is owned by the Canadian
Steamship Company. She sails under
the British flag. It is said under these
conditions she is subject to British nav-
igation laws.

Secretary Root decided to take up the
matter of the Tartar with the state de-
partment, with a view to having the
ship cleared at Hong Kong. The war
department made public the following
dispatch:

"Hong Kong, September 12.—British
authorities refuse to clear the Tartar
because she is overcrowded. Authorize
829.

(Signed) "METCALF."
The Tartar was carrying 1,201 soldiers.

A PRIVATE'S PUNISHMENT.

President McKinley Will Not Let Him Be
Shot.

Washington, September 12.—Private
Thomas McVeigh, company G, 1st Wy-
oming volunteer infantry, tried by gen-
eral court-martial convened at Imus,
Philippine Islands, in June last on a
charge of striking his superior officer,
was found guilty and sentenced to be
shot to death with musketry at such
time and place as the proper authori-
ties may direct. Two-thirds of the court
concurred in the sentence. President
McKinley has directed that the sentence
be commuted to dishonorable discharge,
forfeiture of all pay and allowances,
and confinement at hard labor for three
years. Alcatraz island, California, has
been designated as the place of confine-
ment.

Enemies of Dreyfus Offer Compromise.

Boston, September 12.—The Post to-
day announces that it has received the
following dispatch from Paris: "Gen-
erals Roget and Mercier have offered, on
the part of the army, to demand from
President Loubet the pardon of Captain
Dreyfus if the Jewish committee will
drop the matter and on condition that
Dreyfus shall live away from the large
cities of France three years."

Paris, September 12.—The govern-
ment commissioner attached to the council
of revision may possibly finish the report
in the Dreyfus case before Monday. In
that case the council revision will give
a decision regarding the merits of the
appeal that day, and the following day
the cabinet will decide whether mea-
sures of clemency are advisable.

lutely no danger from the seven cases

Wheat Gambling War.

Chicago, September 12.—What is be-
lieved by many traders to be the prob-
able beginning of an elevator war start-
ed in the wheat market to-day. The
scramble of the shorts for September
wheat early in the session added nearly
2 cents to the price in half an hour, and
apparently brought to light a fight
among the wealthy elevator firms,
Weire & Co., Armour & Co. and Peavey
& Co. being the firms most vitally in-
terested. It was evident a short inter-
est existed.

Money Needed in New York.

Washington, September 12.—The sec-
retary of the treasury has decided, in
view of the money stringency in New
York, to anticipate the October inter-
est. This will amount to \$5,596,526. The
secretary's action was taken without
solicitation.

THE FILIPINO REPLY.

They Feared the Future in American
Hands.

Manila, September 12.—A correspond-
ent of the Associated Press has ob-
tained a copy of a reply adopted by the
Filipino congress to the American offer
of autonomous government. The au-
thor of the reply was Ambrosio Rien-
zares, who was offered a position in the
supreme court, but failed to appear.
The document repeats the arguments
contained in the recent appeal to the
powers for recognition and the Filipino
claims that Americans were the aggres-
sors in war, and concludes: "Notwith-
standing the foregoing, we could have
accepted your sovereignty and auton-
omy if we had not seen by the behavior
of Americans in the beginning that they
were strongly opposed to us through
race prejudice and a high-handed meth-
od in dealing with us made us fear for
the future in your hands."

Painters on a Strike

Philadelphia, September 12.—Fifteen
hundred painters struck to-day in con-
sequence of the failure of the master
painters to sign an agreement pre-
sented by the association. The union de-
mands an eight-hour work day at 25
cents per hour, time and a half for ex-
tra work, and double time for Sunday.
The scale has been signed by 125 mas-
ter painters, 150 refusing.

There are women everywhere who suffer almost con-

violated. Over a million women have
been helped by her advice and medicine.
Mrs. Pinkham in attending to her vast
correspondence is assisted by women
only. If you are ill, don't delay. Her
reply will cost you nothing and it will be a
practical help as it was to Miss ELIA E.
Brenner, East Rochester, Ohio, who says: "I shrunk from
the ordeal of examination by our physician, yet I knew I must
have treatment. My troubles were backache, nervous tired
feeling, painful menstruation and leucorrhoea. I am so grateful
to you now that I am willing to have my name published to help
other girls to take their troubles
to you. Lydia E. Pinkham's Vege-
table Compound used as you wrote
me has made me entirely well
and very happy. I shall bless
you as long as I live."

Mrs. Pinkham receives thou-
sands of such letters from grate-
ful women.

Miss NELLIE RUSSELL, of
138 Grace St., Pittsburg, Pa.,
in a letter to Mrs. Pink-
ham says: "From child-
hood I suffered from kidney
trouble and as I grew older
my troubles increased hav-
ing intense pain running
from my waist to my womb and the
menses were very painful. One day,
seeing your advertisement in one of
our papers, I wrote to you.
"When your reply came I began taking
your Compound and followed your advice
and am now in perfect health, and would ad-
vise any lady rich or poor to take Lydia E.
Pinkham's Vegetable Compound, which I can praise above all
other remedies. It is a wonderful help to women."

WEDNESDAY, SEPTEMBER 13.

No boundaries between states limit the feeling that the honor of the country requires the defeat of the Philippines. The political leaders who are relying upon a contrary sentiment do not know the people. This is not a war of Americans against Americans.

Goods to the value of over \$14,000,000 were exported to America's new colonies in the last seven months, against \$4,000,000 in the twelve preceding months. The next seven months the exports may reach \$20,000,000, and great stimulus given American manufactures and trade. The United States did not acquire the colonies for the sake of the shekels to be gained, but, nevertheless, it is a source of gratification that the new islands are beginning to pay for the trouble and the anxiety they have cost this country.

Only seven towns in Massachusetts are without a public library. Even the hotels there have been unable to withstand this bookish tendency of the people, and at almost any hotel in that state may be found the works of the best authors, handsomely clad in dress suits of calf and morocco. New Mexico, though regarded by some people outside of the pale of civilization, has a number of towns with free public libraries, and in proportion to population and wealth is ahead of many states and territories as far as libraries are concerned.

The delinquent tax lists being published in almost every county of the territory shows that New Mexico is still afflicted with tax-dodgers. So long as hundreds seek to evade payment of taxes, so long will others reluctantly pay. The tax-dodger, for the sake of the credit of the territory, and of every county and every community, should be treated firmly and without compunction. With good assessors and determined collection of all taxes, the financial condition of most counties and towns in New Mexico would at once take a turn for the better. There has been marked improvement in tax paying under the Duncan revenue law, but the delinquent tax lists show there is room for more improvement.

In Albuquerque a merchant is selling thirty pounds of sugar for a dollar. Either the sugar trust is giving him a special boost or he is in business for the fun of it. As a matter of fact, sugar sells in New Mexico several cents per pound higher than in the east. This is not the fault of the merchants, but of a number of circumstances such as make coal oil two to three times dearer in New Mexico than elsewhere. High prices on the necessities of life place the territory at a disadvantage, and means should be devised to overcome this tendency towards high prices without robbing merchants of their fair profits. There is no reason in the world why the people of New Mexico should pay more for their commodities than the people of Colorado or Texas.

Resentment Over a Wrong.

Captain Alfred Dreyfus stands acquitted before the nations. Though ten thousand courts-martial like that at Rennes should find him guilty, the world would declare him innocent of the offense charged, and point the finger of scorn at his accusers. It was Mercier and his colleagues—not Dreyfus—who went into the pillory at Rennes. But there is no call to go into hysterics over Dreyfus as an individual, and when he has been liberated, as he probably will be soon, the public will cease to have interest in him. He is not of the stuff that can be idealized into a hero. As an individual he has had no admiration from the people. It is only the human resentment at seeing a helpless and innocent man beset by a powerful, corrupt clique of official conspirators that has caused the public outcry.

Sentiment, But Sensible Sentiment.

"Commercialism, nothing but commercialism!" is the cry of the anti-imperialist grannies. "It is the almighty dollar worship and not the lofty ideas promulgated a year ago by President McKinley that causes the nation to attack the Philippine war." But in this, as well as in every other argument, the American sympathizers with Aguinaldo are upon the wrong track. There are not 1,000 people in the United States who expect to individually make a dollar directly by the war in the Philippines. If the war were only for dollars the American people would rise against it as a unit and compel the withdrawal of United States troops from the islands. It was sentiment, of a noble character, that led to the war. The sentiment of patriotism that will not allow the American flag to come home trailing in defeat. The sentiment of liberty will not permit millions of natives to be crushed by the yoke of the fierce Tagals. Americans, although they have the reputation of a commercial people who drive bargains, are, in fact, a people of sentiment. There was as little thought of dollars and cents and as much sentiment in the war with Spain and its resultant conflict with Aguinaldo as there was when they threw the tea on British ships into Boston harbor.

Brings No Distinction to America.

A granddaughter of President U. S. Grant is about to marry a Russian princelet of unpronounceable name. This gives occasion for the outbreak of another streak of yellow journalism such as made notorious the Marlborough wedding of a few years ago. After describing every piece of lingerie the bride will wear, and giving pictures of it, the New York World and New York Journal speak of the "distinction" that the Russian prince will confer upon America by marrying an American girl. This rot is nauseating to sensible Americans. No foreign aristocrat ever conferred distinction upon this country by marrying an American girl, especially not a Russian beggar prince, of which there are over 20,000 in the country from Nijni Novgorod to Kronstadt. It is the American girl that confers the distinction every time. The best of Russian princelets should be almighty glad to have a worthy American woman as a bride. Should he look beyond the personal worth of his bride he will find that the granddaughter of General Grant could boast of a high and noble ancestry. General Grant was one of the two greatest generals of this century; he was the president of the grandest country in the world; foreign potentates were proud to honor him. What had he ever done and who ever heard of the Russian princelet before he dared to aspire to the hand of an American girl? That is the noblest and bravest thing he or his ancestors have to their credit. Away with the truckling to foreign titles and rank distinctions. America and Americans are the peers of any nation, and the newspapers that would have it otherwise should find themselves without an American reader.

Good Record at the Penitentiary.

The New Mexican predicted that Hon. H. O. Bursum would be able to render a good account of his stewardship to the people as superintendent of the penitentiary and would show good business management. Already matters at the institution have been given a better turn in a financial way. Notwithstanding many added improvements, including a modern brick machine, with a capacity of 60,000 per day, the first of the present month found a surplus of over \$13,000 on hand, although only a part of the appropriations has yet been placed to the credit of the penitentiary. Never before in the history of the prison has there been a surplus at the beginning of September. It is already evident that at the end of the fiscal year there will be a handsome unexpended balance, which has not happened in any other year. Nor has this showing been made by reason of a decrease of improvements, for the outlay in this respect has been unusually large, and instead of expending funds for makeshift and cheap work, the improvements made are of a substantial character intended for all time, and called for an outlay that will prove most economical in the long run.

As to the discipline at the prison, it is very clear that this is excellent. The prisoners as a rule are well-behaved, and their work is satisfactory under the system now in use. The "dark cell" and stringing up men by the thumbs have been abolished, and putting prisoners on bread and water diet is not practiced as a mode of punishment. Punishment of all kinds, such as denying indulgences, is not enforced oftener than necessary, as the management believes prisoners are sent to the penitentiary for restraint and the purposes of reform rather than for persecution.

The Light Spreading.

Other people besides those resident in the arid west are now recognizing the necessity of the federal government undertaking the reclamation of the public domain by constructing reservoirs to hold the flood waters of western streams. The federation of labor, at a recent meeting in Chicago, endorsed a declaration setting forth that the redemption of arid land would give employment and homes to laboring people. The following resolutions were also passed:

"1. That all the remaining public lands of the United States should be sacredly held for the benefit of the whole people, and that no grants of the title to any of these lands should ever hereafter be made to any but actual settlers and home builders on the land."
"2. That the public grazing lands should be leased in limited areas to settlers or adjacent lands, title to remain in the federal government until actual settlement, and the revenues from rentals to go to the states to be used for the reclamation of the irrigable arid lands."
"3. That the federal government should build storage reservoirs to save the flood waters that are now wasted, and should wherever necessary build the irrigation works required for the reclamation and settlement of the arid public lands."

In a recent letter to an irrigation advocate in Arizona, President Ripley, of the Santa Fe Railway Company, wrote as follows:
"There is no question in my mind that it is the duty of the national government to take charge of and conserve the water supply; in no other way can it be done efficiently and on a comprehensive scale, and in no other way can the vast areas of arid land owned by the government itself be made of value, so that aside from any benefit which may result to the territory, and aside from the provision of an immense farming area for our surplus population, the enterprise should be a paying one from a purely business standpoint, and the enhancement of values of the government land should more than pay the cost."
"Government money spent in this way will do more good and benefit more people than all that has been appropriated in the river and harbor bills for the last ten years."

Hunting a Moses.

The Democratic party in this territory is on a still hunt for a Moses who will lead it out of the desert of defeat into the rich fields of victory. An organized movement has been set on foot to boom Hon. F. A. Manzanares, of Las Vegas, for delegate to congress next year. There is no use denying that Mr. Manzanares would indeed make the strongest candidate the Democrats could choose, but the patchwork of a platform upon which he would have to stand, the unfavorable record of the Democratic party he would have to explain and the good record the Republican party is now making will cause a

sensible man like Mr. Manzanares to think a dozen times before he allows himself to be led to a needless slaughter at the polls.

In addition, it may be stated that Mr. Manzanares resigned a few months ago the position of member of the national Democratic committee from New Mexico, as is understood, because the policies of the party and the conduct of its leaders were not in harmony with the political views held by him. Indeed, some people assert that Mr. Manzanares may be found at the coming election in 1900 voting the Republican ticket, if not in whole, then in part.

Verily, the Democratic brethren in New Mexico are in desperate straits, and may have to content themselves with some other San Miguel county man, as it is said that A. A. Jones and L. O. Larrazola, of Las Vegas, are willing to be candidates for the Democratic nomination for delegate to congress.

THE TERRITORIAL PRESS.

RAIN NEEDED IN CHAVES.

(Roswell Register.)
Rain is needed very badly all over this portion of the territory. Threatening clouds have appeared in the distance for several days, but there is no immediate prospect of rain. Meantime the stockmen are apprehensive about the fall and winter.

MINERS IN DEMAND.

(Gallup Gleaner.)
Mr. Jones, of the White Oaks district, who left the Gibson mine a few weeks ago, has been in town this week looking for men to work in the new camp to which he has come. He induced quite a colony of men to take a trip down there and look over the ground. He left again on Thursday for Salado.

PRESS COMMENT.

WORK IN THE PHILIPPINES.

(Boston Globe.)
There is every evidence that the fall campaign in the Philippines is to mean business. There is to be no more dilly-dallying with commissions, but henceforth the insurgents will have the army alone to deal with, and there will be no more delays. The rebels will be allowed no rest. When routed they will be pursued by cavalry and broken up. After sufficient treatment on this basis this will have nothing more to surrender.

Unless congress should intervene the war is to be prosecuted on the president's declaration that the Philippines are ours as much as are Louisiana and Texas. That congress will attempt to hamper the prosecution of the war is improbable.

For such duties as the situation requires the hardy boys who paraded yesterday are eager and able. It has been stated recently that the new regiments lately recruited are of remarkably good material. Those who saw Colonel Rice's men yesterday were certainly doubly assured that this is the case, for a finer set of men never moved on the streets of Boston.

These men have joined the army in the expectation of doing something. They will put in a record in the Philippines that will be worthy of the sturdy commander who leads them. This is no tin soldier expedition. There's business ahead.

A TAGAL WALKING DELEGATE.

(St. Louis Globe-Democrat.)
General Funston's method of dealing with the Philippine insurgents seems to be, as he outlines it, to whip them first and then talk civil government to them. This is the plan which is being pursued. Aguinaldo understands the situation in this respect by this time. He knows that some sort of a civil government will be furnished the Filipinos, and that the amount of autonomy in it will be increased as the people of the islands prove themselves to be fitted for it. But he also knows that none of it will be provided until American government is accepted throughout Luzon. Aguinaldo is not in the dark as to American intentions, but he thinks if he surrenders the days of his power are over. Like the walking delegate in labor disturbances, Aguinaldo's pay and potency depend on the continuation of the trouble.

FUTURE FRANCHISE GRANTS.

(Atlanta Journal.)
The day is not far distant when a corporation will no more think of asking a live, well-established city to give it, without a consideration, a franchise for the use of its streets than it would think of asking a rolling mill to donate the steel for its tracks. The people are beginning to demand that they be disposed of with a view to the benefit of the community rather than for the benefit of individuals or corporations.

CUBA'S HOPE.

(Chicago Inter-Ocean.)
In the fifty years that Santo Domingo has been nominally a republic there has not been a year in which a mob has not overthrown or menaced the government. In the hundred and more years of republican government in the United States no mob has ever menaced the government at Washington, and in all our history there has been only one rebellion against national authority. If this system can be extended to Cuba the island will be spared the fate of Santo Domingo. Otherwise Cuba will be the home of violence and the hotbed of anarchy.

RUINED BY STANDARD OIL COMPANY.

Testimony of a Victim of Railroad and Trust Combination.

State Senator Lewis Emery, of Pennsylvania, was before the industrial commission this week in Washington. Mr. Emery claimed to have been twice driven to the wall by the combination of the railroads and the Standard Oil Company against him. He claimed that the Standard Oil Company has inherited all the privileges of the old South Improvement Company, and read the contract between that company and the railroad organizations to prove that it provided explicitly for rebates. He also read a letter addressed by the receivers of the Baltimore and Ohio railroad to the interstate commerce commission admitting, Mr. Emery claimed, that rebates had been given up to January, 1899. Mr. Emery gave a detailed history of his efforts to secure a footing for the product of the independent companies in Germany. In this connection Mr. Emery eulogized the German government as a model.

The witness contended that the Standard Oil Company does reduce prices for the purpose of driving out competitors, and he said he could bring a stack of proofs to show that this was the custom at the present day.

ROBBED THE GRAVE.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters', and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cts., guaranteed, at Fischer & Co.'s drug store.

Dreyfus Sentiment in New Mexico.

General Manager J. A. Eddy, of the El Paso and Northeastern railway of New Mexico, had agreed to furnish a splendid mineral exhibit of one of the richest mineral belts in the world for the Paris exposition. On account of the conviction of Dreyfus the general manager has written F. J. V. Skiff, of Chicago, who is collecting the mineral exhibits, declining, cancelling his agreement, and saying: "We are so filled with disgust and abhorrence for a people whose conscience makes no response to justice that we decline to contribute in any manner toward any measure tending in the least to association or intercourse with them."

A THOUSAND TONGUES.

Could not express the rapture of Annie E. Springer, of 1125 Howard st., Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure: "It soon removed the pain in my chest and I can now sleep soundly, something I feel scarcely remember doing before. I feel like sounding its praises throughout the Universe." So will every one who tries Dr. King's New Discovery for any trouble of the Throat, Chest or Lungs. Price 50c, and \$1.00 at Fischer & Co.'s drug store; every bottle guaranteed.

Thousands are Trying It.

In order to prove the great merit of Ely's Cream Balm, the most effective cure for Catarrh and Cold Head, we have prepared a generous trial size for 10 cents. Get it if you're a druggist or send 10 cents to ELY BROS., 58 Warren St., N. Y. City.

I suffered from catarrh of the worst kind ever since a boy, and I never hoped for cure, but Ely's Cream Balm seems to do even that. Many acquaintances have used it with excellent results.—Oscar Ostrum, 45 Warren Ave., Chicago, Ill.

Ely's Cream Balm is the acknowledged cure for catarrh and contains no cocaine, mercury nor any injurious drug. Price, 50 cents. At druggists or by mail.

THE COUNTY DEBTS

Complete Statistics of Indebtedness and Assessed Valuation of Every County in Territory.

IMPROVEMENT NOTICEABLE

Santa Fe County in Worse Plight Than Any Other County—Most Counties Have Small Debts Compared with That of Santa Fe.

After much labor and after much urging of county officials, Governor Otero has at last succeeded in procuring correct data of the indebtedness of the several counties in this territory. This data is very valuable, and the New Mexican publishes the same herewith in addition to giving also the assessed valuation of the territory for the year 1898.

The new county of Otero, at this date, has no indebtedness. It was organized on April 1 last, and therefore its assessment of taxable property cannot be given for 1898. The assessed valuation of the county for 1899 is \$593,841.24. The new county of McKinley will be organized July 1, 1900.

This table will be included in the governor's report to the secretary of the interior for the present year, detailing the conditions, resources, advancement, progress, etc., of the territory. The table is highly interesting. It is believed that under the Duncan revenue law, the taxable property of the territory for the present year—1899—will be larger than it was in 1898, although in some of the counties the assessment has been reduced, as in Santa Fe. San Miguel and one or two others, but it has been augmented by very nice figures in several other counties.

As will be seen by this table, the county of Santa Fe is in very bad shape, and it behooves the county authorities and the property owners and taxpayers to act promptly and quickly toward bringing about an adjustment and a reduction of the vast debt now crushing it.

A MORNING MIX-UP.

Two Men Who Had Made a Night of It

Found Each Other's Heads.

This morning between 3 and 4 o'clock Councilman Climaco Trujillo and a negro named John Lane, porter at a hotel, quarreled while passing the blacksmith shop on Bridge street near the bridge. Both were under the influence of liquor. Each took a big stone and commenced pounding the other, it is said. Lane received one cut across the head, while Trujillo received nine cuts, and sank down unconscious. Sig Lebow and Pedro Sandoval, who were with Trujillo, secured aid and carried him home, where he regained consciousness, although he was still in a dazed condition this afternoon, and did not know what had happened. Pools of blood and a blood-soaked collar were observed at the scene of the quarrel this morning, causing the report to be spread that Trujillo had been waylaid and almost murdered. Trujillo's injuries, though serious, are not fatal.

THE COURT IS BUSY

There Are 280 Cases on the Civil Docket and 28 on the Criminal.

ALL CASES CALLED ONCE

The Civil Docket Will Be Gone Over Again As Many of the Attorneys Were Not Ready With Their Cases.

There were 220 cases on the civil docket of the territorial district court as printed: Quite a number of these were disposed of to-day. Many were dismissed, and in a few the court handed down decisions. The civil docket will be gone over again, as many of the attorneys were not prepared with their cases yesterday. The cases set for trial are comparatively few. A number have been dragging along for years, through no fault of the court, but owing to delays by parties to the suits or their attorneys.

In the territorial court the reading of the civil docket was finished to-day. In the remaining cases entries were made as follows:

THE FOUNTAIN PETE.

It Was a Success and Resulted in Considerable Profit.

The lawn fete given by the Woman's Board of Trade on the plaza last evening drew nearly the whole population of the city to the beautiful park, which owes its appearance to the indefatigable work of the women of the community. The park presented a scene of wondrous beauty. Cordons of Chinese lanterns were rocked gently by the breeze, and electric lights twinkled like so many stars under the green foliage of the cottonwood trees. In the large pavilion tables were spread, where cake, coffee, ice cream and other delicacies were served. A gypsy tent stood nearby, where the fortune-tellers gave a glimpse into the future that should be worth a good deal to their patrons. A fish pond to the east of the pavilion attracted large crowds, and many who had never caught a fish before were the luckiest in capturing prizes. A peanut roaster of unusually large size was kept busy supplying boys who darted to and fro in the crowd selling their wares.

The band was stationed in the portal of the old palace and played exceedingly well. Benches had been improvised along every path, and were crowded with people, who enjoyed the occasion. The fete was a great success and a credit to those who, out of pure public spirit, arranged the affair, and will devote its proceeds toward the erection of a fountain on the plaza.

All the accounts have not yet been audited, but it is estimated that the workers cleared \$150 by the festival.

"Never Burn a Candle at Both Ends."

If you do your light will soon be gone and you will be in the dark. Don't think you can go on drawing vitality from the blood for nerves, stomach, brain and muscles, without doing something to replace it. Hood's Sarsaparilla gives nerve, mental and digestive strength by enriching and vitalizing the blood. Thus it helps people who are overworked and tired.

HOOD'S PILLS are non-irritating, mild, effective.
