NO. 64

BRANDFORD TAKEN

The British Gained Possession of An Important Strategic Point Without Much Opposition.

BOERS TREKKING NORTH

The Way to the Drakensberg Passes Is Open—A Junction May Soon Be Effected With Forces Under General Buller.

London, May 4.—Lord Roberts reports to the war office under date of Bloemfontein, May 3: "We occupied Brandfontein to-day without much opposition, and without, I hope, many casualties. The first brigade of mounted infantry covered the left flank of the fourteenth brigade of the seventh division, and the right flank was supported by the fifteenth brigade. Pole-Carew's division advanced directly on Brandfontein. The Boer army, under command of De la Rey, retired in a northeasterly direction."

BOERS TREKKING NORTHWARD.
Thaba N'Chu, May 4.—The Boers who evacuated Thaba N'Chu hill are believed to be still trekking, though one gun shelled the camp intermittently. The scouts report that some of the Boers retired to Wepener. They believed that the Boers evacuated the position during the night, trekking northward in three directions. General French left to-day. General Buller is in command here. It is expected that General Buller will effect a junction at any moment.

AN IMPORTANT VICTORY.
London, May 4.—The news of the occupation of Brandfontein was issued by the war office at 10 o'clock this morning, confirming the dispatch previously received by the Associated Press. This is considered the most important communication received from the front since the capture of General Cronje and the relief of Ladysmith. The position gives the key to one of the main roads leading to the Drakensberg passes, which possibly may be the means of co-operation with General Buller later on, and provides an advance base for supplies, etc., and at the same time menaces the Boers now southeast of Bloemfontein.

SMITHFIELD OCCUPIED.
Alliwell North, Cape Colony, May 4.—Smithfield was occupied yesterday by General Buller's brigade. Out of 150 Boers in the town, twenty-five were captured and the rest decamped. Ladysmith was recently full of wounded Boers, who now have been removed to Ficksburg.

KUMASSIE CUT OFF.

The British of the Gold Coast Colony Harassed By the Natives.
Accra, British Gold Coast Colony, May 4.—Sir Frederick Mitchell Hodgson, the governor of the colony, is still at Kumassie. His personal danger probably has been minimized by diplomatic means. The telegraphic superintendent was wounded after repairing the line to a point within a few miles of Kumassie, and communication is again stopped. More raiding in various parts of the colony is reported.

PIRE AND EXPLOSION.

Several Deaths Caused By a Fire In New York City.
New York, May 4.—At a lodging house fire on South street, John Curran, marine engineer, was burned to death, and fireman Daniel Mullin was thrown from the ladder, receiving injuries from which he died. Fireman James Fitzpatrick was fatally injured by the turning of the hose truck he was driving. An explosion wrecked the fat and tallow factory of Joseph Stern & Co. Thomas McGuire and Joseph Drum are believed to be buried in the ruins.

STEAMER STRANDED.

The Montpelier Runs Ashore In a Dense Fog On the St. Lawrence.
St. Johns, N. F., May 4.—The British steamer Montpelier, of the Elder Dempster line, of Liverpool, while bound up the St. Lawrence, went ashore last night in a dense fog at Duck Island, three miles from Cape Ray, at the entrance of Cabot strait. Nothing has been heard of the crew. The ship is probably a total loss.

BEAT OUT HER BOW.

St. Johns, N. F., May 4.—The Montpelier struck at 9 o'clock last night and beat out her bow and bottom on the rocks. She is breaking to pieces to-day. Her crew landed to-day from the steamer's boats, in which they had spent the night lying off the coast.

DEWEY AT ST. LOUIS.

He and Mrs. Dewey Were Feted and Feasted By St. Louis People.
St. Louis, May 4.—At 10 o'clock a reception committee from the Merchants' Exchange called on Admiral Dewey at the Planters' hotel, and at 10:30 the admiral and Mrs. Dewey, Lieutenants Crawford and Caldwell were escorted to the Merchants' Exchange, where a reception in their honor was held. They received an ovation. President Whitehead made a brief address, welcoming Admiral and Mrs. Dewey. The admiral smilingly responded, assuring the members of his pleasure at being in St. Louis. After a reception the distinguished party was taken for a drive.

A LUNCHEON.

St. Louis, May 4.—After a drive the admiral and party were entertained at luncheon at the Union Club. This afternoon they attended a patriotic concert and public reception at the coliseum.

NAVAJO BILL VETOED.

The Reservation Will Not Be Thrown Open to Mineral Entries.

Washington, May 4.—President McKinley today vetoed the bill passed by congress opening the Navajo reservation in part in New Mexico and Arizona to mineral entries. The president in his veto enumerates the number of stock, the acres cultivated, the products of the reservation and then points to the insufficiency of water on it and the inadvisability on that account of prospecting for mineral by outsiders. The bill was vetoed upon the advice of the secretary of the interior.

GOEBEL MURDER TRIAL.

Several Witnesses Testified Today In Court At Frankfurt.

Frankfurt, Ky., May 4.—The hearing of evidence in the case of W. H. Cullen, charged with complicity in the Goebel assassination was resumed today. Colonel Jack Chinn, who was walking with Goebel when the latter was shot, stated he was sure the shot was fired from the executive building. Edward Steffe who was standing on the porch in front of the state house, saw Goebel fall. Immediately after the shot he looked towards the executive building and thought he saw a barrel rifle pointing out of the window of the office of the secretary of state. The rifle was drawn in and the window closed. In cross-examination Steffe said after the shot was fired he thought he saw a little smoke arising above the window from which he saw the rifle.

A COSTLY STRIKE.

Five Hundred Men Quit Work At the Oxford Copper Works.

New York, May 4.—Strikers gathered at the Oxford copper works early today, and seemed in an ugly mood but the presence of deputy sheriffs prevented an outbreak. There are 60 deputies on duty. The strikers number about five hundred. The men were all discharged yesterday when paid off. The copper works probably will not start up again for several weeks. When the men suddenly quit work there were 350 tons of copper in the furnaces. This is cold in the furnaces which will have to be taken apart and then rebuilt. The loss caused by the stoppage of work is placed at \$35,000.

IN THE PHILIPPINES.

General Otis Will Start for the United States Tomorrow.

Manila, May 4.—The United States transport Meade has been ordered to be ready to sail to-morrow. It is supposed that Major General Otis, with his personal staff, will then start for the United States.

INSURGENT ARCHIVES.

The insurgent archives discovered by General Funston include papers implicating prominent foreign firms in Manila in unlawful dealings. It is also said that the American authorities are in possession from this source of a detailed plan for attacking the American forces, written by Aguinaldo in Tagalog language, on January 9, 1899, and translated into Spanish by Buencamino. No correspondence from the so-called anti-imperialist party of the United States was found.

GENERAL OTIS BELIEVED.

Washington, May 4.—In accordance with General Otis' request to be allowed to return to the United States, the war department to-day issued orders to relieve him, to take effect to-morrow, the date fixed by Otis for sailing. The orders designate Major General MacArthur to succeed Otis in command of the division of the Philippines. Brevet Major General Wheaton is designated to succeed MacArthur as commander of the department of southern Luzon.

THE SCOTFIELD TRAGEDY.

Up to Noon 234 Bodies Had Been Recovered from the Mine.

Salt Lake City, Utah, May 4.—A special to the Desert News from Scofield says: The number of bodies actually recovered up to noon is reported to be 234. The bodies supposed to be yet in the mine are probably buried under tons of rock. This morning fifty volunteer grave diggers from Provo, followed by the Rio Grande Western section men, 100 all told, marched up the hill to the little cemetery, where 100 graves are being dug under the direction of Surveyor Snow. Arrangements for the funeral to-morrow are going on actively.

Nominations by Acclamation.

Chicago, May 4.—Henry S. Boutelle was today by acclamation nominated to represent the sixth congressional district in congress.

Prominent Businessman Dead.

Deadwood, S. D., May 4.—Colonel M. H. Day, prominent in business and politics of the Black Hills for many years, died at midnight of appendicitis.

Mining Town On Fire.

Victoria, B. C., May 4.—The chief portion of the mining town of Sandon, east of Kootenai, was destroyed by fire to-day. The railway station and telegraph office were burned. Particulars are unobtainable.

The Wool Market.

St. Louis, May 4.—Wool unsettled. Territory and western medium 17 @ 20; fine 13 @ 17; coarse 14 @ 17.

Invitations and programs for commencement exercises at the New Mexican Printing Company's office. Samples upon application.

The Linotype machine of the New Mexican office is capable of handling any quantity of composition for legal briefs in a short space of time. Printing upon lines from "this machine" like that of new type, for every line is specially cast when used. No blurred or indistinct printing comes from Linotype work.

THE MILITARY BILL

The Senate Considered the Reorganization of the Army At Its Session Today.

SOLDIERS HOME FOR DENVER

Senator Teller Offered a Resolution Expressing Sympathy for the Boers—The House Today Considered the Sunday Civil Bill.

SENATE.

Washington, May 4.—Mr. Wolcott, chairman of the postoffice and post roads committee, reported the postoffice appropriation bill, and gave notice that he will call it up for consideration on the 18th inst.

A resolution was offered by Mr. Teller of Colorado expressing sympathy for the Boers. At the request of the author it was laid over until to-morrow. Mr. Teller gave notice that he will call it up immediately after routine business. The bill passed to establish a branch soldiers' home at or near Denver.

A bill to increase the efficiency of the military establishment of the United States, better known as the army reorganization bill, was called up by Mr. Proctor, in charge of the measure. The bill proposed to change the method of staff appointments by detailing officers of the line for the departments of the adjutant general, inspector general, quartermaster general and commissary general. It also increases the rank of General Miles to major general. The regimental formations of artillery are discontinued, and 126 batteries of coast artillery and eighteen batteries of field artillery are provided for. Mr. Tillman of South Carolina moved that the fifteenth section of the measure be amended so as to read as follows: "That the senior major general commanding the army shall have the rank, pay and allowances of a lieutenant general, and his personal staff have the rank, pay and allowances authorized for the staff of the lieutenant general." The amendment had the effect of striking out the provision making the section apply to General Miles, the present commander of the army. It was agreed to.

Mr. Berry moved to strike out the provision of the army reorganization bill for lieutenant general. It was lost by a vote of 8 to 44.

Mr. Kenney of Delaware offered an amendment creating a veterinary corps. It was adopted, 25 to 23.

The army reorganization bill passed the senate without division.

The senate passed the fortifications appropriation bill.

HOUSE.

Washington, May 4.—The house resumed the consideration of the sundry civil bill. An amendment was adopted on motion of Mr. Wanger of Pennsylvania to increase the pay of surfmen at life-saving stations to a uniform rank of \$65 a month.

VALUABLE TURQUOIS PROPERTY.

The Output of the Tiffany Mines Is Enormous.

In the course of the trial of the Jose de Leyba grant case in the United States court of private land claims, the American turquoise or Tiffany company being an adverse claimant and a party defendant with the government, J. P. McNulty, superintendent of the company's mines at Turquoise, testified that the output of the Tiffany mines had for several years averaged \$200,000, and for two years aggregated about \$700,000. These mines have been operated by the Tiffany for about ten years, and according to this testimony have output in the neighborhood of \$2,000,000 in gems. In fact, for years the world has depended upon Santa Fe county for turquoise of just the right color, texture and hardness.

Invitations and programs for commencement exercises at the New Mexican Printing Company's office. Samples upon application.

Calfax Breivies.

L. B. Parsons has moved from Raton to Denver.

J. L. Laub and family, of Raton, have removed to Bayfield, Wis.

N. A. Moore, a Raton blacksmith, has removed from Raton to Pueblo, Colo.

Frank Briggs and William Woods, of Raton, have left for Cape Nome, Alaska.

Robert Boyle has returned to Raton from La Junta, and has accepted a position in the machine shops.

Rev. F. Lonsdale, of the Presbyterian church at Raton, united in marriage Lee Majors and Miss Lillian Lee Troy.

Miss Callie O'Neill and Richard Robinson were married at the Baptist church of Raton by Rev. George Schaefer.

H. B. Baker has returned to Raton from the Philippines, and has accepted his former position of fireman on an engine out of Raton.

Albert Lawrence, of Raton, for the Lawrence Mercantile Company, has bought the store of Robert P. Ervin at Clayton, Union county.

August Gustafson, aged 24 years, died at Raton of lung trouble. His remains were taken charge of by the I. O. O. F. lodge and shipped to his father at Springfield, Mo.

W. B. Thompson has been appointed general foreman in charge of all the departments of the service and business pertaining to the mechanical department at Raton and Trinidad.

Many new and elegant designs for invitations to commencement exercises at the New Mexican office. Ask to see samples.

OFFICIAL MATTERS.

NOTARY PUBLIC APPOINTED.

The governor has appointed Jose Blas Lucero, of Albuquerque, as notary public for Bernalillo county.

TERRITORIAL FUNDS.

Territorial Treasurer Vaughn to-day received from J. L. Pera, collector of Bernalillo county, \$4,005 of 1895 taxes, \$25.33 of 1896 taxes, and \$365.10 of 1899 taxes, of which \$168.12 is for territorial purposes and \$296.98 for territorial institutions.

CAPITOL TRANSFER.

The capitol rebuilding bill will hold a meeting in Santa Fe on next Wednesday, at which time the date for formally transferring the completed capitol building to the capitol custodians will be fixed. Appropriate public exercises, including an address by Governor Otero, will attend the transfer.

MICA COMPANY INCORPORATED.

The Santa Fe Mica Company has filed articles of incorporation with the territorial secretary, reciting the following particulars: Incorporators, A. A. Keen of Albuquerque, George W. Knaebel, L. A. Hughes, R. C. Gortner of Santa Fe and W. H. Whiteman of Albuquerque; objects, mining mica, gold, silver, lead, copper and other minerals in New Mexico, and particularly in Santa Fe county, and operating works for the treatment of the output of such mines as may be developed; capital stock, \$100,000; life, fifty years; directors, same as the incorporators; principal place of business, Santa Fe.

UNITED STATES LAND COURT.

Jose De Leyba Grant Trial—Status of Navajo Grant Case.

The trial of the Jose de Leyba grant case, involving about 16,000 acres of land in Santa Fe county and covering the famous Tiffany turquoise mines at Turquoise, was resumed in the United States court of private land claims this morning, with Chief Justice Reed presiding and Associate Justices Fuller, Sluss, Murray and Stone present. The testimony was all in at noon, and the arguments will be concluded this afternoon. Frank W. Clancy, of Albuquerque, and H. S. Clancy, of Santa Fe, represent the claimant, Mariano F. Sena, and Hon. M. G. Reynolds and W. H. Pope, United States attorneys, appear for the government.

In the matter of Mariano S. Otero et al. vs. the United States, wherein the petitioner asks for the confirmation of the Vertientes del Navajo grant, lying partly in Bernalillo and partly in Valencia counties, the testimony taken established the fact that the grant named is within the boundaries of the Colorado grant, patented by act of congress, and has been submitted on the question of law whether that fact would not preclude any action by the court. Col. E. W. Dobson, of Albuquerque, appeared for the claimants.

LIVE STOCK ITEMS.

Cattle Shipments From the Southern Parts of the Territory.

Effective May 10, through live stock rates on the Santa Fe railroad will be abolished from New Mexico, Arizona and Colorado, including Southern Pacific stations west of Deming, and all stations in New Mexico on the Santa Fe railroad to Denver & Rio Grande and Colorado and Colorado Midland points, on account of the inability of the lines concerned to agree upon a percentage of division. The circular announcing this cancels through rates, and after the date named rates to Trinidad, Pueblo and Colorado Springs will be the sum of the local rates, which means an increase of 10 per cent.

R. F. Barnett and E. W. Houx returned Monday to Roswell from a trip of twelve days to the range country beyond the White mountains, within thirty-five miles of Socorro, where they bought 2,000 head of cattle from Ed Brown, of Tularosa—1,500 mother cows and 500 yearling heifers. Mr. Houx will put his share of them on his Felix ranch, and the others will go to the range of Barnett & Moss, northwest of Roswell, some twenty miles. The deal amounted to about \$40,000.

J. P. White had three of his fine young Shorthorn bulls in Roswell and weighed them. The red 8 months old bull calf weighed 680 pounds, and the two roan yearlings weighed 950 and 980 pounds respectively. They are out of the car load of Herefords and Short-horns he brought from Missouri a few weeks ago.

C. B. Willingham, manager of the Hereford Land and Cattle Company of Chaves county, has sold and delivered to John Rhea, of Eureka, Kan., 208 fat cows which he had pastured on alfalfa the past winter. It took him about five minutes to sell them at a good figure after Mr. Rhea had seen them.

George M. Slaughter, manager of the Slaughter ranches, Chaves county, left Saturday for the Panhandle to deliver 2,000 head of steers sold to a firm at Council Grove, Kan.

W. E. Washington, the Hagerman cattleman, shipped twelve cars of cattle, mostly yearlings, from Quanah, Tex., to Hagerman, for his alfalfa farm at the latter place.

Hills & Montoya, of Socorro county, sold their entire stock of range horses from yearlings up for \$5 per head, to King & Son, of La Junta, Colo.

John T. Stone, who runs most of his sheep on his large alfalfa farm northeast of Roswell, began shearing last week.

The Turtle Cattle Company shipped 600 head of cattle from Lordsburg to Colorado ranches.

A. King, of St. Louis, is buying up colts around San Marcial for shipment to South Africa.

The Holmg brothers of Grant county have sold their ranch and cattle to W. J. Wamel.

A. C. Windham shipped over 800 head of cattle from Lordsburg to Colorado ranches.

H. A. Ringer, of Hillsboro, has purchased Pierce Page's entire herd of cattle.

CONVENTION CALLED

Governor Otero Issues a Proclamation for a Convention to Protest Against the Stephens Bill.

AT ALBUQUERQUE ON MAY 15

Vital Interests in New Mexico Are Threatened by the Stephens Bill for the Construction of the International Dam.

The sentiment of New Mexico is practically unanimous against the Stephens bill, but unless that sentiment is expressed in a formal manner it will have no weight with congress. The danger that threatens the most vital interests of New Mexico is not an imaginary one, and if the Stephens bill is allowed to pass it will not only ruin the agricultural and horticultural prospects of the Mesilla valley, but will injure the whole Rio Grande valley and its tributary districts. It would also establish a precedent which might in the future be variously applied and used to throttle other irrigation enterprises in this territory; for instance, those of the Pecos valley and other sections. It behooves the citizens of the territory, therefore, to make an emphatic and formal protest, and to make that protest as soon as possible. Governor Otero, ever wide awake to the interests of the territory, has therefore decided to call a convention to assemble at Albuquerque on May 15 to protest against the Stephens bill. He has issued the following PROCLAMATION.

Executive Office,

Territory of New Mexico,

May 3, 1900.

Whereas, There is a bill now pending in congress providing for the building of an international dam at El Paso, Tex., and "for the equitable distribution of the waters of the Rio Grande river," commonly known as the Stephens bill, which, if enacted into a law, will work great harm and injury to the residents of this territory, not only along the line of the Rio Grande river, but upon all of its tributaries.

Now, therefore, I, Miguel A. Otero, governor of the territory of New Mexico, for the purpose of obtaining an expression of opinion from the citizens of the territory of New Mexico upon the object and purpose of said bill, do hereby call a delegate convention and meeting of the citizens of the territory to assemble at Albuquerque on the 15th day of May, 1900, to meet with the irrigation commission of this territory to consider the said bill now pending, and to take such action in the premises as they may deem for their best interests.

And for the purpose of forming such convention, I would urge each board of county commissioners to select five delegates to said convention; each incorporated city or town to select three delegates, and each irrigation company to select two delegates, and that each of said boards, cities and irrigation companies send a list of said delegates to Hon. L. A. Hughes at Santa Fe, secretary of the irrigation commission, not later than the 12th day of May, 1900.

Done at the executive office this 3d day of May, A. D. 1900. Witness my hand and the great seal of the territory of New Mexico.

MIGUEL A. OTERO,

Governor of Territory of New Mexico.

By the governor: GEO. H. WALLACE,

Secretary of New Mexico.

TEXT OF THE BILL.

The following is the text of the Stephens bill as introduced by Representative Stephens of Texas in the house of representatives:

A bill to provide for the equitable distribution of the waters of the Rio Grande river between the United States of America and the republic of Mexico, and for the purpose of building an international dam and reservoir on said river at El Paso, Tex.

Whereas, The republic of Mexico has made reclamation of the United States to the secretary of state, through its legation in Washington, for a large indemnity for water alleged to have been taken and used by the citizens of the United States in Colorado and New Mexico, on the headwaters of the Rio Grande, to which citizens of Mexico had right by prior appropriation, in violation of the spirit of article 7 of the treaty of peace of Guadalupe Hidalgo; and

Whereas, An investigation directed jointly by the state departments of the two republics and carried out by the international boundary commission organized under the convention of March 1, 1899, discovered the fact that the flow of the river has gradually diminished for the past fifteen years in an increasing ratio, so that the ordinary summer's flow in the lower river is inadequate to supply the wants of irrigation, domestic and other purposes, as has been supplied in previous years; and

Whereas, A remedy has been proposed by the two governments for this deficiency by impounding in an international dam and reservoir, near the boundary line between the two republics, the annual flood waters of the spring season, which are greatly in excess of the wants of irrigation, domestic and other purposes in those seasons, such waters to be equitably distributed between the two republics; and

Whereas, It was afterward discovered that other like projects of large dams and reservoirs were contemplated above said proposed international dam and reservoir; and

Whereas, Said commission reported that, in its judgment, the project was feasible, but that the flow was insufficient for more than one reservoir; and

Whereas, The two governments were unable to agree upon the construction of said proposed international dam and reservoir until some method of restraining the building and use of other dams and reservoirs which would destroy the usefulness of said proposed international dam and reservoir had been devised; now, therefore,

Be it enacted by the senate and house of representatives of the United States of America in congress assembled, that nothing in the acts of March 3, 1891; January 21, 1895; February 26, 1897, and May 11, 1898, shall be so construed as to authorize the appropriation and storage of the waters of the Rio Grande or its tributaries in the territory of New Mexico to which others have right by prior appropriation; and every person and every corporation which shall be guilty of thus unlawfully appropriating and storing said waters in this act mentioned shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by a fine not exceeding \$5,000, or by imprisonment (in the case of a natural person) not exceeding one year, or by both such punishments, in the discretion of the court. The unlawful appropriating and storing of water in this act mentioned may be prevented, and the dam, reservoir, or other means used for impounding the water may be removed by the injunction of any circuit court exercising jurisdiction in any district in which said water may be appropriated or stored, and proper proceedings in equity to this end may be instituted under the direction of the attorney general of the United States.

Sec. 2. That the secretary of state is hereby authorized to proceed with the consummation of the proposed treaty between the United States of America and the republic of Mexico, and if the republic of Mexico shall accept the construction of the proposed dam and reservoir, with the condition that the flood water impounded by it shall be equitably distributed between the two countries, as liquidation of all past and future claims for water appropriated in the past or to be appropriated in the future by citizens of the United States otherwise than by impounding it in large dams and reservoirs in New Mexico, then the secretary of state is further authorized to proceed with the construction of said dam and reservoir according to the plans and specifications submitted in the report of the international boundary commission, as published in senate document No. 229, fifty-fifth congress, second session, and the sum of \$2,317,113.38 is hereby appropriated for that purpose.

MINING NOTES.

Building Stone In Lincoln County—Sierra County Development.

Lincoln County, N. M.

James Tallafiero, of White Oaks, took a small crew of men to the Gallinas to develop several copper properties.

A Ridgeway has been selected to take the place of F. L. Marsh as superintendent of the Old Abe coal mine.

The attention of capitalists is being drawn to the marble and building stone deposits near White Oaks. To the south and to the east of that town are found excellent gray and purple sandstones. Immense lime and gypsum deposits lie west and north of White Oaks. Two to five miles from the town are found immense quarries of black, white, variegated and mottled marble, which takes on as fine a polish as any marble that is known.

SIERRA COUNTY.

A Gilpin county bumper has been put in at the Porter mill.

The working force on the Tripp mine is being increased gradually.

John Nelson is exhibiting good copper ore taken from his claims in the Salados.

Dennis Findlay intends to start work on the Grey Eagle, on the South Percha, near Kingston.

The Bottall, which has been flooded with water the past twelve years, is in good condition again, and shows some good ore bodies.

Senator Andrews, of Pennsylvania, has built himself a handsome home at Andrews and intends to reside there. Recently he laid a 4-inch pipe from the Animas creek to the Tripp gold mine at Andrews station, several miles distance, through which the water will be pumped to work the property. From the creek to the mine is an elevation of a little over 700 feet.

Albuquerque Notes.

The contributions toward the proposed hospital and sanitarium have reached the sum of \$4,000.

The stranger who died at Albuquerque this week has been identified as John Meredith, an unmarried man of Brookdale, Essex county, New Jersey.

The old adobe business block at the corner of Gold avenue and south First street is being torn down. Upon the site Grunsfeld Brothers will erect a fine business block.

MARKET REPORT.

MONEY AND METAL.

New York, May 4.—Money on call nominally at 2 per cent. Prime mercantile paper, 3 1/4 @ 4 1/4. Silver, 60 1/2. Lead, 44 1/2.

GRAIN.

Chicago.—Wheat, May, 65 1/2 @ 66; July, 67 1/2 @ 67 3/4. Oats, May, 25 1/2 @ 26; July, 23 1/2 @ 23 3/4.

STOCKS.

Kansas City.—Cattle, receipts, 4,500; market stronger; native steers, \$3.50 @ \$5.75; Texas steers, \$4.35 @ \$5.15; Texas cows, \$3.25 @ \$4.25; native cows and heifers, \$2.00 @ \$4.75; stockers and feeders, \$3.60 @ \$5.50; bulls, \$3.25 @ \$5.25. Sheep, 2,000; strong; lambs, \$5.50 @ \$6.50; muttons, \$2.50 @ \$5.15.

Chicago.—Cattle, receipts,

The Nicaragua Canal.

When built will prove the link between prosperity and many people. The farmers in the extreme east, as well as those in the extreme west, will perhaps profit by it most. It will prove a blessing to humanity in general, improving the condition of the nation, as Hostetter's Stomach Bitters has that of the individual. The Bitters are for everybody, but particularly for those who do not possess health. There have been many cases of dyspepsia and indigestion cured by this medicine. Nothing to equal this remedy has ever been discovered for ailments of the stomach, liver, bowels or kidney. You will find that it will cleanse the blood and sharpen the appetite. See that a private revenue stamp covers the neck of the bottle.

Very Costly.

She—I'm really sorry, I think you'd make an excellent husband if it were not for your expensive tastes.

He—I suppose you are jesting. What expensive tastes have I?

She—Me, for instance.—New York World.

Try the new remedy for costiveness, Chamberlain's Stomach and Liver Tablets. Every box guaranteed. Price, 25 cents. For sale by A. C. Ireland.

Oh, Love, Sweet Love.

"You have not kissed me," she pouted, "for fifteen minutes."

"I know it," he said. "I have a very sensitive tooth, which is liable to ache if I do."

"What do you mean, sir?"

"Why, you are so sweet, you know."—New York World.

Biliousness is a condition characterized by a disturbance of the digestive organs. The stomach is debilitated, the liver torpid, the bowels constipated. There is a loathing of food, pains in the bowels, dizziness, coated tongue and vomiting, first of the undigested or partly digested food and then of bile. Chamberlain's Stomach and Liver Tablets allay the disturbances of the stomach and create a healthy appetite. They also tone up the liver to a healthy action and regulate the bowels. Try them and you are certain to be much pleased with the result. For sale by A. C. Ireland.

Different.

Mistress—Your master has been making complaints about you today, Sall.

Housemaid—Very likely, ma'am. But I'm considerate and don't run to you always and tell you the complaints he makes to me about you.—Der Floh.

GLORIOUS NEWS

Comes from Dr. D. B. Cargile, of Washington, D. C. He writes: "Four bottles of Electric Bitters have cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by Fischer & Co., druggists. Guaranteed.

A Warning.

Insurance Agent—All right, sir; your house is now insured for \$30,000.

House Owner (eagerly)—And what do I get if my house should burn up tonight?

Insurance Agent (suspiciously)—At the least five years in jail.—New York World.

ACKER'S DYSPESIA TABLETS ARE SOLD ON A

Positive guarantee. Cures heart-burn, raising of the food, distress after eating or any form of dyspepsia. One little tablet gives immediate relief. 25 cts. and 50 cts.

For sale at Fischer's drug store.

At the Phone.

Dolly—Hello! Hello! Give me heaven. I want to say my prayers.—Scraps.

ACKER'S ENGLISH REMEDY WILL STOP

A COUGH

At any time, and will cure the worst cold in twelve hours, or money refunded. 25 cts. and 50 cts.

For sale at Fischer's drug store.

More Fun.

Mother—Instead of beating the cat, Willie, I wish you would amuse yourself with your rocking horse.

Willie—Yes; but when I beat the cat he howls and the horse doesn't—Short Stories.

YOUR FACE

Shows the state of your feelings and the state of your health as well. Impure blood makes itself apparent in a pale and sallow complexion, Pimples and Skin Eruptions. If you are feeling weak and worn out and do not have a healthy appearance, you should try Acker's Blood Elixir. It cures all blood diseases where cheap Sarsaparillas and so-called purifiers fail; knowing this, we sell every bottle on a positive guarantee.

For sale at Fischer's drug store.

She Was Willing.

"If not yourself," said a wealthy old bachelor to a charming young lady, "whom would you rather be?"

"Yours truly," was the immediate reply.—Chicago News.

MOKE TEA POSITIVELY CURES SICK HEADACHE.

Indigestion and constipation. A delightful herb drink. Removes all eruptions of the skin, producing a perfect complexion, or money refunded. 25 cts. and 50 cts.

For sale at Fischer's drug store.

At the Foultry Show.

Mister Clapp—Why, Uncle Paul, whatever wearing that rubber coat for? It ain't rainin'.

Uncle Paul—Well, you see when I looks at so many fine fowls my mouf waters so dat I'm bleeged to wear it ter pertect my close.

The easiest and most effective method of purifying the blood and invigorating the system is to take DeWitt's Little Early Risers, the famous little pills for cleansing the liver and bowels. Ireland's Pharmacy.

The Essential Thing.

"I have been told, Mr. Spooner, that you have been engaged before."

"Yes, I must confess that I have; but (brightening up) you needn't let that trouble you at all, I still have the ring."

"DeWitt's Little Early Risers are the finest pills I ever used."—D. J. Moore, Millbrook, Ala. They quickly cure all liver and bowel troubles. Ireland's Pharmacy.

THE SUPERB CLIMATE

Santa Fe Has Fine Summers and Moderate Winters with Equable Temperature.

NEARLY ALWAYS PLEASANT

The Salubrious Atmosphere of the Territory and Reasons Why the Climate Is Healthful and the Country Chosen for Sanitariums.

A knowledge of the contour of New Mexico in relation to the surrounding country is necessary to clearly understand the cause of its climatic advantages, that are not possessed by any other part of the United States. A study of the Rocky mountain region reveals the fact that the great chain from the far north is broken in its continuity as it leaves Colorado. In New Mexico there are smaller ranges with here and there lofty peaks with timbered slopes and barren crowns to relieve the clouds of moisture. From them incline fertile valleys and grassy upland plains to the gulf region until when the southern border is reached, there are no mountains between New Mexico and the southern water. Three fourths of this territory has an altitude of 5,000 feet. At the southern border the valleys have dropped to from 3,000 to 4,000 feet, while the Santa Fe valley, at the capital city, has an altitude of 6,967 feet at the plaza. The varied altitudes must have some variety in climate, but the variation is in degrees of temperature mainly, for in general the climate of New Mexico is dry and salubrious. The rainfall is principally confined to showers in the summer, with little rain or snow in the winter, except in the northern part of the territory.

Near the extreme southern line, in the Sacramento mountains, a lofty peak is the first considerable elevation met with, as the moisture-laden gulf clouds drift to the northwest, and this precipitates rain to greater extent than any other mountain, the rainfall there having in exceptional seasons been estimated at 48 inches. But over the territory the normal precipitation ranges from 8 to 35 inches, according to elevation.

COMPARATIVE TEMPERATURE. The southern valleys are, of course, the warmest portions of New Mexico in the summer, but the hottest are pleasant in midsummer than the east, because the air is dry, rapidly absorbs the dampness of the skin and has a cooling effect. The weather is never oppressive, the nights are always cool enough to sleep under cover and generally under a blanket.

Santa Fe, being up out of the great valley of the territory, is especially blessed as to summer temperature. The highest record by the thermometer in this city in twenty-six years was 96 degrees in 1878, an extreme rarely approached. In the last ten years 91 was the highest absolute temperature. It should be borne in mind that in a dry climate the record of the metallic thermometer does not indicate the real temperature felt by a human body, which is cooled by the drying effect of the air. It has been demonstrated that a temperature of 90 at Santa Fe is not more oppressive and heating than 72 at St. Louis, or at any place with a humid climate.

The following table was made up from reports of the climate and crop service of the weather bureau, and gives a general idea of the relative intensity of heat as indicated by the metallic thermometer:

Stations.	Mean Temperature.

SANTA FE SUMMER.

Were Santa Fe located in sight of St. Louis or Chicago, with its present elevation, residents of such place would behold a city more than a mile and a quarter skyward, above the hot, malarial, moisture-soaked earth, in a purer atmosphere, which all would seek. Should they behold the city where she is they would find a still cooler and purer atmosphere, where there is little moisture, a porous soil to drain away the rain that comes, and a precipitous descent for escape of the snow-fed streams and gorges in sight of the city.

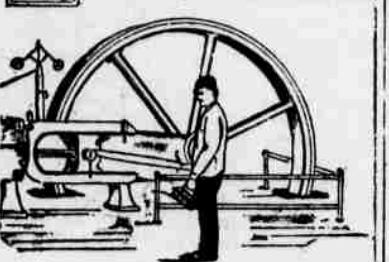

The records show that no other city in the same latitude possesses so cool a summer temperature as Santa Fe, where the average is 67 degrees and the change between night and day temperature too slight to be detrimental to health. Thanks to elevation, to wooded mountains far southward, and shelter from the hot winds of Arizona that are ward off by the rising series of mountain ranges between Santa Fe and the sandy, lower levels of desert, this city is the coolest south of the upper lake region. It is far cooler than Denver, has thermometer readings about as low as San Diego, and is free from the humid heat of the coast.

THE WINTER SEASON.

One who has not seen the lay of the land might think that an elevated place having so delightful a summer climate would have a severe winter. Yet this is not true. The winter temperature is not so low as in the lower Ohio valley, and is free from moisture, there being less of cloudy weather in winter than in summer. To the north, the great mountains of Colorado receive the greatest snowfall, and break the force of northern winds; other mountains closer stand guard to shelter the Santa Fe valley, which lies at their feet. To the east a range keeps out the cold northerly as they rush southward to Texas. West-

You have been in the power house of some great plant of machinery. Did it occur to you that your body was a more wonderful machine?

In the term of a natural life the heart beats three thousand million times and with a pressure of thirteen pounds to the stroke lifts in that time, half a million tons.

of blood. What care are you taking of this wonderful machine? Shortness of breath, buzzing in the ears, dizziness, palpitation of the heart, sleeplessness, stomach trouble, indigestion are only some of the evidences that the machinery is undergoing a strain which sooner or later will break it down.

What the lubricant is to the machine of iron, Dr. Pierce's Golden Medical Discovery is to the machine of flesh and blood. It reduces friction to a minimum and keeps the great organs in proper running order. It does this by healing diseases of the stomach and organs of digestion and nutrition, and increasing the flow of pure and healthy blood.

I used ten bottles of Dr. Pierce's Golden Medical Discovery and several vials of his "Pleasant Pellets" a year ago this spring, and have had no trouble with indigestion since," writes Mr. W. T. Thompson, of Townsend, Broadwater Co., Montana. "Words fail to tell how thankful I am for the relief, as I had suffered so much and it seemed as if I could do me no good. I got down to all New England, and was not able to work at all. Now I weigh nearly 160 lbs. and can do a day's work on the farm. I have recommended your medicine to several, and shall always have a good word to say for Dr. Pierce and his medicines."

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. Use them with the "Discovery" when a pill is required.

ward also, nature has interposed barriers to shield New Mexico from gales, and when a wind finds its way up the winding Rio Grande, Santa Fe receives but the feather edge of the blow.

NEW MEXICO SANITARIUMS.

Sunny, bright days mark the winter season, which, until Christmas at least, is quite as delightful as the glorious summer, though crisp and cool. Even the spring months in Santa Fe cannot be equaled for mildness in any eastern state. While hundreds of tourists visit the city in summer and make a more or less protracted stay, the number who come to remain permanently for the curative effect upon tuberculous diseases is all the while increasing. The proportion of the latter will be undoubtedly enlarged in consequence of the indorsement given New Mexico's climate by the United States marine hospital service, which has in 1899 established two permanent sanitariums in the territory, and will maintain them as homes for soldiers and sailors afflicted or threatened with tubercular troubles. Many years of life at New Mexico army posts and a careful examination by experts led the authorities to take this action in the interest of military invalids, and it is also intended to remove to New Mexico consumptive inmates of soldiers' homes in California and eastern states.

Favorable conditions exist all over New Mexico for restoration to health or for improving the condition of such sufferers; a dry, aseptic air, light atmospheric pressure, well drained soil, a minimum of cold and heat, the absence of great changes in temperature and a maximum of sunshine.

SUNSHINE RECORDS. As to the latter point, the latest figures available from the government records are those of 1897, the year book of 1898 having not yet been published. The summer of 1897, as it happened at Santa Fe, was unusually cloudy and rainy, was unusually cloudy and rainy at Santa Fe, yet the superiority of this city in the matter of days that were sunny throughout can be seen by a few comparisons with places in various parts of the country.

Stations.	Temperatures.				No. of Days.
	Maximum.	Minimum.	Percentage Sunshine.	Precipitation.	
Boston.....	94	10	53.40	77.13	121
Buffalo.....	92	8	57.72	64.14	121
Chicago.....	90	6	57.72	64.14	121
Cincinnati.....	90	6	57.72	64.14	121
Denver.....	90	6	57.72	64.14	121

San Francisco.....	90	10	57.72	64.14	121
Seattle.....	90	10	57.72	64.14	121
Washington.....	90	10	57.72	64.14	121

Note—The minus sign (-) used before figures above indicates below zero.

This table shows that in the year 1897 only El Paso had more sunshine than Santa Fe, but that Texas city has much hotter summers and almost as great an extreme of cold, with an excessive amount of wind in the winter.

The government records do not show that any place in the United States excels Santa Fe in sunshine, year in and year out, the average number of hours of sunshine daily in a period of five years being seven hours and forty-five minutes, which is just about right for variety, comfort and health.

A favorable point in comparison with the east is that the most sunshine here is in the fall and winter, November leading, while in the east the sun is more in evidence in the summer months, when it is sometimes neither wanted nor needed.

FREE OF CHARGE.

Any adult suffering from a cold settled on the breast, bronchitis, throat or lung troubles of any nature, who will call at Ireland's Drug Store will be presented with a sample bottle of Boschee's German Syrup, free of charge. Only one bottle given to one person, and none to children without order from parents. No throat or lung remedy ever had such a sale as Boschee's German Syrup in all parts of the civilized world. Twenty years ago millions of bottles were given away, and your druggists will tell you its success was marvelous. It is really the only Throat and Lung Remedy generally endorsed by physicians. One 75 cent bottle will cure or prove its value. Sold by dealers in all civilized countries.

A Contradiction of Phrases.

"Don't you think that young woman puts on a great many airs?" said one young girl.

"Yes, answered the other; "she isn't a bit breezy and good natured any more."—Washington Star.

And He Meant So Well!

"A woman is as old as she looks, Mr. Gilley," said Miss Smith.

Oh, Miss Smith," replied Mr. Gilley, who generally makes a muck of it when he tries to pay a compliment, "surely you are an exception to the rule."—Detroit Free Press.

Worked on his Feelings.

"Good evening, Mr. Manygirls," said the young man.

"Evening!" responded Mr. Manygirls gruffly. A pile of papers, evidently bills lay scattered in front of him. Hence his gruffness. The young man smiled.

"Bills for your seven daughters' spring clothes and bonnets, I presume?" said he.

"Yes," replied the old man. "But is it any of your business?"

"It is. I have come to ask you if I may not take one of those daughters off your hands."—L.

The old man rose with a smile. "Why, boy, you can move to Utah and take the whole seven!"

The young man had caught him at the right time.—New York World.

"After suffering from severe dyspepsia over twelve years and using many remedies without permanent good, I finally took Kodol Dyspepsia Cure. It did me so much good I recommend it to every one," writes J. E. Watkins, Clerk and Recorder, Chillicothe, Mo. It digests what you eat. Ireland's Pharmacy.

Little Eva's Demise

Rialto.—The reform wave has struck the country. They wouldn't allow "Uncle Tom's Cabin" to play in Squeedunk.

Hamflete—How's that?

Said they heard there was a bedroom scene in it.—New York World.

W. S. Musser, Millville, Pa., saved the life of his little girl by giving her One Minute Cough Cure when she was dying from croup. It is the only harmless remedy that gives immediate results. It quickly cures coughs, colds, bronchitis, grippe, asthma and all throat and lung troubles. Ireland's Pharmacy.

Not Economical.

Drowning Party—Hey! Save me; save me! Where I (hic) live? I'm Senator Bigboddy, you know.

Shiftless Willie—Can't! Never saved nothin' in my life!—New York Evening Journal.

"I had stomach trouble twenty years and gave up hope of being cured till I began to use Kodol Dyspepsia Cure. It has done me so much good I call the savior of my life," writes W. R. Wilkinson, Albany, Tenn. It digests what you eat. Ireland's Pharmacy.

Georgia Philosophy.

Money makes de hoss go, but it takes a pine saplin ter persuade de mule.—Atlanta Constitution.

J. C. Kennedy, Roanoke, Tenn., says: "I cannot say too much for DeWitt's Hazel Salve. One box of it cured what the doctors called an incurable ulcer on my jaw." Cures piles and all skin diseases. Look out for worthless imitations. Ireland's Pharmacy.

Woman.

Oh, I feel a thousand years old, she sighed.

Well, he said, you look at least 40.

And then she angrily declared that she would never speak to him again.—Chicago Times-Herald.

J. Q. Hood, Justice of the Peace, Crosby, Miss., makes the following statement: "I can certify that One Minute Cough Cure will do all that is claimed for it. My wife could not get her breath and the first dose of it relieved her. It has also benefited my whole family." It acts immediately and cures coughs, colds, croup, grippe, bronchitis, asthma and all throat and lung troubles. Ireland's Pharmacy.

Up to Date.

Jones—I hear he got all the negro vote.

Johnston—Yes, instead of running for office he caked-walked.—Kansas City Independent.

STORY OF A SLAVE.

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a godsend to weak, sickly, run-down people. Every bottle guaranteed. Only 50 cents. Sold by Fischer & Co., druggists.

The Ambush Campaign.

It must rejoice an honest politician to know that he has the people at his back.

Yes, if they're not incensed Kentuckyans with guns.—Indianapolis Journal.

"After suffering from piles for fifteen years I was cured by using two boxes of DeWitt's Witch Hazel Salve," writes W. J. Baxter, North Brook, N. C. It heals everything. Beware of counterfeits. Ireland's Pharmacy.

Explicit Directions Needed.

Now be careful, Ethel, that you don't eat too much, said the fond mother to her little girl, who was going to a party.

No, mother, said Ethel dutifully. "I won't if I can help it. But how am I going to know just how much is too much?"—Somerville Journal.

BISMARCK'S IRON NERVE

Was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25c at Fischer & Co.'s drug store.

Cheerful News for Bill.

Sheriff (of Frozen Dog)—The reward says "Dead or alive," Bill, but I much prefer to take yer back alive.

Bronco Bill—All right, sheriff, I'm yours.

Sheriff—Thanks, Bill.—The boys are all ready and waitin' to lynch yer, an' I should certainly feel cheap an' mean if I took yer back dead.—Judge.

IT SAVED HIS LEG.

P. A. Danforth, of La Grange, Ga., suffered intensely for six months with a frightful running sore on his leg, but writes that Bucklen's Arnica Salve wholly cured it in ten days. For Ulcers, Wounds, Burns, Boils, Pains or Piles it's the best salve in the world. Cure guaranteed. Only 25c. Sold by Fischer & Co., druggists.

Kodol Dyspepsia Cure

Digests what you eat.

It artificially digests the food and aids Nature in strengthening and reconstructing the exhausted digestive organs. It is the latest discovered digestant and tonic. No other preparation can approach it in efficiency. It instantly relieves and permanently cures Dyspepsia, Indigestion, Heartburn, Flatulence, Sour Stomach, Nausea, Sick Headache, Gastralgia, Cramps and all other results of imperfect digestion. Price 50c and \$1. Large size contains 24 times as much. Booklet about dyspepsia mailed free. Prepared by E. C. DeWitt & Co., Chicago. Ireland's Pharmacy.

Kopeless.

The fair young thing was weeping copiously.

But, he observed, you love him and he loves you. Why these tears?

That is just it! she sobbed. He won't take "no" for an answer.

It was indeed hard. Rid young love of the essential elements of romance, and what remained?—New York Press.

AUGUST FLOWER.

"It is a surprising fact," says Prof. Houton, "that in my travels in all parts of the world, for the last ten years, I have met more people having used Green's August Flower than any other remedy, for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion." Sample bottles free at Ireland's Drug Store. Sold by dealers in all civilized countries.

Such Is Fame.

Citizen—Officer! can you (hic) tell me where I (hic) live? I'm Senator Bigboddy, you know.

Officer—What's yer cook's name?

Citizen—Mary Ann (hic) O'Brady.

Officer—Four blocks down and two doors to yer right.—Judge.

PREVENTED A TRAGEDY.

WINE OF CARDUI

Woman Knows Woman.

Zurich, Kan., Jan. 31. I used Wine of Cardui for nervousness and weakness in the womb. After taking one bottle I was well again. I am a midwife and always recommend Wine of Cardui to my lady friends during pregnancy and after birth as a tonic. Every lady who takes it finds that it does even more than is claimed for it.

MRS. V. M. BOISVERT.

Wine of Cardui

Nobody knows woman like woman. Men go to medical colleges, study books and listen to lectures. They learn indirectly of the diseases of women, but they are men and can never fully understand the ailments, the sufferings, the agonies of mothers, wives and sisters. A woman knows. Mrs. Boisvert knows. She has passed through the trials and tribulations of her sex. She has been near by when her sisters suffered. She has seen them relieved and cured with Wine of Cardui. Is it any wonder she recommends it? Is it any wonder that thousands of other women recommend it? They know. They have actual experience to prompt them. They spread the tidings from mouth to mouth, telling how Wine of Cardui helps young girls, helps the weak of all ages, helps and cures all womanly ills.

Druggists Sell Large Bottles for \$1.00.

INDIAN DEPREDAATION CLAIMS.

Testimony Being Taken—Special United States Attorney Spooner Present.

The taking of testimony in the numerous Indian depredation claims cases pending in this locality has been in active progress in Santa Fe since the arrival in the city of Hon. S. H. Spooner, special United States attorney, appointed to protect the interests of the government in such cases.

The testimony in the claim of Joseph Hersch, of this city, involving about \$10,000, has already been taken before Hon. T. B. Catron acting as attorney for the claimant. Mr. Catron has a number of other cases of a similar nature that will be heard later on.

Testimony is being taken to-day in the case of Eluterio Barcia, of Agua Prieta, Santa Fe county, involving about \$200. Col. George W. Knaebel representing the claimant. Colonel Knaebel is also attorney for the claimant in the case of Manuel J. Aragon, administrator, of Espanola, wherein damages from Indian depredations to the amount of \$2,000 are alleged.

Judge N. B. Laughlin is attorney for the claimants in the following cases: Gerónimo Martinez, of Taos county, involving damages to the amount of \$680; Jose Martinez y Medina, of Penasco, two claims; Jose Julian Sisoneros, of Questa, Taos county; Calvin Hyde, of Chilli, involving over \$2,000, for depredations committed in Lincoln county in 1867. The hearing of the last mentioned case is set for May 10, and the others are set for May 15.

Hon. B. M. Read, of this city, is attorney for the claimants in the following cases: Leo Cadillo Giron, of Tierra Amarilla, Rio Arriba county, amount claimed about \$7,000, not set; Higinio Torres, of Espanola, Santa Fe county, amount claimed \$128, set for May 11; Lorenzo Vigil, of Galisteo, Santa Fe county, amount claimed \$250, set for May 11; Mrs. Samuel Ellison, of Santa Fe, amount claimed between \$7,000 and \$8,000, set for May 11; Jose Leon Madrid, of Lamy, Santa Fe county, amount claimed about \$7,000, set for May 16; Mrs. Lupta Salazar de Madrid, of Tierra Amarilla, Rio Arriba county, amount claimed about \$11,000, not set; Viviano Montano, of Tierra Amarilla, Rio Arriba county, amount claimed \$500, not set; Agapito Senna, of Galisteo, Santa Fe county, amount claimed about \$5,000, set for May 11; Maria Antonio Gomez, of Rio Arriba county, amount claimed \$750, set for May 16; Juan Fernandez, of Rio Arriba county, amount claimed \$106, set for May 16; Nazario Gonzales, of Santa Fe county, amount claimed about \$4,000, set for May 11; Rev. R. Medina, of Penasco, Taos county, amount claimed \$1,000, set for May 17; Ramon Martin, of Espanola, Santa Fe county, amount claimed \$820, set for May 4.

A good many witnesses in these cases are already in the city, and many more will arrive next week.

PERSONAL MENTION.

Attorney Ernest Knaebel, of Denver, is in the city on professional business.

Miss Beatrice Hersch of this city, is visiting Miss Clark at Plaza del Alcaide. Andy Horne, the well-known freighter and old-time stage man, who has ranches at Pena Blanca and in Pino canon three miles below Bland, is in Santa Fe buying supplies.

Miss Kittle Crumpacker, the charming daughter of Judge J. W. Crumpacker, who is attending the Loretto academy in this city, is making a brief visit to her father and mother in Albuquerque.

Pedro A. Sanchez and Hilario Ortiz of Las Truchas are in the capital. They have business in the district court concerning ditch and water rights in their town. Live stock and crops in their section are in splendid condition.

Hon. Reyes Gonzales and Patricio Chaves, prominent people of Abiquiu, Rio Arriba county, who have been in Santa Fe for a week or more on business before the United States court of private land claims, left for their homes over the narrow gauge this morning.

W. A. Scott, staff correspondent of the Mining and Scientific Press, of San Francisco, returned to Santa Fe yesterday from a visit to the Cochiti mining district, and left for his headquarters in Denver this forenoon. He was much impressed with what he saw over in the Cochiti, and says he will be back in New Mexico in a few months.

Charles R. Gardner, of Pocahontas, Idaho, a brother of the late Mrs. William L. Jones, who was killed a cash legacy of \$2,000 by the late William L. Jones, arrived in Santa Fe last night to look after his interests in connection with the threatened contest of the will by the uncle and aunt of the testator. The case will come up in the probate court on Monday.

MINOR CITY TOPICS.

Deputy Sheriff Huber this morning killed two dogs that showed signs of hydrophobia.

Train No. 17, with the mail from the east, due here at 7:20 o'clock tonight, is reported two and a half hours late.

Dog owners are cautioned that the city marshal will soon begin killing unlicensed canines and all persons are recommended at once to secure tags for their pets.

W. J. Cartan and an expert will reach Bland tomorrow to take possession of the Crown Point group of mines under the terms of the recent deal with Henry Lockhart, J. D. May and the other owners.

Train No. 17, on the Santa Fe railroad, was several hours late last evening. The train from the south and the flyer from the east were over an hour late this noon.

The rotten sidewalks of Santa Fe continue to be a disgrace to the capital city. It is earnestly hoped that the present city council will take suitable and effective action in the premises at its meeting on Monday evening.

Remember the public school entertainment at the court house this evening. The full program will be found elsewhere in this paper. Admission, 25 cents; children, 10 cents. The proceeds will be used in buying dictionaries and reference books for the different schools.

Many new and elegant designs for invitations to commencement exercises at the New Mexican office. Ask to see samples.

BASEBALL CONTROVERSY.

Albuquerque and Santa Fe Indian School Teams Would Like to Meet.

The baseball teams of the government Indian school in this city and of the government Indian school at Albuquerque are anxious to try conclusions on the diamond but the managers of the two teams cannot come to an agreement. A very liberal and fair offer has been made by the Santa Fe boys. They propose that each team pay its own fare between Santa Fe and Albuquerque and also its own expenses. The gate receipts are to be divided any way that the Albuquerque team may desire. If they want to divide them on a 75 or 50 per cent basis that will be satisfactory too. Albuquerque, however, demands that Santa Fe pay their fare and expenses and turn over the gate receipts to them and this, of course, the Santa Fe team does not feel justified to promise.

FRUIT PROSPECTS.

A Good Crop Outlook for Santa Fe and Tesuque Orchards.

Careful examination discloses the gratifying fact that the orchards of this city and vicinity have not suffered injuriously from the frequent frosts of the past ten days. A good many of the earliest blossoms were killed, but hardly enough were destroyed to thin the trees to their proper bearing capacity, and many should be picked off later on. According to present appearances early apricots will be the only short crop. Unless an unusual disaster should befall the orchards, the crop of peaches, sweet cherries, plums, pears, nectarines, apples and all the small fruits will be larger than for several years. Edward Miller, the well-known Tesuque fruit grower, reports that his trees and those of his neighbors nearly all promise as large a yield of fruit as they ought to bear.

A WET APRIL.

The Past Month Was Remarkable In Several Respects.

The month of April was the wettest month in Santa Fe since records have been kept by the local weather bureau. The amount of snow that remained on the ground was the largest on record. The number of clear days also was less than usual, and the temperature averaged three degrees a day below the normal. The mean temperature was 44 degrees; the highest temperature, 66 degrees, on April 20; the lowest temperature, 19 degrees, on April 11; the greatest daily range of temperature was 28 degrees, on April 19; the least daily range of temperature was 5 degrees on April 6; the mean temperature of April for twenty-seven years was 47 degrees; the average deficiency of daily temperature during the month was 3 degrees; the accumulated excess of daily temperature since January 1 is 279 degrees, or two degrees per day.

The prevailing direction of the wind was from the southwest; the total movement of the wind was 5,656 miles; the maximum velocity of the wind was thirty-eight miles per hour, from the southwest, April 3.

The total precipitation of the month was 2.10 inches; the number of days with .01 inch or more of precipitation was 10; the average precipitation of April for twenty-seven years was .75 inches; the total excess in precipitation in April was 1.35 inches; accumulated excess of precipitation since January 1 is 1.31 inches.

The number of clear days was 13; the partly cloudy days, 12; cloudy days, 5. The mean relative humidity at 6 a. m. was 62 degrees; at 6 p. m., 31 degrees; the mean monthly humidity was 46 degrees. The mean maximum temperature was 53.6 degrees, and the mean minimum temperature, 44 degrees.

FREE GOLD DISCOVERED.

Sensational Gold Strike Nine Miles North-east of Santa Fe.

Mr. and Mrs. O. P. Perry, of this city, who usually spend their summers on their ranch about one mile above Monument Rock, have apparently made a notable discovery of free gold in the mountains east of the ranch. Mrs. Perry brought the pleasing news to the city, and backed up her statements with several magnificent specimens of quartz showing many specks of genuine gold. In one of these pieces of rock a New Mexican scribe counted sixteen distinct colors, several of them being plainly perceptible without the aid of a glass. The colors have very much the appearance under a glass of the richest kind of California gold. Mrs. Perry says there is a large and well defined ledge of this quartz, and that she has already made locations thereon. The discovery is about nine miles from Santa Fe, and may mean a great deal to this city.

County Jail Notes.

Jose Maria Gorman and Onofre Apodaca were arrested and jailed last night charged with fighting in the first ward. The woman declares that the man came to the house and attempted to beat his wife and her mother and she interfered.

Deputy Sheriff Huber this morning arrested and jailed Maximo Martinez on a warrant charging him with assaulting his wife last night with intent to kill. Martinez will have a hearing before Justice Garcia at 9 o'clock tomorrow morning.

Surveying the City.

City Engineer J. L. Zimmerman, with several assistants, is busily engaged making a careful survey of the several blocks, lots, streets and alleys within the corporate limits of the city of Santa Fe with a view to platting and mapping them as soon as possible. He has already surveyed and plotted five blocks. As soon as the work is completed deeds containing accurate descriptions can be made by the city to bona fide property owners in compliance with the act of congress.

At the Hotels.

At the Exchange: W. A. Scott, Denver; Carey D. Richards, Pierre, S. D.; Charles R. Gardner, Pocahontas, Idaho; Jose Salazar y Ortiz, Chamita; T. Labadie, Las Vegas; T. N. Reynolds, Monument City.

OJO CALIENTE..

(HOT SPRINGS.)

THESE Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Barro Colorado on the Denver & Rio Grande Railway, from which point a daily line of stages run to the Springs. The temperature of these waters is from 90° to 125°. The gases are carbonic. Altitude 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 166.24 grains of alkaline salts to the gallon; being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis, and Mercurial Affections, Scrofula, Catarrh, La Grippe, Small Pox, Complaints, etc., etc. Board, Lodging and Bathing, \$2.50 per day. Reduced rates given by the month. This resort is attractive at all seasons and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 10:35 a. m. and reach Ojo Caliente at 3 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, \$7. For further particulars address—

ANTONIO JOSEPH, Prop.. Ojo Caliente, Taos County, New Mexico.

The Sanitary Still..

PURE WATER is the most essential requisite for health that enters into the system. Ninety per cent of our food is water. Distillation is the only method of rendering water free from both organic and inorganic matter. The Sanitary Still is a perfected process that clears water absolutely of every form of impurity, whether from alkali, lime or other minerals; removes free ammonia, ammonia albuminoids, chlorine or other injurious gases. It requires about the same space as a teakettle, but little time, very little trouble, and no experience to operate. The first cost is the only cost, and that is small enough to be real economy to users of distilled water. Sold under an absolute guarantee. Descriptive catalogue free. Local agents wanted.

J. B. SLOAN, General Agent, Santa Fe, N. M.

HENRY KRICK, SOLE AGENT FOR Lemp's St. Louis Beer.

ALL KINDS OF MINERAL WATER. The trade supplied from one bottle to a carload. Mail orders promptly filled. Santa Fe
