SITUATION CRITICAL

The American Consulate at Chin Kiang Asks for a Cruiser to Protect Americans.

THE CHINESE DISTURBANCES

The Cabinet Discussed Them Today and Decided to Push Measures for the Protection of the Life of American Citizens.

Washington, June 12.—The following dispatch was received at the state department to-day:

"Chin Kiang, June 12.—A large number of natives, who have organized a secret society, have been very apprehensive. No protection. Want a cruiser.

(Signed) "MARTIN."

A CRITICAL SITUATION.

Washington, June 12.—The cabinet meeting to-day was devoted largely to the discussion of the Chinese situation. Secretary Hay laid before the cabinet dispatches from Minister Conger, which indicated that the situation was very critical. It was decided to stand by the policy of pushing measures for the protection of the lives and property of American citizens, and acting independently as far as possible. It may be that in the accomplishment of this result the forces of the powers will have to act in unison for the protection of all foreign residents in the disturbed districts, but this is to be the extent of American activity.

A NEW MEMORIAL.

It Was Dedicated With Great Ceremony at West Point Today.

West Point, N. Y., June 12.—The Cullum memorial hall at the United States Military Academy here, which is the gift of Brevet Major General George W. Cullum, was dedicated with appropriate ceremonies to-day. A dinner followed the dedication, which was attended by many distinguished men. The superintendent of the academy, on behalf of the trustees, presented the memorial hall to the alumni of the military academy. General Velle accepted it, and in turn presented it to the United States through President McKinley and Secretary Root. The building faces the main parade ground, and cost, complete, about \$275,000. In the foreground is the statue of Major Dade, who was killed, with his entire command, in the Seminole war. Over the upper right columns of the building are the words, "To the Officers and Graduates of the United States Military Academy." Cullum memorial hall was designed as a receptacle for statues, busts, mural tablets and portraits of eminent officers and graduates of the academy.

OHIO DEMOCRATS.

An Effort Is Being Made to Down McLean.

Columbus, O., June 12.—The Democratic state convention opened here this morning. Webster P. Huntington, who resigned as managing editor of the Press-Post the day it came out for Dewey for president, was elected temporary chairman. Lewis Reemelin, of Cincinnati, is secretary, and John McCarthy, of Defiance, sergeant-at-arms. The vote for McLean as governor last year is the basis of representation. This makes 100 delegates less in the convention than a year ago. McLean's enemies are being punished in the small representation given them in the convention. Cuyahoga county will have only fifteen votes, and Lucas county only a few, both counties being carried by Jones last fall. Four delegates at large to the national convention, two presidential electors at large for the state of Ohio, and candidates for the following state officers will be nominated: Secretary of state, judge of the supreme court, food and dairy commissioner, commissioner of public schools, and member of the board of public works.

AGAINST McLEAN.

Columbus, O., June 12.—The anti-McLean men are trying to organize to control the state Democratic convention tomorrow and select delegates at large to Kansas City.

The Kaiser's Pet Bill.

Berlin, June 12.—The reichstag to-day passed the naval bill.

A Texas Duel.

Dallas, Tex., June 12.—At Livingston, Polk county, Tex., Bruce Pounds and Douglas Hinson fought a duel to the death with pistols. It was the result of a quarrel. Eleven shots were exchanged, and both men died in their tracks.

He's Willing.

Sacramento, Cal., June 12.—A dispatch from Congressman Marion Devries, Democrat, to Washington, to-day says he will accept the appointment by President McKinley as United States appraiser of New York.

Nominated for Congress.

Council Bluffs, Ia., June 12.—Judge Walter I. Smith was nominated by the Republicans for congress in the ninth district to succeed Smith McPherson, who becomes judge of the federal court.

Streeter in Criminal Court.

Chicago, June 12.—Capt. George Wellington Streeter, whose cohorts recently took possession of the "district of Lake Michigan" and defied the whole local police force, was to-day held in the criminal court charged with conspiracy and assault. "District of Lake Michigan" is the name given by Streeter to the land formed by dumping in the lake offshore.

THE YAGUI INSURRECTION.

General Torres Has Difficulty In Keeping the Yaguis In Check.

El Paso, June 12.—William G. Stephens, general agent in Mexico for an eastern manufacturing company, returned today from a tour of the state of Sonora, having visited the headquarters of General Torres at Torin. The Indians he said occupy the impassable Baccate mountains, a range 50 miles in length and it requires the utmost vigilance on part of Torres and his six thousand troops to hold them in check. In a brush on Tuesday the Indians lost 12 men and the Mexicans had 15 killed and several wounded.

TRAIN WENT INTO A DITCH.

A Disastrous Wreck In Montana On the Great Northern Railroad.

Spokane, Wash., June 12.—The news reached here that the Great Northern east bound passenger train was derailed at Summit, Mont. It is supposed that the accident was the result of a broken rail. Two engines and four coaches are reported to have gone into the ditch. A score or more passengers were injured but none were killed outright.

Eclipse of the Moon.

Washington, D. C., June 12.—A partial eclipse of the moon will occur this evening visible in all parts of the United States. The duration of the eclipse is only seven minutes and eighteen seconds and is therefore barely visible without telescopic aid. In this city the eclipse begins at 10:30 p. m.; New York, 10:28 p. m.; Chicago, 9:34 p. m.; Cincinnati, 9:46 p. m., and San Francisco, 7:14 p. m.

Local Freight Agents Meet.

Boston, June 12.—The National Association of Local Freight Agents met in annual convention today at Faneuil hall. The convention is a business gathering, but some festivities will be indulged in, including a moonlight excursion tomorrow night, and later a trip will be made to Nantucket Beach, where a banquet will be held.

Train Dispatchers Association.

Atlanta, Ga., June 12.—The 13th annual convention of the Train Dispatchers' association was opened here today, at Kimball hotel, with President F. N. Schultz, of Garret, Ind., in the chair. Important papers of interest to the train dispatchers are being read and discussed. The attendance is somewhat larger than had been expected.

Monument to General Putnam.

Greenwich, Conn., June 12.—A grand celebration is taking place here today, the occasion being the dedication of a monument to General Putnam, in a small park on the brow of Putnam Hill. The monument marks the place of Putnam's famous ride down a hundred stone steps amid a shower of bullets. A bronze tablet tells the story.

A. O. U. W. and D. of H.

Sioux Falls, S. D., June 12.—The supreme and superior lodges of the A. O. U. W. and D. of H. opened their annual session here today. The attendance exceeds that of any other supreme and superior lodge meeting during the past ten years. Iowa, Minnesota and Nebraska have large delegations present.

Quarantine to Be Lifted.

San Francisco, Calif., June 12.—The board of health decided to raise the quarantine at Chinatown 20 days from the verification of the last case of the plague which was on June 2. If another case should develop during the quarantine will not be lifted until 20 days from the date of such discovery.

Veterans' Association.

Bell Rapids, S. D., June 12.—The Lake Madison Veterans Association opened their reunion here. At their invitation a goodly number of veterans of the Spanish-American war are in attendance. Colonel Stover and Chaplain Daly are among the principal speakers.

Steamer Ivernia Changes Route.

Liverpool, England, June 12.—The new Cunard line steamer Ivernia sailed from here today for Boston instead of New York, as on the previous trip. She will hereafter ply regularly between this port and Boston.

Ocean Liner Resumes Regular Service.

New York, June 12.—The Cymric, of the White Star Line, left this port today, resuming the regular trans-Atlantic service after the transportation of troops to south Africa for the British government.

Voting on Bond Issue.

Haddonfield, N. J., June 12.—An election is being held here today to decide the question as to whether bonds will be issued to provide for a perfect sewerage system.

Re-election of Senator Wetmore.

Newport, R. I., June 12.—The adjourned session of the legislature was called to order to-day to elect a United States senator. Senator George P. Wetmore will succeed himself.

National Credit Men's Association.

Milwaukee, June 12.—The annual convention of the National Credit Men's association was called to order here today by President John Field, of Philadelphia.

Iowa G. A. R. Encampment.

Davenport, Ia., June 12.—The annual encampment of the Iowa Department G. A. R., began here today, and continues tomorrow and Thursday. Headquarters are at the Kimball house.

Independent Telephone Association.

Cleveland, Ohio, June 12.—The fourth annual convention of the Independent Telephone Association opened here today and will continue tomorrow and Thursday. A number of new inventions will be discussed.

The St. Louis Strike.

BOERS DRIVEN BACK

General Buller Wins a Bloody Battle Fought Under Great Difficulties at Almond's Nek.

SEVERAL BOER FAIRY TALES

A Dispatch From Lorenzo Marquez Has It That the Boers Have Retaken Bloemfontein and Are Marching On Johannesburg.

London, June 12.—The war office posts the following dispatch from General Buller: "Headquarters, Natal, June 11.—We forced Almond's Nek. It is not marked on the map, but is the last defile to the Orange River. The enemy were in considerable force, with several guns in position. The brunt of the fighting fell upon the second Dorset's who carried the position at the point of the bayonet, and 3d cavalry brigade who were attacked on our right from the very broken country around Iketini mountain. I hope our casualties are less than 100, considering the extreme length of the position, is much less than expected. The whole attack was directed by Hildyard, whose dispositions were extremely good. The artillery, the 10th brigade and the 3d cavalry brigade did the most work."

BOER FAIRY TALES.

London, June 12.—According to reports through Lorenzo Marquez, General Buller, with 13,000 burghers, is marching on Johannesburg. The Boers have retaken Bloemfontein; the British sustained a severe defeat at Elandsfontein, and lost 750 killed, wounded and 150 prisoners in a fight at Vrededorp. Nothing from any other sources lends color to these stories with the exception of the last, which is probably the Boer version of the disaster to the militia battalion of the Derbyshire regiment at Roovalde.

NEWS FROM KELLY-KENNY.

London, June 12.—The following dispatch was received at the war office from General Forrester-Walker, in command of the lines of communication in south Africa: "South Africa, June 12.—The following is from Kelly-Kenny: 'June 11.—No communication from Methuen since June 7. He was fighting June 6 to the north of Vetchkop. Steyn is near Reitz. The British prisoners sent to Vrede are well treated.'"

BOERS DEFEATED.

London, June 12.—The war office received the following from General Kelly-Kenny: "Bloemfontein, June 12.—Our troops from the north are at Honingsburg (south of Roovalde, where the Boers cut the British lines of communication), having defeated the enemy. They will be at America siding to-morrow. General Knox moves out from Kroonstadt to intercept the enemy."

STEYN NOT NEAR BLOEMFONTEIN

London, June 12.—In regard to President Steyn being at Bloemfontein, a dispatch from Masaru, Basuto land, dated June 1, says that President Steyn was there. Vrede, 200 miles from Bloemfontein.

BULLER'S PROGRESS.

General Buller appears to be making substantial progress and ought soon to be occupying the railroad at Charlestown, in the northern extremity of Natal, whence, presumably, he will advance on Heidelberg to effect a junction with Lord Roberts.

A TEXAN KILLED.

Among the members of the yeomanry killed at Lindley was W. T. Power, proprietor of the Canon ranch in northern Texas, and a son of Sir W. T. Power.

RAILROAD TO BLAND.

Work On It Is to Be Commenced In July or August.

Major J. H. Purdy, president, and J. S. Thompson, secretary, of the Cochiti & Northwestern Railway company, are at Albuquerque, where they turned over to the First National bank as trustee for the company and bondholders \$1,500,000 in bonds together with the mortgage, to be delivered to the Chemical National bank of New York for delivery to the purchasers. Work on the railroad from Thornton to Bland is to commence in 30 or 60 days and it is to be completed by Christmas.

A BIG WEDDING.

The Marriage of Lorenzo P. Garcia and Miss Inmaculacion Abeyta.

About 2,500 people attended the wedding of Lorenzo P. Garcia and Miss Inmaculacion Abeyta, at San Miguel church, Socorro, at 6:30 o'clock last evening. The officiating clergyman was Rev. Philip Martin. Hon. Frank A. Hubbell, of Albuquerque, was best man, and Miss Annie Thomas was bridesmaid.

There were over 300 valuable and handsome presents. Two bands of music played at the Garcia opera house, which was handsomely decorated for the occasion. The following will give an idea of the banquet delicacies consumed. One thousand gallons of Roman punch, 100 gallons of claret punch, 100 gallons of ice cream, 100 gallons of lemonade, 500 bottles of beer, 500 pounds of cut cake, 500 dozen assorted cakes, besides meats, fruits, nuts, candies, pies, etc.

Prof. P. A. Marcellino had charge of the music, and Mr. C. T. Brown, aided by Mrs. Spierling, Mrs. Duncan, Mrs. C. A. Abeyta and some twenty others had charge of the banquet.

The groom is the son of Juan Garcia, one of Socorro county's most highly respected citizens, and one of its wealthiest sheep and stock men. The bride is the daughter of Hon. Abran Abeyta, the collector and treasurer of Socorro county, and one of the delegates to the Republican national convention at Philadelphia.

The Wool Market.

St. Louis, Mo., June 12.—Wool is quiet; the market being easy and unchanged.

OFFICIAL MATTERS.

SCHOOL FUNDS APPROPRIATED.

It was the pleasant duty of Hon. M. C. de Baca, superintendent of public instruction, yesterday to make the first appropriation of public school funds derived from the sale and lease of public lands under the act of congress entitled "An act to make certain grants of land to the Territory of New Mexico and for other purposes," approved June 21, 1898. The law requires the territorial treasurer "according to the pro rata enumeration of school children in each county last returned by the county superintendent." Accordingly Mr. de Baca finds that the total number of children of school age in New Mexico is 52,620 and the amount he is called upon to thus distribute is 12 cents and 61 mills for each pupil. Following are the amounts placed to the credit of the several counties under this appropriation:

Bernalillo	\$ 958 86
Chaves	122 44
Colfax	354 08
Doña Ana	498 21
Grant	392 04
Guadalupe	393 94
Lincoln	165 94
Mora	412 34
Otero	134 92
Rio Arriba	381 32
San Miguel	925 06
San Juan	114 37
Santa Fe	628 73
Sierra	140 34
Socorro	510 32
Taos	418 65
Union	184 11
Valencia	85 49
Total	\$6,639 67

INDIAN DEPREDAATION CLAIMS.

While in Taos county last week, Hon. S. H. Spooner, special United States attorney to take testimony in Indian deprecation claims, examined witnesses in ten cases involving sums varying from \$100 to \$3,500. He also examined several witnesses at Espanola. To-day, before the United States commissioner for the court of claims, Miss Grace Kennedy, he is examining witnesses in the case of Manuel S. Salazar, of Rio Arriba county, a claim for \$3,100 for damages incurred by Navajos in a raid November 14, 1895, and in the case of Bartolome Valdez, of Rio Arriba county, a claim for \$500 for damages also incurred by Navajos in the same raid.

MINING COMPANY INCORPORATION.

The Cimarron Gold Mining & Development company filed incorporation papers at the office of Territorial Secretary Wallace. The incorporators are: Rufus C. Thayer, Eugene A. Sunderlin, Jr., Kurnal R. Babbitt. The company operates in Colorado and in Colfax county, New Mexico. The capital stock is \$1,500,000.

SHEEP RAISING.

Sheep raising will always be the chief industry of the Navajos. Their lands are admirably adapted to it, and now, after years of stubborn resistance, the Indian stock masters are breaking away from the old custom of running mixed flocks of the two sexes together the year round, and the science of the industry as to breeding, crossing, shearing and sanitation is supplanting their ancient slipshod methods. Chief Shee's healthy influence is especially notable in this matter. It was only a few years ago that the Navajo sheep were such lumbering, range-ing 15 to 20 miles a day with ease, that the higher grade sheep could not follow them and survive. For this reason the several attempts of the government to improve the flocks by introducing fine breeds of the native animals, while Chief Shee has experimented on his own behalf until he has solved this problem. He brought in a lot of Merino bucks and took special care in handling them until he secured a cross or grade of sheep which has nearly all the hardy hustling qualities of the native animal, while producing a far higher quality of wool. Having satisfied himself of the good results of Chief Shee's experiment, Colonel Tinker has just written the Indian office urging that the Navajos be furnished with full blood Merino bucks with which to improve their flocks. This leader among the Indians having agreed to care for them along lines similar to those originated by Chief Shee.

A DARING EXPLORER.

London, June 12.—Dr. Donaldson Smith, a Philadelpha explorer, who recently reached Cairo in good health, had a remarkable journey from Berbera to the Lakes Rudolf and Stefanie. From Uganda he was conveyed down the Nile to Khartoum in an Anglo-Egyptian gunboat, the first vessel to traverse the upper Nile since cutting off Sudd. Dr. Smith accomplished much interesting work in the hitherto unexplored regions.

National Republican Committee.

Philadelphia, June 12.—An adjourned meeting of the sub-committee of the Republican national committee was held last evening to complete arrangements for the convention, preparatory to the meeting of the full committee to-day. The subcommittee has a number of recommendations to make, among them being the selection of Senator Wolcott of Colorado for temporary chairman. G. W. Johnson will be recommended as temporary secretary. This latter selection will be made permanent.

PILIPINOS SURRENDER.

Their Principal Leaders Are Abandoning the Rebel Cause.

Washington, June 12.—General MacArthur, at Manila, cabled the war department to-day: "I report the capture of Generals Hiram, near Mexico, and Cavestany at Alcala, both important, the latter being a very important leader of the guerrillas in the Pangasinan province of Luzon."

General Corbin considers the captures in the nature of a surrender, which indicates that the principal leaders of the insurrection are abandoning the cause and coming into Manila to accept American supremacy.

Reciprocity With Portugal.

Washington, June 12.—The president issued a proclamation formally announcing the establishment of a reciprocity agreement with Portugal.

EXPERIMENT WITH SHEEP

Chief Shee Crossed Merino and Native Sheep With Good Results—What the Government Is Doing for Irrigation On the Reservation.

Colonel A. M. Tinker, of Washington City, who is spending a week here inspecting the Indian schools and United States Indian agency, has just concluded a thorough inspection of the Navajo agency and reserve. He found these Indians contented and prosperous under Agent G. W. Hayzlett's administration of affairs. From a moral and law and order point of view their advancement in the past few years has been very marked. A leading spirit among them is Chief Shee, whose mother was a Navajo and whose father was an American named Dodge. Shee's wealth is approximated at \$75,000. He is thrifty and a trader, and has interests in several of the trading stores on the reserve, besides a good farm and a great many horses, sheep and goats. He has a powerful influence for good and his opinions are respected by all Indian and white men alike.

GOOD WORKERS.

The Navajos are good workers and in late years have shown their capacity to earn wages by doing most of the heavy work along the railroads in western New Mexico and Arizona. Last year they earned in such work over \$70,000. Merchant Colton of Gallup, makes it his duty and pleasure to secure them railroad work. Within a few days past he sent out a call for 300 Navajos to work on the railroad, but received only half the men wanted as most of the able-bodied men of the tribe are now engaged with their fields and flocks.

SOURCES OF WEALTH.

Something more than \$100,000 annually is received by the Navajos from the sale of their blankets. Probably twice this amount is secured from the sale of their wool, hides, pelts and ponies. The area of their cultivated fields is very largely increased by the construction of irrigation ditches. The government has done something in this direction but impractical men have been sent out to manage the job and perhaps \$100,000 of government money has been frittered away with little or nothing to show for it. But the policy of the Indian office is all right and in time the Navajo reserve will be supplied with an adequate irrigation system, such as is now receiving its finishing touches on the Crow Indian reservation in Montana.

SHEEP RAISING.

Sheep raising will always be the chief industry of the Navajos. Their lands are admirably adapted to it, and now, after years of stubborn resistance, the Indian stock masters are breaking away from the old custom of running mixed flocks of the two sexes together the year round, and the science of the industry as to breeding, crossing, shearing and sanitation is supplanting their ancient slipshod methods. THE WOODBURY MILL.

A Satisfactory Run of Ten Days Proves the Mill a Success.

W. C. Wynkoop, general manager of the Cochiti Reduction & Improvement Company, is in the city today. R. W. Woodbury is president and David Moffat of Denver, is treasurer of this corporation. Their mill at the town of Woodbury, seven miles below Bland, finished a fairly successful ten days' run on Friday, and the result was 1,800 ounces of bullion which was shipped to Denver. Mr. Wynkoop states that the method of treating Cochiti ores in vogue in this mill, that is by a combination of cyanide and pan amalgamation, has been fully proved, saving the values in iron King ore to that extent that but 40 cents per ton is left in the tailings, but the machinery in the mill was placed at the beginning by a mechanic who had very little regard for correct lines of work and many annoying delays had therefore to be met and overcome. These matters have now nearly all received attention and on next Wednesday he hopes to start the mill running steadily. Mr. Wynkoop also states that work has commenced on the Black Girl-Posey group, under Mr. Woodbury's management, that the work of developing the great ore bodies in the Iron King is progressing satisfactorily and that in the big tunnel on the Star mine it was estimated that they would have to drive 180 feet yet before striking the ore body. As they are making this drive now at the rate of seven feet every 24 hours it will likely be a month before the big lead is cut.

The recent rains have not been general, though enough has fallen at different times, all over the county, to make stockmen smile.

TAOS COUNTY.

Rev. W. C. Buell returned to the San Luis valley the first of the week to bring his family to Taos. They will make this place their home in the future.

A large number of the patriotic people of Taos observed Decoration day in a fitting manner on May 30. The graves of the defenders of the nation were beautifully decorated, and particularly that of Kit Carson, which looked a literal hovel of lovely flowers.

Frederick Ringe, proprietor of a large hotel and restaurant business at Pueblo, Colo., is visiting in Taos, the guest of Mr. and Mrs. Gurdorf. Mr. Ringe was formerly in the employ of A. Gurdorf, in the capacity of millwright, for a number of years, at Ranchos de Taos.

OTERO COUNTY.

Charles Reiss, of Cloudcroft, and Mrs. W. A. King, of Alamogordo, were married at El Paso last week.

An Alamogordo paper says: "Eddy brothers left El Paso Monday evening for New York, to work in the interest of the steel plant that is to be put in at Alamogordo. This plant will cost over \$100,000, and employ over 400 men here in town and 800 in the mine and the railroad." This is, however, denied by Mr. Sutherland, manager of the Alamogordo Improvement Company.

A physician was arrested in Alamogordo last week for practicing without a license. He snapped up a weak-eyed patient after his arrival and gave him a prescription to the druggist reading thusly: "To none I watur." The prescription was too strong for the clerk, and he sent it to the authorities. The doctor languishes in the city bastille, wondering what they are going to do next.

El Paso people are beginning to appreciate the summer attractions of Cloudcroft. In the beautiful Sacramento mountains of Otero county. Already quite a number of residents of El Paso have erected handsome summer cottages at Cloudcroft, and the number yet to be erected may be an important item of interest. A. P. Coles, Zack White, Horace B. Stevens, J. H. Smith and W. W. Pick left for Cloudcroft Friday last to select locations for cottages for themselves and some fifteen or twenty others, who will immediately begin the erection of summer homes on the summit of the mountain. It is estimated that over fifty El Pasoans will have cottages there this summer, and will keep their families there during the hot season. The cottages will be built close together, and tennis lawns and grounds for other outdoor games will be prepared.

TUESDAY, JUNE 13.

The scarcity of farm laborers in Colorado, Nebraska, Kansas, Iowa and other states is causing enormous losses. Crops cannot be harvested, and the owners of big farms are in despair. Never before was it so true that no able man need be idle in this country.

Senator Thomas C. Platt of New York, Senator Boies Penrose of Pennsylvania and Senator W. B. Allison of Iowa have promised to fight the Stephens bill if it should be resurrected in the senate during the next session of congress. With friends like those in the senate New Mexico should be able to defeat the Stephens bill and at the same time to secure statehood within the next twelve months.

The secret is out. Abdul Hamid, the sultan of Turkey, did not pay that indemnity by the United States because the Koran forbids the devotion of Moslem money or property to the unhallowed uses of Christian Gilaours. If he could have borrowed the money or stolen it from some Christian nation, Abdul Hamid would have paid, but so he cannot and dare not do it until force is used such as Russia has used several times in collecting old bills from the Sublime Porte.

The Democrats are howling because congress appropriated over half a billion dollars for government purposes. They want to see a billion-dollar country run on a thirty-cent basis as long as they are not in power. This is a mighty nation, and it costs considerable to run it, but no patriot will begrudge the means of maintaining the dignity and the efficiency of the nation. Taxation for national purposes, despite the war revenue tax, is lighter per capita in the United States than it is in any other country of equal wealth in the world.

The London Spectator expresses a fear that the British are becoming Americanized. The outbreaks of enthusiasm that followed the relief of Kimberley, Ladysmith and Mafeking, the manifestations of so-called jingoism, the rapid changes of public opinion, and the freak notions that at times sweep over the people like an epidemic are all called "Americanisms," and the time seems to be at hand at last when an Englishman will be able to appreciate an American joke.

This year Germany celebrates the 700th anniversary of the beginning of mining operations in Germany. In those seven centuries enormous wealth has been taken out of the mines of the German empire, and still there remain many billion dollars' worth of mineral to be taken out of them. This is an indication of the undeveloped wealth that is in store in New Mexico, which is almost half as large as Germany, and is a mineral country from one end to the other.

The capitol edition of the New Mexican attracted attention on and compelled admiration not only in New Mexico, but beyond, as the commendatory extracts from the press of New Mexico, Colorado and Texas show. Every copy of the edition has been disposed of, and there is a demand for several thousand copies more. Not only to every state and territory of the Union, but even to foreign countries copies were sent, and the benefits which New Mexico, and Santa Fe especially, will reap from this stroke of enterprise of the New Mexican will be felt for many years to come.

Daily the news is flashed over the wires that the Boer delegates in the United States are cheerful. This is good news, and every twenty-four hours reveals the dreadful suspense of the Boer sympathizers, who fear that sooner or later the news from the Transvaal will be of such a nature as to give the Boer delegates a fit of the blues. But why shouldn't the envoys be cheerful? They seem to have plenty of means, they are being dined, wine and sympathized with, and when President Kruger is driven into his last corner they are far enough away to be out of danger. Lucky patriots these Boer envoys!

A new era for western investors is promised by the opening of the Fort Hall Indian reservation in Idaho. It is believed that it is preliminary to the opening of other large reservations in the far west, at least as far as mineral entries are concerned. The day of Indian reservations is passing. The government is spending princely sums for the education of Indian children in order to fit them for the modern competitive life. It is folly to send the graduates of Indian schools back to the reservations, for experience has proved that they generally fall back into their old habits of life. By giving each Indian an allotment of land to do with as he pleases, and abolishing the reservation system, he will gradually become part of modern life in the United States. It will lose him some of his picturesque and his dirt, but it will be for his benefit as well as for the benefit of the country at large.

A Kentucky congressman franked home his wife's clothes under the label of "public documents." Kentuckians must lack the sense of humor if that congressman will be able to go through his next campaign without taking to the woods.

The silence of Col. W. J. Bryant is so dense at present that some of his friends in New Mexico are anxiously asking as to his whereabouts. No fear need be felt, however, that his voice has given out. He is merely taking a rest preparatory to his great campaign speech-making engagements in fall, and is studying up some new metaphors and jokes, as the "cross of gold" simile is showing signs of having been overworked.

The Massachusetts and the Indiana, two of the most formidable war-ships of the United States, were made ready last week for any required service in the short space of forty hours. Uncle Sam never before has been in better shape to repel any foreign foe or to protect American interests abroad as under the present administration of the war department. The small men who oppose the Republican party may rant and roar about militarism and the alleged corruption in the navy department, but they must acknowledge that the United States enjoys greater respect among the great nations of the earth because the present administration has put the army and the navy on a footing which is in conformity with the dignity and the greatness of the nation.

The question has been asked: "What shall the nation do with and for its ex-presidents?" Harper's Weekly suggests that they be given a life seat in the senate as senators at large. The experience gained by the presidents is too valuable to be lost to the country, and should be made available in the councils of the nation. In the senate, the ex-president could lift his voice in behalf of the public service at such times as the outspoken declarations of experience might appear to be appropriate and useful. There is no doubt but that both ex-President Benjamin Harrison and ex-President Grover Cleveland would make excellent senators, but it is very doubtful whether they would accept such an honor, even if a constitutional amendment to that effect were adopted.

The Curse of Overwork.
A paper on "Overwork" was read at the convention of women's clubs at Milwaukee that contained a number of wholesome truths which apply to women everywhere. Overwork, especially mental, nervous, social overwork, is wrecking the womanhood of to-day, and is leaving its impress upon the coming generation. It is true that women, as a class, have been much relieved of the drudgery they were subject to in years gone by, and that athletes, sports and travel counteract the evil of overwork, yet the truth remains that to a woman, a society woman especially, "a day is a paradoxical period, being as a thousand years in exploits and experiences (and as the twinkling of an eye when 'tis done). Some of us who are voluntarily overworked, and our name is legion, would apparently wish to deprive old Atlas of his herculean and historical position, and shoulder the world ourselves; we belong to everything but ourselves. A reform club on Monday, a physical culture class on Tuesday, an art association on Wednesday, a departmental club on Thursday, a conversational coterie on Friday, and, as a saving grace, the church on Sunday, with D. A. R.'s, W. T. C. U.'s, U. D. C.'s, C. D. A.'s, and other deranged alphabetical aggregations running riot through the month. We go to luncheons, dinners and teas; we consume long menus in remarkable color schemes; we talk minutes into miles, our set smile turns to a frozen grin, we go home with a red, white and blue taste in our mouths and an unending sensation in the back of our necks. The latter caused by trying to keep our mental and physical poise for hours at a stretch under a love yet a load of hate."

The Cost of Education.
President Hadley, of Yale University, has made a plea for the preservation of the Democratic spirit at institutions of higher learning. He maintains that the cost of education is rapidly increasing, both to the public as a whole and to the individual. The complaint of teachers that the salaries paid them are not as high as they should be have some justification, but at the same time the cost of maintaining schools, public as well as private, is moving upward by leaps and bounds. At the end of the nineteenth century civilized countries vie with each other in the disbursements for schools and in the perfection of educational systems. No other period since the beginning of history has been so conspicuous for the encouragement given to popular instruction. The average expenditure of the United States for educational purposes is \$2.57 for every man, woman and child. For every man, woman and child, Great Britain and Ireland pay out only \$2.20 per capita; France \$1.60 per capita, and Germany about \$2 per capita. Since 1870 the expenditures for public schools have nearly trebled, while the average expenditure per pupil enrolled has risen from \$15.20 to \$18.85. Yet, it is admitted that the results accomplished in the public schools of Germany, with a smaller allowance per pupil, exceed those achieved in the United States with a far larger sum.

The average annual expense of the 327 young men graduating this year at Yale was \$900. But as many students fought their way through the university on less than half of that amount, the extravagance of the sons of wealthy parents who were at the university is apparent. Sixty-nine members of the class earned their way through the university by doing work ranging from shoveling snow to playing on a church organ, and from acting as assistant sexton to running a trolley car. This is a fine sign of the independence of American young men. The college snobs who squandered their parents' money may have looked down upon them, but it is dollars to doughnuts that the men who fought their way through the university will be heard from again, while the extravagant snobs to a large extent will pass into oblivion unless their extravagance and escapades are made a matter of news in yellow journals.

THE CAPITOL EDITION.

Words of Praise From New Mexico, Colorado and Texas Newspapers.

AN ATTRACTIVE PAPER.
(El Paso Herald.)
The capitol dedication edition of the Santa Fe New Mexican was a very handsome and attractive newspaper.

A VALUABLE EDITION.
(Albuquerque Citizen.)

The New Mexican of last Tuesday contains a valuable descriptive sketch of Santa Fe and New Mexico. The paper consists of twelve pages, neatly printed and handsomely illustrated.

NEATLY PRINTED.

ALWAYS DOES THINGS WELL.
(San Marcial Bee.)

We have received the capitol dedication number of the Santa Fe New Mexican. It is the practice of the New Mexican to do things well, and in this instance there has been no variation from the rule.

METROPOLITAN IN EVERY RESPECT.
(Socorro Chieftain.)

The New Mexican appeared Tuesday in a ten-page dedication edition that was metropolitan in every respect. Besides an elaborate account of the ceremonies connected with the dedication of the new capitol, every feature of Santa Fe life and activity received painstaking attention. Well done!

A CREDIT TO THE PUBLISHERS.
(Albuquerque Journal-Democrat.)

The capitol dedication edition of the Santa Fe New Mexican, issued on June 5, was a credit to the city and the publishers. In addition to the usual matter and very full accounts of the dedication exercises, place was found for illustrations representing the new capitol, the members of the rebuilding board, various prominent New Mexicans and Santa Fe scenes. The history of the movement leading to the completion of the handsome edifice was very completely treated.

SOME SANTA FE HISTORY.
(Rocky Mountain News.)

The completion and formal dedication of New Mexico's new capitol building at Santa Fe was made the occasion for the issue by the New Mexican of a historical edition that is replete with interest. It contained, of course, a description of the new building, with pictures of those prominent in its construction and the ceremonies of the day. This was merely current news. The real charm of the issue was in its sketch of the historic old palace, of the ancient churches and other quaint structures, and of the schools now existing. These reminiscences suggest the romantic annals of New Mexico and its capitol, which date back to a period prior to the landing of the pilgrims on Plymouth Rock.

In an editorial regarding its own eventful history, the New Mexican claims to be, with the exception of the News, the oldest paper in New Mexico, in Colorado, in Arizona and western Texas. This is not quite accurate as to Colorado. The News was founded in 1839; the New Mexican in 1892. Between these two dates there were several other papers published in Colorado, but only one of them is now in existence, and that is the Register-Call, at Central City. The Salt Lake News is the oldest paper in the Rocky mountain country, having been established in 1850, we believe; then the Rocky Mountain News, then the Central City Register-Call, and then the New Mexican—all of which have maintained continuous existence. In New Mexico, Arizona and western Texas the New Mexican holds first place. The founders of the New Mexican were Messrs. Manderfield and Tucker, and they published it until 1880, when the paper was sold to a corporate company. Tucker was one of the early composers on the Rocky Mountain News. The New Mexican has exercised a large influence on the growth of the territory, and aside from its political tendencies, has always stood manfully for the west and western rights and interests.

What Hurts.

The other side, observed the candidate, in much apprehension, are putting some damaging reports in circulation! But no money to speak of, rejoined the chairman of the campaign committee, complacently.—Detroit Journal.

He Tried a Sample Bottle

Nearly every day people come into drug stores and ask the Druggists to recommend some medicine for their trouble. Very often they refuse to do so, because, as a rule, they do not believe it proper to advise anyone to take a patent medicine of which they do not know the ingredients. It is the physician's business to prescribe. Some make an exception, however, when they know the ingredients of the medicine of which they do not know the ingredients. anyone has a cough, cold or throat and lung trouble. "I always recommend Acker's English Remedy, because I know just what it will do. It has cured every case where I have seen it tried. It is the best expectorant and tonic I ever handled in my 14 years' experience. I will give just one instance of a gentleman who had been troubled for years with a nasty, hacking cough. I advised Acker's English Remedy. He tried a sample bottle, and was cured before he had taken half of it, at no cost whatever. This is an exceptional case, however, as it usually takes two or three bottles." (Signed) A. B. Cook, Bellefontaine, Ohio.

Sold at 25c., 50c., and \$1 a bottle, throughout the United States and Canada; and in England, at 1d., 2d., 4d., and 6d. If you are not satisfied after buying, return the bottle to your druggist, and get your money back.

THE HOMESTEAD LAW.

Land Commissioner Binger Hermann Issued Instructions Regarding It.

Land Commissioner Hermann has issued instructions to govern land office officials in administering the new free homestead law. The instructions call attention to the fact that only settlers under homestead laws upon agricultural public land which had been opened to settlement prior to the passage of the bill are affected.

No change is made in existing laws as to time of submitting final proof and making payment of final commissions. Where final proof has been heretofore made for lands affected by the law and payment has not been made, such payment will now be required. Where the payments were authorized to be made in installments and a partial payment has been made, but final proof not made, no other payment will be required when the homesteader makes his final proof, except the payment of the final commissions and testimony fees. Where the rights within any of the reservations covered by the new law has been heretofore authorized by statute, settlers may commute their entries therein in the time and at the prices now fixed by existing laws.

The Twentieth Century.
When a few months more shall have passed we will then stand at the very threshold of the twentieth century, and the nineteenth will be a thing of the past. It will, however, be known as the century of invention and discovery, and among some of the greatest of these we can truthfully mention Hostetter's Stomach Bitters, the celebrated remedy for all ailments arising from a disordered stomach, such as dyspepsia, indigestion, flatulence, constipation and biliousness. It has been one of the greatest blessings to mankind during the past fifty years as a health builder. Many physicians recommend it. Take their advice, try a bottle and be convinced, but be sure to get the genuine with a Private Revenue Stamp over the neck of the bottle.

With Doesn't Wear Specs
Kate—What would you do if a man asked you for a kiss?
Edith—I just wouldn't give it to him. A man who can't get a kiss without having to ask for it isn't worth wasting one's time over.—Boston Transcript.

AUGUST FLOWER.
"It is a surprising fact," says Prof. Houton, "that in my travels in all parts of the world, for the last ten years, I have met more people having used Green's August Flower than any other remedy, for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion." Sample bottles free at Ireland's Drug Store. Sold by dealers in all civilized countries.

On the Stage.
Dollie—Oh, did I tell you about getting a pearl from an oyster last week?
Tottie—No, dear. By the way did I tell you about getting a diamond necklace from a lobster last evening.—Indianapolis Journal.

Unless food is digested quickly it will ferment and irritate the stomach. After each meal take a teaspoonful of Kodol Dyspepsia Cure. It digests what you eat, and will allow you to eat all you need of what you like. It never fails to cure the worst cases of dyspepsia. It is pleasant to take. Ireland's pharmacy.

Propounding a Query.
Bobble—Pop, are we among the best people?
Papa—We are Bobble.
Bobble (after a thoughtful silence)—Pop, is the best always the cheapest.—Judas.

A GOOD COUGH MEDICINE.
It speaks well for Chamberlain's Cough Remedy when druggists use it in their own families in preference to any other. "I have sold Chamberlain's Cough Remedy for the past five years with complete satisfaction to myself and customers," says Druggist J. Goldsmith, Van Etten, N. Y. "I have always used it in my own family both for ordinary coughs and colds and for the cough following the grippe, and find it very efficacious." For sale by A. C. Ireland.

A Dunderhead Rebuffed.
What did you have your photograph taken with a mandolin for, Maud? you can't play.
What of that? I've got just as good a right to look graceful in a picture as any other girl.—Chicago Record.

Call at Ireland's drug store and get a free sample of Chamberlain's Stomach and Liver Tablets. They are an elegant physic. They also improve the appetite, strengthen the digestion and regulate the liver and bowels. They are easy to take and pleasant in effect.

Then She Gazed Into Space.
Jack, what did Ethel's new hat look like?
Oh, about this big, covered with purple roses and something green, and strings hanging down the back.—Indianapolis Journal.

Starvation never yet cured dyspepsia. Persons with indigestion are already half starved. They need plenty of wholesome food. Kodol Dyspepsia Cure digests what you eat so the body can be nourished while the worn-out organs are being reconstructed. It is the only preparation known that will instantly relieve and completely cure all stomach troubles. Try it if you are suffering from indigestion. It will certainly do you good. Ireland's pharmacy.

Some Men Never Learn.
Now I distinctly recall the last total eclipse of the sun, remarked Mr. Housewood. It occurred in 1899, you will remember, Miss Beechwood.
Sir! said Miss Beechwood, freezing; and Mr. Housewood wondered how he had put his foot in it this time.—Pittsburgh Chronicle-Telegraph.

Reports show that over 1,600 lives have been saved through the use of One Minute Cough Cure. Most of these were cases of gripe, croup, asthma, whooping cough, bronchitis and pneumonia. Its early use prevents consumption. Ireland's pharmacy.

Uncle Allen.
Well, I see, said Uncle Allen Sparks, the Methodist church adheres to its old position, that dancing is not the proper caper.—Chicago Tribune.

Mr. W. S. Whedon, Cashier of the First National Bank of Winterest, Ia., in a recent letter gives some experience with a carpenter in his employ that will be of value to other mechanics. He says: "I had a carpenter working for me who was obliged to stop work for several days on account of being troubled with diarrhea. I mentioned to him that I had been similarly troubled, and that Chamberlain's Colic, Cholera and Diarrhoea Remedy had cured me. He bought a bottle of it from the druggist here and informed me that one dose cured him, and he is again at his work." or sale by A. C. Ireland.

THROUGHOUT THE TERRITORY.

Happenings of Interest in Grant, Colfax and Other Counties, GRANT COUNTY.

The Timmer house has passed to the control of Silver City parties who will remodel it.
Silver City public school directors will spend \$1,500 in a new school house for the primary pupils.
Mr. and Mrs. Eugene Cosgrove and family left for Nova Scotia, where they will spend six weeks visiting friends and relatives.
Farmers on the Mimbres are cutting their first crop of alfalfa not much earlier than northern and central New Mexico.

They do things different down in Silver City. The city council subscribed \$75 to the special edition issued by the Enterprise.

The 4th of July committee has secured subscriptions to the amount of \$1,175.40, which will be considerably increased before the celebration.

A Baptist church was organized in Silver City by Rev. C. H. Strong, of Deming. The new congregation starts with a membership of 15.

S. M. Ashenfelter has gone to Colorado on business, and for the purpose of accompanying his daughter, Miss Anna, home from Colorado Springs, where she has been attending college.

Sheriff Blair has not yet succeeded in arresting Ochoa, El Cabano and Villalobos, wanted for the murder of Albino Gonzales, near Pinos Altos, but is continuing the pursuit and has good reasons to believe that the men will be in custody before a great while.

A gang of horse thieves is operating in the Pecos, Hanover and Santa Rita sections. Quite a number of valuable animals, not to mention numerous saddles, have mysteriously disappeared and there is reason to believe that their absence is due to an organized gang.

Beginning on June 7, a series of evangelical meetings were held in Silver City in the business section in a large tent, which was especially erected for such purpose. Rev. L. L. Gladney, the San Marcel evangelist, and Song Evangelist Higgins, of Oklahoma, were in charge of the meetings and were assisted by the pastors and members of the local churches.

COLFAX COUNTY.

A new irrigation ditch is under survey on the Chilocos.

New bridges have been put in many places across the Cimarron.

Fred Young of Omaha, visited several days with his sister, Mrs. Abbott, of Red River.

Half a dozen new dwellings and business houses are building at Springer.

At Catalist the weather continues stormy and not a day passes without a thunder-storm.

J. A. McKay, has returned after several years absence, in Colorado, and will settle in Elizabethtown.

Professor W. E. McClelland, principal of the Raton schools, is teaching a summer term in the Gallagher district.

Elizabethtown's public school entertainment was well attended by people from Baldy and Red River districts.

P. B. Houghton, general passenger agent of the Santa Fe railroad has been looking up business at Elizabethtown.

Jerry Fitzpatrick announces himself a candidate before the Democratic nominating convention for sheriff of Colfax county.

The extreme warm weather of the past week together with occasional showers is rushing the crops wonderfully fast.

A number of moving wagons have passed through Elizabethtown on their way to Red River. Many people are coming into the mountains this season.

Mrs. Dr. Shuler and her children left Raton Friday last for a visit to the doctor's old home in the Shenandoah valley, Virginia. Mrs. Davis, Mrs. Shuler's mother, accompanied them.

Mrs. Florence C. Morse was the Decoration day orator at Elizabethtown. She spoke in the morning to the assembled crowd, on the street, at the cemetery, and at Pritchard's hall in the evening.

Mr. and Mrs. J. H. Walker, of Raton, entertained a few friends at a 6 o'clock dinner Friday evening. There were eleven guests, the host and hostess: J. E. Lyon and wife, D. R. Lockard and wife, Mrs. C. F. Remsburg and Mrs. E. N. Bonifis, of Denver.

Springer's public schools made a very good record for the year just closed. A committee of seven citizens, chosen because they were childless, examined the pupils of the eighth grade and found the work of both teachers and pupils highly satisfactory.

As Chas. Purdy was trying to cross a swollen creek in Long's canon his wagon was overturned. The passengers who were in the conveyance narrowly escaped drowning. Baldy Benson was carried some distance by the swift current and narrowly escaped a watery grave. The horses and wagon were saved with difficulty. All baggage and part of the harness were lost.

The following officers of Raton Chapter No. 6, Royal Arch Masons, were elected and installed Monday night: A. C. Price, high priest; Frank Henning, king; C. N. Blackwell, scribe; C. D. Stevens, treasurer; James R. McPherson, secretary; P. P. Fanning, captain of host; W. J. Linwood, principal sojourner; J. S. Morrison, royal arch captain; Geo. E. Lyon, master of 2d val; J. P. Porter, master of 2d val; J. P. Williams, master of 1st val; J. E. Kidd, sentinel.

BRAVE MEN FALL
Victims to stomach, liver and kidney troubles, as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaho Falls, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything, and have a new lease on life." Only 50 cents, at Fischer & Co.'s drug store. Every bottle guaranteed.

The life of the business woman is not easy. Usually it is a monotonous routine of work, often aggravated by the ill temper or stupidity of others. And when the physical condition of the woman keeps her in constant suffering, it makes her lot a hard one.

So many women have found entire relief from the ills peculiarly feminine, by the use of Dr. Pierce's Favorite Prescription, that it seems almost criminal to neglect the opportunity of a complete cure offered by the use of this medicine.

You are invited to consult Dr. R. V. Pierce, of Buffalo, N. Y., either personally or by letter free of charge. If you are a severe or chronic sufferer, or have failed to reach it, do not hesitate to write to or go and see Dr. Pierce. Your letter will be read in private, its contents treated as a sacred confidence, and an answer promptly returned in a plain envelope bearing no printing upon it. Write without fear and without fee.

"I had been a great sufferer from female weakness for about two years," writes Mrs. Emma Richardson, of Gosh, Wayne Co., Ky. "Could not do my work part of the time. I took four bottles of Dr. Pierce's Favorite Prescription and felt well as ever. I have also used Dr. Pierce's Golden Medical Discovery for ulceration of the throat and half of one bottle cured my throat when I could scarcely swallow."

The permanent benefit to health from the timely use of Dr. Pierce's Favorite Prescription is testified to by thousands of women. They regulate the stomach, liver and bowels. Sold by all medicine dealers.

STOCK ITEMS.
A Number of Shipments From the Southern Part of the Territory.
Over 13,000 head of cattle were shipped from Carlsbad the present spring to northern points.

L. Lindsay, of the Searat district, who has contracted his entire herd of stock cattle to J. F. Cook, of Socorro, made the first delivery of 614 head on Tuesday. This first shipment went to La Junta, Colo., where they will be placed on the market. Mr. Lindsay made the second delivery about June 7.

D. L. Houston, representative of the Green Cattle Co., received at Carlsbad and shipped 1,638 head of steers, which he purchased from the Alamo Huevo R. & C. Co., W. J. Wamel, Whitmore Bros., Watkins Bros. and C. D. Lewis. These cattle were shipped to the company's pasture at Rollins, Wyo.

A. W. Wilson & Co. received at Deming the second delivery of cattle he contracted them. This shipment went to Denver and contained 899 head and was bought by the following parties: Kerr Bros., James Tabor, Richard Hudson, W. B. Birchfield, D. L. Keith, Henry Coleman, J. J. Jacobson, A. T. & John Hyatt.

The Claw.
There is no claw, said the police and went their way.

Next there came a reporter, or commissioner, who examined the murdered man more carefully.

Hal he exclaimed at last. The left sleeve of his overcoat shows signs of having been recently laughed in.

Then he hurried out, and presently the newboys could be heard crying extra editions of the Evening Convulsion.—Detroit Journal.

WINE OF CARDUI

Woman's Crowning Virtue.

BELTON, Mo., July 27.

For years I suffered terrible pains every month and my doctor told me I could not be cured except by an operation. I felt I could not submit to that and was so despondent I had given up all hope of a cure. My husband insisted on my trying Wine of Cardui and at last thank God I did try it. Last month I did not have a pain, and did all my work, which I had not done in seven years.

MRS. MINNIE LITTLE.

Wine of Cardui

Modesty is the crowning virtue of American women. It is the trait that all mankind admires. A modest woman is the most pleasing of all created things. Because of this becoming virtue thousands of women prefer to suffer untold miseries rather than confide their troubles to a physician, and to even think of submitting to an examination is revolting. They can't get their own consent to an operation. Wine of Cardui permits sensitive women to retain their modesty. With it they can cure "female troubles" in the quiet of their own rooms. If special treatment is required they can write to the Advisory Department of the Chattanooga Medicine Co., and their letters will be promptly answered by women trained in the cure of womanly weaknesses and irregularities. There should be no hesitation. Delayed treatment means a chronic condition. The longer postponed the harder to cure.

A BIG COPPER FIND.

The Mineral Wealth in the Santa Fe Mountains Is Being Developed.

Warren Reynolds and Cyrus Smith, who with Contractor A. Windsor backing them, are working their newly discovered copper find three miles above Monument Rock, came in from camp on Saturday night bringing a half bushel or so of the ore taken out in development work. It looks pretty good. Every mining man who has examined it congratulates the lucky discoverers and encourages them to continue development. After laying in a fresh supply of provisions they packed their burros and returned to camp this morning. Miner Reynolds states that they have run a tunnel in ten feet and in doing so have crossed out a vein of quartz four feet in width which to all appearances is much richer than the surface rock on the big vein further up the hill which yielded an assay of \$25.00 per ton in copper. This richer vein he thinks should run \$40 to \$50 per ton in copper and probably some in gold. The tunnel is to be driven in to cross-out the big ledge which is traceable on the surface for 3,000 feet. The above named trio have located five lodes along the ledge and it looks as if they had found something very near Santa Fe that may turn out to be a bonanza. The claims are rather inaccessible but if the ore proves, upon development, to be as rich and in such quantity as appearances at this time indicate, ample capital will be forthcoming to construct a mile or so of cable tram to bring it down into the valley for milling purposes.

COPPER HILL MILL.

J. K. Turner, manager of the Copper Hill Mining company, is in the city from Rinconada. Water is now flowing through the pipe line into the reservoir that supplies the new mill and the plant is to be started up next week, employing in mine and mill about 100 men. This is a concentrating plant of the very latest design. The ore is reduced down so that ten tons as it comes from the mine is concentrated into one ton of concentrates worth \$80 per ton. The values run 49 per cent copper; 99 ounces silver and the remainder in gold. The concentrates are shipped from Embudo to Denver and Pueblo. The mines are looking well, active development having been going on for nearly a year. Four Sullivan compressed air drills are in use. At present the chief work consists in running a cross-cut 4,000 feet in length.

MINZ NOTES.

R. A. Bradley, who claims to have a promising copper prospect half way between Monument Rock and Clorito, has gone to his camp in company with a California man who thinks of investing if the property shows up satisfactorily.

G. D. Jordan and J. W. Taylor returned last night from a ten days' prospecting trip at the head of Santa Fe canon. They say they saw many fine looking quartz ledges and they brought in a quantity of rock which will be tested for pay mineral.

A native citizen looked up in town yesterday with a fine looking piece of white quartz carrying free gold visible to the naked eye—the kind that will pay to work if the streak is but an inch in width. He told certain business men here that he took it from a strong quartz run 12 miles out in the Santa Fe mountains. Responsible parties have gone to investigate.

ABOUT SIDEWALKS.

All New Sidewalks must Be Either Cement or Vitrified Brick.

Section 12, of city ordinances, compiled March 26, 1900 reads: "Every sidewalk that shall hereafter be made constructed or repaired shall be in accordance with the resolution of the city council, directing and authorizing the construction or repairing thereof." At the close of the last administration a resolution was adopted by the council providing that henceforth all sidewalks laid in Santa Fe shall be of vitrified brick or cement. Dr. J. M. Diaz, had ordered of C. W. Dudson lumber to build a new sidewalk on Gaspar avenue leading to the capitol, but the city authorities called his attention to the resolution above referred to. Mr. Dudson said he would gladly take the lumber back, as he thought it was high time the capital city was moving in the way of brick or cement sidewalks, so Dr. Diaz now intends to use vitrified brick for his improvement. If other property owners would follow his example, it is likely that brick walks will be laid all the way to the capitol, and thus would be provided a brick pavement practically from the plaza to the capitol. It would prove a much needed and appreciated improvement.

PERSONAL MENTION.

H. K. Wheelock, of Ottumwa, Iowa, is a visitor in the city.

R. H. Tocklin, of Alamogosa, was in town this morning.

John Schultz, of Telluride, Colo., is registered at the Exchange.

J. H. B. Gilmore left by team this morning for his home in the upper Pecos.

M. Berardinelli, has returned home from a ten days trip to the Salina lakes 110 miles south.

William Rogers, of St. Louis, and J. R. Thompson, of Colorado Springs, are late arrivals at the Exchange.

Ex-Governor L. B. Prince, Mrs. Prince and son, William B., left this morning for the Prince ranch near Espanola.

J. B. Lamy left this forenoon for Ojo Caliente to try the springs for a stubborn attack of sciatic rheumatism.

O. C. Watson departed this morning for Taos and Rio Arriba counties on insurance business and will angle for trout in the Rio Brazos before returning.

George P. Miller, of Taos, probate clerk of Taos county, is in the capital on legal business appertaining to litigation of the Copper Hill Mining company.

J. W. Adams, of Pine Bluff, Ark., owner of a controlling interest in the Daily Graphic there, is spending some days in Santa Fe, and declares this climate a world beater.

Mrs. Robert Harvey, Geo. Day and daughter, Ella, and Carl Greaves left this morning for Las Vegas, where the two latter, medal winners in the recent W. C. T. U. oratorical contest, will compete for the territorial medals.

Governor Otero left this morning for Chicago, Washington and Philadelphia. At the latter city he will attend the Republican national convention as delegate at large from New Mexico. Hon. Juan Santistevan, of Taos, who expected to join him on the trip to Philadelphia, did not arrive here last evening.

Judge McFie and daughter, Maud, will leave this evening on a visit to Chicago, Washington, New York, Philadelphia and other eastern points. Judge McFie will be home by July 1, while Miss McFie will remain in Indiana to visit friends.

A PUBLIC GYMNASIUM.

A Commandable Enterprise to Be Inaugurated in Santa Fe.

A complete gymnasium equipment to be established in the Catron block for private and public use was yesterday ordered from Chicago by Dr. E. W. Christensen. It is hoped to have it in full working order in two weeks or so. Mrs. T. B. Catron is the moving spirit in this new home enterprise. During her recent extended sojourn at the Battle Creek, Mich., sanitarium Mrs. Catron received such benefit from the exercises taken daily in the gymnasium attached to that institution, and had opportunity while discussing the subject with leading physicians, to note its effect upon others, especially upon young men and women and growing children, that she resolved to lend her energies toward providing the Santa Fe public with such an institution. She has discussed the matter with a number of citizens with the result that her nephew, Dr. Christensen, has taken it in hand and will give it his personal attention. The idea is to fit up this room 30x60 in the Catron block with an up-to-date gymnasium apparatus and organize classes of young people and adults for a thorough training in athletics. Mrs. Van Schick will probably take charge as instructor of the women and girl classes, and Dr. Christensen will act as instructor for men and boys.

Mining Case Decided.

Judge McFie to-day decided the case of Pablo Aranda et al. vs. the Argo Mining Company, in favor of the plaintiff. The defendant had made application for United States patent on the Sunset mining claim near Golden. The plaintiffs filed an adverse claim, claiming that the Gold Coin mining claim, which they had previously located, covered the ground of the Sunset claim.

Spirited Ball Game.

The Santa Fe Cyclones and the St. Michael's College Browns played an animated game of base ball at the college campus on Sunday afternoon. There was a large audience in attendance. The batteries were Burt Ward and Manuel Otero for the Cyclones; Albino Vigil and Manuel Alarid for the college team. W. A. McKenzie donated a ball to go to the winner and the game closed with a score of 31 to 22 in favor of the college team. The game was won by hard knocks from start to finish.

A Fishing Trip.

Manager Sparks and Arthur Griffin, of the Water company, returned last night from a two days' trip to the Pecos, putting up at John Finn's red house. They caught 15 trout, the largest being a trout of the German brown family whose ancestors were placed in the ponds on the Valle ranch some years ago by W. W. Strong, of Chicago. Mr. Griffin had a battle royal with this fellow, broke his pole and fell into the river, but finally landed him. The fish measured nearly 17 inches and weighed one and three-fourth pounds dressed.

Ice cream, \$1.50 per gallon at the Bon-Ton.

Crawford Stock Company.

Clean and clever was the performance at the opera house last evening by the Crawford stock company. The play was "A True Kentuckian." The audience was large, and enjoyed it very much. In this play Kate Hume has grouped together many strong characters, and their presentation by this company is a really excellent piece of dramatic work. The specialties and side issues were also highly entertaining. Santa Feans can well accord a liberal patronage to this troupe. This afternoon they are playing a laughable farce comedy to a large audience of women and children. To-night they close here, presenting the famous, not to say notorious, French play, "Sapho," which, after all, is not so naughty, so the critics say.

The Sanitary Still...

PURE WATER is the most essential requisite for health that enters into the system. Ninety per cent of our food is water. Distillation is the only method of rendering water free from both organic and inorganic matter. The Sanitary Still is a perfected process that clears water absolutely of every form of impurity, whether from alkali, lime or other minerals; removes free ammonia, ammonia albuminoids, chlorine or other injurious gases. It requires about the same space as a teakettle, but little time, very little trouble, and no experience to operate. The first cost is the only cost, and that is small enough to be real economy to users of distilled water. Sold under an absolute guarantee. Descriptive catalogue free.
