RELIEF FORCE FAILS

Three Hundred Members of the Party Reported Sick and Wounded Near Tien Tsin.

A MISSION BUILDING BURNED

Admiral Seymour's Forces Short of Provisions and Will Return to Tien Tsin Without Relieving the Foreign Legations at Peking.

Paris, June 27.—The French consul general at Shanghai, telegraphing yesterday, announces that the allied troops entered Tien Tsin. He states also that the foreign ministers departed from Peking, accompanied by a Chinese escort, supposedly headed for Shanghai Kowloon, following the great wall.

MERELY A RUMOR.
Shanghai, June 27.—A German paper has credited the statement to the effect that Admiral Seymour is eight miles from Tien Tsin, with sixty-two killed and 200 wounded.

RELIEF A FAILURE.
London, June 27.—A special from Shanghai says that communication with Admiral Seymour was opened by the Tien Tsin relief force on Sunday. Seymour was then ten miles from Tien Tsin. Three hundred members of the party are reported sick and wounded, and only a few killed. They were short of provisions, and were returning without having relieved the legations.

MISSION BURNED DOWN.
A dispatch from Tien Tsin dated yesterday says that the Protestant mission at Wei Shien was burned down by the rebels on Monday night.

LEGATIONS ALL O. K.
Washington, June 27.—The Chinese minister received a telegram from Peking via Chung Fu, dated June 19, saying that the ministers and foreigners in Peking are safe there and well, and arrangements are being made to provide them with an escort out of the city.

ANGLO-SAXONS AHEAD.
London, June 27.—A dispatch from Chefoo says: "The fight of the allied forces against the combined Boxers and Chinese soldiery barring the road to Tien Tsin opened at daybreak. One hundred and fifty Americans were among the 2,000 international troops. The Chinese soon broke under the heavy shelling, then the arsenal was attacked and the guns gradually silenced. The fight was practically over at noon. Keen, friendly rivalry for the honor of first entering the city resulted in the Americans and British going in neck and neck, with the others close up."

CONFLICTING REPORTS.
London, June 27.—Cable messages from the far east are so conflicting that almost any desired view of the situation is defensible. On the whole, however, it is safe to assume that Vice Admiral Seymour and the legations, whether together or separately, will ultimately reach a place of safety. Various reports locate the legations at diverse places, but it seems that they are safely away from Peking.

A CHINESE VERSION.
Washington, June 27.—The Chinese minister called this morning on the secretary of state and communicated to him the contents of a dispatch received from the Tsung Li Yamen at Peking, dated 19th inst. The dispatch states that the foreign ministers had before this date asked permission for the legation guards to enter the city, which permission had been granted; that they subsequently asked that these guards be re-enforced, which the Chinese government was not disposed to permit. The dispatch then goes on to state that the consul general at Tien Tsin—supposed to be the French consul general—telegraphed the viceroy of Chi Li that the foreign minister had demanded the surrender of the Taku forts, and that the foreign ministers were shortly to leave Peking for Tien Tsin with their guards.

THE EUROPEANS SAFE.
London, June 27.—The British consul at Amoy telegraphs that the Europeans at Peking are reported safe.

ON HIS WAY TO CHINA.
Washington, June 27.—General Chaffee, ordered to command the American troops in China, left Washington to-day for San Francisco, whence he sails on Sunday.

TERRIBLY HARASSED.
Berlin, June 27.—The German consul at Chefoo confirms the message from Vice Admiral Seymour, which reached Tien Tsin Monday, saying that he was then eight miles westward of that city, terribly harassed; could only hold out another two days; had sixty-three men killed and over 200 wounded, and adds that the admiral asked for the dispatch of a relief column of 3,000 men. This column left Tien Tsin on the morning of June 25 under Russian command.

THE WAR SPREADING.
London, June 27, 3:45 a. m.—A fresh phase of the ebullition in China is the probability of immediate outbreaks in the great southern provincial centers. The populace there are daily assuming a more hostile attitude toward the foreigners, and the latter perceive symptoms of a general rising, especially at Nankin, where one of the most truculent enemies of the foreigners has arrived by the way of Grand canal, armed with full powers from the emperor to deal with the southern provinces. The friendly attitude of Viceroy Liu Kun Yih toward foreigners has brought him into disrepute with Prince Tuan, president of the Tsung Li Yamen. The unrest at Canton is described by a dispatch from that city, via Hongkong, yesterday: "It is feared we are on the eve of a scene of bloodshed and anarchy in the two wings only paralleled during the Tai Ping rebellion. Signs of murderous uprisings are so manifest that wealthy

THE BOERS ACTIVE

They Succeeded in Piercing the Lines of General Buller and Are Moving Southward.

200 BASUTOS CAPTURED

The British Failed to Guard Their Lines of Communication North of Kroonstadt and the Basutos Had to Surrender in Consequence.

London, June 27.—Telegrams from South Africa indicate that the renewed Boer activity increases in proportion with Lord Roberts' acquiescence, so the completion of the commander in chief's enveloping movement, supposed to be in progress, is anxiously awaited. The news this morning supports the belief that the Boers succeeded in piercing General Buller's lines and proceeded southward. It appears that the failure of the British to properly guard their line of communications north of Kroonstadt involved disaster to a body of Basutos working on the railroad, of whom twenty were killed and 200 made prisoners.

GUERRILLA WARFARE.

London, June 27, 3:30 a. m.—The Boer commands in the eastern part of the Orange River Colony appear to be broken up by the leaders for the time into small parties that harass large columns of the British incessantly, cutting off scouts, sniping pickets, making a show of force here and there, and bewildering the slow moving bodies. Commandant Christian Dewet, General Steyn's principal leader, is a genius at these guerrilla operations. He is here on the Boer side in the last days of hostilities. Lord Roberts' columns are steadily concentrating the circle of their advance. Transvaal officials who were interviewed yesterday at Machadodorp by a correspondent of the Daily Express asserted that they intended to hold out to the last. Commandant General Botha is uncommonly active east of Pretoria.

LORD KENSINGTON.

New York, June 27.—A dispatch from Bloemfontein announces the death of Lord Kensington of the Life Guards, aged 37, from wounds.

THE TICKET NAMED.

Illinois Democrats Resolute and Nominate a State Ticket.
Springfield, Ill., June 27.—The Democratic state convention instructed the delegates to the national convention to support Bryan and to vote as a unit upon all questions; it elected Thomas C. Han, of Chicago, as national committeeman, and completed the ticket as follows: Governor, Samuel A. Hatcher, Aurora; lieutenant governor, Elmer Perry, Brown county; secretary of state, James F. O'Donnell, Bloomington; state auditor, George B. Parsons, Shawneetown; state treasurer, M. F. Dunlap, Jacksonville; attorney general, James Todd, Cook county. The platform reaffirmed the platform adopted by the Democratic national convention in 1896, denounces the administration of William McKinley as the weakest in the history of the nation; condemns the covering attitude of the president and his advisors in refusing sympathy to the heroic Boers; invokes public condemnation of the administrative policy which denies Cuba, Porto Rico and the Philippine islands the principle of home rule and self-government; denounces the currency law passed by the present congress; denounces imperialism under any pretense as necessarily leading to militarism; opposes monopolies formed for the purpose of arbitrarily controlling products and prices in the interest solely of combined capital; favors the removal of duties from all imports monopolized by trusts; demands the enactment and enforcement of legislation to prevent every species of discrimination; favors the immediate construction, operation, fortifications and defense of the American coast; demands opposition to government by injunction; demands protection of the life and property of American citizens at home and abroad regardless of race, color or previous conditions.

The state central committee met immediately after adjournment of the convention and selected Dr. Walter Watson, of Mount Vernon, as one of the alternate delegates at large to the national convention in place of Adlai E. Stevenson, who declined.

THE PARDON HONORED.

Captain John Powers, Accused of Complicity in the Goebel Murder, Released.
Harlan Court House, Ky., June 27.—Capt. John Powers, of Barbourville, who was arrested here yesterday on a charge of complicity in the murder of Governor Goebel, was to-day released on habeas corpus proceedings. Powers produced a pardon signed by Governor Taylor, March 6, which Judge Cornett honored.

DEMOCRATIC DEMANDS.

Arkansas Democrats Denounce the Republicans and Their Doings.
Little Rock, Ark., June 27.—The Democratic state convention to-day elected ex-Governor James P. Clarke national committeeman. Senator Jones, Senator Berry, ex-Governor Clark and Jefferson Davis were elected delegates at large to the Kansas City convention. Resolutions instructing the delegation to vote for David B. Hill for vice president were withdrawn. The platform reaffirms the Chicago platform; favors a strict observance of the Monroe doctrine; declares for government construction and ownership of the Nicaraguan canal; denounces trusts; condemns the "death-dealing" policy of the Republican administration in the Philippines; insists upon giving freedom to Cuba, and demands the same rights for the Philippines.

AMERICAN MATHEMATICAL SOCIETY.

New York, June 27.—The seventh annual meeting of the American Mathematical Society opened today in Fayerweather Hall, Columbia University. Special importance is attached to this session, as it is largely attended by scientific men, who are present at the Columbia Convention of the American Association for the Advancement of Science. Three regular sessions are to be held in the afternoon.

CHANGES IN NAVAL OFFICERS.

Washington, June 27.—Lieut-Commander C. W. Bartlett is detached from the Naval War College today, and ordered to report for duty on the battleship Texas tomorrow, as relief of Lieut-Commander Reamy, as executive officer. The latter is ordered home to await orders.

OFFICIAL MATTERS.

POSTMASTER APPOINTED.

Miss Evangeline Haller has been appointed postmaster at Blossburg, Colfax county, to succeed Charles E. Peterson, removed.

AN INCORPORATION.

John H. Culley and Theodore G. Martin, of Wagon Mound, Mora county, and Andrew A. Jones, of Las Vegas, San Miguel county, today incorporated the Culley & Martin company with \$100,000 capital and headquarters at Wagon Mound. The company will engage in the cattle business. The directors are John H. Culley, Theodore G. Martin, Mary C. Culley and Ethel H. Martin.

LAND OFFICE RECORD.

Following are the transactions at the United States land office in this city for the week ending at noon to-day:

Andres Laumbach, La Cueva, 160 acres, San Miguel county; Emil Ashe, Hall's Peak, 160 acres, Colfax county; John P. Pond, La Plata, 80 acres, San Juan county; Leon Nelson, Anton Chico, 160 acres, San Miguel county; Christian Nelson, Anton Chico, 160 acres, San Miguel county; Teodoro Lopez, Ignacio Colo, 80 acres, San Juan county; Cleofas Garcia, Reme, 160 acres, San Miguel county; Manuel Garcia, Tierra Amarilla, 160 acres, Rio Arriba county; Nabor Trujillo, Tierra Amarilla, 160 acres, Rio Arriba county; Tomas Martinez, Canjilon, 80 acres, Rio Arriba county; Gabino Martinez, Canjilon, 80.34 acres, Rio Arriba county.

Final Homestead Certificates—Pantalon Leal, Wagon Mound, 160 acres, Mora county.

Coal Declaratory Statements—George C. Morgan, La Plata, west half south-west quarter section 14, township 32 north, range 13 west; southeast quarter section 15, township 32 north, range 13 west; northeast quarter section 15, township 32 north, range 13 west; northeast quarter section 22, township 32 north, range 13 west, San Juan county.

Applications for Patent—E. L. Medler, W. G. Hope, Albuquerque; G. M. Bower, Kansas City, by E. W. Dobson, attorney in fact, applies for patent on the Pontolone mining claim, Cochiti mining district, Bernalillo county.

Land Sold—Juan Duran, Ortiz, Colo., 160 acres, Rio Arriba county.

Coal Land Purchase—George W. Kutz, Lumberton, 40 acres, Monero, Rio Arriba county. This purchase settles a long contest between Kutz and Mrs. Carrie L. Fries et al.

STILL WILLING.

Admiral Dewey Will Be a Candidate for the Presidency If Nominated.

Newport, R. I., June 27.—Admiral Dewey last night said: "I stand just where I was some time ago. If the American people want me as their candidate for president I am ready." On being asked if he would stand for the nomination of vice president he replied, no. The admiral said: "There is a strong feeling in the west for Bryan, and if he runs for the presidency I believe he will be elected." Dewey paid a high tribute to President McKinley.

Died of Heart Disease.

Chicago, June 27.—Rev. D. N. J. Dowling, vicar general of the archdiocese of Chicago, died today from heart disease.

National Administration Endorsed.

Bangor, Me., June 27.—The Republican state convention nominated Dr. John F. Hill, of Augusta, for governor. Resolutions endorsing the national administration were adopted.

Michigan Republican Convention.

Grand Rapids, Mich., June 27.—The Republican state convention opened here today with D. P. Markey, of Port Huron, as temporary chairman. A full state ticket is to be nominated.

Pennsylvania Naval Reserve Sails.

Philadelphia, Pa., June 27.—The United States auxiliary cruiser Prairie has finished her overhauling, and today sails with the Pennsylvania naval reserve aboard for a four days' cruise at sea.

European Trip for Senator Depew.

New York, June 27.—Senator Chauncey M. Depew and his niece are expected to sail today for Europe. A return will not be made until fall. Mrs. Charles Emory Smith, wife of the postmaster general, and Miss Wilson, daughter of the secretary of agriculture, are also on the passenger lists.

To Come Through New Mexico.

Philadelphia, Pa., June 27.—The directors of the Choctaw railroad met today to discuss the advisability of extending their line further west, so that it may reach Albuquerque, N. M. Chief Engineer Mollier, of the Choctaw railroad, submitted a lengthy and thorough report of the recent survey, which will probably be approved.

Republican League of Missouri.

St. Louis, Mo., June 27.—The Republican League of the State of Missouri is holding its convention in the quarters of the state central committee at the Lindell hotel. The basis of representation is one delegate for every 50 club members, besides the president, secretary and treasurer of each club. Various political matters are up for discussion, as well as matters pertaining to the fall campaign.

Mexican School Teachers on a Tour.

New York, June 27.—A party of 15 men and girls sailed from here today bound for Vera Cruz, Mexico. They are Mexican school teachers and have just completed an extensive tour of the United States at the expense of the State of Vera Cruz, in quest of knowledge pertaining to the management of primary and lower grade schools. Their investigation was very thorough, and much good will undoubtedly result. Vera Cruz stands at the front in educational movements in Mexico. The first university was established there 83 years before Harvard was founded. The first printing press in America was in Mexico. At present, however, the proportion of Mexican children who attend school reaches only 37 per cent.

PROSPERITY EVIDENT

Great Mining Activity in Cerrillos, Dolores, Golden and San Pedro Districts.

SOUTHERN SANTA FE COUNTY

The Operations on the Cash Entry Mine—The Cerrillos Smelter Running Smoothly—The Edison Plant—The New Smelter at San Pedro.

Attorney A. B. Renahan has returned home from a somewhat extended trip through the mining districts of southern Santa Fe county. He was very much impressed with what he saw, and is sanguine that the Cerrillos, Dolores, Golden and San Pedro districts are certain to take front rank among the mineral producers of the territory before the current year closes. In the Cerrillos district he was pleased to note that the long neglected Cash Entry group, covering 230 acres of patented mineral land, is undergoing active and systematic development work under the intelligent and experienced management of A. A. Newbery and his associates. A village of tents has sprung up at the mine, and great activity is manifest about the property. This is unquestionably one of the most valuable lead-silver propositions in the territory, and is certain to yield rich rewards to those who are now in control. Several large and immensely valuable ore bodies are known to exist in the extensive underground workings of the Cash Entry, and the indications are that they extend for thousands of feet. Clearly, Mr. Newbery knew precisely what he was doing when he secured control of this group.

THE CERRILLOS SMELTER.

The Cerrillos smelter, with a reduction capacity of eighty tons of ore per day, has been running most successfully and satisfactorily during the past two weeks under the capable management of Superintendent Wells, and the stockholders have substantial reasons for anticipating steady profits in future. Two shifts, aggregating about thirty men, are employed. Of course, the plant is operated day and night. Mr. Renahan noticed about twenty tons of lead bullion, carrying gold, silver and copper, the results of two weeks' run, on the platform of the Cerrillos station, awaiting shipment to the refineries.

THE EDISON PLANT.

The Edison electrical gold saving plant is in constant and successful operation on the Ortiz mine grant near Dolores, giving employment to a force of ten or twelve men. The secret of the wonderful process whereby the gold values are rescued from the auriferous gravel and sand of the Ortiz grant without the aid of water has not been confided to the public; it is still one of the personal and private possessions of the renowned wizard of Menlo Park; but it is evidently more than meeting the expectations of its inventor and his business associates, and little doubt is entertained that it is destined to revolutionize present methods of reducing gold-bearing ores. President Lawson, of the Ortiz mine grant company, has been at Dolores for two weeks, thoroughly examining the property and watching the operation of the experimental Edison mill. He appears well pleased.

MILL STARTS UP.

James M. Lucas started up his five-stamp mill on Monday, and is making a successful run on the high-grade free milling gold ore from the Santa Rosa mine, owned and operated by Jose L. Lopez and Eugenio Romero. Fifteen men are employed in the mine and mill.

THE NEW SMELTER.

The new 300-ton copper smelter of the Santa Fe Copper Company makes an imposing appearance on the hillside above San Pedro. It will be completed and blown in about the 1st of September. Under the direction of Superintendent McLaughlin the copper mines of the company are being extensively developed, and immense bodies of ore are being blocked out for reduction at the smelter as soon as it is blown in. This company is constructing a new road, which materially lessens the grade and shortens the distance to its copper mines, as well as the Lincoln-Lucky and San Lazarus groups of gold and silver mines. The company is at present employing 150 men. This force will be increased to 500 as soon as the smelter is blown in.

MILL SHUTS DOWN.

The San Pedro Gold Mining and Milling company, controlled by Milwaukee capitalists, formerly known as the San Lazarus company, is at present employing twenty men in its mill and mines. The mill will soon be temporarily closed down for the purpose of devoting all energies to the development of the mines. Since careful exploration work has been in progress, expert opinion has reached the conclusion that underlying the properties of this company will be found the continuation of the Santa Fe Copper Company's great veins, and those interested are naturally very much encouraged at the prospect of soon being able to establish this important fact. An experienced mining engineer has been employed to make a scientific investigation and report on the property with special reference to the copper indications.

Japanese Driven Out.

Redding, Calif., June 27.—Two hundred miners, and smelter employees of Keewick last night drove 21 Japanese railroad workers out of town. There was no violence. The Japanese were employed to take the places of white men.

Mrs. Clemens Dies Suddenly.

New York, June 27.—Mrs. Katherine Lott Clemens, wife of Mr. Clemens, the author, died suddenly to-day of heart trouble at Hackensack, N. J.

ON HIS WAY HOME.

Governor Otero Left Washington Yesterday Where He Received Many Attention.

Washington, June 27.—Governor Otero and Hon. Solomon Luna, together with the other New Mexico delegates at Philadelphia, did important work for New Mexico and Philadelphia at Washington. Governor Otero was the recipient of marked attentions from United States senators and leaders, and with senators and millionaires was the guest last evening at a dinner at one of Washington's palatial homes. Yesterday he called upon the secretary of the interior, and to-day left for Chicago on his way home.

PROHIBITION CONVENTION.

There Are Three Avowed Candidates for the Presidential Nomination.

Chicago, June 27.—The national convention of the Prohibition party met to-day in the first regiment armory. Of 1,034 delegates entitled to seats more than three-fourths were in attendance when Chairman Oliver W. Stewart of the national executive committee, called the convention to order.

Three avowed candidates for the presidential nomination are in the field, John G. Woolley, of Chicago, editor of "The New Voice," a prominent platform advocate of the cause of prohibition; Hale Johnson, of Newton, Illinois, and Rev. Silas C. Swallow of Harrisburg, Pa.

Chairman Stewart announced as temporary chairman Samuel Dickie, of Michigan. Dickie bitterly assailed the administration for its position on the canton law, charged it with debauching the people in its new possessions and the Philippines. He also accused the government of using its consular service for gathering information for the use of distillers and brewers. Recess was then taken until 2:30.

AGAINST THE ICE TRUST.

A New York Judge Rules Against It On Every Contested Point.

Albany, N. Y., June 27.—Justice Alden Chester to-day handed down a decision in the American Ice Company case which is against the company on all points, and vacates the writs of prohibition issued by Justice D. Cady Herlick, which restrains the referee, Myer Nussbaum, from examining the officers of that company in proceedings instituted against them before Justice Chase. The referee can go on with the investigation of the company's affairs.

TESTING CREDIBILITY.

A Newspaper Which Tells of Marvellous Happenings in Otero County.

Some time ago the enterprising newspaper printed at Tularosa, in Otero county, made an amazing discovery of stone swords and aluminum battle axes in the neighboring mountains, these treasures presumably belonging to a period in unwritten history long prior to the Christian era, but the editor sold his pretty story by admitting that several empty McBrayer bottles were found in the same excavation. Now the same enterprising editor comes boldly to the front with a statement that a miner named Burleson, working in the San Andreas mining district, was bitten by a small polecat, a feline animal of the genus mephitis, and has since died in great agony, foaming at the mouth and showing all the other signs of hydrophobia. It is simply a fragment of the human imagination. And the bite of a polecat is no more dangerous than that of a Texas or Florida mosquito.

Terribly Hot in Pittsburgh.

Pittsburgh, Pa., June 27.—Three deaths and several prostrations from heat were reported to-day.

HEAT IN CHICAGO.

Chicago, June 27.—Two deaths were caused by excessive heat and humidity to-day. The thermometer registered 89 degrees.

Campau a Candidate.

Detroit, June 27.—Daniel J. Campau's political secretary declared to-day that Campau's name will be presented to the Kansas City convention as a vice presidential candidate.

Albuquerque Notes.

The second of the twins of Mr. and Mrs. John Nichols died yesterday.

Las Vegas Notes.

Ex-United States Senator J. J. Ingalls and son, of Kansas, are guests at the Castaneda.

Smith Orwick, who enlisted in the 34th regiment for service in the Philippines, has returned to Las Vegas.

Charles Kingsley was shot in the leg by his son-in-law, named Scarborough, who arrived recently from Indian territory. Mrs. Scarborough had gone to her parents' home to avoid her husband whom she accuses of bigamy and when Scarborough was refused admittance to the Kingsley home he shot Kingsley.

Open day and night at the Bon-Ton.

VIOLENT WIND STORM

Fruit Shippers of Las Cruces Have Organized An Association For Mutual Protection.

A SNOW SHED BURNED UP

Good Flour Turned Out By the Astec Roller Mill—Good Telephone Service At Capitlan—Happenings in Several New Mexico Counties.

LINCOLN COUNTY.

The total indebtedness of Lincoln county is \$32,000. Many new and substantial buildings are being erected at Capitlan. Nogal will celebrate the glorious 4th of July by giving a grand barbecue. J. F. Bonham, formerly of Las Cruces, has formed a law partnership with Attorney Wharton at White Oaks. Capitlan has ten telephone instruments in daily use, connecting the young metropolis with Fort Stanton, Alamogordo and all points in the south-west.

The wife and children of Capt. George Curry, who reside in Lincoln, are joyfully anticipating the gallant officer's return from the Philippines in a few days. When he returns to Manila it is understood that his family will accompany him.

Rev. John A. Hollars, who has been pastor of the Congregational church at White Oaks for the past year and a half, has gone to Albuquerque to assume the pastorate of the Congregational church there for the month of July.

John W. Owen has sold his Occura ranch to Bud Smith and George Hyde, of Three Rivers, and has moved his goats to the Carizozo mountain ranges.

Antonita de Vega, daughter of Jose Maria de Vega, recently died at Nogal. She was about 9 years old.

DONA ANA COUNTY.
E. C. Wade is building a fine new residence at Las Cruces.

Archie Rowland and Miss Walters were recently united in marriage at Organ.

David Ames has resigned the position of station agent for the Santa Fe company at Earham.

District Judge Frank W. Parker, of Hillsboro, is attending to judicial business in chambers at Las Cruces.

The honey crop in the Mesilla valley is the largest for several years. J. S. McClure, who owns about 250 stands of bees, has already extracted 3,700 pounds of honey, and will obtain much more.

An unusually violent wind storm passed over Anthony a few days ago, blowing down fences, prostrating big cottonwood trees and unroofing houses. The damage done to the brick works at Vinton is estimated at \$1,000.

At Mesilla on last Wednesday evening R. Y. Anderson and Miss Ida M. Jones were pronounced man and wife by Rev. Mr. Martin, of El Paso. Mr. and Mrs. Anderson left the same evening for the Atlantic coast resorts.

The fruit shippers at Las Cruces have organized an association for mutual protection. The first early peaches were shipped from that point last Thursday, and regular shipments are now being made. The much-prized early Alexander peaches will be in the market next week.

RIO ARRIBA COUNTY.
James M. Gilliland, a merchant at Chama, wears the medal for hooking and landing the largest trout so far reported this season. It weighed five and a half pounds dressed, and was a beauty.

A snow shed 1,350 feet long, on the San Juan division of the Denver & Rio Grande railroad, between Cumbres and Los Pinos stations, was burned a few days ago. It is presumed that the fire was caused by sparks from a passing locomotive.

Hon. T. D. Burns, of Tierra Amarilla, has let a contract for the construction of a mammoth warehouse at Chama. The site selected is alongside of the railroad track.

SAN JUAN COUNTY.
The fruit crop of San Juan, particularly apples and pears, promises to be unusually large and fine.

The flour manufactured at the new roller mill at Aztec is of superior quality and finds a ready market. One dealer at Farmington purchased 6,000 pounds of this product of home enterprise last week.

M. M. Engleman is making arrangements to erect a fine two-story brick building at Farmington, the lower story to be used as a store room and the upper story as a hall.

MARKET REPORT

MONEY AND METAL.

New York, June 27.—Money on call nominally 1½ per cent. Prime mercantile paper 3½ @ 4½. Silver 61½. Lead \$4.10.

GRAIN.

Chicago.—Wheat, June, 82½; July, 83½; Corn, June and July, 42½; August, 43½ @ 43½. Oats, June and July 25½; August, 25½.

STOCKS.

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the territory, and has a large and growing circulation among the intelligent and progressive people of the southwest.

ADVERTISING RATES.

Wanted—One cent a word each insertion.
Local—Ten cents per line each insertion.
Reading local—Preferred position—Twenty-five cents per line each insertion.
Displayed—Two dollars an inch, single column, per month in Daily. One dollar an inch, single column, in either English or Spanish Weekly.
Additional prices and particulars given on receipt of a copy of matter to be inserted.

WEDNESDAY, JUNE 27.

For President,
WILLIAM MCKINLEY.
For Vice President,
THEODORE ROOSEVELT.

We favor home rule for and early admission to statehood of the territories of New Mexico, Arizona and Oklahoma.—National Republican Platform.

The United States has sent another note to the sultan asking for the payment of that little indemnity. Undoubtedly this note will go the same way as did its predecessors, into the waste basket. It takes something stronger than notes to move the sultan.

Archaeologists are finding a good deal in New Mexico ruins that is of scientific value and interest. A thorough and systematic exploration of the cliff dwellings and other remains of prehistoric races should be undertaken, for day after day ruins crumble before the tooth of time, and relics after relics are taken away by relic hunters or by natives who do not know their value.

The anti-imperialists held a convention at New York, and a dozen or so of theoretical cranks were in attendance to devise means to stem the progress of the United States. But the world does move, and like the wise professors of Salamanca who endeavored to prove to Christopher Columbus that the world is flat as a pancake, their theories will be scattered to the winds by the indisputable logic of events.

The Democrats of Kentucky themselves are likely to advocate the repeal of the Goebel election law. They see that this piece of iniquitous legislation will cost them the supremacy in Kentucky political affairs for many years to come. Their eleventh-hour repentance is too late, however, and McKinley and Roosevelt will carry the state by a majority ranging from 8,000 to 17,000 votes.

Chicago has its tax dodgers, too. New York has a considerable number of that class of gentlemen, and it is to be said, but only in a whisper, that even New Mexico could produce several men of wealth whose tax-dodging proclivities would put to shame New York and Chicago millionaires. It is queer that the persons who can best afford to pay taxes are those who work hardest to avoid doing their duty to the public in that line.

Cel. William J. Bryan will not go on a speech-making tour this fall. It didn't elect him in 1896, and he hopes that doing like President McKinley did at that time might bring him success this time. Unfortunately, Colonel Bryan has put himself on record too often to make enforced silence at this juncture appear like bottled wisdom. Col. Bryan's doom is settled, speech making or no speech making.

The ice trust won a victory in the New York courts, but it has nevertheless been defeated in its purpose by competition encouraged by the people. The Salvation Army has taken a hand in fighting the trust, and is now selling 25 pounds of ice for 5 cents. It is difficult to kill a trust by legal means, but competition supported by the mass of the people will do it every time. Whenever the profits of a trust grow above a reasonable per cent, there will be plenty of competition springing up on every side to share in the profits.

It is not only the United States that has its arid lands. They are found on every continent, and their area is almost equal to the land now under cultivation. The greatest progress in reclaiming arid lands has probably been made in Egypt. Australia is also moving in that direction. In several parts it has reclaimed arid areas by drilling artesian wells, and in other parts by

constructing irrigation works. The United States will have to move quickly if it wants to keep up with Australia in the matter of making the desert bloom by bringing water upon the dry but fertile sands.

Denver is working hard to persuade its weather observer to announce the temperature about twenty degrees lower than it actually is. One of the Denver papers devoted a column to an argument why Denver thermometers showed 90.4 degrees last Saturday, while Chicago thermometers indicated only 58 degrees, and that despite this Denver was a cooler place than Chicago was on that day. That same day El Paso recorded 102 degrees, and the Dakotas, too, basked in heat that the thermometers registered at 102, but which felt like 300 degrees. Santa Fe at the same time had a maximum temperature of 75 degrees, and a minimum temperature of 55 degrees. Taking all things in consideration, therefore, Santa Fe had the ideal summer weather. In Chicago it was too cool and humid for summer, and in El Paso and the Dakotas the heat was excessive, and even in Colorado the heat was about 16 degrees too high for human comfort.

Railroad Building.

Statistics just gathered by the Railway Age show that there are 406,300 miles of railroad in the world, or enough to go around the earth nineteen times. The United States has 156,600 miles, or considerably over one-third of the total mileage. Germany comes second, with 30,776 miles. Then Russia, with 26,490 miles; France, with 25,897 miles; British India, with 21,970 miles; Austria, 21,805 miles; Great Britain and Ireland, with 21,528 miles.

All of Europe has only 167,500 miles, or less than the United States. The total increase of railroad lines last year was only 11,800 miles. Great Britain and Ireland have seventeen miles of railway to each 100 square miles of territory, while the United States has only six miles. But the United States has 2,645 miles per 1,000,000 inhabitants, while Germany has only 563 miles, and Japan only sixty-eight miles. It will be seen, therefore, that there is still plenty of room for railroad expansion, and railroad building will continue for many years to come.

The West in Politics.

Congressman Jonathan P. Dolliver of Iowa clearly defines the position of the west toward the Republican party. He first demonstrates that the west is not a provincial term, that the interests of the west are identical with those of the rest of the country, and that it has no sectional advantages to seek other than the general prosperity of the nation. He points out that the chronic poverty of the west has become a matter of the past. Thirty years ago the state of Iowa was without money and without industrial enterprises of its own, and consequently was a borrower of eastern capital to such an extent that the people were impoverished by paying interest and for goods that are now manufactured in the state. Other western states went through the same experience. He continues that the growth of industry and the accumulation of loanable capital have made the Mississippi valley firm in its conviction on two questions: The protection of American labor and the maintenance without quibble or ambiguity of the gold dollar as the standard of the republic. On this proposition the northern part of the Mississippi valley is as solid as a rock. The people are opposed to tearing up the industries of the United States by the roots, the ceremony which has followed every Democratic victory of this generation, and they feel with substantial unanimity that the time has come to put a stop to the vain and wicked agitation which seeks to sap the foundations of the national system of finance and to make a raid upon the commercial integrity of the country.

"On other questions the Mississippi valley has convictions equally distinct. The people welcome the opportunity which has come to make the flag of the republic the sign of hope and heir to the scattered races that, without any purpose of ours, have come within its protection. They fear neither the growth of territory nor the increase of national responsibilities.

"Four years ago people were stricken by idleness, poverty, misery and want; they were being fed in the soup houses of the cities, and were destitute in the alleys and lanes of the rural districts. To correct that situation and to restore American prosperity the Republican party was selected by the free choice and vote of the country. Their proposed remedy was universally known. They undertook to restore the rate of wages and to give back their lost occupations to the industrial millions of the United States. At the same time they undertook to secure the permanence of industrial and commercial wealth by defining the standard of value and providing a mechanism for the maintenance of that standard both in the dealings of the government and of the people themselves. The extra session of the fifty-sixth congress fulfilled the Republican promises to restore that reasonable protection without which the industries of the American people have always languished and tended toward bankruptcy. By historians as the most far-reaching and beneficent act of legislation applicable to an industrial situation almost beyond hope which this generation has seen. While it stands the national revenues will be ample, and no American standing idly upon the street corner will be able to complain that his job has been taken from him by the competition of aliens and strangers in other parts of the world.

"The act of 1900, defining the standard of value and making all the currency and coinage of the United States and all contracts of the government of the people conformable to the standard of which the gold dollar is the unit, is even more important to the permanence of the national prosperity. For, without a standard free from doubt and ambiguity there can be no real and permanent prosperity.

"The Republicans of the west, for these reasons, propose to stand exactly where they are, and make this fight for the solvency of their business and the permanence of their prosperity. They are doing too well under existing circumstances to submit to any radical changes in the principles of the national government."

Skin Diseases

When the excretory organs fail to carry off the waste material from the system, there is an abnormal accumulation of effete matter which poisons the blood, and it becomes sour and acid. This poison is carried through the general circulation to all parts of the body, and upon reaching the skin surface there is a redness and eruption, and by certain peculiarities we recognize Eczema, Tetter, Acne, Salt Rheum, Psoriasis, and many other skin troubles, more or less severe. While the skin is the seat of irritation, the real disease is in the blood. Medicated lotions and powders may allay the itching and burning, but never cure, no matter how long and faithfully continued, and the condition is often aggravated and skin permanently injured by their use.

The disease is more than skin deep; the entire circulation is poisoned.

The many preparations of arsenic, mercury, potash, etc., not only do not cure skin diseases, but soon ruin the digestion and break down the constitution.

S. S. S., nature's own remedy, made of roots, herbs and barks, of great purifying and tonic properties, quickly and effectually cures blood and skin troubles, because it goes direct to the root of the disease and stimulates and restores normal, healthy action to the different organs, cleanses and enriches the blood, and thus relieves the system of all poisonous secretions. S. S. S. cures permanently because it leaves none of the original poison to reappear in the blood.

Healthy blood is necessary to preserve that clear, smooth skin and beautiful complexion so much desired by all. S. S. S. can be relied upon with certainty to keep the blood in perfect order. It has been curing blood and skin diseases for half a century; no other medicine can show such a record.

S. S. S. contains no poisonous minerals—it is purely vegetable and harmless. Our medical department is in charge of physicians of large experience in treating blood and skin diseases, who will take pleasure in aiding by their advice and direction all who desire it. Write fully and freely about your case; your letters are held in strictest confidence. We make no charge whatever for this service. Our book on Blood and Skin Diseases will be sent free upon application.

THE CENSUS RETURNS

A Tremendous Amount of Clerical Work That Must Be Done By the Bureau.

HOW FINAL COUNT IS MADE

Census Director Merriam Explains Why Information Already Asked for by Inquirers Can Not Be Furnished At This Time.

Director of Census Merriam gave out the following statement for the information of the public:

"The census office is now in receipt of many letters daily asking for information as to the result of the census in particular localities, especially in the larger cities. It does not appear to occur to the writers that the census has not yet been taken. The law allows until June 15 in cities of 8,000 inhabitants, and in rural districts until the 1st of July for its completion; and after that the schedules have to be examined by the supervisors of the census before they can be forwarded to Washington, in order that the supervisors may be able to determine whether the work has been satisfactorily done and may be in position to certify to the correctness of the enumerators' accounts for service rendered under the law.

"In order to appease the impatience of the public, the following statement has been prepared, showing what has to be done with the census returns when received at Washington, and why it must be weeks or even months before the figures can be given out in their entirety.

THE ROUTINE.
"Every enumerator is required to fill a daily report card, showing how many hours and minutes he has been at work, and how many persons he has enumerated that day. Since there are (including special enumerators for institutions and for the military and naval population) approximately 53,000 enumerators, and thirty days are allowed for the completion of the census, the number of daily report cards to be examined in the census office is somewhere between 1,000,000 and 1,500,000, every one of which has to be copied by hand upon a series of blank tabular statements, for which there is only one for every enumerator. These are then recopied upon a summary statement, showing the amount of work in each supervisor's district, and since there is space on each blank for recording the work of 100 enumerators, and only part of the blanks will be filled, there will be approximately 1,000 of these sheets.

VAST AMOUNT OF MATERIAL.
"It is difficult for any one not familiar with census work to form any idea of the vast amount of material to be handled in all of the divisions of the office. The number of boxes containing schedules sent to the enumerators in advance of taking the census was 4,500, and their total weight was estimated at 300 tons. All of this material is returned to Washington, where it has to be sorted out and arranged in order by states, and the subdivisions of states upon shelves aggregating several miles in length. There is an invoice of schedules in every box received, which has to be verified and the schedules which do not relate to population must be counted and delivered to the chief statisticians for mortality, agriculture and manufactures, and their receipts taken for the same. A separate receipt has to be made out by each of them for each of the 53,000 enumerators.

A MINUTE EXAMINATION.
"Next in order follows the examination in detail of the schedule. Every schedule has to be examined in order to see that the enumerator has not made an overcharge for his services. For this purpose the schedule has to be compared with the account rendered by him. Every possible effort will be made to pay the enumerators at the earliest practicable date. Every business man knows that 53,000 bills presented for payment in one day could not be audited and paid at sight.

THE MACHINE COUNT.
"The schedules then go to the clerks employed in punching cards for the Hollerith electric tabulating machines. When these cards have been punched they have to be verified by the use of a special machine, so adjusted as to throw out every card which does not fulfill certain conditions of accuracy in punching. A count of the population will be made during this verification, by color, by sex and by native or foreign birth, which will consume possibly five or six months. Not until this machine count shall have been made for any particular city, county or state can the figures be given out for publication. This will naturally be taken up first, and as fast as the actual population, as returned by the enumerators, is ascertained, it will be posted on a bulletin board in the hall outside the director's room, for the information of the press. Figures not given out by the census of-

Paris Fair.
The American exhibit at the Paris Exposition will be an open volume, whose lessons of skillfully directed endeavor and unflinching energy may be read by all. Our Government Building is completed, and no effort has been spared to make it worthy to represent our nation. It was by the same American perseverance that Hostetter's Stomach Bitters, the famous dyspepsia cure, was first produced. Since that time—fifty years ago—it has never failed to cure constipation, indigestion, biliousness, liver and kidney troubles, and it will make rich red blood. It is an excellent tonic, and is a regulator for the bowels that can be equalled. All druggists sell it. Do not be talked into taking "something just as good." There is nothing equal to it.

All He Wanted to Know.
There's just one thing that I want to know, said the young man.
Only one? asked the self-satisfied old fellow.
Only one, repeated the young man.
Well, you're easily satisfied. What is it?
What is the reason that the great international troubles—the affairs that we most want to discuss—always crop up in the places that have the most unpronounceable names.—Chicago Post.

ROBBED THE GRAVE.
A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunk in, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters,' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50c, guaranteed at Fischer & Co's drug store.

It Should Be.
Anatomy must be an interesting study.
Very.
There's something I wanted to ask you. Is the humorous vein close to the funny bone?—Cleveland Plain Dealer.

A THOUSAND TONGUES.
Could not express the rapture of Annie E. Springer, of 1126 Howard st., Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"It soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praise throughout the Universe." So will everyone who tries Dr. King's New Discovery for any trouble of the Throat, Chest or Lungs. Price 50c and \$1.00. Trial bottles free at Fischer & Co's drug store; every bottle guaranteed.

A Variation.
It's done took a heap of trouble to send 'dat gal to school, said Miss Miami Brown's father.
Is she gettin' educated?
I should say so. You jes' order hear her recite Unduh de Spreadin' Chestnut Tree, an' Tell Me Not in Mo'nful Numbers, an' some er de res' o' dat white dialect poetry.—Washington Star.

You may as well expect to run a steam engine without water as to find an active energetic man with a torpid liver, and you may know that his liver is torpid when he does not relish his food or feels dull and languid after eating, often has headache and sometimes dizziness. A few doses of Chamberlain's Stomach and Liver Tablets will restore his liver to its normal functions, renew his vitality, improve his digestion and make him feel like a new man. Price, 25 cents. Samples free at Ireland's drug store.

Why Be Objects.
Every good, true woman has a right to expect that some man will marry her, said the dear creature.
Yes, answered Grouchedman, and that's one reason why I am so unattractively opposed to woman's rights.—Indianapolis Sun.

A GOOD COUGH MEDICINE.
It speaks well for Chamberlain's Cough Remedy when druggists use it in their own families in preference to any other. "I have sold Chamberlain's Cough Remedy for the past five years with complete satisfaction to myself and customers," says Druggist J. Goldsmith, Van Etten, N. Y. "I have always used it in my own family both for ordinary coughs and colds and for the cough following a gripe, and find it very efficacious." For sale by A. C. Ireland.

About as Scarce.
The rooster—What are you gaping in front of that piece of looking-glass for? The hen—I was looking for a tooth I thought I had.
The rooster—A tooth?
The hen—Yes, I had it all named, too.
The rooster—Oh?
The hen—I was going to call it Dewey Boom.—New York Press.

AUGUST FLOWER.
"It is a surprising fact," says Prof. Houton, "that in my travels in all parts of the world, for the last ten years, I have met more people having used Green's August Flower than any other remedy, for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion." Sample bottles free at Ireland's Drug Store. Sold by dealers in all civilized countries.

Like Cures Like.
Julius—Our bookkeeper bore me to death telling me about his blamed old rheumatism.
Julia—Julius, you haven't any mind at all; why don't you drown him out telling him about how awfully I suffer with neuralgia?—Indianapolis Journal.

Unless food is digested quickly it will ferment and irritate the stomach. After each meal take a teaspoonful of Kodol Dyspepsia Cure. It digests what you eat, and will allow you to eat all you need of what you like. It never fails to cure the worst cases of dyspepsia. It is pleasant to take. Ireland's pharmacy.

THE REPUBLICAN PLATFORM
It Sets Forth Succinctly and Clearly the Position of the Republican Party.

MANY POLITICAL PROBLEMS
The Party Has Redeemed the Promises Made In 1896—It Will Also Keep the Pledges Made At Philadelphia—A Prosperous Administration.

The following is the text of the Republican platform, as adopted by the national convention at Philadelphia:

The Republicans of the United States, through their chosen representatives in national convention, looking back upon an unsurpassed record of achievement, and looking forward into a great field of duty and opportunity and appealing to the judgment of their countrymen, make these declarations:

PROMISES REDEEMED.
The expectation in which the American people, turning from the Democratic party, entrusted power four years ago to a Republican chief magistrate and a Republican congress, has been met and satisfied. When the people then assembled at the polls after a term of Democratic administration business was dead, industry paralyzed and the national credit disastrously impaired. The country's capital was hidden away and its labor distressed and unemployed.

The Democrats had no other plan with which to improve the ruinous conditions which they had themselves produced than to coin silver at the ratio of 16 to 1. The Republican party, denouncing the plan as sure to produce conditions even worse than those from which relief was sought, promised to restore prosperity by means of two executive measures—a protective tariff and a law making gold the standard of value. The people by great majorities issued to the Republican party a commission to enact these laws. This commission has been executed and the Republican promise is redeemed.

SOLID PROSPERITY.
Prosperity more general and more abundant than we have ever known has followed these enactments. There is no longer controversy as to the value of any government obligation. Every American dollar is a gold dollar, or its assured equivalent, and American credit stands higher than that of any nation. Capital is fully employed, and everywhere labor is profitably occupied.

No single fact can more strikingly tell the story of what Republican government means to the country than this—that while during the whole period of 107 years, from 1790 to 1897, there was an excess of exports over imports of only \$383,026,497, there has been in the short three years of the present Republican administration an excess of exports over imports in the enormous sum of \$1,482,738,694.

A SUCCESSFUL WAR.
And while the American people sustained by this Republican legislation have been achieving these splendid triumphs in their business and commerce, they have conducted and in victory concluded a war for liberty and human rights. No thought of national aggrandizement tarnished the high purpose with which American standards were unfurled.

It was a war unsought and patiently resisted, but when it came the American government was ready. Its fleets were cleared for action. Its armies were in the field, and the quick and signal triumph of its forces on land and sea bore equal tribute to the courage of American soldiers and sailors and to the skill and foresight of Republican statesmanship. To 10,000,000 of the human race there was given "a new birth of freedom," and to the American people a new and noble responsibility.

PRESIDENT'S STATESMANSHIP.
We endorse the administration of William McKinley. Its acts have been established in wisdom and patriotism, and at home and abroad it has distinctly elevated and extended the influence of the American nation. Walking untrodden paths and facing unforeseen responsibilities, President McKinley has been in every situation the true American patriot and the upright statesman, clear in vision, strong in judgment, firm in action, always inspiring and deserving the confidence of his countrymen.

DEMOCRATIC INCOMPETENCY.
In asking the American people to endorse this Republican record and to renew their commission to the Republican party, we remind them of the fact that the menace to their prosperity has always resided in Democratic principles, and no less in the general incapacity of the Democratic party to conduct public affairs. The prime essential of business prosperity is public confidence in the good sense of the government and its ability to deal intelligently with each new problem of administration and legislation. That confidence the Democratic party has never earned. It is hopelessly inadequate, and the country's prosperity when Democratic success at the polls is announced halts and ceases in mere anticipation of Democratic blunders and failures.

THE GOLD STANDARD.
We renew our allegiance to the principles of the gold standard, and declare our confidence in the wisdom of the legislation of the fifty-sixth congress by which the party of all our money and the stability of our currency on a gold basis has been secured.

We recognize that the rates of interest are a potent factor in production and business activity, and for the purpose of further equalizing and of lowering the rates of interest we favor such monetary legislation as will enable the varying needs of the season and of all sections to be properly met in order that trade may be evenly sustained, labor steadily employed and commerce enlarged. The volume of money in circulation was never so great per capita as it is to-day.

We declare our steadfast opposition to the free and unlimited coinage of silver. No measure to that end could be considered which was without the support of the leading commercial countries of the world. However firmly Re-

publican legislation may seem to have secured the country against the peril of a base and discredited currency, the election of a Democratic president could not fail to impair the country's credit and to bring once more into question the intention of the American people to maintain upon the gold standard the parity of their money circulation. The Democratic party must be convinced that the American people will never tolerate the Chicago platform.

UNLAWFUL TRUSTS.
We recognize the necessity and propriety of the honest co-operation of capital to meet new business conditions, and especially to extend our rapidly increasing foreign trade, but we condemn all conspiracies and combinations intended to restrict business, to create monopolies, to limit production or to control prices, and favor such legislation as will effectually restrain and prevent all such abuses, protect and promote competition and secure the rights of producers, laborers and all who are engaged in industry and commerce.

THE PROTECTION POLICY.
We renew our faith in the policy of protection to American labor. In that policy our industries have been established, diversified and maintained. By protecting the home market the competition has been stimulated and production cheapened. Opportunity to the inventive genius of our people has been secured and wages in every department of labor maintained at high rates, higher now than ever before, always distinguishing our working people in their better conditions of life from those of any competing country. Enjoying the blessings of the American common school, secure in the right of self-government, and protected in the occupation of their own markets, their constantly increasing knowledge and skill have enabled them finally to enter the markets of the world.

We favor the associated policy of reciprocity so directed as to open our markets on favorable terms for what we do not ourselves produce in return for free foreign markets.

LAWS TO PROTECT LABOR.
In the further interest of American workmen, we favor a more effective restriction of the immigration of cheap labor from foreign lands, the extension of opportunities of education for working children, the raising of the age limit for child labor, the protection of free labor against contract convict labor, and an effective system of labor insurance.

OUR MERCHANT MARINE.
Our present dependence upon foreign shipping for nine-tenths of our foreign carrying is a great loss to the industry of this country. It is also a serious danger to our trade, for its sudden withdrawal in the event of European war would seriously cripple our expanding foreign commerce. The national defense and naval efficiency of this country, moreover, supply a compelling reason for legislation which will enable us to recover our former place among the trade-carrying fleets of the world.

PENSIONS.
The nation owes a debt of profound gratitude to the soldiers and sailors who have fought its battles, and it is the government's duty to provide for survivors and for the widows and orphans of those who have fallen in the country's wars. The pension laws, founded in this just sentiment, should be liberal and should be liberally administered, and preference should be given whenever practicable, with respect to employment in the public service, to soldiers and sailors and to their widows and orphans.

THE CIVIL SERVICE.
We commend the policy of the Republican party in maintaining the efficiency of the civil service. The administration has acted wisely in its effort to secure for public service in Cuba, Porto Rico, Hawaii and the Philippine Islands only those whose fitness has been determined by training and experience. We believe that employment in the public service in these territories should be confined as far as practicable to their inhabitants.

NEGRO DISFRANCHISEMENT.
It was the plain purpose of the fifteenth amendment to the constitution to prevent discrimination on account of race in regulating the elective franchise. Devices of state governments, whether by statutory or constitutional enactment, to avoid the purpose of this amendment, are revolutionary, and should be condemned.

ROADS AND HIGHWAYS.
Public movements looking to a permanent improvement of the roads and highways of the country meet with our cordial approval, and we recommend this subject to the earnest consideration of the people and of the legislatures of the several states.

RURAL FREE DELIVERY.
We favor the extension of the rural free delivery service wherever its extension may be justified.

RECLAIMING ARID LANDS.
In further pursuance of the constant policy of the Republican party to provide free homes on the public domain, we recommend adequate national legislation to reclaim arid lands of the United States, reserving control of the distribution of water for irrigation to the respective states and territories.

STATEHOOD FOR TERRITORIES.
We favor home rule for and the early admission to statehood of the territories of New Mexico, Arizona and Oklahoma.

REDUCTION OF WAR TAXES.
The Dingley act, amended to provide sufficient revenue for the war, has so well performed its work that it has been possible to reduce the war debt in the sum of \$40,000,000. So ample are these government revenues, and so great is the public confidence in the integrity of its obligations, that its newly funded 2 per cent bonds sell at a premium. The country is now justified in expecting, and it will be the policy of the Republican party to bring about, a reduction of the war taxes.

NICARAGUA CANAL.
We favor the construction, ownership, control and protection of an isthmian canal by the government of the United States.

ORIENTAL MARKETS.
New markets are necessary for the increasing surplus of our farm products. Every effort should be made to open and obtain new markets, especially in the Orient, and the administration is warmly to be commended for its successful efforts to commit all trading and colonizing nations to the policy of the open door in China.

"Blood tells." But we rarely recognize the fact except in times of stress and strain. A horse which looks like "scrub" may best another horse which seems the ideal of a racer, just by that one quality of good blood. Similarly men, who seem in the pink of condition drop down under the racing strain of business. Why? Blood tells. Men reckoned perfectly healthy start out for business, they make a run for the train, and collapse. "Heart failure" they call it. Blood failure would be often the better name.

Take care of the blood and the body will take care of itself. It is the blood which builds the body. The blood in its strength and vitality. The blood must be based on sound blood.

It is one of the peculiar properties of Dr. Pierce's Golden Medical Discovery that it eliminates from the blood the effete and poisonous matter which is antagonistic to health. It also gives to the blood those elements which are necessary to its strength and vitality. Thus by the use of "Golden Medical Discovery" purity of blood and power of body have been attained by thousands of sickly and scrofulous men and women.

No other medicine purifies the blood and builds the body as does the "Discovery." Accept no substitute.

"It gives me much pleasure to testify to the merits of Dr. Pierce's Golden Medical Discovery," writes Miss Annie Wells, of Ferguson's Wharf, Isle of Wight Co., Va. "I can say honestly and candidly that it is the grandest medicine ever compounded for purifying the blood, curing rheumatism, and pimples, and it is the best I have ever used. I feel as if I could not walk a step without twenty dollars saying doctor bills, but receiving one of them. A year or two ago I was treated by a Dr. Pierce's Golden Medical Discovery, and a favorite prescription, and an entirely cured."

Dr. Pierce's Pleasant Pellets are graduated to the requirements of woman's delicate system. They regulate the stomach, liver and bowels.

NEW EXECUTIVE DEPARTMENT.
In the interest of our expanding commerce we recommend that congress create a department of commerce and industries, in the charge of a secretary, with a seat in the cabinet.

The United States consular system should be reorganized under the supervision of this new department, under such a basis of appointment and tenure as will render it still more serviceable to the nation's increasing trade.

PROTECTION OF CITIZENS.
The American government must protect the person and property of every citizen wherever he is wrongfully violated or placed in peril.

WORK OF WOMEN.
We congratulate the women of America upon their splendid record of public service in the volunteer aid association and as nurses in camp and hospital during the recent campaigns of our armies in the eastern and western India, and we appreciate their faithful co-operation in all works of education and industry.

SAMOA.
President McKinley has conducted the foreign affairs of the United States with distinguished credit to the American people. In releasing us from the vexatious condition of a European alliance for the government of Samoa, his course is especially to be commended. By securing to our undivided control the most important island of the Southern Pacific, every American interest has been safeguarded.

HAWAII.
We approve the annexation of the Hawaiian Islands to the United States. BOERS AND MONROE DOCTRINE.

We commend the part taken by our government in the peace conference at The Hague. We assert our steadfast adherence to the policy announced in the Monroe doctrine. The provisions of The Hague convention were wisely regarded when President McKinley tendered his friendly offices in the interest of peace between Great Britain and the South African Republic.

While the American government must continue the policy prescribed by Washington, affirmed by every succeeding president, and imposed upon us by The Hague treaty, of non-intervention in European controversies, the American people earnestly hope that a way may soon be found, honorable alike to both contending parties, to terminate the strife between them.

THE PHILIPPINES AND CUBA.
In accepting, by the treaty of Paris, the just responsibility of our victories in the Spanish war, the president and the senate won the undoubted approval of the American people. No other course was possible than to destroy Spain's sovereignty throughout the West Indies and in the Philippine Islands.

That course created our responsibility before the world, and with the unorganized population whom our intervention had freed from Spain to provide for the maintenance of law and order, and for the establishment of good government and for the performance of international obligations.

Our authority could not be less than our responsibility, and wherever sovereign rights were extended it became the high duty of the government to maintain its authority, to put down armed insurrection and to confer the blessings of liberty and civilization upon all the rescued peoples.

The largest measure of self-government consistent with their welfare and our duties shall be secured to them by law.

To Cuba independence and self-government were assured in the same voice by which war was declared, and to the letter this pledge shall be performed.

AN HONORABLE RECORD.
The Republican party, upon its history and upon this declaration of its principles and policies, confidently invokes the considerate and approving judgment of the American people.

Mr. W. S. Whedon, Cashier of the First National Bank of Winterset, Ia., in a recent letter gives some experience with a carpenter in his employ that will be of value to other mechanics. He says: "I had a carpenter working for me who was obliged to stop work for several days on account of being troubled with diarrhoea. I mentioned to him that I had been similarly troubled, and that Chamberlain's Colic, Cholera and Diarrhoea Remedy had cured me. He bought a bottle of it from the druggist here and informed me that one dose cured him, and he is again at his work." or sale by A. C. Ireland.

Notably Suggestive.
Della—I do hope we won't have much Wagner at the musical festival.
Dora—Why not? Wagner music is lovely.
Della—I don't think so; it always reminds me of a house cleaning.—Indianapolis Journal.

The Chinese ask "How is your liver?" Instead of "How do you do?" for when the liver is active the health is good. DeWitt's Little Early Risers are famous little pills for the liver and bowels. Ireland's pharmacy.

Taking a Mean Advantage.
Sillius—Sappelodde bases his claim to distinction upon his ancestors.
Cynicus—And I suppose his ancestors are dead, and can't help themselves.—Philadelphia Record.

Call at Ireland's drug store and get a free sample of Chamberlain's Stomach and Liver Tablets. They are an elegant physic. They also improve the appetite, strengthen the digestion and regulate the liver and bowels. They are easy to take and pleasant in effect.

Brothers.
Who are my brethren?
Even those
Whose joys outnumber
Not their woes.
—Ram's Horn.

Reports show that over 1,500 lives have been saved through the use of One Minute Cough Cure. Most of these were cases of gripe, croup, asthma, whooping cough, bronchitis and pneumonia. Its early use prevents consumption. Ireland's pharmacy.

His Guess at It.
What does it mean, Tommy, the Sunday-school teacher asked, where it says they rent their clothes?
I suppose they couldn't afford to buy them, replied Tommy.

Neglect is the short step so many take from a cough or cold to consumption. The early use of One Minute Cough Cure prevents consumption. It is the only harmless remedy that gives immediate results. It cures all throat and lung troubles. Children all like it, and mothers endorse it. Ireland's pharmacy.

Brevity All Around.
And how do you spend your spare time? Inquired the philanthropist of the overworked humorist.
Revising my collection of bathing costume jokes for the July market.
And why do you revise them?
They are too long for the present styles.—Cleveland Plain Dealer.

NOXI TEA POSITIVELY CURES SICK HEADACHE.
Indigestion and constipation. A delightful herb drink. Removes all eruptions of the skin, producing a perfect complexion, or money refunded. 25 cts. and 75 cts.
For sale at Fischer's drug store.

Teasing the June Bride.
Dear me, Edgar, I wish we had something funny to read tonight.
Well, my dear, there's your graduating essay.—Indianapolis Journal.

Ivy poisoning, poison wounds and all other accidental injuries may be quickly cured by using DeWitt's Witch Hazel Salve. It is also a certain cure for piles and skin diseases. Take no other. Ireland's pharmacy.

Of Curios.
Customer—Is that a genuine colonial candlestick?
Dealer—Well, it's a genuine reproduction of a real imitation of a colonial candlestick.—Chicago Record.

FREE OF CHARGE.
Any adult suffering from a cold settled on the breast, bronchitis, throat or lung troubles of any nature, who will call at Ireland's Drug Store will be presented with a sample bottle of Boschee's German Syrup, free of charge. Only one bottle given to one person, and none to children without order from parents. No throat or lung remedy ever had such a sale as Boschee's German Syrup in all parts of the civilized world. Twenty years ago millions of bottles were given away, and your druggists will tell you its success was marvelous. It is really the only Throat and Lung Remedy generally endorsed by physicians. One 75 cent bottle will cure or prove its value. Sold by dealers in all civilized countries.

Glad of His Crime.
Dear me! she said, I wonder what has become of that household journal.
He didn't say a word.
There was another recipe in it that I wanted to try.
He smiled, for now he was assured that he had done wisely when he burned it up.—Bloomington Pantagraph.

For the Love of Gold.
Neil—Clara certainly never married that man for love. He's old enough to be her grandfather.
Bess—Oh, yes, she did. She loves money, and he's a millionaire.—Chicago News.

THE NEW MEXICO MILITARY INSTITUTE
Roswell, New Mexico.

Largest

Endowment ever paid.

Fifteen years ago Mr. George Gooderham, of Toronto, took out 15-Year Endowment Policy No. 289,421 for \$100,000. In the Equitable Life Assurance Society of the United States, paying an annual premium of \$8.32. Now his policy has matured and shows the following results:

1 Cash	\$150,847
2 Paid-up Assurance	\$210,000
3 Annuity for Life	\$ 20,320

At the same time Mr. Gooderham took out a policy of the same kind for the same amount and with the same premium in another company; the cash return on which was \$15,000 less than on the Equitable policy.

Here is what Mr. Gooderham says of his results:
"I have always been a strong advocate of Endowment Insur-
"ance, and about the time I took my policy for \$100,000 I placed
"\$400,000 of Endowment policies on my life in eight different com-
"panies. Of this amount \$310,000 has already matured. I have
"lived to see the result and to know what it means."

"These results realized by the Equitable are"
"larger and more satisfactory than any result"
"ever realized by me on any of my policies which"
"have matured to date. I may say they are quite"
"satisfactory, and that no company has ever done"
"so well for me."

Strongest in the World

THE EQUITABLE Life Assurance Society of the United States.

Every Policy Protected by \$61,000,000 of Surplus.

Albuquerque, New Mexico.

S. E. LANKARD, Resident Agent,
Santa Fe, New Mexico.

IN VALENCIA COUNTY.

Hon. M. R. Otero Reports That Prosperity
and Plenty Are Evident.

Hon. Manuel R. Otero, the painstaking register at the Santa Fe land office, is on duty again after a fifteen days' vacation spent on his big ranch in Valencia county. He says the Rio Grande valley in that locality never looked more thrifty. Although but one shower of rain has fallen there since May, the crops promise an unusual yield in wheat, oats, corn and beans. Owing to the backward spring in the mountains north of Santa Fe and the frequent rains, the irrigation ditches have been amply supplied with water. The first cutting of alfalfa now in stock was the heaviest ever known. Spring wheat is now ready for the scythe, or nearly so, and all other crops could not look finer. There is a shortage in peaches, but apples and all other fruits, including grapes, are plentiful. The lamb crop was such as to put the rancheros in the best of good humor; the people are out of debt, prosperous and entirely contented.

Home From Their O'ing.

E. B. Linen has returned home from a two weeks' trout killing expedition about Wagon Wheel Gap, where the five pounders grow. He had good sport despite the heavy crop of willow flies and high water in the Rio Grande. Edwin G. Taylor, of Chicago, expert fisherman and writer of game stories for the Sports-Aid, and in stock wearing journals, accompanied Mr. Linen home and after a short visit among Santa Fe friends good north to fish in the Conejos river.

If you want good meals go to the Bon-Ton.

PERSONAL MENTION.

C. M. Jones is in town from Pueblo. A. M. Bergere returned this noon from a trip to Albuquerque. J. R. Farwell is in town registering from Albuquerque. D. E. Lewis and D. D. Lewis are late arrivals from Los Angeles. G. D. Lawson and J. E. Babbitt, of Walsenburg, Colo., are visitors in the city.

Mrs. Venecio Jaramillo arrived from El Rio last evening on a visit to capital city friends.

E. F. Underhill and wife, of Colorado Springs, are stopping at the Bon-Ton. Mr. Underhill is a miner.

George H. Cross and family returned home last evening from a pleasure trip of ten days up the Pecos river.

William Gillespie, of Cerrillos, is here under a doctor's care, and enjoying the plaza shade for a few days.

Marion Littrell, inspector of hides and brands for the territorial cattle commission, is in town on official duty.

S. A. Thomas and family, Del Norte, Colo.; K. R. Selig, San Francisco; W. C. Robinson, Denver, are at the Exchange.

Miss Rebecca Rowland, the faithful and popular teacher of the Presbyterian mission school at Taos, is in the city visiting with friends.

John Sullivan, Wm. Perry and a lively party of fishermen returned from the Mora branch of the Pecos last night, having had a healthful and successful outing.

Mrs. Wilhelmina Strong, owner of the Valley ranch, upper Pecos, is expected to arrive from Chicago tomorrow and will spend some weeks at her beautiful ranch home.

Miss Clark, connected with the Fort Lewis Indian school, is visiting the Indian schools here, being on her return north after escorting a number of pupils to their home at Laguna.

Mrs. E. A. Carr was called to Fort Wingate yesterday by a telegram announcing that General Carr is seriously ill. His illness originated with ulceration of the ear, and the general is reported as very feeble.

Miss Charlotte Jones, of Socorro, an accomplished young lady, sister of Professor F. A. Jones, director of the New Mexico school of mines, is the guest of Mrs. H. O. Bursum. Miss Jones intends to leave for her old home in Missouri some time next week.

Mrs. M. S. Otero and son Fred, returned yesterday evening from a pleasant visit with the family of Hon. T. D. Burns, at Park View, and left this afternoon for their home at Albuquerque. While in the city Mrs. Otero was the guest of Mrs. Manuel R. Otero.

Rev. W. E. Cooper, the new pastor of the M. E. church, arrived in the city this morning from San Antonio, Tex., accompanied by his family. Mr. Cooper was a pleasant caller at the New Mexican office in company with W. J. McPherson, who is kindly interesting himself in seeing the new pastor and his family comfortably domiciled at the parsonage.

The best 25-cent meal in the city at the Bon-Ton.

Engraved cards de visite can be promptly and cheaply procured in the very latest and most elegant styles at the New Mexican printing office.

VOL. NO. 9. N. M. Reports

Volume IX of New Mexico Reports can now be supplied by The New Mexican Printing Company. Delivered at publisher's price of \$3.30.

D. MICHAELS, General Manager, Roswell, N. M.

E. W. MARTINDALE, Gen. Frt. and Pass Agent, Amarillo, Tex., and Roswell, N. M.

MINOR CITY TOPICS.

The capitol was painted with Sherwin Williams paint, at Goebel's.

The days are growing shorter now at the rate of four minutes a day.

The strawberry and ice-cream social and reception to the Rev. W. E. Cooper who arrived to day, at the residence of Mrs. H. S. Kinsell on Thursday evening, promises to be a delightful occasion.

New Mexico's new capitol building is visited daily by people from all parts of the United States and all agree that the massive and beautiful structure would do credit to any of the states of the Union.

Santa Fe is outputting a good many French cherries of the finest quality, large, luscious and highly colored, these bright June days. They are in eager demand at from 10 to 15 cents per pound. The entire crop could be sold at Albuquerque. One gentleman in the local city ordered 30 pounds "at any old price."

Lost.

A black enameled watch, with silver chain and five small hearts attached. Finder will please leave at this office.

U. S. Weather Bureau Notes.

Forecast for New Mexico: Generally fair tonight and Thursday.

Yesterday the thermometer registered as follows: Maximum temperature, 89 degrees, at 2.45 p. m.; minimum, 61 degrees, at 3.00 a. m. The mean temperature for the 24 hours was 75 degrees; mean daily humidity, 24 per cent. Temperature at 6.00 a. m. today, 65.

Decorated Vehicle Parade.

The Santa Fe fire department invites all associations, societies, merchants and citizens generally to join in the decorated vehicle parade on the afternoon of July 4. The committee would say that it is not necessary to decorate with flowers alone, but all kinds of decorating material can be used and all are urged to take part.

Alfalfa Pasture.

Good pasturage, plenty of pure water at \$5 per head per month; apply to Santa Fe Water & Light Co.

Delegates to Kansas City.

E. C. de Baca, of Las Vegas, delegate at large to the national Democratic convention, leaves on Monday morning for Kansas City. Hon. C. F. Easley, delegate from the 1st judicial district, leaves Saturday night and will be absent ten days or so. Between these dates the other candidates will turn their faces toward the Kaw City. The other delegates are O. N. Marron, 2d district; F. J. Davidson, 3rd district; Macario Gallegos, 4th district; H. M. Dougherty, 5th district. A number of Democratic politicians from various parts of the territory also leave Saturday night for Kansas City to burrah with the untitled in convention assembled.

Ice cream, \$1.50 per gallon at the Bon-Ton.

A Change of Time.

The new train schedule to take effect on the Santa Fe route at midnight Saturday next will likely do away with all night trains in and out of Santa Fe, much to the satisfaction of the traveling public, the hackmen and others interested. The details of the new card will not be known until Saturday, as agent H. S. Lutz expects official advice on the subject by Friday evening's mail. The passenger train from El Paso will stop for breakfast at Lamy and the train from the west will stop at Albuquerque for that purpose.

Fractured His Hip Bone.

"Good old General Brown," a frontier character for more than half a century, stumbled over a screen and fell at his room in the St. Vincent hospital last night, fracturing his hip. He has long been confined there by sickness, and as he is over 70 years of age, this accident is likely to go very hard with him. When "the general," as everybody calls him, was a merchant at West Port, Mo., in the early days of the Santa Fe trail, Hon. S. B. Elkins was his office boy and clerk.

Filling a Long Felt Need.

The first number of the Deming Herald, published by P. J. Bennett, has reached the New Mexican. For the first number it is a very creditable paper, a feature of which Deming has long stood in need. The Herald, as a loyal Republican paper, will support the present efficient territorial administration.

OJO CALIENTE (HOT SPRINGS.)

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Barranca Station, on the Denver & Rio Grande Railway, from which point a daily line of stages run to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilitic and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, Lodging and Bathing, \$2.50 per day; \$14 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 10:08 a. m. and reach Ojo Caliente at 5 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, \$7. For further particulars, address
