DEMOCRATIC HOSTS

They Are Gathering at Kansas City from All Parts of the Country.

BRYAN SENT FOR D. B. HILL

An Incident That Has Set Astute Politicians Gossiping—U. S. Monetary League in Session—The Convention Hall Almost Finished.

Kansas City, July 2.—This is in reality the first business day of the Democratic convention. Soon after 10 o'clock the Democratic national committee assembled at the Kansas City Club to consider the claims of contesting delegations and formally to select temporary officers and transact other preliminary business. The United States monetary league at the same hour began its first session in the auditorium theater. Tonight it is proposed formally to open the new convention hall with a promenade concert.

A HOT DAY.
The day dawned brilliantly bright and clear, with the thermometer registering in the 70s, and a brisk southeast breeze blowing. Within a few hours, as the sun gained the ascendancy, it became intensely hot, and had not the breeze continued the heat would have been insufferable. While the arrivals of the past few days have been by scores, they began to-day by hundreds, and to-morrow will be by thousands.

THE HALL ALMOST READY.
Although even now hundreds of workmen are engaged upon the new convention building, it is practically in readiness, and only the finishing touches are required.

BRYAN SENT FOR HILL.
One distinct topic of conversation early in the day, as also yesterday, was the visit of former Governor Hill to Bryan at Lincoln. The governor's arrival early on Sunday, followed by the almost instant departure for the home of Bryan at the latter's request, fairly dazed even the most astute political leaders. This morning newspapers are scanned eagerly, but vainly, for an explanation of Bryan's call for the New York statesman. The two conferees evidently kept their own counsel. While apparently nobody here knows why Hill was summoned to Lincoln, all thoroughly realize his visit is more than significant. That Bryan is the dominant factor of this convention no one can doubt. As former Senator Dubois of Idaho tersely expressed it to-day, "Bryan is master of the situation. He is the arbiter of all differences. With him even seeming to dictate, he will control the convention. His wishes will be respected, both as to platform and as to the candidate for the vice presidency."

THE FINANCIAL PLANK.
Thus far the only contest worth mentioning has been on the financial plank of the platform. Even that seems only to be a difference in phraseology. The western men generally insist that a specific declaration for the free coinage of silver at the ratio of 16 to 1 be incorporated in the platform. Those from the east and many from the south are inclined to favor a simple reaffirmation of the financial plank in the Chicago platform, believing that issues which overshadow the money question have arisen since 1896, and should be given a place of paramount importance. That Mr. Bryan himself will let it be known finally what his wishes are in respect to the question all fully believe, and that his desires will be carried out nobody doubts.

ANTI-EXPANSION.

Bryan and the leaders of the party at Kansas City have been urged not to make the anti-expansion plank too strong, lest the declaration injure the party's chances in the western states, where, it is understood, expansion is strongly favored. It is believed, however, that no comfort was given those who urged such action by either Bryan or the Democratic leaders generally.

A THEATRICAL COUP.

The suggestion that Bryan's nomination to the presidency be made on the Fourth of July at the first session of the convention met with the approval of very many leaders and delegates already here. Arrangements are being made to carry the plan into execution. As it now appears the one obstacle that may arise will be an inability to agree upon the platform. Even that may not prevent it.

VICE PRESIDENTIAL NOMINATION

The statement was made to-day, apparently upon good authority, that Bryan will come to Kansas City before the close of the convention. Everything relating to the vice presidential nomination is in the air to-day. All seem to be waiting for something to turn up.

RECEPTION AT KANSAS CITY.

Kansas City, July 2.—Governor Theodore Roosevelt of New York was given a remarkable reception in this city to-day. The governor, on the way from New York to attend the annual reunion of rough riders at Oklahoma City, arrived here about 8:30 a. m., and for half an hour Democrats and Republicans alike united in giving him a vociferous welcome and shaking his hands until he was glad to quit. Fully 7,000 were jammed along the platforms, sitting on the roofs of the train sheds and clinging to the iron girders. Several members of the rough rider regiment, attired in khaki, were among those at the station, and to these the governor gave an especially cordial greeting. The crush during the struggle to shake Gov. Roosevelt's hand was terrible, and several women fainted in the crowd. No one was seriously hurt.

TOWNE IS BOUND TO WIN.

Kansas City, July 2.—The Towne managers say very emphatically to-day that their man will win the vice presidential sweepstakes. They have reached a point where they offer the Democrats

MINISTER MURDERED

Baron Von Ketteler Hacked to Pieces with Swords by Chinese Soldiers and Boxers.

WAR IS NOW INEVITABLE

The Foreign Legations at Peking Are Besieged by the Chinese—The American and Italian Legations Were Burned to the Ground.

London, July 2.—Official dispatches received by the consular body at Shanghai, by express and cable, dated Shanghai, July 1, confirm in the fullest manner the report of the butchery of Baron von Ketteler, the German minister, on June 18. The ambassador was riding on Legation street when attacked by Chinese troops and Boxers. He was dragged from his horse and killed. The body was hacked to pieces with swords.

LEGATIONS BESIEGED.

Washington, July 2.—The navy department received the following cablegram from Admiral Kempf, without date: "The Foo—Secretary of the Navy, Washington: A runner from Peking reports that the legations are besieged; that provisions are nearly exhausted, and that the situation is desperate. The German minister, going to the Tsung Li Yamen, was murdered by Chinese soldiers. The American and Italian legations were burned; 20,000 Chinese soldiers are inside and 30,000 outside of Peking; 3,000 are reported to be bound for Tien Tsin. There is still some fighting at Tien Tsin. Communication with Tien Tsin by rail and river is insecure."

THE OREGON'S MISFAP.

Washington, July 2.—The following cablegram was received by the navy department from Admiral Kempf: "The Oregon, July 1.—The Oregon has run aground; it is not a dangerous position; about 38 degrees north latitude, 20 degrees 40 minutes east longitude. Have sent for assistance three naval vessels. It is reported that there is water in one of her compartments. The commander of the Oregon did not request assistance, men from a Japanese man-of-war having boarded the vessel."

A GRAVE SITUATION.

Washington, July 2.—Cable advice from Admiral Kempf this morning fully confirm the previous report of the murder of Von Ketteler, German minister at Peking. The admiral also represents the situation of the ministers as most desperate. The shortage of food supplies reported by Admiral Kempf gives rise to the gravest apprehension. Having been taken to Taku by a runner, the dispatch represented the minister's condition at least five days ago, and there is reason to fear that the worst has happened in the interim. Admiral Kempf's favorable report of the condition of the Oregon is believed by Secretary Long to be based on the report of the commander of the Japanese vessel which generously offered assistance. No further re-enforcements have been ordered to China, military or naval.

THE HOBOKEN HOLOCAUST.

It Is Believed That Many Bodies Are Yet to Be Recovered.

New York, July 2.—Divers and wreckers are still hard at work on the burned North German-Lloyd steamers and docks. It is believed that there are yet many bodies to be recovered from the Saele, and the two large wrecking derricks alongside her are removing bent and twisted pieces of heavy iron that cover the hold. The injuries in the Jersey City hospitals are reported as doing well this morning, but several were not out of danger. The fire occasioned a loss of \$12,000,000 and the loss of over 100 lives.

A TERRIBLE DISASTER.

New York, July 2.—Forty-six hours after the start of the fire on the North German-Lloyd Steamship Company's locks at Hoboken the loss of life and property appears fully as great as first reported. Up to 3 o'clock this afternoon forty bodies have been recovered from the waters. Bodies are being picked up almost every half hour, and at the turn of the tide this afternoon it is believed there will be many more bodies brought to the surface. Most of the bodies are so blackened, shriveled and distorted by the action of the fire and water that it is evident that in dying they suffered terrible agony. The identification only can be made now in most cases by little trinkets or ornaments found near the bodies or on them. The loss of property sustained by the destruction of the ships, docks and warehouses and small river craft will approximate \$1,129,000. The North German-Lloyd line to-day held its loss to be under \$5,000,000. About 2:30 p. m. the diver on the Saele reported that he discovered eight bodies on the ship.

Christian Endeavor.

Boston, July 2.—Delegates from twenty-eight states, including Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, District of Columbia, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, Mississippi, Tennessee, Ohio, Michigan, Wisconsin, Illinois, Iowa, Missouri, Kansas, Utah, Idaho, Texas, Indian Territory, New Mexico, and Quebec and Montreal, en route to the international Christian Endeavor convention to be held in London, met here to-day. They will sail to-morrow on a North German-Lloyd steamship. A meeting and reception to the delegates will be held this evening, under the direction of the Boston Christian Endeavor or Union and United Society of Christian Endeavor. The American speakers for the convention and international officers are among the arrivals to-day. The excursionists will tour the continent and Great Britain after the convention.

Postal Union Meets.

Berne, Switzerland, July 2.—The world's postal congress opened here to-day. The congress will take action on the suggestion of erecting a monument to the memory of Dr. Von Stephan of Germany, who was for a quarter of a century at the head of the organization of the postal union. The Japanese delegates spent some time in Washington, making a study of the American postal system. The American delegates present are Second Assistant Postmaster General Shellenbarger and Capt. Noah M. Brooks, superintendent of foreign mails. Both are natives of Pennsylvania.

OFFICIAL MATTERS.

INDIAN DEPREDAATION CASES.
Hon. S. H. Spooner will leave to-morrow afternoon for Lincoln, Lincoln county, to represent the United States in hearings of Indian depredation cases.

PUPILS FOR THE INDIAN SCHOOL.

Professor Crandall and W. T. Shelton, industrial teacher, returned to the government Indian school from Arizona yesterday, bringing thirty-one children, who will spend the next five years at this institution. They come from the Pima and Papago reservations.

LOCAL AGENT APPOINTED.

The Smithfield Gold Mining and Milling Company to-day notified Territorial Secretary Wallace that it has appointed Frank Spurr its New Mexico agent, with headquarters at Elizabethtown, Colfax county. The company is a West Virginia corporation.

WARNING TO SHEEP GROWERS.

Albuquerque, June 30, 1900.
As a warning to New Mexico sheep growers, notice is given that Arizona growers, who recently shipped several train loads of wethers, had the same held up by the United States inspectors on account of being scabby, and could not market the same, and necessarily sustained big loss. New Mexico sheep growers should take warning by this and see that their flocks are entirely cured of scab.

HARRY F. LEE, Secretary.

PENITENTIARY BOARD.

The board of penitentiary commissioners is in session at the office of the institution to-day. A full board is present, consisting of F. H. Pierce, San Miguel county, president; J. Francisco Chavez, Valencia county, secretary; Juan Navarro, Mora county; Louis J. Field, Bernalillo county; J. T. McLaughlin, Santa Fe county. Only routine business of minor moment had been considered up to 3 p. m. to-day.

EXCHANGED POSITIONS.

Captain Frank C. Hill, a veteran of the First New Hampshire volunteers during the war of the rebellion, who has filled the position of carpenter at the U. S. Indian school for the past year, will leave tomorrow for grand Junction, Colo., relieving Elmer Crittendon, who will be glad to return to Santa Fe to join his family and fill the position at the school vacated by Captain Hill.

AMERICAN CIVIL ENGINEERS.

They Discuss Important Railway Problems at a Convention in England.

London, July 2.—Considerable interest is manifest in the meeting of the American society of civil engineers, which met here to-day for a week's session. The society is the strongest one of its kind in America, and to it belong all the best engineers in the employ of the various railroads. The meeting came off on the invitation of the Institute of Civil Engineers of Great Britain, and numerous subjects of interest to railroad people are to be discussed. The main topic of discussion will be "A Study of Rails." For many years past the weight of rails has been increasing, and with each increase have come heavier engines and larger cars, until loads are now hauled of which railroad men little dreamed ten years ago. The question often arises as to whether the limit has been reached in this direction, and the engineers will try to settle the problem at this meeting, where the best thought and experience of two countries are brought to bear upon it.

MUST LEAVE THEIR HOMES.

The Inhabitants of Anticosti Evicted by the Island's Owner.

Montreal, July 2.—Henri E. A. Menier, the Paris millionaire, who purchased Anticosti Island in December, 1896, for \$250,000, on an English syndicate, will arrive here this month to take possession. M. Menier recently demanded the eviction of the inhabitants. Sir Wilfrid Laurier sent them word that if they would depart at once he would give them land in the Canadian northwest and furnish them with transportation. The residents were not pleased, and many declared that they would never leave the island alive. Some have gone, however, and it is thought that the provincial government will not have much trouble in deporting the remainder. There were at one time about 400 inhabitants on the island. The island is 140 miles long and twenty-seven wide, and lies in the Gulf of St. Lawrence. M. Menier is a great sportsman, and proposes to make the major portion of his property a magnificent game preserve, and to establish French colonies where the land was not so well adapted to hunting. M. Menier was given the right to eject the inhabitants by a decision of the court of review at Quebec a few months ago.

A Victory for Pennsylvania.

Poughkeepsie, N. Y., July 2.—The four-oared varsity race, which was postponed on Saturday, was rowed to-day. Pennsylvania won by two lengths. Columbia was second. Pennsylvania's time was 10:31 1-5. Cornell was second, 11:01 1-5. Cornell did not finish.

U. S. Weather Bureau Notes.

Forecast for New Mexico: Fair to-night; possibly thunder storms and cooler Tuesday.

Saturday the thermometer registered as follows: Maximum temperature, 84 degrees; at 3:15 p. m.; minimum, 57 degrees; at 4:00 a. m. The mean temperature for the 24 hours was 70 degrees; mean daily humidity, 38 per cent; precipitation, 0.03 of an inch.

Yesterday the thermometer registered as follows: Maximum temperature, 84 degrees; at 3:20 p. m.; minimum, 56 degrees; at 4:30 a. m. The mean temperature for the 24 hours was 70 degrees; mean daily humidity, 40 per cent. Temperature at 6:00 a. m. today, 56.

VOL. NO. 9, N. M. Reports

Volume IX of New Mexico Reports can now be supplied by The New Mexican Printing Company. Delivered at publisher's price of \$3.50.

DESTROYED BY FIRE

The New Milling and Reduction Plant of the Woodbury Company in Ashes.

BLAND TO BE INCORPORATED

Water Works to Be Built as Soon as the Incorporation Goes into Effect—Independence Day to Be Generally Celebrated.

The new milling and reduction plant of the Cochiti Reduction and Improvement Company, at Woodbury, Cochiti district, was totally destroyed by fire on Friday night. The fire was caused from a stroke of lightning. The loss is about \$30,000, with no insurance. The plant was owned and operated by a Denver company, the officers of which are: R. W. Woodbury, president; W. C. Wynkoop, manager; David Moffat, treasurer. The mill was a new one, scarcely running perfectly as yet, although some bullion had been produced by the reduction of iron King ore. Only a few days ago Mr. Woodbury arrived from Denver with an expert mill man who was engaged in making important alterations on the machinery at the time of the disaster. The plant will undoubtedly be rebuilt, as the same company owns the Iron King mine, and now has blocked out therein sufficient ore to run such a mill for more than a year.

BLAND ITEMS.

S. H. Mulligan has again assumed the management of the Bland house. James Gillen has been to Elizabethtown looking after his placer claims, and brought back with him a handful of gold nuggets.

Prof. R. W. Bullock, son-in-law of J. C. Creager and wife, drove into Bland on a trip of several days on the road from Alamosa, Colo.

Bland believes in good roads, and must have 'em in her business. A general call for all taxpayers to do their annual road work has been issued.

J. H. Pegue to-day assumed the responsible position of manager of the W. L. Trimble & Co. stage line between Thornton and Bland, and will also give a portion of his attention to the freight business from Ortiz to San Pedro.

Independence day will be celebrated by addresses on Wednesday afternoon by Rev. G. S. Madden and others, and at night a ball and supper will occur at Woods' hall. A basket dinner will be given by the Red Men at the beautiful shaded grove a short distance above the Crown Point mine.

J. N. Griffin, a young colored man who was employed for a time in the Myers restaurant, has established a weekly newspaper in Albuquerque lately. The publication has been named the Albuquerque American. Griffin is a first-class compositor, having learned the business in Illinois.

Bland will soon be an incorporated town, and this insures water works. Two weeks from this date, as per authority of the county board, an election will take place for a town marshal and a board of five town trustees. Phil J. Barber, C. P. Jones and B. D. Wilson are designated as election judges.

A thirty-day contract has been let by the Navajo Gold Mining Company to George Buck, Charles Shipley and one other to drive a drift on the vein in the Lone Star mine. The work was begun in the lower level, 800 feet from the mouth of the tunnel, and the contract also calls for a drift 525 feet in the clear.

With the beginning of this week it is expected the Star tunnel will have been driven a distance of over 800 feet. Small quartz stringers have been encountered during the progress of the work in the past few days, and the indications are quite favorable for the workmen to cut the big lead in short time. It is understood the work of stopping to connect the working tunnel with the lower level in the mine, will begin within three weeks.

PRESBYTERIAN MISSION WORK.

Appointment of Teachers and Building of New Schools in New Mexico.

Miss Alta B. Handley has been appointed to have charge of the school at El Rito, Mora county, for the coming year.

Mrs. Annie Ferguson, who taught the El Rito school the past year and is now summering in Tennessee, will be given the school at Los Lentos, Valencia county, the coming year, succeeding Miss Maggie Fleming at that place.

At Chimayo, Rio Arriba county, a new school will be established. Miss Clark and sister have been assigned by the Presbyterian board of missions to that important work.

A new school will also be given to the Mora field, viz. At Agua Negra, Santa Fe county, the coming year, succeeding Miss Maggie Fleming at that place.

Miss Margaret Kirkwood and Miss Anna D. McNair have been assigned to the Las Vegas mission school. Mrs. Kirkwood is a daughter of the Rev. Dr. Kirkwood, superintendent of missions for Colorado and Wyoming.

COURT NOTES.

A Divorce Suit and an Attachment Suit Filed.

In the district court today a divorce suit was filed the title of which is Maria Denny vs. Wm. Denny. The petitioner charges abandonment and resides at Chama.

An attachment suit from Rio Arriba county was filed in the office of the clerk of the district court this morning, the title of which is T. D. Burns vs. Daniel Valdez. The amount involved is \$102.63.

District Clerk A. M. Bergere today made settlement with the territorial treasurer, turning over to that officer \$338.06, which amount covers the fees collected by the clerk for the quarter ending June 30.

BISHOP GRANJON'S CONSECRATION.

It Took Place at Baltimore and Was an Impressive Event.

THE FOURTH OF JULY

Preparations for the Firemen's Tournament Being Completed and Its Success is Now Assured.

The Santa Fe baseball team played Oloso Games at Albuquerque, But Was Defeated—An Albuquerque Team Will Play Here This Week.

The Santa Fe baseball team returned home this morning, having played match games with the Albuquerque Browns on Saturday afternoon and Sunday. The scores stood 11 to 19 and 12 to 13 in favor of Albuquerque. A large crowd was in attendance to witness both games, and when the Albuquerque boys got behind in the seventh inning yesterday they were pretty severely yelled by the audience, which fairly yelled itself hoarse when the game ended in a score of one in favor of the Browns. Manager Conway's boys were simply a pick-up team about town, and the fact that they made such a record as they did is, under the circumstances, highly creditable. They worked to a great disadvantage in the first game, owing to the grass on the ball grounds, and having no spiked shoes, but Manager Conway provided spikes for the second contest, and thus materially cut down the score. The visitors were well received and entertained by the Duke City base-ball enthusiasts. The Journal-Democrat says:

"Without exception the Santa Fe team are perfect gentlemen, possessed of not a little of that delicate sense of chivalric honor, which is put to such a thorough test in athletic contests of any kind."

Mr. Conway talked with many citizens who stated that they would be here on the Fourth to participate in celebrating with the firemen. A first-class ball team, under the management of E. L. Washburn, the well-known merchant, will also come up from Albuquerque to-morrow and play a series of games here at St. Michael's college grounds.

THE FOLLOWING IS THE OFFICIAL PROGRAM OF THE FIREMEN'S CONVENTION AND TOURNAMENT:

JULY 3.
10 a. m.—Assembling of convention; address of welcome.
2 p. m.—Concert in the plaza.
3 p. m.—Base ball at college grounds.
7 p. m.—Concert in the plaza.

JULY 4.
10 a. m.—Concert in the plaza. Base ball at the college grounds.
2 p. m.—Parade of fire department, civic societies, schools and decorated vehicles.
3 p. m.—Ladder climbing: First prize, \$15; second, \$7.50. Bicycle race—First prize, \$10; second, \$5. Team coupling contest—First prize, \$15; second, \$7.50. Indian race—First prize, \$3; second, \$2. Sack race—First prize, \$2; second, \$1. Coupling contest, single—First prize, \$10; second, \$5. Boys' bicycle race—First prize, \$5; second, \$2.50. Burro race—First prize, \$2; second, \$1. Squaw race—First prize, \$2; second, \$1. 100-yard foot race—First prize, \$10; second, \$5.

5 p. m.—Greased pig will be turned loose at northwest corner of plaza. If you catch him he's yours.
7 p. m.—Grand concert of national airs in the plaza. Reading of the Declaration of Independence in English and Spanish. Oration by Hon. A. L. Morrison. Vivid pyrotechnic display.

JULY 5.
2 p. m.—Concert in the plaza.
3 p. m.—Base ball.
7 p. m.—Concert in the plaza.

All entries for these contests, foot race and bicycle races, must be made with Secretary A. M. Dettelbach before 12 o'clock noon, July 4.

If more than six entries are made in the bicycle races the same will be run in heats.

NOTES.

The new uniforms for the firemen came to hand last night. After 10 a. m. to-morrow Secretary Dettelbach will be at the house to receive entries for the sports programmed for the Fourth. The following orders were issued to-day:

Special Order No. 1.—All members of the Santa Fe fire department will report at 7:30 p. m. July 2 to receive their uniforms, badges and parade badges. Permission is given to wear uniforms July 3, 4 and 5. J. S. Van Arsdell, Chief. A. M. Dettelbach, Secretary.

Special Order No. 2.—Section 21, rules and regulations of the Santa Fe fire department, says: Any officer or member intoxicated or under the influence of liquor, while on duty or in uniform, shall have his badge and uniform taken away and he shall be expelled from the department. The above rule will be strictly enforced. J. L. Van Arsdell, Chief. A. M. Dettelbach, Secretary.

LAS VEGAS NOTES.

The six months old daughter of Juan Silva died on the west side on Saturday. The four months old child of Mr. and Mrs. S. Kaufman died on Saturday noon.

The county superintendent appointed J. M. Quintana, Luciano Lopez and Gavino Martinez directors of district No. 15.

James McNary, who held the chair of languages at the normal university will go to Europe to spend some time in special study.

Senator John J. Ingalls is a guest at the Montezuma hotel at the Hot Springs, at which resort he will soon be joined by his wife from Atchison, Kan. One of his sons, Ellsworth, left for Los Angeles, another for Atchison.

\$3.00 PER DAY AND EXPENSES SURE. Manager and Collector in every town to employ agents and make collections. Energetic man or woman. \$800 per year and expenses. Position permanent. Exceptional opportunity. Address M. Z. Kirk, Manager, Denver, Colo.

The best 25-cent meal in the city at the Bon-Ton.

ADVERTISING RATES.

Wanted—One cent a word each insertion.
Local—Ten cents per line each insertion.
Reading local—Preferred position—Twenty-five cents per line each insertion.

Displayed—Two dollars an inch, single column, per month in Daily. One dollar an inch, single column, in either English or Spanish Weekly.
Additional prices and particulars given on receipt of a copy of matter to be inserted.

MONDAY, JULY 2.

For President,
WILLIAM MCKINLEY.
For Vice President,
THEODORE ROOSEVELT.

We favor home rule for early admission to statehood of the territories of New Mexico, Arizona and Oklahoma.—National Republican Platform.

Sulzer, Croker and Murphy will call personally upon Col. W. J. Bryan. They will evidently try to explain to him that little lie trust which destroyed whatever chances the Democrats had of carrying New York.

Well, the anti-imperialists have decided to work for the election of Col. W. J. Bryan. In the Democratic camp is where they belong, and their dozen votes or two will not loom up very big when the votes are counted in November.

The saddest feature of the insurrection in the Philippines is the long casualty list cabled home every day from Manila. And to think that the very people who drive most about peace and the cost in human life of expansion are responsible for the death of these boys in blue!

Li Hung Chang, to show that he means business and intends to keep faith with the powers, has ordered the decapitation of 130 Boxers at Canton. Old Li has a direct way of clinching his arguments that would prove very embarrassing in any other country but China.

The postoffice department has decided that free rural delivery was intended for mining districts and camps as well as for rural districts. This is good news for the Rocky mountain states, and by proper effort free daily delivery can be obtained for the mining camps of this territory.

Senator Hoar is still a loyal Republican. Like a good many Massachusetts statesmen, he is a chronic fault-finder, but he has wisdom enough to know that the blemishes he sees in the Republican administration and policy are but mole hills compared with the mountains of perversion and cussedness inherent in the Democratic party and its leaders.

Col. W. J. Bryan has advised the Democratic leaders not to go rainbow chasing after the states of the east, which will probably be strong for McKinley and Roosevelt, but to concentrate their work upon the middle west, for by carrying Minnesota, Wisconsin, Indiana and Illinois, the Democratic presidential ticket may have a chance of being elected. Of course, this is rainbow chasing, too, and Colonel Bryan and his followers will realize that before the dawn of another year. Unless all indications fail the Republican majorities in the middle west will be tremendous, and will not be far from the million mark.

A Problem of Metallurgy.
Second only in importance to the problems of irrigation in the west are the problems of metallurgy to recover the values from low-grade ores. Every once in awhile a new process is heralded to the world as having solved the problem, but time generally proves most of them failures. Yet, new processes have been put to the test that under certain conditions and upon certain ores are a success, and many a low-grade mine and many a dump by those means have turned out to be a source of wealth. If there was a successful and cheap process to treat the countless tons of zinc-bearing ore which are thrown away because the presence of zinc increases the cost of treatment to a degree which renders production unprofitable; if there was a profitable method to save the fine gold in the low-grade gravel and concrete found in immense masses in New Mexico, then thousands of more miners would be given employment in New Mexico and Colorado, and the present production of the precious metals in the Rocky mountain states would be doubled.

Joseph Weldon Bailey, who posed as a Democratic leader in the house, has purchased a big farm near Dallas, Tex., and paid \$250,000 for it, the money being advanced by ex-Governor Francis of Missouri. This fact would not be worthy of notice were it not that Senator Bailey is now in the same county with Hon. Charles Anderson Culberson. Since it is not customary that both United States senators in Texas are chosen from the same county, the fuzzle will soon be flying in the vicinity of Dallas, and the noise of the campaign waged by the two gentlemen in their efforts to retire each other to the obscurity of private life will resound from Pensacola bay to San Diego harbor.

Seth Low, president of Columbia college, who is also a political leader, is an advocate of the eight-hour system of labor. He made the discovery last week that the men employed in the engine rooms and other departments connected with the power-generating plant were working twelve hours a day. Although it involved an increased item of expense, he changed the number of hours of labor from twelve to eight, giving each employee four additional hours to himself and the same rate of pay as when he worked twelve hours. The change went into effect on July 1.

Unlike many others, Low practices what he preaches. Still, the cost of the innovation at Columbia college does not come out of his pocket, and that makes his consistency a good deal easier.

That much is still to be learned in regard to the quantity of water requisite for the development of particular crops is evident from a bulletin recently published by the department of agriculture. But this is evident that generally too much water is used, and that if there was an economical distribution of water the area under irrigation could be doubled. Water is also of much more value later in the season than in May and June. Early in the year much water flows to waste which should be stored for use later in the season, during drouths, and to extend the area under irrigation. The study of scientific irrigation, its relations to plant life and growth, are of great importance to the arid west, and the reclamation of the arid west is as great an economic problem as was ever faced by a nation.

A Rush for Public Office.

The rush for jobs in the census bureau at Washington is tremendous. The placard at the door of the bureau that no more clerks are needed has absolutely no effect. The thirst of the average American for public office is something remarkable. It is a standing joke that if wide-awake parents see that their son would be a failure in any calling or profession they educate him for the ministry, but at the present day a man who cannot earn his living in any other way imagines that he is the man who should be in the employ of Uncle Sam. The old adage of the office seeking the man has gone out of business, and the energy and means expended by the average office-seeker to get a little \$900 a year clerkship would make most of them wealthy and independent in any other occupation or business. Fortunately, Uncle Sam generally picks out competent men to do his work.

The Decrease of Crime.

The assertions of Lombroso and other preachers of degeneracy to the contrary, crime is decreasing in the United States. Moralists have until lately believed that material progress is made at the expense of the moral standards of the nation. A recent issue of the Forum, however, gives statistics that prove these jeremiads as false. Most assertions as to the increase of crime rest upon the census figures of the prison population. These show an increase greater than the increase of population, but this increase is caused by the moral standard of the nation having been raised to a higher plane. Many transgressions of the law at the present day were not considered transgressions thirty or fifty years ago. In Massachusetts, for instance, whose jail population showed a most alarming increase in late years, this is due to the doubling of the penalty for drunkenness. Crimes of violence against the person decreased in Massachusetts in the same time from 94 per 1,000 to 69 per 1,000. The same decrease is noticeable in Ohio, Michigan—in fact, in nearly all of the other states and territories. Even in New Mexico this is apparent, for while the number of convictions for crime is undoubtedly greater at the present day than it was thirty or forty years ago, yet crimes are steadily on the decrease. The growth of cities has increased the number of offenses which must be punished, and has put under the ban of the law deeds formerly deemed harmless, such as throwing rubbish in the streets, riding bicycles without lamps or bells, and breaches of sanitary regulations. Taken altogether, the world is getting better and at a rapid rate at that.

Spanish a Necessity.

The United States will help to make Spanish a world language. Most of the public schools in the larger cities of this country are now making the study of Spanish compulsory. The responsibilities assumed by this government over 10,000,000 to 12,000,000 of Spanish-speaking people makes the acquisition of that language by the American officials in those countries almost a necessity to the solution of the many problems that confront the republic, and the tactful and diplomatic treatment of the people who have been freed from oppression and misrule. The recent development of Mexico and the great future in store for Central America and South America, where Spanish is spoken altogether, will also make the acquisition of Spanish by the coming generation in the United States a matter that will pay in dollars and cents. There is every reason why the educated American, like the educated European, should be able to speak three or four languages. Spanish is a beautiful and a musical language, which has a treasure house of literature, and aside from commercial purposes the knowledge of that tongue will give pleasure and satisfaction. The day will come when the American who does not speak and write fluently English, German and Spanish, with perhaps a knowledge of French, will not be considered a person whose education has reached the high standard that is being set by the nation's universities and colleges.

BOILS AND CARBUNCLES

These unwelcome visitors usually appear in the spring or summer, when the blood is making an extra effort to free itself from the many impurities that have accumulated during the winter months.

Baneful Boils

Mr. R. M. Pratt, Cave, S. C., writes: "For twenty years I was sorely afflicted with boils and carbuncles caused by impure blood. It is impossible to describe my suffering, part of the time being unable to work or sleep. Several doctors treated me, and I tried all the so-called blood remedies, but nothing seemed to do me any good. During the summer of 1888 I was persuaded to try S. S. S., and after taking several bottles was entirely cured, and have had no return of these painful pests up to the present time."

and any information or advice wanted will be cheerfully given. We make no charge whatever for this service. Send for our book on Blood and Skin Diseases—free. Address, The Swift Specific Co., Atlanta, Ga.

Dangerous Carbuncles

Keep the blood pure, and it will keep the skin clear of all the irritating impurities that cause these painful, disfiguring diseases. S. S. S. cures boils and carbuncles easily and permanently by reinforcing, purifying and building up the blood and ridding the system of all accumulated waste matter.

S. S. S. is made of roots and herbs which act directly on the blood, and all poisons, no matter how deep-seated, are soon overcome and driven out by this powerful purely vegetable medicine.

S. S. S. is not a new, untried remedy, but for fifty years has been curing all kinds of blood and skin diseases. It has cured thousands, and will cure you. It is a pleasant tonic as well as blood purifier—improves the appetite and digestion, builds up your general health and keeps your blood in order.

Our physicians have made blood and skin diseases a life study—write them fully about your case, and they will cheerfully advise you. We make no charge whatever for this service. Send for our book on Blood and Skin Diseases—free. Address, The Swift Specific Co., Atlanta, Ga.

SSS

IRRIGATION STUDIES

The Department of Agriculture Has Issued an Interesting Bulletin on the Subject.

ECONOMY IN IRRIGATION

The Waste of Water in Many Districts—Water Adds Enormously to the Worth of the Land—Some Legislation Suggested.

The department of agriculture has just issued a bulletin prepared by B. C. Buffum, professor of agriculture and horticulture in the University of Wyoming, on the use of water in irrigation. In the work Professor Buffum describes his studies on the subject of irrigation. In the introduction to his publication, among other things, Professor Buffum says: "There are some things about irrigation which are fairly well understood. We have learned how to build ditches and operate them in the distribution of water. The simpler laws of plant growth are becoming well understood, and the amount of water taken up by the plant, used in its development, and thrown off by it is being studied. Comparatively little effort has been made to determine how much water must be applied by irrigation to mature the plant and to unravel the somewhat intricate relations between water, soil, climate and a profitable crop. The knowledge lacking in irrigation, and which must in some way be obtained before our water supply will be either wisely or correctly used, is, how much is required to secure the best results, and when and by what means it can be most economically and efficiently applied."

WATER ADDS TO WEALTH.

The area of land in arid regions which can be ultimately reclaimed is limited by the water supply. Anything which will extend the use of this supply will add to the ultimate wealth and population of this region, but if, through lack of knowledge of the actual necessities of irrigation, rights to water are required which have no relation to these necessities, and those rights become fixed by custom into laws, the train of evils which will follow will seriously restrict the acreage brought under cultivation and add greatly to the cost thereof. The problem is a large one. It will require much repetition of experiments and long and careful study before the question can be fully solved, but the end in view promises to return more than commensurate with the cost. Under the best irrigation laws now in force the water belongs to the state, and the amount which the individual may appropriate for his land is not more than he is able to provide is applied to beneficial use. Such laws open the way to the greatest possible development of our natural agricultural resources. The limit of that development will be known only when we know the amount of the supply and are informed in regard to what constitutes beneficial use.

PUBLIC WEALTH INCREASES.

In the arid regions values attach to the water rather than to the land. Water is scarce, while land is comparatively abundant. The investigations demonstrate that duty in any locality varies between wide limits, so that distinctions cannot be too closely drawn. The limit of an appropriation should be no less than the maximum amount needed in ordinary practice. One cubic foot per second for seventy acres, as given in Wyoming, has proved sufficient under ordinary conditions, even for newly irrigated lands and for native hay, which requires more water than old land or other crops. More measurements of the amounts actually used on farms are needed before a close estimate can be made of what may be accomplished with the available supply. Growing a variety of crops lengthens out the irrigating season and enables the farmer to make better use of his continuous flow, but even this does not even up the difference.

STORAGE IS ESSENTIAL.

The greatest necessity is storage until the water is needed. It would seem that a final solution must come through a system of storage, combined with wise laws regarding appropriations which will insure the greatest use and economy of the whole water supply. The requirements of the land when used for certain crops should be made known to the allotments of water to users. There are in operation several ditch companies in the west which supply users with enough water in the season to cover their lands to a certain depth, and each farmer chooses the time through the season when each portion of the water is to be furnished. It would seem that such a system would eventually be followed by such adjustment of crops to the land and water supply in different parts of the season as would bring about the greatest possible economy in the use of water. As a result of his investigations, Professor Buffum concludes:

WASTE IN LARGER RIVERS.

"That, as both land and water become more valuable their use requires better methods and the growth of higher-priced products. In the region under discussion irrigation is chiefly from small streams, and nearly all the water supply which can be diverted is appropriated, but large volumes of water still run to waste in the larger rivers. It is along these we must look for future development, but the utilization of this supply involves questions outside the scope of this investigation. These large rivers, as a rule, drain the mountain summits, and have a more uniform flow than the small streams, as the snow which feeds them melts slowly. The small streams, on the contrary, fluctuate so widely in volume that it usually happens that more water runs to waste before irrigation of cultivated crops begins than is available for use in July, when the need for such crops is greatest."

"The distinction between the abundant and hence cheap water supply of the first half of the irrigating season and the scanty and valuable supply in the latter half is made in appropriations and water rights contracts in the irrigated districts of Europe, but as yet have not been considered in this country. We are not likely to ignore this much longer. A second-foot of water for the month of August is worth ten or twenty times as much as the same volume for May, because it will make possible the irrigation of larger areas and the growing of higher-priced products. It is this consideration which gives to water storage its significance, and which will ultimately govern the number and cost of the works to provide for this purpose."

Due Caution.

Stubb—Burch is always blowing his own horn.
Penn—Wonder Chief Kipley don't haul him up for making a noise.

One Minute Cough Cure is the only harmless remedy that produces immediate results. Try it. Ireland's Pharmacy.

His Second Wooing.

Spriggin's wife has had some money left her.
Yes, I suppose to Spriggin it is just like making love all over again.—Brooklyn Life.

There are no better pills made than DeWitt's Little Early Risers. Always prompt and certain. Ireland's Pharmacy.

Was a Foreign Sun.

That is the sunest my daughter painted. She studied painting abroad, you know.
Friend—Ah, that explains it. I never saw a sunset like that in this country.—Tid-Bits.

For Burns, injuries, piles and skin diseases use DeWitt's Witch Hazel Salve. It is the original. Counterfeits may be offered. Use only DeWitt's. Ireland's Pharmacy.

Checking the Rising Sex.

Woman ought to have administration her touch will calm and purify the turgid, muddy pool of politics.
Now, go slow Eliza; you've temporarily overlooked the Empress of China.—Chicago Record

DeWitt's Little Early Risers are famous little pills for liver and bowel troubles. Never gripe. Ireland's Pharmacy.

Of Course, How Could She?

He—How could you lead me on, when you knew all the time I was in love with you.
Why, if you hadn't been, how could I have done it?—Life.

After many intricate experiments, scientists have discovered methods for obtaining all the natural digestants. These have been combined in the proportion found in the human body and united with substances that build up the digestive organs, making a compound called Kodol Dyspepsia Cure. It digests what you eat and allows all dyspeptics to eat plenty of nourishing food while the stomach troubles are being radically cured by the medicinal agents it contains. It is pleasant to take, and will give quick relief. Ireland's Pharmacy.

Best Part Missing.

Sandy Pikea—Just found an empty gin bottle with a message inside.
Billy Coalgate—Empty? Say, why can't dem shipwrecked mariners leabe de gin in when dey floats dem messages?

A GOOD COUGH MEDICINE.

Many thousands have been restored to health and happiness by the use of Chamberlain's Cough Remedy. If afflicted with any throat or lung trouble, give it a trial, for it is certain to prove beneficial. Coughs that have resisted all other treatment for years have yielded to this remedy and perfect health been restored. Cases that seemed hopeless, that the climate of famous health resorts failed to benefit, have been permanently cured by its use. For sale by A. C. Ireland.

Low rates from Kansas City to all points north, east, south and west during the convention. Return limits September 30.

WINE OF CARDUI

Woman's

Crowning Virtue.

BELOW, Mo., July 27.
For years I suffered terrible pains every month and my doctor told me I could not be cured except by an operation. I felt I could not submit to that and was as despondent I had given up all hopes of a cure. My husband insisted on my trying Wine of Cardui and at last thank God I did try it. Last month I did not have a pain, and did all my work, which I had not done in seven years.
MRS. MINNIE LITTLE

Wine of Cardui

Modesty is the crowning virtue of American women. It is the trait that all admire. A modest woman is the most pleasing of all created things. Because of this becoming virtue thousands of women prefer to suffer untold miseries rather than confide their troubles to a physician, and to even think of submitting to an examination is revolting. They can't get their own consent to an operation. Wine of Cardui permits sensitive women to retain their modesty. With it they can cure "female troubles" in the quiet of their own rooms. If special treatment is required they can write to the Advisory Department of the Chattanooga Medicine Co., and their letters will be promptly answered by women trained in the cure of womanly weaknesses and irregularities. There should be no hesitation. Delayed treatment means a chronic condition. The longer postponed the harder to cure.

A LARGE BOTTLE OF WINE OF CARDUI COSTS \$1.00 AT THE DRUG STORE.

WINE OF CARDUI

New York Weekly Tribune

For nearly sixty years the leading national family newspaper for progressive farmers

and villagers.

An old, stanch, tried and true friend of the American people, from the Atlantic to the Pacific, and the pioneer in every movement calculated to advance the interests and increase the prosperity of country people in every state in the Union.

For over half a century farmers have followed its instructions in raising their crops, and in converting them into cash have been guided by its market reports, which have been national authority.

If you are interested in "Science and Mechanics" that department will please and instruct. "Short Stories" will entertain old and young. "Fashion Articles" will catch the fancy of the ladies, and "Humorous Illustrations" and items will bring sunshine to your household.

WHAT OUR FLAG STANDS FOR.

Wherever the American flag is raised in token of sovereignty, it stands for liberty, independence and equality. What our flag is to the nation, Hostetter's Stomach Bitters is to the individual, inasmuch as it not only gives you freedom from your ailments, but protects your system in such a manner that they cannot return. When your stomach gets out of order, causing you to belch after eating, or when you are so nervous that you toss about all night, unable to sleep, you should certainly try it, because it will strengthen your stomach, steady your nerves, and induce sound healthy sleep, and for indigestion, constipation and biliousness there is nothing to equal it. Rheumatism is also counteracted by its direct action on the kidneys.

Summer Stationery.

Ida—But why do you not like the picture of a hammock in the corner of your stationery?

May—I don't know, dear; but you see it seems to suggest a falling out.

BISMARCK'S IRON NERVE

Was the result of his splendid health. Indomitable will and tremendous energy are not found where Stomach, Liver, Kidneys and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills. They develop every power of brain and body. Only 25c at Fischer & Co.'s drug store.

Revolutions.

"I am thinking of sending some of my new electric fans to China."

"Don't do it."

"Why not?"

"There are too many revolutions there already."

PREVENTED A TRAGEDY.

Timely information given Mrs. George Long, of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors, but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her, and she writes this marvelous medicine also cured Mr. Long of a severe attack of pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and \$1.00. Every bottle guaranteed. Trial bottles free at Fischer & Co.'s drug store.

Internal Evidence.

"I wish I knew what woman wrote this book."

"How do you know a woman wrote it at all?"

"This style is so hideously masculine."

—Chicago Tribune.

IT SAVED HIS LEG.

P. A. Danforth, of La Grange, Ga., suffered intensely for six months with a frightful running sore on his leg, but writes that Bucklen's Arnica Salve wholly cured it in ten days. For Ulcers, Wounds, Burns, Boils, Pain or Piles it's the best salve in the world. Cure guaranteed. Only 25c. Sold by Fischer & Co., druggists.

Highly Colored.

Lady—You have been drinking rum, Sandy Pikes—Not a drop, mum.

Lady—But how did your nose get so red?

Sandy Pikes—From drinking circus lemonade, mum.—Chicago News.

THE BEST REMEDY FOR STOMACH AND BOWEL TROUBLES.

"I have been in the drug business for twenty years and have sold most of all of the proprietary medicines of any note. Among the entire list I have never found anything to equal Chamberlain's Colic, Cholera and Diarrhoea Remedy for all stomach and bowel troubles," says O. W. Wakefield, of Columbus, Ga. "This remedy cured two severe cases of cholera morbus in my family, and I have recommended and sold hundreds of bottles of it to my customers to their entire satisfaction. It affords a quick and sure cure in a pleasant form." For sale by A. C. Ireland.

A Good Guess.

It is one of those symbolical plays. You've heard of dramatic symbolism? Yes; but what the deuce is it?

Why, as I understand it, a symbolical play is a sort of problem play in which you have to guess even at what the problem is.—Puck.

During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days' time the child had fully recovered. The child is now vigorous and healthy. I have recommended this remedy frequently, and have never known it to fail.—Mrs. Curtis Baker, Bookwalter, O. Sold by A. C. Ireland.

Making a Monkey of Him.

Hello! exclaimed Miles, as he was about to board the crowded excursion boat, the ark seems to be full!

Yes, rejoined the deckhand, all the animals are on deck but the monkey. Hurry up and get aboard.—Chicago News.

FREE OF CHARGE.

Any adult suffering from a cold settled on the breast, bronchitis, throat or lung troubles of any nature, who will call at Ireland's Drug Store will be presented with a sample bottle of Boschee's German Syrup, free of charge. Only one bottle given to one person, and none to children without order from parents. No throat or lung remedy ever had such a sale as Boschee's German Syrup in all parts of the civilized world. Twenty years ago millions of bottles were given away, and your druggists will tell you its success was marvelous. It is really the only Throat and Lung Remedy generally endorsed by physicians. One 15 cent bottle will cure or prove its value. Sold by dealers in all civilized countries.

His Hanging Out Place.

What did Scumulus say when you told him of our scheme to make him Alderman? asked the political leader.

It took him clean off his legs, said the faithful henchman. He wanted to think about it.

In a quandary, was he?

No, he was, in a swoon.—Chicago Tribune.

When you want a modern, up-to-date physic try Chamberlain's Stomach and Liver Tablets. They are easy to take and pleasant in effect. Price, 15 cents. Samples free at Ireland's drug store.

THE REPUBLICAN PLATFORM

It Sets Forth Succinctly and Clearly the Position of the Republican Party.

MANY POLITICAL PROBLEMS

The Party Has Redeemed the Promises Made In 1896—It Will Also Keep the Pledges Made At Philadelphia—A Prosperous Administration.

The following is the text of the Republican platform, as adopted by the national convention at Philadelphia:

The Republicans of the United States, through their chosen representatives in national convention, looking back upon an unsurpassed record of achievement, and looking forward into a great field of duty and opportunity and appealing to the judgment of their countrymen, make these declarations:

PROMISES REDEEMED.

The expectation in which the American people, turning from the Democratic party, trusted power four years ago to a Republican chief magistrate and a Republican congress, has been met and satisfied. When the people then assembled at the polls after a term of Democratic administration business was dead, industry paralyzed and the national credit disastrously impaired. The country's capital was hidden away and its labor distressed and unemployed.

The Democrats had no other plan with which to improve the ruinous conditions which they had themselves produced than to coin silver at the ratio of 16 to 1. The Republican party, denouncing the plan as sure to produce conditions even worse than those from which relief was sought, promised to restore prosperity by means of two executive measures—a protective tariff and a law making gold the standard of value. The people by great majorities issued to the Republican party a commission to enact these laws. This commission has been executed and the Republican promise is redeemed.

SOLID PROSPERITY.

Prosperity more general and more abundant than we have ever known has followed these enactments. There is no longer controversy as to the value of any government obligation. Every American dollar is a gold dollar, or its assured equivalent, and American credit stands higher than that of any nation. Capital is fully employed, and everywhere labor is profitably occupied. No single fact can more strikingly tell the story of what Republican government means to the country than this—that while during the whole period of 107 years, from 1790 to 1897, there was an excess of exports over imports of only \$383,026,497, there has been in the short three years of the present Republican administration an excess of exports over imports in the enormous sum of \$1,482,738,094.

A SUCCESSFUL WAR.

And while the American people sustained by this Republican legislation have been achieving these splendid triumphs in their business and commerce, they have conducted and in victory concluded a war for liberty and human rights. No thought of national aggrandizement tarnished the high purpose with which American standards were unfurled.

It was a war unsought and patiently resisted, but when it came the American government was ready. Its fleets were cleared for action. Its armies were in the field, and the quick and signal triumph of its forces on land and sea bore equal tribute to the courage of American soldiers and sailors and to the skill and foresight of Republican statesmanship. To 10,000,000 of the human race there was given "a new birth of freedom," and to the American people a new and noble responsibility.

PRESIDENT'S STATESMANSHIP.

We endorse the administration of William McKinley. Its acts have been established in wisdom and patriotism, and at home and abroad it has distinctly elevated and extended the influence of the American nation. Walking untrodden paths and facing unforeseen responsibilities, President McKinley has been in every situation the true American patriot and the upright statesman, clear in vision, strong in judgment, firm in action, always inspiring and deserving the confidence of his countrymen.

DEMOCRATIC INCOMPETENCY.

In asking the American people to endorse this Republican record and to renew their commission to the Republican party, we remind them of the fact that the menace to their prosperity has always resided in Democratic principles, and no less in the general incapacity of the Democratic party to conduct public affairs. The prime essential of business prosperity is public confidence in the good sense of the government and its ability to deal intelligently with each new problem of administration and legislation. That confidence the Democratic party has never earned. It is hopelessly inadequate, and the country's prosperity when Democratic success at the polls is anticipated halts and ceases in mere anticipation of Democratic blunders and failures.

THE GOLD STANDARD.

We renew our allegiance to the principles of the gold standard, and declare our confidence in the wisdom of the legislation of the fifty-sixth congress by which the parity of all our money and the stability of our currency on a gold basis has been secured.

We recognize that the rates of interest are a potent factor in production and business activity, and for the purpose of further equalizing and of lowering the rates of interest we favor such monetary legislation as will enable the varying needs of the season, and of all sections to be properly met in order that trade may be evenly sustained, labor steadily employed and commerce enlarged. The volume of money in circulation was never so great per capita as it is to-day.

We declare our steadfast opposition to the free and unlimited coinage of silver. No measure to that end could be considered which was without the support of the leading commercial countries of the world. However firmly Re-

publican legislation may seem to have secured the country against the peril of a base and discredited currency, the election of a Democratic president could not fail to impair the country's credit and to bring once more into question the intention of the American people to maintain upon the gold standard the parity of their money circulation. The Democratic party must be convinced that the American people will never tolerate the Chicago platform.

UNLAWFUL TRUSTS.

We recognize the necessity and propriety of the honest co-operation of capital to meet new business conditions, and especially to extend our rapidly increasing foreign trade, but we condemn all conspiracies and combinations intended to restrict business, to create monopolies, to limit production or to control prices, and favor such legislation as will effectually restrain and prevent all such abuses, protect and promote competition and secure the rights of producers, laborers and all who are engaged in industry and commerce.

THE PROTECTION POLICY.

We renew our faith in the policy of protection to American labor. In that policy our industries have been established, diversified and maintained. By protecting the home market the competition has been stimulated and production cheapened. Opportunity to the inventive genius of our people has been secured and wages in every department of labor maintained at high rates, higher now than ever before, always distinguishing our working people in their better conditions of life from those of any competing country. Enjoying the blessings of the American common school, secure in the right of self-government, and protected in the occupation of their own markets, their constantly increasing knowledge and skill have enabled them finally to enter the markets of the world.

RECIPROCITY.

We favor the associated policy of reciprocity so directed as to open our markets on favorable terms for what we do not ourselves produce in return for free foreign markets.

LAWS TO PROTECT LABOR.

In the further interest of American workmen, we favor a more effective restriction of the immigration of cheap labor from foreign lands, the extension of opportunities of education for working children, the raising of the age limit for child labor, the protection of free labor as against contract convict labor, and an effective system of labor insurance.

OUR MERCHANT MARINE.

Our present dependence upon foreign shipping for nine-tenths of our foreign carrying is a great loss to the industry of this country. It is also a serious danger to our trade, for its sudden withdrawal in the event of European war would seriously cripple our expanding foreign commerce. The national defense and naval efficiency of this country, moreover, supply a compelling reason for legislation which will enable us to recover our former place among the trade-carrying fleets of the world.

PENSIONS.

The nation owes a debt of profound gratitude to the soldiers and sailors who have fought its battles, and it is the government's duty to provide for survivors and for the widows and orphans of those who have fallen in the country's wars. The pension laws, founded in this just sentiment, should be liberal and should be liberally administered, and preference should be given whenever practicable, with respect to employment in the public service, to soldiers and sailors and to their widows and orphans.

THE CIVIL SERVICE.

We commend the policy of the Republican party in maintaining the efficiency of the civil service. The administration has acted wisely in its effort to secure for public service in Cuba, Porto Rico, Hawaii and the Philippine islands only those whose fitness has been determined by training and experience. We believe that employment in the public service in these territories should be confined as far as practicable to the inhabitants.

NEGRO DISFRANCHISEMENT.

It was the plain purpose of the fifteenth amendment to the constitution to prevent discrimination on account of race in regulating the elective franchise. Devices of state governments, whether by statutory or constitutional enactment, to avoid the purpose of this amendment, are revolutionary, and should be condemned.

ROADS AND HIGHWAYS.

Public movements looking to a permanent improvement of the roads and highways of the country meet with our cordial approval, and we recommend this subject to the earnest consideration of the people and of the legislatures of the several states.

RURAL FREE DELIVERY.

We favor the extension of the rural free delivery service wherever its extension may be justified.

RECLAIMING ARID LANDS.

In further pursuance of the constant policy of the Republican party to provide free homes on the public domain, we recommend adequate national legislation to reclaim arid lands of the United States, reserving control of the distribution of water for irrigation to the respective states and territories.

STATEHOOD FOR TERRITORIES.

We favor home rule for and the early admission to statehood of the territories of New Mexico, Arizona and Oklahoma.

REDUCTION OF WAR TAXES.

The Dingley act, amended to provide sufficient revenue for the war, has so well performed its work that it has been possible to reduce the war debt in the sum of \$40,000,000. So ample are these government revenues, and so great is the public confidence in the integrity of its obligations, that its newly funded 2 per cent bonds sell at a premium. The country is now justified in expecting, and it will be the policy of the Republican party to bring about, a reduction of the war taxes.

NICARAGUA CANAL.

We favor the construction, ownership, control and protection of an isthmian canal by the government of the United States.

ORIENTAL MARKETS.

New markets are necessary for the increasing surplus of our farm products. Every effort should be made to open and obtain new markets, especially in the Orient, and the administration is warmly to be commended for its successful effort to commit all trading and colonizing nations to the policy of the open door in China.

SPECIALTY CHRONIC DISEASES

MEN AND WOMEN

Suffering from Chronic Diseases are invited to

WRITE TO DR. PIERCE

and Consult Him by Letter Free of Charge.

All communications are held as sacredly confidential and all answers are sent in plain envelopes, without printing upon them.

Address **DR. R. V. PIERCE,** BUFFALO, N. Y.

NEW EXECUTIVE DEPARTMENT.

In the interest of our expanding commerce we recommend that congress create a department of commerce and industries, in the charge of a secretary, with a seat in the cabinet.

The United States consular system should be reorganized under the supervision of this new department, under such a basis of appointment and tenure as will render it still more serviceable to the nation's increasing trade.

PROTECTION OF CITIZENS.

The American government must protect the person and property of every citizen wherever he is wrongfully violated or placed in peril.

WORK OF WOMEN.

We congratulate the women of America upon their splendid record of public service in the volunteer aid association and as nurses in camp and hospital during the recent campaigns of our armies in the eastern and western Indies, and we appreciate their faithful co-operation in all works of education and industry.

SAMOA.

President McKinley has conducted the foreign affairs of the United States with distinguished credit to the American people. In releasing us from the vexatious condition of a European alliance for the government of Samoa, his course is especially to be commended. By securing to our undivided control the most important island of the Samoan group, and the best harbor in the Southern Pacific, every American interest has been safeguarded.

HAWAII.

We approve the annexation of the Hawaiian Islands to the United States. **HOERS AND MONROE DOCTRINE.**

We commend the part taken by our government in the peace conference at The Hague. We assert our steadfast adherence to the policy announced in the Monroe doctrine. The provisions of The Hague convention were wisely regarded when President McKinley tendered his friendly offices in the interest of peace between Great Britain and the South African Republic.

While the American government must continue the policy prescribed by Washington, affirmed by every succeeding president, and imposed upon us by The Hague treaty, of non-intervention in European controversies, the American people earnestly hope that a way may soon be found, honorable alike to both contending parties, to terminate the strife between them.

THE PHILIPPINES AND CUBA.

In accepting, by the treaty of Paris, the just responsibility of our victories in the Spanish war, the president and the senate won the undoubted approval of the American people. No other course was possible than to destroy Spain's sovereignty throughout the West Indies and in the Philippine islands.

That course created our responsibility before the world, and with the unorganized population whom our intervention had freed from Spain to provide for the maintenance of law and order, and for the establishment of good government and for the performance of international obligations.

Our authority could not be less than our responsibility, and wherever sovereign rights were extended it became the high duty of the government to maintain its authority, to put down armed insurrection and to confer the blessings of liberty and civilization upon all the rescued peoples.

The largest measure of self-government consistent with their welfare and our duties shall be secured to them by law.

To Cuba independence and self-government were assured in the same voice by which war was declared, and to the letter this pledge shall be performed.

AN HONORABLE RECORD.

The Republican party, upon its history and upon this declaration of its principles and policies, confidently invokes the considerate and approving judgment of the American people.

EDITOR'S AWFUL FLIGHT.

P. M. Higgins, Editor Seneca (Ill.) News, was afflicted for years with Piles that no doctor or remedy helped until he tried Bucklen's Arnica Salve. He writes two boxes wholly cured him. It's the surest Pile cure on earth and the best salve in the world. Cure guaranteed. Only 25c. Sold by Fischer & Co., druggists.

His Mind Gave Way.

The literature was clearly mad. Let me but write the people's jokes, he yelled, and I care not who reads proof of these.

We reported all this to the proper authorities, calling attention at the same time to the wild, hunted look in the fellow's eyes.—Detroit Journal.

The Santa Fe Route.

International Convention Baptist Young People's Union of America, Cincinnati, O., July 12 to 15.—Round-trip ticket, Santa Fe to Cincinnati, \$47.10. Dates of sale, July 9 and 10. Good for return passage leaving Cincinnati up to and including August 10, 1900.

Biennial Conclave Knights of Pythias, Detroit, Mich., August 27 to September 1.—Round-trip tickets, Santa Fe to Detroit, \$48.60. Dates of sale, August 23, 24 and 25. Good for return passage leaving Detroit up to and including September 14, 1900.

National Educational Meeting, Charleston, S. C., July 7 to 13, 1900.—For this occasion the Santa Fe Route will sell tickets to Charleston and return at the low rate of \$53.75 for the round trip. Dates of sale July 1, 3, 4 and 6, 1900. Good to return until September 1, 1900. Stop-overs will be allowed at points south of the Ohio river. For particulars call on any agent of the Santa Fe Route.

Firemen's Tournament, Santa Fe, N. M., July 3, 4 and 5, 1900.—For this occasion the Santa Fe Route will place on sale tickets from all points in New Mexico to Santa Fe and return at one fare for the round trip. Dates of sale, July 2, 3 and 4, good for return passage until July 6, 1900.

H. S. LUTZ, Santa Fe, N. M.
W. J. BLACK, G. P. A., Topeka, Kas.

Little Tommy's Guess.

What does it mean, Tommy, the Sunday-school teacher asked, where it says, "They rent their clothes?"

I suppose they couldn't afford to buy them, replied Tommy.—Detroit Free Press.

HEARTBURN.

When the quantity of food taken is too large or the quality too rich heartburn is likely to follow, and especially so if the digestion has been weakened by constipation. Eat slowly and not too freely of easily digested food. Massages elapse between meals and when you feel a fullness and weight in the region of the stomach after eating, indicating that you have eaten too much, take one of Chamberlain's Stomach and Liver Tablets and the heartburn may be avoided. For sale by A. C. Ireland.

A Lesson in Fractions.

"Why are you in half mourning?"

"My husband is half dead."

It has been demonstrated by experience that consumption can be prevented by the early use of One Minute Cough Cure. This is the favorite remedy for coughs, colds, croup, asthma, grippe and all throat and lung troubles. Cures quickly. Ireland's Pharmacy.

More Practical.

May—Don't you think a girl looks graceful holding a guitar?

Tom—Yes, but a man looking for a wife would rather see a girl holding a bread pan.

A gentleman recently cured of dyspepsia gave the following appropriate rendering of Burns' famous blessing: "Some have meat and cannot eat, and some have none that want it; but we have meat and we can eat—Kodol Dyspepsia Cure be thanked." This preparation will digest what you eat. It instantly relieves and radically cures indigestion and all stomach disorders. Ireland's Pharmacy.

Just the Same.

Summer Boarder—What is the maximum temperature here?

Farmer Backwoods—I can't say exactly, but you can bet it's as maximum as it is anywhere.—Puck.

The law holds both maker and circulator of a counterfeit equally guilty. The dealer who sells you a dangerous counterfeit of DeWitt's Witch Hazel Salve risks your life to make a little larger profit. You cannot trust him. DeWitt's is the only genuine cure for piles and all skin diseases. See that your dealer gives you DeWitt's Salve. Ireland's Pharmacy.

"It."

Caller—I want to see the head of the family.

Husband—You can't. It put on its bonnet awhile ago and went out.—Detroit Free Press.

SICK HEADACHE ABSOLUTELY AND PERMANENTLY CURED BY USING MOKI TEA. A pleasant herb drink. Cures constipation and indigestion, makes you eat, sleep, work and happy. Satisfaction guaranteed or money back. 25 cts. and 50 cts. For sale at Fischer's drug store.

Civic Enthusiasm.

Uncle Jedediah—I just got another letter from some fellows in New York telling me that if I would come to the city they'd give me five thousand dollars of good paper money for only five hundred dollars of my old cash.

Uncle Hezekiah—If'n'ph! Beats the Dickens how hard they're workin' ter make New York the financial centre of the world.—Brooklyn Life.

PLAYED OUT.

Dull Headache, Pains in various parts of the body, Sinking at the pit of the stomach, Loss of appetite, Feverishness, Pimples or Sores are all positive evidences of impure blood. No matter how it became so, it must be purified in order to obtain good health. Ackers' Blood Elixir has never failed to cure Scrofulous or Syphilitic poisons or any other blood diseases. It is certainly a wonderful remedy, and we sell every bottle on a positive guarantee.

For sale at Fischer's drug store.

Kodol Dyspepsia Cure

Digests what you eat.

Artificially digests the food and aids nature in strengthening and reconstructing the exhausted digestive organs. It is the latest discovered digestant and tonic. No other preparation can approach it in efficiency. It instantly relieves and permanently cures Dyspepsia, Indigestion, Heartburn, Flatulence, Sour Stomach, Nausea, Sick Headache, Gastralgia, Cramps and all other results of imperfect digestion.

Price 50c. and \$1. Large size contains 3 1/2 times as much. Book all about dyspepsia mailed free. Prepared by E. C. DEWITT & CO., Chicago. Ireland's Pharmacy.

ELEPHONE NO. 95. SANTA FE, New Mexico

The Largest Endowment ever paid.

Fifteen years ago Mr. George Gooderham, of Toronto, took out 15-Year Endowment Policy No. 289,421 for \$100,000. In the Equitable Life Assurance Society of the United States, paying an annual premium of \$8.382. Now his policy has matured and shows the following results:

1 Cash	\$150,847
2 Paid-up Assurance	\$210,000
3 Annuity for Life	\$ 20,320

At the same time Mr. Gooderham took out a policy of the same kind for the same amount and with the same premium in another company; the cash return on which was \$15,000 less than on the Equitable policy.

Here is what Mr. Gooderham says of his results:
"I have always been a strong advocate of Endowment Insurance, and about the time I took your policy for \$100,000 I placed \$400,000 of Endowment policies on my life in eight different companies. Of this amount \$310,000 has already matured. I have lived to see the result and to know what it means."

"These results realized by the Equitable are" "larger and more satisfactory than any result" "ever realized by me on any of my policies which" "have matured to date. I may say they are quite" "satisfactory, and that no company has ever done" "so well for me."

Strongest in the World

THE EQUITABLE Life Assurance Society of the United States.

Every Policy Protected by \$61,000,000 of Surplus.

Energetic men who desire to represent the society address

(New Mexico and Arizona Department.)
Albuquerque, New Mexico.

S. E. LANKARD, Resident Agent,
Santa Fe, New Mexico.

PERSONAL MENTION.

Miss Ethel E. Gregg, of Edmund, Okla., is a visitor in Santa Fe. J. D. Sena, clerk of the supreme court, is again confined to his home by illness. Mrs. Henry Grant is here from Abilene, to remain until after the Fourth. E. M. Johnson and A. B. Johnson, of Columbus, O., are sight-seeing about the city.

W. T. Middleton, secretary of the Monte Cristo Placer Company, drove in from Golden to-day on a business trip. William Nowell, one of the faithful employees in the Star mine, came in from Bland last night to spend several days.

Juan Navarro, one of the penitentiary commissioners, is here from Mora to attend the meeting of the commission at the penitentiary to-day.

District Attorney R. C. Gortner is home from the Philadelphia convention and a visit to friends and relatives in Indiana.

Richard Mathews, of San Pedro, who has charge of the development work in Hon. T. B. Catron's copper mines, came in from the south at noon.

Messrs. Edward and Manuel Otero and George Armijo returned Saturday night from a trip to the Berge ranch. The latter was out 30 days taking the census at Pino's Wells and vicinity.

Hon. John R. McFie returned last night from a visit to Chicago, New York and Philadelphia. His daughter, Miss Maud, accompanied him and stopped off for a visit among Indiana friends.

Hon. J. T. McLaughlin is in from San Pedro attending the county board and penitentiary commission meetings. He says the work of building the 300-ton smelter of the Santa Fe Gold & Copper company goes forward rapidly.

Mrs. J. D. Sena, Sr., has gone to Rayado, Colfax county, to be present at the funeral of Jesus Abreu. She took with her Carlos Abreu's little daughter, who has been attending school here.

William Queller, Kansas City; James Helphinstine, M. B. Hall, Pueblo, Colo.; Charles Shields, Denver; G. H. Hooper, Trinidad; Mrs. Mills and family, Bland; D. Buenabinta and wife, Raton, are among to-day's arrivals at the Exchange.

Col. J. C. Hoffmeier, who lately purchased the Twitchell ranch, and William Evans, of the Espanola valley, are in town to-day. They say the Espanola region is supplying a good fruit crop this season, which will be shipped to southern Colorado mining camps for market.

Sylvester M. Lowell, who was in Santa Fe last week, was so much pleased with this glorious climate and with the friends he met here, that he has decided to leave the Cochiti and remove here to reside permanently. Mr. Lowell is a veteran of the Fifth Kansas cavalry, having served from June 10, 1861, to April 14, 1865.

J. T. Steel is home from Leavenworth, Kan., where he went to escort to the soldiers' home a veteran named Samuel M. Summers, who for nine years had been an inmate of St. Vincent hospital.

Mr. Steel stopped off at Kansas City and viewed the big convention hall. He comes back convinced that there is no climate like that of Santa Fe, and he has traveled some in his lifetime.

Supt. I. B. Hanna, of the New Mexico and Arizona forest reserves, has returned to his headquarters here after his first trip of inspection over the reservations in the latter territory.

He brings with him his son Harry, a clever young limb of the law, who has been serving as range rider in Arizona, but comes to Santa Fe to pursue his law studies. W. J. Belden, of Joliet, Ill., a friend of Mr. Hanna, arrived yesterday from the east, and is soon to be assigned to a position as range rider, probably in Arizona.

Ortiz-Ortiz.

Facundo Ortiz, son of Mr. Ambrosio Ortiz, and Francisquita Ortiz, daughter of Mr. Antonio Ortiz y Salazar, both belonging to prominent families in the territory, were married at the cathedral at 8:30 o'clock this morning. Miss Luz Ortiz, sister of the bride, was bridesmaid, and Celestino Ortiz was best man. The cathedral was handsomely decorated.

Vicar General Fourhegu officiated. After the ceremony the many relatives of the young couple went to the bride's house where an elegant dinner was served.

Probate Court.

The regular term of the probate court opens tomorrow morning.

County Commissioners.

The board of county commissioners is in session today, a full board being in attendance to hear complaints with reference to tax assessments.

Open day and night at the Bon-Ton.

Alfalfa Pasture.

Good pasturage, plenty of pure water at \$2 per head per month; apply to Santa Fe Water & Light Co.

Kansas City and return, \$28.55, July 1 and 2, Santa Fe Route.

Ice cream, \$1.50 per gallon at the Bon-Ton.

William Gray.

Whose hens would lay only each one egg per day. Brought him of a cruel hoax. A larger crop of eggs to coax. He boarded up his hen-coop tight. And hung therein electric light. A button pressed, made night of day. And pressed again 'twas 't'other way. Thus night and morn would come and go.

When William Gray would will it so. His simple fowls asked not the cause. Anon they followed Nature's laws. Now several eggs per day do lay. Each faithful hen of William Gray. —Santa Fe Water & Light Company.

If you want good meals go to the Bon-Ton.

PERFECT LAUNDRY WORK

W. J. Slaughter, Agent.
Orders taken at Slaughter's barber shop, south side of plaza. Basket leaves at 7 a. m. on Wednesdays and returns on Friday night; laundry ready for delivery Saturday morning. No extra freight or delivery charges. The Las Vegas Steam laundry makes specialty of fine laundry work, and its work is first class in all particulars. PHONE 107

GOVERNOR OTERO HOME.

He Is Well Pleased with the Reception Given the New Mexico Delegates. Governor Otero returned home Saturday evening from Philadelphia and Washington. Although considerably fatigued and suffering from a slight cold he was hard at work today clearing away the official business that had accumulated during his absence. He was also besieged by callers and was a very busy man indeed.

Naturally, he was gratified with the reception tendered the New Mexico delegation both at Washington and Philadelphia. They were the recipients of special attention upon several occasions which is an indication that New Mexico is well thought of in political circles. Governor Otero feels convinced that the Republican national platform means just what it says when it pledges itself to admit New Mexico to statehood.

Governor Otero saw on every side in the east and in the middle west signs of unparalleled prosperity and the enthusiasm over the nominations made at Philadelphia is so great that President McKinley and Governor Roosevelt will sweep the country without a doubt at the November election.

Governor Otero probably will be unable to be with the committee that will formally notify President McKinley at Canton, Ohio, of his nomination and has telegraphed Hon. Solomon Luna to represent him upon the occasion.

SUMMONED BY DEATH.

Jose Rafael Baca Died Last Night—A Death at Pojoaque.

Jose Rafael Baca died last night after a long and painful illness with kidney disease. He was a native of Santa Fe, aged 65 years, and leaves a large number of relatives and friends to mourn his death. Deceased was a New Mexico volunteer during the war of the rebellion and participated in the battle of Valverde. Surviving him are a wife and nine sons and daughters, among the former being Severino Baca, member of the city school board. The funeral is set for early tomorrow morning.

Mrs. Mary Wagner, late of Kansas City, died yesterday at the house of her son at the Bonquet place, Pojoaque. She was 86 years of age and had lately come out from Missouri on a visit.

CARLETON POST.

Its Membership Is Keeping Above the Fifty Mark.

Carleton Post, G. A. R., easily holds its own as the banner post of New Mexico. On the 30th of June the reports of John R. McFie as chaplain, W. S. Fletcher, adjutant, Charles Wagner, quartermaster, and William Bolander, inspector, for the past six months, were promptly sent to department headquarters. For several years the membership in the post has remained at fifty four, the gains just equaling the losses. The reports just forwarded show the gains to be: John R. McFie, George B. Hendricks and J. P. Wielandy, all judges, or ex-judges, who joined by transfer from other posts, and Pedro Sanchez, joined by muster. The losses have been: Charles Becker, died January 9, 1900; Capt. Hiram Crompton, transferred to Kansas City; Capt. S. H. Day and Henry Guelcker, transferred to the department of California. Hon. John P. Victory, post commander, is naturally very much pleased with the good condition of the post.

Will Explore the Cliff Dwellings.

Professor E. L. Hewitt and wife drove in from Las Vegas Saturday night, spent yesterday in town and left this morning to establish camps in northern Santa Fe and Bernalillo counties where the cliff dweller researches on behalf of the New Mexico Normal university will be carried on for the next two months. They will be joined in a few days by a party of Las Vegas consisting of Professors Powell, Hanson and Givens, of the college faculty; Miss Ruth Reynolds, Rolla McBride and John F. Mapes and wife. Most of their work will be confined to the Rito de las Frijoles region.

Probate Court.

The regular term of the probate court opens tomorrow morning.

County Commissioners.

The board of county commissioners is in session today, a full board being in attendance to hear complaints with reference to tax assessments.

Open day and night at the Bon-Ton.

OJO CALIENTE

(HOT SPRINGS.)

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Barranca Station, on the Denver & Rio Grande Railway, from which point a daily line of stages run to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilis and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, Lodging and Bathing, \$2.50 per day; \$14 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 10:08 a. m. and reach Ojo Caliente at 5 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, \$7. For further particulars, address

Antonio Joseph, Proprietor.
