A CHINESE SURPRISE

The Empress Dowager Takes Hold of the Reins of Government Again.

FAVORABLE TO FOREIGNERS

The Legations Are Still Holding Out—The Boxer Movement Is Subsiding—Prince Ching Seized the Ammunition of the Rebels.

Shanghai, July 10.—News from official sources was received last night to the effect that the empress had on June 30 resumed the reins of government, and had appointed Yung Lu prime minister. It is said that she sent a dispatch to Nanking by courier at the rate of 100 miles a day, thanking the viceroys of the Yangtze River provinces for their loyalty, and recommending that they protect the foreigners at any cost.

LEGATIONS STANDING ON JULY 5.

Washington, July 10.—The secretary of state received a dispatch from Goodnow, United States consul at Shanghai, stating that it was given out by the governor of Shanghai that the legations were standing on July 5, and the outlaws were dispersing. Goodnow adds that this statement does not obtain general credence.

A SURPRISE.

London, July 10.—Chinese official sources furnish another surprise to-day in announcing that the dowager empress, who had been reported within two weeks dead, fled, poisoned and hopelessly mad, has resumed the reins of power.

READY TO LEAVE.

Washington, July 10.—General MacArthur cables the war department that the 14th infantry and the 5th artillery leave Friday for Taku. Other troops are being sent to replace these.

TO MARCH ON PEKIN.

Japanese officials assert that the Japanese propose to advance on Pekin during the present week. Their military authorities express the opinion that 20,000 of their troops, in addition to the international forces already available, will suffice to force an entry into the Chinese capital.

A REFUGE FOR CHRISTIANS.

Tien Tsin, July 10.—It is reported from Chinese sources that the foreigners at Pekin have taken possession of one of the prince's palaces opposite and commanding the British legation, and that the native Christians have been installed therein.

AMMUNITION SEIZED.

London, July 10, 3:25 a. m.—With the foreigners in Pekin probably safe amid civil war, with Prince Ching on their side, and with the powers united and their forces constantly increasing, the outlook in China is now rather more hopeful than it has been for a month past. It appears from cautious statements given out by Tao Tai Sheng in Shanghai that the reason the heavy guns bearing on the legations at Pekin were not used is that Prince Ching, who is served by 10,000 troops, seized all the artillery ammunition. Sheng likewise intimates that Yung Lu, commander in chief of the northern army, is associated with Prince Ching in opposing Prince Tuan's ferocious designs and dictatorial ambition.

AMERICA'S POSITION DEFINED.

Washington, July 10.—The state department made public the identical note recently delivered to the powers defining the position of the United States respecting the Chinese troubles. It is as follows:

"Department of State, Washington, D. C., July 3, 1900.—In this critical posture of affairs in China, it is deemed appropriate to define the attitude of the United States as far as present circumstances permit this to be done. We adhere to the policy initiated by us in the 1857 peace with the Chinese nation, of furtherance of lawful commerce and the protection of the lives and property of our citizens by all means guaranteed under the extra-territorial treaty rights and by the law of nations. If wrong be done to our citizens we propose to hold responsible the authors to the utmost of our power. We regard the condition at Pekin one of virtual anarchy, whereby the power and responsibility is practically devolved upon the local provincial authorities. So long as they are not in overt collision with the rebellion and use their power to protect foreign life and property, we regard them as representing the Chinese people, with whom we seek to remain in peace and friendship. The purpose of the president is, as it has been heretofore, to act concurrently with the other powers, first in opening up communication with Pekin and rescuing the American officials, missionaries and other Americans who are in danger; secondly, affording all possible protection everywhere in China to American life and property; thirdly, in guarding and protecting all legitimate American interests; and, fourthly, in adding to prevent the spread of disorders to other provinces of the empire and the recurrence of such disasters. It is, of course, too early to forecast the means of attaining this last result, but the policy of the government of the United States is to seek a solution which may bring about permanent safety and peace in China, to preserve territorial and administrative unity, to protect all rights guaranteed the friendly powers by treaty and international law, and to safeguard for the world the principle of equal and impartial trade with all parts of the Chinese empire. You will communicate the purport of this instruction to the minister of foreign affairs.

(Signed) "HAT."

No answer from the different powers was required or expected to the circular, but it is understood that it has been everywhere favorably received, and no objections have been made to it in any quarter.

A BATTLE AT TIEN TSIN.

Tien Tsin, July 10.—The Chinese shelled the foreign settlements all day long on July 3. Upward of 150 shells fell into the concession, and many houses were partially wrecked. The casualties, however, were few, civilians, women and children being ordered to seek shelter in the cellars of the town hall and at the Astor hotel. Three companies of Japanese infantry, a mountain battery and a body of Russians engaged the Chinese artillery, but with little effect. A 12-pounder from the British first-class cruiser Terrible then came into action, but the enemy placed two shells fairly under the gun, damaging the carriage and wounding the crew. The gun was replaced by a French gun, which had a similar experience, the shell bursting in the midst of its crew.

The Japanese casualties during the day's fighting were one officer and two men killed and twenty wounded. The casualties of the other forces engaged are not yet known. The Chinese in the vicinity of Tien Tsin have been re-enforced during the last forty-eight hours by several thousand of General Ma's and General Sung's troops from Fekin. The Chinese also mounted a number of heavy guns, commanding the settlements. A force of Boxers numbering about 3,000 men was seen entering the native city yesterday. Vice Admiral Alexieff arrived here, and is expected to assume supreme command. The allied forces now number about 10,000 men, including 800 Japanese who arrived yesterday. Arrangements are being made to send all women and children to Japan by way of Taku and Chefoo.

The Wool Market.

St. Louis, July 10.—Wool steady, unchanged.

AMONG CATTLEMEN

This Is a Very Prosperous Year for the Stockmen of New Mexico.

SHEEP SHOULD BE DIPPED

A Meeting of the Southwestern New Mexico Cattle Protective Association—The Carlsbad Wool Scouring Plant Has a Large Output.

J. P. White, of Roswell, bought all of Joe Champion's cattle last week—the J O bar brand—in Chaves county. Godair & Garrett, of Chaves county, sold their wool clip, amounting to nearly 100,000 pounds, to John Lyon at 16 1/2 cents per pound.

The wool scouring plant at Carlsbad is now putting in twelve hours a day, and is turning out 12,000 pounds daily. They are shipping three cars a week of scoured wool.

L. Baldwin, owner of the bar cross brand, with headquarters at Engle, went to Separ last week, where he bought 600 head of cattle from L. B. Lindsay, which he shipped to Pueblo, Colorado.

Colonel French, the big cattleman in the southwest part of Socorro county, is now gathering the remnant of his large herds for shipment to Colfax county. The reason he gives for abandoning Socorro county is his large losses from rustlers.

W. T. Jones, a cattleman from Texas, bought 155 acres of land last week from the Roswell Land and Water Company. He has ample means, and will at once begin valuable improvements on the tract, including an artesian well.

A. D. Garrett, of the firm of Godair & Garrett, who now own about 20,000 head of the finest wethers in Chaves county, bought 786 wethers last week from George A. White and 617 head from Charles White, both of Hagerman. Persons who intend shipping sheep to market should see that they are perfectly free from scab before loading them. United States inspectors are carefully inspecting all sheep and holding up everything that shows any signs of scab. Where any doubt exists, it will pay to dip before shipping.

The number of feeders shipped out over the Pecos Valley road thus far this season from all stations will exceed 200,000 head, leaving the grasser and the beef cattle later on to make up by the end of the year an estimate made by careful calculation of say 300,000 head all told for the year.

The Armour Packing Company, owning large ranches in Mexico, has been shipping some fine graded cattle and pigs through to the neighboring republic. The stock enjoyed ample room, and was being carefully looked after at all stations on the Santa Fe route.

John Richey and sons and Harry W. and James C. Hamilton, of Chaves county, bought 100 head of fine Cleveland bay and thoroughbred mares and two fine jacks—one Missouri bred and the other from Kentucky—of R. F. Barnett, near Roswell, last week, and will put them on their El Verde Grande farm near Miller, Pecos valley, and make a specialty of raising mules for sale.

At the recent meeting of the Southwestern New Mexico Cattle Protective Association at Silver City a discussion was had on the subject of an increase of the bounty paid for wolves and lions. It was the sense of those present that the present amount, \$5, was not sufficient to encourage the trappers to effort in the matter of killing, and that as the stockmen themselves had no time to hunt the animals, they thought the amount of bounty ought to be increased. A subcommittee laid the matter before the board of county commissioners, which has taken the question under advisement. A levy of 2 cents per head based on the last returns to the assessor, was made for general expense purposes of the association.

Transvaal Loss of Life.
Moralists are discussing the terrible loss of life brought about by the Transvaal war. Yet here life is sacrificed for a purpose—for an honest principle. It were better to preach against the needless sacrifice of life. Thousands of people succumb to ailments which might easily have been checked in the beginning. Dyspepsia carries off more people than are killed in war. The use of Hostetter's Stomach Bitters would save many lives. Constipation may seem a little thing, but it invariably develops into something worse, and the longer it is allowed to run, the harder it is to cure. The Bitters cures indigestion, constipation, dyspepsia and biliousness, naturally and permanently, without shocking the system. It is good for everybody.

THE REPUBLICAN PLATFORM

It Sets Forth Succinctly and Clearly the Position of the Republican Party.

MANY POLITICAL PROBLEMS

The Party Has Redeemed the Promises Made In 1896—It Will Also Keep the Promises Made At Philadelphia—A Prosperous Administration.

The following is the text of the Republican platform, as adopted by the national convention at Philadelphia: The Republicans of the United States, through their chosen representatives in national convention, looking back upon an unsurpassed record of achievement, and looking forward into a great field of duty and opportunity and appealing to the judgment of their countrymen, make these declarations:

PROMISES REDEEMED.
The expectation in which the American people, turning from the Democratic party, intrusted power four years ago to a Republican chief magistrate and a Republican congress, has been met and satisfied. When the people then assembled at the polls after a term of Democratic administration business was dead, industry paralyzed and the national credit disastrously impaired. The country's capital was hidden away and its labor distressed and unemployed.

The Democrats had no other plan with which to improve the ruinous conditions which they had themselves produced than to coin silver at the ratio of 16 to 1. The Republican party, denouncing the plan as sure to produce conditions even worse than those from which relief was sought, promised to restore prosperity by means of two executive measures—a protective tariff and a law making gold the standard of value. The people by great majorities issued to the Republican party a commission to enact these laws. This commission has been executed and the Republican promise is redeemed.

SOLID PROSPERITY.
Prosperity more general and more abundant than we have ever known has followed these enactments. There is no longer controversy as to the value of any government obligations. Every American dollar is a gold dollar, or its assured equivalent, and American credit stands higher than that of any nation. Capital is fully employed, and everywhere labor is profitably occupied.

No single fact more strikingly tells the story of what Republican government means to the country than this—that while during the whole period of 107 years, from 1790 to 1897, there was an excess of exports over imports of only \$383,026,497, there has been in the short three years of the present Republican administration an excess of exports over imports in the enormous sum of \$1,482,738,094.

A SUCCESSFUL WAR.
And while the American people sustained by this Republican legislation have been achieving these splendid triumphs in their business and commerce, they have conducted and in victory concluded a war for liberty and human rights. No thought of national aggrandizement tarnished the high purpose with which American standards were unfurled.

It was a war unsought and patiently resisted, but when it came the American government was ready. Its fleets were cleared for action. Its armies were in the field, and the quick and signal triumph of its forces on land and sea bore equal tribute to the courage of American soldiers and sailors and to the skill and foresight of Republican statesmanship. To 10,000,000 of the human race there was given "a new birth of freedom," and to the American people a new and noble responsibility.

PRESIDENT'S STATESMANSHIP.
We endorse the administration of William McKinley. Its acts have been established in wisdom and patriotism, and at home and abroad it has distinctly elevated and extended the influence of the American nation. Walking untrodden paths and facing unforeseen responsibilities, President McKinley has been in every situation the true American patriot and the upright statesman, clear in vision, strong in judgment, firm in action, always inspiring and deserving the confidence of his countrymen.

DEMOCRATIC INCOMPETENCY.
In asking the American people to endorse this Republican record and to renew their commission to the Republican party, we remind them of the fact that the menace to their prosperity has always resided in Democratic principles, and no less in the general incapacity of the Democratic party to conduct public affairs. The prime essential of business prosperity is public confidence in the good sense of the government and its ability to deal intelligently with each new problem of administration and legislation. That confidence the Democratic party has never earned. It is hopelessly inadequate, and the country's prosperity when Democratic success at the polls is announced halts and ceases in mere anticipation of Democratic blunders and failures.

THE GOLD STANDARD.
We renew our allegiance to the principles of the gold standard, and declare our confidence in the wisdom of the legislation of the fifty-sixth congress by which the parity of all our money and the stability of our currency on a gold basis has been secured.

We recognize that the rates of interest are a potent factor in production and business activity, and for the purpose of further equalizing and of lowering the rates of interest we favor such monetary legislation as will enable the varying needs of the season and of all sections to be properly met in order that trade may be evenly sustained, labor steadily employed and commerce enlarged. The volume of money in circulation was never so great per capita as it is to-day.

We declare our steadfast opposition to the free and unlimited coinage of silver. No measure to that end could be considered which was without the support of the leading commercial countries of the world. However firmly Re-

publican legislation may seem to have secured the country against the peril of a base and discredited currency, the election of a Democratic president could not fail to impair the country's credit and to bring once more into question the intention of the American people to maintain upon the gold standard the parity of their money circulation. The Democratic party must be convinced that the American people will never tolerate the Chicago platform.

UNLAWFUL TRUSTS.
We recognize the necessity and propriety of the honest co-operation of capital to meet new business conditions, and especially to extend our rapidly increasing foreign trade, but we condemn all conspiracies and combinations intended to restrict business, to create monopolies, to limit production or to control prices, and favor such legislation as will effectively restrain and prevent all such abuses, protect and promote competition and secure the rights of producers, laborers and all who are engaged in industry and commerce.

THE PROTECTION POLICY.
We renew our faith in the policy of protection to American labor. In that policy our industries have been established, diversified and maintained. By protecting the home market the competition has been stimulated and production cheapened. Opportunity to the inventive genius of our people has been secured and wages in every department of labor maintained at high rates, higher now than ever before, always distinguishing our working people in their better conditions of life from those of any competing country. Enjoying the blessings of the American common school, secure in the right of self-government, and protected in the occupation of their own markets, their constantly increasing knowledge and skill have enabled them finally to enter the markets of the world.

RECIPROCITY.
We favor the associated policy of reciprocity so directed as to open our markets on favorable terms for what we do not ourselves produce in return for free foreign markets.

LAWS TO PROTECT LABOR.
In the further interest of American workmen, we favor a more effective restriction of the immigration of cheap labor from foreign lands, the extension of opportunities of education for working children, the raising of the age limit for child labor, the protection of free labor as against contract convict labor, and an effective system of labor insurance.

OUR MERCHANT MARINE.
Our present dependence upon foreign shipping for nine-tenths of our foreign carrying is a great loss to the industry of this country. It is also a serious danger to our trade, for its sudden withdrawal in the event of European war would seriously cripple our expanding foreign commerce. The national defense and naval efficiency of this country, moreover, supply a compelling reason for legislation which will enable us to recover our former place among the trade-carrying fleets of the world.

PENSIONS.
The nation owes a debt of profound gratitude to the soldiers and sailors who have fought its battles, and it is the government's duty to provide for survivors and for the widows and orphans of those who have fallen in the country's just and noble wars. The pension laws, founded in this just sentiment, should be liberal and should be liberally administered, and preference should be given whenever practicable, with respect to employment in the public service, to soldiers and sailors and to their widows and orphans.

THE CIVIL SERVICE.
We commend the policy of the Republican party in maintaining the efficiency of the civil service. The administration has acted wisely in its effort to secure for public service in Cuba, Porto Rico, Hawaii and the Philippine Islands only those whose fitness has been determined by training and experience. We believe that employment in the public service in these territories should be confined as far as practicable to their inhabitants.

NEGRO DISFRANCHISEMENT.
It was the plain purpose of the fifteenth amendment to the constitution to prevent discrimination on account of race in regulating the elective franchise. Devices of state governments, whether by statutory or constitutional enactment, to avoid the purpose of this amendment, are revolutionary, and should be condemned.

ROADS AND HIGHWAYS.
Public movements looking to a permanent improvement of the roads and highways of the country meet with our cordial approval, and we recommend this subject to the earnest consideration of the people and of the legislatures of the several states.

RURAL FREE DELIVERY.
We favor the extension of the rural free delivery service wherever its extension may be justified.

RECLAIMING ARID LANDS.
In further pursuance of the constant policy of the Republican party to provide free homes on the public domain, we recommend adequate national legislation to reclaim arid lands of the United States, reserving control of the distribution of water for irrigation to the respective states and territories.

STATEHOOD FOR TERRITORIES.
We favor home rule for and the early admission to statehood of the territories of New Mexico, Arizona and Oklahoma.

REDUCTION OF WAR TAXES.
The Dingley act, amended to provide sufficient revenue for the war, has so well performed its work that it has been possible to reduce the war debt in the sum of \$40,000,000. So ample are these government revenues, and so great is the public confidence in the integrity of its obligations, that its newly funded 2 per cent bonds sell at a premium. The country is now justified in expecting, and it will be the policy of the Republican party to bring about, a reduction of the war taxes.

NICARAGUA CANAL.
We favor the construction, ownership, control and protection of an isthmian canal by the government of the United States.

ORIENTAL MARKETS.
New markets are necessary for the increasing surplus of our farm products. Every effort should be made to open and obtain new markets, especially in the Orient, and the administration is warmly to be commended for its successful effort to commit all trading and colonizing nations to the policy of the open door in China.

If they only could, many rich men would erase the W in wealth and write H in its place, and so change wealth into health. It's the saddest thing about riches that in acquiring them men often ruin their health and at their prime are doomed to live "perked up in a glistering grief and wear a golden sorrow." The trouble is generally with the stomach. In the rush for riches there's been no time for regularity, no consideration of right food. The stomach and other organs of digestion and nutrition become diseased and then begins the bitter and varied sufferings of the man with "stomach trouble." Yet this condition can be cured. The stomach and other organs of digestion and nutrition can be restored to a normal condition of sound health. Thousands testify that Dr. Pierce's Golden Medical Discovery, strengthens the stomach, nourishes the nerves and purifies the blood, that it breaks the bonds of the dyspeptic, and makes him a healthy, happy man. No alcohol whisky or other intoxicant is contained in "Golden Medical Discovery."

"I was a sufferer from what the doctors called indigestion, but after trying several eminent physicians failed to get a cure," writes Mr. Frank Mericle, P. O. Box 475, Independence, Jackson Co., Mo. "Some of my symptoms were soreness in pit of stomach, fullness, tired feeling, constipation, sometimes nervous prostration, and bowels. Some one recommended me to take Dr. Pierce's Golden Medical Discovery, which I did, and after taking only a few bottles of 'Discovery' and your 'Pleasant Pellets' can say I derived more benefit from them than from any other medicine I ever tried. I began to gain in flesh from the start. Have recommended it to others and will continue to do so."

Dr. Pierce's Pleasant Pellets do not become a necessity to the system, they have relieved of accumulations and obstructions.

NEW EXECUTIVE DEPARTMENT.
In the interest of our expanding commerce we recommend that congress create a department of commerce and industries, in the charge of a secretary, with a seat in the cabinet.

The United States consular system should be reorganized under the supervision of this new department, under such a basis of appointment and tenure as will render it still more serviceable to the nation's increasing trade.

PROTECTION OF CITIZENS.
The American government must protect the person and property of every citizen wherever he is wrongfully violated or placed in peril.

WORK OF WOMEN.
We congratulate the women of America upon their splendid record of public service in the volunteer aid association and as nurses in camp and hospital during the recent campaigns of our armies in the eastern and western Indies, and we appreciate their faithful co-operation in all works of education and industry.

SAMOA.
President McKinley has conducted the foreign affairs of the United States with distinguished credit to the American people. In releasing us from the vexatious condition of a European alliance for the government of Samoa, his course is especially to be commended. By securing to our undivided control the most important island of the Southern Pacific, every American interest has been safeguarded.

HAWAII.
We approve the annexation of the Hawaiian Islands to the United States, BOERS AND MONROE DOCTRINE.

We commend the part taken by our government in the peace conference at The Hague. We assert our steadfast adherence to the policy announced in the Monroe doctrine. The provisions of The Hague convention were wisely regarded when President McKinley tendered his friendly offices in the interest of peace between Great Britain and the South African Republic.

While the American government must continue the policy prescribed by Washington, affirmed by every succeeding president, and imposed upon us by The Hague treaty, of non-intervention in European controversies, the American people earnestly hope that a way may soon be found, honorable alike to both contending parties, to terminate the strife between them.

THE PHILIPPINES AND CUBA.
In accepting, by the treaty of Paris, the just responsibility of our victories in the Spanish war, the president and the senate won the undoubted approval of the American people. No other course was possible than to destroy Spain's sovereignty throughout the West Indies and in the Philippine Islands.

That course created our responsibility before the world, and with the unorganized population whom our intervention had freed from Spain to provide for the maintenance of law and order, and for the establishment of good government and for the performance of international obligations.

Our authority could not be less than our responsibility, and wherever sovereign rights were extended it became the high duty of the government to maintain its authority, to put down armed insurrection and to confer the blessings of liberty and civilization upon all the rescued peoples.

The largest measure of self-government consistent with their welfare and our duties shall be secured to them by law.

To Cuba independence and self-government were assured in the same policy by which war was declared, and to the letter this pledge shall be performed.

AN HONORABLE RECORD.
The Republican party, upon its history and upon this declaration of its principles and policies, confidently invokes the considerate and approving judgment of the American people.

COLD STEEL OR DEATH.
"There is but one small chance to save your life, and that is through an operation," was the awful prospect set before Mrs. I. B. Hunt, of Lime Ridge, Wis., by her doctor after vainly trying to cure her of a frightful case of stomach trouble and yellow jaundice. He didn't count on the marvelous power of Electric Bitters to cure Stomach and Liver troubles, but she heard of it, took seven bottles, was wholly cured, avoided surgeon's knife, now weighs more and feels better than ever. It's positively guaranteed to cure Stomach, Liver and Kidney troubles, and never disappoints. Price 50c at Fischer & Co.'s drug store.

WINE OF CARDUI

A SURE MEDICINE.

HANDSON, Va., Dec. 31.

I have been suffering from female weakness for four years, and have taken many medicines, but Wine of Cardui and Black-Draught have done more for me than anything else.

MRS. CAROLINE EVANS.

It is a mistake to take any and every kind of medicine when you are sick. There is danger in it. Most of the so-called cures for "female weakness" do nothing more than deaden the pain temporarily, and when the effect wears away the patient is weaker and sicker than before. It is never wise to take chances. You have only one life, and that is dear and precious. If you have any pain, ache, disorder or weakness in the feminine organs, nothing will help you like Wine of Cardui. It helps do away with morning sickness during the early stages of pregnancy, and modifies the pains of childbirth; recovery is rapid and future health is assured. The Wine is purely vegetable, being made of herbs whose medicinal properties act directly upon the organs of womanhood. It is a long-tried remedy, and has many years of success behind it. It is sure. Why take a chance medicine when you can get a sure medicine?

WINE OF CARDUI

The Largest Endowment ever paid.

Fifteen years ago Mr. George Gooderham, of Toronto, took out 15-Year Endowment Policy No. 289,421 for \$100,000. In the Equitable Life Assurance Society of the United States, paying an annual premium of \$3.32. Now his policy has matured and shows the following results:

1 Cash	\$150,847
2 Paid-up Assurance	\$210,000
3 Annuity for Life	\$ 20,320

At the same time Mr. Gooderham took out a policy of the same kind for the same amount and with the same premium in another company; the cash return on which was \$15,000 less than on the Equitable policy.

Here is what Mr. Gooderham says of his results:

"I have always been a strong advocate of Endowment Insurance, and about the time I took your policy for \$100,000 I placed \$400,000 of Endowment policies on my life in eight different companies. Of this amount \$310,000 has already matured. I have lived to see the result and to know what it means."

"These results realized by the Equitable are" "larger and more satisfactory than any result" "ever realized by me on any of my policies which" "have matured to date. I may say they are quite" "satisfactory, and that no company has ever done" "so well for me."

REPAIRING THE STREETS.

Excellent Work in That Line Being Done by Convicts.

Under legislative enactment Superintendent Bursum is authorized to supply a limited number of men to improve the public thoroughfares contiguous to the capitol and penitentiary. Eight trustees have thus been employed for some time past, and the results have been to greatly improve that section of the Cerrillos road lying between the two buildings. To-day work was commenced on Gaspar avenue, which leads south from the capitol, and which many persons use in going to the penitentiary. The bridge over Tenorio arroyo is receiving attention just now, but it is hoped the work will extend to repair of the street in general out as far as the golf links at least. On the hill some ugly pitfalls have been cut by abandoned irrigation ditches. Not long ago a fireman, while hastening to a fire on his wheel, went into one of these, and the accident laid him up for a number of weeks. A similar accident came very near happening during the storm the other night. The main cut is so deep that any vehicle going into it would be shattered, and the left of the driver would be endangered. As long as Superintendent Bursum is disposed to let the use of men to repair these roads, it should surely be the duty of the city authorities to look after such ugly breaks as exist on Gaspar avenue.

A STREET RAILWAY FRANCHISE.

Last Evening.

The city council last night spent an hour discussing the petition of Col. George W. Knaebel asking for a street railway franchise. In behalf of Denver capitalists the petitioner asks the city to grant him and his associates a franchise to gridiron the city of Santa Fe with horse-car lines, the franchise to be good for fifty years, and at least one mile to be in operation within one year from date of franchise. The car fare, as suggested in the petition, shall be 10 cents for adults and 5 cents for children. An animated talk followed the reading of the petition. The city fathers generally expressed themselves as in favor of doing all in their power to encourage the modern growth of Santa Fe, and considered the construction of a street car line as one of the things calculated to aid materially in this direction, besides serving to increase the value of real estate, but objection was raised on the points of the length of time the franchise was asked for and the price of the fare. It was thought that 5-cent fares would be nearer the right thing. Colonel Knaebel was not present in person, and the matter was referred to a committee to confer with the petitioner and report at a future meeting.

The finances of the city were again discussed somewhat. It appears that a very mixed condition of affairs exists, owing to the unbusinesslike way in which the financial records have been kept in recent years. It was asserted that several hundred dollars in interest coupons have been paid of which there is no record. The finance committee, consisting of Aldermen J. W. Akers, S. E. Lankard and J. E. Lacombe decided to look into the subject and try and bring order out of chaos, and for this purpose they held a meeting this afternoon.

A number of bills were presented and referred to the finance committee. City Engineer Zimmerman reported the necessity of having the Palace avenue sewer flushed out, and it was so ordered. The council adjourned to Friday evening.

A DOG SCARE.

A Vicious Canine Bit Several Children and Seven Dogs

The good work of dispatching worthless canines went bravely on last night. One report was that seventeen dogs had been made to bite the dust at the crack of the policeman's gun, but seven would be more correct. All these had been bitten yesterday morning by Andres Sena's dog that ran amuck on Manhattan and Gaspar avenues. Major Muller says the dog was frothing at the mouth when the animal sprang upon the handle bars of his wheel and bit him through the shoe. The same animal made an attack upon Mr. Sidebottom and Robert Helwig, and bit two children. One of these is the 5-year-old daughter of Felix Quintana, bitten on the arm, and the other was the 12-year-old daughter of Atalino Bica, who lives near San Miguel chapel. The dog also killed one of Felix Quintana's chickens, and appeared to be thoroughly crazed.

That Black Bear.

The black bear seen near the gas house on the 3d instant, is still nosing around in the pinoch bush north of old Fort Marcy. He was sighted again yesterday by Charles Gildersleeve and Algonson Slaughter while they were riding down the rock quarry road on their wheels. Here is a chance for the local sportsmen to engage in a real bear hunt right at home. Somebody with a pack of dogs and a winchester might go up against some real sport out in those hills if the effort were made.
