VOL. 37 SECOND EDITION

SANTA FE, N. M., WEDNESDAY, JULY 25, 1900. CITY AND NORTHERN MAIL NO. 133

ANOTHER BIG BATTLE

The Allies Made Another Successful Attack Upon the Chinese at Tien Tsin.

A CHINESE COUNTER ATTACK

The Russians Failed to Perform the Task Assigned to Them—A Letter from Minister Onger Received at Tien Tsin.

Chicago, July 25.—A dispatch to the Record from Tien Tsin, dated Saturday, July 21, via Shanghai, says: "To-day's performance will break the backbone of the Chinese war party. At daylight this morning the combined forces turned an attack upon the Chinese left, which was penetrated. As the Russians failed to make a suitable bridge across the canal the Chinese made a smart counter attack on our right and left outposts. This was repulsed by a handful of men, who fought with great bravery, but with heavy casualties. No American was injured."

"At 1 o'clock this afternoon the allies bombarded the native city, and after an hour of magnificent work by two 4-inch guns and three 12-pounders the fort and adjoining military pagodas were in flames. Their destruction was complete. The fort replied feebly with a few rounds, when one gun set the canal range and fired several lyddite shells. This is the fort that had been shelling Tien Tsin since June 17. The allied forces spared portions of the native city from which operations had not been directed."

A LETTER FROM CONGER.

Washington, July 25.—The following cablegram has been received by the navy department:

"Che Foo, July 24.—To the Navigation Bureau, Washington: A written message, signed Conger, dated July 4, was received at Tien Tsin on July 21, which says: 'We have been besieged for two weeks in the British legation. There is grave danger of a general massacre by the Chinese soldiers, who are shelling the legation daily. Relief must come soon if at all. The city is without government except by the Chinese army, which has determined upon the massacre of all foreigners at Pekin. The entry of the relief forces into the city will probably be hotly contested.'"

(Signed) "THOMAS."

The message comes from Capt. Chas. M. Thomas, commander of the Brooklyn.

KEMPFF'S REPORT.

Washington, July 25.—The navy department to-day made public the mail reports of Rear Admiral Kempff, explaining the reasons for refusing to join with the ships of the other powers in the attack on the Taku forts, and giving an account of the attack, which includes many details not heretofore published. Admiral Kempff also incloses the report of Commander Wise, of the Monocacy, giving a graphic account of the action. Rear Admiral Kempff's explanation for refusing to participate in the attack on the fortifications of a power with which we were at peace is warmly commended by Secretary Long.

CHAFFEE AT NAGASAKI.

Washington, July 25.—Adjutant General Corbin received a cable dispatch to-day from General Chaffee, announcing his arrival on the transport Grant at Nagasaki. He cables that all is well. As soon as the Grant is coaled she will proceed to Taku. General Chaffee, on arrival, received the cable dispatch announcing his appointment as major general of volunteers.

A DISPATCH FROM CONGER.

Washington, July 25.—The state department received a cable dispatch from Consul General Goodnow, but it is stated that it contains nothing to clear up the situation at Pekin. Goodnow says that Li Hung Chang will remain at Shanghai for the present and conduct negotiations from that city. There is an intimation that Earl Li is detained at the request of foreign officials, although this is not so stated by Acting Secretary Hill. No information has been received from the Chinese legation or the Chinese government in response to President McKinley's reply to the emperor. No answer was received to the second dispatch sent Minister Conger through Minister Wu, but it is stated that when the reply is received it will probably set at rest all doubts as to its authenticity.

THE CHINESE REPELLED.

Tien Tsin, July 11, via Shanghai, July 24.—(Copyright, 1900, by the Associated Press.)—The allies to-day sustained 100 casualties, repelling an early morning attack on the railway station across the river from the foreign settlement. A regiment of Japanese, a battalion of French from Tonquin, and Hongkong Sikhs participated in the fighting, driving the Chinese before them at the point of the bayonet, killing, it is estimated, 300 of them. The allies had planned a general movement against the Chinese position, and a contingent of the 9th United States Infantry had landed at midnight, prepared to advance. The movement was postponed, however, after a part of the troops started, on account of difficulties encountered in crossing the canal. The Chinese apparently had been informed of the plan, and gathered a large force opposite the station. These opened with rifles and field guns, and the foreigners advancing were met by a severe infantry fire, the Chinese creeping close to the station behind the cover of tombs. Fighting began at 3 o'clock and lasted four hours, becoming a hand-to-hand conflict. The Japanese company, leading the charge, lost all of its officers. Five Japanese officers, fifteen privates, six Frenchmen and three Sikhs were killed and six wounded. Two British 4-inch guns, mounted at the lower end of the settlement, bombarded the Chinese positions with lyddite, firing at the

pagodas on the wall of the native city.

Two more guns are being mounted. There is a great need of more heavy guns to displace the Chinese artillery. Plenty of light batteries are arriving. A British officer who was in Ladysmith throughout the siege by the Boers says the severity and accuracy of the Chinese shelling in the past week exceeded that during the bombardment of Ladysmith. The heat is intense.

SOME MORE ASSURANCES.

Washington, July 25.—The state department received a telegram from Consul McWade at Canton saying that Viceroy Tak gives assurances that all the foreign envoys at Pekin were alive and well on July 21.

THE ST. LOUIS STRIKE.

President Gompers Indorses the Street Railway Strikers.

St. Louis, Mo., July 25.—President Gompers, of the American Federation of Labor, who has been here investigating the strike of the employees of the St. Louis Transit Company, left here for Chicago, W. D. Mahon, president of the Amalgamated Association of Street Railway Employees of America, said that before leaving here Gompers indorsed the strike, and said that the movement would have the support of the American Federation of Labor. According to Mahon, President Gompers fully sympathizes with the men in the resumption of the strike on July 9, and adds that he declared he would not agree to the terms of settlement of July 2, by which the strike temporarily was declared off.

A PASSENGER TRAIN WRECKED.

One Person Was Killed and Twenty-Five Were Injured.

St. Louis, July 25.—A special to the Post-Dispatch from Benton, Ill., says: "The solid vestibule passenger train, south bound, of the Chicago and Eastern Illinois railroad, was wrecked near here at 11 o'clock today. Otto Nefel was killed and 25 other passengers were injured."

THREE WOMEN KILLED.

A Fatal Explosion Today in a Chicago Factory.

Chicago, July 25.—Shortly before noon to-day an explosion occurred in the chemical department of the Windsor Celluloid Collar Company, on the fourth floor of 125 Dearborn street, setting fire to the building and resulting in the death of three women, the fatal injury of one and minor injuries to five other persons. The dead are: Mrs. Ellen McLaughlin and Etta and Jennie Munsell and Grace Peterson. Injured—Viola Ritter; B. I. Waller, cut by falling glass; two unknown women cut by falling glass. There were twenty-five girls working in the Windsor Collar Company's factory when the explosion occurred.

FUSION IN KANSAS.

The Populists, Democrats and Silver Republicans Patch Up a Ticket.

Fort Scott, Kas., July 25.—The Democratic organization of the state convention here, with unexpected ease, swung in line for the report of the conference committee, trading the office of associate justice for that of attorney general. As soon as this action was made known to the Populist gathering, it nominated Judge David Martin for associate justice by acclamation and selected John W. Breidenthal of Topeka, for governor, and took a recess till this afternoon when it will finish nominations. The Democrats named the following part of the ticket in accordance with previous fusion plans: Treasurer, Conway Marshall; attorney general, H. Farrell; secretary of state, J. B. Goshorn; presidential electors, L. B. Costenson, H. J. Rozel and J. B. Fugate. The Silver Republicans nominated Webb McNeill insurance commissioner, and James Fallon and W. R. Turner electors.

WITNESSES EXCUSED.

The Powers' Trial at Georgetown, Ky., Is Still Dragging Along.

Georgetown, Ky., July 25.—A dozen or more witnesses, who had been summoned in behalf of the commonwealth in the trial of Caleb Powers, charged with complicity in the shooting of Governor Goebel, were excused to-day on motion of the prosecution. As the same thing occurred each morning this week, the total list of witnesses of the prosecution has been reduced very materially. Some of those excused were put on recognition to appear and testify in the cases of Youtsey and others. This is the fifteenth day of the trial. The defense asked Robert Noake to be recalled so that it might ask him some questions.

Albuquerque Items.

Dr. Davis F. Rugg, a native of Vermont, who spent last winter in Albuquerque for his health, and made many friends, died in Londonderry, Vt., and was buried in Hartford, same state. The Italian residents of Albuquerque have organized a brass band, which will consist of about twenty-three pieces. The leadership of this new organization will devolve upon Professor Di Mauro. Deputy Sheriff Overhulst, of Bland, came to Albuquerque from the camp last night, having in his charge a young fellow, Chisholm by name, whom he turned over to Sheriff Hubbell. The young man is charged with the theft of a pocketbook from Mrs. Robert Benham. He arrived in the camp about two weeks ago, and took lodgings with Dr. and Mrs. Benham. Monday afternoon the lady missed her purse, containing \$40, and at once suspected her lodger, whose actions were suspicious. However, by the time she had notified the officers Chisholm had disappeared. Deputy Sheriff Overhulst started on a search, and found his man about 2 o'clock Tuesday morning.

MINING INTERESTS

A Deposit of Alum Has Been Discovered in the Black Mountain District.

GYPSUM FIELD AT SOCORRO

California Capital Will Develop It—The Old Abe Mine at White Oaks—Activity in the Organ District—Other Mine News.

LINCOLN COUNTY.

About 100 miners are now employed at White Oaks.

Mr. Taliaferro, of White Oaks, is developing some fine properties in the Gallinas, forty-five miles northeast of White Oaks. The Homestake at White Oaks has 200 tons of ore on the dump. Only development work and no stoping is being done at present.

The Spence brothers have a good property in the Gallinas. They have erected a concentrator, concentrating five tons of ore into one of concentrate. The ore carries copper, lead and silver. The Rockford, the Clipper and Cashier mines in the Nogal mining district, belonging to Theodore W. Heman, were sold at sheriff's sale last Saturday to satisfy a judgment of \$1,938.45 in favor of August Schinzing.

Austin & Peterson have closed down their copper mine in the Gallinas mountains. They shipped several car loads of high-grade ore to El Paso, but the cost of freight ate up all their profits.

The Old Abe mine has a twenty-stamp mill pounding away day and night on a fine grade of ore. A finely equipped cyanide plant is also at the mine. Every level of the mine, which is 1,200 feet deep, is perfectly dry.

DONA ANA COUNTY.

Learned and Curry are pushing work on the Merrimac at Organ.

Mr. Jewell is working up new ore bodies on the Excelsior at Organ. T. B. Enoch is working a small force of men on the Mormon mine at Organ. Newton Edison and Guy Jenkins will clean out the James Pike at Organ and put it in working order.

A deposit of alum has been discovered in the southern end of the Black Mountain mining district.

A Philadelphia company owns three claims adjoining the Memphis at Organ, and they will soon put on a force to develop the properties.

W. H. Mackey, who has a lease on the Bennett & Stephenson at Organ, has struck a fine body of lead ore. New machinery will be put into the mine.

Bennett & Friedebum will begin work on their lead properties at Organ about September 1. They contemplate the erection of reduction works in Bear canon, of the Black Mountain district.

The Ruby and the Eclipse mines at Organ, owned by G. W. Hufford, have been bonded by the Four Metal Mining Company, of Villa Grove, Colo. As soon as the shafts are timbered they will put in day and night shifts.

A car of high-grade ore was recently shipped by the Excelsior at Organ, which is now working two shifts of men. The Excelsior and the Memphis are both drifting to strike the same ore chute that has been struck in the former.

The Torpedo mine at Organ has, at a depth of 150 feet, run a crosscut and opened up 30 feet of good ore. The two shafts are connected with a 500-foot tunnel in good ore. The upper shaft is 265 feet deep. Plenty of water for all purposes has been encountered. The mine is hoisting about thirty tons a day. The Torpedo now has mineral on both sides of the iron dike. There is now over 1,000 tons of low-grade ore on the dump that will run 7 or 8 per cent copper.

SOCORRO COUNTY.

California capital will develop the gypsum deposits in western Socorro county. Machinery has been ordered. The deposits are rich in sulphuric acid. The Perry brothers, of Socorro, have set a force of men to work on the New Era mine in the Black Range.

IT'S COMING.

The Rock Island Railroad Is Surely Headed for New Mexico.

A dispatch from Clayton, Union county, says: The chief engineer of the Rock Island railroad arrived here this morning with his corps of assistants en route for the Pecos Valley railroad. In substance he said:

"We started from Liberal, Kan., and surveyed the old line for about 100 miles to a point 30 miles east and 15 miles north of the southwest corner of Beaver county, Oklahoma. There we left the old line, which ran almost due west and we travel in a southwest direction till we reach some point on the Pecos Valley railroad and then will survey a line to Liberal, Kan., and in all probability will cross the Colorado and Southern at some point south of Clayton."

"Do you believe the Rock Island will construct this line soon?"

"I see no reason why they should not, and while there are three prospective routes, I believe the line through Clayton will be the true one, as this is the most direct route for the Cimarron, the Creek and Red River valley countries."

"The party will leave tomorrow for the Pecos Valley country."

The Denver Republican also says: "Denver will soon have a new line to the City of Mexico. The Rock Island has sent out men to survey an extension of the road from Liberty, Kan., to White Oaks, where it will connect with the El Paso & Northwestern, now built from El Paso to near White Oaks. The Rock Island's line will cross the Colorado & Southern at Clayton. This extension would give the Rock Island the shortest line from Omaha to Mexico. It is understood that the Rock Island expects to bid for Mexican business from Chicago, Omaha, Kansas City and Denver and other cities along its lines."

OFFICIAL MATTERS.

TERRITORIAL FUNDS.

Territorial Treasurer Vaughn to-day received from Secundo Romero, clerk of the fourth judicial district, \$242.10, fees for the quarter ending June 30, and from C. H. McHenry, collector of San Juan county, \$517.04 of 1899 taxes, of which \$238.88 is for territorial purposes and \$123.41 for territorial institutions.

LAND OFFICE RECORD.

The following are the transactions at the United States land office for the week ending at noon to-day:

Homestead Entries—J. M. Baca, Dattil, 160 acres, Socorro county; Jose R. Roybal, Vagor Mound, 160 acres, Mora county; Rosino Marquez, Raton, 160 acres, Colfax county; Juan E. Lucero, Santa Rosa, 160 acres, Guadalupe county; Tomas Encinias, Shoemaker, 160 acres, Mora county; Juan J. Sandoval, Vagor Mound, 160 acres, Mora county; Bectonio Segura, Gallinas Springs, 160 acres, Guadalupe county; Madeline Gentry, Gallinas Springs, 160 acres, Guadalupe county; Salome Trujillo, Ortiz, Colo., 40 acres, Rio Arriba county.

Applications for Patent—George Hofheins, Edward Smith, Edward Limbke and M. L. Cole, of Bland, by Charles F. Easley, attorney, application for patent on the Monte Cristo group, comprising the Monte Cristo and Pino lodes, Cochiti mining district.

TROUBLE WITH MINERS.

A Mine Closes Down in Southern Santa Fe County—Other Mine Notes.

W. J. Franklin has gone on a business trip to Denver. Cary Wright accompanied J. P. Connor to the Copper Hill district of Taos to examine several copper properties.

J. Malluchet laid in a supply of provisions and left this morning for his camp on Macho creek. He is on a deal for the sale of his claims to Colorado parties.

The Cerrillos smelter is running regularly now, and doing good work. It is stated as an assured fact that an additional stack and other improvements to cost \$20,000 will be added this fall.

Reports continue to come from Mora that Dr. Sargeant has made an important quicksilver find at the head of the Pecos, but the Las Vegas newspapers are apparently unable to get the facts.

Henry Pacheco has found a good-looking quartz lead, carrying iron, and most likely some gold, four miles east of the city. He proposes to open the lead and have the rock tested for values.

H. V. Hall, of Chicago, who has been ore experting the Monument Rock mines, left this morning for Las Vegas in company with Robert L. M. Ross, secretary of the Great Republic Mining Company. Mr. Hall expressed himself to-day as highly pleased with the property and its big showing of mineral, and referred also to the very favorable geological conditions he found there, but as to the plans of the company in the line of future development, or whether the erection of a concentrating plant was contemplated, neither he nor Secretary Ross would make any statement for publication. That something is in the wind, however, that promises to be of great benefit to the mining industry about Santa Fe is quite evident.

James Corrigan, a son of the irrepressible Martin Corrigan, of Denver, and who has been long employed as amalgamator at the Ortiz company's gold mill near Dolores, was in the city to-day. He came deputized by the twenty employees of the company to consult an attorney about some action, a mechanic's lien, possibly, that will bring the men two months and seven days' pay quit work. He says the employees quit work in a body recently because they could not get their wages. They know the mine to be paying well, and offered to resume work provided the St. Louis owners of the property would agree to have all bullion deposited in the First National Bank at Santa Fe until all past due wages were paid, but the company ignored this proposition. H. E. Bigot, the manager, has gone to St. Louis, and Superintendent Jackson, acting under instructions from St. Louis, has taken the pumps out of the mine. This is a mysterious move, because it can have no other effect than to flood the 450 and 400 foot levels. Properly handled, Mr. Corrigan, who has handled the bullion there for many a year, says this is one of the best gold properties in the west, and the men are at a loss to understand what tangle the company is into that makes it necessary to stop the pumps.

MARKET REPORT.

MONEY AND METAL.

New York, July 25.—Money on call nominally 1 1/2 per cent. Prime mercantile paper, 4 @ 4 1/2. Silver, 60 1/2. Lead, \$3.80.

GRAIN.

Chicago, Wis., July 24: 7 1/2 @ 7 1/4; August, 7 1/2. Corn, July 35; August, 37 1/2. Oats, July 32 1/2; August, 32 1/2.

STOCKS.

Kansas City.—Cattle, 9,000; market steady; native steers, \$4.25 @ \$5.50; Texas steers, \$3.45 @ \$5.35; Texas cows, \$3.25 @ \$5.05; native cows and heifers, \$2.80 @ \$4.85; stockers and feeders, \$2.80 @ \$4.50; bulls, \$2.75 @ \$3.75. Sheep, 30,000; steady; lambs, \$3.50 @ \$6.00; muttons, \$3.25 @ \$4.50.

Chicago.—Cattle, 15,500, including 700 Texas; steady; good to prime steers, \$5.15 @ \$5.75; poor to medium, \$4.60 @ \$5.10; stockers and feeders, \$3.00 @ \$4.70; cows, \$3.00 @ \$4.50; heifers, \$3.00 @ \$5.00; canners, \$2.00 @ \$3.80; bulls, \$2.75 @ \$4.00; calves, \$4.50 @ \$6.50; Texas fed steers, \$4.35 @ \$5.15; Texas grass steers, \$3.40 @ \$4.35; Texas bulls, \$2.50 @ \$3.40. Sheep, receipts, 11,000; lambs stronger; good to choice wethers, \$4.10 @ \$4.40; fair to choice mixed, \$3.00 @ \$4.00; Texas sheep, \$3.00 @ \$4.00 native lambs, \$4.00 @ \$5.50; western lambs, \$5.00 @ \$5.60.

Engraved cards de visite can be promptly and cheaply procured in the very latest and most elegant styles at the New Mexican printing office.

NEAR PUERTO LUNA

The Rock Island Railroad Surveyors Have Crossed the Pecos River at Santa Rosa.

A CITY MARSHAL REMOVED

Several Colfax County Stockmen Swindled by a Sharper—A Drouth in the Taos Valley—A New Bridge to Be Built at Rowell.

TAOS COUNTY.

William Hughes expects to begin cutting lumber at his new mill in a short time.

J. K. Turner, of the Copper Hill company, has been looking over the Amizett district.

Dr. T. P. Martin is displaying great perseverance in adjusting his automobile to the Taos county highways.

The tax levy for the coming year amounts to about 3 1/3 per cent, which is a little higher than last year.

The weather is unusually dry in the Taos valley at the present time, and the water in the streams is low.

Bonifacio Barron and family have moved to the east side of the Taos mountain range, where they expect to remain in the future.

Fernando Mares, son of Cristobal Mares and Terecia Trujillo, daughter of Millon Trujillo, are to be married at the Catholic church in Taos on August 1, and a grand ball will be given at the residence of Jose Rafael Trujillo at Ranchito in the evening.

Dr. H. W. Brown and son, Dr. R. Brown, are at Red River from Waco, Tex., to spend the summer. They are stockholders in the June Bug Mining and Mining Company at Red River. They report that about thirty Waco people will arrive inside of three weeks to spend their summer vacation in Taos county.

COLFAX COUNTY.

Raton talks of reorganizing its commercial club.

The Johnson Mesa farmers are crying for a drenching rain.

Four Mormon elders are in Raton preaching on the streets and visiting from house to house distributing tracts and promulgating their religious views.

David McKee was peremptorily removed as night marshal by the mayor of Raton, and the city council had an executive session and ratified the mayor's action.

Representatives of the Scranton correspondence school of mechanical instruction are in Raton persuading railroad men in all the mechanical departments to take up study.

General Foreman William B. Thompson, of the Raton shops, has invented a wheel hoist, which is the delight of the men who do the loading of wheels on the cars. It is operated by compressed air, and will load a car with seventy-five wheels in eighteen minutes. Albuquerque and Topeka railroad shops are to be supplied with these hoists.

The Raton water company served a peremptory writ of mandamus commanding the city government to levy 1 mill to pay hydrant rentals. The mayor and council objected to the peremptory business, and succeeded in inducing Judge Mills to grant a hearing.

City Attorney Voorhees and Mayor Shuler have gone to Las Vegas to present the city's side of the case.

Charles Springer has sold to Deming parties three car loads of the celebrated Springer Hereford bulls. This shipment amounted to 124 15-16 high grades and one thoroughbred, 125 head in all. And every one of the lot are beauties, and will be placed on the N A N ranch on the Mimbres. Cattlemen are beginning to realize that by placing such

stock as Mr. Springer sells upon their ranges they can improve their herds, so that in the course of a few years they can get at least \$2 a head more for their cattle.

A few days ago three prominent ranchmen residing not far from Raton were victimized by a smooth swindler who claimed to hail from Illinois. From one he bought fifty-six, from another forty, and from the third six horses, the price being about \$18 a head. In payment he gave drafts on a Joliet (Ill.) bank and shipped the horses. The drafts were protested, and about the same time word was received that the horses were unclaimed at the Chicago yards and were "eating their heads off." It seems that the rascal weakened and abandoned the stock somewhere on this side of Chicago, leaving the shipping to go on as originally billed. The loss falls heavily on the ranchmen, as after paying railroad and stock yards charges not much if anything will be left.

CHAVES COUNTY.

The Roswell Register is getting out a boom edition, and is building a new office home.

At Roswell a bridge is to be built across North Spring river, on Pennsylvania street. The expense of grading the street from the river north is to be borne by Hammett & Wyllys, real estate agents.

Don Biggers, special agent of the stock census, returned to Roswell on Wednesday from a trip up on the Yeso, in the northern portion of the county. He says fine rains over the most of the range there have made fine grass, and sheep are doing well.

James Sutherland, Thomas D. and J. P. White went to the store of Joyce, Fruit & Co., at Roswell, to be weighed, and tipped the beam at 225, 219 and 236 pounds respectively. And then Samuel Brown stepped on to the scale and pulled it to 199 1/2 pounds, the total weight of the four being 846 1/2 pounds.

F. Divers returned from Midland, Tex., his former home, where he cleaned up his holdings by selling 1,500 head of cattle at a lump sum—\$30,000—and will devote his entire time and attention to his interests at Roswell.

Charles Blanchard came in from the north to Roswell and brought the news that a Rock Island surveying party was running a survey across the Pecos river at or near Santa Rosa, Celso Eaca's ranch, eleven miles above Puerto de Luna.

J. D. Tinsley, the soil expert connected with the College of Agriculture and Mechanic Arts at Las Cruces, is at Roswell renewing his experiments in drainage on the grounds of the agricultural experiment station at that place.

A 3,000-pound iron column was placed in John W. Poe's new bank building at Roswell, and inside of it Mr. Poe placed several copies of the Roswell Record, Roswell Register, the Santa Fe New Mexican and the Dallas News, so that if at some time in the future the contents of the column should be brought to light, those who happen to be on the scene can know something about the town and its citizens.

GRANT COUNTY.

A better city water supply is agitating Silver City.

The Silver City assessment rolls show a healthy increase over last year.

John T. Oglesby has purchased the business property of Frank Welty at Pinos Altos.

Jacob Abrahams, of San Francisco, has arrived at Silver City, and will put in a steam laundry.

E. H. Bolton, of Hanover, announces his candidacy for county commissioner on the Republican ticket.

William French offers \$1,000 reward for the arrest and conviction of the parties who stole his horses last May; also, \$5 reward per head for the recovery of any of the horses. About twenty-five head were stolen.

DRAWING THE LINES

Lord Roberts in Advancing Completely Cut Off the Boer Line of Retreat.

COMMUNICATIONS RESTORED

A British Force Won a Victory Against Great Odds—Two Hundred Welsh Fusiliers Captured by the Boers at Roodeval.

London, July 25.—The war office received the following dispatch from Lord Roberts:

"Vandermerwe Station, July 24.—We made a general advance yesterday from the position we have been holding east of Pretoria since June 12. Ian Hamilton, from the north, reached Rensburg, seven miles north of Bronkhorst Spruit, on July 22. This so completely surrounded the enemy's line of retreat that they abandoned the strong position they had been occupying in front of Pote-Carew. Stephenson's brigade advanced yesterday unopposed to Land's river station. Our right protected the first and fourth brigades of cavalry under French, and Hutton's mounted infantry. The former crossed east of the Wilge river."

WELSH FUSILIERS CAPTURED. "Telegraph and railway communication was restored last night. The supply train captured at Roodeval there were 200 Welsh fusiliers, most of whom have been made prisoners. Dewet's force continued to move northerly. It was at Roodeval on July 22, with Broadwood not far behind, and Little's cavalry brigade following Broadwood."

A BRITISH VICTORY.

"Baden-Powell reports as follows: 'Magato Farm, July 22.—Colonels Arcey and Lushington, with 450 men, drove 1,000 Boers from a very strong position and scattered them with considerable loss. Our casualties were six killed and nineteen wounded.'"

It is not clear whether the supply train and the 200 fusiliers mentioned in the above dispatch are identical with the train and 100 Cameron Highlanders capture, which was reported by Lord Roberts in his communication of July 22.

Strike of Fishermen Settled.

Vancouver, B. C., July 25.—The trouble at Steveston with the striking fishermen practically has been settled. The presence of the militia has taken all the fight out of the strikers.

Your Friends

In the east might come to see you, if you would write and tell them that they can purchase tickets at all points in Illinois, Iowa, Missouri, Kansas and Nebraska to all points in New Mexico at one fare plus \$2.00 for the round trip. Tickets will be on sale August 7 and 21, good for 21 days from date of sale. Be sure and tell them to take the "Santa Fe Route."

Republicans, Attention!

As the president and the secretary of the McKinley and Hobart Business Men's Club, which gave vigorous and successful aid to the battle in this county four years ago, we hereby call a mass meeting of Republicans to assemble at the court house in this city at 7:30 o'clock next

The New Mexican is the oldest newspaper in New Mexico. It is sent to every postoffice in the territory, and has a large and growing circulation among the intelligent and progressive people of the southwest.

ADVERTISING RATES.

Wanted—One cent a word each insertion.
Local—Ten cents per line each insertion.
Reading local—Preferred position—Twenty-five cents per line each insertion.

Displayed—Two dollars an inch, single column, per month in Daily. One dollar an inch, single column, in either English or Spanish Weekly.
Additional prices and particulars given on receipt of a copy of matter to be inserted.

WEDNESDAY, JULY 25.

For President,
WILLIAM MCKINLEY.
For Vice President,
THEODORE ROOSEVELT.

We favor home rule for and early admission to statehood of the territories of New Mexico, Arizona and Oklahoma.—National Republican Platform.

China has arrived at that stage where it is looking for friends to shield it against the consequences of its own misgovernment.

The trial of the persons accused of complicity in the assassination of Goebel in Kentucky is more of a political farce than an effort to do justice. The trial will probably be dragged along until after election, and then will terminate in a fizzle.

Prince David, of Hawaii, at the meeting of the committee on platform at Kansas City, cast the vote that bound the Democratic party to the 16 to 1 issue again. It was the vote of the member of an imperial family, from an island, a part of the United States by virtue of expansion, that saved the day for Bryan and Bryanism.

The important news of the world at present comes from a great distance. It is South Africa, China, the Philippines and Siberia which are the storm centers to-day. The interest manifested all over the earth in the happenings in those remote parts is a sign that the world, as far as humanity is concerned, is getting to be smaller every day.

In 1860 Kansas City had a population of 4,418, less than Santa Fe had twenty years ago. To-day Kansas City has 200,000 inhabitants. Santa Fe, Las Vegas, Albuquerque and half a dozen other New Mexico towns are better situated and have greater commercial possibilities than had Kansas City forty years ago. It merely depends upon what use is made of them.

The champion fever is at its height again, and there is a champion of everything from the champion pie-eater to the champion campaign liar. Between those two are grouped the champion golf players, sprinters, and the Lord knows what, for it would fill a respectable volume to print the names of those persons who lay claim to being some champion or the other.

The census returns will give no indication of how many cranks there are in the United States, but the election returns may give a hint of how many male cranks of voting age there are in the country. The man who votes for a third or fourth party when the main issues upon which this country's welfare depends lie between the two leading parties can safely be set down as a man of peculiar opinions, which he is bound to father in the face of greater duties and graver responsibilities.

President McKinley's record the past four years will be made the issue of the campaign. The people can easily tell what they can expect from another four years under his administration by what he has done and accomplished the past four years. The record is a brilliant one, an honest one, a patriotic one; a record that will appeal to the great majority of the American people as a record that should be indorsed. The same may be said of the record of the Republican administration in this territory for the past four years. Disrupted finances have given way to a condition of financial security; extravagance had to make way for economy; an inferior school system has been superseded by tremendous advances in popular education; official spoliation has been succeeded by official integrity and patriotism; distrust has been followed by confidence, and stagnation by progress and prosperity. Truly, the Republicans of the territory can be proud of the administration of the nation as well as of the territory during the past four years.

There are no indications as yet that the rural free delivery system will find its way down into New Mexico before this commonwealth has two senators and a full-fledged representative looking after its interests.

The school census indicates that Santa Fe has been growing in population at a more rapid rate than had been expected. In the school district live 1,651 children of school age, which would indicate a population of 8,000, and as many more live within the boundaries of the Santa Fe city grant, which would make the population of the city with suburbs about 15,000.

It's a cold day in July when the Shanghai newspaper fakir does not invent some story of a bloody massacre. It appears now that not one out of ten of the tales cabled from Shanghai can be verified, and that while the Boxers have committed some bloody deeds in their frenzy, yet most of the Europeans in China escaped to places of safety and are unharmed.

Yellow fever has not yet been stamped out in Cuba, and probably never will be until Cuba gets a new climate. The ravages of the epidemic, however, have been stayed within narrow confines, and gradually, as American sanitation is given a chance to do good for the Cubans, the disease will disappear as an epidemic, and will appear only once in a while in a sporadic form.

Several papers have shown that the number of pianos sold the past year are an indication of the prosperity that prevails throughout the country. Another sign pointing in the same direction is the number of marriages that are being solemnized. During the Cleveland hard times there was a decided falling-off in the number of weddings, especially in commercial and manufacturing communities, but now the wedding bells do not get done ringing, and even in New Mexico there is a decided boom in marriages, much to the joy of clergy-men and furniture dealers.

The appointment of Governor Otero to be custodian of the Fort Marcy reservation is a very sensible one. As the honor came to him unsought or without previous notice, it must certainly be taken as an indication that Governor Otero, despite the intrigues of a small cabal, possesses and will continue to possess the full confidence of the national administration. This is as it should be, for Governor Otero has given the territory a progressive and economical administration, and President McKinley has as much reason to be satisfied with it as have the people of New Mexico, who have repeatedly given the administration their indorsement.

It is apparent from letters written by Americans in Paris that the triumph of American exhibitors at the Paris exposition is not as complete as might have been expected when the pre-eminent of this nation in the industrial arts is considered. There is a tendency nowadays to take less stock in the value of international exhibitions, because the returns in dollars and cents from a large exhibit is less than from a well-printed catalogue or a good advertisement in some leading newspaper. People who want to buy or desire to invest their capital do not go to international exhibitions for pointers, but have other means of discovering where to buy the best and the cheapest, and where there are fields for investment.

The need of a well-organized fire department was emphasized at the fire at Prescott a few days ago. While the firemen were dynamiting several houses to stay the spread of the flames a volunteer who was assisting them was discovered lighting a fuse to dynamite that he had placed under a merchant's powder magazine in which several thousand pounds of dynamite and powder were stored. The fuse was extinguished just in time to prevent all of Prescott being blown into the kingdom to come. In cities where there is a well organized fire department no outsiders are allowed to interfere in the work of the firemen, to whom the location of every building and its contents should be known.

Chinese statesmen are somewhat of socialists, not for the benefit of the people at large, however, but for their own pocketbook. A company exploiting a mine in China can have possession of it only for fifty years from the date on which it is opened. At the end of that term the mine, with all the plant, machinery, buildings and roads, are to be handed over to the Chinese government without compensation. The same rule applies to railroads and other enterprises, the aim of the government evidently being to secure control of all industry and enterprise in the empire. Yet, despite these drawbacks, capital is flowing into China, although there is room for investments in other parts of the world, such as New Mexico, where capital can retain perpetual rights in its investments.

They Belong to New Mexico.
The fact that the relics discovered last week by a party of scientists twenty-four miles from Santa Fe were at once carted off to the Northwestern University at Evanston, Ill., should cause some reflection on part of the people of New Mexico. The Northwestern University, with commendable enterprise, is gathering the largest and best collection of southwestern archaeological remains, and in the future the scientist who desires to delve into the mysteries that are held by the past in the southwest; the tourist who desires to see the relics of the prehistoric races of New Mexico; the New Mexico student who by actual sight wishes to study the ancient history of this territory, must all go to Evanston, Ill., for those purposes. If New Mexico were awake to its own opportunities, if the legislature at its next session would tender the old palace to the Smithsonian Institute for a historical museum for the southwest; if New Mexico's representative in the next congress works to have the ancient ruins set aside as a national park, then the interesting ruins and relics which still remain will be kept in the territory, and the national museum at Santa Fe would become the place where scientists, students and tourists would gather to get a glimpse of the past, a past which is the most interesting in the United States.

CANCER IS NOT INCURABLE

Time was when Cancer was considered as incurable as leprosy. Physicians and friends could give little relief or encouragement to one afflicted with this terrible disease. Even now doctors know of no remedy for this fearful malady; while admitting it to be a blood disease, they still insist that there is no hope outside of a surgical operation, and advise you to have the Cancer cut out, but at the same time cannot assure you that it will not return. You may cut or draw out the sore, but another will come in its place, for the disease is in the blood—it is deep-seated and destructive, and beyond the reach of the surgeon's knife or caustic, flesh-destroying plasters. The blood must be purified and strengthened, the system relieved of all poisonous, effete matter before the Cancer sore will heal.

S. S. S. is the only medicine that can overcome this powerful and contaminating poison and force it out of the blood. It builds up and invigorates the old, and supplies new, rich, life-giving blood. S. S. S. is a purely vegetable remedy; no mineral can be found in it; the roots and herbs from which it is made contain powerful purifying properties that act directly upon the blood system and make a safe and permanent cure of Cancer. It has cured thousands, why not you?

Cancer is not always inherited; your family may be free from any taint, yet your blood may become so polluted that a severe and stubborn form of the disease may develop from a sore or ulcer on your tongue or other part of your body; a slight bruise or hurt, a little pimple on the eyelid, lip or nose, a small lump on the jaw or breast, a harmless looking wart or mole, and other causes so insignificant as to attract little or no attention. If you have an obstinate sore, don't rely upon salves or ointments to cure it—begin with S. S. S. at once; it will cleanse your blood and prevent the formation of cancerous cells.

Mrs. R. Shier, La Plata, Mo., writes: "A small pimple came on my jaw about one inch below the ear on the left side of my face. At first it gave me no trouble, and I did not think it was anything serious until the jaw began to swell and became much inflamed. At the same time the sore began to spread and eat into the flesh, and gave me intense pain. I tried everything I could hear of, but nothing did me any good. I then began the use of S. S. S., and after taking several bottles the Cancer healed, and there is now no sign of the disease. The area was two inches square. Send for our special book on Cancer; it contains much information that will interest you; it is free.

Write our physicians about your case, and for any advice or information wanted; they have made a life study of Cancer and all blood diseases. We make no charge whatever for this.

NEW MEXICO AT PARIS
Professor J. C. Carrera Writes an Entertaining Letter About the Great Paris Exposition.
FOURTH OF JULY FESTIVAL
Enthusiasm Created in the French Capital by the Americans—The Triumph of American Women—New Mexico's Mineral Exhibit.

Special Cor. New Mexican.
Paris, July 4.—Yesterday Paris was more beautiful than usual; thousands of American flags waved from windows and masts of flagstaffs of private and public buildings; on the streets, on the cars, on the boats, in the exposition, on the breasts of men, women and children, American, French, everywhere, everybody, wore flags, and the American flag carried the day. Hurrah for the Fourth of July! "No louder than 'Elyse to 4 Juillet!'"

In the morning I went to the dedication of the statue of Lafayette, the present of the American school children to the French republic. The inclosure was too small, and the court of the Louvre was packed to suffocation. Commissioner Pock delivered the opening address, to which President Loubet responded. Hon. Joseph H. Choate, General Porter and others spoke, but the main and best address of the occasion was made by Archbishop Ireland, who was heard inside of the tribune at the closing of the ceremony. Sousa's band charmed the immense crowd. Verily, the Frenchman is very much of a good and loyal friend to the American.

Between this dedication and the great 4 o'clock banquet I went to the spot where the head of Marie Antoinette fell under the sacrilegious knife of Robespierre. Who can see and think and not shed a tear?

At 10 o'clock at night I went to the California commission blowout, the swellest affair in Paris for many years. Millions of dollars worth of diamonds sparkled on those American ladies. After that sight, that music, that California champagne, I went to my rooms for sleep. The American woman has dazzled and conquered Paris, over which the Parisienne is sad and very much surprised.

THE GREAT EXPOSITION.
July 7.—The Paris exposition is magnificent; is away beyond the possibility of the most fantastic dreams. I am sure I shall see it in my mind after my eyes are closed in death. The unkind comments of some of the American correspondents are unjust and untrue. No doubt, this exposition is the grandest achievement of mankind in this line. The Columbian exposition of 1893 was greater in size; this is greater in intellectuality. Not all things should be measured by the yard or by the acre. Millet's "Angelus" was sold for \$100,000, and yet it is only a square foot in size.

The buildings, while some of them are not as vast as some of those of Chicago were, are most beautiful, and they represent new architectural features that the Chicago buildings did not possess. Many do not like this new departure, so different from the old, methodic school, but recollect that it is always so—nobody liked "Lohengrin" thirty years ago, but now Wagner's music ranks with the highest.

This exposition is more cosmopolitan than the Chicago exposition, every corner of the globe being represented; and when one considers the tremendous strides made in the last seven years in all branches of human ingenuity, it is nothing but natural that the world's fair of 1900 be a step farther in the world's march of progress than man is taking into the great kingdom of the unknown than the world's fair of 1893.

Don't call these sincere sentiments of mine unpatriotic; they are true to my best creed; and on this theory let the American people go to work to have an exposition in St. Louis in 1903 greater than that of Chicago in 1893. It is through this march that mankind is reaching out for the highest point of perfection.

One of these days, when it rains, I will write, telling you about the most salient points and objects at this exposition. I say "when it rains" because there is no night at Paris; for that matter, night here is, if anything, brighter than day, and no time to write. He who said "Night gives counsel" was not a Parisian.

NEW MEXICO AT PARIS.
July 8.—To my knowledge, New Mexico does not appear at this exposition except in the palace of mining. It is too bad. New Mexico needs more advertisement than any other part of the United States. California, that needs advertising least, appears everywhere with the lavishness and profusion of a great queen.

The palaces of mines is a revelation; no pen picture can do it justice. Some exhibitors have spent colossal sums on their mine exhibits. The metallurgical department is something magnificent.

OJO CALIENTE

(HOT SPRINGS.)

These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles from Santa Fe, and about twelve miles from Barranca Station, on the Denver & Rio Grande Railway, from which point a daily line of stages run to the Springs. The temperature of these waters is from 90 to 122 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids and tourists. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Consumption, Malaria, Bright's Disease of the Kidneys, Syphilitic and Mercurial Affections, Scrofula, Catarrh, La Grippe, all Female Complaints, etc., etc. Board, Lodging and Bathing, \$2.50 per day; \$14 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons, and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 10:05 a. m. and reach Ojo Caliente at 5 p. m. the same day. Fare for the round trip from Santa Fe to Ojo Caliente, \$7. For further particulars, address

Antonio Joseph,
Proprietor.

WINE OF CARDUI

How a Woman Suffers.

HOWELL, INC., Nov. 28.

I will always praise Wine of Cardui. It has done me more good than all the medicines I have ever taken in my life. Please send a book about female diseases to the ladies whose names I enclose.

Mrs. MINNIE STODGHILL.

Wine of Cardui

It isn't necessary for a woman to give particulars. When she says she has "female troubles", other women know what that means. It means days and nights of endless suffering. It means headaches which no tongue can describe. It means that terrible bearing and dragging down in the lower abdomen. It means agonizing backache and shoulder ache, and arm ache, and aches in the lower limbs. It means nerves on edge—the blues—despondency and loss of hope. It means debilitating drains that the doctors call leucorrhoea. It means martyrdom—sometimes even death seems preferable. And still Wine of Cardui will utterly put those diseases and pains to rout. It has cured thousands of cases when nothing else on earth would. To the budding woman, to the bride, to the wife, to the expectant mother, to those going through the Change of Life, this Vegetable Wine is a blessing.

Druggists Sell Large Bottles for \$1.00.

WINE OF CARDUI

The Largest Endowment ever paid.

Fifteen years ago Mr. George Gooderham, of Toronto, took out 15-Year Endowment Policy No. 289,421 for \$100,000. In the Equitable Life Assurance Society of the United States, paying an annual premium of \$8.382. Now his policy has matured and shows the following results:

1 Cash	\$150,847
2 Paid-up Assurance	\$210,000
3 Annuity for Life	\$ 20,320

At the same time Mr. Gooderham took out a policy of the same kind for the same amount and with the same premium in another company; the cash return on which was \$15,000 less than on the Equitable policy.

Here is what Mr. Gooderham says of his results:

"I have always been a strong advocate of Endowment Insurance, and about the time I took my policy for \$100,000 I placed \$400,000 of Endowment policies on my life in eight different companies. Of this amount \$310,000 has already matured. I have lived to see the result and to know what it means."

"These results realized by the Equitable are" "larger and more satisfactory than any result" "ever realized by me on any of my policies which" "have matured to date. I may say they are quite" "satisfactory, and that no company has ever done" "so well for me."

Strongest in the World

THE EQUITABLE

Life Assurance Society of the United States.

LEFT ON AN OUTING.

Hon. W. H. Pope Gives a Number of Boys a Treat.

Hon. W. H. Pope, assistant attorney for the United States land court, has for years given his Sunday-school class an annual outing in the mountains, and to-day he chartered several wagons, loaded the boys in alongside of an attractive supply of eatables, tents, hammocks, swings, etc., and left for Monument Rock. The youngsters were in fine spirit, and bubbling over with fun and frolic. In the party were the Sunday-school class, consisting of Morris Thomas, Owen Wood, John Miller, Walter Miller, Carl Bishop, Jamie Harvey, George Marsh, Elmer Marsh, Marvin Rice, John McElie, Harry Hodge, Roland Wittman, Tom Catron, and also their friends, as follows: William Prince, Fletcher Catron, Noyes Weltner, Chas. Gilderleeve, Vere Boyle, Ray Riverburg, Frank Ellis, Ralph Kinsell, Frank Newhall, Clay Kinsell, Sidney Stone, of Denver; Harold Cooper and Eugene Hampel.

The Gatling gun squad will go up on Thursday with the gun for practice drill, to remain until Saturday, and the whole party will return home Saturday afternoon.

If you want good meals go to the Bon-Ton.

THE KING OF MORA.

He Tells Trinidad Officials That He Intends to Establish an Empire.

The king of Mora, familiarly called "Rey de Ocate," has been heard from at Trinidad, where, according to the Advertiser, he is seeking to enlarge his kingdom—expanding, as it were, in accordance with the spirit of the times. The Advertiser says: "Vicente Serna, a small, insignificant specimen of humanity, appeared at the court house yesterday and announced that he was the king of a new empire, just established, comprising Mexico, New Mexico, California, Texas, Colorado, Wyoming and Nebraska, and that he would take charge soon, with Trinidad as the capital. He will appoint a collector of revenues at once, and be ready for operations. He appeared to be very much in earnest, and displayed credentials that he said were genuine. He furnished much amusement at the county clerk's office during his brief visit."

A Well Known Citizen.

Nemecio Sandoval, aged 36 years, brother of Pedro Sandoval, of this city, died at his home in San Juan on the 14th inst., after a painful illness of nearly a year. He was the son of Manuel Sandoval and Josefa Ortiz, and was widely known and respected. He leaves a family and a large circle of friends and relatives to mourn his loss.

MINOR CITY TOPICS.

Always come to Goebel's first.

J. VanArsdel has re-entered the employ of S. Lowitzki as coach driver.

Regular meeting of the Santa Fe Elks to-night. The application of several new members will be acted upon.

At the Palace: Hugo Schwarzenka, New York; Charles B. Kehrman, St. Louis; L. B. Solomon, Leavenworth, Kan.; John S. Clark, Las Vegas.

Thomas Moore and J. O. K. White, late of El Paso, have leased a part of City Engineer Zimmerman's office, and will open a lapidary establishment.

A special picnic and excursion train will be run by the D. & R. G. on Santa Clara day, August 12. The special leaves Santa Fe at 8:30 a. m., returning at 5 o'clock. Fare for the round trip \$1, children under 12 years 50 cents.

At the Exchange: S. Alexander, Socorro; Mrs. A. B. Latum, Flagstaff, Ariz.; Dan Witherspoon, Muscogee, I. T.; John A. Ross and wife, Las Vegas; Mrs. N. A. Bowen, G. E. Bowen, Cerro Gordo, Ill.; James Corrigan, Cerrillos.

According to announcement in the Chama Tribune John Boyer, of Chama, is preparing to march upon Santa Fe like a knight errant of old in a short time and capture one of the capital city's charming young ladies as a bride.

Mrs. Geo. W. Hill, wife of a conductor on the D. & R. G. residing here, underwent an operation at the Salida hospital last week, when a large wen was removed by the surgeon's knife. She is now on the road to recovery and will soon return home.

Trainmen on the narrow gauge say there came near being a tragedy at Conejos a few days ago. A well-known merchant and an unknown man got into an altercation, when the unknown was badly used up by a knife in the hands of the merchant.

Died at the Hospital.

Mrs. Ellen Kirkland, of Cerrillos, wife of John Kirkland, a miner, died at St. Vincent hospital at 9 o'clock this morning, after a long and painful illness. Her daughters, Mrs. Kinney, of Walsenburg, Colo., and Mrs. Warren Graham, of Cerrillos, have been at her bedside for several weeks. Mrs. Kirkland was an excellent woman, the mother of a large family. Four of the younger children are at the family home in Cerrillos. The remains will to-morrow be taken to Albuquerque for burial beside those of the deceased's mother.

Alfalfa Pasture.

Good pasturage, plenty of pure water at \$2 per head per month; apply to Santa Fe Water & Light Co.

VOL. NO. 9, N. M. Reports

Volume IX of New Mexico Reports can now be supplied by The New Mexican Printing Company. Delivered at publisher's price of \$3.50.

A JAIL DELIVERY.

Green Maxey and a Companion Broke Out the Puerto de Luna Jail.

Posters were received here to-day from Sheriff Placido Baca y Baca, of Guadalupe county, announcing that Green Maxey and Joseph Shuttleworth, prisoners confined in the county jail at Puerto de Luna, had effected their escape, and offering a reward of \$50 for their arrest. Maxey was awaiting trial for sheep stealing and other offenses. He is about 5 feet 10 or 11 inches in height, blue eyes, fair complexion, sandy mustache. Shuttleworth was about the same height, dark hair, and had a week's growth of beard and mustache. The latter was convicted at the recent term of court of stealing a mule and sentenced to three years' imprisonment, and was held in jail pending appeal to the supreme court. Maxey has a record of three or four jail escapes during the past few months.

Some details of the jail delivery are given in a private letter to Ascension Rael. It appears that on Friday night last, while the jailer, Marcelino Ceana, was asleep in the jail hall, four men rode up leading two horses, overpowered the jailer, took from him the keys and locked him in a cell. Then they released Maxey and Shuttleworth, who mounted the two extra horses, and all disappeared.

A Narrow Call.

Wm. Colleton, a brakeman on the D. & R. G., had a close call for his life a few days ago. He slipped while climbing over the end of the tank and fell between the tank and the box car following. In falling, however, he grasped the hand-iron and prevented himself from falling under the wheels. His feet dragged on the ties for about 300 feet when he succeeded in drawing himself up. His shoes were tattered and his legs were temporarily paralyzed but he is all right again.

PERSONAL MENTION.

A. F. Spiegelberg went to Albuquerque yesterday.

Hon. John S. Clark is over from Las Vegas today on official business.

District Attorney Silas Alexander was up from Socorro between trains yesterday.

Messrs. W. H. Kennedy and Michael O'Neill drove in from Cerrillos this forenoon.

Mrs. L. B. Prince left this morning on a trip to the Prince fruit ranch near Espanola.

Dan Witherspoon, of Muscogee, I. T., left this morning for the Pecos Valley on a health seeking trip.

Mrs. J. P. McNulty, wife of the manager of the Tiffany turquois mines, is quite ill at St. Vincent hospital.

George A. Ambrose, who has been so long ill, is very low this afternoon and little hopes are entertained for his recovery.

W. B. Metcalf and Miss Maggie Metcalf, of Ozona, Crockett county, Texas, arrived from the south at noon, and put up at the Exchange.

Hon. M. G. Reynolds and son depart tomorrow morning for St. Louis. Mr. Reynolds expects to return next month to attend the land court.

Lee Reinhardt and H. H. Wheelock, St. Louis; F. Steinhardt, San Francisco and I. V. Weisskopf, Kalamazoo, Mich., are commercial tourists doing the town today.

S. G. Brown, manager of the Edison placer works at Dolores, arrived from the south this noon accompanied by W. D. Thornton, of New York, who is interested in the Ortiz grant.

Judge Wilbur F. Stone of the U. S. court of private land claims, is here from Denver to remain until after the August term of court. He is accompanied by his bright young son, Sidney, who has spent the past few years in Europe.

John A. Ross, traveling engineer for the Santa Fe route, and Mrs. Ross of Las Vegas, accompanied by the latter's mother and brother Mrs. N. A. Bowen and G. E. Bowen, of Cerro Gordo, Ill., were sight seeing about the city last evening and left this morning for Las Vegas.

Hon. M. R. Otero and wife returned yesterday from Peralta, where Mrs. Otero has been visiting her son for nearly three weeks. To-day Mr. Otero had a letter from his daughter, Mrs. Solomon Luna, written from Dresden, Saxony, in which she said she was enjoying her trip abroad very much.

Open day and night at the Bon-Ton.

Drowned in Meadow Creek.

Jose Pacheco, an old and respected resident of Pinos Altos, was caught by a flood sweeping down Meadow Creek Sunday afternoon and drowned.

Tried to Skip With the Money.

C. E. Brown and wife and Paul and Ellery Olson, registering from Denver, arrived in the city last Saturday. On Monday Mrs. Brown sent a young man up town from their rooms at Mrs. Schneppe's to get money orders for \$175. The young fellow hired a horse from Lowitzki and started toward Espanola with the money in his pocket. Mrs. Brown called upon Sheriff Kinsell, who went in pursuit and overtook his man at Pojoaque. He was brought back to town and turned the money over to Mrs. Brown, who, it seems, is his foster mother. She filed no formal charge against him.

An Interesting Lecture.

Rev. Dr. George L. Cole, of Los Angeles, lectured under the auspices of the Epworth League at the Methodist church last evening, his subject being the Grand Canon of the Colorado and the cliff dwellings of the southwest. A large audience was present, and the lecture was highly entertaining throughout. Some sixty stereopticon views were shown. Dr. Cole also touched upon the interesting developments that had attended his archaeological explorations in the vicinity of Santa Fe, and expressed the opinion that the ruins in Parajito canon, twenty-four miles west of the city, date back at least 1,000 years before the Christian era began.

G. A. B. National Encampment, August 27 to September 1, 1900.

For the above occasion the Santa Fe Route will place on sale tickets to Chicago and return at one standard fare (\$41.05) for the round trip, tickets on sale August 23 to 26, inclusive, good for return passage until September 30, 1900. For particulars call on any agent of the Santa Fe Route. H. S. LUTZ, Agent, Santa Fe, N. M.

W. J. BLACK, G. P. A., Topeka, Kas.

U. S. Weather Bureau Notes.

Forecast for New Mexico: Generally fair tonight and Thursday.

Yesterday the thermometer registered as follows: Maximum temperature, 83 degrees, at 3:05 p. m.; minimum, 58 degrees, at 5:50 a. m. The mean temperature for the 24 hours was 70 degrees, mean daily humidity, 16 per cent. Temperature at 6:00 a. m. today, 54.

The best 25-cent meal in the city at the Bon-Ton.

Notice for Publication.

[Homestead Entry No. 433.]

LAND OFFICE AT SANTA FE, N. M., July 24, 1900.

Notice is hereby given that the following named settler has filed notice of his intention to make final proof in support of his claim, and that said proof will be made before the Register or Receiver at Santa Fe, New Mexico, on August 29, 1900, viz: Simon Vivar for the NW 1/4 NW 1/4, E 1/4 NW 1/4, of sec 22, and NE 1/4 NW 1/4, of sec 21, tp 17 N. R. 12 E. He names the following witnesses to prove his continuous residence upon and cultivation of said land, viz: Frank W. Emerson, of Rowe, N. M.; David L. Williams, of Morieta, N.
