SANTA FE NEW MEXICAN

VOL. 37

SECOND EDITION

SANTA FE, N. M., TUESDAY, NOVEMBER 20, 1900.

CITY AND NORTHERN MAIL NO. 234

THE PARTITION OF CHINA.

It Is Now Spoken of As an Inevitable Consequence of the Peace Negotiations.

A SERIOUS STAGE REACHED

Unlooked for Complications Reached--The United States Will Have to Choose Between a Slice of China and the Loss of Its Indemnity.

New York, Nov. 20.—The Chinese negotiations, according to the Times from Washington, have reached the most serious stage. The actions of the powers are making partition almost inevitable. The United States faces the probability that it will either have to take a slice of China or go without any indemnity. In that case it is positively asserted by high authorities that the United States will go without an indemnity.

AMERICAN GUNS ALLRIGHT.

Washington, Nov. 20.—Some disparaging criticism upon the American field gun, made during the Chinese negotiation, has led Adjutant General Corbin to address the following inquiry to General Chaffee:

"Adjutant General's office, Nov. 19, 1900.—To Chaffee, Pekin. It has been reported that our light artillery guns did not meet well with the required service as compared with other armies. What are the facts?"

CORBIN.

The following response has been received: "Adjutant General Corbin, Washington, Nov. 16.—Replying to your No. 72, our battery was better than the battery of any other army in the campaign. The German battery, just arrived, has some features superior to ours. The powder charge in the case is fired with a trigger like a pistol and is more rapid as a result. The brake arrangement is also better, but the calibre is not quite so large. Our battery was highly praised, and particularly so by General Linvitch, who said that he felt like taking off his hat whenever he saw it. No battery was so effective as ours in the attacks on Pekin. CHAFFEE."

POPULATION STATISTICS.

Illinois Makes a Big Gain as Did New Mexico.

Washington, D. C., Nov. 20.—The population of Rhode Island, as announced officially today by the census bureau, is 428,556, against 345,506 in 1890, an increase of 24.35 per cent. The population of Illinois was 4,321,550, against 3,326,351 in 1890, an increase of 29.92 per cent.

FLORIDA'S POPULATION. Washington, Nov. 20.—As officially announced by the census bureau today the population of Florida is 523,542, against 391,542 in 1890, an increase of 33.22 per cent.

F. M. BROWN IN CANADA.

He is Accused of Embezzling \$200,000 of Bank Funds.

Cincinnati, Ohio, Nov. 20.—According to a despatch from Ft. Wayne, Ind., Frank M. Brown, the late assistant cashier of the German National Bank at Newport, Ky., who is alleged to have embezzled nearly \$200,000 of the bank's funds, is now in Canada. He was seen and recognized in Ft. Wayne yesterday by Fred Jolton, an intimate acquaintance, and the latter said last night that Brown went to Canada.

LIEUTENANT HAESLER DEAD.

He Did Good Service in the Battle With Cervera's Fleet.

New York, Nov. 20.—Lieutenant Francis Joy Haesler, of the U. S. N., died at the naval hospital today of typhoid fever. Haesler was eminent as an electrician and was an expert in the application of compressed air in mechanics. In the battle of Santiago, which resulted in the destruction of Cervera's fleet, Haesler was in charge of the starboard turret on the battleship Texas and secured high praise for the manner in which his guns were served.

THE NICARAGUAN ROUTE.

That Will Be Recommended for the Isthmian Canal.

New York, Nov. 20.—A Washington special to the Herald says: "The best information obtainable is that the Isthmian Canal commission will certainly vote by a majority of four, and possibly by six to three, to recommend the Nicaraguan route."

Justice to an Armenian. Constantinople, Nov. 20.—Repeated representations of the United States legation here resulted in the release from prison of the Armenian, Aray, who was arrested while traveling as an American passport. Aray was ordered to leave the country.

A Rumor of a Battle. London, Nov. 20.—There is a vague rumor in the service clubs this evening that a battle is in progress between the Boer forces under General De Wet and the British troops in South Africa.

The Case's Illness. Livadia, Nov. 20.—A bulletin issued by the czar's physicians today is less favorable. His temperature last night was 102.2; pulse 80.

Senator Davis Holding His Own. St. Paul, Minn., Nov. 20.—It was reported this morning that Senator Davis had passed a restful night, and continuing to improve.

A BRITISH STEAMER SEIZED.

The Colombian Government Wanted It to Transport Troops.

Panama, Republic of Colombia, Nov. 20.—The seizure of the British steamer Taboga by the Colombian government was due to the fact that the agent of the Pacific Steam Navigation Company to which she belonged, refused to sell or charter the vessel for the purpose of conveying government troops to Buena Ventura, which was besieged by the Liberals. Therefore the government decreed the seizure of the steamer and proceeded to the relief of Buena Ventura with troops, ammunition and provisions. The British consul, C. Mallet, entered a strong protest against the seizure of the steamer, but it was of no avail. The Taboga, with government troops, arrived at Buena Ventura yesterday, whereupon the Liberals retired.

THE STORY CONFIRMED.

New York, Nov. 20.—Passengers on board the steamer Advance, which arrived here today from Colon, confirm the reports of the seizure of the British steamer Taboga at Colon. The rebels threatened to blockade the port of Buena Ventura, and the government vessel had broken down. The government seized the Taboga to transfer the troops to Buena Ventura. An offer of \$15,000 was made for the vessel prior to seizure. The government was quite willing to pay an indemnity, but was unwilling to risk waiting for other means of transportation.

TWO FATAL WRECKES.

They Occurred on the Denver & Rio Grande This Morning.

Denver, Colo., Nov. 20.—Two fatal wrecks occurred on the Denver & Rio Grande this morning. Freight train No. 70, east-bound, became unmanageable on the grade near Grays station, and the engine jumped the track—12 cars piled on top. Brakeman Charles Shaw was instantly killed. Fireman Albert Brassewell is still under the wreck, supposed to be dead. Engineer Pat Ryan, brakemen J. D. Dowd and Louis Reed were badly hurt. The other wreck was near Belden. Freight No. 67, west-bound, broke in two, and the rear part ran into the front portion. Two cars were derailed. An unknown tramp was killed, and another, giving his name as R. J. Weaver, was seriously injured.

SANTA FE R. R. BUSINESS.

President Ripley Reports That It Is Unusually Brisk.

The Santa Fe stockholders last Wednesday at a meeting in New York completed the directors of the road. The new directors elected are: Howell Jones, a Topeka lawyer; John C. McCullough, New York, chairman of the board of directors of the Erie; and Byron L. Smith, of Chicago, president of the Northern Trust Company. They succeed in the Santa Fe board C. K. Holliday and Edward N. Gibbs, who recently died, and William Rotch, who resigned.

President Ripley, who was present at the meeting, reported that business was exceptionally good on the Santa Fe system. Mr. Ripley said:

"The situation all through the west, to the Santa Fe, is better than it has been at any time before. The live stock movement continues very heavy, and there is also a manifest gain in shipments of merchandise. All recent car reports have shown an average shortage of 700 to 800 cars a day, but this hardly shows the full extent of the lack of car equipment, as in many cases shippers are in the habit of ordering more cars than they actually need, their object being to get as many as they possibly can. When traffic is unusually heavy it is the practice of the management of all lines to send to various points fewer cars than are asked for in order to provide as equitable a distribution as circumstances will permit. In spite of all that has been done to conform to this, the Santa Fe finds that the demand is such as to make it difficult to provide all that are wanted. It is believed that the October showing will be greater than that of last year, which was a record breaker. Indications for future months promise still better returns."

TWO LARGE CONVENTIONS.

The National Good Roads Convention Is Still In Session At Chicago.

ANOTHER MEET AT ST. LOUIS

An Association Which Is Working to Have the Interstate Commerce Act Amended--Convict Labor to Be Used to Build Good Roads.

Chicago, Nov. 20.—The committee on the permanent organization of the national and state legislation committees was announced by Chairman Moore at the opening of today's session of the National Good Roads Convention. The work mapped out for these committees is considered the most important feature of the convention. The committee on permanent organization is expected to outline the plan, whereby the work in all sections of the country will be unified and directed by the central body. The committee for appropriations from the 36 state legislatures is to carry on the work of building good roads. A measure providing for the utilization of convict labor in the work of improving the highways of the nation under a system already in use in Missouri and Tennessee is to be among those drawn up by the legislative committee for the presentation to the various state legislatures.

CONVENTION OF COMMERCIAL ORGANIZATIONS.

St. Louis, Mo., Nov. 20.—The league of the national association of industrial and commercial organizations met at the Planters' hotel today for the purpose of the formulation of plans to secure the early passage by congress of the Cullom bill, which seeks to amend the interstate commerce law and to extend the powers of that body. E. P. Bacon, of Milwaukee, called the gathering to order. Ex-Governor Stanard, of St. Louis, was unanimously made the presiding officer, Frank Barry, of Milwaukee, secretary. In taking the chair, Governor Stanard said what the people of the country want is either an interstate commerce commission with power to act or repeal the law under which it came into being. Committees were appointed. E. P. Bacon, of Milwaukee, was made chairman of the committee on resolutions, which consisted of fifteen representative men.

P. H. LOUGHRAN IN DEMAND.

It Is Asserted That He Has Left the City to the Sorrow of His Creditors.

John V. Conway, of the Bon Ton hotel, yesterday swore out a warrant for the arrest of P. H. Loughran, until last Saturday clerk in the receiver's office at the Federal Building, and who gained unsavory notoriety on account of his wife leaving him. Conway accuses Loughran of cheating him out of a \$70 bond bill. There is talk also of other creditors who are anxious to have Loughran return. On Sunday morning he left for Lamby. There he endeavored to buy a ticket to Leadville, Colo., but could not, and instead bought a ticket to Colorado Springs, Colo.

GIRLS ON A STRIKE

Ft. Wayne Factory Employees Demand Higher Wages.

Ft. Wayne, Ind., Nov. 20.—Owing to the refusal of their demands for an increase of wages, 200 of the 300 girls employed in the Paragon Shirt Waist factory in this city went on a strike today.

THE WOOL MARKET.

A Satisfactory Situation to the Dealers--Prices Not Firm.

Boston, Mass., Nov. 20.—There has been no change in the wool market this week, the sales amounting to about the same as last week. This is satisfactory to the dealers, and they are hopeful for its continuance. The tone of the market is steady, but the prices are not as firm as a week ago. Territory wools are quoted at 47 to 48c, for fine medium and fine scoured staple, while strictly staple article calls for 5c. These wools are quiet, and prices are steady with small offerings.

COURT AT SOCORRO.

It Adjourned Yesterday--Two Prisoners Brought to the Penitentiary.

Judge F. W. Parker, who has been holding court at Socorro, adjourned court yesterday. Deputy U. S. Marshals J. J. Sheridan and Fred Farnoff today brought two prisoners to the penitentiary, who had been sentenced by Judge Parker. They were Henry Seleck, found guilty of robbing the post-office at Roswell, and who was sentenced to five years in the penitentiary; and W. L. Gibson, sentenced to seven years in the penitentiary for holding up the postoffice at Graham, Socorro county.

Life Saved by Electric Light.
An interesting calculation has recently been made which shows that when the electric light has entirely displaced gas lamps and candles, there will be 6,000 less deaths annually, these being so much more unhealthy than electricity. In a like manner there will be far less sickness in the world when every one learns to check the inroads of dyspepsia with Hostetter's Stomach Bitters. Constipation, indigestion, biliousness, fever and ague and malaria are but danger signals proclaiming a diseased condition of the stomach. Good digestion is at the base of perfect nutrition. The Bitters strengthens the stomach and cures all disorders arising from malnutrition. Every one would do well to try it. See that our Private Revenue Stamp covers the neck of the bottle.

THE SUPERB CLIMATE

Santa Fe Has Fine Summers and Moderate Winters with Equable Temperature.

NEARLY ALWAYS PLEASANT

The Salubrious Atmosphere of the Territory and Reasons Why the Climate Is Healthful and the Country Chosen for Sanitariums.

A knowledge of the contour of New Mexico in relation to the surrounding country is necessary to clearly understand the cause of its climatic advantages, that are not possessed by any other part of the United States. A study of the Rocky mountain region reveals the fact that the great chain from the far north is broken in its continuity as it leaves Colorado. In New Mexico there are smaller ranges with here and there lofty peaks with timbered slopes and barren crowns to relieve the clouds of moisture. From them incline fertile valleys and grassy upland plains to the gulf region until when the southern border is reached, there are no mountains between New Mexico and the southern water. Three fourths of this territory has an altitude of 5,000 feet. At the southern border the valleys have dropped to from 3,000 to 4,000 feet, while the Santa Fe valley, at the capital city, has an altitude of 6,967 feet at the plaza.

A country of such varied altitudes must have some variety in climate, but the variation is in degrees of temperature mainly, for in general the climate of New Mexico is dry and salubrious. The rainfall is principally confined to showers in the summer, with little rain or snow in the winter, except in the northern part of the territory.

Near the extreme southern line, in the Sacramento mountains, a lofty peak is the first considerable elevation met with, as the moisture-laden gulf clouds drift to the northwest, and this precipitates rain to greater extent than any other mountain, the rainfall there having in exceptional seasons been estimated at 48 inches. But over the territory the normal precipitation ranges from 8 to 35 inches, according to elevation.

COMPARATIVE TEMPERATURE.
The southern valleys are, of course, the warmest portions of New Mexico in the summer, but the hottest are pleasant in midsummer than the east, because the air is dry, rapidly absorbs the dampness of the skin and has a cooling effect. The weather is never oppressive, the nights are always cool enough to sleep under cover and generally under a blanket.

Santa Fe, being up out of the great valley of the territory, is especially blessed as to summer temperature. The highest record in the thermometer in this city in twenty-six years was 96 degrees in 1878, an extreme rarely approached. In the last ten years it was the highest absolute temperature. It should be borne in mind that in a dry climate the record of the metallic thermometer does not indicate the real temperature felt by a human body, which is cooled by the drying effect of the air. It has been demonstrated that a temperature of 90 at Santa Fe is not more oppressive and heating than 72 at St. Louis, or at any place with a humid climate.

The following table was made up from reports of the climate and crop service of the weather bureau, and gives a general idea of the relative intensity of heat as indicated by the metallic thermometer:

SANTA FE SUMMER.
Were Santa Fe located in sight of St. Louis or Chicago, with its present elevation, residents of such place would behold a city more than a mile and a quarter skyward, above the hot, malarial, moisture-soaked earth, in a pure atmosphere, which all would seek. Should they behold the city where she is they would find a still cooler and purer atmosphere, where there is little moisture, a porous soil to drain away the rain that comes, and a precipitous descent for escape of the snow-fed streams and gorges in sight of the city. The records show that no other city in the same latitude possesses so cool a summer temperature as Santa Fe, where the average is 67 degrees and the change between night and day temperature too slight to be detrimental to health. Thanks to elevation, to wooded mountains far southward, and shelter from the hot winds of Arizona that are ward off by the rising series of mountain ranges between Santa Fe and the sandy, lower levels of desert, this city is the coolest south of the upper lake region. It is far cooler than Denver, has thermometer readings about as low as San Diego, and is free from the humid heat of the coast.

THE WINTER SEASON.
One who has not seen the lay of the land might think that an elevated place having so delightful a summer climate would have a severe winter. Yet this is not true. The winter temperature is not so low as in the lower Ohio valley, and is free from moisture, there being less of cloudy weather in winter than in summer. To the north, the great mountains of Colorado receive the greatest snowfall, and break the force of northern winds; other mountains closer stand guard to shelter the Santa Fe valley, which lies at their feet. To the east a range keeps out the cold northerly winds that rush southward to Santa Fe. Westward also, nature has interposed barriers to shield New Mexico from gales,

"Look out!" cried the captain, as the canal-boat was passing under a low bridge. A Frenchman immediately put his head out of the window to look, and got a severe blow. Rubbing his head ruefully, he cried: "Why do these Yankees call look out when they mean look in?" Look out for your health means look in. For the secret of health is within you. Form is in the air you breathe and in the water you drink, and if your blood is pure and your stomach sound the germs can find no permanent lodgment. To keep the blood and stomach in sound health or to re-establish them in a healthy condition when they are diseased, no medicine is so effective as Dr. Pierce's Golden Medical Discovery. It purifies the blood, cleanses the system of waste and poisonous substances, increases the activity of the blood-making glands, and invigorates the stomach and other organs of digestion and nutrition.

"I can say honestly and candidly that Dr. Pierce's Golden Medical Discovery is the grandest medicine ever compounded for purifying the blood," writes Miss Annie Wells, of Ferguson's Wharf, Isle of Wight, England, "it cured me of rheumatism, and pimples on the skin, and swelling in my knees and feet so that I could not walk. I spent about twenty dollars paying doctors' bills, but received no benefit. A year or two ago I decided to try Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription,' and am entirely cured."

The People's Common Sense Medical Adviser, 1000 pages, free. Send 21 one-cent stamps for the paper-covered edition, or 31 stamps for the cloth bound, to Dr. R. V. Pierce, Buffalo, N. Y.

and when a wind finds its way up the winding Rio Grande, Santa Fe receives but the feather edge of the blow.

NEW MEXICO SANITARIUMS.
Sunny, bright days mark the winter season, which, until Christmas at least, is quite as delightful as the glorious summer, though crisp and cool. Even the spring months in Santa Fe cannot be equaled for mildness in any eastern state. While hundreds of tourists visit the city in summer and make a more or less protracted stay, the number who come to remain permanently for the curative effect upon tuberculous diseases is all the while increasing. The proportion of the latter will be undoubtedly enlarged in consequence of the endorsement given New Mexico's climate by the United States marine hospital service, which has in 1899 established two permanent sanitariums in the territory, and will maintain them as homes for soldiers and sailors afflicted or threatened with tubercular troubles. Many years of life at New Mexico army posts and a careful examination by experts led the authorities to take this action in the interest of military invalids, and it is also intended to remove to New Mexico consumptive inmates of soldiers' homes in California and eastern states.

Favorable conditions exist all over New Mexico for restoration to health or for improving the condition of sufferer; a dry, aseptic air, light atmospheric pressure, well drained soil, a minimum of cold and heat, the absence of great changes in temperature and a maximum of sunshine.

SUNSHINE RECORDS.
As to the latter point, the latest figures available from the government records are those of 1897, the year book of 1898 having not yet been published. The summer of 1897, as it happened, was unusually cloudy and rainy at Santa Fe, yet the superiority of this city in the matter of days that were sunny throughout, can be seen by a few comparisons with places in various parts of the country.

This table shows that in the year 1897 only El Paso had more sunshine than Santa Fe, but that Texas city has much hotter summers and almost as great an extreme of cold, with an excessive amount of wind in the winter. The government records do not show that any place in the United States except Santa Fe in sunshine, year in and year out, the average number of hours of sunshine daily in a period of five years being seven hours and forty-five minutes, which is just about right for variety, comfort and health.

A favorable point in comparison with the east is that the most sunshine here is in the fall and winter, November leading, while in the east the sun is more in evidence in the summer months, when it is sometimes neither wanted nor needed.

Just a Plain Lie.
"Talk about your tender-hearted men," said the garrulous individual, speaking of his friend—"that man is so tender-hearted that he will cross the street to avoid meeting men that owe him money."—Indianapolis Press.

Literary Ability.
Sister Lil—Read Lightwits is a wonder on quotations.
Brother Will—There's where you're wholly mistaken. He was worrying over a broker's tale yesterday and he couldn't tell Sugar fluctuations from Consolidated Gas preferred.

STOPS THE COUGH AND WIPES OFF THE COLD.
Laxative Bromo-Quinine Tablets cure a cold in one day. No cure, no pay. Price 25 cents.

Her Disbeliever.
"He says he is from New York," said one young woman.
"Yes," answered the other.
"I can't believe it."
"Why not?"
"He talked with me for five minutes without saying anything was 'ferce,' or characterizing anybody as a 'lobster.'"
—Washington Star.

Faustibly Explained.

Dick—By the way, old man, do you recall why Jacob had to work seven years for Rachel?
Harry—I suppose he was saving up for a Christmas present to her.—Smart Set.

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy and find it to be a great medicine," says Mr. E. S. Phipps, of Boston, Ark. "It cured me of bloody flux. I cannot speak too highly of it." This remedy always wins the good opinion, if not praise, of those who use it. The quick cures which it effects even in the most severe cases make it a favorite everywhere. For sale by A. C. Ireland.

A Close Call.
She—Were you ever married?
He—No, but I was once engaged to a Brooklyn girl.—Smart Set.

You can spell it cough, cough, cough, kauf, kaff, kough, or laugh, but the only harmless remedy that quickly cures it is One Minute Cough Cure. Ireland's Pharmacy.

By Heart.
Amelia—The proper study of mankind is man.
Ophelia—And the course is not committed, either, till you have him committed.

To remove a troublesome corn or bunion: First soak the corn or bunion in warm water to soften it, then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily; rubbing vigorously for five minutes at each application. A corn plaster should be worn for a few days to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism. Pain Balm is unequalled. For sale by A. C. Ireland.

Badly Crushed.
The modest Torque stood aghast.
"Trimming of vegetables?" she exclaimed. "Now wouldn't that make you late!"

"The very latest, I believe!" replied the fall hat, with hauteur.—Smart Set.

"For three days and nights I suffered agony untold from an attack of cholera morbus brought on by eating cucumbers," says Mr. E. Lowther, clerk of the district court, Centerville, Iowa. "I thought I should surely die, and tried a dozen different medicines, but all to no purpose. I sent for a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and three doses relieved me entirely." This remedy is for sale by A. C. Ireland.

Her Pointed View.
Chapple—Don't you think society is an empty thing?
Miss Fuller—I think there are lots of empty things in society.—Smart Set.

When you feel that life is hardly worth the candle take a dose of Chamberlain's Stomach and Liver Tablets. They will cleanse your stomach, tone up your liver and regulate your bowels, making you feel like a new man. For sale by A. C. Ireland.

The Necessary Str.
Chapple—She says I'm the first man she ever engaged to.
She—Well, she's got to begin on somebody, hasn't she?—Smart Set.

QUESTION ANSWERED.
Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of appendicitis, nervous prostration or heart failure, etc. They used August Flower to clean out the system and stop fermentation of indigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. For sale by Ireland's Pharmacy.

Only Temporarily Suspended.
Miss Innocence—Did their friendship end in marriage?
Mr. Willy—Yes; but they renewed it after their divorce.—Smart Set.

Poisonous toadstools resembling mushrooms have caused frequent deaths this year. Be sure to use only the genuine. Observe the same care when you ask for DeWitt's Witch Hazel Salve. There are poisonous counterfeits. DeWitt's is the only original Witch Hazel Salve. It is a safe and certain cure for piles and all skin diseases. Ireland's Pharmacy.

The Truth is Just.
"I wanted to go out shopping today," sighed young Mrs. Maddox, "but I couldn't on account of the rain."
"Wanted to try to get something for nothing, as usual, I suppose," said her husband, attempting to be facetious.
"Well, I did think of getting you some neck wear," replied Mrs. Maddox, innocently.—Smart Set.

Your Face
Shows the state of your feelings and the state of your health as well. Impure blood makes itself apparent in a pale and sallow complexion, Pimples and Skin Eruptions. If you are feeling weak and worn out and do not have a healthy appearance, you should try Acker's Blood Elixir. It cures all blood diseases where cheap Sarsaparillas and so-called purifiers fail; knowing this, we sell every bottle on a positive guarantee.

Carrie—Yes. There's good material for an actor in him.—The Smart Set.

A Village Blacksmith Saved His Little Son's Life.
Mr. H. H. Black, the well-known village blacksmith at Grahamville, Sullivan Co., N. Y., says: "Our little son, 6 years old, has always been subject to croup, and so had have the attacks been that we feared many times that he would die. We have had the doctor and used many medicines, but Chamberlain's Cough Remedy is now our sole reliance. It seems to dissolve the tough mucus and by giving frequent doses when the croupy symptoms appear we have found that the dreaded croup is cured before it gets settled." There is no danger in giving this remedy, for it contains no opium or other injurious drug, and may be given as confidently to a babe as to an adult. For sale by A. C. Ireland.

DOES IT PAY TO BUY CHEAP?
A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in other case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boschee's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. For sale by Ireland's Pharmacy.

How He Disposed of Him.
"Yessir," said the returned Klondiker, "one of my dogs—just a common mongrel—saved my life."
"And you were not heartless enough to sell him, were you?" they asked.
"Naw. I ate him."—Indianapolis Press.

The progressive nations of the world are the great food consuming nations. Good food well digested gives strength. If you cannot digest all you eat, you need Kodol Dyspepsia Cure. It digests what you eat. You need not diet yourself. It contains all of the digestants combined with the best known tonics and reconstructives. It will even digest all classes of foods in a bottle. No other preparation will do this. It instantly relieves and quickly cures all stomach troubles. Ireland's Pharmacy.

Plain Evidence.

FOR SALE
An Ideal Sheep or Goat Ranch.

This ranch is located about 35 miles north of Santa Fe, and a few miles east of the Denver & Rio Grande railroad. It is in all respects equal to the famous Pecos forest reserve. A creek of pure mountain water runs through it and the water never fails. The land is covered with the finest grasses and other forage plants suitable for sheep, and especially for goats. It has plenty of shelter and contains much timber which affords shade. The title to the property is perfect. The acreage is about 10,000 acres, but the range that is controlled by the water thereon is very great. For further information apply to Max Frost, Santa Fe, N. M.
