

Committee and Dean Comments for CNA APR 2017-2018

All areas of the APR were completed, but a few revisions were requested. Comments were:

- Spell out Certified Nursing Assistant, at least the first time used
- Provide targets for the overall program assessment, not just individual student assessment targets
- Good review; program running efficiently
- Fix numbering/lettering of program goals
- I really like your individual advising model
- Major revisions needed
- Mention that faculty are all adjunct teachers
- Some missing pieces; overall OK
