

Spring 1999 Education Committee Report

- According to Bruce Hayden, the 1999 Schoolyard LTER supplements are nearly all distributed.
- The Education Committee completed a report summarizing activities (such as the [Education Workshop, Biosphere II, October 1998](#)). The report was reviewed by the Executive Committee during their February 1999 meeting in Washington D.C. The report was then revised and presented to NSF.
- Education Committee representatives Diane Ebert-May and Patricia Sprott will meet with Bruce Hayden, as well as other DEB, EHR and ISE folks during the week of April 19 - 22 to discuss the possibility of developing an RFP for further funding for education efforts at LTER sites and other field station sites.
- News of the outcome of this meeting will be presented in the Spring 1999 edition of the Network Newsletter
