LTER Technology Committee:

We have our meeting arranged for March 25-28 to be held at the San Diego Super Computer Center/ UC San Diego thanks to Louise here and Tony Fountain at SDSC.

I still haven't received information for a site representative from the H.J Andrews, Arctic Tundra, North Temperate Lakes, Cedar Creek, Harvard Forest, Hubbard Brook, or Plum Island Ecosystem LTER sites. Input from all LTER sites regarding the direction of technology issues will be very important considering the upcoming interest related to Information Technologies and efforts such as NEON!!!

I welcome suggestions and comments for items to be placed on the agenda from techcom members and LTER Principal Investigators.

Techcom members: Please plan to attend based on the following information. If you are unable to attend please let me know, and try and find an alternate representative from your site. A more complete agenda will follow later this week, and be put up on the LTER Technology Web page.

The basic agenda follows, based on input I received from techcom members:

Thursday, March 25 - Fly in to San Diego, CA
Friday, March 26 - LTER Techcom meeting 8-5pm at SDSC
Saturday, March 27 - LTER Techcom meeting 8-5pm at SDSC
Sunday, March 28 - Fly out from SDSC

If you have any general questions regarding this meeting or travel to it, please feel free to contact me.
