

Brief Report from LTER CLIMATE COMMITTEE
MEETING at Estes Park ASIM Sept 1993.

Full minutes will be provided later to the
Network office.

- 1 The climate committee will resubmit a proposal
to prepare a systematic comparison and
time series analysis of site temperature
and precipitation.
- 2 It will prepare a review paper of climatic
studies and observations at LTER sites.
- 3 The committee will suggest that climate
be explicitly considered in any changes
to the five core areas.
- 4 The committee will advertise more widely in
the network the existence of the
Climate/Ecosystem Dynamics Bulletin Board.

Notes by David Jeaneland.
