WJK45-06-27-01

Temp. at 915 A 68; W - Rio la Santa at Policarpio 44  
Policarpio 48

Trout are definitely interested in spawning in the lower part of Policarpio creek. Two are on a redd ~~and~~ but are neither digging nor courtship. They may be feeding.

Trout spawned at 1020

At 1045 they returned after a brief intermission for feeding.

Dropped notebook at 1147 and frightened pair.

Temp. 1115 Policarpio 54 ~~44~~ A 78

Captured specimens by seining in lower part of an old abandoned channel of la Santa immediately above the mouth of Policarpio.

Time 1430
