Like Crunching Numbers and Fighting Crime?
The Metro Law Enforcement Program may be right for you.
Graduate accounting students at Anderson have an opportunity to work with the white collar crime unit of either the Albuquerque Police Department or the Bernalillo County Sheriff’s Department. This 3-credit accounting elective is offered on a limited basis each fall and spring. Students are required to complete an application, be interviewed both internally (UNM) and externally (APD or BCSO) and have a background check. Selected students will then serve as an intern for an entire semester working 7 - 9 hours per week with one of the law enforcement agencies. For more information on the Metro Law Enforcement Internship Program or for an application, please email Professor Rich Brody, the internship coordinator, at brody@unm.edu. Applications due Tuesday, April 1.

AdviseMENT

April 1 - MBA Program Application Best Consideration Date (Domestic Students).

Club News & Events

SHRM Meeting, Electing new officers!
Don't miss the next Society of Human Resources Management! We will be discussing the trip for the HR Games, having a guest speaker discussing how to motivate people, and electing new officers. This is a great opportunity for many individuals.

**FAST INFO**

Have a question? Ask it at [http://fastinfo.unm.edu](http://fastinfo.unm.edu) and we’ll try our best to answer it here.

**Question:** My test scores placed me into Math 180, do I still have to take Math 121?

**Answer:** No, Anderson only requires the completion of MATH 162 or 180 with a C or better. If you place into MATH 162 or 180, then you do not need to go back to MATH 121 or 150 (and the Math Dept. will not give you credit if you do go backwards), nor are you required to continue past MATH 162 or 180. However, if you place out of MATH 121 or 150, you do not earn any credit, so you will need to replace those missing 3 credit hours with an additional free elective of your choice.

**CIARE Seminar**

The first Center for Information Assurance Research and Education (CIARE) Seminar took place on Wednesday, March 5 featuring speaker George B. Tselentis. Tselentis told the audience in the Jackson Student Center how he has saved firms more than one billion dollars in his role as a Senior Security Auditor. His experience in information technology and telecommunications services has taken him around the world to perform audits and security consulting for clients ranging from Fortune 500 companies to the U.S. Department of Justice to the State of Iowa, just to name a few.

CIARE and the Anderson Accounting Department will look at diploma fraud at the next seminar on Thursday, April 24 from 7:30 - 9 am. Allen Ezell, retired Special Agent with the FBI, will discuss his investigations into fictitious college and universities. Don’t miss out! Space is limited RSVP before April 10 at [http://www.mgt.unm.edu/students/seminar](http://www.mgt.unm.edu/students/seminar).
