Mel Eaves, Acting Chair, called the meeting to order at 9:01 a.m. and a quorum was established with Directors Chalmers and Solimon attending via phone.

Motion was made to adopt the agenda; second; with a vote of 5-0-0 in favor. Motion passed.

Motion was made to approve the Minutes of the March 7, 2012 HSC Board of Directors’ meeting; second; with a vote 5-0-0. Motion passed.

Director Chalmers left the meeting.

Chancellor’s Administrative Report

Chancellor Roth reported that the Association for the Accreditation of Human Research Protection Programs has recognized the HSC for the work of the Research Protection Office in developing innovative and effective IRB approval processes. He acknowledged Dr. Richard Larson and his team. He reported that the College of Nursing recently had a reaccreditation site visit which resulted in a “no findings” and the site team was extraordinarily complimentary of the College. Dr. Roth congratulated Dean Ridenour and the College. Dr. Roth recognized Dr. Meghan Thompson, College of Pharmacy, for receiving a national award for her Prescription Drug Misuse and Abuse Program. He also reported the implementation of the HSC Wellness Program. Discussion. Action Required: Billy Sparks will prepare an events calendar and distribute to the Directors on a regular basis. Dr. Roth recently held a Town Hall and the draft HSC Values Statement was discussed with input from across the HSC community. Action Required: Paige Briggs to send a copy of the draft HSC Values Statement to the Directors. In conclusion, Dr. Roth announced that the Sandoval Regional Medical Center will have a grand opening on July 7th.

Health System Report

Mr. Steve McKernan, HS Chief Operations Officer, reported that the opening of the Sandoval Regional Medical Center will be a huge benefit to the existing UNMH, with 40-45 new additional physicians in our community to practice. He emphasized that this will mean a net increase to the number of beds we have in the community, clinic space in the community, and the number of patients we will be able to
treat. He recognized Mssrs. Rogols and Masciotra, and the Chairs for their tremendous job in recruiting.

Discussion. He announced that the Hospital is currently involved in a CMS Conditions of Participation Survey. He also reported that the HSC and its components are making the audit and annual reports available to the Board members and will ensure full compliance. Discussion on importance of information gathered and analyzed in audit processes and reports. Mr. McKernan concluded by briefing the Board on the next phase of clinical expansion for the HSC Health System – the development of the 100-Bed Hospital in Lands West (PowerPoint presented with details). Discussion. The Board recognized the Sandia Foundation for its long-term support of the expansion of the Health Sciences Center.

Discussion on to what extent the HSC can meet the growing demand for sophisticated health care in New Mexico at a time when we can anticipate that revenues per case will drop and the demand for volume and value increases and having the necessary resources to be able to continue with this type of strategic facility planning and implementation. Challenge: the HSC must maintain the ability to meet the commitment it has made to the citizens of New Mexico at a time when resources are shrinking and demands are increasing. The Board recognized the long-term excellence of management at the HSC yet added a note of caution on the importance of professionally staying ahead of the curve with regard to human resources, i.e., the physicians and specialists. Recommended that, at a future Board meeting, the Directors review in more depth the HSC strategic plan with an emphasis on how we remain competitive in order to retain our medical talent. Mr. McKernan added that the State of New Mexico will soon release their application for an 1115 Waiver to the Federal Government to revamp the Medicaid Program in New Mexico. Discussion.

Director Solimon had to leave the meeting at this point.

HSC Faculty Council Update

Dr. Katalanos was not in attendance but her report was distributed to Directors with the agenda.
