Dr. Roth noted that Dr. Richard Larson will present an update of the HSC Strategic Plan but Dr. Roth also gave input on conversations he has participated in from academic health centers around the U.S. on how to respond to the Affordable Care Act (ACA). He stated that although each center varies greatly, the constant message was an extraordinary amount of change is going to happen and that the responsible thing to do by leadership is to understand the potential risks for not doing anything or doing something that might be modest and then being prepared for severe issues, i.e., sequestration.
