Preface

These materials are designed as a short introductory text on Commercial Law. Difficult problems are intentionally avoided, as are references to cases and legal periodicals. The bibliography contains a selection of texts that explore the Code more thoroughly and offer an avenue into the case law that is quickly developing under the Uniform Commercial Code.

This introductory text should be useful to the student who is approaching Commercial Law for the first time and as a quick reference (or quick review) for those who have had experience with the subject. This text is used by the authors to complement a problem approach used in the teaching of Commercial Law.

These materials draw freely upon what the authors have written in Forms and Procedures Under the Uniform Commercial Code, and in some instances upon material in The Uniform Commercial Code Reporter-Digest.
