NEW STEEL BEARING WALL* OFFERS THE MANY
ADVANTAGES OF CURTAINWALL PREFABRICATION

An ingenious new PAC/WALL concept
integrates steel open web joist with
panels and fenestration to provide a
finished interior/exterior,
prefabricated wall unit for one-
and two-story buildings.

Advantages include:
efficient use of materials • more
floor space • elimination of projecting
columns • very narrow column
sight lines • reduction of construction
time • structural analysis can provide
for seismic-wind plus bearing loads
prefabrication quality control

HAPPY NEW YEAR

In planning your work for the new year ahead, remember American Marietta stands ready to assist you at all times. We work with architects, consulting engineers and general contractors all the way from the planning state to the finished building. Our years of experience in the use of concrete — in all its forms — can be of value to you.
