# A GUIDE TO THE LITERATURE OF THE SOUTHWEST

*Lyle Saunders*

13

**T**HIS BIBLIOGRAPHY, a service of the Inter-American section of the University of New Mexico's Research Bureau in the Social Sciences, attempts to list, with as much thoroughness as time and resources permit, current materials dealing with the Southwest. The Southwest, as we define it here, includes all of New Mexico and Arizona and parts of Oklahoma, Texas, Colorado, Utah, Nevada, and California.

The symbol (F) designates fiction; (J) is used to indicate material on the juvenile level. Included here are mainly those items which were published or came to our attention between April 1 and June 30, 1945.

The major part of the work of compiling this issue was done by Mrs. Martha Morris.
