# A GUIDE TO THE LITERATURE OF THE SOUTHWEST

*Lyle Saunders*

17-18

**T**HIS BIBLIOGRAPHY, a service of the Inter-American Section of the University of New Mexico's Research Bureau on Latin America and Cultural Relations in the Southwest, attempts to list, with as much thoroughness as time and resources permit, current materials dealing with the Southwest. The Southwest, as here defined, includes all of New Mexico and Arizona and parts of Texas, Utah, Oklahoma, Colorado, Nevada, and California.

The symbol (F) designates fiction; (J) is used to indicate materials on the juvenile level.

Because of a shift in the publication dates of the NEW MEXICO QUARTERLY REVIEW, no issue of this Guide appeared in the Spring, 1946, number. This issue, therefore, includes items which were published or came to our attention between April 1, 1946 and September 30, 1946, and has been given a double number.

The majority of the items for this issue were gathered by Robert Conway and Jack Vogel.
