A GUIDE TO THE LITERATURE OF THE SOUTHWEST

Lyle Saunders

20

THIS BIBLIOGRAPHY, a service of the University of New Mexico's Research Bureau on Latin America and Cultural Relations in the Southwest, attempts to list, with such thoroughness as time and resources permit, current materials dealing with the Southwest. The Southwest, as here defined, includes all of New Mexico and Arizona, and parts of Texas, Utah, Oklahoma, Colorado, Nevada, and California.

The symbol (F) designates fiction; (J) is used to indicate materials on the juvenile level.

Included in this issue are mainly those titles which were published or came to our attention between January 1 and February 28, 1947. Changes in the publication dates of the *Quarterly Review* make it necessary that this and the two succeeding issues cover only a two-months period. However, beginning with issue 23, we shall again return to a three-months interval.
