GEORGE ADLAI FEATHER IS RHODES SCHOLAR

Popular young athlete is one of eight men in United States who successfully passed examination in Latin Math. and Greek.

An interesting fact discovered during the past week is that George Adlai Feather, our Rhodes Scholar, was one of the eight men, out of 65 who passed the examinations in Latin Math. and Greek. Twenty-two passed in Latin and Math., and the other thirty-five failed altogether.

Feather has always been one of our best students here at the Varsity and it is indeed a real honor to pass and be classified with the eight leading scholars. Adlai is working for a Master's Degree here this year, and will leave for Oxford about the first of September.

It is necessary to chose eight colleges out of twenty-two, which the student desires to attend after arriving at Oxford, and Adlai has made his choice as follows:

Merton, St. John Banno, Christ Church, Magdelen, Wadham, Jesus, Lincoln.

The citizens of Artesia, Feather's home town, to show their appreciation, gave him a banquet while he was home during the holidays.

We are glad to have such a man as Feather with us and wish him all the good luck possible when he starts on his journey next September.

HIRAM HADLEY VISITED ON HILL LAST WEEK

Prominent educator of the early days stopped over in Albuquerque to visit with old friends and the University.

Mr. Hiram Hadley, one of the oldest educators in the state was in Albuquerque last week and visited the university during his short stay. Mr. Hadley came to New Mexico from Richmond, Ind., 30 years ago, and occupied a prominent position in the State Teachers' Association, when Dean C. E. Hodgins was president of the association. When he first came to New Mexico he held and operated a private school in Las Cruces. When the bill became law, establishing the New Mexico Agricultural College, this private school was absorbed into the Agricultural College, with Mr. Hiram Hadley as president.

He was vice-president of the University of New Mexico from 1894 to 1897, when Governor Stover was president. All active work fell to Mr. Hadley. He was first educator to be State Superintendent. After holding this position he retired to

(Continued on page 4.)

Varsity Quintette Trims Y.M.C.A 51-37

Gymnasium filled to doors witnessed fast and exciting game in which Cherry and Silver completely out-classed opponents.

The University basket tossers walloped the Y. M. C. A. last Saturday night to the tune of 51 to 37, in a very fast and exciting game. The entire second team was put in before the contest ended, and all substitutes showed up well. The Y. M. started out with a whirl, and made five points before the Varsity knew it, but gathering themselves together our men determined to win the contest, took a decided brace and at the end of the half the score stood 21-13 in our favor.

Lyman Thackery again produced the goods, repeating the same performance as at the Indian school last week and caged nine baskets before he was relieved by Upton. The speed with which "RED" traveled over the floor and the accuracy with which he tossed the ball proved fatal to the "Y." Bob Wigely, our veteran guard played a whirlwind game, caging five baskets and holding his man to very few points. Time after time, Bob went the entire length of the floor, and wound up by caging the ball without any difficulty.

Joe McCanna at center played his usual good game and made four baskets, keeping his man from caging more than two.

Louis Nohl, the new guard, played exceptionally well and although his forward made a good many points, his work was good.

The Varsity quintette will be forced to practice hard the next week or ten days in order to defeat the fast aggregation from the University of Arizona, but with the support and backing of the students we should be able to bring home the bacon.

BRORIEN AND TIMMONS TO REPRESENT U.N.M.

Two prominent debaters chosen to meet University of Southern California on the "Literacy Test," next month.

From a debating squad of ten men, Brorien and Timmons were picked to represent the Varsity in the debate to be held next month with the University of Southern California.

A comparatively small audience witnessed the tryouts but the arguments set forth were of the best calibre. Lee Walker and Thoralf Sundt were the next two men chosen. Tryouts for the debate to be held with Redlands, Calif., will be held some time soon and anyone interested is requested to see Pro-

(Continued on page two)

Alpha Gamma Sorority Entertained Friday

Very delightful informal party held for Rotary Club was well attended; speeches characteristic of different places well delivered.

The Alpha Gamma Sorority gave the Rotary Club dance last Friday night in Rodey Hall. All the fraternities were well represented. The speeches of the evening were devoted entirely to creating enthusiasm for the Mirage. All the speakers have had experience either in newspaper work or year book publications and the relation of their experience was interesting and helpful.

Mr. Timmons gave a general outline of plans for the Mirage, from which it may be seen that all will be done to make this year's Mirage eclipse that of former years.

Mr. Mason gave a very interesting talk on fraternities and their part in making the year book a success.

Miss Williston, of the Morning Journal, told of her experience in college publications and made several good suggestions.

The program was concluded by Mr. Keleher who is an experienced newspaper man.

If all the advice received were to be put into practice the Mirage would be a Seven Year wonder.

DR. KIRK INVITED TO SPEAK AT GEOLOGY MEET

Gathering in Tulsa next month have issued special invitation to Professor of Geology to deliver address on geological condition of New Mexico.

Dr. Charles T. Kirk, professor of department of geology, has been invited to deliver a paper upon the general geology of New Mexico, before a meeting of geologists of the southwest, in Tulsa, Okla., February 9th and 10th.

Dr. Kirk will represent the University at this meeting, and the advertising secured therefrom will be enormous. Professor Kirk has represented the University before on several different occasions, and his services have been great in every respect.

Dr. Kirk will be right at home at this meeting, knowing about 50 per cent of the men who will be present, most of them being his very intimate friends.

The University is indeed proud to boast of the fact that she has such a man as Dr. Kirk with her and extends congratulations to him and thanks for his already invaluable service.

Richard Darling and Bernhardt are two new Pi Kappa Alpha pledges.

Circulo Espanol To Meet Tuesday Night

Place of meeting to be at Miss Lina Fergussons home, 224 North Eighth Street; interesting program arranged.

The Circulo Espanol will hold its regular meeting tonight, Tuesday, January 23rd, at the home of Miss Lina Fergusson, No. 224 North Eighth street, at 8 o'clock. A very interesting program has been arranged and all those who will attend are promised a very gay time.

The last meeting of the Circulo was pronounced such a decided success that without doubt this will be even better than the first one. Katherine Chaves, president, has been taking a great deal of interest in the promotion of the success of this undertaking and with the hearty co-operation of the members it will undoubtedly prove worth the effort to every one who spends any time toward its development.

Spanish is the language which will be taught in all colleges from now on, and it seems of vital importance that since we have the chance, we should take advantage of it and learn to speak fluently.

Everyone is invited to be present provided you are intending to become a permanent member. Be there on time and thus avoid a great deal of confusion.

A. H. S. TEAMS TO PLAY Varsity Friday Night

Two fast contests promised to all those who attend at Armory January 26th; dance after game; admission "four bits."

U. N. M. basketball teams, both men and women will play the Albuquerque high school teams Friday night at the Armory. The first game will start promptly at 8 o'clock. After the games there will be a dance.

In order to make this season a financial success it will be necessary to co-operate with the management and boost each game. Talk about the game now and you are sure to interest some of your friends so they will be prepared to attend next Friday. Make a date now and you will be sure to be in on the ground floor.

The A. H. S. teams are in the best condition and the games will undoubtedly be of the best brand. Most of our girls from last year will be in the game, and although it is their first contest this season, with proper support and backing they will come out victorious.

Lets get behind our teams this season and push them on to victory. The Armory is the place and the time is 8 p. m.

CLASS DAY FIGHT.

As yet nothing definite has been decided by either Sophs or Freshies concerning the class day fight to be held St. Patrick's day. The time to make arrangements is right now and the presidents of the two classes should get together and arrange the battle. This fight is something which we should start this year, and a custom which should be continued. The feeling between Freshmen and Sophomores is not so great that the Presidents will not be able to get together and arrange things. This plan has been advocated for the last month or so and as yet no one has made a move. Get some life, Freshies and let it be known that you are on the hill and ready to stand up for your rights. If not, the Sophs will get the jump on you and it will be time to out the "bats in the rack" before you even get started.

BRORIEN AND TIMMONS TO REPRESENT U. N. M.

(Continued from page one).
fessor Bonnet or Mr. Timmons.
Brorien and Timmons have both had considerable experience in the debating line, and will undoubtedly come out victorious when they go to California. The entire student body wishes you the best of luck at any rate, Carly and Pryor.

The Phi Mu's held a very interesting "Open House" Sunday afternoon immediately after Vesper Service. All those present enjoyed a very delightful afternoon.

Eight Normal girls taking arithmetic are endeavoring to secure some secret service man to help them in the class room, since the overflow of language used by the professor is getting entirely too tiresome.

The seven ages of man have been often on an acquisitive basis. Thus: First Age—Sees the earth.

Second Age—Wants it.

Third Age—Hustles to get it.

Fourth Age—Decides to be satisfied with only about half of it.

Fifth Age—Becomes still more moderate.

Sixth Age—Now content to possess a six-by-two strip of it.

Seventh Age—Gets the strip.

"GO ASK WILLIE" CAST TO BE PHOTOGRAPHED

Tuesday January 23rd is day set for pictures to be taken; everyone is requested to be present on time.

The cast of the famous "Go Ask Willie" will have their pictures taken on Tuesday, January 23, if the weather man permits of fair enough weather. These pictures will undoubtedly be a special addition to our mirage of this year. These pictures will cost the management of the play \$50.00, so that all persons of the cast be sure and do not disappoint the photographer when they are told to appear. The proofs will be finished on Wednesday, so that any one who wishes may have individual prints made of any of these pictures. The persons wishing these special copies will please notify Floyd Lee on Wednesday of next week.

To the Editor of the Weekly:

Dear Sir: In response to your call for contributions, voiced in last week's paper, I am sending you the following presentation of certain interesting facts here at the U. N. M.

First of all, we have a University; it is small as yet, and it is young but it is beginning to grow. It is now entering upon that most impressionable and determinative age popular to all youth. Hence, it is advisable that it be carefully guided and safe-guarded. For that purpose, the institution is put into the hands of an experienced governing body. But unless the student body helps to work for this greater unit, for the University, the regents, president, and faculty, will find the growth of their charge considerably retarded. For instance:

We have a dramatic club which, like our football team, represents the University as a whole and not any section of it. The membership is absolutely open to any member of the University, and the casts for plays are chosen, irrespective of all class, department, or fraternity prejudice.

The dramatic club has this year established a reputation. It has proved that the University can "do things." "Better team work" and real contagious college enthusiasm has never been seen in the history of our institution than was shown in "Go Ask Willie." The townspeople are still talking about it and the play management has received over 80 requests from prominent citizens to repeat the performance.

Now the management and everybody concerned, work hard. I would like to put an adjective before that "hard" but refrain on account of the modesty of your readers. It was no easy matter inducing patrons to buy tickets. Why? Well, for one reason, amateur plays have been "done to death" in Albuquerque, and for another, the people are laboring under the impression that plays put out by the Sigma Chi fraternity are University productions.

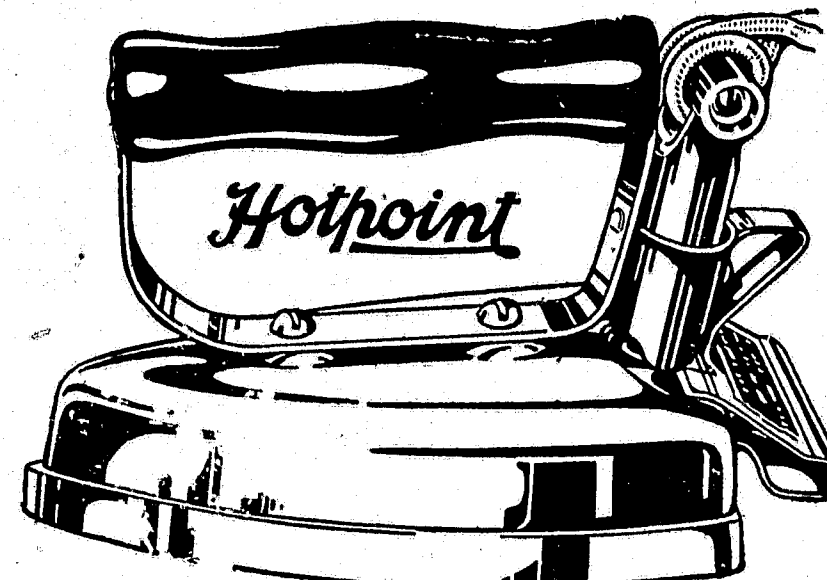

It has been the custom for the Sigma Chi fraternity to give a show each year for their own financial benefit. The money which is made in this way is said to be spent for a chapter house, paying off the mortgage.

At present we have at the U. N. M. three fraternities who have houses with money still due on them. A fourth fraternity already has plans and a lot purchased for their new home. The writer can not speak with any degree of sureness about the remaining two (Continued on page 3.)

Mrs. Roscoe R. Hill was operated on for appendicitis last Saturday at St. Joseph's sanatorium and is getting along nicely.

EUKREUKUBLA MEETING PROVES BIG SUCCESS

Recently organized society at Hona meets and discusses important problems arising during holidays.

Last Sunday evening the Eukreukubla Klan held its first meeting after the holidays. The officers elected for the second semester were as follows:

Super-High-Sphinx, Helen Thacker to 16.
Grand Scribe, Elizabeth Pennington.

After the short business meeting, came the evening's serious business; a spread and the initiation of the new members into the purposes and ideals of the order.

Afterwards, while the girls grouped themselves in orderly fashion on the floor, our celebrated fortune-teller, Miss Hermione Hoge, gave us some exciting and interesting glimpses into the future.

When each member had been satisfactorily married, killed and buried, the Klan adjourned to the realms of hot water and soap for a dish-washing party.

(Continued from page 2.)

fraternities as to their indebtedness, but nevertheless is inclined to believe that they, two, are making plans for a new home.

Is it right for all these six fraternities to detract themselves from college activities and give a play for their own financial benefit? Can you imagine what our college life would be if each of the six fraternities would give a play in this way? Each one would of course go to the merchants of Albuquerque, as students of the University, to secure a long patron's list. Even as it is—with only one doing this—you can ask the manager of any year's Weekly, Mirage, University annual play, football, basketball, track, or base ball, what effect it has on college activities.

The University has this year established a reputation for the plays it produces. You can easily see the advantage a group of University students would have in giving a play at this time the management has received over 80 requests from prominent people to repeat the performance, "Go Ask Willie."

The plays that the Sigma Chi fraternity have given, such as "Excuse Me," have never equalled the University productions, because the fraternity has had a much more limited number of people from whom they pick their cast; added to this some of the boys are forced to take the girl's parts.

Just how these plays have impressed the general public can easily be seen by reading the Morning Journal. It is with the idea of sounding the student body that I submit these facts to the Weekly.

Is not a University reputation of more importance than a single organization's reputation?

To me, it seems wiser that we turn all our attention in this line towards the University Dramatic Club than to divide it into several dramatic channels, so that in a few years the club will be on a solid foundation.

Yours truly,
(Signed) FLOYD LEE.

John A. Sheehan, Pi Kappa Alpha, from Georgia Technological, has entered college for the rest of this semester.

U. OF ARIZONA FIVE DEFEAT TUCSON "Y"

Fast game ends with Wildcats on top to tune of 28-16; University basketball tossers have not been beaten in three years.

In a letter to one of the students of the Varsity, we find the interesting news that the Arizona University basketball team beat the Tucson Y. M. C. A. team by a score of 28 to 16.

Since we are planning on playing the Arizona team ourselves this year, on February 1, we are especially interested in this score.

We have also the information that the Arizona team has not been beaten in the last three years.

From this information you can judge for yourself how our boys are working that they may be the first ones to beat Arizona. The same rule works in basketball as in all college athletics. The teams need and appreciate all the college spirit shown and will play harder when it is exhibited.

CURRENT EVENTS

Jan. 15—Japanese cruiser, Tsukuba, blown up in the Kokosuko harbor; 153 killed, and 157 hurt.

Jan. 16—Foreign Minister Zimmerman says allies' note bars peace steps by Germans now.

Jan. 17—Big offensive by entente may be looked for any moment. Admiral Dewey dies following short illness in his 80th year.

Jan. 18—German opinion is solidified by conditions stated by allies. Naval officers report against abandonment of any navy yards.

Jan. 19—Teuton advance in Rumania is checked; allies report gains; searchers give little hope of finding lost airmen.

Jan. 20—Little fighting reported from any war front. Bishop and Robertson, lost aviators, rescued barely in time.

"Doggie" Hoffman is pledged Alpha Delta.

Miss Mamie Hart has returned to the dormitory after several weeks spent in the Presbyterian sanatorium. Although she will be unable to attend classes for a week or two, she is enjoying herself, for her room is constantly full of visitors who bring her cheering messages from her other friends.

We may think we are abused but the students in New Hampshire have to pay \$5.00 for late entrance after holidays.

Mr. Doering was made a delegate to the National Security Congress at Washington.

The Phi Mu's made merry with a spread and slumber party at their house on Wednesday evening.

The Alpha Deltas are giving a dance next Friday evening at the Woman's club.

Why wasn't Steed a Trotter last Friday night?

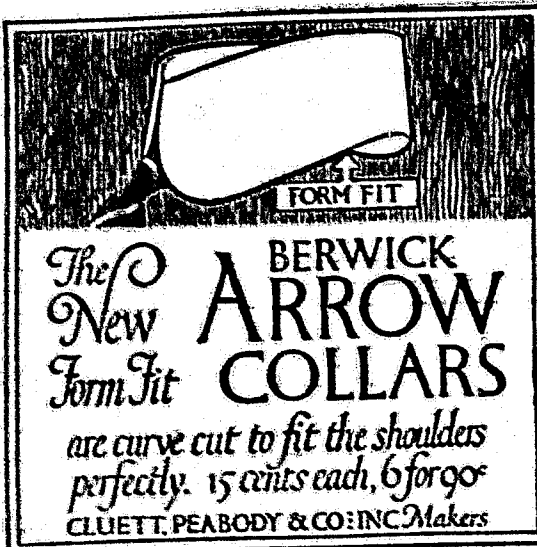

Work on the new building is coming along fine and entrance to the science hall is blocked with boxes containing apparatus and supplies for new courses which have never before been offered.

WHO'S WHO?

It was a little childish prank,
They played on Johnnie at the bank,
When Johnnie started to display
What he knew in the banking way.
It seems that there was not on hand
A instrument much in demand,
A sorta new kind of machine—
A type that John had never seen—
(Who knew that Johnnie was so green?)
"John," said the boss, "Where are you at?
Tear outa there and bring your hat—
Go ramble to the First Nat. Bank,"
(The old boss growled; he was a crank)
"And bring us up a statement machine."
Poor John look dazed and scratched his bean.
"A statement machine," said he to John,
"Is what they make up statements on,
Now get your hat and begone."
"Yessir," said John and out he went
In haste. Alas, poor innocent!
He asked the machine, they gave him one,
The blooming thing weighed just a ton.
With Shaking knees John staggered back,
He wished they'd put it in a sack.
He entered, and able to bear no more,
He let it fall upon the floor.
And then John knew it was a joke,
For when it hit, the package broke,
They slipped poor John a bale of bricks
And now he's wise to banker's tricks.

THE CITY FELLER

O there's some as say the West is slow,
As slow as it can be,
But thank the Lord it's not as fast
As some folks that you see.
Now once there was a college,
That set up on a hill,
It was so awful peaceful like,
And quiet too and still.
The students learn psychology,
Geology and such,
And rapid calculation,
Tho' that aint very much.

CLUETT, PEABODY & CO. INC. Makers

DANCE TO STUDENT BODY SATURDAY BY PI K. A.

Entire Varsity to be guests of fraternity men in Rodey Hall January 27th; everybody be there.

The Pi Kappa Alpha Fraternity will give a dance to the student body on Saturday night, February 3, at Rodey Hall. An invitation is hereby extended to each individual student at the Varsity urging that a special effort be made to attend. The dance will start promptly at 8 o'clock and will adjourn early, thus giving ample opportunity to return home in time. The music will be furnished by the Booster Orchestra and an all around good time is expected. The affair will be entirely informal, and the usual hospitality extended by the fraternity men will be in evidence. It is sincerely hoped that everyone will make a date and attend the party.

But then they studied French and Greek,
And English I and II,
And math, and sociology,
And hist'ry old and new.

The pupils all was happy,
And most of them was gay,
As toward their graduation,
They went their own sweet way.

But all them times of goodness,
Has went where good'ens go,
Because a city feller,
Has said that we was slow.

He lived close to the subway,
We wish they'd let him rest,
But then his ma got tired of him,
And sent him to the West.

He came up to the college,
Jest to see what he could see,
Because he knew that in this world,
Not one was wise as he.

He looked at us with pity,
He said that it was too bad,
He called us country pumpkins,
And said our case was sad.

But he was some kind hearted,
He couldn't stand to see,
That his own fellow creatures,
Was ignorant as we.

So he took the job upon hisself,
To fix the school up right,
And help us poor-grade heathens,
To try to see the light.

He taught the teachers how to teach,
He taught the coach to coach,
He lit into the Weekly staff,
With reams of kind reproach.

But when he got all finished,
The school was just the same,
So he stood up and cussed hisself,
And said he'd worked in vain.

Now when I go to bed at night,
Of prayers I say a stack,
That the city feller's mother,
Will relent and take him back.

HIRAM HADLEY VISITED ON HILL LAST WEEK

(Continued from page 1.)

Mesilla Park, N. M., where he now lives and has a very nice home. Although not connected directly with any educational organizations he is always willing to help along this line.

In Richmond, Ind., he had an Academy called Hadley's Academy, where our present Dean C. E. Hodgkin had his first day of schooling. The

Academy was operated on much the same basis as our present public schools.

We certainly were glad to have the pleasure of having one of our former managers with us last week, and wish to extend him our hearty good wishes.

Last Sunday morning the Eukrenukla Klan walked through the snow to church, in a body. On the way they stopped to visit Miss Mamie Hart at the Presbyterian sanatorium.
