ALBUQUERQUE, NEW MEXICO, FRIDAY, JANUARY 21, 1921

Number 17

ASSEMBLY, LAST FRIDAY MOST INTERESTING OF THE CURRENT YEAR

Announcement of Chester T. French's Gift; Delightful Music Program Fills Hour.

The assembly last Friday morning was generally conceded to be one of the most successful and interesting of the school year. It was a very happy combination of speaking by a downtown business man and a musical program by the Department of Music.

At the opening of the assembly President Hill formally accepted the sum of \$500 from C. T. French as the endowment fund for a scholarship medal to be granted at the close of each year to that student graduating with highest honors. President Hill then introduced Mr. French, who was enthusiastically received by the student body.

Mr. French in his address remarked upon the strides which the University had been making in every line of endeavor in the past few years and also assured the students and faculty of the added interest which the downtown people were beginning to take in the University.

As a mark of appreciation to Mr. French for his gift and which is even more appreciated, if that is possible, for his moral support of and enthusiasm for the University, the student body passed a set of resolutions thanking him for his gift and attitude.

Following this, the Department of Music, under the direction of Professor Lukken, delivered the following program:

Alma Mater—Student Body.
Rose of My Heart (Lohr)—Thos. V. Calkins.

Shepherds Hey (Grainger)—Miss Dorothy Cameron.

(a) Shadow March (Protheroe);
(b) How Much Wood Would a Wood Chuck?—U. N. M. Male Quartette.

The Lark Leaves His Watery Nest (Chadwick)—Miss Evangeline Smith.

Allah (Chadwick) Mr. F. Guy Heslet.

Calm as the Night (Bohn); Dear Old Pal of Mine (Rice); Shanson Provencal (E. Dell'Acqua)—U. N. M. Ladies Glee Club.

The personnel of the men's organization was: Messrs. Calkins, Heslet, Rockwood Hite, Faw, Lukken, Carey and Johnson.

The ladies glee club consisted of Misses Morrisette, Smith, Dixon, Hardeman, Zimmerman, Parsons, Gerhardt, Gott, Herby, Travis, Sands and Wicklund.

The program throughout was well delivered and thoroughly enjoyed. The solos were artistically sung and we have reason to congratulate ourselves upon having this talent in the University. Messrs. Calkins and Heslet are the top tenors in the double quartette and Miss Smith is leading soprano in the Ladies Glee Club.

The Men's and Women's numbers were particularly well received and enthusiastically enjoyed. We hope to hear more of this music in future assemblies.

J. B. Herndon, Jr., left a few days ago for El Paso, where he has accepted a position with the El Paso Bank and Trust Co. Mr. Herndon has until recently been with the State National Bank, where his father is president.

ENGINEERS BANQUET GREAT SUCCESS

A. A. E. Banquet at Country Club Surpasses Any Other Social Affair of Year.

Last Friday night saw the first event on the program of the Varsity A. A. E. put over about three laps ahead of any event of the year. The Country Club was almost filled to its capacity with the Varsity boys and their guests, the latter including many members of the faculty and many distinguished engineers of the state.

The roast calf seemed to be a great favorite with all those present and lost no time in disappearing, taking with it everything else on the menu, a blue-print of which was furnished every man so there was no confusion as to what was to be done. It is rumored that Rex Craig would have been capable of handling the situation without the blue print, but with it the job was handled very effectively by every one.

After the first rush and the oscillations of the right arms had slowed down to almost nothing, smokes were passed around and a Spanish athletic meet was held with Mr. Booker in charge as head coach. Among those who entered for the long throw were Dr. Hill, Dr. Clark, Mr. Prager, Mr. Ed Ross and Dean Eyre. Honors went to Dr. Hill. Those who went in for putting the harpoon were Prof. Carey, Rex Craig and Coach Johnson. Event taken by Johnson.

The evening ended with every one feeling fine, for there had been plenty of distilled water and news had come from the hospital that the negro waitress would recover from Mr. Carey's jokes and be on her job the next day.

Y. W. HAS TALK WEDNES- DAY NOON AT HOKONA

The Y. W. C. A. meeting Wednesday noon was led by Miriam Scheibe, who entertained the girls with stories of Y. W. life at Pittsburgh University. Her talk was full of life and pep and showed her great interest in the work. Miss Johnson, the new secretary of the Y. W. C. A. down town, was on the hill to meet the girls and spoke a few words at the close of the meeting. A violin solo by Edna Hillyer added much to the enjoyment of the meeting.

VARSITY PICK-UPS WIN FROM HIGH

On last Friday a team composed of a number of men in the University interested in basket ball played a game with the local high school team in the high school gymnasium. At first the superior team work of the hi men was successful in giving them a slight lead, but in the last half the Varsity men succeeded in getting a semblance of team work and piled up a 24 to 10 score in their favor. In spite of the fact that it is impossible to have regular intercollegiate basket ball a great deal of interest is being shown in the interfraternity games and the games played by pick-up teams in the University. A number of University students were present at the game Friday.

The University team was chosen from the following men: George White, Vernon Wilfley, Lawrence Dow, Louis Gerpheide, Ben Gerpheide and O. B. Witten.

C. T. FRENCH GIVES \$500 FOR SCHOLARSHIP

Will Start Student Prizes to Be Given at Commencement.

Chester T. French on Thursday notified President D. S. Hill that he would give the State University \$500 in Liberty bonds, the interest of which will be used annually to buy a medal for that regular student of the University who has attained, in the opinion of the faculty and president, the highest scholarship and grades in his academic work.

"Thus," says President Hill, "Mr. French has accomplished at one stroke three splendid achievements in behalf of the youth of the state. First, he has erected a permanent means of supplying additional intellectual stimulus incentive, and pleasure in the pursuit of knowledge and of intellectual power; secondly, he has set a significant example to persons of means when he establishes this, the first definite prize-foundation for the encouragement of scholarship in the State University; thirdly, he has erected an enduring and beautiful monument to his own good name; for thousands of students in the long years to come will note with appreciation and benefit this good and opportune deed."

President Hill states further that it was his intention to make the first public announcement of the gift of Mr. French at the University assembly next Friday, but now that the news has been published, he expresses as above the deep gratification of the students and faculty over the act of Mr. French.

GEOLOGY TRIPS TAKEN BY FUTURE ROCK EXPERTS

The volcano at Isleta was the object of study for the first year Geology class under direction of Prof. Ellis last Monday afternoon. The party went to Isleta in cars and then started a-foot to look for lava and craters. Several specimens were captured and brought to town (not craters). After inspecting several lava flows and taking ample notes the class returned via the Isleta oil well but did not get to see the rig in operation.

A fifteen-mile hike was finished with every one going strong. The autos were picked up again at Isleta and got out of town, only killing two chickens.

DR. MOISE BERGMAN TO DELIVER ADDRESS TODAY

The University of New Mexico will be addressed by Dr. Moise Bergman at the Assembly Friday, January 22. Dr. Bergman is rabbi of the Temple Albert of this city and a very prominent and valued citizen, known for his active interest in all welfare movements and well liked by all.

The University is fortunate in having this opportunity of hearing Dr. Bergman and anticipates a very interesting and beneficial address. During one of our former assemblies Dr. Bergman kindly afforded the student body a short, peppy talk, and all who heard this or other addresses given by him will feel assured of spending a profitable and pleasant hour.

Miss Rose Maharam, a graduate of the U. N. M., is substituting for Miss Asland at the Central School, Albuquerque. Miss Rose Maharam is a sister of Edyth Maharam.

A. A. E. SUPPORTS BILL FOR ENGINEERS' REGISTRATION

Chapter Has Received Charter from Headquarters

The now recognized, University of New Mexico chapter of the American Association of Engineers devoted considerable time, at their meeting last week, to the consideration of the provisions of the engineers' registration bill that the southwestern district has prepared. The bill, when finally approved, will be introduced in the New Mexico legislature meeting this winter. They seek its passage from a desire to serve the public by protecting it from unscrupulous and incompetent men.

The opinion was expressed that every member at the University should and would do everything in his power to secure the passage of the bill finally approved. The bill is a very broad and liberal one, yet should do much to eliminate incompetent and dishonest engineers. No honest, competent man should object to any of its provisions if he really understands them. It differs from bills previously enacted in that it defines professional engineers so as to include men who examine and report upon mineral deposits, oil land, etc. It also provides for the registration of assayers, and contains a provision permitting any non-resident of New Mexico to practice for three months in the state without having applied for registration therein, provided such person notified the board of engineering examiners of his desire so to practice, and provided further that said board has the power to require any such person to make immediate application for a license if in its judgment the public welfare will be best served by so doing.

After its business meeting the society heard a very interesting talk by Mr. Praeger, general manager of the Albuquerque Gas and Electric company, on railroad electrification. On many instances Mr. Praeger cited that the coal mines are not using their steam plants even though they have their own fuel but are buying electrical power as it is cheaper. Also with electrification a railroad can increase its capacity from fifty to one hundred per cent using the same track and with a lower cost of maintenance.

The electrification will mean a very high first cost as power plant, transmission lines, etc., will have to be built. Also it will mean that a very large amount of equipment now on hand will have to be junked. However, Mr. Praeger believes that the electrification of the railroads will soon come about as it is no longer in its experimental stage.

One of the striking features of railroad electrification is that of regeneration of power—that is, a locomotive in going down hill has its own motors automatically become generators and furnish electrical power back into the trolley and thus helping some other train up a grade. Another feature of an electric locomotive is that it may be run for thirty days twenty-four hours a day without having to go in the shop for repairs, a performance not paralleled in the history of steam locomotives.

Mr. Praeger told of many other interesting advantages and gave some very striking figures as to the economy of railroad electrification.

Mr. Praeger also extended an invitation to the chapter to visit the Albuquerque electrical plant, which it intends to do in the near future.

The chapter charter, which has arrived, will be framed and placed in the Practical Mechanics building, together with a framed picture of the chapter. The charter is a very beautiful one and the Engineers are very proud of it.

any desire to do anything along these lines should join the Society as soon as possible in order to begin work for the coming year. The meeting has been called by George Bryan, who was last year manager of debate.

some cameras, etc., in various designs and have an unlimited supply. They also are carrying an excellent grade of fraternity stationery engraved with crests of the various fraternal organizations on the Hill and, best of all, they have two kodaks which they will loan—free—

low the example shown in older universities by making contributions, giving prize awards, and loan funds to the University. During the past year the following were noted: The gift of \$1,500 by citizens for the grandstand, \$500 of which was

Staff Meets Every Monday at 12:30 p. m., Seminar Room.

Entered in the Post Office in Albuquerque, New Mexico, February 11, 1914, as second class matter.

FRIDAY, JANUARY 21, 1921.

In the Weekly of last week the editor proposed an all-school Washington Birthday fete to be held in order to raise money to buy our football men the sweaters which they deserve. At the meeting of the Student Council last week it was decided to give each organization one vote for or against this fete. So far there has been little interest shown. The Sigma Chi and the Pi Kappa Alphas are the only two organizations on the hill which have so far pledged their active support. It is high time that the rest of the organizations were expressing some sort of an opinion. As far as the nature of that opinion goes the Weekly urges that it be in the affirmative. Let you not only vote for the fete but as well get out and pledge your support to this enterprise.

In any student body it is by such means as fetes and carnivals that the spirit of the entire student body is manifested. Eleven men can win a football game, five men a basketball game, three men a debate, a few stars a track meet, but it takes the co-operation of every person in school to put across a fete. The reason for this fete is certainly just. Our football men must have the honors they deserve. So let's all get out and show a real spirit of co-operation and put the fete across.

It will not be drugery. It will be fun. It will be part of the college education which is costing you so much time and your family so much money. It will give some idea of that thing which makes the world go around: promotion. It will help you in planning big undertakings. There is every reason in favor of holding the fete and not a reason against it.

The only thing that is holding it back is the apparent stagnation of the student body. Of late we have gone to sleep. The people of Albuquerque were behind us strong during the football season. The people of Albuquerque will be behind the University whenever we show any real pep and enterprise. In the idea of this fete we may show that pep. Let's wake up. Let's show the residents of this community that we still have a University up here. Let's show them that this University has some real, live, wide awake students.

CITY MANAGER MAKES VALUABLE GIFT

Mr. James N. Gladding, city manager of Albuquerque, has presented to the Electrical Engineering Department a very valuable gas and electric Bunsen photometer. Together with the photometer are many

devices which can be used with it. This piece of apparatus is very much needed and will certainly be of great value to the students who are taking the course in illumination given by Professor Carey.

PRESIDENT ADDRESSES UNIVERSITY FRIDAY

Walter Berger, Debate Manager, Tells the Assembly of Five Coming Debates.

Last Friday week the students of U. N. M. gathered again in the regular weekly assembly; the first since vacation and the first in 1921. It marked the beginning of a new year, which is certain to see advancement and improvement for the University of New Mexico.

The assembly was opened by a beautiful vocal duet given by Miss Grace Stortz and Mr. McKean. It was strenuously enjoyed by the audience but, with no results. Miss Stortz, a former student of U. N. M., has been in Evanston taking vocal lessons and is soon returning to resume her studies there.

Walter Berger then made a few remarks concerning the debating program for the year. Debates have been arranged with the University of Southern California and the University of Arizona on the question: "Resolved, that the presidential candidates in the United States should be chosen by a system of nation-wide primary." New Mexico will also debate the University of Texas on the subject: "Resolved, that the individual states should establish industrial courts as has Kansas, and a debate is to be arranged with the New Mexico Agricultural College at Las Cruces. Perhaps Colorado College will also be included in the schedule.

President Hill, who has just returned from a trip, then took the platform and announced that he would speak to the students in a serious vein and on the subject of American education. He said that the feeling is quite general that college students pay more attention to matters of the moment than to the greater matters of tomorrow, but that he believes that this is not altogether true. He then proceeded to a discussion of American education, its aims and ideals, its functions and nature.

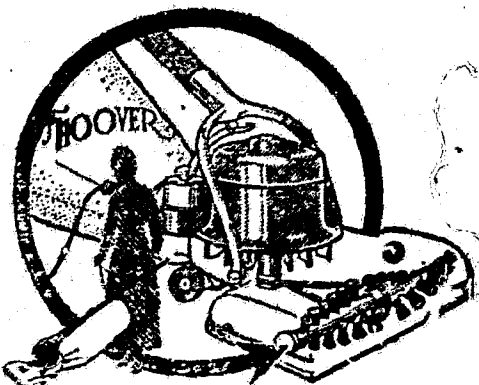

He said that education is a "cold blooded" attempt to fit a person for some definite purpose or duty in life. The aims of education are variously defined. Some say that the aim of education is to train people to be able to earn their living, while others say it is exactly the opposite, to train them away from the useful arts of life in every way. Other aims are said to be perfection, skill and mental culture. But the most all embracing aim is—first, the matter of self-support; second, not to interfere with the legitimate happiness of others, and finally, to make some contribution to the general happiness and welfare.

Mr. James N. Gladding, city manager of Albuquerque, has presented to the Electrical Engineering Department a very valuable gas and electric Bunsen photometer. Together with the photometer are many

COSULICH HONOR GUEST AT SPANISH CLUB

Last Thursday afternoon the regular weekly meeting of the Circulo Espanol was held in Rodey Hall. Originally scheduled for Wednesday afternoon, the meeting had to be postponed until four o'clock Thursday afternoon, so that it would not conflict with the interfraternity basketball games. It was the first meeting since Christmas vacation and though the attendance was not as large as might be desired, an excellent program was given.

The meeting was opened by the President of the Club, Miss Anita Osuna, who made a few remarks to the members of the club. She said that there were several propositions to be laid before the Circulo in business session and that a meeting would shortly be called for this purpose. Among the matters to be considered is the question of dues for the second semester and also plans for enlarging the membership of the Spanish Club. Absent members are also urged to attend.

The program began with a violin solo by Miss Dorothy Cameron, accompanied by Miss Gurule at the piano. The selection was vigorously applauded and as an encore she played "The Golondrina." Miss Osuna then introduced Mr. Cosulich, the speaker of the afternoon. Mr. Cosulich has been a reporter connected with the Associated Press who had traveled widely throughout Mexico and knew much of that country and the conditions which existed there. He described to the members of the Circulo the condition of the people in the cities, particularly Mexico City, where the poverty of the people was accentuated by the wealth of the upper classes. He said that this was what bred the revolutions that ruined and destroyed the country. He showed several examples of the art of the Mexican people and said that they have a wonderful appreciation of art and love of nature. Added to this is the natural desire for independence which causes them to hate the "Gringos," since they believe that the Americans desire to control their country. Mr. Cosulich finished with a statement that great opportunities were open to the college student who would go down there and devote his time in aiding the people. Mexico is a country of wonderful natural, undeveloped resources.

After an old Spanish game, well known by the people of Mexico, the members of the Circulo Espanol were served with refreshments consisting of hot chocolate and cakes. Then, as supper time was very near, the motion for adjournment was made and carried.

He (passionately) — Darling, I have a secret to whisper into your ears—where are they?—Punch Bowl.

SOCIETY

The S. E. will have to manufacture news or the calm will be pretty sure news or the column will be pretty bare for the next two issues. No dates have been granted for the last two weeks of the semester. Society will, however, re-awaken following the final examinations. Among the first events of the new semester will be the annual Coyote dance.

ALPHA DELTA DANCE.

The last dance before the examinations was given by the pledges of Alpha Delta. The Woman's Club hall was artistically decorated in blue and gold, and at the end of the hall shone a fraternity shield of blue and gold. It was a "dandy" party, and a fitting climax to the semester's social events.

ALPHA CHI OMEGA OPEN HOUSE.

The women of Alpha Chi Omega held open house from 4 to 6 last Sunday afternoon, to the faculty and students of the University. The chapter house was crowded all afternoon and every one enjoyed this delightful little tea.

LOCALS

The marriage of Miss Frances Bear of Roswell, N. M., and Mr. Lawrence Wolfe of Teller, Ark., took place at Roswell Thursday, January 12, 1921. Miss Bear is a former U. N. M. student and a member of Kappa Kappa Gamma sorority. The many friends of Miss Bear at the Varsity join in wishing the young couple many years of happiness.

Mr. Earl Jackson of Newcastle, Wyo., was in the city last week, visiting his sister, Miss Helen Jackson.

Mr. Bruce Bevan has visitors this week. "Bevo's" mother, father and sister, of El Paso, Texas, are visiting him.

Miss Anne Harris, Kappa Gamma from the chapter, is spending a few days with her sister, Mrs. Guy Rogers of this city.

Miss Juliet Fleischer is making the Alpha Chi House her home temporarily.

It was reported that Clarence Grunsfeld was hit by an automobile during the week.

Miss Laura McGuire of Florida is in the city visiting her sister, Miss Mary Lou McGuire.

Miss Mosher, Dean of Women, had a very informal party at the Phi Mu House last week. A light luncheon was served.

Tom Hughes and Benny Gerpheide are staying at the Sigma Chi House for the present.

Mr. Clair Fetzner was a visitor on the hill last week. Mr. Fetzner is a member of Pi Kappa Alpha.

"Ozark Pete" is contemplating moving to Arizona, where the high-topped sombreros are the proper thing.

Mr. Fred Calkins was in town this

week. He is an alumnus, Sigma Chi and a brother of Tom Calkins.

Miss Clarissa Parsons had a visit paid her last Sunday by her father.

Miss Esther Abrams, a Varsity student, is convalescing nicely from the operation she had recently performed at the Presbyterian Sanatorium.

Mr. Thomas Bunn, Phi Kappa Alpha, left Sunday night for California, where he expects to attend the University of California Law School.

LAFAYETTE, WE'VE COME.

The campus stirs in action, the warring factions meet,
To do or die, the feathers fly
In choosing the elite—
O! who is fairest of the fair,
Who most deserves the limelight's glare,
Who'll wear the laurels in her hair
To trample neath her feet,
The loveliest who here reside?
The beautiful, the scions of pride,
Who'll be all beauty glorified,
Who'll fill the lofty seat?
The campus stirs in action, the warring factions meet,
To do or die, the feathers fly
In choosing the elite.

And whosoever tops the field
Will earn her shredded wheat.

Our Motto:

Plant your plasters and purchase
THE MIRAGE.

CORRECT.

"What kind of vermin is a cootie, anyway," asked the young lady.
The veteran shuddered.
"Trenchant," he replied.
—The American Legion Weekly.

LINE OF IMPORTED TOILET

March 17, 1921, when with other
elaborate ceremonies the Engineers

ty was given last Saturday evening
by Mrs. W. G. Hopewell for her son,
Willard Hopewell, who spent the hol-

tertaining with a dance at the Wom. Angle, Tom Bunn, Stewart Mac-Ar-
