## UNIVERSITY GUARDS AGAINST FLU

Regulations Posted By Medical Advisors of University, and Complete Arrangements Made for Handling of Sick Students.

The influenza has made no serious inroads at this writing among students or faculty at the University, though the number of cases has increased some the last three days. Precautionary and protective measures are being taken, and at the suggestion of Dr. David Twitchell a conference was held Thursday at the office of Mr. A. A. Sedillo, Regent of the University. Those present were Regents J. A. Reidy, Nestor Montoya, President David S. Hill, Director A. O. Weese of the Department of Hygiene, and Business Director J. P. Williams.

Dr. Twitchell and President Hill agreed that a part of prevention is to remove the contagion of fear and uncertainty by means of scientific preparedness, and plans were formulated for an isolation ward and hospital at the University, for a trained nurse, and for constant medical care of any one who might become sick. Provisions were made for optional, free vaccination of students and faculty against influenza and pneumonia, and a free medical clinic for diagnosis of colds was arranged for also, under the management of Drs. Twitchell and Frisbie.

The following rules were posted over the signatures of Dr. David C. Twitchell, Medical Advisor of Men, and Dr. Evelyn Frisbie, Medical Advisor of Women, for the University.

1. It is requested that students living on or near the campus go into the city as little as possible.

2. It is also requested that all students do not attend dances, etc., in the city.

3. A Diagnostic Clinic will be held in the Chemistry building, Monday, Tuesday, Wednesday, Thursday, and Friday from 4 to 4:30 p. m. It is suggested that any faculty member or student suffering from symptoms of common cold report to this clinic for diagnosis.

4. Free preventative vaccination will be administered to all faculty members and students who wish to avail themselves of this privilege.

5. The Medical Committee consists of Dr. J. A. Reidy, a Regent of the University, Dr. Charles A. Frank, President of the Medical Society of New Mexico, Dr. Walter G. Hope, Dr. Evelyn Frisbie, and Dr. David C. Twitchell.

If reports are true the Juniors of the New Mexico Agriculture College entertained the Seniors with a splendid Prom last week.

## TENTATIVE PLAN FOR ASSEMBLIES

Plan to be Proposed at Assembly Monday for Discussion by Students.

A good many students, including the President of the Student Body, Clyde Morris, and certain members of the Faculty have for some days had under consideration the preparation of a plan whereby our University Community could enjoy regular University Assemblies on Friday mornings at 11 o'clock.

The trouble heretofore has been that large numbers of students regularly absent themselves from Assemblies. President Hill is a strong believer in the educational and social value of the University Assembly, but is absolutely unwilling to force the same upon students and faculty. A conference with him by the Editor of this paper brings out the fact that a regular University Assembly can be arranged easily if only the majority of the students will agree seriously to cooperate with the University officials in compelling regular attendance upon the part of all students. To close the University during any class hour is a costly undertaking, both in terms of money and in terms of opportunity lost. If students will attend the Assembly, however, there is adequate compensation.

Mr. Morris and President Hill have drawn up the following memorandum which has been passed upon favorably by the Advisory Council of the Faculty. It is proposed that on Monday, of a Special Assembly, the students will be given an opportunity to consider this plan, and if afterwards it gains their hearty support, President Hill will announce it.

### CRUCES GAMES POSTPONED INDEFINITELY

Flu Causes Cancellation of Aggie Games Until Crisis of Situation is Passed.

Announcement has been made by those in charge of the basketball schedule that the quintet from the Agricultural College will not play the Varsity next Friday and Saturday nights as scheduled. This action was taken on account of the possibility of a flu epidemic in Albuquerque, and in accordance with the recommendations the University has made to its students not to attend public affairs.

While the Varsity has so far suffered a slump in its athletic record in the field of basketball, yet she stands ready at all times to uphold her part of contracts when such a stand will not be detrimental to the welfare of the institution as well as the general public, and the action of the authorities in cancelling the games is to be highly recommended.

## VARSITY LOSES TO ARIZONA

Arizona Wins Two Games From University Wednesday and Thursday Nights; Scores, 40 to 21, and 51 to 19.

In two games marked by spectacular playing and hard fighting, Coach McKale's Arizona basket ball team defeated the University quintet in two games played at the Armory last Wednesday and Thursday nights. The score of the first game was 40 to 21, and the latter 51 to 19.

Although the scores seem to be rather top heavy, yet it is admitted by all that the University squad put up a game fight, and were beaten only through superior team work and goal shooting on the part of their opponents. Slonaker for the Arizona team was the best all round player, and was one of the best forwards ever seen on an Albuquerque floor. The University team was handicapped by the rawness of the material out for basketball this year, and in view of the fact that practically none of this year's team had ever played together before, it is really a wonder that Coach McGough has been able to produce a team at all. On the other hand, the Arizona men have played together for many seasons, practically all of them being upper classmen, and the results of this long period of training were easily seen. Arizona has a good team, and their playing was marked by good sportsmanship all the way through.

In the first contest, Greenleaf as guard played a rather spectacular game, and if he had only been able to make more goals, the score would probably have been some different. It was a noticeable fact that the Arizona men were more or less wary of this Varsity guard, and also that they were unable to keep up with Gerpheide as forward. All who played for the Varsity put up a good fight, and mention could be made of deeds of each one. With more hard practice and a good backing from the student body, there is no reason why the team should not begin to work.

### SOPHOMORE ELECTION HELD AGAIN.

The class of 1922 seems to be having a hard time getting straightened out in view of the fact that three elections have so far been held to fill the presidency of the class. This time a new election was called by Secretary-Treasurer Calkins to fill the vacancies created by the withdrawal of Thomas C. Gallagher and Mae Bell Rogers from school. George V. Gentry and Blanche Gouley were the successful candidates this time, the former being elected president and the latter vice president.

## STUDENT BODY ASSEMBLY MONDAY

General Assembly to be Held in Rodey Hall Monday, February 16, for the Purpose of Considering Important Questions.

Monday, February 16, at eleven o'clock has been designated as the date for an assembly of every student in school for the purpose of considering various questions now before the school. It is hoped that no one will be absent who is able to come, and very few should be missing. The girls have been conspicuously absent for the last few assemblies, and an attempt will be made this time to give sufficient publicity to Monday to call it to the attention of everyone.

Various announcements will be made by members of the faculty, and questions proposed for ratification or rejection by the Student Body, among those mentioned at the present time being a proposed change of the constitution, and the settling of the question of regular assemblies to be held at a stated time every week. Few assemblies have been held in the University during the present school year, largely on account of the lack of interest taken in them by the students and a consequent lack of important matters to be discussed. The University has ample opportunities of hearing men of importance in many lines of industry who are eager to speak to the students and much benefit would be derived from good enlivening talks by such people. Assemblies can be made into very interesting discussions and meetings if the students so desire it, and every person will be given an ample opportunity to express his or her opinion Monday at eleven o'clock. Be there!

### A. A. E. BANQUET.

A get-together banquet was held at the Y. M. C. A. Saturday night by an organization of Albuquerque Engineers who are attempting to form a chapter of the American Association of Engineers at Albuquerque. A good crowd was present among whom were quite a number of University students who have put in their applications for student membership.

After the dinner the speaking was started by the president, Harry Duer, who gave an interesting talk on "Good Roads in New Mexico." A spirited discussion of the road situation in New Mexico followed, during which some good points were brought out by Prof. Harry E. Weir, who described the general methods adopted by the big Eastern States in dealing with the road situation. A talk on the prospects of drainage for the Rio Grande valley in the vicinity of Albuquerque was given by Mr. Edmund Ross, the County Surveyor.

## REDEEM THE VARSITY.

We are now in the midst of our basketball season. We have a good coach and good men, but as yet the team has not developed and rounded out in form as did our football squad. We believe the material is there, it's just slow in appearing. We have faith in the ability of our boys and feel that yet they will deliver the goods. Be that as it may. What are the students as a whole doing to help them? Are we encouraging them? Are we "holding up our leaders' arms?" At the Armory last Wednesday night there was a fair-sized crowd out to see the game. Some enthusiasm was shown, and we all left the scene with the conviction that our boys would put up a better fight the second night. What happened Thursday night? Our team was there, and that's about all. Not enough students there to raise a real decent yell. Where were they? Oh, ask them! We can't always have victory on our side. In the course of life's battles we will go down at times in defeat no matter how hard we fight. Victory isn't all of a game by any means. In fact, the decision is about the least there is to it. We want the sport, the friendly rivalry, the give and take, the matching of strength and brains, the courage to fight even if we are losing. There can be no doubt that our boys would have played better basketball if the students of the University had backed them as they should have. They have a right to "feel sore."

Now, what are we going to do when the next games are played here? First, let's agree that it is our duty to support the team, win or lose. This will go a long way toward making the team win. Let's be at the game and back the boys for all we are worth. When they make a bum play, let's cheer them on to making a goal the next one. Oh, there's psychology in playing basketball—you ask Prof. Landers if there isn't.

Back the team! Help them win!

Two Barracks at the State College were destroyed by fire last week, and since they were crowded before, it seems probable that some body is now sleeping on the ground.

## BULLETIN PUBLISHED

A very attractive bulletin has been prepared by the Department of Hygiene in the University of New Mexico under the supervision of Prof. A. O. Weese Acting Director of the Department, and Dr. C. Health. Included in bulletin is a list of the entire staff of the Hygiene Department, followed by a review of the health work in the University. This review traces the steps leading up to the founding of a special department at this school in May, 1919. Active work was begun with the opening of the University year, October 1, 1919, and the importance of the step taken by the government in endowing a department here is increased by the number of people who come to New Mexico for their health, and so make necessary the dissemination of a knowledge of the principles of hygiene. The department at the University proposes to cooperate with the various agencies in the state which are already at work along these lines, and by means of the concerted efforts of all it is hoped to supplement the great health resource of climate with another even greater, a citizenship with an appreciation of the laws of health.

The plan of work as engaged in at the University is briefly outlined, and several very interesting articles have been written by various people connected with the department, including the directors of physical training for men and women. Altogether the bulletin is very interestingly written, and contains much information which is needed by every one.

## Varsity Loses Double-Header to Arizona

(Continued from page 1.) together much better and make some of the latter games reversals of the former ones.

The line-up for the two games follows:

First game, Varsity: Gerpheide, Brenneman, forwards; Foraker, center; Greenleaf, MacArthur, guards. Howden substituted for Brenneman, and Hernandez and Hayes for MacArthur. Arizona: Slonaker, Wallace forwards; Pistor, center; Hobbs, and Godwin guards. Locklin substituted as guard.

Second game, Varsity: Gerpheide, Brenneman, Howden, forwards; Foraker, center; Greenleaf, MacArthur, guards. Hernandez and Culpepper, substitutes. Arizona: Slonaker, Wallace, forwards; Pistor, center; Hobbs and Godwin, guards.

## STUDY CLASS FORMED.

Under the direction of the Y. M. C. A. and the Y. W. C. A. of the University a study class has been formed, and is being conducted by Mr. Burns. The topic under discussion at present is "Leadership," and the book being used is "Under the Highest Leadership." The class is increasing in interest and membership, and to those who aspire to become leaders, the essentials of a good, capable, all-round developed leader are given. To those whose aspirations do not tend that way, a basis is given to them to judge the qualities of their present leaders, and to determine if they are of the developed type.

The class is held every Thursday in Miss Hickey's room from 12:30 to 1:00 and is open to all University students.

After defeating Denver University to the tune of 31 to 14 Colorado College claims the best all-round basketball team within the jurisdiction of the Rocky Mountain Conference.

IN HONOR OF PHI MU.

Miss Angelica Howden, assisted by the pledges, entertained the Phi Mu Fraternity at a Valentine Masquerade Dance, at the Country Club, Friday night. The ball room was artistically decorated in red hearts and red flowers, and even the ice cream and cake were carried out in corresponding colors. The plan of the whole affair was cleverly arranged. The guests were numbered, and traded around, until everybody was sufficiently mixed up. Among the costumes were bathing girls, Oriental princesses, letter girls, kindergarteners, counts, clowns, bell boys, and many others. Betty Arnot and Eleanor Anderman represented Phi Mu Founders. Their costumes were made of rose and blue crepe paper, and were the most attractive on the floor. Dr. and Mrs. G. K. Angie acted as chaperones.

Those who enjoyed Miss Howden's hospitality were the Misses Marshall, Hubbel, Spicer, Angle, Hardeman, Brooks, Stortz, Cavanaugh, Miller, Wharton, Babcock, Schumaker, Arnot, MacGrath, Church, Anderman, Lowber, Baldrige, Davis, Tompkins, Brorein, Cristy, Dixon, Mosher, Herkenhoff, Howden, Pyle, the Messrs. Bruce, Grantham, H. Bryan, G. Bryan, Berger, Graham, Kellam, Herkenhoff, Patton, Davenport, Ward, Pollock, Holden, Holderness, Bunn, Culpepper, R. Hopewell, W. Hopewell, V. Miller, Brooks, Kelly, Barr, Farr, McCanna, Nehr, Foraker, Cristy, Howden, Praeger, MacArthur, Arnot, and Olsen.

## MRS. ROBERT WIGLEY.

Mrs. Robert Wigley, formerly Adelaide Shields, died at Atlanta, Ga. on Sunday, Feb. 1, after an illness of double pneumonia. Mrs. Wigley, who was the daughter of the Rev. Harry M. Shields, a prominent Mason and churchman, was well known in Albuquerque, where she had a host of friends.

She was a charter member of Xi Chapter of Phi Mu of the U. N. M. where she was active in social and religious circles, and most popular. She took the leading part in "Go Ask Willie"; was a member of all choral clubs; she won many letters in athletics; took an active part in Mirages and Weekly work, and all together was an all round student.

Two years ago she married Robert Wigley, whom she met first at the University. She joined him at an aviation camp in Florida where a fall from an aeroplane injured one of his knees so badly that he may still have to lose his leg. He was in a hospital in Lyons, Colorado, when word came of his wife's illness and he was unable to reach her before the end.

Mrs. Wigley was a sister of Hastings Shields, a Sigma Chi, and prominent in football at the U. N. M.

## DEBATING OFFER MADE TO THE UNIVERSITY

A letter has been received from the movers in the formation of a new debating league of the leading schools in the Southwest, asking the University of New Mexico to join such a league. Among the schools which have already signified their intention of joining are: The University of Southern California, Redlands University, Pomona College, Throop College, Occidental College, and the University of Arizona. Arrangements are being made for debates for the league championship, the winning school to be given the opportunity to send a team north or east each year to debate for sectional championships. It is also planned to take care of oratorical contests in the league, and membership in such organization will undoubtedly mean much to any school. The matter is up before the University authorities and action will probably be taken in a short time.

In the meantime, arrangements are being made to hold the annual debate between the Agricultural College and the University in Albuquerque sometime in the spring, the question having already been submitted to Cruces. Definite announcement concerning it cannot be made as yet, but suffice it to say that the topic will be a live one, and of interest to everyone living in this part of the country. In view of the fact that a large number of students have signified their intention of trying for places on the team, endeavors are being made to secure a debate with some of the schools in Arizona or Texas. Such plans will be made public as soon as something definite is learned, and everyone should be preparing for an open season on debaters from other schools.

## BASEBALL FANS NOTICE.

The University is going to have a real live baseball team in the spring and everyone interested in the great national pastime should begin to dig up his old gloves and baseball togs. As soon as the weather man see fit to declare weather practice will be begun and a team will be evolved which will make the much advertised Grays of Albuquerque and such other teams which may be formed wonder why they ever tried to play baseball. The University of Chicago has written Coach McGough asking for a game with us when they come through here on their way to the Far East, and an attempt is being made among the alumnae and various members of the Student Body to complete arrangements for the game which would be a drawing card for the University.

pledges, cleverly be-decked, served hot chocolate and cakes, and "everybody had the best time, even though the ceiling fell in and the cookies broke in a thousand pieces.

## OPTOMETRIST

An optometrist is one who refracts or "tests" the eyes without the use of drugs or drops. He never treats diseases of the eye, specializing in the fitting of glasses. Optometrists are the only specialists who are required by law, in any state, to qualify themselves for this work. My one and only Specialty is the refracting of the eye, and the fitting of "Eyeglasses that Satisfy" for the relief of all abnormal strains which impair the vision, waste the vitality, and lower the sum of human efficiency.

### HAPPENINGS ON THE HILL.

Mr. J. L. G. Swinney has been visiting his son, James Swinney, who is suffering from an attack of the influenza and pneumonia.

Helen Fallis and Irene Wicklund have been initiated into Kappa Delta Nu.

Lee Walker, former student at the University and a member of the Alpha Delta Fraternity, was visiting friends on the hill last week.

Arthur Brown and T. F. Bramlet have been initiated into Alpha Delta.

Among those suffering from attacks of influenza are: Rogers, MacIntosh, and Pearce. All are reported to be doing nicely.

Prof. J. S. Landers has returned to school after a few days' absence on account of a bad cold.

Miss Anita Osuna is absent from school on account of illness.

There will be a lecture by Mr. Robinson of the Indian Service in the Chemistry lecture room, Wednesday afternoon. The subject of the talk will be "Indian Irrigation" and a very interesting discussion is assured.

William Collins has been pledged Alpha Delta.

### EXCHANGE.

Miss Hickey: "Name eleven of Shakespeare's plays."

Sganizini: "Ten Nights in a Bar Room and Hamlet."

Arizona's games with the Aggies ended in a draw, Arizona winning the first one and the Aggies winning the second.

Why Collins broke the chair in the Chemistry Lecture Room:

A very small bone, only one square millimeter—.0155 square inch—in diameter, will hold 33 pounds in suspension without breaking, while a piece of the best oak of the same thickness will hold up only 22 pounds.

Despite the H. C. L. the Senior class of Colorado college entertained the Juniors with a beef-steak supper.

Washington and Jefferson have adopted a plan of giving all dances as inter-fraternity dances and having them under the auspices of the Pan-Hellenic Association. This seems to be a very good plan and would without doubt be a blessing to our own University.

### PLAN FOR ASSEMBLIES

#### TENTATIVELY FORMULATED

(Continued from page 1.)

dent Hill agrees to put the same into operation. We are printing this tentative plan in order that everyone may study the same in advance of the meeting on Monday.

### TENTATIVE PLAN FOR REGULAR UNIVERSITY ASSEMBLIES

1. Time: Regular Assemblies will be held on Fridays in Rodey Hall from 11 a. m. to 12 m.

2. Purposes: An effort will be made to render these Assemblies profitable by means of regularly prepared programs.

3. Credit: Credit of one-half quarter hour will be awarded to each student attending at least ten of these Assemblies during one quarter. No credit will be given for extra or additional Assemblies. No credit will be given for time missed on account of illness.

4. Penalty for absence: Three consecutive, unexcused absences from regular Assemblies will automatically place a student on probation for one month. Four unexcused absences at any time during a quarter will also place a student on probation. (While a student is on this probation he will be ineligible to participate in any student activity authorized by the University.)

5. Means for enforcing attendance: The President of the Student Body, the Student Council—as at present and as hereafter constituted—and the Student Body will agree: (a) To collect attendance slips from each student present at each Regular Assembly. These attendance slips will be delivered by the Student Monitors to the President of the Student Body who will deliver them to the office of Dean Mitchell. (b) The President of the Student Body will appoint, before the first Assembly of each quarter, ten regular Monitors who will attend promptly and regularly to the collection of the attendance slips at five minutes after eleven on each day of the Assemblies in Rodey Hall.

6. Opportunity will be given to consider this plan at an Assembly in Rodey Hall at 11 a. m., Monday, Feb. 16, 1920. A vote of the students on next day will be provided for by means of ballot boxes.

Be at the basketball games and root for your team Wednesday and Thursday nights. Remember these players need encouragement and support just as much as did the football meant. The Armory is the proper place to open up that barrel of enthusiasm which has been accumulating since the Thanksgiving football game.
