COUNCIL RATIFIES DRAMATIC SOCIETY

**Student Governors Consider
Freshman Question and Place
Decision in Hands of
Sophomores.**

At a meeting of the Student Council, held Wednesday afternoon at 4:30, the corrected constitution of the Dramatic Club was read and was adopted by the council with the amendments. The Dramatic Club therefore, is now a recognized student organization.

The Freshman problem was discussed at length in the meeting and the Council guaranteed its support in the handling of the wayward yearlings. It was decided to allow the Sophomores to determine in meeting whether the Freshmen should continue to wear the ink spots during the remainder of the term. This matter will probably be put in the hands of a committee under the head of the Sophomore president.

JOHNSON TO PUT ON GYMNASIUM CONTEST

Coach Johnson, who has been conducting the gymnasium work for the two under classes has found some likely material among the men, and to further interest among them for track sports, will soon start a series of contests, in and out of the gymnasium, to determine who is the best all round man. Since training for track will begin during the week, these contests should furnish some interesting side lights on the coming season.

The events listed for the competition are: Chinning on the horizontal bar, dipping on the parallel bar, 12 lb. shot put, bar vault on the horizontal bar, 50 yard dash, running high jump, running broad jump, standing broad jump, one half mile run, and 100 yard dash. To date it is hardly possible to pick a winner, by judging from past performances men like Elder, Jones, Dow, and Hale should offer stiff competition to any of the aspiring amateurs.

DRAMATIC CLUB MEETS; CHANGES CONSTITUTION

Changes in the Constitution were discussed at the Dramatic Club meeting held Tuesday in the administration building at 12:30. The constitution adopted by the club some time ago, and which was sent to the student council for final approval, was returned to the club by the council for the inculcation of certain details considered by the council as essential.

Following the discussion of the proposed measures it was moved by Mr. Horgan, and seconded by Miss Stephenson that the clauses recommended by the council be adopted by the club and included in the constitution. The motion was carried. As soon as the instrument is approved by the council the Dramatic Club will get under way on its first production which will be given sometime around the first of March in Rodey Hall.

Wildcats Win Title

Arizona seems to have a clear title to cage laurels of the Southwest, having won all the games played on its recent tour. The Institute, the Aggies, and the University fell before the Wildcat dribblers, who will invade the Pacific Coast in the next week.

PIPE AND PEN ELECTS NEW SET OF OFFICERS

**Plans Made for Next Bulletin and
for Reception of Candidates
into the Organization.**

Walter Bowman was elected to succeed William Morris Stahl as president of the Pipe and Pen Club at a meeting held last Wednesday afternoon. Bowman has been active in interests of the organization since its conception, and was the editor of the first issue of the Bulletin. Thos. V. Calkins was awarded the position of secretary-treasurer, and the funds of the society were turned over to him by Joe Bursey, the retiring treasurer. George L. Skeel replaced George W. White in the mysterious office of the P. C.

Plans were laid for the next issue of the Bulletin, which is to make its appearance on the campus as soon as enough material can be compiled. It is expected that the next issue, of the periodical will be twice as long as the first edition, and the material used will vary in nature from the lightest, frothiest undergraduate wit, to the profound discussion of current campus problems. According to Hugh Graham, who was appointed business manager of the publication, another subscription drive will be launched, in an effort to secure every member of the student body as a reader of the Bulletin.

In accordance with intentions of the Club, during the last visit of the Burr-Patterson representatives on the campus, keys were ordered for members. The insignia is to be worn as a pendant from the watch chain, and is in the shape of an inkwell, with raised figures of a pipe and a pen crossed on the surface. N. M. U. appears at the bottom of the key, which is to be done in dull gold.

Pipe and Pen is making preparations for its Spring initiations, and several promising neophytes are to be accepted into the organization. Several unique and entirely original rites of initiation will be performed in public, and the student body is to be informed of the date set for the ordeal. No limit is set of the number of undergraduates who can become members of the organization, but the practice of the Club is to extend invitations to those members of the incoming Sophomore class who show promise in the arts.

State Title in Muddle

Having defeated the Farmers from the Agricultural College the Cadets are in line for the State title in the basketball race. The institute suffered at the hands of Arizona, but won from the Cruces representatives in a close game, 17-16. Should New Mexico secure a contest with the Aggies, comparative scores would have to be relied upon for dope on the title.

Pogo Sticks to Appear

It is rumored that the widely advertised and fashionable Pogo sticks, which are much in evidence at the Southern resorts of the idle rich, are making their appearance in Albuquerque, and will shortly be introduced on the campus. The news stand, under Fred Harvey's management, has a supply of the new sporting implements, which retail at a very moderate price.

THE STOOL

Andrew Carnegie was once asked which he considered to be the most important in industry—labor, capital or brains. Carnegie's answer was, "Which is the most important leg of a three-legged stool?"

BARBS LOSE GAME TO GREEKS—DEFAULT

**Game Played with Graham in
Place of Hyder, Score 19-16:
Horgan Stars.**

Failure of the Independent basketballers to put a full team on the floor gave Tuesday's game in the Inter-University league to the Pi Kappa Alpha quintette, by default. The loss of Walter Hernandez is keenly felt by the Barbs, and the failure of Hyder, stellar centre, to make an appearance, prevented the Independents from putting a full team on the floor. A game was played however, Wagner and Graham substituting for the missing members. The final score was 19 to 16 in favor of the Greeks.

The first half opened with a rush, the Independents scoring the first basket and following it up with one from the foul line. The P. K. A.'s, however, soon took hold and before the half ended had scored a number of baskets. The half ended 16 to 4 in favor of the Silver Avenue boys. In the second half the Barbs came back with a rush, and though they never took the lead kept slowly gaining on the victors, being only three points behind when the whistle blew, ending the game.

Horgan was the outstanding star for his team, being remarkably fast on the floor and caging most of their baskets. Graham, who started for the Independents in place of Hyder, proved himself quite efficient for one who had no regular practice with the team. Jones did most of the scoring for the Pi Kappa Alphas, while Dow demonstrated his usual fast footwork. Lovitt, who is playing guard since the departure of "Shorty Hite," proved his ability to fill the latter's shoes by getting into the play up to his neck. The line-up was as follows:

Independents	L.f.	P. K. A.
Clark	L.f.	Dow
Horgan	r.f.	Jones
Graham	c.	White
Hernandez	l.g.	Lovitt
Harrington	r.g.	Wilfley

Substitutions: Second half, Wagner for Graham.

ARTIFICIAL SUNLIGHT TESTING COLORS

A unique and interesting device which simulates the qualities of sun rays and will artificially test the fading qualities of many different kinds of materials, has recently been developed in the laboratories of the Cooper-Hewitt Electric Company.

Testing the fastness of colored cloths, paints, inks, dyes, straw, varnishes, etc., it by means of this apparatus accomplished more efficiently and in much shorter time than the customary method, now in use by manufacturers in giving long sunlight tests to their products before marketing.

A light that is faster and better than sunlight is needed in the routine testing of materials for their resistance to its destructive action. The sunlight method is so slow as to defeat its own purpose in the control of factory products or the examination of incoming materials.

Practically all of the color fading, rubber aging, skin tanning effects of sunlight are due not to the visible light, but to the invisible, ultra-violet light.

The ultra-violet or invisible rays of sunlight have little effect on human beings due to the absorption of much of them in the atmosphere. The artificial fading cabinet is, however, built to produce a light with a high concentration of ultra-violet rays. This is secured through the use of the mercury vapor arc light in a bulb.—College News Service.

CONTEST BEGINS NAMES ANNOUNCED

**Most Beautiful and Most Popular
Co-Eds to Be Chosen in
Annual Race.**

Having consulted all interested machines and parties, the management of the Mirage's contest for the most beautiful and popular girl in the University, is prepared to announce the candidates for honors in the two divisions. A close inspection of those nominated will reveal the fact that all of those nominated for one contest might just as well have been chosen for honors in the other. For various reasons the management has refrained from designating the nominators. Those who have been placed in nomination for the beauty contest are:

Miss Margaret Spargo,
Miss Margaret Phillips,
Miss Blanch Guley,
Miss Juliet Fleisher,
Miss Elizabeth Shepherd,
Those who have been nominated for the popularity contest are:
Miss Mary Sands,
Miss Helen McArthur,
Miss Frances Andrews,
Miss Dorothy Cameron,
Miss Geraldine Tully.

Votes for the various candidates will be given with each issue of the 1922 Mirage, which will be the same price as last year. Tags will soon be issued to the various students, which will be divided into three parts, one to be given the purchaser, one which contains the votes, and the other to be turned into the contest manager. Tags will be sold for two dollars, half the purchase price of the Mirage, the balance to be collected on the delivery of the book.

LOWELL LIT. SOCIETY TO DELIVER PROGRAM

On Thursday evening, February 16, at seven o'clock in the Chemistry lecture room, the Lowell Literary society will render their first program. The affair will be under the direction of George Martin, president pro-tem, who will introduce the speakers. While the program has not been definitely made up, the Weekly has been authorized to announce the following as the probable list of speakers and events:

Oration—Our Japanese Question, Mr. Roy Hickman.

Declaration—Miss Mary Sands.
Debate: Resolved that the Federal Department of Education should be created. Affirmative, Mr. Kenneth Wilkenson and Mr. Cullen Pearce; Negative, Mr. George Bryan and Mr. Charles Caldwell.

Following the program Dr. Hill will deliver a short address to the students.

WIRELESS JOINS U WITH SOUTHERN INSTITUTIONS

Reports are being sent and received daily by the University Wireless station. Mr. Vernon Wilfley, who is in charge of the station sends out a weather bulletin over the State daily, and also keeps in touch with the other state collegiate institutions.

With the recent installation of several instruments, and the correction of several minor faults in the sending and receiving apparatus, the power of the U. station has been greatly increased. Proof of this is evidenced by the receipt of the details of the basketball game played between the Texas University and the Texas College of Agriculture and Mechanical Arts at Austin, Texas.

who desire to do anything along these lines should join the Society as soon as possible in order to begin work for the coming year. The meeting has been called by George Bryan, who was last year manager of debate.

signs and have an unlimited supply. They also are carrying an excellent grade of fraternity stationery engraved with crests of the various fraternal organizations on the Hill and, best of all, they have two kodaks which they will loan—free—

low the example shown in other universities by making contributions, giving prize awards, and loan funds to the University.

During the past year the following were noted:

The gift of \$1,500 by citizens for the maintenance of the

seniors, Cullen Pearce, Vernon Wilfley, Ed Horgan, and George Bryan, who constitute the total active membership of the Khatlah Senior Honor Society, met for a short get-together and business meeting. While the organization is still a comparatively

game of the season. equipment is the best made for athletic use. The new uniform form with the present uniform that the sweaters are reinforced leather to prevent any chance of tearing.

STATE UNIVERSITY LIBRARY IN DANGER

The deplorable conflagration at Las Vegas where the Main Building of the Normal School burned entailing also, as reported, the loss of the library has caused president David S. Hill of the State University of New Mexico at Albuquerque to sound a warning concerning the extremely valuable collection of books at the State University.

Since the recent reorganization and radical improvement in the State University during the past two years the University Library has rapidly become the most important feature of the university plant. The University Library at Albuquerque contains forty thousand bound volumes and more than eleven thousand unbound books and pamphlets covering practically every field of science and literature. Some of the government reports and records on file are quite ancient and could not be replaced at any price.

This great collection of books, the largest in the State of New Mexico, is now housed in the old Administration Building, which is far from fire proof, says President Hill. Indeed with its wood and lathe construction, dried timber and obsolete wiring, the University Library is housed in a fire trap. Precautions are being taken at the University to guard it against fire. All persons connected with the University have been warned, smoking is prohibited, and fire extinguishers are available. However, it would be an irreparable loss to the State of New Mexico if this Library should suffer from fire, as did the Library at Las Vegas. The last legislature was requested by the Board of Regents and by President Hill of the University to appropriate at least seventy-five thousand dollars for the building of a substantial library, but without avail.

This proposed new Library would be in keeping with the remarkable progress which has been made during the past two years at the State University of New Mexico. During the past two years the institution has been extricated from debt; an increased appropriation has been secured; all salaries have been raised three times; three buildings and an athletic grandstand have been erected and paid for; the personnel of the faculty has been improved in scholarship from two or three persons with the earned Doctorate to nine having their earned Doctorate.

and to the majority of the Faculty with at least the Master's Degree; all preparatory students have been eliminated; the Student Body has increased in size and the morale has been elevated; modern systems of organization and social control have been devised and put into operation; an Internal Budget System has been installed, thereby improving the equipment of departments and facilitating better work upon the part of the staff; a greater degree of confidence has been cultivated in the public.

REGISTRATION.

The completion of registration shows a large increase in enrollment over that of last year. All classes have gotten back into the swing of the regular routine and there is great promise of the final semester of this year being the best of any which have passed in the history of the institution.

One of the remarkable features of the new registrants is that at least ten states are represented. Another feature is that the majority of the new registrants came from other institutions of higher learning. This would indicate that the reputation of New Mexico University is rapidly growing and that the University is coming forward among the institutions of the country. A perusal of the list of students enrolled and a consideration of the personal statement concerning them reveals the fact that we have as cosmopolitan a student body as any in the United States. Among the additional states represented by newly registered students are: Indiana, Pennsylvania, Ohio, Kansas, Oklahoma, Missouri, Arizona and Illinois.

Now is the time to make new students feel that New Mexico University is an institution worthy of the name. If they have the ideals, the spirit and the customs of the school properly presented to them at this time they will become enthusiastic supporters of our Alma Mater. If they do become such supporters we can rest assured that they will be the best possible advertisements of the University when they go back to their home states during the Summer vacation. As an institution of higher education we are advancing rapidly in reputation, strength of faculty and roundness of curriculum. When we demonstrate our fitness to the world through the medium of our students then we can hope to take the place we deserve in the state organizations, and our increased registration proves conclusively that we are efficiently doing just that thing.

PITFALL AND GIN

The latest indoor sport is carried on daily in the Varsity Shop. It is called "Equilibrium," and consists of eating an Esquimo pie while comfortably seated on the radiator.

Times Have Changed.

It used to be
Whenever we
Wished dope to run the colyum on;
We wouldn't think—
Just split some ink
On Daugherty 'n John;
But now that Stahl
Has hit the ball
And left it strictly up to we;
We scratch our dome,
And write a pome
To John and Daugherty.

—Gin.

OUR WEEKLY CONUNDRUM

The time has come, the Walrus said . . . to talk of cabbages and (allow us) to change the quotation and say . . .) queens. Consider an "off-and-on-the-campus - romance" and the loss of a jewelled pin. Then guess who is the queen and who the cabbage.

OUR WEEKLY LOVE STORY

He is kinda dizzy and not so very dear, while she is very dear and very slightly tintured with the other quality. At any rate her methods are very, very smooth, particularly with the lad with the enormous vocabulary. At first it was a very passionate sort of an affair, flowers and the like—you know—the first date has been roughly estimated at thirteen dollars—and from that to worse. Then the little bird got busy and whispered something in his ear, which irritated his peevish; and when he only sent her a picture of his manly phiz for Xmas, the stuff seemed to be strictly off. But now times have changed—yes—times have changed. The Dizzy Deers!

"CAMPUS TRY"
DO YOU KNOW???

Who sat on the bleachers Wednesday night?

That peculiar whistle that is heard around the dorm?

The plot discovered over the telephone?

The boy who hid his infatuation successfully?

The latest "cut-out" on the campus?

The worst "cut-up" at the dorm?

The girls who went to the masquerade ball sans invitation?

Why the pledges got balled out?

The girl who loved and lost?

Why the girls are so nice now?

Who got the raspberries—a couple of quarts?

Who stood in the shadow of Hadley Hall?

The couple who sat on the bench by the Country Club and forgot dinner?

Sometimes We Read What's In The News

You may hold degrees from Princeton,

You may think that Harvard's great,

But if I should go to college

To accumulate some knowledge—

I think that I would try Ohio State.

The Co-eds there

Are passing fair

They have but one ambition.

Though well or ill

They crave a thrill

To keep them in condition.

The women at Ohio State

Must be a lively crowd;

They smoke and drink and stay up late,

And wear apparel loud.

They no not fret

If one should pet

And kiss them now and then;

And if you be

At a Co-ed's tea,

It's worse than a lion's den.

You can talk about the Cornell crew,

The prestige that the Yale grads rate;

Were I to voice

My own sweet choice—

You said it ho! Ohio State!

—Pennsylvania.

LAND LIGHT HOUSES.

Demonstrations with an apparatus consisting of a large size searchlight and a huge inclined mirror, which have just been completed by the searchlight engineers of the General Electric Company at Schenectady, N. Y., are believed to be the fore runners of land lighthouses for the use of aeroplanes at night.

The equipment used in the tests comprised a 36-inch, high intensity searchlight having a capacity of 325,000,000 beam candle-power and a mirror sufficiently large to reflect this powerful beam. The searchlight was enclosed in a housing structure and remained stationary. The beam played through a window in the house upon the mirror and was reflected straight up into the sky to a great height. The mirror was inclined at an angle of 45 degrees, and was movable, allowing the light beam to be rotated in the air.

The proposal is to identify the town or station by rotating the light in a certain manner. Thus a string of these land lighthouses could be set up, 25 miles apart, between two points, like New York and Washington, and to the aeroplane pilot familiar with their signals they would constitute a perfect guiding path through the night, as well as identify desired landing places. By enclosing the searchlight, this delicate apparatus would be protected at all times from the weather.

In the General Electric tests, the light beam was observed at points from 65 to 75 miles distant. Land light houses, if established, would be only about half as far apart, however.—College News Service.

SOCIETY

The Social Committee of the Y. W. C. A. gave a tea last Monday afternoon from four to six in honor of the new girls and the girls who were not members. After a very agreeable get-together hour, refreshments were served. This is the first of a series of informal teas which will be given by the Y. W.

Friday night, the Dorm girls gave a Valentine dance in the gym for themselves and their invited guests. The Valentine scheme was generally carried out in the decorations and refreshments. The Delta Rainbow orchestra furnished the music for dancing and everyone had a fine time.

The Sigs had a small, informal dance at their Chapter House, Saturday night. In order to get all the dancing possible, programs were given out at seven-thirty. Several clever stunts and refreshments gave a pleasant variation to the dancing. Altogether it will be remembered as one of the "regular Sig" dances.

George L. Skeel entertained last week at his home for members of the Pipe and Pen club. The affair was in the nature of a Bridge-smoker. Among those present besides the club members were: Mr. William Roy, Mr. Hiram Cudebac, and Mr. Tony Gilbert. Sandwiches and coffee were served at eleven o'clock.

A BARGAIN

The fresh cream puffs in Tony's window looked inviting, and an interested housekeeper stepped inside to inquire the price.

"Fifteen cents da doz," replied the smiling shopkeeper, wiping his hands on his apron preparatory to filling a box.

"Why!" exclaimed the lady, "that's remarkably cheap. I usually have to pay four times as much."

"She's cheapa all right," confided Tony. "Da healt' office phone I gotta close uppa da shop right off. My girl, Carlotta, gotta da measles."

PROBING HIS DEPTHS

"When did you first become acquainted with your husband?"

"The first time I asked him for money after we were married."—London Opinion.

THE MANAGER'S PRIVILEGE

"Are you the manager here, I should like to know?" demanded the official, angrily.

"No, sir," replied the man. "Then don't talk like a fool!"—Pickup.

VIRULENT EPIDEMIC THREATENS STUDENTS

The Matrimonial Bee, which proved so deadly during the Spring of 1921, is again running rampant and several of the students have been more or less seriously bitten. Everyone who attended the U last Spring is well acquainted with the list of last year's victims. Proof of its work is evinced by the recent announcement in the El Paso Herald—"Born to Mr. and Mrs. Grant Mann, a daughter." And who has forgotten the long enduring romance of Belle and Sam which culminated in a license and elopement to Belen; to say nothing of the narrow escapes of Don Hanibal Ybarra and Dwight McClure.

This year's epidemic first came into serious notice when Victor Miller fell a victim to the disease and finally succumbed. The plague is now in its worst stages. Big Dixon and Miss Farley have fallen before the fatal sting and don't seem to give a whoop, in fact, Dixon was so badly infected he did not hesitate to pass around a box of the choicest spinach. Who should the fatal critter pick on then but our senior class president, and hero of the Gridiron, Mr. Ralph Hernandez, who claimed for his one and only, Miss Elsie Clayton. The faculty committee, out of consideration of his illness, allowed him to continue, which may be classified as one good feature of this peculiar affliction.

Many others in the school have been slightly touched and some have even reached the crisis. Attorney Martin, who was critically ill for a few days, seems to have recovered in part, but is not yet out of danger. As yet no adequate means of prevention has been discovered but the social committee is hard at work on a remedy and some sort of vaccination will probably be in order in the next few days.
