OHIO STATE SHOWS APPRECIATION OF NEW MEXICO HOSPITALITY

Dean L. B. Mitchell Receives Letter from Mr. Morrill, Sec'y O.S.U.A., Expressing Thanks for Reception Here.

Editor of Weekly:

I have a letter from Mr. Morrill, Secretary of the Ohio State University Association, in which he desires me to express to the students of the University the appreciation of the team and other members of the party which passed through here on their way home from the defeat administered to them by the University of California football team. It was the first greeting that the boys had received after their defeat, and, therefore, made a favorable impression. It ought to mean something to the students here to realize that they are regarded as good fellows. This little demonstration of welcome and comradeship has been mentioned with appreciation in various publications of the Ohio State University, and many thousands more people have heard of our University and their first impression has been a favorable one. It certainly pays to practice good manners.

L. B. MITCHELL.

TWO CALIFORNIA SOPHS HIKE TO NEW YORK

Wager \$1,000 to Reach Destination in Forty-five Days.

Vincent and William Silk, two sophomores from the University of California Dentistry School, passed through here last Tuesday on a hike from San Francisco to New York City.

The Silk brothers are members of the Amigo Club in San Francisco and on the twenty-third of last month laid a wager with the club that they could hike to New York City in forty-five days. To be perfectly exact they were to bum their way rather than hike the distance.

Under the terms of the contract which was signed by the president and secretary of the Amigo Club, the brothers were to leave San Francisco without more than eleven dollars in their possession. They were to accept no money on the road, but could accept food and lifts. They left Frisco on the twenty-sixth of January and arrived in Albuquerque last Tuesday morning, after eleven days of their forty-five. So far they have traveled by freight train, by auto and tie pass. Among other hilarious events they were kicked off a freight train by a hard-boiled conductor in the middle of an Arizona desert. They are a cold-blooded proposition, for they have spent a portion of their time sleeping in a refrigerating car. Monday evening they dropped in on a baile at Belen and played and sang for passage to Albuquerque. Those in attendance at the dance offered them twenty-two dollars, but according to their contract they could not accept the money.

Both men are members of the Psi Omega fraternity at U. of C. They are both enjoying themselves, but state that they will have their fill of bumming when they arrive at New York. They are confident of reaching their destination in the prescribed time and are hopefully looking forward to the time when they will receive a certified cheque for \$1,000, which awaits them in New York.

One of their pet dreams is to ride back to Frisco on the cushions and spend their time laughing at the hoboes they pass on the way.

A RELIGION WHICH ACCEPTS EVOLUTION IS HOPE OF WORLD

Rev. Gardner Tells Students That the World Needs Religion as the Basis for Solving Its Problems.

Declaring that from every side business men, educators, lawyers and financiers were asking for a return to religion, an earnest, honest and out-and-out study of religion, a religion which accepted evolution, Rev. William Gardner drove home to his listeners at the regular assembly Friday, February 4, the fact that the need of the world today was a belief in religion.

After a song by the whole assembly and a pleasing duet by Professor Lukens and Coach Johnson, President David S. Hill introduced the speaker of the day, William Gardner, D. D., general secretary of the Episcopal Church of America, after a few preliminary remarks. President Hill spoke of the opening semester and the regrettable fact that some of the students who were here last semester would not be with us this semester. In regard to this matter he spoke of the enviable work of Rex Craig, who has finished up his engineering course this semester.

Rev. Gardner began his address with the statement that if he was to take a text he would choose a topic something like this: "Should the corners of our mouths turn up or down?" He said: "As I left the East the corners of my mouth were turned down decidedly, but as I came into the Southwest they have been turned up, and as I stand before you they are turned up. This is the best thing I have seen since I struck the Southwest. Let the weed-

(Continued on page 4.)

ALPHA DELT TOSSERS WIN FROM PI KAPPS

Sigma Chi Victorious over Independents in Lopsided Game.

The semi-finals in the inter-fraternity basketball tournament were played in the Y. M. C. A. gymnasium last Saturday afternoon. The tossers for the Sigma Chis were successful against the Independents in a one-sided contest, the score being 31 to 3 at the final whistle. The Contest between the Alpha Deltas and the Pi Kappa Alphas was a scrap from the start to the finish. When the melee ended the score keeper announced the result as 9 to 5 in favor of the Alpha Delta aggregation.

In the Sigma Chi-Independent game the Sigs proved their superiority in every department of the game, and will without a doubt succeed in winning the championship which is to be played off between them and the Alpha Deltas Saturday afternoon in the Y. M. C. A. gymnasium. As usual the two Gephelides starred for the Sigma Chis, while Witten and McClure put up their airtight defense. Harris, Wilkinson and Pearce showed up well for the Independents.

The game between the Pi Kappa Alphas and the Alpha Deltas was too rough for the exhibition of good basketball by either team. A number of personal fouls were called on both sides. Dow and Wilfley both played excellently, and committed less fouls than any two players on the floor. For the Alpha Deltas, Brown and Greenleaf starred. At the end of the first half the score in this game stood five and, but during the second frame the Alpha Deltas shot two baskets from the center of the floor and succeeded in holding the Pi Kappas scoreless.

VARSITY CAGERS WIN FROM FAST Y. M. C. A. TEAM

Inter-Fraternity Squad from Hill Gets Long End of 45 to 15 Score in Second of Y League Series.

Bewilderingly swift passing, perfect team work and remarkable basket shooting earned the quintet from the University a victory over the Y. M. C. A. basketball team at the Y gym Thursday evening, January 4, by a 45 to 15 score. The combination from the U. N. M. was a pick-up squad, organized by George White from various fraternities, but most of the players had worked together previous to last night's contest, and they furnished a large gallery with plenty of thrills by the caliber of their play.

Tony Gilbert captained the Y team, which, although outweighed in every position, put up a game struggle to the final whistle. Pegue, a diminutive forward on the town squad, was deadly when in range of the basket.

Although the University has no official cage team this year, games are continually being played between fraternities and classes, and talent is being developed for next year's season. The Gephelides brothers are a pair around whom a championship combination may be built, and when supported by such men as Witten, McClure, White and Bevans, should be the nucleus for a league topping aggregation.

White's allstars are at all times open for games which will not conflict with other dates, and are supported by U. N. M. rooters with as much spirit as a squad wearing the Cherry and Silver.

MIRAGE WORK GOING FORWARD RAPIDLY

Wilson Has Sent Off Much of the Photographic Work.

The work on the Mirage is progressing nicely. Photographic Editor Wilson has already sent to the engraver over fifteen full pages of engraving, including the sororities and fraternities and other organizations on the hill. Due to an unavoidable delay the photographer was unable to keep his appointment with Mr. Wilson for the class pictures. This is the second unsuccessful attempt to get the pictures. The first time because of cloudy weather. It is hoped that the next attempt will be successful and that all students will co-operate to be present. Dorothy Stephenson, editor-in-chief, has her work well in hand, with an able staff assisting. Manager Caldwell is working hard trying to convince the merchants to advertise. As the Mirage goes into the homes of the best and leading homes in the state, it should be a first class medium for advertising.

A. A. E. MEETING HELD LAST WEDNESDAY NIGHT

An enthusiastic meeting of the A. A. E. was held on Tuesday night. Various plans for the rest of the year were discussed and the association wants to assure all the members that there are great things in store for them.

The next meeting will be held on Wednesday, March 2, at 7:15 o'clock in the Practical Mechanics building. Every member should make a special effort to be present.

John Gioni and Dean Wait are staying at the Sigma Chi house for the present.

BUILDINGS NEEDED BY THE STATE UNIVERSITY OF NEW MEXICO

Pres. Hill Favors Bond Issue to Meet Need; Distributing Cost Through Long Period of Years.

By President David S. Hill.
The welfare of the State University is of concern to the people of the whole state of New Mexico, for the institution is serving ably the citizens of the whole state in the labor of preparing for leadership chosen young men and women of ability. During the past fifteen months the State University of New Mexico has not only improved its courses of study, greatly strengthened its faculty, eliminated all preparatory students, and paid all of its outstanding debts with a good cash balance at the end, but the University has also completed the erection of two new buildings and has paid for the same. There remains room for improvement, but the State University now appeals for support upon the basis of present academic and financial efficiency. The institution will rapidly retrograde if it fails of adequate financial support. The new Home Economics building

(Continued on page 2)

HOME NURSING OFFERED IN SERIES OF LECTURES

Extension Course Offered for Women of City and State and Home Economics Students.

The departments of hygiene and of home economics at the State University, according to an announcement by President David S. Hill, is offering a valuable series of lectures on home care of the sick, two a week to be delivered on Tuesdays and Thursdays at 4 p. m., beginning Tuesday, February 8. Some of the ablest physicians of the city of Albuquerque have volunteered to help in this work and the subjects have been carefully allotted. In addition to the important and interesting subjects, which will be discussed in turn by prominent physicians, lectures and demonstrations by a graduate trained nurse will be given later in the course.

MAYNE WINS VICE-PRES. OFFICE, BUT COUNCIL DECLARES IT INVALID

Mr. Norman "Monk" Mayne was successful in carrying the all-school election for Vice President of the student body. The final vote stood Mayne 87 and Miss Guley 79.

It happens that Mr. Mayne was unable to obtain all of his credit hours from last semester, making him ineligible. Through an oversight the election was allowed to progress with his name as an eligible candidate, and he was elected to office.

Owing to Mr. Mayne's ineligibility it was necessary for the Student Council to take action as to whether or not he should hold office. The Council regretted that "Monk" should have to be the goat.

After much discussion it was decided that the only graceful escape from the predicament was to declare the election invalid and call a new election to take place on Friday, February 25th.

As we understand the decision of the supreme court the rum hounds may now keep the stuff in their kennels.

Students should join the Society as soon as possible in order to begin work for the coming year. The meeting has been called by George Bryan, who was last year manager of debate.

They also are carrying an excellent grade of fraternity stationery engraved with crests of the various fraternal organizations on the Hill and, best of all, they have two kodaks which they will loan—free—

to the University. During the past year the following were noted: The gift of \$1,500 by citizens for the grandstand, \$300 of which was

contributions, giving prize awards, and loan funds to the University.

equipment is the best material use. The new uniform with the present uniform that the sweaters are real leather to prevent any tearing.

Staff Meets Every Monday at 12:30 p. m., Seminar Room.

Entered in the Post Office in Albuquerque, New Mexico, February 11, 1914, as second class matter.

FRIDAY, FEBRUARY 11, 1921.

STUDENT COUNCIL MEETING HELD

At their regular meeting the Student Council decided to begin on the publicity campaign relative to the Washington Day Fete to be given by the University at the Armory. The chairman of the committee had not re-enrolled as yet and consequently definite action had not been taken. It is intended that all organizations and fraternities are to give a stunt, and nearly all have preparations under way.

BUILDINGS NEEDED BY STATE UNIVERSITY

(Continued from page 1)
ing was erected mainly by the gifts of citizens and friends of Albuquerque who donated in cash \$10,781.76, in addition to the \$5,000 subscribed by Hon Joshua Reynolds for equipment.

Facilities for Civil, Electrical and Mechanical Engineering have been enlarged by the completion of the new Engineering building. This building was completed during last year and cost about \$38,000.

The Library of the State University of New Mexico at Albuquerque contains thirty-nine thousand bound volumes and eleven thousand pamphlets. Although the Library is cared for scientifically by a highly trained Librarian, nevertheless, it is crowded beyond comfort, and the most valuable collection of books and documents in the State of New Mexico is in grave danger of loss from fire, owing to the inflammable nature of the old building and rooms.

It is thought that the new Library should be erected in conjunction with a Memorial Hall and Auditorium, erected in memory of the soldiers of New Mexico who have served in the armies of the nation. The Hall would contain priceless trophies and precious mementoes of our brave dead, and the Auditorium would be in the constant service of citizens and students from over the whole state. The sum of \$75,000 is a moderate amount to be requested for this great cause.

The men and women students of the University who reside on the campus find the present dormitories which were erected many years ago when the institution was in its infancy, entirely inadequate. The institution must now depend largely upon the co-operation of the fraternity houses for the housing of students from outside of Albuquerque. Some of the present dormitories are simply small frame buildings which should be removed from the campus. We believe that one modern dormitory newly erected for women would

LUNCH! LUNCH!

Stop and Shop Grocery
508 West Central

enable us to use both of the dormitories now used respectively for men and women, only for men, thus nearly doubling our facilities. The dormitories at this writing are nearly self-supporting from the fees of students, and by drawing a larger number of students to the campus, the average-overhead would be reduced, while at the same time we would enlarge our facilities for ministering to the needs of larger groups of students who have completed the work of the high school and who desire to enter the University for advanced training as leaders.

The present boilers in use at the central heating plant were second-hand affairs when installed some years ago, are low pressure in capacity, and at present are serving three more buildings than it was intended they should serve when installed. Owing to skilled care during the past year the boilers have not suffered a break-down, but it is obvious that at an early date the entire plant will need replacement and enlargement at a conservative estimate of \$20,000.

The present Gymnasium for Men is a frail wooden structure, too small for our student body, and costly in the matter of repairs and maintenance. It has been repaired and painted recently but is an unsightly spectacle in a prominent place upon the campus. The students also need, in accordance with the practice of first class American universities, a suitable meeting place for the purpose of moderate recreation in order to maintain normal social life—a Recreation Hall. This Gymnasium and Recreation Hall combined will not cost less than \$50,000, and if placed upon the campus of the State University would exist as an investment in the youth of our state.

The authorities of the University, in making requests for appropriations of one hundred thousand and of one hundred and ten thousand dollars, respectively, for the next two years, to be used for general maintenance, have in mind the present financial stress of the State of New Mexico. The Board of Regents and the President, however, also have in mind the fact that they have asked the minimum sum of money necessary to maintain the present status of the State University. It is thought further that if any allowance is to be made for moderate growth the above modest requests for new buildings and extensions should be heeded by the citizens of the state. It would seem that a small bond issue would meet the emergency of providing new buildings. The proceeds of the bonds would be used to erect the buildings at an early date and the burden of payment by means of a wisely devised serial bond issue through a long period of years to come.

SOCIETY

With dismal examinations and the toilsome hours that invariably accompany them just over, and with austere Lent bearing down upon the life of our student body, an effervescence of social activities has proved to be the form of the inevitable reaction of such a predicament. Many students are celebrating their triumph over elusive subjects and there are those who desire to forget regrettable failures. So many have been the requests to be scheduled on the program (the lesson seemingly learned to "always get permission and a place on the program") that all available dates are filled and many requests unavoidably refused; for we are told that "all play and no work is fully as detrimental as all work and no play." — Q. E. F.

ANNUAL KYOTE KAPERS.
The Kapers were "out" at the Women's Club Saturday night and the affair proved the ability of George Martin and Cullen Pierce to direct social activities. The male members were afforded equally as much exercise as the fair co-eds, there being an equal number of both sexes present.

The guests were Misses Shelton, Helen Nelson, Frances Rogers, Cyda Wilson, Emma Gerhardt, Ruth Zimmermann, Mary McMullen, Katharine MacDowell, Edna Mosher, Juliet Fleischner, Clarissa Parsons, Evangeline Smith, Blanche Guley, Lorena Burton, Mary Lou McGuire, Belle Barton, Julia Masten, Dorothy Cameron, Madge Gibbs, Elsie Ruth Dykes, Louise Darrow, Nelle Hess and Susan Tully; Messrs. Frank Overstreet, Jonathan Sharp, Arthur Stern, Conner, Marion Stennet, Coach Johnson, Alfred Masten, Lee Dansteler, Willard Stofor, Vase Scoopmire, Elmer Bryan, Cullen Pearce, Menefee Long, Walter Gilbert, Lawrence Dixon, Frank Greenleaf, George Martin, Chas. Culpepper, Fritz Ward, Vernon Wilfley, George White, George Sampson, Robert Cartwright, Emory Colwell, James Swinney, Edward Morgan, Clair Fetzner, Forrest Bramlett, Kenneth Wilkinson, Clifford Bernhardt, Dr. Edna Mosher chaperoned the dance.

SIGMA CHI OPEN HOUSE.
Beta Xi Chapter of Sigma Chi ably demonstrated their ability to extend to the line of "afternoon teas" as well as to the variety of more essentially masculine activities in which they have also proved to be very capable.

VALENTINE CARNIVAL DANCE FOR ARMENIAN RELIEF.
The Alpha Delta Phi, as a national organization, each year carries out some program of altruistic work, and this year they have planned to aid in as substantial a manner as possible the brave country of Armenia. Aid will be sent to the sick and suffering people of Christian Armenia direct through the agency of the American Women's Hospital Association.

The local chapter of this sorority has very uniquely planned to obtain their contribution by means of a Valentine Carnival dance. Preparations are being made which will insure its success; there will be "goodies" to eat, and of course music will be furnished to enable all to partake in the "popular pastime." The aim being so worthy, and the plan so unusually pleasing, a satisfying crowd is anticipated.

FOR HONOR OF DORM. GIRLS' TEAM.

The Girls' Gymnasium will again be the scene of a party Friday, February 11, to be given by the Dormitory Girls in honor of the Dormitory Basketball Team. Broken hearts will be mended during the course of the evening and—who knows?—a few more might be lost.

The guests will be Misses Isabel Connor, Leona Sherwood, Evangeline Smith, Nora Fairly, Ada Belle Travis, Margaret Gott, Florida Sain, Lorraine Cleaveland, Blanche Buley, Beulah Breeden, Helen Shaw, Emma Gerhardt, Elsie Ruth Dykes, Mary Wood, Hazel Morris, Mary Sands, Mary McMullen, Ruth Dougherty, Jules Masten, Helen Nelson, Frances Rogers, Dora Russell, Nelle Hess, Myrie Walker, Ruth Zimmermann, Messrs. P. Hoeyes, Max Ferguson, Mrs. Wittmeyer will chaperon.

MRS. ST. LOUIS HOSTESS.

Mrs. Harriet St. Louis, the house mother of the Sigma Chi's, entertained "her boys" and their friends with an informal party between the hours of four and six Thursday afternoon. A program by the pledges, dancing, cards and eats made the hour of departure depart with unusual ease, and it was with difficulty that the guests were forced to leave.

LOCALS

Professor C. S. Coan, of the department of History, has been asked to serve on the Editorial Board of the Southwestern Political Science Quarterly by C. G. Haines, Editor of the publication.

According to the Albuquerque Morning Journal of January 25th, a bill has been introduced in the Arizona legislature, which, if passed, will prohibit dancing in the public schools of the state and at the State University of Arizona.

Curtis F. Lytes (T. B. Crabb), of local journalistic fame, has enrolled for the extension course in Journalism.

Lists of ineligibles appear Monday, February 14. These lists will be made up Saturday, the 12th, or if instructors are slow in reporting, Sunday, the 13th. There is an impression about the campus that no matter what day the lists are made up on, it's going to be a hard job to convince quite a sizeable group that the 13th wasn't the fatal day.

C. M. Montgomery, district princeps of the Pi Kappa Alpha fraternity, has been in Albuquerque recently visiting the local chapter. Mr. Montgomery's district embraces Oklahoma, Texas and New Mexico.

Rex Craig, a member of the football squad and student in his senior year at the University, left for his home in Los Angeles, Calif., on last Thursday, February 3.

Mrs. H. M. Dougherty of Socorro, N. M., was in the city last week visiting her daughter, Ruth Dougherty, a student at the Varsity.

Helen MacArthur is convalescing nicely from a severe attack of tonsillitis. It is probable that Miss MacArthur will be back on the campus the latter part of this week.

Glen O. Ream, physical director at the Y. M. C. A., has entered the University. Mr. Ream is a graduate of Otterbein College, Ohio, class of 1918.

Helen Lindsay is having a visit paid her this week by her mother, Mrs. W. E. Lindsay of Portales, N. M.

Edna Hillyer is making the Alpha Chi house her home for this week.

Miss Mary Wood and Miss Hazel Morris were initiated into the Alpha Delta Pi sorority recently.

Bob Warren left Tuesday, February 8, for his home in Alamogordo, N. M.

Professor Fred Feasel has moved to the men's dormitory.

Bob Davis is quarantined at the men's dormitory with the measles. His condition is not serious.

Bob Hopewell visited in El Paso last week.

Chalmers Bowers has enrolled in the Engineering College. He has been employed in the practical side of the mining business, having been with the Colonial Mines at Fairview.

Bish Howden paid a visit to Silver City after the end of the first semester, but returned in time for registration.

TRACK BEING WIDENED AND IMPROVED FOR EARLY TRACK SEASON

The track is being widened along the straightaway and improved generally, and will probably be in good shape for practice by next week. The track formerly was almost five yards too short, but is to be lengthened to the regulation quarter mile length.

Adobe is being placed at the turns and a layer of cinders is being placed over the whole course. The straightaway is to be considerably widened, the remainder of the track being left as before.

Pits have been dug for the high jump and the pole vault.

Work is progressing fast and the steam roller will soon be at work.

A RELIGION WHICH ACCEPTS EVOLUTION

(Continued from page 1)
ing process go on, it is a good thing. What the world wants from the Universities and Colleges is full bakes, not half bakes.

Vicious Breaking of Law.

"There is a wave of crime over the country. Take the instance of the parson who was held up and after all his money was taken by the robber, the robber asked him if he had anything else. The parson said he had his Bible. The robber then said: 'Give it to me; it will do me more good than you.' Or the funeral party with its mourners which came from Ottawa across the line into the United States. After a clergyman had consoled the bereaved relatives and conducted the funeral, that night a party of men came and dug up the coffin, for it was filled with booze. Such things make the corners of your mouth turn down.

The Ray of Light.

"But from every side business men, educators, lawyers and financiers are asking for a return to religion; an earnest, honest and out-and-out study of a religion which would accept evolution. This does not come from clergymen, but from such men as Roger Babson and President Butler of Columbia. Babson says that religion is the rudder of prosperity. President Butler devotes eight pages of his report on Columbia to religion. The premiers of Great Britain have made an appeal to the people of the British Empire to return again to religion. There is no hope of solution of the world's problem's until an account is taken of the spiritual interests of the people. How soon are the people going to go out open-minded seeking the truth about religion?

A Religion Which Accepts Evolution.

"As a minister of the Gospel and a conscientious man I can accept evolution. In fact there are some apes I would rather come from than some men."
