VARSITY SEXTETTE TO START ACTION

Opening Game With Normalites, March Third at Armory; Squad Chosen.

Miss McCormack's fast squad of feminine cage experts is rapidly whipping into form in preparation for their game with the strong sextette from the New Mexico Normal University. The game is to be played at the Armory on March 3. This will be the first appearance of a Varsity Sextette during the season, though numerous intra-mural contests have demonstrated a number of real stars.

So far this season, the New Mexico Normal University sextette has not met with defeat, though they have met many of the fastest teams in the State, winning most of their games by comparatively large scores. The Normalites will have the edge on the U. in having played together since the opening of the Cage term. However, the U. team is confident of victory, and is practising daily with that point in view.

A representative squad has been picked from the University's best, by Miss McCormack, who has presented the following list for publication: Miss Francis Andrews, Miss Connie Walters, Miss Helen Nelson, Miss Emma Gerhart, Miss Leona Sherwood, Miss Clarissa Parsons, Miss Nell Hamilton, Miss Anna McGuire, Miss Blanche Guley, and Miss Helen Stowell. The Varsity sextette will be chosen from this group. As yet the Normalites have not sent in their lineup.

CLIMATE AID TO CURE OPINION OF DR. PETERS

Dr. Peters of Albuquerque, delivered an address before the student body, on Immunity, last Friday morning in Rodey hall. His address was first given before the Medical Association at St. Louis last year.

Although dealing with a scientific subject, Dr. Peters presented his address in a lucid and convincing manner. By the sparing use of technical terms, and generous explanation, the substance of Dr. Peters' address was clearly understood by every one present.

A large majority of doctors agree that climate is the only cure for tuberculosis, and, also, that the disease is curable. Pertaining to these assertions, Dr. Peters has a few original ideas, and they are not in accordance with the majority. He maintains that climate is a valuable aid in producing a so-called "cure," but it is not the only nor the best element. "I had rather a patient was well cared for in a poor climate than poorly cared for in a good climate," was the essence of his address. He traced the development of tuberculosis in a susceptible person, and the manner in which a "cure" was effected, but he took great care to establish the fact that he does not believe in a cure for tuberculosis. "The disease is only arrested," he declared, "but as long as a person is in this rested condition he may have health as good as ever and die with old age."

To Exchange School News

During the recent visit of Dean Goddard on a radio-telephone demonstration tour, it was agreed to exchange school news between the University of New Mexico and the State College at Cruces. Once each week items of interest to both institutions will be transmitted by wireless for publication in the school papers.

P. K. A.'s TAKE LEAD IN RACE FOR INTER-FRAT. BASKETBALL CUP

Stellar Work of White, Jones, and Dow Feature of Game, Alpha Delta and Sigs to Battle for Second Place in Tournament.

Playing a rushing game of basketball, the Pi Kappa Alpha five increased their lead in the Inter-Fraternity Tournament to two games, by defeating the Sigma Chi quintette 18 to 8 in one of the fastest played games of the season. The game was featured by close guarding under the baskets, fast team work, and long shots from mid-floor.

The Silver Avenue bunch opened the fireworks in the first half, scoring a goal from the field in the first thirty seconds of play and following it with one from the foul line. The Sigs, however, soon tallied one, and tied the score when Jones was called for holding. This ended their share of the scoring, the half ending 10 to 3 in favor of the Pi Kappas.

First blood again went to the P K A five in the second half, when Dow hooked a long one. This was followed by a desperate rally by the Sigs, who threatened for a time to tie the score. This spurt was soon stopped, however by the fast floor work of Dow and Jones, and the P K A scoring machine got into action again, the game ending 18 to 8 in favor of the latter organization.

For the P K A's the work of Igou at guard, and Jones at forward, was the outstanding feature of their play, while Stowell and Wilkenson were the strongest combination for the losers. The line-up was:

Sigma Chi	P K A
Wilkenson	i.f. Jones
Miller	r.f. Dow
Popejoy	c. White
Wagner	i.g. Igou
Stowell	r.g. Wilfley

Mr. Charles Caldwell '22 spent a few days at McGaffey last week on business.

Walter Bowman spent the weekend sight-seeing at the pueblo of Laguna.

ATHLETES ANSWER CALL FOR CINDER ARTISTS

In answer to the call for track aspirants, some fifteen candidates put in an appearance last Monday night, and went through the preliminary grind, under the watchful eye of coach Johnson. Most of the material turned out so far consists of students who have not represented the University before. The greater number of last year's point winners will not be out until the playoff for the Inter-fraternity cup, as practically all of them are on one or another of the contesting teams.

Prospects seem exceptionally good for a successful track season, as practically all of the last year's team is still intact. With the addition of such proven Inter-scholastic stars as Jones and Elder, and the acquisition of Harrington, letterman from the Colorado School of Mines, the team should be quite an improvement over the last year's Varsity squad. Johnson is trying to develop a miler and a weight man from the new material that has presented itself, as these two points seem to be the outstanding weaknesses.

Wave Meter Received

The U. station announces the arrival of a wave meter which will facilitate greatly in the estimation of distance and in the regulation of the receiving and transmitting apparatus.

A. D.—INDEPENDENTS

Continuing the improved style of basketball, that defeated the Sigma Chi's last Tuesday, the Alpha Delta machine ran over the Independents last Friday at the Y. M. C. A., holding their opponents to three points all of which were made on free throws. The final score was 33 to 3. In their previous contests each had taken one game.

The Alpha Deltas started the scoring in the first half with the whistle, working perfect signals from center and caging the ball with remarkable regularity. The work of Bryan was a feature. He shot goal after goal without interference from the Independents. Jelfs, at center, consistently outjumped Hyder, giving his team-mates the opportunity to use the fast team work that completely swamped their rivals. The half ended 22-0, the Independents being unable to score in this period.

The second half was largely a repetition of the first, the Alpha Deltas scoring at will and having little difficulty in stopping the assault of the Independent forwards. Horgan, who has been the chief point winner for his team, had little opportunity to shoot, the Alpha Delta defence placing its efforts generally in his direction. Hyder seemed to be badly off form, Wright, who started the second half at guard for the Barbs, proved himself an excellent wrestler, and seemed to connect more with the floor or his opponents than with the ball.

THE LINEUP

Independents	Alpha Deltas
Horgan	r.f. Wilkenson
Clark	i.f. Bryan
Hyder	c. Jelfs
Harrington	r.g. Bursey
Hernandez	i.g. Mapes

Substitutions: Second half, Independents, Wright for Hernandez.

ENGINEERS PLAN FOR MARCH SEVENTEENTH

In addition to the annual tug-of-war staged by the Engineers and Arts and Science students on March 17, the engineers are planning a number of novel surprises for the entertainment of visitors at their open-house in honor of their patron Saint Patricio. There will be decorations galore, dancing by that phenomenon, Cullen Pierce (or should it be: phenomenal dancing by that freak, Cullen Pierce?) Eggs will be fried on ice—let's see if they can do it and we are told there will be a very mysterious electro-magnetic, mystic-mirror, carbo-hydrate-obelisk machine for the disclosure of all secrets, crimes, misdeeds, girls in peek-a-boo waists of the past, present and future.

In the vernacular of the dusky assistant linesman—"Let's me and you make us some connections, insulate ourselves, an go an watch whut them ole sparks sees like."

1901 GRADUATE WRITES WAR BOOK

D. W. Johnson, class of 1901, and one of New Mexico's most distinguished graduates has written a book on Battlefields of the World's War. The American Geographical Society is publishing the book through the Oxford University Press.

GODDARD DELIVERS INTERESTING TALK

Wireless Station in Perfect Condition. Radio Concerts Furnish Entertainment.

On Wednesday, February 15, a number of interested students and faculty members assembled in Rodey hall to hear the lecture given by Dean R. W. Goddard of the State College at Cruces and to review the demonstration of the radio-telephone and wireless transmission and receiving.

The apparatus was connected and ready for work when Dean Goddard, after an introduction by Professor Carey, commenced his lecture, which traced the discovery of electricity as such in about 600 B. C. by the Greeks on up through its successive stages to the recent perfection now attained. Two students of the State College, Mr. Day and Mr. Curmin, with the help of Vernon Wilfley, aided the speaker in the various demonstrations. The lucid explanations that attended made the operations interesting and clear. Many questions concerning the adjustment and manipulation of the apparatus were explained by Dean Goddard. Victrola music played in the Electrical laboratory was plainly heard on the radio-telephone, also verbal questions and answers.

The U. radio-station, utilizing the equipment brought from Cruces, provided a concert and radio-music by wireless for the members of the New Mexico Electrical Association convened at the Country Club on last Tuesday night.

KOYOTE PACK ASSEMBLES TO SERVE NEW MATERIAL

With the advent of considerable new and interesting material, the entertainment committee of Kwataka has been holding occasional sessions, renovating that long dormant organization known as the Koyotes. The result of their last business session is shown by the appearance on the campus of various neophytes wearing ribbons designating their intentions to affiliate with the Klub at some future date.

William Morris Stahl, supreme dignitary of the Klub during the semester just departed, has found it necessary to continue his studies at the University of Redlands, leaving his position as "Longears" to be filled. The date set for the appointment of one sufficiently capable of carrying on the delicate negotiations of the chair, is at the next regular meeting, Feb. 21, at which time some of the aspirants to membership will be given consideration.

The purpose of the Koyote Klub is to foster social activities of a more refined nature in the Men's Residential hall and to make the stranger feel perfectly at home by giving him a hearty reception, and the glad hand. In addition to minor social activities, the Klub plans to give a grand ball sometime during the middle of the semester for members, alumni, and their ladies.

WILDCATS' SPLIT WITH U. S. C.

U. S. C. and the Wildcats split the honors in their recent two-game basketball series at Tucson; the Arizonians playing under their usual peculiar jynx, taking the first easily, and suffering a reversal of form in the second, which went to the Californians. The latter game was the first defeat suffered by the Wildcats this season.

who desire to do anything along these lines should join the Society as soon as possible in order to begin work for the coming year. The meeting has been called by George Bryan, who was last year manager of debate.

signs, runners, etc., in various designs and have an unlimited supply. They also are carrying an excellent grade of fraternity stationery engraved with crests of the various fraternal organizations on the Hill and, best of all, they have two kodaks which they will loan—free—

low the example shown in older universities by making contributions, giving prize awards, and loan funds to the University.

THE AMENDMENT

The proposed amendment to the Student Body Constitution, reproduced in another portion of this issue, deserves the careful impartial consideration of every student at the University. It attempts a reform in the organization of two of the most important institutions on the campus—the Weekly and the Mirage—and because we believe the proposed amendment a most worth-while change we set forth below our argument for its adoption.

Under the present system, the editor of the Weekly is elected by the individual ballots of the students of the University. Candidates for the position are often elected irrespective of literary talent or natural ability, elected simply because they represent a faction or group of factions politically bound to "put him over" in order to serve their own ends. The candidate having the best political backing is elected, and, unless the election chances to be a lucky one, a sloppy, poorly written and poorly managed Weekly is the result.

We believe that the editorship of the college publications should be given to those persons best qualified to perform the duties of their respective offices, and it is this very thing which the proposed amendment aims to do. By putting the election in the hands of the publications staff, composed of students who are certainly best qualified to judge and reward literary merit, the membership becomes no longer a political position, but instead one to be gained only by diligent effort and real talent. In order that politics may even be excluded from the personnel of the staff the amendment provides that election may be had only by the unanimous vote of the staff members, and, if this fails, the election is to be finally decided by the Student Council representing the entire student body of the University. Certainly no fairer or more impartial method could be devised, and that this is true is evidenced by its almost universal employment in the publications of the larger Universities.

The U. N. M. Weekly is an important asset to our campus, and through its editorials it wields no small influence in the molding of student thought. We want to see this influence broadened and expanded

through the production of a bigger and better Weekly, and we do not believe that this can be done through political engineering or fractional maneuvering. We offer the proposed amendment as a simple and effective reform of what may now be a most obnoxious system.

PROPOSED AMENDMENT

Mirage and the U. N. M. Weekly

Section One. Candidates for positions on the staffs. The editor of either of the publications shall issue, the first of each semester, a call for candidates to "heel" for staff positions. From the candidates presenting themselves, the editors shall choose those proving themselves most competent, basing his judgment on the quality of the work and the column inches turned in. The editor shall be accountable to the Student Council in his choice. Members of the staffs, once elected, shall not be removed during their attendance at the U. N. M. except for neglect of duty or gross incompetency. The privilege of "heeling" shall be withheld from no student.

Section Two. The choice of an Editor.

The editor of either of the publications shall be chosen each year by the UNANIMOUS vote of the entire membership of the staffs. An alternate shall also be chosen in the same way. In case no decision can be reached by the staffs, a list of the candidates shall be submitted to the Student Council, which shall choose from these candidates an editor and an alternate.

Section Three. Managership. The Managers of these publications shall call for "heelers" in the same manner as the editors, and from these "heelers" choose their assistants. The new managers shall be chosen each year by the preceding managers and from their assistants shall present to the Student Council the reasons for their choice. The Student Council must ratify the choice of new managers.

SENIOR CLASS HOLDS MEETING

The question of adopting a class insignia and having it standardized as a recognition badge of a graduate Alumnus, was the main topic discussed at the Senior Class meeting held in the Administration building last Thursday. The question was put into the hands of a committee. The class also took up the question of caps and gowns and the advisability of wearing them on the campus prior to the Commencement Exercises in June. No definite decision was reached.

PITFALL AND GIN

HORRORSCOPE

Babies born with dark hair and eyes will be known as brunettes. Babies born on Tuesday afternoon with big cheeks, soft heads, and no chins will continue to be called "sweet."

Fathers of children born on Thursday will continue to be regarded as "fond."

It will be considered unlucky for the person born on Saturday to walk under a ladder just as a bucket of pink paint falls.

Babies who die on Monday will not live to celebrate their seventieth birthday.

Girls born of theatrical parents will probably "interpret" the "classique spring" at some time during the age of five.

It is likely that the son of a technical engineer will receive an "erector set" for Christmas.

NUMBER? PLEASE!

Professor Carey states that the U. radio station will gladly attempt to transmit or receive wireless messages to or from any students or their families free of charge. As another series of moneyless days always so evident at the end of each month, loom near, it is expected that many students will employ this novel method of stimulating the velocity of their monthly checks. And, as the influence of Spring asserts itself.... Ah! but won't there be some messages? (See Bulletin for special hush rates.)

POME

By Patric the Heeler.

Oh, heck, holly gee, by gosh.
But it's hard to understand
Why a man should write such bosh
And get away with it.
O fiz zle my goodness me,
But it's hard for me to see
What a pome this will be
When I'm through.
So I guess I'll quit.
Perhaps I'll write a rime
On Perusing, I think
Not.

TRUE ENOUGH

This wicked old world has not been much sainted—
But it's really just half as bad
as its painted.
So we really must cede it its section of saints,
For everyone knows that just half the world paints.

SOPHOMORES APPROVE FRESHMAN HEADGEAR

As a result of the Sophomore class meeting held last week, the male members of the Freshman class will, in fulfillment of their contract, be asked by the second year men, to wear their inkspots until the end of the semester. The student council, at a recent meeting decided to leave the ultimatum in the hands of the Sophomores.

According to the code set down in the Frosh Bible, the continuation of the wearing of the "lids" after the first semester hinges on the result of the annual inter-class tangle. Since this mix was won handily in all departments by the Sophs, and since the decision was left to them, the Freshmen will have to wait until around the last of May to pull their big bonfire.

MITCHELL INITIATED TO PIPE AND PEN CLUB

At a meeting of Pipe and Pen, held in Kwataka last Tuesday, three interesting papers were presented. The first was by Dean Mitchell, and its title was: "Making Soft Soap." Following the meeting the Dean was put through the initiating ceremony and made an active member of the club with full privileges.

The other papers presented were by Pat Pugh and Frederick Wagner, respectively, and were submitted to the club as examples of their work. Pugh and Wagner were pledged to Pipe and Pen at a recent meeting, and will be made members when they have fulfilled the necessary requirements. The next meeting will be on February 21, at the home of Dr. Hessler.

HE COULD PROVE IT

"Well," said the waiter to the student, who had just had his coffee cup refilled for the seventh time, "you must be very fond of coffee."
"Yes, indeed," answered the student, "or I wouldn't be drinking so much water to get a little."—Lehigh Burr.

DRAMATIC CLUB PLANS PRODUCTION

"The Green Hat" is the title of the first production of the U. N. M. Dramatic Club, which will be staged in Rodey Hall sometime during the latter part of the month. The play will be a one-act comedy with a cast of five.

At a recent meeting of the executive committee, Mr. Edward Horgan was selected as play manager for the production. A property man has not yet been appointed. As yet a list of the cast is unavailable, but it is reported that Mr. Dale Snyder is a logical candidate for the masculine lead.

Interesting Messages

5YQ de 9EE of tnx om u vy gsa hr and tones fine wrku gm gtegru mt nu. Of course it's entirely unnecessary to interpret this message to you, but for the benefit of your less talented acquaintances, here is the interpretation: I get you, old man, very queer and loud here; tone fine; glad to work with you—have you anything to transmit? I have nothing to communicate now. You surely go out O. K. for a new set. The air is very rotten here. Hope to work with you often. Nothing more tonight. Good night, Best wishes, (Signed) 9EE.

The above message was received recently from a station at Valley City, North Dakota, is 1,100 miles as the spark shoots. As the maximum wave-length of the U. station is estimated at 1,100 miles, the establishment of perfect communications with a station in North Dakota is considered an exceptional achievement.

Messages were also exchanged with the high school stations at Indianola, Indiana, and Cleveland, Ohio during the past week. These two stations are, if anything, further away than the Valley City station.

HARD

"Watch out, nigger. I'se hard. So hard I busts a buzz saw when I runs again' it."

"Huh! Call that hard? Why, I'se so hard I scratches the bath tub.—Anon.

THEY GO TOGETHER

"The rapidly increasing divorce rate," remarked the wit, "indicates that America is indeed becoming the land of the free."

"Yes," replied his prosaic friend, "but the continued marriage rate suggests that it is still the home of the brave."—The American Legion Weekly.

Mr. C. H. Lendor, who is a visitor of Mr. Loyd Sturges, was a visitor on the hill this week.

RING TRUE.

Don't be what you ain't,
Jes' be what you is.
If you is not what you am,
Then you am not what you is.
If you're just a tadpole,
Don't try to be a frog;
If you're just the tail,
Don't try to wag the dog.
You can always pass the plate,
If you can't exhort and preach.
If you're just a little pebble,
Don't try to be the beach.
Don't be what you ain't,
Jes' be what you is.
—The Labor Union.

British Radical: "What are you doing down there?"

Voice of Russian Extremists from Below: "Digging a grave for the bourgeoisie."

British Radical: "That's what I want to do; but how do you get out?"

Voice from Below: "You don't."

A mud-spattered dough-boy slouched into the "Y" hut where an entertainment was in progress and slumped into a front seat.

Firm, kind and efficient, a Y. M. C. A. man approached him, saying: "Sorry, buddy, but the entire front section is reserved for officers."

Wearily the youth arose.

"All right," he drawled, "but the one I just got back from wasn't."—The American Legion Weekly.

The judge was evidently getting a bit fed up with the jury, and at last he announced:

"I discharge this jury!"

A tall, lean member of the twelve then rose.

"Say, judge, you can't discharge me."

"Can't discharge you? Why not?" thundered the other.

"Waal," replied the jurymen, pointing to counsel for defense. "I was hired by that guy over there!"
