ALBUQUERQUE, NEW MEXICO, FRIDAY, MARCH 11, 1921

Number 24

THREE ASSOCIATED STUDENT OFFICES TO BE FILLED THIS MONTH

Weekly and Mirage Offices Not to Be Filled until May.

The time will soon be at hand for the filling of the Associated Student offices as prescribed by the constitution. The present officers will hold their offices until one month before school is over in the spring. The election must be held within the month of March, but the time and place is at the discretion of the president of the Associated Students. Three members for the athletic council are to be elected at this time, also.

The constitution says: "Article II, Section 3: There shall be elected as hereinafter provided, the following officers of the Associated Students: A president, who shall be a Junior in standing at the time of election; a vice-president and a secretary-treasurer, each of whom shall be at least a Sophomore at the time of the regular March election." Section IV says: "All officers of the Associated Students shall be elected within the month of March each year, for a term of one collegiate year, and to take office one month before the end of the second semester."

Other requirements of the constitution are that the nominations must be signed by at least ten students and posted one week before the regularly called election. The student nominated must comply with the University eligibility rules. The student also must not hold Associated Student offices, be a member of the Council, an athletic manager, Junior or Senior officer or editor or manager of publications at the time of his taking office in one of the Associated Student offices. (Article II, Section 9.)

The editor and manager of the Weekly and the Mirage are not elected or nominated until the month of May. Article V, Section 1, of the constitution states: "Nominations for these offices may be made from the Student Council." But the constitution provides that nominations may be made in the regular manner of other nominations and that there must be more than one nomination for each office.

RESOLUTIONS SENT TO SOLONS BY ASSOCIATED STUDENTS OF N. M.

Action of Assembly Takes Form of Resolution.

Whereas, The proposed appropriation for the maintenance of the State University of New Mexico is woefully insufficient for that purpose; and,

Whereas, Without adequate state aid, the University must be seriously crippled or even forced to close its doors; and,

Whereas, The State of New Mexico can not afford to be the only state to fail in supporting the highest type of educational institution, a State University; and,

Whereas, We are entitled to an active voice in the matter through our close association with the institution and our knowledge of its merits from the student's standpoint;

Therefore Be It Resolved, That we, the Associated Students of the University of New Mexico, go on record as being against any appropriation which is inadequate for its maintenance as a State University.

And We Further Resolve, That any proposed legislation that will limit the scope of the University of New Mexico as an educational institution should not be considered, and we respectfully request that a careful reconsideration be made of the

THE ENGINEERS CHALLENGE MEN OF A. P. S. IN CONTEST ACROSS SWIMMING POOL

It seems that the Engineers feel lucky. Only a few days back the following appeared in large green type on the bulletin board:

ERIN GO BRACH

We the l'yal and active members of the Knights of St. Patrick (Engineers) herein prisent a challenge to the faithful b'ys of the A. P. S. College to a tug of war 'cross the swimmin pool' on the day of our patron saint (Ingineer's day, March 17). The loosers in recognition of the fact will give a student body dance in the Practical Mechanics building on the following night.

Signed: KNIGHTS OF SAINT PAT.

The A. P. S. students have organized and the challenge has been accepted. The plans and arrangements are in the hands of the Engineers, who claim that all will be in readiness for the big pull on St. Pat's day.

WOMEN WOULD FORM ATHLETIC ASSOCIATION

New Organization Will Give Banquet at the Alvarado.

Aside from the regular curriculum of the University, a very important work is being done by the Physical Training Department. The girls have taken a greater interest in sports than ever before. It is good to take part in these sports for there is nothing that has a greater tendency to promote health and happiness than the wholesome, out-of-door companionship that comes to New Mexico co-eds through their athletics. We feel that we should have a Woman's Athletic Association. This association stands for athletics for every woman in the University. To get every woman interested in some sport, so that when she leaves the University she will have some kind of sport which she is interested in and which she will carry on with her.

The women of the Physical Education department extend to every woman who is registered in the University a very cordial invitation to co-operate in developing the social and athletic life of the women of the University.

The association stands for honesty, loyalty and clean sportsmanship. To the women who wish to stand for these things in college we make our appeal; from their ranks we shall recruit our standard-bearers for the coming years.

Our list of activities has great variety. To conduct these activities many different kinds of people are needed. We have work for all to do, no matter where your talents lie. We ask all to take an interest in and appreciation of what our athletic association can do to advance the social and athletic life at the University.

We had no competitive games with other Universities this year. We advocate sport for sport's sake. The girls have organized the basketball tournament and we have a silver cup which will be presented to the winning team at the luncheon at the Alvarado on Saturday, March 12, at 12:30 o'clock. All University women are invited.

appropriation with due regard to the nation-wide increase in professors' salaries, the sustained high cost of maintenance and the vital necessity for the University in the state.

TRACK MATERIAL PROMISES SUCCESS

The Opening Season Finds Men Beginning Their Work-Outs.

During the past week there has been a very good squad of men out training for the track meet which is scheduled to be staged in about six weeks. Coach Johnson reports that the men are beginning to show form and there is excellent promise of an unusual team.

With White and L. Gerpheide heading the jumps, Brown on the distance events, Hale, L. Gerpheide, B. Gerpheide and Foraker in the dashes, and Greenleaf heading the weight men, there certainly is found the nucleus of an exceptional track squad.

Ben Gerpheide, a contestant in the Olympic Try-Outs, should be able to establish a Rock Mountain Conference javelin record which will stand for several years.

White held the high jump record for the Southwestern Conference until it was broken last year by L. Gerpheide. With his excellent army record and training he should boost the record a couple of inches this year.

Brown is practically sure to establish a record on the mile, and will run strongly on the half.

L. Gerpheide and Foraker will certainly set some mighty fast time in the 220 dash and the quarter mile.

Hale is one of the fastest dashers in the state, and if he repeats his high school records of last year will annex a few medals for the Varsity this year.

Proper support by the student body and absolute co-operation on the Hill will insure an unbeatable team. You Varsity ladies hold those affinities of yours down to a minimum of dates and make every man preserve the strictest training. Varsity has a record to make this year and by co-operation WE can do it.

Dwight McClure, captain-elect of the Lobos, will withdraw from school and leave for his home in El Paso in the near future.

The Women's Athletic Association will have a banquet in Taft Hall of the Alvarado Saturday, March 12. The former date of March 11 is erroneous.

STUDENTS PASS ON IMPORTANT MATTERS AT FRIDAY ASSEMBLY

Bishop Howden Delivers Short and Well Received Address.

At the regular Friday morning assembly Associated Student President Scruggs, after two delightful selections by the faculty ladies sextette, laid before the students the matter of having the Santa Fe players here under the auspices of the student association, as it had been decided by the student council. President Scruggs appointed Mr. Robert Hopewell to be in charge of the management of the production and some ten students to act as captains of ticket selling teams. The Santa Fe players are well known and will present "Grumpy," by Horace Hodges and Percyval Wigney. The play was well received in Santa Fe and will no doubt make a hit here.

Mr. Edward Horgan then asked for the floor and presented to the assembly a number of resolutions dealing with the present bill before the legislature in regard to the University appropriation. A motion made by him and seconded by Mr. Hopewell authorized the committee appointed by President Scruggs to send similar resolutions in the form of telegrams to influential men in Santa Fe. A slight change in the resolutions suggested by President David S. Hill was incorporated in the motion.

President Hill then, after a brief introductory speech, introduced the Rt. Rev. Frederick B. Howden, who addressed the assembly on the subject of "Co-operation." Bishop Howden spoke informally about co-operation, telling his auditors that a slogan well worth taking would be that which was sent out from the flagship of the Japanese fleet in one of the naval battles of the Russo-Japanese war. "Japan expects every man to do his utmost." Taken to university life it might read, "The university expects every man to do his utmost." Bishop Howden's address was well received, as shown by the long applause as he finished.

VARSIITY ENGINEERS PLAN GALA EVENT

Dance in Practical Mechanics Building to Be Feature of St. Patrick's Day Celebration.

At a meeting of the Varsity chapter of the American Association of Engineers Monday noon it was decided to hold a dance on the night of Friday, the eighteenth. The Sandstorm Jazz orchestra will probably furnish the music. The expenses of this dance will be paid by the losers of a tug of war between the students of the college of engineering and those of the college of arts and sciences.

Following the usual custom of engineers, the Varsity boys will celebrate St. Patrick's Day with their annual initiation of the new engineers into the order of the Knights of St. Patrick, and will also stage many other stunts in honor of their patron saint.

The challenge to a tug of war was issued by the engineers last week and was accepted by a committee of A. P. S. boys with Monk Main acting as chairman. The losers will give the dance in the Practical Mechanics building on the following night in recognition of their defeat and in honor of St. Pat.

William Heacock, a former U. N. M. student, registered this week. He recently returned from Fort Leavenworth, Kansas, where he has been in the military training school situated at that place.

Whereas, The proposed appropriation for the maintenance of the State University of New Mexico is woefully insufficient for that purpose; and,

Whereas, Without adequate state aid, the University must be seriously crippled or even forced to close its doors; and,

Whereas, The State of New Mexico can not afford to be the only state to fail in supporting the highest type of educational institution, a State University; and,

Whereas, We are entitled to an active voice in the matter through our close association with the institution and our knowledge of its merits from the student's standpoint;

Therefore Be It Resolved, That we, the Associated Students of the University of New Mexico, go on record as being against any appropriation which is inadequate for its maintenance as a State University.

FRIDAY, MARCH 11, 1921.

A. P. S. ORGANIZE.

Why not organize the men of the A. & S. school? The engineers, in the Knights of St. Pat, have an efficient and loud-mouthed society. From time to time the Knights of St. Pat have challenged the members of the other colleges to mortal combat in one contest or another. Due to there being no organization, the A. & S. members were slow to accept the challenges, no one having authority to take the initiative. Therefore, let us meet this emergency and prevent similar ones in the future by having a meeting and draw up plans for an order which will effectively cope with the seemingly stronger engineers.

STUDENTS TO ASSIST CHILDREN OF EUROPE

Organizations and Fraternities Contribute in Nation Drive.

The students of U. N. M. are trying to do their share of altruistic work by thinking of and planning for the starving children of Europe and the Near East. Just now a campaign is on for the obtaining of money with which to keep the wolf away from the door of innocent sufferers. The various Greek letter organizations and other groups on the hill are canvassing their members to ascertain just how much can be secured. So far the girls of Hokona are in the lead, having pledged themselves to pay \$20.00 to aid the future citizens of Europe. The Alpha Delta's have promised to give about \$15.00, while Pi Kappa Alpha has set their minimum at \$12.00, with a chance of greatly increasing this sum. The Kappa Kappa Gammas, the Alpha Chi Omegas, the Phi Mus, the Sigma Chis and Koyotes are still deliberating upon the length of their purses.

Badges are being printed which will be given to each one who contributes.

MY CHEMISTRY.

The hours I've spent in thee, dear Lab,
Are as a row of "F's" to me,
I count them over, every one a stab,
My Chemistry! My Chemistry!

Each week a quiz, each quiz a fuss,
To rouse a mind from learning free
I learn each day to cuss and cuss,
My Chemistry! My Chemistry!

Oh, elements that boil and burn,
Oh, forfeit joys, and sleepless me,
Though, hours I've spent, I'll never learn
My Chemistry! My Chemistry!

—Phoenix (Ohio State University)

SANTA FE PEOPLE TO PRESENT PLAY

Cast of "Grumpy" Is Composed of Talented Players from Winter Colony.

At the assembly last Friday, the student body decided to promote and support the popular comedy, "Grumpy," which ran for two seasons on Broadway, its presentation there being attended with unusual success.

"Grumpy" will be presented on the evening of April 2 by the Santa Fe Players, an amusement organization composed of a number of artists of unusual talent who are wintering in the capital. President Scruggs of the student body appointed the following committee to handle the local management: Messrs. Hopewell, Neher, Foraker, Huffine, Horgan and Stinnette, and Misses McArthur, Hardean, Wickland, Hart, Hill and Nelson. The sale of tickets is progressing well and a large audience is anticipated.

GIRLS' GLEE CLUB AT Y. M. C. A. LUNCHEON

The girls' glee club sang for the Y. M. C. A. fellowship luncheon Sunday evening, March 6, at the Y. M. C. A. building. We hesitate to say whether it was a treat for the men or for the girls, for both report a good time.

A great risk was taken in serving supper before the program, for all noted singers decline to sing after eating—but, of course, the girls didn't eat much! So after a delightful luncheon—not to mention the pleasure of being the only ladies present in a roomful of men—the girls sang "Calm Is the Night," and were so heartily encored that they responded with a second selection, "Lift Thine Eyes," by Beethoven. They were then allowed to finish their ice cream, and were even urged to have a second dish. (Will the dining hall waiters please note?)

SOCIETY

Varsity events for the week were delightfully pleasant and varied in form from another Pi Kappa Alpha "at home" to a lavish banquet at Taft Hall in celebration of the 69th birthday of the Phi Mu sorority. U. N. M. affairs are gradually leading up to the anticipated climax—THE JUNIOR PROM, for which a definite date has been set, April 16.

PHI MU BANQUET.

Actives, alumni and pledges were included in the Phi Mu celebration Friday night. The Phi Mu colors, rose and white, added to the artistic effect of the decorations. Miss Louise Lowber, toastmistress, arranged the affair, covers being laid for twenty-five. Following the banquet, the sorority departed en masse to the Phi Mu House, where Pepita Espinosa and Vera Jordan were formally pledged and Betty Morrisette initiated. This was followed by Founder's Day services, and the party terminated with much fun and gaiety.

Miss Dorothy Wagner was erroneously reported as pledged to Phi Mu. Miss Wagner has decided to wait until next semester before pledging herself.

SIGMA CHI DANCE.

Saturday night the hilarious sounds emanating from the Sigma Chi House, were representative of another of those celebrated Sigma Chi dances. About thirty couples managed to trip lightly or otherwise to the exhilarating strains of the 4-piece orchestra. Mr. and Mrs. Frank Shuffelbarger chaperoned the affair.

PI KAPPA ALPHA.

The "dorm" girls, 'town' girls and the Kappa Kappa Gammas unanimously declared the Pi Kappa Alpha "at home" Sunday afternoon a decided success. The Phi Mus and the Alpha Chi Omegas are anxiously awaiting next Sunday afternoon, at which time they will be the honored guests at a similar occasion.

Members of the "Cooking Class," under supervision of Mrs. Simpson, will take turns at being hostesses to breakfasts served Thursday mornings in the new Sarah Reynolds Hall. Miss Wilma Snyder was hostess to a delicious meal last Thursday morning.

STUDENT COUNCIL RUSHES ACT RELATIVE TO ELECTION

Council Interprets the Constitution as Electing the Editors and Managers in March

The Student Council in its regular meeting Wednesday at 4:30 passed a motion which interprets the constitution relative to the time of the nomination and election of the editors and managers of the Weekly and Mirror. The motion made by Robert Hopewell and seconded by Arthur Brown was made after a lengthy discussion and a consultation with Registrar Kirk and President Hill. It is as follows:

Be it moved by the Student Council of the Associated Students of the State University of New Mexico, that Article V, Section 1, shall be defined during the month of May for the following year, and as the constitution was not in effect last May the council necessarily sets the time as March 18.

THE PURSUIT OF KNOWLEDGE

By L. Orquette.

I went to a dinner party. The ladies all wore décollete dresses. One lady let the strap of her dress fall over her shoulder. Breathlessly I waited, but she put it back again. Wearily, I went home. I did not light up the room. The widow next door was brushing her hair. She had beautiful hair. Then she cold creamed her face. She had a lovely face. She unfastened two hooks of her dress; then she pulled down the blind.

Wearily, I picked up a magazine. I chose a story with an alluring title, the beginning was promising, the plot thickened. Breathlessly, I turned the page; and my eye met a row of asterisks.

Wearily, I prepared for bed. I slept and dreamed I was in a forest primeval. A mist took form in the distance. It must surely be a nymph or elf, a fairy, or a goddess. It came nearer; then the alarm clock went off.

Wearily, I dressed. Before me stretched a day of toil, to be followed by a tiresome dinner; uninteresting neighbors; dull stories; and broken dreams.

Knowledge is such an elusive thing.

A. A. E. HOLDS MEETING; CONSTITUTION ADOPTED

Engineers to Issue Edition of the Weekly.

The A. A. E. held a busy meeting in the P. M. building on last Wednesday evening. Mr. H. B. Watkins was present and gave a snappy talk on the purpose of the Chamber of Commerce and explained how it helps the city and the university. Two committees were appointed to make arrangements for the St. Patrick's Day celebration. Walter Gilbert was elected to edit the Engineers Weekly which will appear the same week. A constitution and by-laws were submitted for approval by the committee in charge and after some discussion were accepted unanimously.

The A. A. E. Chapter is now welded into a spirited and concrete organization which is at all times co-operating with the City Chapter to further the interests of the University and the engineering profession.

LOCALS
During the past week Vance Scoopmire, Frank Ogg and Joseph Bursey were initiated into the Alpha Delta fraternity.
The Alpha Chis have moved from their house on University Heights to a larger house on Central avenue.
Miss Betty Morrisette journeyed here from El Paso, Texas, for the Phi Mu annual banquet on Friday night last, at which time she was initiated.
Miss Helen Melvain is leaving for her home in Carlsbad this week. She is withdrawing from school for the rest of the semester.
Cullen Pierce of Dawson, N. M., was pledged recently to the Sigma Chi fraternity.
Miss Dorothy Donovan and Miss Helen Jackson are staying at the Alpha Chi House for the present.

anything she undertakes and will bring her success. She learns to meet emergencies, to fill sudden gaps, to step into vacant places, and carry on the game successfully in any unexpected situation. She sees the instant need and never misses doing it. In the same way, in the game of life, she sees the thing to do at once and never misses doing it.
It is more often than not, this ability to meet emergencies which places one woman above another in the affairs of the world. It is one of the results of fine training. It demands more than one well-trained faculty. It demands that all the faculties be in working order and act in harmony. It demands such a control over the faculties that they spring instantly and naturally to meet the need. If a need is to be met, it must be met instantly and one should have instant command of resources and instant invention of substitutes. So we see from "playing wild" the girl grows into a cool, accurate, steady player, uses good judgment, is ready for emergencies, and obtains a poise which is not easily shaken. These things must be learned, if one is going to make a success of life.

THE COLLEGE GIRL AND ATHLETICS

Should a girl be trained for what she will do in the world? The work of women has changed very greatly in the last years. Women are entering new fields and are doing things in the world as never before. Conspicuous changes have been made in women's work. In every field we find women striving for success. In the industrial world many women are engaged in gainful occupations, in the political world the number of women holding political positions has a far-reaching influence upon political affairs; there are women capitalists, social workers, and women engaged in religious activities. Because of this broader life, the responsibilities of women are greater. All of these activities draw women into groups and co-operation, and teamwork is essential for effective work. Any education which will train the girl in co-operation is of great value. Every different work, like every different game, has its established rules and regulations; whether it is industrial, professional or domestic. No person can enter any field or game and play fair without a knowledge of the rules and penalties and without training. Girls, as well as boys, must learn through practical experience the rules of fair play—generous treatment of one's opponent; merging one's self in group and co-operative effort; loyalty toward fellow players; concentration of power and bending of all energies toward an impersonal goal.

We see then that the work of woman today, while demanding no less of her as an individual, does demand more co-operation, and one of the ways in which she will learn this is in the organized game.

In the training which one gets in the group game there is no theory, no textbook; it is the active expression of one's natural self—we see it also in the life one lives at college and later it determines what kind of a citizen the individual will develop into.

The responsible, reliable player becomes the same kind of a citizen, for in games moral energy is stored up and habits are established which govern the activities of later life.

Athletics and games then are a means to an end, and are to be conducted for the greatest good of the entire number and not for the purpose of making championship teams or developing pennant-winners. The spirit we strive for is not to win at any cost, but to get some of the exhilaration and the joy out of the playing. Games thus become social and not entirely business arrangements.

Through our games we aim not only to provide healthy fun and exercise, but to educate the body from the standpoint of skill, to develop physical and mental co-ordination and to develop the courage of the individual to meet situations and conquer them, not by endurance, submission, spiritless acceptance, but with true sportsmanship to fight what we do not like with active brains, working hearts and courage and—win. So, through her games, the girl is better fitted to fill her place in life—be it the home, the shop, the school, the office, or any other place open to her.

Father—"Johnny, get away from that fire. The weather isn't cold."
Johnny—"Well, I ain't warming the weather; I'm warming my hands."—Pitt Panther.

Newlywed—Why don't you make the bread mother used to make?
Mrs. Newlywed—Why don't you make the dough father used to make?

In our group games, from the more simple ones like long ball, captain ball, push ball, and volley ball, up to those requiring fine teamwork, as indoor baseball, basket ball, and hockey, the woman in youth gets the best training for professional, social or domestic activities. Wholesome play and vigorous group games will give some of the best preparation for the more serious work of later life. In these games the girl learns by doing, at large risk of discouragement and failure on her part; but with great advantage by learning them in a game. So much does not depend upon the failure, while in the game of life each failure brings an inevitable social consequence.
These games drive home the reasons for promptness and exactness. A girl who has become a desirable player on a basketball team has had a training which will serve her in
