ALPHA CHI OMEGA ENTERS UNIVERSITY

National Sorority Grants Charter to Local Petitioners, Who Have Been Organized Nearly Two Years. Will Be Alpha Gamma Chapter of Alpha Chi Omega.

A charter has been granted by the national council of Alpha Chi Omega to a local sorority of this University. This group of girls has been organized sub rosa for almost two years. During this time they have fulfilled all the requirements made by a national fraternity as to scholarship and school activities. An informal petition was made in February of 1917. Following this, an official inspection was made by Mrs. Fall, one of the national officers of Alpha Chi Omega. The organization was further completed by Mrs. R. E. Bennett, who came early this spring for the purpose of aiding the group in meeting the requirements for membership. The local chapter then presented its formal petition. Before the charter could be granted it was necessary to forward to the national council all details of information essential to a full and thorough knowledge of the character and standing of the applicants and of the reputation and resources of the University. To do this books were issued by the chapter, giving a complete account of each girl, a history of the organization, along with the recommendations and data proving the high standing of this school.

Alpha Chi Omega is a general fraternity with musical traditions, founded at De Pauw University, Greencastle, Indiana, 1885. Members are drawn from all courses leading to a degree. Emphasis is laid by the fraternity upon the value of combining the aesthetic with the intellectual in education and the attempt is made to advance the appreciation and practice of allied arts among its members. The demands made by Alpha Chi Omega in regard to entrance requirements and grade of work follow the general regulations made by the national Penhellenic Congress, of which Alpha Chi Omega is a member. The fraternity has a studio at the MacDowell Memorial Colony, a Reserve Fund, and a Scholarship Fund; alumnae chapters and alumnae clubs.

During the period of the war, each chapter of Alpha Chi Omega has undertaken to support at least one French war orphan, besides performing all other war work possible. No expensive functions are permitted by the national council to be given until the present war is ended.

The members of this local group are Vera Kiech, Mariet Lamb, Rebecca Graham, Hortense Switzer, Gladys Hayden, Daphne Cobb, Flora Chess, Eunice Latamore, Alberta

K.K.G. REGISTRATION IS THIS WEEK END

Installation Team, to Arrive Thursday or Friday. Busy Week for Local Chapter. Teas and Receptions are Features.

The Kappa Kappa Gamma installation, when the members of Alpha Gamma will be initiated into the mysteries of the national sorority, will take place Friday and Saturday. On Friday those who were the original petitioners to Kappa Kappa Gamma will be initiated, and on Saturday the members who have been taken in this year will be given the rites. Saturday night a banquet will be given at the Alvarado, at which all the K. K. G.s in the city will be present.

The installation team will be composed of Mrs. Park Kolbe, of Akron, Ohio, the grand president of the sorority, three girls from the chapter at Colorado University, and possibly Mrs. Bullock, Mrs. Haggard and Mrs. Giltner, of Albuquerque. Mrs. Kolbe, who is making a trip from Ohio, to be present at the installation, will arrive Wednesday or Thursday. The Colorado girls are expected to arrive Thursday.

A series of entertainments, both by the new Kappa Kappa Gammas and for them, has been arranged, to take place this week and next. Thursday afternoon the Woman's Pan-Hellenic of Albuquerque will give them a tea at the home of Mrs. Cornish. Saturday night the banquet at the Alvarado takes place. Sunday the Phi Mus will entertain with a tea in honor of the new national sorority women. Monday night the K. K. G.s will give a reception at the Country club. This will wind up affairs for two weeks, when the Kappa Delta Nus are entertaining at the Masonic Temple for the new chapter.

Misses Claire Bursum, Louise Dadey and Anne Harris have returned from Socorro, where they spent the Easter vacation, Misses Dadey and Harris as the guests of Miss Bursum.

Hawthorne and Pearl Hayerford. The alumnae are Mrs. A. O. Weese, Helen Latamore, Louise Wilkinson, Fern Reeves and Allene Bixler. The patronesses are Miss Josephine Parsons, Mrs. J. D. Clark and Mrs. L. G. Rice. This sorority will become the Alpha Gamma chapter of Alpha Chi Omega.

REGISTRATION ON APRIL 1 IS LIGHT

About Six New Students, All Girls, Enroll on Opening Day of Quarter. More Expected Later. Many Old Ones Drop Out.

The registration on the opening day of the spring quarter was rather light. Only six new students enrolled. They are:

Miss Grace Atherton, Kentucky.
Miss Violet John, Missouri.
Miss Simpkins, Minnesota.
Miss Thelma Reagan, Clovis, N. M.
Miss Grigsby, Oklahoma.
Miss Lorraine Long, Albuquerque, N. M.

This is a smaller number than the authorities expected, but they are still looking for a few additional ones to register within the next few days. Many of the seven months schools of the state end just about this time, and it is hoped that some of the teachers will attend the spring quarter session.

Many inquiries have been received concerning the summer school, and all indications point to a large enrollment for that quarter. This is a fine opportunity for teachers to become better educated.

To offset this increase, however, there have been several old students who did not register, and who will not return this quarter. Among them are: Miss Dorothy McIntosh, who returned to her home in the Pecos valley; Richard Barton, who will enter the naval reserve aviation; Jewel Moore, who will war-farm at Clovis; Herbert Hickey, who will enter government service in the Bureau of Animal Industry; Paulsen, who will farm at Las Vegas; Davis, who will return to his home; Fetzer, who has entered the employ of the University, and will be unable to take up any studies; Hugh Cooper and James Chess, who will go to work.

This list contains several student body officers and class officers. Another feature about it is that with one exception, all those failing to return are boys.

A bulletin on the summer quarter will be issued in the near future, and mailed out to teachers of the state.

Miss Thelma Reagan, sister of Miss Maurine Reagan, arrived from Clovis Sunday night, and registered at the University.

DANCING WILL BE FEATURE OF PLAY

Many New and Novel Dances Introduced by Scotti in Annual Musical Comedy. Rehearsals Every Night Now.

Dancing, fancy, clog, interpretive and otherwise will be a feature of the annual play to be given by the University Dramatic club at the Crystal, April 12th. The choruses have been taught some complicated and intricate steps, and are carrying them out fine. Besides dancing by the several choruses, there will be features by some of the principals.

A feature of this dance program will be an interpretative Indian dance, "The Spirit of the Jar," to be given by Miss Hermoine Hoge. Miss Hoge will be remembered as the toe dancer in the Russian ballet that last year made a hit when "Go Ask Willie" was the slogan in University circles. Miss Hoge has been trained in esthetic and interpretative dancing in Russia, and is an artist and teacher of surpassing merit. Another feature, though not nearly so artistic, but provocative of laughter, will be the dance given by Prepositional Pete to the tune of "I'd Rather Be in Some Other Place."

All the leads are showing up well in their parts, but especially should Mr. Hezlett, as the Civic Poet, be mentioned. From the time that he comes on to the stage shouting "Alta mine, Alta Divine," until the end, the way in which he acts his part will cause continual mirth. A better person for that part could not have been found.

To show how famous Miss Hickey, Professor Seder and their productions are becoming, we might say that Paris knows all about them. Floyd W. Lee, who managed or helped manage other Varsity productions, but who is now in France with Battery A, of New Mexico, has been advertising the forthcoming play "over there" and has been reminding them of "Go Ask Willie." While in Paris he met Elsie Janis, who is in France to entertain our soldiers, and the chief topic of their conversation was Miss Hickey and the University plays. Floyd reports that Miss Janis was deeply interested in the matter. No more are the University of New Mexico plays just locally known. In fact, they have been advertised in Paris more than here.

Next week a short synopsis of the play will be published.

Miss Pennington was offered an excellent position as teacher in the El Rito Normal School last week. Professor Roscoe R. Hill made the offer. Miss Pennington has decided not to accept it, however, but will finish her course here and graduate in June.

ARBOR DAY ASSEMBLY.

Friday morning, April 5th, at 10 o'clock, an assembly will be held in Rodey Hall to celebrate Arbor Day. The governor has proclaimed this day as Arbor Day. The conservation of song bird life will be especially treated. Dr. Clark and Mr. Leopold, both of the Albuquerque Game Protective Association, will speak on song birds. An excellent musical program has been promised by Professor Seder, Friday morning at 10 o'clock.

WEDNESDAY, APRIL 3, 1918

SPRING ELECTIONS.

The withdrawal of the business manager of the Mirage from school calls to our mind that there are several offices in the school which are now unfilled, and have been for some time.

According to the old constitutions of the student body and Athletic Association, elections for all officers for the following year were to be held in February. So it is time that we were looking into this matter. As it stands now, the student body has no vice president, the Athletic association has no officers, all of them having joined the army or navy, the Mirage lacks a business manager, and no provisions have been made for baseball manager, etc. If we are to continue these organizations, it is time that we are getting some officers to take the place of those who have gone. The Athletic Council has the right to fill vacancies in the Athletic Association, but has not done so.

At least we should look into the matter of next year's officers at once, and if we find it advisable to elect them this year, do so.

CIRCUS COMES WITH LAUGHS FOR PAPA AS WELL AS TOTS.

Only a few days now and the nimble clowns with their pink nosed poodles, the lovely ladies, with their spangles, the hippo with his wrinkled hide, the boating, tooting calliopes, the gaily garbed bands—in fact, in a few days the vividly hued kaleidoscope of the circus will chase the glooms out of the city, for Sells-Floto shows come to town to exhibit Saturday, April 6.

This season, the Sells-Floto circus is said to be dedicated to the proposition that the public must be amused as well as thrilled. That, besides pep, vim and go, the circus should unfold a mile or so of chuckles; that things novel, stimulating and refreshing have their places under the domes of the big top; that papa should get as many laughs out of the drolleries of the clowns—fifty, count 'em!—as little Freddie and little Alice.

Hence, this coming of the long, gaudily painted trains, promise the hundred men of the advance forces of the circus, means the banishment of dull care for

MUSICAL SERVICE AT EASTER VESPERS

Professor Seder, of Fine Arts School, in Charge. No Address Made, But Delightful Program Rendered.

An especially delightful Easter service was held at the vespers last Sunday afternoon at four o'clock. The entire program was musical, there being no speaker. The first half of the program was taken up with solos by various members of the College. Among the numbers were:

"Hosanna" (Granier), by Miss Hortense Switzer and the University Opera Chorus.

"The Cross" (Ware), by Miss Estelle Harris.

Violin solo, "Andante from A minor concerto" (Goltermann), Miss Grace Stortz.

"Gavotte" (Gluck-Brahms), and "Romance" (Sibelius), by Mr. Seder.

The latter half of the program was given to a rendition of Shelley's cantata, "Life and Death," which ranks among the most melodious and brightest of all compositions belonging to the Easter season. It was sung by the opera chorus, with solo parts by Misses Harris, Stortz, Mrs. L. J. Dean and Robert T. Sewell.

a day. It means, they say, that novelty and freshness and fun are a sort of Sells-Floto trinity. Everything will be fresher—from the peanuts to the paint on the ring banks. As for novelty, three of the five bands will be mounted; a clown band in the "ten blocks greater" parade will jog along on impish burros, better known as "Rocky Mountain canaries." There will be a ladies' bugle corps on thoroughbred horses and pretty girls will seat people in the grandstands. Calliopes will aid in keeping the air a-throbbing with rollicking circus day tunes, while the three herds of elephants have learned to trumpet whenever the donkeys pulling the clown carts attempt to bray. Therefore the medley of the sawdust and tanbark will be a bit more in evidence than ever before.

And one whole section will be made up of patriotic floats and novelties. The big show opens with "The Birth of the Rainbow," a beautiful spectacular pageant and extravaganza, employing 600 people and 400 animals.

PRESIDENT TO VISIT RATON.

Dr. David R. Boyd, president of the University, will make a trip, the latter part of the week, to Raton, to attend the sessions of the Colfax county teachers' association, April 5 and 6. Dr. Boyd will make an address or two, and will return to Albuquerque the early part of next week.

SELLS-FLOTO CIRCUS, SATURDAY, APRIL 6

A MESSAGE TO COLLEGE STUDENTS.

By Herbert Hoover, United States Food Administrator.

(From the Patriotic News Service of the National Committee of Patriotic Societies, Washington, D. C.)

To the college men of America I address myself with confidence, a confidence born of unforgettable experience.

In the relief of Belgium, most of the actual work of the commission in the occupied territory was done by young American collegians. Each time a call was made for volunteers many more than asked for offered their services. And those that were chosen performed their duties, not only effectively, but with a spirit of devotion that made their service beyond praise. They combined idealism and efficiency. It is the combination that moves the world forward.

Today all the young college men of America face a special responsibility and duty. At no time in the world's history has the technically trained mind been at a higher premium. And this need for it and demand on it will continue after the war is over. Hence the young man in college is faced with a serious problem. He must ask himself: Is the immediate need of me by my country in my present stage of training greater than this need will be later, and when I have acquired a higher training? This is a question the clear answer to which cannot be indicated for all by a single formula, because the young men in college find themselves under varying circum-

stances. Yet an answer in general terms of some helpfulness may be made.

To the younger men, the lower classmen, only beginning their professional training, I say: Keep on with your college work. If the war lasts long you will be needed more later than now; and you will be better qualified to fill the need then. If the war ends soon, there will still be urgent need for your help in the necessary great work of reconstruction and rehabilitation. The more advanced your training, the more mature your judgment, the more valuable you will be. So try to possess yourself in patience and stick to your college work.

To the upper classmen, I would say: Hold yourself ready to respond to your country's present need at any moment. Where you see your way clear to make your training useful, do not hesitate to follow the way. But you, too, should remember that every additional month or semester of training will make you a more effective helper to your country in this time of its emergency, ever growing more critical. So be willing and ready to go out, but go in no thoughtless hurry, not merely to satisfy the natural restlessness of the moment.

Finally, to both lower and upper classmen, and to the great army of American college and university graduates, I would say: The country looks to you for justification of the advantages it is now giving you. You are a privileged class. All special privilege brings special responsibility and special duty. Yours is the advantage of the expanded mind and the uplifted spirit. Your knowledge of the condi-

tions and needs of your country, and your understanding of the real meaning of patriotism should be beyond those of the many denied your privilege. Therefore, your response to the call of your country's need should be quicker, more insistent, more persistent and more ready to adapt itself to any form of this need than that of the unprivileged many. You have already responded nobly to the call of the colors. But not all of you can now march to battle; not all of you should try to, but all who should not or can not, and all who are sticking to their work of making themselves fitter for their future service can still serve, and serve now. There is very much that you can do right now.

I would call your attention to just one of the many ways in which you can help, and help importantly. It is the way of insuring the absolutely necessary food supply to ourselves, and to our allies.

Especially must the matter of the food supply of our allies be stressed. The vital problem of world food is not generally understood. The popular view is too self-centered, too selfish—to use an ugly word. It does not look across the sea. The back-wash of Europe's misery does not carry to our shores. We do not know and hence cannot feel, the pangs of hunger and pain of hunger weakness that are everywhere in Europe. They are pains felt by our allies as well as by our foes. We must make this known to all our people, that all our people may understand the great and indispensable and immediate role they must play in this all-important part of the war situation. You who can readily understand must help.

You can impress on the people around you, and wherever you go, the fact that the critical phase of the world food problem is now, not the question of high or low prices, but the question of producing and saving and sending enough food to our allies to keep them alive and strong and steadfast in war. The critical question now in this war is the question of the actual physical strength of the fighting nations.

You can understand it, and you can explain it. You can help us let the people of this country know that our allies depend absolutely on us to maintain their food supply. They, them-

ones, simply cannot do it. If it is not done for them by us the end of the war is near, and it is a bad end, an inconceivably bad end. From every American college man the country expects the truest devotion, the truest patriotism and the highest service. And it will get it. You will give it.

FETZER IN EMPLOY OF UNIVERSITY.

Clair A. Fetzer, one of the engineering students, has been retained by the University authorities as construction superintendent. Fetzer has worked at this work while attending school the past two years. He will be unable to keep up his studies for the present. The appointment is in the nature of an excellent promotion.

One of the first things to occupy Mr. Fetzer's attention will be the completion of the tennis courts, already begun, between the two dormitories. Another improvement which will be undertaken at once is the installation of an automatic pressure system of water distribution. A cistern of 10,000 gallons capacity will be built, and an underground tank in which the water will be kept at high pressure, in order to insure good distribution. This device will work automatically, so that the water pressure will be constant.

DO YOU KNOW—

The girl who worked havoc with a certain "married man's" play house?
About the "big blue-eyed baby?"

How she managed it "out the window" and how it worked?

The three 'lonesome lovers'?

That the herats of several miners have been undermined?

That she was gone four days and got eight letters from him?

The girl who makes a specialty of kissing pictures?

That soda fountain queens are gaining in favor with the Varsity boys?

That the "kindergarden" is being sadly neglected?

Who likes camouflage hair?

Who served ham sandwiches at Hokona after hours?

That there's a new girl on the hill?

The girl with "them winning ways?"

The couple who are as one?

That trips to Indian villages are sometimes disastrous?

That everyone on the hill welcomes the new Alpha Chi Omega?

That bruised knees are all right as long as you don't break a spring?

That a new course of study has been discovered in which the instructor gets the credits, and the pupil the degree?

That there will be quite a few new keys on the campus next week?

That even professors disagree?

That the shortage of men is increasing?

That girls fall for uniforms, especially khaki?

That khaki is becoming only to those in service?

That Easter flowers bloomed all over the campus on Sunday?

The girls who slept on the roof?

That spring and romance have arrived.

Who can prove that old saying that "It is better to have loved and lost than never to have loved at all?"

What has become of Oliver — and Betty, where is she?

The girl who is surely missed at Hokona?

That there will be weeping and wailing and gnashing of teeth when those grades are exposed?

The girl who wears the good-looking Sigma Nu jewelry?

That not many folks get to breakfast by the new time?

Jewel Moore left Monday night for Clovis, where he will be engaged in farming.

The 1918-19 catalogues are being mailed out to prospective students.

DAY OR NIGHT SIGNAL FLAGS

Electrical Attachment Designed Especially for Semaphore Signaling Invented by New York Soldier.

Flags are not very satisfactory for semaphore signaling. Their "range of visibility" (for obvious reasons) is much diminished in a strong breeze; and under such circumstances a flag often becomes entangled with the staff.

An important improvement has been invented by Sergt. H. A. Pierce, formerly of Battery A, First New York field artillery. It is a rigid semaphore, fitted with an illuminating device for use at night—when, of course, flags would be invisible.

Take a wire ring 15 inches in diameter and stretch within its circumference a circular piece of white bunting with a red center. Provide the ring with a straight handle consisting of a brass rod and wooden grip. Furnish yourself with two of these, and they will give you a semaphore as serviceable in a high wind as in a dead calm.

So much for daytime signaling. For night use, there is an electric lamp adjustable in such a way as to protrude through the center of each red disk. The lamps are energized by a small battery-box hung from the operator's neck.

These two lamps (affixed for night use by screwing them into place) are white. A third lamp, that gives a red color, is fixed in a socket on the front of the battery box, which the operator, in a squatting attitude, places between his feet. He has thus two whites and one red, and, by waving his circular "flags," he can send any message desired.

Nicholas Plays Whist.

According to a Petrograd dispatch. Nicholas Romanoff, the deposed Russian emperor, passes a great deal of his time in playing whist, of which he is very fond. In pre-war times whist was one of the most popular court diversions in Russia, and the emperor had a special de luxe card which was made for his exclusive use. Over 1,200 packs of these imperial cards were used every year, and they cost the Russian government about \$7 a pack, being made of the finest linen rags, with a water-mark of the imperial crown and eagle.

Very Slim Chance.

The Old Man—See here! You've spent twelve hundred dollars this semester and your report shows overcuts in every subject. This state of affairs cannot continue, and I want to know right now if there's to be any change?

The Young One—Well, I have thirty cents with me now.

Way to Make Honey.

Take any amount of parsley you desire, wash thoroughly and just cover with water; let it boil for half an hour; then strain through cheese cloth. For each cupful of liquid add one cupful of granulated sugar and let boil for 25 minutes. Bottle and seal to prevent evaporation.

To Remove Iron Rust.

For iron rust either on white or colored clothes, wet the spot with lemon juice, then hold over steam of tea kettle; the spots will disappear like magic. If stain is old, it may not come out with first trial.
