WILD WEST SHOW WILL BE FEATURE OF CIRCUS

Another Interesting Fact Presents Itself for Success of Varsity Show; Material Available to Put on First Class Exhibition.

Today is the third day of April and the University circus will be given on April 21. That is not very far off now, so be thinking about it and save up your money. There will be plenty of things you will want to see and buy, so be sure to save enough. For instance, there is to be a Wild West show that will be good and realistic enough to call forth the "shades of Buffalo Bill."

Surely, no other University would be able to give a Wild West show that would equal this one. If you do not credit this statement, think for yourself of all of our students who have ridden horseback ever since they have been able to walk. Then, a great number of our students are cowboys in the summer time. Think of our cowgirl friend, "Bill Loudon." Where could you find better material? Surely, these people who are so at home on horseback and so familiar with all the hair-raising stunts and risks of the truly "Wild Westerners" will give you a show for your money.

This is just one feature of the best circus ever given by a college, but this part of the program is such an interesting one that we thought you ought to know about it.

Plenty of excitement will be furnished for all so do not miss the University circus.

PATRIOTIC ASSEMBLY HELD LAST TUESDAY

Major Ruppe Told Students of Hardships Suffered by National Guard Men from New Mexico; "Hutch" Instructed Men and Women in Few Military Commands.

A patriotic assembly was held in Rodey Hall on March 27. The object of the meeting was to definitely plan a welcome for the national guards who were expected home the next day.

Major Ruppe told us some of the hardships the boys had to work with on the border. Company G from Albuquerque deserves special credit for having the hardest and most dangerous post of all. The way the boys have stuck to this unpleasant task of staying down on the border without even the stimulus of action certainly deserves appreciation and praise. This was just what the students and faculty of the University had planned on showing but the chance was lost when the boys were recalled. The fact that we were deprived of showing the boys our appreciation, does not say, however, that all we can do has been done or that we are excused because we have made an effort. The national guards are still down on the border, without even the encouragement of having been home for a day, so if they can stand that, it is up to every one (Continued on page 3)

CUBS DEFEATED UNIVERSITY BASEBALL TEAM IN HOT CONTEST LAST WEDNESDAY

Good Exhibition of Outdoor National Pastime Witnessed by Record Breaking Crowd, When National League Men Win from Varsity Aggregation by Score of 7 to 0; Battery for University Was Zabel and Dillhoffer; Hitting Was Feature of Older Men; Cherry and Silver Representatives Failed to Connect With Ball for More Than Two Hits.

The University baseball nine had something of which each man may be proud. The ease with which a few of the Cub men hit the ball over the right field fence was enough to make anyone believe that they were professionals. The pep and ginger they manifested also put a bug in a few Varsity players and the next night during practice, phrases of various and sundry meaning were heard. Turpe picked some real good ones up, and Steve Powell added greatly to his line of talk. Doggie learned that there was a dime in right field and went back after the game to look for it.

The game was called promptly at 3 o'clock and the excitement and enthusiasm which was carried on for the first few innings was intense. Reuther, the Cub southpaw pitched splendid ball and struck the University men out whenever he desired. We were only able to make two hits, but the experience gained therefrom was worth the effort. This is the first time that the University has ever played a professional baseball team on the home ground, and

NORMAL GIRLS VISITED FOURTH WARD SCHOOL

Interesting Facts Learned by University Ladies on Tour to Some of Schools in City; Dean Hodgkin Chaperoned.

The senior Normals went on a visiting tour last Thursday afternoon, to the Fourth Ward school. They visited several primary grades and found the work intensely interesting. The children do wonderful work in reading numbers and music.

The banking system used by the American Trust & Saving Bank was illustrated. Bob Sewell had his desk out in the hall and received the many pennies, nickels and quarters. One little boy stated that he had received a quarter a week for going to bed at eight o'clock.

The girls learned that the salt in Salt Lake is caused by a fish whose shell forms salt. Little Miss Barth told that her Uncle Maurice came from Arizona because he only wanted one wife and she not a Mormon. Dean Hodgkin told a geology class that the Nile was in Italy.

Specimens of free hand drawing may be seen by asking either Mike or Bea.

Jewel Moore has been pledged Pi Kappa Alpha.

Professor Hill went to Estancia Friday to address a meeting of teachers held there.

TEACHERS BUREAU TO BE GREAT AID TO STUDENTS

Last Year's Results Prove Worth While and Registrar Mitchell Decides to Renew Effort for This Year Graduating Class.

The registrar is making inquiry of all city and town superintendents of the state asking them to furnish him with a list of the vacancies which are to be filled before next September. Last year the University bureau was instrumental in locating several members of the graduating class and this year ought to be able to locate a larger number. This service is free both to students and school boards. The bureau will recommend the person who seems best qualified to fill the position and will make no recommendations at all if no one is available who is likely to fill the position satisfactorily. The bureau exists not only for the students but also proposes to keep in mind the interests of employers and the good name of the University. Members of the senior class who are willing to consider high school positions should fill out and file the proper blank with the registrar. Students of lower classes who expect to teach should carefully study the requirements for a state high school professional certificate which appeared in the Weekly a short time ago.

The best way to prevent war is to prepare for it.

INTERSCHOLASTIC MEET TO BE MAY 4, 5 AND 6

All High Schools of State Will Be Represented in Annual Affair, Held Under Auspices of University of New Mexico.

The Interscholastic Track Meet which is to be held on the Varsity field under the auspices of the University will take place May 4, 5 and 6th. All the high schools in the state are expected to send delegates or representatives to participate in this meet, and it will be necessary for all students at the Varsity to help make this the most successful meet ever held here. Last year a number of high schools were entered and the meet was held in tip top fashion, but it is hoped that we will be able to put on a better exhibition this year.

Already several inquiries have been made concerning the events, and anyone desiring any further information will address Coach H. F. Hutchinson, who will be only too glad to furnish the details.

Our track is in the best of shape at the present time, but will undoubtedly be improved before the contest. Everyone is looking forward to this meet and every effort should be directed toward getting the high schools to enter early.

Accompanying the track men there will be a basketball team from each institution, and a regular league schedule will be adopted. This is a good thing for the University and each student should join the parade in order to make it the best success possible.

CHEMISTRY BUILDING NOW NEAR COMPLETION

Final Equipment Has Arrived and Chemists Will be Able to Move Into New Home About April 15th; Laboratory Fixtures Installed by

The final shipment of materials necessary to complete the Chemistry building have arrived in town and there remains only the installation of the fixtures, etc., which are now here, to have the building ready for occupancy.

Many and numerous have been the delays in the construction of this building. These delays have been due, nearly wholly to the shortage of freight cars, as is instanced in the matter of the steel doors, which arrived March 24th, and yet they were ordered last December.

The plasterers are rapidly putting on the finishing touches to the interior, and the plumbers are installing their fixtures. Mr. Wiese of the Wewanee Manufacturing Company, is installing the laboratory fixtures. Mr. Wiese is a Syracuse University man. At the present time he is in the United States Engineer Corps. His home at U. N. M. is cottage "Q."

From present appearance it seems that the chemistry department will be housed in its new home, by the middle of April.

HONOR SYSTEM.

A committee of three from the faculty has been appointed to look into the matter of the honor system in examination. For some time past this matter has been discussed by faculty as well as students and the time seems ripe for the installment of this system. Students who come to college are old enough, or are supposed to be old enough to appreciate that the only information which will be of advantage to them in after life, is that they know or have gained themselves. We have a class of students here in the University that will help establish this system, and once established it will be everlasting. In most all other colleges and Universities in the country this form of examination is given and has proved very successful. Any suggestions which might be offered may be handed to Professor Hill or Dr. Kirk, and will be acted upon with due diligence. Most college men and women are at the point in their lives now when they realize that the habits formed in college or while a person is young, are the habits to be followed in after life. Realizing this, there should be considerable response to the suggested system either for or against. Do not be bashful about stating your desires or thoughts. If you have anything against this honor system let it be known now, before the system is established. After it has been installed, do not commence to kick.

Illuminating Comparison.

She entered the department store and complained about a lamp she had purchased, demanding that it be taken back.

"What's the matter with it, madam?" "It has all the faults of my husband, with none of his virtues."

"Well, it has a good deal of brass about it, is not remarkably brilliant, requires a good deal of attention, is unsteady on its legs, flares up occasionally, is always out at bedtime and is bound to smoke."—Boston Transcript.

The Difference.

"Well, George," said the president of the company to old George, "how goes it?"

"Fair to middlin', sir," George answered.

"Me an' this here boss," George said, suddenly, "has worked for your firm sixteen year."

"Well, well," said the president, thinking a little guilty of George's salary. "And I suppose you are both pretty highly valued, George, eh?" "H'm," said George, "the both of us took sick last week, and they got a doctor for the boss, but they just docked my pay."—Home Companion.

TO THE U. N. M. WEEKLY.

That fateful, unforgett'd day,
Eye of the seventeenth of March
When ranks of Frosh and Sophomores
Met on the bloody field of war.

The battle was a fight of men,
The valiant, brave and true
Ready to give their last faint breath
For their colors green and blue.

Long may that day remembered be
For deeds of valor done—
But let me tell of one brave act
That has remained unsung.

There was a maiden, bold and strong
With spirit naught could tame.
While Sophomores rested on their arms
She gave her colors fame.

Up to the highest pinnacle
Of Hokona's tower she climbed
And on a sturdy cedar pole
With spikes, her colors pinned.

But they were not to wave here long;
Fate favored not the Frosh—
A wily Sophomore lass'ed spied them
Floating there aloft.

She scorned the eyes of gaping crowds,
Thought not of life nor limb,
But scaled the rough, forbidding walls
And tore the green RAG down.

Into the dust the remnants fell—
Soon they were seen no more,
And in their place waved the colors
Of the loyal Sophomore.

And though the matron raved and stormed
And Freshmen threatening came
The Sophomore maiden bravely held
The place so dearly gained.

Long may that day remembered be
For deeds of valor done.
Honor to those who fought and lost—
Glory to those who won.

And Be Merciful.

It might be well while correcting your disobedient offspring to remember that you didn't die young.—Indianapolis Star.

Odd Facts.

Oil fuel is used to some extent on no fewer than 40 railroads in the United States.

Until 1874 the Japanese used to vacillate on the tip of the nose.
Roller skating dates back to 1790.
Mecca's pilgrims annually excrete 100,000.

There have been woman sailors among the Finns and Norwegians for many years.

"Curfew" comes from two French words, "couvre feu," which means "cover fire."

There are 672 volcanoes in the world, of which 270 are described as active.

Rubber was first introduced into Europe in 1735 as erasers.

Russia has more blind people than the rest of the world, two to one.

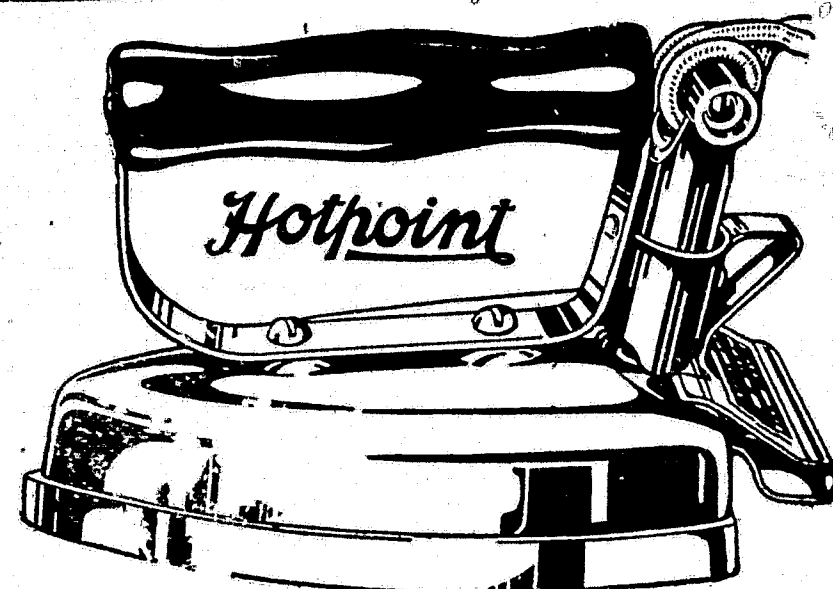

Made Both Ends Meet.

Flatbush—Times are not what they used to be.

Bensonhurst—Why not?

"Because when I was a kid I used to put my toe in my mouth, but, believe me, I can't make both ends meet now."

—Yonkers Statesman.

ALPHA GAMMA'S GAVE
TEA IN HONOR MISS KYLE

Sorority Women Entertain Kappa Kappa Gamma Representative from Denver at Home of Miss Myrl Hope Last Saturday Evening.

On last Saturday evening the Alpha Gamma's gave a tea at the home of Myrl Hope, in honor of Miss Estelle Kyle, the visiting Kappa Kappa Gamma from Denver. The girls spent an enjoyable evening with this they received a number of the fraternity men from the University when each one of us must be willing to do whatever we are called upon to do.

The house was beautifully decorated in red roses and smilax. Delightful refreshments were served throughout the evening. Mrs. Haggard and Mrs. Giltner were special guests.

Everyone who attended the tea left with a pleasant taste in his or her mouth, and pronounced the Alpha Gamma's very charming young ladies as well as enthusiastic hostesses.

FORMER STUDENTS TO
BE MARRIED AT EL PASO

Red Balcomb and Josephine Johnson Have Announced the Date for Their Marriage as April 3rd; Home to be in Albuquerque.

The announcement of the marriage of Kenneth Balcomb and Josephine Johnson, both former students of the University, comes with a great deal of pleasure to their old classmates. "Red," as he is better known, took an active part in all University activities, graduating last year. Josephine attended college here last year, and has been at her home in Roswell since she left here last summer.

The couple are to be married Tuesday, April 3, in El Paso and after a short honeymoon will return to Albuquerque where they will make their home, having already a house on the University Heights. "Red" is connected with the United States Forest Service in this city.

The many college friends made by this couple during their stay at the University, join in extending best and hearty wishes to the newly married couple.

CURRENT EVENTS.

March 26, 1917—President calls out fourteen regiments of National Guard. Nation divided into six military departments; naval strength raised to maximum.

March 27, 1917—Former Czar is closely guarded. Preparation by government for war continues most aggressively.

March 28, 1917—Fifteen thousand guardsmen have orders for mustering out cancelled by United States.

March 29, 1917—No intention that Germany's submarine warfare is to be ended.

March 30, 1917—Chancellor von Bethmann-Hollweg says reason for submarine war has been explained to United States and America must bear blame for additional bloodshed; that Germany will win in the final wind-up.

March 31, 1917—Million men needed by Uncle Sam to defend country; Mexico ally of Germany and Japan against United States.

PATRIOTIC ASSEMBLY
HELD LAST TUESDAY
(Continued from page 1)

of us to do anything and everything we can to help.

As Professor Hill pointed out in his address to the University on this occasion, we can all do our share. The affairs of our country have reached such a crisis at the present time, that it may be necessary for all of our men to go to war. This we know they are willing to do if necessary. However, more is needed than the willingness to leave for the firing lines. A great deal of the commercial work will have to be carried on by the women, should actual war come. They are willing to do this, too. The time has come now when each one of us must be willing to do whatever we are called upon to do.

RED CROSS FIRST AID
AT VARSITY ESTABLISHED

Mrs. George Knowles and Mrs. Kellam Deliver Interesting Addresses to Girls of University at Phi Mu House Last Tuesday Evening.

Mrs. George Knowles, president of the Albuquerque Chapter of the Red Cross, discussed ways for women to be of service to their country in case of war, at a meeting held last Tuesday evening in the Phi Mu house. She spoke of the Red Cross work and explained how to form a Red Cross first aid class.

Then Mrs. Kellam spoke of the part women have played in the present European war. She emphasized the fact that war will mean work, harder and more trying than ever before. Another way in which women may help is by observing the strictest economy in all things. By reducing the consumption, the production will be correspondingly decreased.

Taking advice from the above addresses, the girls formed a Red Cross First Aid class last Wednesday afternoon. The work in this course would be just as usual in an automobile accident or a fire. To form a class at least five members must organize, elect a secretary and secure the services of a physician to give the lectures. This is an opportunity to show your patriotism, and as many girls should join as possible. The course will be so arranged as to be completed by commencement.

DR. CLARK SPOKE TO
WOMAN'S CLUB

Interesting Chemical Address Delivered Before Large and Enthusiastic Audience of Women, Interested in Betterment of Conditions.

Dr. Clarke spoke at the Albuquerque Women's Club last Friday on "Past, Present and Future Pices."

Dr. Clark explained why many commodities have advanced in price, and being a chemist, told of the numerous chemicals which go into the making of the commodities and articles which we purchase so frequently.

Conservation of our raw materials was a point much emphasized. That people in general are not well informed on chemical topics is illustrated by the fact that the Morning Journal quoted Dr. Clark as saying that the United States is dependent on Germany for phosphates. As a matter of fact this country has plenty of phosphates, but depends on German for potash.

Compelling Logic.

Foreman—How old are you?
Applicant for Job—Forty-seven.
Foreman—No job for you.
Applicant—Why?

Foreman—If a man past forty-five has always worked as I should want him to, he is worn out. If he is not worn out it is a sure sign that he wouldn't work hard enough to suit me.
Pass on.—Exchange.

As Usual.

"Who wrote that article on how to support a family of six on ten dollars a week?" a friend asked Woggles, the editor of the Ladies' Household Friend.
"Bingham, one of our best men," said Woggles, without a smile; "we pay him five thousand a year."—Louisville Courier-Journal.

Don—How is this Saturday night Goulash made?
Spick—Crazy; it isn't made; it accumulates.

Lon—Say Don, doesn't your hair ever get tired standing up all of the time?

Prof. Dean Forrester, although he has attempted to keep the secret, has been overcome by one of our powerfully attractive good looking young ladies and has disclosed the fact that he is to be "hooked up" some time in the near future. The name of the bride-to-be is still in the dark, but it has been rumored mightily authoritatively that she resides in Boulder, Colo. Good reward for further information concerning this matter, is offered.

Watch the bulletin board for announcement concerning baseball games on the 11 Tuesday afternoon between the University and Menaul school, and Thursday, between the University and Indian school.

Save your jitneys for the Varsity circus.

Sing in Latin.

The class in Latin 52 sang some Latin hymns on Monday at 11 o'clock in Rodey hall. Professor Seder played some of the ancient melodies to which these hymns were originally set.

"A. Simp"—Take Notice.

He who signs to notices on the University bulletin board, his pseudonym, "Ima Mutt," makes no mistake as to his identity. Or if he signs "A. Simp," Er hat recht. Surely he is "A. P. Eack." Verrily, if taken in his transgressions he should not be dealt with as a babe and pitied for his ignorance. Although he may be in need of a maternal knee to "Lena Gainst" he should not be considered too infantile to be corrected by chastisement.

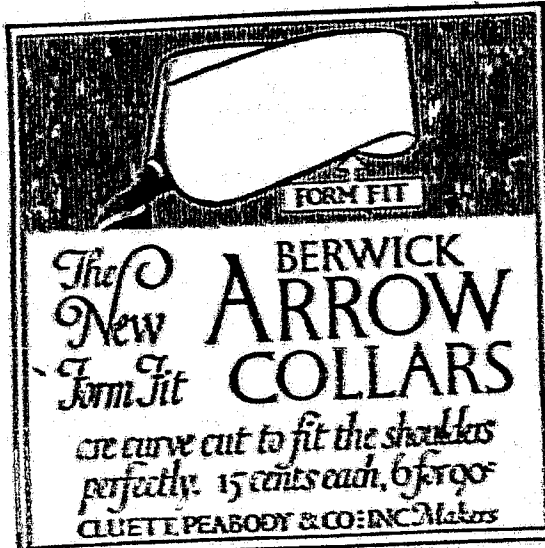

Phi Mu Open House.

On Sunday afternoon the Phi Mu's held open house in honor of Miss Kyle. A large number of University people and fraternity people in the city enjoyed the hospitality of the Phi Mu's. A musical program in which Stanley Seder, Hazel Kieke and Mr. Bingham rendered selections was greatly appreciated.

Professor Worcester and Mrs. Partch disagree in regard to war. Never mind Professor, the rest of the class is with you even if they cannot talk as well as Mrs. Partch.

The chemistry laboratory people celebrated the near completion of the new building with a fudge party last Friday afternoon.

TRACK MEET BETWEEN FRESH-SOPHS SATURDAY

Long Postponed Track Meet With Lower Classes Will be Held April 7th, on Varsity Field; Interesting Program Is Promised.

On Saturday, April 7, those old time enemies, freshmen and sophomores, will once more contend for supremacy. This time it will be in track.

Some time ago the sophomores, dissatisfied with their continued defeats at the hands of the freshmen, issued an ultimatum to the lower class in the shape of a challenge to a track meet. The freshmen, through their president, Don Richardson, immediately accepted the challenge, prophesying another defeat of their friends, the enemy. A date was then set for the meet, but for some reason or other, it was postponed. Next Saturday, however, will determine which of the two classes has the strongest line-up.

Clark has been elected captain of the freshmen team and promises to put a winning team in the field. Clark can be counted on as a possible winner in the high jump and half mile. Powell and "Sarah" Bernhardt, both fast men, will be there in the short sprints. John Steed, once Deming's star track athlete, will probably be the freshmen's greatest point winner. Herbert Hickey, the high school's strongest distance runner last year, will represent his class in the half. Doxey has been practicing steadily for the last few weeks and ought to show up well.

White, in charge of the sophomores, assures us that the sophomores will be there with the winning end of the score when the last event is over next Saturday; giving Thackery, Nohl, Boldt and Wigley, last year's stars, as his reason. He made the statement that the "Demon" was good for at least five first places. Mozley has been showing great form in the low hurdles and will be there at the finish. Craig with the shot and Hoch in the broad jump can both be counted as point winners and Perry is a wampus cat at the sprints, according to White.

This will be the first of a series of inter-class meets preparatory to the big meets to be held in the near future. We are going to have two, perhaps three, meets this season; the city meet, a dual meet with Cruces, and the big meet at Tucson. We have material for the best team the Varsity has ever had and we are going to put a winning bunch on the field. Be on the bleachers Saturday afternoon and get a line-up on who is who. Show your spirit and boost track.
