## HISTORY CLUB HOLDS ANOTHER GOOD MEETING

Excellent Talks Given, Discussion Enthusiastic, and Refreshment Committee Is on the Job.

Monday afternoon the History Club held another good meeting in Hokona Parlor. A good audience was in attendance, and the papers read were enjoyed by all.

The first on the programme was Miss Lucie Bell Alexander, the President of the Club. Miss Alexander's talk was on "New Uses and Discoveries in Radium," in which she traced the discovery of Radium from the beginning up to the present day, and spoke of the great advances and strides being made with it in the treatment of diseases, especially cancer, and the cures being affected by it.

Miss Alexander spoke of the great scarcity of and consequent value of Radium, and of the many wonderful things expected of it in the future. Her talk was well prepared and rendered, and enthusiastically applauded by all.

Miss Amelia McFie followed with a discussion on "Immigration From the Immigrant's Standpoint," in which she discussed the class of immigrant that is now coming to this country, and showed how they were actuated by the same motives that impelled the Pilgrim fathers to come to America, the hope of bettering their social conditions, and of obtaining religious freedom. She defended the immigrant, showing how he was necessary for the development of the country, how he craved and sought education, and became a good American citizen if only given a chance. Miss McFie's talk was a thoughtful, kindly, well-studied essay, and threw much new light on the subject.

Owing to her having been called home on account of the serious illness of her father, Miss Mary Cooper was unable to give her talk, so the final one was made by W. J. Higgins, choosing as his subject "Transportation in Alaska," in which he discussed the great depth and vastness of that country, its wonderful resources, and the value of the new railway which the Government was about to build there.

Following the talks, a delightful social hour, interspersed with discussion and refreshments, provided by the Refreshment Committee, consisting of Misses Louise Holland, Rosalie Espinosa and Daphne Fortney, followed, until finally the audience had to take a regretful departure, all unanimous that the time had been well spent, both as regards culture and pleasure.

Another meeting of the Club will take place in the near future, and, judging from the enthusiasm and success which has attended the last two meetings, it should be as well patronized and interesting.

### Address by Dr. Ziegler.

Wednesday morning, Reverend John Ziegler, Pastor of the Lutheran Church of Belen, addressed the student body of the University on the future of the college graduate after leaving school. Dr. Ziegler's talk was very inspiring and straight to the point, and we regret that we are unable to reproduce it here, but owing to the illness of the editor, who writes up all such reports, a detailed account of it is impossible.

## INDIAN SCHOOL BEATS VARSITY AT BASEBALL

Clark Proves Too Much For Cherry and Silver Lads, Who Succumb to Tune of Four to Zero.

The Varsity was beaten by the Indians in a practice game last Saturday. The final score was 4 to 0. On account of the absence of several of the first team men, three substitutes played, which in a way accounts for the defeat.

Catcher Calkins, third baseman, Bateman and fielder Lapraik were called to Santa Fe on State business Saturday morning, so were unable to play.

Lackey pitched a fine game and finished strong as he started. The fact that two of the four runs may be said to have been caused by errors shows better the work Lackey did against a team with the reputation of being sluggers.

Leupold did some fine fielding, and Gass played his usual strong game at first. Shufflebarger for his first experience at catching showed up fine.

"Too much Clark" was the cause of the zero score on the Varsity's side. No one seemed able to connect with his baffling throws. Two better matched pitchers than Lackey and Clark could hardly be found.

In the next game with the Indians the Varsity will probably have all their men present, and most likely the score will be reversed.

The two teams lined up as follows:

Indians — Clark, pitcher; Hostine Ayze, catcher; Herbert Ayze, first base; Chihuihui, second base; Spencer, shortstop; Hood, third base; Namaza, right field; Hola Tso, center field; Acoya, left field.

University—Lackey, pitcher; Shufflebarger, catcher; Gass, first base; Joe McCanna, second base; Higgins, shortstop; Emmons, third base; Olds, right field; Leupold, center field; R. McCanna, left field.

The score by innings: R. H. E.  
Indians ..... 100 001 002—4 7 1  
University .... 000 000 000—0 2 3

### Prof. Hodgkin Lectures on "Fear."

Tuesday morning, Dean C. E. Hodgkin delivered a talk on "Fear," in which he traced the various kinds of fear, and their results, and took occasion to score severely the practice in vogue among so many parents of eliciting obedience from their children with threats of the "Bogie Man," etc., stating that such things often led to serious results in after life, the effects of which never permanently wore off in many cases.

### Indiscriminate Phrase.

"What's this?" examined the sensational editor.

"Story about a woman who put a few people to considerable trouble," said the reporter.

"But you haven't identified her."

"We couldn't learn her name."

"What difference does that make? Not knowing her name would not prevent you from referring to her as a prominent society woman, would it?"

—Ex.

Cheer up, Gordon! Even if she did throw you down, you know how most girls throw anyway.

## STUDENT MANAGERS(?).

I think no one will question the statement that, with the ratifying of the new constitution of the Athletic Association, the students of the University gave up active control of the athletics of the institution. This control passed, as it was perhaps best that it should pass, into the hands of the faculty. The students retained, however, the privilege of electing student managers for the various seasons. Nothing was said as to what should be the rights and duties of such student managers, and at the will of the director of athletics the student manager becomes either a manager or a figurehead. There have been three cases of the latter to one of the former since the new constitution has been in operation.

The past year has seen the passing of the major portion of student body privileges. It may have been well that they should go, but it is not wise to go on the assumption that any rights belong to the students until it is clearly known what these rights are. Is the student manager to have charge of the finances and schedule of his season, or is he to be content with the name of manager while the director of athletics discharges the real duties of the office?

Two cases in point were last year's track and basketball seasons. In the latter frequent disputes arose over the scheduling of games, the manager being denied that right by the director of athletics. The track manager was given absolutely nothing, and was a manager in name only. What claim could he make under the constitution of the association? That instrument said nothing about his position, beyond that "there should be student managers."

It is urgent that an amendment be inserted, defining the rights and duties of the student managers and of the athletic director respectively. The present situation is unsatisfactory, and may very well lead to dissension and ill-feeling; whereas, if the province of each were clearly defined, no misunderstanding could arise, and the students could still control, to some extent at least, the athletic activities of the University. The student body yielded many of its former prerogatives for the benefit of the bigger and better University. It should safeguard those which it has retained, and take precautions lest it find that it has

merely shadows where real student benefits once existed.  
Neither director of athletics nor manager can be blamed for any friction which may now arise. It is not desired to censure anyone, but for the good of all concerned some more definite provision should be made for student managers in the constitution of the Athletic Association.  
—J. CLIFFORD NICHOLS.

## EXISTENCE OF GOD IS PROVED BY NATURAL LAW

"Physicians have been trying for 300 years to discover the relationship between matter and the liminiferous ether," said Prof. F. C. Blake, of the department of physics, Ohio State University, in a lecture recently.  
"It is likely that the ether is something no one will ever be able to prove the existence of by means of any of his senses, and yet the large majority of physicians today regard it as having a material existence. Indeed it is the one thing in the material universe that can be depended upon always to produce the same effects when subject to the same forces. In a certain sense scientists have a far greater knowledge of the properties of the ether than of any ordinary matter."

"And yet by reason of the failure of every experiment so far tried to 'grip' the ether by means of matter, recently a small school of physicists has arisen that denies in toto the very existence of the ether. Similarly, there is a small minority of mankind that denies the existence of God, because so far they have not been able to 'grip' Him," Professor Blake continued.  
"But just as a majority of physicists in order to think clearly about natural phenomena regard the ether as the one all-pervading substance of a well-ordered universe, so a majority of men, in order to think clearly about life and its meaning regard God and the one all-pervading, ever-the-same Mind of that same well-ordered universe."

## WEEKLY ELECTION TO TAKE PLACE ON NEXT TUESDAY

The announcement has just been placed on the Bulletin Board by President Emmons that on next Tuesday morning, the 14th inst., the election of Editor and Manager of The Weekly for next year will take place.  
All students are urged to be on hand that day and cast their vote for whomsoever they consider the best persons for these responsible positions.

As the Varsity grows, which it is surely doing, The Weekly will become of more and more importance and magnitude. The paper should be representative of the school, and its interests, and that should always be the aim of those in charge of it.

With the establishment of a Department of Journalism in the near future, and a larger student body, we may soon hope for great things for The Weekly, and amongst others, a change in the name, so that in the not far distant future, who knows but what it may be "The U. N. M. Daily"?

## Y. W. C. A. Social.

On Thursday afternoon, from three to five, the Y. W. C. A. entertained at a little informal reception, given for the Varsity girls in the gym. An exceptionally pleasant afternoon was spent, and the ice cream cones proved to be very delicious refreshments.

This is the second of the two socials that are given each year under the auspices of the Y. W. C. A.

Miss Evelyn Everitt was one of the guests whose presence added much to the pleasure of the afternoon of the Y. W. C. A. Social.

## PHYSICAL TRAINING TO BE BIG FEATURE FOR NEXT YEAR

Courses for Men and Women Given, as Well as Instruction in Hygiene of All Kinds and Sorts.

The Importance of Physical Training at the University being realized by the authorities, the following courses in that subject will be given next year, and will be required of all Preparatory students, and Freshmen and Sophomore Collegians:

### Physical Training.

A well equipped gymnasium, containing locker rooms and shower baths for both men and women, is open throughout the year for the use of the students of the University.

The course in Physical Training is required of the women of the University as a regular part of their work, whose rank is below that of a Junior. The work consists of systematic exercises for the development of all parts of the body.

Women pursuing this course are required to provide themselves with a gymnasium suit, consisting of a blouse waist and bloomers, with the regulation shoes. In addition to the class work, sports and pastimes are open to all women of the University, such as basketball, tennis, etc.

A physical examination is made of each student, and physical measurements are taken in the fall and again in the spring.

The required work includes a course in personal hygiene during the first semester.

The gymnasium in charge of a professional director, is open to the young men. The training and exercise are under the immediate oversight and authority of the director, and are wholly with a view to the healthful development of the whole student body. All young men are required to be examined by the director of physical culture upon registration, and during the course, as often as the indications of the physical conditions may require.

The decision of the director will be either:

1. Advisory, indicating what course of hygiene and exercise will best sustain and improve the health of the student, or
  2. Mandatory, requiring the student to pursue the course of hygiene and physical exercise necessary for the proper care of health, and the discharge of their duties as students.
- All men whose rank is below that of a Junior, are required to take the course in Physical Training. Two hours per week throughout the year are required. The required work includes a course on personal hygiene during the first semester.

## FORESTRY SERVICE OFFERS PRIZE FOR BEST COMPOSITION

In accordance with the statement he made at the Arbor Day celebration, Honorable Theodore S. Woolsey has offered a prize of \$20.00 cash for the best composition by a Varsity student on the subject of "Benefit of National Forests to New Mexico."

The essay must be submitted before May 1, and will be judged by a committee consisting of Mr. Woolsey, Mr. Arthur C. Ringland and Mr. Seth. The composition must not exceed ten pages in length, should be typewritten and unsigned.

The manuscripts should be numbered by a serial number, and the numbers with the writers' names should be placed in a sealed envelope and sent along with the writings.

The library of the forestry service will be placed at the disposal of students during the contest.

This is a great opportunity for the students of the Varsity, not only to win a substantial prize, but also to show their literary talent and versatility in public questions, and it is hoped with the prospect of such a reward that a good bunch will try out for this prize.

### Heard on the Campus.

Say, what's an anecdote?  
 Why, it's a short tale. For example, a rabbit has two ears and an anecdote.

If it takes a gallon of molasses sixty seconds to run down a telegraph pole in the hot sun how long would it take a mosquito with a wooden leg to kick a hole through a cucumber?

The girls of Hokona have been blossoming out in a particularly gorgeous array of Easter finery, especially conducive to the pursuit of campistry.

### Late Hours.

"Spaddles has ruined his health and lost his position."  
 "I thought he was a wide awake young man."  
 "That's just the trouble. He was wide awake too many times when he should have been sleeping."—Ex.

### Tuesday Morn and Raining.

Leslie: Say, girls, how are you betting on the election today? I bet the town goes wet.

Mary: He is taking the place of the sun today.

Jesse: Yes, his mother thinks he is bright, too; she calls him son.

C. Roy Smith, best known as "Ramie," visited old friends at the Varsity on Monday, leaving again for his home town where he is engaged in the abstract and insurance business.

### Varsity Websterian:

An Indian is a conglomeration of skin, bone and a supply of athletic sense, who delights in getting the U. N. M. off their guard and trouncing them.

The members of the Girls' Bible Study Class were pleasantly surprised last Thursday after the meeting when the leader, Mrs. Bloom treated them to delicious home-made doughnuts, better than the kind mother used to make. Who says college women can't cook?

### The Mirror and the Lady.

Patience—I see mirrors at street corners have been suggested to prevent automobile collisions.

Beatrice—But what could be done to prevent the crowding of street corners by women?—Ex.

Helen: I have to go down to see the eye doctor.

Treasure: Something wrong with your teeth?

Helen: Teeth; no, it's my eyes.

Treasure: I meant your eye teeth.

The debate on the question of municipal ownership of waterworks, to be supported on the negative by three University men and on the affirmative by W. P. Metcalf and City Attorney Lewis, has been postponed on account of the city campaign.

Fred: I tell you, Ed Walsh can sure throw a spit ball. He's the best one at that in the country.

Treasure: Huh! I got suspended from the High School for throwing 'em, and they said I was the best on earth at that biz.

A lady of great judgment, Miss Dean, said, when referring to Gwendolin Bean,

"I think that that creature would make a photo-play feature if you stood her behind a thick screen."

### What Fools These Mortals Be!

I.  
 Some jolly students, numbering three finding life too slow, went off on a spree  
 To the ancient city of Santa Fe.

 But the morning after, they confided to me  
 From their feelings then, they could hardly see,  
 Any special advantage in going on a spree.
