DEBATING TRY-OUTS HELD IN TWO WEEKS

Professor Worcester, Chairman of Debating Committee, Sets Date for Preliminary. Arizona-New Mexico Debate Set for May 5.

The debating tryouts, to determine who will represent the University of New Mexico in its debate with Arizona, will be held in Rodey Hall Saturday, April 27, at 8:30 p. m. The judges have not yet been chosen.

The subject of the debate is, "Resolved, That the government should own and operate all the railroads engaged in interstate commerce in the United States." New Mexico will uphold the affirmative.

This year the contest will be held at the University of Arizona, in Tucson, on May 5. Two members will compose the team which will make the trip.

A meeting of all those interested was called last week, but was not well attended. It is understood that several candidates will compete for the team, but there have been no definite announcements made as to who the competing ones will be.

STUDENT BODY TO ELECT SATURDAY.

Friday at 12:30, the student body will meet in Rodey Hall, to elect officers for the next school year. At this election all student body offices are to be filled. They are: President, vice-president, and secretary of the student body, editor and manager of the *Mirage*; editor and manager of the *Weekly*. It was the intention to hold the Athletic Association elections at the same time, but this will be impossible, for the constitution of the Athletic Association provides that the nominations for officers shall be made and posted at least two weeks before the election shall be held.

The time of meeting is rather inconvenient, but it is hoped that all the students will be present.

TEN DONS ENTERTAINED BY DR. HODGIN.

Dr. C. E. Hodgin was host to the Ten Dons Tuesday evening. The dinner was served in the University dining hall. A delicacy of the feast was the course of grape fruit that was sent by Mr. H. E. Fox, a former member of the Dons, who raised the fruit on his farm near Los Angeles.

The paper of the evening was by R. E. Putney on "The Effect of the War on the Distribution of Food and Fuel." This was a paper showing exhaustive study of the subject and rich in information, dealing particularly with the problems of food distribution during the war. All the Dons were present.

UNIVERSITY UNION IN FRANCE SENDS REPORT OF ACTIVITIES

The American University Union in Europe, of which the University of New Mexico is a member, has submitted a report of the executive committee to President John A. Widsøe on the activities of the organization in Europe. As stated by the organization, "the general object of the Union shall be to meet the needs of American university and college men and their friends who are in Europe for military or other service in the cause of the allies."

The report will be published in three installments. The first follows:

Activities of the Union in France.
To the Board of Trustees of the American University Union in Europe. Gentlemen:

Your executive committee presents herewith a report dealing with the extension of the activities of the Union in France. The report will discuss the developments of the Union (1) in its internal, (2) in its external aspects.

Internal Developments.

Without attempting to review the numerous details of the daily history of the Union, at its Paris headquarters, it is possible to make some generalizations based on the experience of the first quarter-year.

A.—Room Rental Guarantee.

First of all, the contract with the Royal Palace Hotel has, after a fair test, been fully justified. Since the tenth night the hotel has been continuously filled practically to capacity. Within the first two months the total room-rent required for the first three months under our guarantee, was almost reached. Almost from the outset it has been evident that no actual payment by the Union would be necessary. It has been proved possible to add, on the sixth floor, seven small single bedrooms, renting at five francs a day each. These have been constantly occupied and have increased considerably the surplus on room-rentals above the required guarantee. The removal of several of the important U. S. services from Paris during the month of January has taken from the Union many of its regular residents, but the influx of transients has fully offset this loss. The attendant uncertainties in the situation, coupled with those of heating, made it seem unwise to the Executive Committee to attempt, at least during the winter, any definite expansion of the Union beyond its present quarters. But the occasional overflow of guests has been satisfactorily accommodated in adjacent hotels, and, in general, the

Union has proved reasonably adequate to demands upon it.

B.—The Restaurant.

The restaurant has been maintained thus far at the prices originally fixed. In consideration of the advance in cost of food and service, and in harmony with the spirit of the contract, the Executive Committee has agreed to a slight raise in prices to be effective February 1st. The price of déjeuner will be advanced from 4.50 to 5 francs, and of dinner from 5.50 to 6 francs. The charges of the Hotel Montana are respectively 7 and 8 francs for these meals, and in general hotels of similar rank have, since October, made similar advances in prices. It is felt, accordingly, that in view of war conditions the proposed moderate increase is reasonable. The price of pension (three meals) has been increased from 10 to 11 francs a day, but it has been provided that officers and secretaries of the Union and of college bureaus, not exceeding six in number, shall be given pension at the present rate of 10 francs. The number of such staff officials now on pension is five.

The hotel management has successfully handled a considerable number of very large dinners, at Thanksgiving and at Christmas, as well as two dinners given to the Paris Advisory Council and many smaller private dinners. Despite the difficulties of war conditions, the restaurant has, in general, been maintained efficiently.

C.—Heating.

The additional cost of daily hot water heating, a question discussed fully in the report of November 7, 1917, has been met without cost to the Union, by an arrangement accepted by the hotel management, to add 50 centimes a day to the cost of rooms with private bath. Sufficient anthracite coal, though often poor in quality, has been secured from the municipal authorities. The main difficulties of the heating problems have therefore been successfully met.

Thus the three essential questions of the contract, room-rental guarantee, restaurant and heating may be said to have been answered satisfactorily.

Internal Organization.

In order to systematize the work of the Union, the following committees have been constituted, each of which has as its chairman a member of the Executive Committee, Entertainment, Mr. Hyde (Harvard), Library and Art, Professor van Dyke (Princeton), French Affairs, Professor Vibbert (Michigan), Publicity, Mr. Crenshaw (Virginia), House

MIRAGE GOES TO PRESS MONDAY

Miss Lina Fergusson, Editor, Announces That Everything is in the Printer's Hands. Service Section is a Feature.

The *Mirage*, the University annual, went to press on Monday, reports Miss Lina Fergusson, editor, and Herald Booker, business manager. All the copy is now in, and the contract for engravings has been let. Work is now being done on the engravings, and the first consignment is expected to arrive soon.

Owing to the departure of Herbert Hickey, who was elected manager, from school, it has been necessary that Herald Booker, assistant manager, continue with the business management. Mr. Booker has spent all his spare time securing advertisements, and advertising copy, with the result that the book was placed in the jobber's hands before scheduled time. It is expected that the *Mirage* will be ready for distribution before June 1.

One of the new features of the *Mirage* is the service section, devoted to the men now in some branch of government service.

It is intended that the annual this year, through this department, will convey to the boys "over there," as well as the boys who are in the service in this country, some small portion of the obligation which we owe them and of the esteem and admiration which we bear for them. This service section will likewise be valuable to parents and others interested in the boys in the service. Each one of the boys will have his history and his picture in this section whenever it has been at all possible for the editor to obtain it. Without an exception, the histories of the boys in the service will show to all who read them that aside from the fact that they are with the colors they have always been young men of first class standing in the communities in which they have resided.

Committee, Mr. Lansingh, Massachusetts Institute of Technology).

(a.) The Entertainment Committee has as its vice chairman, Mr. Clifton, who is specifically in charge of musical affairs. He has provided, through the generosity of a friend, for the rental of an excellent grand piano, and has arranged two admirable concerts, one given by Parisian musicians, the other by Mr. and Mrs. Francis Rogers of New York.

The largest gathering arranged by the Entertainment Committee and by the chairman of the House Committee, Mr. Lansingh, have been the Thanksgiving and Christmas dinners, the latter preceded by a Christmas tree and the singing of the Christmas

THE WEEKLY.

At the opening of school last fall, the question of the Weekly, how it should be run, or how its staff should be chosen, was discussed to some extent, but there was no one with actual experience on the editorial end, to advise us. After several months' experience, the present editor has come to the conclusion that the present plan of running the weekly is a failure. The student body elects one editor and tells him to choose his own staff and get out the paper in the best way he can. No assurance is given that the editor chosen is capable, and no help is given him after his election. The school forgets all about the paper until it appears each week. Then it is criticized and forgotten again. When one man is given charge, as has been the custom, that one man has to get out the whole Weekly. This was the case last year; it is the case this year.

And we can't blame anyone for refusing to help edit the Weekly, for what incentive is there? There is no assurance that his services will be rewarded with a better position on the staff, or any position at all, next year. The student body is just as likely to choose a green man as not.

The editor last year, Ray McCanna, suggested a plan whereby some of these faults would be remedied, but his suggestion was not acted upon. We are going to make a suggestion this year, which we think will help a little. It is:

That a staff, consisting of an editor, a managing editor, and at least three associate editors, be elected by the student body; and that in so far as members of the staff next year return the following year, that the editor-in-chief be chosen from them; that is, that the editor-in-chief for the following year shall have been either the managing editor or one of the associates of the previous year. This plan will do away with having a green man as head of the Weekly, and will furnish an incentive for working on the staff.

Think it over between now and Friday!

THE CRISIS HAS COME.

It is a peculiar thing that men do not realize a crisis until it is past. Undoubtedly it is best so, for if we realized the full portent of events we might be frightened into inaction. And yet it is sometimes to be desired that we could more completely understand conditions.

The world and its situation today is so far different from anything that ever has been, or that we can imagine, that we cannot help understanding the difficulties before an dthe responsibilities upon us.

Within the next few months, or

even days, depends the future of the world. The battle line as it now stands is of vital importance to every being under the sun. And yet—how many of us have an unusual interest in the war news; how many of us have studied carefully the map of the fighting front? The very thing that transcends all others in importance—the thread upon which our fate is hanging—is altogether of no interest to us in comparison with its vital significance.

The opportunities before the rising generation are unlimited. Enormous as has been the progress of the world in war, even more so will be the progress it must make in peace. Cities must be rebuilt, land must be restored; the world must leap forward with unstinted pace to overcome the disasters brought by war. It is not enough that we look only at the present; the future must be considered. Preparedness for peace is of no less necessity than preparedness for war.

The day has passed when man can live unto himself alone. One who is selfish enough for that deserves not to live in a free world. It is only as he can help his fellow man in improving the world and its conditions that he is of consequence.

Our comrades are giving their lives that we may have the heritage of a world, free, clean, and fit to live in. How will we handle the trust that will be left in our hands?

The eyes of the world are upon us. We, who must take the places of those who go, cannot shirk the responsibility. We will succeed inasmuch as each person takes upon himself his share of the burden. We are expected to succeed. We cannot fail!

UNIVERSITY UNION IN FRANCE SENDS REPORT OF ACTIVITIES

Continued from page 1.)
carols by British choir boys, and a New Year's supper. Under the auspices of the Technology Bureau, an illustrated lecture on Light Railways in the War was given.

In November a formal French reception was given to which were invited the leading officials and professors of education and university circles. This was largely attended and was highly appreciated by the Parisian guests. Through informal dinners, social gatherings and committee meetings, the Union has already become an attractive common meeting ground of French and American educators and men of letters.

A very successful feature has been the Saturday afternoon teas, open to ladies. Each Saturday a hostess assumes charge and secures a dozen or more ladies to assist her. Mrs. James H. Hyde, Mrs. Robert Bliss, Mrs. Theodore Roosevelt, Jr., Miss Martha McCook, Madame Borel and Mrs. William G. Sharp have thus far been the hostesses.

(b). The Library Committee has received various important gifts, especially through M. Firman Roz, of the Ministers des Affaires Etrangères, in particular, an admirably chosen set of the French classics, presented to the Union as a Christmas gift. M. Petit Dutailh, director of the Office National des Universités et Ecoles Françaises, has informed us that the Union is to be the recipient of a further collection of between 150 and 200 volumes of French literature. M. Camille Flammarion has presented a valuable set of his works. The Yale University Press has recently presented to the Union a valuable collec-

tion of some fifty of its important publications in various fields. Other gifts have been made by societies and residents of Paris, and the Union has now an excellent library of representative works in French and English.

On the first floor a large bedroom has been converted into an excellent quiet reading room and writing room, with an open fire. Here are now kept the illustrated magazines and journals, while the newspapers are on file in racks in the lounge on the ground floor. This arrangement has greatly improved the facilities of the club.

SOCIETY

K. D. N. to K. K. G.
Kappa Delta Nu has issued invitations for a ball to be given at the Masonic Temple, Friday night, in honor of the newly installed Gamma Beta chapter of Kappa Kappa Gamma. All Greek letter men and women of the city and University have been invited. The affair promises to be one of the most distinctive of the school year.

IN HONOR OF MISS LONG.

Friday afternoon Miss Annette Weinman was charming hostess at a progressive five hundred party at her home on West Copper avenue. The affair was given in honor of Miss Kathleen Long, who left Sunday to take a position in the war department in Washington, D. C. Prizes were awarded to Miss Evelyn Long and Miss Katherine O'Reilly. The guests were: Misses Kathleen Long, Lucille Kahn of New Orleans, Florence Weiler, Anita Hubbell, Helen Vincent, Louise Bell, Katherine O'Reilly, Malo Dick, Hazel Hawkins, Lois Davis, Lillian Kempnich, Evelyn Long, Evelyn Trotter and Isabelle Silverman.

MYRL HOPE TO WED.

Miss Myrl Hope, prominent Varsity girl, will be married this Saturday night, April 20, to Lieut. Arthur Sisk of El Paso, formerly of Albuquerque. The ceremony will be performed at the Presbyterian church by Rev. Hugh Cooper.

It will be a simple wedding, to which only relatives and intimate friends have been invited. The bride and groom intend to make their home in El Paso, where Lieut. Sisk is stationed.

Miss Hope has been one of the most popular girls at the University the past two years, and she has a host of friends who wish her happiness.

LOCALS

Herbert Hickey has received his appointment in the Bureau of Animal Industry, and will leave in a day or so.

Word has been received that Harold Sellers, formerly a University student, has been commissioned a first lieutenant. Sellers was with the New Mexico troops at Camp Kearney, as top sergeant when he received the commission.

Robert Sewell, who was to have taken part in the annual play, expects to leave for Camp Funston about April 25.

Carlton Clark and "Punk" Phillips have quit school to enlist in the engineering branch of the army. They will leave about April 26.

Allen Bruce, an alumnus, has enlisted in the army, and will leave about April 24.

Hiram Herkenhoff, former Varsity student, will enlist in the navy about May 1.

Harold Blickenderfer was up from Gallup for a short visit last week.

A TROUBLESOME RULING.

A new and somewhat radical rule has been adopted by the University this quarter, in refusing to allow students to carry more than seventeen hours' work, or eighteen hours if their previous work has been of G rank. The reason stated was that too much work has been permitted in times past, with the consequent lowering of the school's national standing.

Every one of us wants the school to stand high in rank in comparison with the schools all over the country, and we wish to do nothing to lower such ranking. But some think that the rule just adopted is somewhat arbitrary and needlessly exacting, seeming to be an attempted "curall" working to the great disadvantage of many earnest students.

No discrimination is made between students who carry outside work and those who are able to give all their time to their school work. This is a most important thing to consider, yet no notice of it is taken.

ALUMNI DIRECTORY.

An alumni directory of the University is now ready for distribution. It contains a brief statement of positions held and the special work done by all the alumni of the institution, and the names of all who finished the commercial and educational departments. There is also included a list of all the members of the board of regents and of the faculty from the organization of the University in 1892. The work of this valuable record has been most carefully and faithfully done by Mr. Joseph R. Rosenbach of the class of 1917, who is now an instructor in mathematics on the U. N. M. faculty.

Mr. Rosenbach was greatly handicapped in his work by the fact that authentic records of some of the students in attendance ten or more years ago were in some cases unobtainable.

ENTER GOVERNMENT SERVICE.

Miss Kathleen Long and Miss Evelyn Trotter have departed for Washington, D. C., where they will take up clerical work in the civil service department. They thought that entering government service to take the place of men gone to the army was the best way in which they could help win the war. Both girls took the examinations some time ago, but only received appointments within the last month. Miss Long has completed her course in the University, graduating at the termination of the last quarter. Miss Trotter was previously enrolled in the institution in the college of liberal arts.

DO YOU KNOW?

The girl who thinks she is the whole works in the vamp business?

The married man, who wanted to meet the married lady, and did it?

The girl who received the big box of candy this week by proxy?

The dark scandal in the girls' dorm?

Why the girl won't take her knitting about with her?

The chap who had to have the girl "fork up" her own street car fare?

The girl "who has such a fashionable touch" for a fact?

That the Grotto is becoming more popular than ever before?

The petite blond who wears such good looking clothes?

The fellows who are leaving for the army soon, who will be missed?

The boy who has been chosen to take the place of the one who is going to the army?

The girl who can't make up her mind which of four men she will marry?

The Hokona girl whose favorite colors are pink and blue?

About the wonderful new racer that has been racing about the campus?

Play practice was called off on account of "Mary's Ankle" — she sprained it?

That we are growing prouder and prouder of our University boys?

That there are patriotic girls as well as boys in the Varsity?

The "company" at Hokona last week who was enjoyed by all the girls?

That there will be more than two conservative girls on the hill when the conservation class is ended?

Who has bought the Grotto?

That Hokona girls have surely been stepping out lately?

CAMPUS IMPROVEMENTS.

Frank Anderson, who is in charge of the work which is being done at the University, has started his men to work on an asphalt pavement which is to replace the old brick pavement around the fish pond. Mr. Anderson says that the new pavement will extend all the way around the pond and will be wider and higher than the old one. As soon as this pavement is finished there will be no doubt some more constructed in places where they are needed.

Mr. Anderson is not yet satisfied with the condition of the roads and walks about the University, but he says that since the authorities have furnished him with a new road sprinkler and many new implements to do road repair work with, he will soon have the roads in a condition to boast of. Under Fetzer's direction, the forms are being placed for the new cistern, and the workmen will begin pouring the concrete next week. This new water supply system will be in operation in the next two weeks is the belief of those in charge of the work.

"UP IN THE AIR."

Practices have been going on with more or less regularity the past week. Several new songs have been written, among them being the Cliff Dwellers' song, a solo to be sung by Estelle Harris, and a new chorus.

The best description of the play that we have heard was by an outsider who saw one of the rehearsals. It is:

"Take the comedy away and it still is a good musical; take the music away and it is still a good comedy, and the combination of the two will not be forgotten by any who sees it for many days."

Chester Boldt has been placed in the Tin Guard chorus, to take the place of "Punk" Phillips, who is leaving for the army.

Work on the scenery for the play is being pushed rapidly. The scenery was designed by Miss Hickey and Lina Fergusson, and is being made in the University shop. University students will paint it.

Mr. Scotti has been putting the "Hay Fever" chorus through some new steps this last week.

OVERSTREET BUYS "GROTTO."

Earl Olds, who has had the "Grotto" all this year, has sold out to Frank Overstreet, who took charge Monday. Mr. Olds is going into the service and expects to leave in the very near future. "Swede" has been in the University for nearly seven years, having done all of his prep work and completed his college course to the junior year here.

Mr. Overstreet is planning to remodel and re-stock the "Grotto" this week, and to hold an opening Friday.

DEBATING.

Once again the call for debaters has been issued. But this time the answer has been very weak.

In three weeks the debate with Arizona, if there is to be one, will take place. In two weeks the preliminaries to determine the team will take place. It is time for those who intend to enter this debate to get to work.
