## VARSITY STUDENT JUST BACK FROM FRANCE FATALLY SHOT

Accidental Discharge of Revolver  
Causes Death of E. Carlton  
Clark, Within Six Hours  
After Wound Is Re-  
ceived.

Corporal Carlton Clark, 22 years old, son of W. S. Clark, terminal railway agent at Deming, just returned from seven months service in France, died Sunday afternoon at 6 o'clock as a result of a wound received from the accidental discharge of a 45-calibre revolver at 11 o'clock Sunday morning, which was jolted out of its holster when the machine in which Clark, together with a number of students, were riding near Tijeras canyon.

Clark received his discharge from an engineers' corps a few days ago and returning to Albuquerque, registered at the university last Tuesday. A party of four students left the university about 10 o'clock Sunday morning for a trip through Tijeras canyon. The car in which they were riding was a small roadster, and while three of the party rode in the front seat, Clark was sitting on a box back of the front seat an din front of the gasoline tank.

"Perk" had just replaced the gun in its holster after shooting at a crow, when the machine went over a deep ridge in the road and the jolt knocked the revolver from its holster with such force that it was discharged. The bullet entered Clark's hip and, taking a diagonal course through his abdomen, penetrated almost to his heart.

The injured man was rushed to Selva's home in the mouth of the canyon where first aid was soon given him by a local doctor, who was called. Clark was then brought to a hospital here by an ambulance and although operated upon within a few minutes of his arrival, died without regaining consciousness from the anaesthetic.

His father was notified of the accident immediately after it occurred and came on the first train, accompanied by the sister of the deceased. They arrived on the Monday morning train, twelve hours after his death.

A short funeral service, at which the Sigma Chi fraternity, of which Clark, was a member, presided was held in French's Parlors Monday evening. The body was shipped to Deming the same night; both the father and sister accompanying it.

As a token of respect to the deceased, classes were dismissed Monday afternoon. The student council met, and drew up a set of resolutions upon Clarks death. It follows:

Whereas, It has been the will of the Almighty, who knoweth and doeth all things well, to take from

## STUDENT COUNCIL GUESTS OF CHAMBER OF COMMERCE

Monday evening at the "Forward, Albuquerque" banquet, at the Y. M. C. A. the Student Council of the University of New Mexico, were guests of the Chamber of Commerce. Secretary Leopold and Registrar Williams were responsible for the university being thus represented.

To the council the most interesting part of the meeting, was the announcement by Mr. Ostreich, president of the Chamber of Commerce, that the organization would strive to get into closer touch with the university. He stated that it was their purpose to use the resources of the university more, and to have the university count upon the Chamber of Commerce, for whatever help could be rendered.

Those present at the banquet were: Allie Atkinson, Eleanor Anderman, Anne Cristy, Mayme Hart, Ernest Hammond, John Scruggs, Perkins Patton, Chester Boldt, and George Gentry. Coach Purdy, and Registrar Williams and his wife were also present.

## WEEKLY WEATHER REPORT.

Highest temperature 75 degrees on 12th and 13th.

Mean highest for week 63 degrees.

Lowest temperature 30 degrees on 9th.

Mean lowest 38 degrees.

Lowest humidity 14 degrees on 14th.

Mean humidity 54 degrees.

Precipitation for week (on 8th and 9th) .54 in.

Maximum velocity of wind, on 9th miles per hour 54.

Three days clear; 2 cloudy, 2 partly cloudy.

For week ending April 14th.

us one of our fellow students, E. Carlton Clark; and

Whereas, the student body of the University of New Mexico has lost by the death of E. Carlton Clark, one who has done honor to his country and our University, therefore, be it

Resolved, That the student council on behalf of the student body of the University of New Mexico extend their deepest and most sincere sympathy to his bereaved family. And be it further.

Resolved, That a copy of these resolutions be sent to the family of E. Carlton Clark; that they be published in the U. N. M. Weekly; and that they be recorded in the minutes of the student body.

For the student body:

Ernest Hammond,

Anne Cristy,

J. M. Scruggs,

Allie M. Atkinson,

Eleanor G. Anderman,

Chester C. Boldt,

Mayme B. Hart,

Perkins L. Patton,

George Gentry,

Student Council.

## DEBATERS CHOSEN TO MEET TEXAS "U"

Gentry and Morris, Both Members of Team Which Met Cruces, Are To Debate May 8th.

On the evening of Thursday, May 8th, the university will debate the university of Texas, at this place. The question for debate is, "Resolved, that the Federal Government should own and continue to operate the railroads." New Mexico, represented by Clyde Morris and George Gentry, will uphold the negative.

This is the first year that these schools have met in debate, and the contest is looked forward to with a great deal of interest. The Texas team, composed of Henry L. Taylor of San Antonio and R. C. Coffee of Big Spring, is one of several teams put out by that institution, as they are debating Oklahoma, Colorado and Utah at about the same date. Both teams are entirely an unknown quantity to each other. Gentry and Morris were on the recent Cruces debate and can be expected to make a good showing for this school. They are being coached by John F. Sims, an Albuquerque attorney.

New Mexico got a place on the Texas schedule owing to the failure of Arkansas to meet them, as they had planned. It is expected that arrangements will now be made for annual debates between the schools at Albuquerque and Austin.

## ALPHA DELTA LEADS MEN'S FRATERNITIES IN SCHOLARSHIP

In the scholarship records for last quarter just made public, the Alpha Delta fraternity leads the men's fraternities with an average of 79.3, Pi Kappa Alpha comes second with an average of 78.2, while Sigma Chi is third with 76.1. The grades for the girls organizations have not yet been compiled, owing to a late examination which some of the girls took.

In determining the average, the office went on the following basis: S equals 97; G equals 90; M equals 80; W equals 72; I or X equals 60; F equals 40. The grade made in the course was multiplied by the number of hours in that course. All the courses that a student was registered in were treated in the same manner the results added, and divided by the total number of hours. The grades of pledges were not counted.

## SUNDT IN FRENCH UNIVERSITY.

Thoralf M. Sundt of Las Vegas, a former University of New Mexico student, is taking a special course in engineering and architecture under government supervision, in the University of Toulouse, France, according to word received here. Mr. Sundt is a member of the Twenty-fifth engineers.

## Y. M. C. A. ALL STARS LOSE TO VARSITY IN GAME LOOSELY PLAYED

Saturday Afternoon, Contest One Sided; Other Games Being Scheduled for Future.

Sixteen to 0 and the first half of the seventh inning began before the All Stars scored their first points in the game with the university team on the university athletic field Saturday afternoon. In this inning they made three runs, the only points that they scored during the whole game and held their opponents score at 16 during the rest of the game.

The All Stars having an insufficient number of men to make a team, used some of the university players. Among those were: Short, Wilkinson, Olds, Huffine, and Patton.

The line up for the game was:

University	All Stars
Steed	.....c..... Martin
Culpepper	.....p..... Lovato
Thomas	.....1..... Stafford
Moore, H	.....2..... Olds
Moore, C	.....3..... Huffine
Gentry	.....s. s..... Wilkinson
Burney	.....1. f. .... Short
Sganzini	.....c. f. . . . . Zaring
Morris, C	.....r. f. . . . . Stubbs

Games are now being scheduled with teams in the city to form the baseball league. The university team plays the Indian school on the Indian school athletic field at 3:00 p. m. Saturday and the university should be represented with a crowd of rooters for the Alma Mater. The varsity is developing a team but very few rooters. Some are prone to root the wrong way. Come out and show the natives of America that there is a university in the city of Albuquerque.

A game may be scheduled with the R. O. P's for Thursday night on the campus after supper. There shouldn't be any necessity for the putting out of a "want ad" for rooters at such a game as this at such a time as that.

We may go to meet Belen or have them come and meet us if a game can be scheduled with them. Other games are being obtained and it is up to the students to see the team thru as winners and give all the encouragement possible to the players. Show them that you are behind them in the fight.

In the absence of Prof. Partridge on account of illness, Dr. McFaden of the history department, is looking after his classes.

Miss Helen Vincent, a popular senior, who finished up her four years course last term, has gone to Boise City, Idaho, and will receive her diploma at commencement heason.

WEDNESDAY, APRIL 16, 1919.

AND YOU SEEM TO BE SATISFIED!

If the people in attendance at his university never show any more signs of life after they get out of school and into the business world than they are showing just now, very part of the world will move very slowly indeed.

We might just as well face the proposition squarely and admit that we are showing as little life and interest as is possible for human beings to show. Yet most everybody seems perfectly satisfied to be letting things drift along and take what course they may.

It is mighty easy to stand back and criticize the school, the profs, the coach and what not, and lay the blame for everything upon them. In fact that is just what all too many are doing—sitting around gossiping about the shortcomings of people, who themselves are trying to accomplish something but can't because of these same people who are pillars of indifference and downright laziness.

Tell us what the student body has done that it can be proud of. You can't do it. Neither can we. Nobody can. Yet you're perfectly happy, eating three meals a day sleeping on a bed, and passing or flunking, it evidently makes little difference which. You are coming to school approval instead of forcing it upon you supposedly for an education, then you cut half your classes and cuss the prof for flunking you. You make a big noise about athletics, and then neither go out for them or to see them. Perhaps one-fifth of the student body attended the first baseball game of the season. You go to assembly about half the time and sing college songs as if they were church hymns. The dormitory men attend the "Y" luncheon because they are hungry, and the especially well-bred ones show their manners by walking out as soon as their stomach has been fed. The majority of down-town men never even take the trouble to come up. All the fellows are perfectly willing to use the athletic equipment furnished by the "Y" and to enjoy the hut, but very few are men enough to pay four bits dues asked them. You would rather get out on the tennis courts play ping pong or not play at all rather than get up enough ambition to chalk them. For what's the use? Make the school or the coach do it! The men vote unanimously for an R. O. T. C. and then begin crabbing about it and go out to shoot craps while the class is in session.

Now these specifications do not include everybody. There are a few

who realize what they are here for and are working to accomplish that purpose. But there are very few who are not included in one or more of the above classes. It is disgraceful, but true nevertheless.

And conditions will not change until the students realize just in what state things are, and remedy them. The president, the faculty nor the heavens and earth could change them alone. It rests upon the students to make what they will of themselves and their school.

## LAB. FEE INJUSTICE.

It seems hardly reasonable for one to complain of laboratory fees at this institution, where the cost is practically negligible. Yet there is such an unreasonable similarity in the charges under each department, notwithstanding the difference in equipment, as to be quite noticeable.

The chemical and biological laboratories are completely equipped, and one would not hesitate to say that it would be reasonable to increase the rates, if necessary. The equipment in the psychology lab, however, is exceedingly scarce and for between, in fact one would wonder if a good-sized gold piece wouldn't pay for the whole lot. And yet, the rates are exactly the same for each department.

If the idea is to get a little revenue at a flat rate, regardless of value given, then the present system gains that result. If there is any purpose of basing the charges on real value and worth, then the plan is anything but serving the right purpose.

## R. O. T. C. FOR EVERY MAN.

The R. O. T. C. unit has been established. The commandant is here and on his job, and from all appearances will make a success of it.

The work will be compulsory for all physically-qualified male students. That is only practicable and reasonable, for they themselves twice voted unanimously in favor of the plan. In that connection we wish to commend pliment whoever was in charge of the details. He had the men give their them, thereby shifting the responsibility. His middle name should be Diplomacy.

As one would naturally expect, a few have seemingly decided that they should not take the work as they fail to appear at class-time. There are always a few who are too busy to meddle with such unimportant details; besides, they know enough without it.

If the course is compulsory for one, it must be for all. The captain has stated that he will allow three cuts only; more will mean flunk. This, however, does not prevent a man's never appearing, for he could up. All the fellows are perfectly technically out of it. Doubtless a ruling in regard to this will be made soon. It should be made strict enough to be workable, and should be used without hesitation.

Nothing will kill the spirit of the majority of men, who are interested, more quickly than to see a few fellows slipping by without it. So let's see that every man in school who is physically qualified is taking the training. That's what the men voted for, and that's what they want.

Henry the Varsity Baggage man. Phone 939.

## UNINTENTIONAL HOOVERITE.

Wife (returned from overnight visit)—

"Did you get yourself a good dinner last evening, dear?"

Hub—"Yes, there was a bit of steak in the ice-box and I cooked it with a few onions I found in the cellar."

Wife—"Onions? Jack, you've eaten my bulbs."

## NEW STRING A STRINGLESS BEAN.

Pete Dink was showing his thrifty bean patch to his wife.

"You'll have to get some poles and run strings on, them so they'll have something to grow on," suggested Mrs. Dink.

"Not these beans," retorted the war gardener. "They're stringless beans."

## SOCIETY

## PI KAPPA ALPHA DANCE.

Friday night at the Woman's Club, the Pi Kappa Alpha Fraternity entertained with a dance in honor of Lieutenant and Mrs. Chester A. Lee, just returned from France. Lieutenant Lee is a Pi Kappa Alpha from the local chapter, and has seen 18 months overseas service. While in France he met and married Miss Louise Klein, a Red Cross nurse.

About thirty couples were present, and danced from 9 o'clock until the early morning hour. Punch was served throughout the evening. Lieutenant and Mrs. Lee, and Lieutenant and Mrs. Howard acted as chaperones.

Those present were:

Misses Francis Bear, Anne Harris, Clair Bursum, Maratha Borgerding, Annette Jacobson, Stella Jacobson, Katherine Angle, Clara Cavanaugh, Katherine Goss, Helen Darrow, Clyda Wilson, Margaret Lee, Maurine Reiman, Katherine McMillen, Evelyn Hunt, Jewell Hubbard, Ruth Kidd, Dorothy Cleve, Dorothy Ohmart, Pearl Hayerford, Allie Atkinson and Mrs. Howard.

Messrs. Chester Boldt, Perkins Patton, James Chess, William Sganini, Carl Moore, Thomas Bunn, Charles Cuipepper, Ted Pate, Donovan Richardson, John Meyers, Ralph Meyers, Birch Foraker, John Scruggs, Mr. Walker, Mr. Trenchard, Horace Steed, Lieut. Tom Brown, Frank Steed, Lieut. Jerome Howard, Bob Hopewell, Fletcher Short, Ernest Hammond, Willard Hopewell, Frank Nehr, Loyd Kellam, Sergeant Reed, Lieut. Floyd Barton, Bill McDonald and Fred White.

## PHI MU OPEN HOUSE.

With their chapter house beautifully decorated in rose and white and illuminated with candles giving off rose and white shades of light, Katherine Angle and Wenonah Dixon, members of the Phi Mu sorority at the university, entertained about 75 varsity students with an open house from 4 to 6:45 Sunday evening.

The guests were favored with a solo from Miss Estelle Harris, a former student of this institution, who is visiting with her sister, Anne, at the Kappa house. Miss Estelle Harris was a member of the university opera chorus of last year. Other musical selections were given by James L. Wait also a member of last year's opera chorus.

The closing feature of the entertainment was the serving of sandwiches and tea.

## MIDDY DANCE.

On Thursday night the Y. W. entertained with a "middy" dance in Rodey Hall. It was a gay affair where half of the girls came in men's attire—dressed as sailors, soldiers and civilians. Lloyd Kellom was at the piano and Miss Hickey chaperoned. Those who acted as men were: Maratha Borgerding, Anne Harris, Mable Goss, Maude Rodney, Dorothy Stevenson, Flora Marshall, Evelyn Hunt, Margaret Lee, Flora Marshall, Winona Dixon, Trix Black, Helen Darrow, Mary Sands, Frances Bear, Annette Jacobson, Stella Jacobson, Elizabeth Lord, Marion Spicer, Modene Bates, Flora Chess, Lucille Makin, and Louise Clark. The girls present were Allie Atkinson, Claire Bursum, Katherine Keleher, Katherine McMillen, Pearl Hayerford, Ruth Kidd, Dorothy Cleve, Mayme Hart, Betty Arnot, Rebecca Skepwith, Joy Spruce, Bobbie Johns, Amy Mervick, Tonchita Perez, Dorothy Ohmart, Misses Oakley and Hickey.

## PERSONALS.

Miss Julia Doran, of Chicago, has registered for work in the university. She has attended Northwestern University in Chicago.

Miss Estelle Harris, a last year's student, prominent in musical circles has registered for work this quarter.

## DR. CLARK RETURNS.

Dr. J. D. Clark, head of the department of chemistry, has returned after ten days absence, during which time he attended the annual meeting of the American Chemical Society at Buffalo, N. Y.

While there, the chemists were allowed to visit many plants, never before opened to outsiders. Chief among these were the Aniline plants, only constructed since the beginning of the war. The chemists were guests at a number of events given in their honor, among which were automobile rides, a visit to Niagara Falls, and a smoker.

At the assembly held Tuesday morning at 10 o'clock, he briefly related some of the rapid strikes made by American Chemists in the manufacture of explosives, and of aniline dyes. He stated that in two years they had made as much progress in these lines as the Germans had in the past 40 years, and that American plants are now manufacturing dyes the equal of any ever produced in Germany.

The last part of his speech was devoted to a description of the amusing incidents occurring at the smoker, where they had various devices to test a man's intelligence, his sense of smell, feeling, etc. This provided a whole evening's entertainment he said.

**WANTS NO ARTIFICIAL PROOF**

**Believing Christian Can Entertain No Doubt Concerning the Resurrection of the Savior.**

To the normal mind there can be no compromise, writes H. Lee Mills in the Houston Post. If Christ did not rise from the dead, the most gigantic fraud in the history of the world was perpetrated and every minister of the Gospel is either a conscious or a deluded "faker." If there was no resurrection, the whole missionary propaganda is foolish and a failure and evangelize and "Barnumize" become synonymous terms. Does the history of Christian missions, from the first to the twentieth century savor of fraud, or even of delusion? The command to evangelize all nations was given after the resurrection.

After all the arguments have been marshaled before human reason for or against the return of Christ in the glorified body, the question of does Jesus live can be answered by the believing Christian without artificial proof. If like Paul, he knows whom he believes, doubts about the details of the event of the resurrection do not concern him.

**The Hare and Easter.**

The origin of the Easter rabbit is unknown. There is a German legend to the effect that the hare was originally a bird and was changed into a quadruped by the Goddess Ostara, and in gratitude to Ostara, or Eastre, the hare exercises its original bird function to lay eggs for the goddess on her festival day. The children among the Pennsylvania Germans are told on Easter morning that this "Oshter has" laid the colored eggs that are given to them, or which are placed in nests at some convenient place for the children to find them.

**TENNIS PLAYERS URGED TO COME OUT**

"The Tennis club hasn't done anything," said coach Purdy speaking of the tennis activities of this year. Roswell Military Institute has asked that the university send two men to Roswell to play in a triangler game with them and the Aggies. If enough spirit is shown two men will be sent to play off the games but it must be real spirit. The men that go must show that they are really in interest according to coach Purdy.

"I'm ready at any time in the mornings and up to three in the evenings to help coach tennis," said the athletic director speaking of the assistance that he could render the tennis players. Its purely up to the players is his way of putting it. What are we going to do?

"This season is different and we will have to know what we have before we schedule games," continued Mr. Purdy speaking of the possibilities of getting games for those that come out for tennis. For those that come out to play and make good there will be plenty of games scheduled.

This is not a boy's tennis year either. Girls can make good also and it is also up to them to make good. For those

of the girls that make a showing games will be scheduled and a tournament formed with different teams in the city for both the boys and the girls.

**GIRLS' TRACK.**

A meeting of the girls who have not credit enough to remove physical education requirements will be called at 1:30 Wed. at which time those who want to go out for track will be allowed to do so. At the present there are about six out for the track meet that we were intending to pull off the last of this month or the first of next month. That is not enough to make a real success for the game so put on your old grey bonnet and without the ribbons on it come out and run a mile or more.

**PERILS OF GARDENING.**

"Come out and help me," the war gardener called to his wife.  
"Oh, dear, I can't," was the reply.  
"Working in the garden don't agree with me."  
"What's the matter? Does your back pain you again?"  
"No, but I got a freckle last week."
