## Varsity Nine Victors in Baseball Game

First Game of the Season With the Socorro Miners Results in Varsity Victory by Score of 9-8.

The Cherry and Silver nine invaded the field of the enemy at Socorro last Saturday in a baseball game, and took their first game by the score of 9 to 8. The team left Albuquerque Saturday morning in two cars, arriving in Socorro before noon, and by the time the game was called in the afternoon they were beginning to get straightened out and ready for business. The field proved to be a veritable rock-pile, and one of the fielders reported he threw out about forty tin cans before he attempted to play baseball. The Varsity diamond is nothing to speak of, but from all reports it is in excellent shape when compared with the prairie played on Saturday, which, however, was out the regular Socorro diamond, but one used as a makeshift to accommodate the town people.

In spite of little practice before going to Socorro, and the difficulties presented by the field, the Varsity men entered into the contest with lots of energy, and showed that the University has a good chance at a champion baseball team. Cartwright pitched excellent ball, and a great part of the victory was due to his steadiness, and ability to make the Miners wonder if there was a hole in their bat. Greenleaf did good work behind the bat, and though a number of errors were made by the infield, the playing on the whole was excellent, considering the amount of practice the Varsity men had undergone. Socorro evidently anticipated an easy victory, having already won three games this season, but they went into the contest with a determination to fight hard equal to that of the University. The game was interesting from start to finish, and all sorts of thrills were furnished by football tactics, men being knocked unconscious, etc., and the Varsity aggregation came back thoroughly ready to tackle the routine at the University after a pleasant diversion.

At the end of the first inning the score stood two to nothing in favor of the Miners, but during the second inning the Varsity ran in three scores and Socorro one, leaving the two teams tied at the beginning of the third. Two more runs were made by the Miners in that inning, and the score was tied again by the Varsity in the fifth inning. In the sixth two more runs were brought in by the latter, making the score seven to five in favor of the University. It was not until the eighth inning that any change was made in the runs, but

## Eligibility Rules for Varsity Revised

Committee Appointed by President Makes Report, and New Set of Rules Adopted for Eligibility

The following are the eligibility rules which were drawn up by a committee representing the faculty, alumni and students after much careful thought and consideration, and which were approved by the president of the University:

Report of Committee on Rules for Eligibility.

This committee recommends:

1. That the eligibility rules of the Rocky Mountain Conference, as given on pages 8-11 in the Constitution and Rules of the Rocky Mountain Faculty Athletic Conference, be adopted for the University of New Mexico, with the amendments and interpretations to Article 1 as given below.

2. That the Registrar be made a member of the Committee on Eligibility.

(Continued on page 3.)

## McGough on Trip

Coach John McGough has returned from a trip through the southern part of New Mexico and the northern part of Texas in the interest of the University, and arousing interest in the coming interscholastic track meet. He made stops at several high schools, giving talks on physical education, and reports a great lack of men teachers in the high schools throughout the state. For this reason some of the schools are without coaches, but present indications point to close competition for honors in the state meet, to be held this year May 7 and 8. No single team has so many individual stars as in former years, but more developed whole teams are being turned out than heretofore, and the competition will probably be keener this spring than ever before.

Albuquerque High will be an important contender for honors, and strong teams will also be entered from Clovis, Roswell, Las Vegas, Raton and Santa Fe. The encouraging thing about the meet this year is that reports have been received from a number of small high schools all over the state to the effect that teams will be entered by them this time in hopes that larger and more formidable aggregations can be sent in after years. Though these schools will probably not win the cup offered as a trophy, yet they may turn the whole result of the meet one way or the other by taking a number of unexpected events. The general attitude of the high schools indicates a growing interest in the State University, which means more students next year and a bigger and better U. N. M.

## City Track Meet Next Saturday

Arrangements Completed for the Contest Between Varsity Freshmen and the City Schools Saturday Afternoon.

An all-city track meet is to be held on the Varsity athletic field Saturday afternoon, May 1, at 2 P. M., according to the announcement made by Coach John F. McGough and G. J. Kiss, Manager of the University track team. The schools which will be represented in the meet are the Albuquerque High, Menaul, and Indian schools, and the University Freshmen.

An admission of twenty-five cents will be charged every one attending the meet, and the funds will be used to purchase material which is needed badly by the track team, and to put the track in still better shape. The field is in fairly good condition after the grading and cinderling of the 220-yard dash has been completed. The pits and take-offs for the broad and high jumps and the pole vault are being worked on, and the whole track and field will be in excellent shape by May 7 and 8, when the high schools from all over the state meet in the annual contest on the Varsity grounds.

The track meet Saturday will afford an excellent try-out for the athletes of the various city schools as well as the Varsity. The University men have been training hard and regularly for the past several weeks, and they are expected to hang up

(Continued on page 4)

## Musical Comedy

"Hey, break that clinch, and let's have a little more action," says Joe Scotti in the first five minutes of the Cabarabian Nights. The two principals concerned break the clinch and the play proceeds.

From two to five hours every day are spent getting the play into shape and although Miss Hickey finds it necessary to quote Shakespeare occasionally to relieve her feelings and still remain genteel, the play has every prospect of being a success. Everybody in Albuquerque knows Scotti's ability at whipping choruses into shape, and especially shapely choruses into shape, and the mere fact that he is directing the comedy is pre-written proof of its promise of success. Albuquerque knows Kellam as a jazz producer, so that is sufficient guarantee that the music will live up to the highest expectations of the most enthusiastic jazz hound. The staunchest Methodist feet on the hill are being tickled, so we simply warn Albuquerque to be on the lookout for some pretty lively stuff in the CABARABIAN NIGHTS.

## Assembly Held Friday in Rodey

Coach McGough Gives Report of Trip Through State; Dr. Raper of the University of Indiana Makes Interesting Talk.

Friday assembly proved to be one of the most interesting of the year from an educational viewpoint, when Howard R. Raper, D.D.S., spoke on "You and Your Teeth."

Dean Clark presided over the meeting, the program being opened with a selection by the Girls' Chorus. Miss Dorothy Cameron then completed the musical program with a delightful violin solo, which was greatly appreciated by the audience.

Coach McGough was called on by the presiding officer, and told of his recent trip to many of the schools in the southern part of the state, giving them talks on physical education, and extending to them an invitation to the track meet to be held at the Varsity. The Coach told us what was expected of us when the high school people arrived.

The principal speaker, Dr. Raper, was then introduced, and gave a most interesting illustrated talk during the next half hour. Dr. Raper's talk was filled with witty remarks, and he held the closest attention of his audience during the entire time, while he drove home the facts about our teeth.

According to the speaker there are four stages of dental decay or disease: First, the decay of the enamel or covering of the teeth; second, the cavity eats into the nerve, thus causing toothache; third, the disease leaves the tooth and goes into the bone; fourth, the disease spreads to all parts of the body. Every human being is a coward in the last analysis. That is why we buy insurance, and some men fear their wives. The real truth is that everybody is afraid of the dentist.

The only way to save your teeth is to select the dentist with as much care as the family physician is chosen, and make regular trips to him. Old methods of treatment of the teeth are extremely dangerous, and the dentist is in a position to do as great good or harm as the doctor. The modern surgical treatment is "infernally expensive," and no one likes to spend money on their teeth, but it cannot be avoided, and the most economical method is to go immediately to the dentist instead of waiting until a surgical operation is required.

In conclusion, "there is only one bargain in dentistry, that is the bargain of prevention. It is a great mistake to imagine that just any kind of dentistry will do or that any kind of dental or medical treatment is better than no dental or medical treatment at all. It may be true that any kind

## ADIOS.

As this is the last edition of the Weekly under the present editorial staff, the editor wishes to express his appreciation for the support given him who thinks it is try it for just one issue; yet there are some pleasant features attached to it.

Many times news is scarce and hard to pick up, but yet the editor is supposed to put out a good college paper no matter where or how he secures the items. The Weekly has developed a wide exchange circle this year, and we have tried to put out such a paper as would not cast reproach on our school. We recognize the fact that the Weekly ought to be enlarged, and we hope the next editor can see his way clear to give us a larger paper. But it takes money and lots of time to get out these larger college papers; some of the editors in other schools are paid a hundred dollars a month and given six hours' credit per quarter. As the editor of the U. N. M. Weekly gets what he can "rake and scrape," he should not be expected to devote his entire time to it. Any one who has ever been the editor of the Weekly knows how to appreciate the efforts of other editors, and can sympathize with them.

Yet we said there are some pleasant features connected with it: especially pleasing and encouraging are the words of praise and encouragement spoken to us by our fellow pupils, and by different members of the faculty; then, too, we contend that editing the Weekly is equal to any course in school when discipline is considered.

We ask the support of the entire school for the new editor: we feel sure that he will give us a clean, high-class paper, and one befitting the University. The next issue will be under the control of the Freshmen, and we may expect a bright, newsy edition.

Again we thank all the readers and contributors to the Weekly for their support during the past year, and wish good luck to the incoming staff.

But 30 of 47 Democratic senators obeyed Wilson to the end, the others being "Pigmy minded."

## ARE WE BUSY?

The following are the dates now on file on the weekly program:

May 1. Kappa Delta Nu party.  
May 5. Kappa Kappa Gamma at home hour.  
May 6. Debate, U.N.M. vs. Aggies.  
May 7. Interscholastic track and declamation contests.  
May 8. Interscholastic track and declamation contests.  
May 8. N. M. Club reception to interscholastic visitors.  
May 12. Kappa Kappa Gamma at home hour.  
May 14. Sigma Chi party.  
May 15. Track meet at University of Arizona.  
May 18. Cabarabian Nights.  
May 19. Kappa Kappa Gamma at home hour.  
May 19. Cabarabian Nights.  
May 20. Debate, U.N.M. vs. Colorado College at Colorado Springs.  
May 21. Alumni Association dance.  
May 28. Alpha Delta party.  
May 29. Alpha Chi Omega party.  
June 2. Kappa Kappa Gamma at home hour.  
June 5. Alpha Chi Omega banquet.  
June 6. Baccalaureate Services, the Right Rev. Bishop F. B. Howden, Albuquerque.  
June 7-11. Final examinations.  
June 11. Commencement, Prof. James W. Garner, Ph.D.  
June 11. Senior Prom.  
June 12. Sigma Chi Post Mortem party.

With all the above events taking place, Varsity people will have to use the utmost judgment in all things, for this undoubtedly is a tremendously heavy program for the remaining six weeks of school.

## INTERESTING ASSEMBLY HELD FRIDAY IN RODEO (Continued from page 1)

of trousers are better than no pants at all, but the wrong kind of dentistry may do more harm than good, and the wrong operation is the wrong operation, no matter how skillfully it may be performed.

"Dentistry has but one real message for the people, and the message is 'toothache is preventable, and you must not let your teeth ache.' When I give this message to older people than you, students of the University, I often feel discouraged, for I know the message has come too late. But with you, or the great majority of you, the message as I give it to you now comes in plenty of time. You are young, your lives are before you, and your mouths are in your own hands, so to speak."

## Varsity Nine Victors IN BASEBALL GAME (Continued from page 1.)

the beginning of the ninth inning found the University facing the necessity of bringing home two runs to win the game. This they did, the final score being nine to eight in favor of the Cherry and Silver.

The Varsity line-up follows:  
Holderness, first base; Gerphelde, second base; Swinney, third base; Gehtry (captain), shortstop; Whit-tier, center field; Hopewell, right field; Wilfley, left field; Greenleaf, catcher; Cartwright, pitcher; Mapes, McArthur and Boyd, substitutes.

The Socorro line-up is not available, but we hope that we may have the pleasure of meeting the Miners in another game some time in the future.

ELIGIBILITY RULES  
FOR VARSITY REVISED  
(Continued from page 1)

bility and act as its secretary.

Rules—Division 1—Eligibility.

Article 1—Residence and Scholarship.

In order to take part in any public exercise or game as a member of any university organization, or to act in any editorial or managerial capacity in connection with any form of student activity, a student must fulfill the following conditions:

Rule I. He must have completed fifteen units of preparatory credit.

Rule II. He must have been in residence for at least one-half of a college year. (Not in force until the male enrollment shall reach 200, and not then in competition with institutions not having a similar rule.)

Rule III. He must have been registered in person and regularly at work within two weeks of the beginning of the semester in which he is to participate, or he must have been registered and in attendance at least one month before participation.

Rule IV. He must be earning passing grades in at least eleven hours. No student registered for less than twelve hours may be considered eligible. In order to be eligible to take part in any athletic event he must maintain a passing grade in all courses in Physical Education in which he is enrolled in addition to the above.

Rule V. He must have obtained at least eleven credit hours toward graduation in the courses in which he was registered during the last semester during which he was in residence (including credit hours gained from official condition-examinations for which the regular fee has been paid), or, if he was registered for less than eleven hours during the preceding semester, he must have passed all courses for which he was registered. This clause shall not apply to Freshmen during the first term of their residence, but it shall apply to students obtaining advanced standing for work done at other colleges. (This rule shall not apply to students whose last term in residence ended previous to March 29, 1920.)

Rule VI. (Shall apply only to relations with the Rocky Mountain Conference.) He must, if he enters one conference institution directly from another conference institution in which he has participated in athletics, not participate until he has been in residence one year, and in case he has not participated, until he has been in residence one-half year.

Rule VIII. (Shall apply only to relations with the Rocky Mountain Conference.) In case a student enters a conference institution after a year has elapsed since he took part in intercollegiate contests in another conference, his case shall be treated according to Rule V.

Administration of Rules in Article 1. Above.

(a) As soon as possible after the opening of each semester, the Registrar shall notify each student of his status, according to Rule V. (A statement of the number of hours' credit earned during the preceding semester shall be ample notice.) Other persons interested, such as managers, captains and coaches, may

be notified of the status under this rule of students under their charge, on request.

(b) Each member of the Faculty shall report, on blanks provided for the purpose, to the Registrar, on the second Friday of each semester and on every second Friday thereafter, the names of such students as are not passing in courses under his charge. The Committee on Eligibility shall then determine the names of those not complying with Rules IV and V, and shall post on the principal bulletin board of the University, on the Monday following, a list of such names.

A student whose name appears on the posted list shall become ineligible beginning one week after the posting of such list, unless he shall have, in the meantime, presented to the Secretary of the Committee signed statements from his instructors, indicating that he is passing in the amount of work required by Rules IV and V, in which case his name shall be removed from the list. A student who has become ineligible, as stated above, shall remain ineligible until he has presented to the Secretary of the Committee signed statements from his instructors indicating that he is passing in the required amount of work, provided, however, that no student may thus regain his eligibility later than six days (144 hours) before the event in which he is to take part.

(c) The Eligibility Committee shall furnish, at the request of the director responsible for any intercollegiate contest, a certified list of those eligible to take part, for presentation to the officials of the opposing teams.

(d) These rules shall be posted in a permanent manner on or near the principal bulletin board of the University and in other conspicuous places and shall be offered for publication in the U. N. M. Weekly immediately after adoption and early in each semester.

(e) All rules in conflict herewith are hereby repealed, and the rules hereinabove set forth shall become effective two weeks after their approval.

April 10, 1920.

## EXCHANGE

Freshmen win inter-class track meet at Colorado Springs.

The faculty of the Tulane University has recently readmitted 450 Frosh who were canned for painting one of the Campus buildings "red." Of course, the paint had to be removed.

Owing to the great scarcity of doctors in Vermont, the Medical College of that institution has opened its doors to women students.

The students of the New Mexico Aggie College who belong to the Masonic lodge have formed a Masonic club and have made arrangements for purchasing or renting a house for the coming school year.

The University of Vermont has one graduate who has passed his hundredth birthday.

Simmons College is to have a New Arts building costing \$95,000.

In looking over the editorials of many of our exchanges we have noticed about three very important and interesting articles on College Bolshevism, or some such articles written under different names. From all of this we can see that New Mexico is not the only college with such a state of affairs affecting its college life. This seems to be merely an awakening, a determination to do something, a result of many years of sleeping or dreaming, which has swept through the minds of the younger people, always telling them to do something, both for their own benefit and that of their school. It is undoubtedly a good thing and tends toward an advancement.

### GEOLOGY TRIP TAKEN.

Saturday afternoon Prof. Ellis and members of the class in Historical Geology made a pleasant trip to the region about San Felipe. This little Indian village is situated in the center of an extensive lava formation, which at some remote time was considerably faulted, giving the region a peculiar aspect. The river at this point eroded through the overlying lava sheet and thence through the soft underlying formation, thus giving rise to the narrow valley. In addition to the natural beauty, this region offers many interesting unsolved geological problems.

Three cars made the trip, and the group in one car were convinced that there is more truth than poetry in the saying that Henry is the man who made walking a pleasure.

Those making the trip were Profs. Ellis and Leupold, Mary O'Loughlin, Katherine Keleher, Katherine McDowell, Burch Foraker, Harold Booker, Byrd Witten, W. Orange, Fritz Ward, Clifford Wolking, Fred Gray, H. K. Hunt and E. Burt, Jr.

Seventeen Democrats having been converted to the support of the Republican, Lodge, reservations, by debates in the senate, how many Democratic electors will be converted to Republicans by the debates on the

### CITY TRACK MEET TO BE HELD SATURDAY (Continued from page 1.)

some good records Saturday in anticipation of the meet at Tucson May 15. The local high school held an inter-class meet recently and some good records were made, while Menaul and the Indian school are expected to make the competition keen.

The following events will be held Saturday in the order given: 120-yard high hurdles, shot put, mile run, 100-yard sprint, pole vault, 440-yard dash, 220-yard low hurdles, broad jump, discus throw, 880-yard dash, javelin throw, 220-yard dash, running high jump, two-mile run, one-mile relay.

Every Varsity student should be on the field Saturday afternoon promptly at 2 P. M. to back the University Freshmen, for the local high schools will be well represented in rooters.

### CONVICTED OF GRAND LARCENY.

During the past few weeks a movement has been steadily growing in force, the aim of which is to cut the legs from under ole man HCL. This movement has arrived at the Varsity and is steadily growing in proportions. Many of the men are wearing denim. Some of our most prominent students are also wearing stripes because of the movement—striped overalls.

Now personally I am in favor of the overall movement, for though I don't think the buying of overalls would break the high price of clothing, still it is a step in the right direction. If we can break the spirit of extravagance which prevails in the United States in relation to dressing, then we will have broken the high prices of clothing. Now just put yourself in the place of a clothing dealer. If somebody came along and was willing to pay \$50 for a \$15 suit, wouldn't you be willing to sell it to him for the former price? Sure you would, and so would I. Then if the present scale of living demands that we wear the latest style of clothes, regardless of price, you may be sure the astute merchants are going to take advantage of our foolishness.

It is positively ridiculous the manner in which students in the United States have been dressing in the past few years. Finest cut of clothes and cloth has been the style throughout the country. Now I am as poverty stricken as anybody in the Varsity, and can't afford to buy three or four new suits per school year. My main concern is paying my board. But if everybody else is buying new clothes I have just few enough common sense and just a sufficient amount of false pride to attempt to dress as well as the next fellow. For that reason I am strong for the overall brigade.

Here is another side to the question also. In this idea it seems to me that it would be better stated not "to buy overalls" but "wear your patches." In my trunk and closet there are several pairs of old trousers which are in a badly patched condition. I presume several persons who wear trousers can say the same thing. Well, as long as we can coyly hide behind those patched trousers, it seems to me a foolish idea to buy new overalls. Let us change our slogan from "Wear Overalls" to

"Wear your old trousers till they won't stand being sat upon—then patch 'em."

Hooray for the old clothes club!  
Down with HCL!  
Patch till you can't!

T. V. C.
