ROSWELL HIGH SCHOOL WINS SECOND NEW MEXICO INTERSCHOLASTIC TRACK CHAMPIONSHIP

INTER-CITY TRACK MEET COMES ON SATURDAY

VARSITY, INDIAN AND MANUAL SCHOOLS WILL CLASH FOR CHAMPIONSHIP.

On Saturday afternoon, May 2nd, will be held the annual Inter-city Track Meet, between the University, and the Indian and Manual Schools, for the championship of Albuquerque. The meet this year promises to be close and exciting, as all three schools are training hard, and with good, added new material, as well as most of last year's standbys, it should be a hard-fought contest.

The O. A. Matson silver cup will again be on trial. If the Indian School should again win this year, it will become their permanent property, but the University and Manual School are determined that it shall not be won by the redskins again. The Indians have now won it two years straight, and one more win will give it to them.

None of the schools have as yet announced their entries, which will not be made until Thursday afternoon. However, the University will doubtless enter for the 100-yard dash, Matt Higgins and Joe McCanna; for the 220-yard dash, the same; for the 440-yard dash, Ira Boldt and Chet Lee, or Lee Claire Murphy; for the 120 yard high hurdles, Ira Boldt and L. B. Lackey; for the weights, Rex Brashear and Chet Lee; for the mile relay, Boldt, Lackey, Murphy and Higgins, etc. None of these conjectures are authentic, however, as the actual entries will not be made until Thursday.

McCanna and Higgins are doing excellent work in the dashes; Lackey, Boldt and Lee are up to their usual high standard, and Brashear is expected to do something with the weights.

All in all, the University feels that this year it has a good chance to revenge itself on its former conquerors, and in "scalping the Indians" and "cleaning the Manual" pave the way for the permanent possession of the Matson trophy, and a majority of the medals.

If the Varsity should win this year, a good line can be obtained on what it may be able to do with Cruces this year, when it goes down there for its dual track meet and baseball game, which takes place on Saturday, May, 23rd. The Aggies, "put it over" on the Varsity pretty badly last year but with more material and better training this year, the Cherry and Silver is hoping to spring a surprise on its old rivals, and come home bringing the bacon. Such is the hope and prayer of every loyal rooter for the U. N. M.

STRICT RULES FOR PROFS.

The requirements imposed on the research professors in the Johns Hopkins Medical School—that they shall receive no money for outside medical practice—has been anticipated by a similar rule in the Tokyo Imperial University. They must publish nothing, except technical papers, and the professors in the Medical College and the College of Engineering must take no fees for outside work, to the possible neglect of their duties.

IDEAL DAY FOR EVENT DRAWS SPLENDID, ENTHUSIASTIC CROWD, AND CHEERED ON BY THEIR LOYAL ROOTERS, YOUTHFUL ATHLETES VIE WITH EACH OTHER FOR PRIZES.

NINE STATE HIGH SCHOOL RECORDS ARE BROKEN

After the Meet, Visitors Are Entertained by the University at Splendid Banquet on the Hill, Where Everyone Enjoys Himself, Medals, Banner and Spalding Silver Trophy are Presented, Rousing and Enthusiastic Speeches Made, and Plans for Next Year's Meet Discussed; Then, Visitors are Guests of Honor at Dance in Rodey Hall, Where, Amidst Gaiety and Happiness Great Day is Closed.

The second annual interscholastic track meet held under the auspices of the University of New Mexico, came off Saturday afternoon, and far exceeded the most sanguine expectations of the authorities of the Varsity, who were backing it.

Perfect Day.

The day was ideal for such an event temperature to the right degree, and making everyone of the sixty young athletes feel like doing the best that was in him. The track was in splendid shape, thanks to Coach Hutchinson and the grounds committee, and the meet was so managed that the crowd was kept at all times off the field, thus giving those in the grandstand a splendid view of all the events of the afternoon.

Preliminaries in Morning.

Owing to the large number entered, it was found necessary to run preliminary heats in the morning, in the 100, 220 and 440 yard dashes, and the 120 yard high and the 220 yard low hurdles. Those winning in these then entered the finals in the afternoon.

They're Off

The program started in the afternoon with the 100-yard dash. This was won by Grant Mann, of the Albuquerque high school. The time was eleven seconds, a gain of three-fifths of a second over last year's record. McConnell of Roswell, came second, and Aydelott, of Roswell, third.

The twelve-pound shot put, after five qualified for the finals, was won by Carle, of Artesia, with a record of thirty-eight feet, a gain of two feet, five inches over last year. Clifford, of Albuquerque, came second, with thirty-seven feet, six inches, and McKinney, of Roswell, third, with thirty-six feet, eight inches.

Kronig, of Belen, won the half-mile in 2:19 4-5, beating last year's record 13 2-5 seconds. Davis of Roswell came second, and Feather, of Artesia, third.

Clifford Lowers Own Mark.

In the pole vault, Clifford, of Albuquerque, who won last year's event, broke his former record by nine inches, making nine feet, six inches. Whatley, of Roswell, and Mann, of Albuquerque, tied for second place, and in the toss-up for second, Mann won the silver medal. After making nine feet, six inches officially, Clifford, after a brief respite, made ten feet, which, however, does not count in the meet.

Carle, of Artesia, came first in the 120-yard high hurdles, in 19 2-5, 1 2-5 seconds quicker than last year's record. Jackson, of Tucumcari, came second, and Whatley, of Roswell third. The running high jump was the only event of the afternoon in which last year's record was not broken; Koch, of Santa Fe, made first place by five

feet, two inches. Clifford, of Albuquerque, finished second, and McKinney, of Roswell, third.

Davis, of Roswell, made first in the 440-yard dash, in the time of 60 1-3, 2 1-3 seconds quicker than last year. Simmons, of Belen, was second, and Hogue, of Artesia, third.

Carle, of Artesia, continued his good work by winning the broad jump with a record of 18 feet, 8 inches, 1 foot, 4 inches more than last year. Camp, of Albuquerque, last year's winner, finished second, with 18 feet, 4 inches, and Friday, of Santa Fe, third, in 18.3.

The 220-yard low hurdles was about the prettiest race of the afternoon, first place being taken by Aydelott, of Roswell, in 28 2-5. Thackery, of Albuquerque, came second, and Carle, of Artesia, third. This time was a gainer over last year's record of 6 3-5 seconds.

In the hop-step-and-jump, Feather of Artesia, by a remarkably well timed effort, made first with a record of 40 feet, 2 feet and 2 inches over last year. Clifford, of Albuquerque, finished second, and Erb, of Roswell, third.

Mann, of Albuquerque, looked a sure winner for the first 200 yards in the 220-yard dash, but almost at the tape, was passed by Aydelott, of Roswell, who won from him by a hair's breadth, in the time of 24 3-5, 2 2-5 seconds faster than last year's time. Mann, of Albuquerque, finished second, with Hogue, of Artesia, third.

The last event of the afternoon, the mile run, was taken by Kronig, of Belen, the winner of the half-mile dash, in 5:29 3-5, 48 2-3 seconds quicker than last year's record. Davis, of Roswell, finished second, with McGary, of Roswell, third.

The final summing up of the points made for the different schools was as follows:

Albuquerque, 30; Artesia, 25; Belen, 13; Las Vegas, 0; Roswell, 42; Santa Fe, 7, and Tucumcari, 3. Total, 120 points.

Highest Point Winners.

The individual championship of the afternoon went to Carle, of Artesia, who scored 16 points. Davis, of Roswell, came second, with thirteen points, and Aydelott, of Roswell, third, with a total of eleven points.

Banquet After Meet.

Following the meet, the participants were taken up the hill, and at 7:30 a delicious banquet was served in the dining hall. After the banquet, Professor Charles E. Hodgkin acting as toastmaster, the medals for the different events, as well as the University Championship Banner and Spalding

(Continued on Page Three.)

SIGMA TAU DANCE IS A DELIGHTFUL EVENT

LARGE CROWD ENJOYS HOSPITALITY OF FRATERNITY BOYS AT FIFTH ANNUAL "SPRING PARTY."

The fifth annual spring party of the Sigma Tau fraternity at the Masonic temple last Friday evening, was one of the most enjoyable social affairs of the present school year, and the members of Sigma Tau are to be complimented on their ability as hosts, their artistic decorations, and the good taste displayed in the selection of a delicious supper.

The ballroom was simply, but effectively decorated with streamers of black and yellow crepe paper, the fraternity colors. The electric lights were enclosed in tissue paper replicas of the fraternity pin.

The reception hall was transformed into a series of cosy corners by an artistic arrangement of palms, Navajo rugs and pennants.

At midnight a two course supper was served in the banquet hall. The tables were arranged in the shape of the Greek letters, Sigma Tau, and the supper itself paved the way to a more thorough enjoyment of the second half of the dancing, when the tango, the hesitation and the one step took the place of the more conventional waltz and two step.

The programmes were bound with black suede leather, with the Greek letters stamped in gold.

The active members of Sigma Tau are S. Sedar, W. J. Higgins, M. Higgins, G. Walker, H. A. Carlisle, F. M. Calkins, K. C. Balcomb, T. F. Bright, H. S. Bateman, J. A. Lapraik, W. F. Gouin, H. M. Frank, W. Arnot, F. M. Shufflebarger, and W. R. Brashear.

VARSITY WINS DEBATE ON WATER QUESTION

SINGLETON, McCANNA AND HIGGINS GET BEST OF BONNETTE AND LEWIS IN ROYAL WORDY BATTLE.

The long-postponed and much-talked-of debate on whether or not to purchase the water works from the company at the present time, was held last Tuesday evening before a good sized, enthusiastic crowd, at the Masonic Temple.

Honorable W. P. Metcalfe, who was to have been one of the debaters along with Honorable John Lewis, city attorney, failed to show up, and Professor C. E. Bonnette took his place at the last minute.

The subject of the question was, "RESOLVED," That it is unwise for the city of Albuquerque, at the present time, to purchase and operate the present water works system, or words to that effect. That is the substance of the debate, anyway.

The Varsity upheld the affirmative side of the question, and Mr. Lewis and Professor Bonnette the negative.

THE CONSERVATIVE.

In this day of changes and discoveries in science, art, politics, etc., it seems that the tendency is daily becoming more and more to be discontented with the old order of things, and always to be looking for and desiring the new. Especially is this true as regards the old ideas of politics and ideals.

Now, discontent of itself, is in many respects a most admirable quality; without it nothing would have been discovered or improved upon, and the world would still be groping in primitive darkness and ignorance.

BUT, as we all know, every virtue, carried to excess, may become a vice, and the result worse than if nothing had been attempted, and so it is with discontent, when carried beyond the bounds of reason.

A mistake, and a conceited one at that, made by the discontented ones of to-day, is to label everything, new or radical, that springs up and finds its adherents, "progressive." Progressive in politics, progressive in thought, progressive in everything under the sun, and those who do not agree with or believe in these new ideas are labeled "conservative," "backward," "reactionary," etc., and held in contempt by these so-called "progressives."

In the College or University, perhaps, more than anywhere else, does this spirit of "progress" manifest itself. We hear students not yet out of their teens, or not far removed from them, who have never seen anything of life, or know nothing of it, except what they get from reading and hearsay, discoursing upon the deepest and most intricate questions of the day with a freedom and confidence, that is disgusting, although amusing. They seem to think that the College is the great depository of all truth and knowledge, instead of being the place where one learns how to go about finding out facts and truths; they think, apparently, that after their college course is finished, they have all the knowledge of the world at their fingers' ends, instead of being only at the beginning of wisdom and truth; they take the word of some professor, who has spent all his time amongst books and magazines, and mixing this up with their immature logic and childish conceit, the result is a weird mass of plain "rot" which they feel is the pinnacle of all knowledge and wisdom.

And the poor, despised conservative, the one who tends to his business, tries to see all sides of the question, and waits until he has had experience in REAL life, plods his way through College, gets out, and sees things in their true perspective. He, in the end, is the one who can bring about the reforms that are needed; he carefully weighs each step in the balance before proceeding, and when he finally brings something about, it is there to stay, and its benefits are lasting.

As to the results of the self-styled "progressive"? Well, look about you and see for yourself.

Then, take your choice.

LAST VESPER SERVICES.

Sunday afternoon, the vesper services were addressed by Reverend Hermon P. Williams, pastor of the Christian church of this city. Mr. Williams made an inspiring talk, teeming with the Christian ideals of life and manner, which was well received, and made a deep impression on all fortunate enough to hear it.

Owing to the hot weather, and the preparations being well under way for the commencement exercises, this was the last vesper services that will be held this year. They have been very successful, from every standpoint, and the officers in charge of them, particularly Albert S. Hunt, whose untiring energy and enthusiasm has in a large degree been responsible for their success, all feel highly gratified, and look forward to even better meetings for next year.

A pleasant coincidence connected with the services is that Dr. Williams was the first leader in these exercises, he being the announcer at the first service, which was addressed by Dr. Boyd, and now Dr. Williams was the last man to speak at the exercises. The officers of both the Y. W. C. A. and Y. M. C. A. feel deeply gratified to Dr. Williams for his connection with these services.

To Dr. David Ross Boyd, however, is due the chief honor, because he was always ready, with heart and hand, to lend aid, and keep things moving, after the services had been inaugurated by the Christian organizations of the school.

Others deserving of thanks are Professors Hodgkin, Mitchell, who, along with Dr. Boyd, were always willing aids to the great cause.

RESULTS OF COLLEGE.

When Johnny went away to school He rigidly conformed to rule.

At first he joined a College frat And lost one arm and leg at that.

And then he made the Delta Phi, Who gouged out out of Johnny's eyes.

A "rush" that launched the college year Deprived him of a useful ear.

He was so good and glad to please That Johnnie made the team with ease.

He left a hand at Cleveland, O.; A knee cap at St. Louis, Mo.

His sternum cracked at Baltimore, Interred his nose at Portland, Ore.

At every contest, win or yield, He left a portion on the field.

Thus gradually he was bereft, Till little of the boy was left.

We got his baggage home by rail, The rest of Johnny came by mail.

—Anonymous.

THE COLLEGE-BRED HEN.

A hen, hatched and brought up in the Oregon Agricultural College, has broken all records by laying 283 eggs in one year. And still there are some who fail to acknowledge the value of a college education!—Ex.

WINS TRACK CHAMPIONSHIP

(Continued from Page 1.)

ing Silver Trophy were presented to the winners by Professor Asa O. Weese, President of the U. N. M. Athletic Council.

Enthusiastic speeches were then made by each of the captains of the various teams, all testifying to the success of the meet, and their pleasure and satisfaction at having participated.

Talks were then made by Professors Lougee, of Santa Fe; Gunter, of Belen. Weese of the University, and Fred Calkins, of the Varsity; following which President Boyd made the final talk of the evening, in which he expressed the gratification of the University at having such a splendid representation of the different schools of the State, and the hope of the University that next year would witness even a larger delegation than this one. Dr. Boyd congratulated the winners on the success they had achieved, and condoled those not so fortunate with the hope that by next year, with training and perseverance, they, too, would have their chance at some of the prizes.

Dance Finishes Day.

Following the banquet, the visitors, escorted by members of the University student body, made their way to Rodey Hall, where everything was in readiness for the final event of the day of days, the dance.

The hall was decorated artistically, the floor was in splendid shape, the music simply superb, and the girls all pretty and eager; it was "tag" for the visitors, and they plunged into the fun and made the most of it.

At midnight, however, the dance broke up, and all made their way to their homes or sleeping places, feeling that the day had been one of the greatest successes ever witnessed.

Quite a few of the visitors remained over during Sunday, taking in the sights of the town and mesa, but the last crowd left Monday morning, all assuring everybody of a most splendid and enjoyable time, and vowing their determination to be back next year, and help for a still larger, and if possible, better meet for 1915.

VARSHY WINS DEBATE

ON WATER QUESTION

(Continued from Page 1)

Mr. B. Clay Singleton started off with the affirmative, and was followed by Professor Bonnette. Joseph McCanna followed Professor Bonnette, and after McCanna came Lewis, who in turn was followed by Higgins for the affirmative.

The rebuttal was first given by Lewis for the negative, and Higgins for the affirmative.

In their talks and rebuttal, the affirmative endeavored to show that the present system was antique and worn out, and argued for a new one, to meet the needs of the future Albuquerque, while the negative declared, and tried to prove that the present system was amply sufficient, and should be immediately purchased at the company's price, so as to give the city the benefit of the revenue it would begin to derive, and not wait until it would build a new one, at a tremendous cost, and waste of time.

Mr. F. B. Schwentker acted as chairman, and at the end of the debate and rebuttals, called for the vote of the audience as to whom they thought had won the debate. It was plainly apparent that the majority were in favor of the University debaters, and when it is considered that there were only a few Varsity students in the crowd, about half of whom voted against their compadres, the result is all to the credit of the Varsity.

One disadvantage of the negative, of course, was the fact that Professor Bonnette was almost wholly unprepared to debate, having given no time previous to the subject. But then, the fact remains that both Bonnette and Lewis are old hands at the business, while the Varsity debaters, with

the exception of Higgins, had never had any previous experience at the business.

After the decision of the audience, talks were made by Colonel Borradaile and Mr. Passmore, both of whom were in favor of the city building, its own plant. They praised the work of the Varsity debaters, and urged them to keep on studying the municipal problems and thus fit themselves for useful service in this field upon their leaving school and going into real life.

It was an interesting evening all around, and the three Varsity debaters felt that they had gained some valuable experience and some insight into municipal affairs, which they hope may prove of use to them in future debates and discussions.

DR. BOYD SPEAKS AT Y. W. C. A.

At the regular association meeting last Thursday, Dr. Boyd spoke of a number of things which the University co-eds could do to help and encourage girls who are considering attending this school. On his recent trip thru the state, the President met many high school students who are interested in the University, but need more of a personal touch than is furnished by the catalogue.

One girl in a little town along the way asked Dr. Boyd how the girls here were accustomed to dress. Being a mere man he was not well informed on such a subject, and the Y. W. C. A. girls, while laughing at his plight as narrated, have resolved to get in touch with prospective co-eds and answer such personal questions as may appeal to each.

One suggestion made was that the Y. M. C. A. and Y. W. C. A. get out a little folder or handbook with views, and brief, telling arguments for coming here, showing something of campus life and the human appeal in a college course. Such booklets could be sent out to prospective students and would no doubt, prove very attractive.

The Y. W. C. A. intends to send out personal letters to interested girls earlier in the season than they did last year. Some organized effort will be made to secure employment for those girls who desire to earn part of their way. Besides this, arrangements will be made to meet all incoming students next fall and help them in registering and becoming acquainted.

It is highly probable that the Association will have a rest room and meeting place of its own also.

Everything points to a splendid enrollment next fall, and the Young Women's Christian Association is planning to have a large share in encouraging and caring for the increased number of new students.

ENGLAND IS PEEVED.

The London Times, in treating the subject of athletics in England, awakened its readers with a mild shock when it said that at the annual freshmen games recently held at Oxford, every event was won by a Rhodes scholar. Not a single prize was won by a native Englishman. The Times did not make this statement to urge the English to debar the American athlete from participation in these contests, but in order that the English might in some way be stirred into a little more enthusiasm and keenness on sport.—Ex.

COLLEGE BUTTER.

Comparisons based on a butter-score-ign contest so aroused the citizens of Rome, S. C., that they have erected a dairy barn and milk room on the grounds of the local school, in order that the children may learn dairying as a regular part of their school work. Accommodations have been provided for five cows. Boys and girls of the seventh and eighth grades are studying the best methods of dairying under the direction of an extension worker from Clemson Agricultural College. The University of Tubigen is over 400 years old.

Jack's same sad, sweet song. Laura's gone to the country. Poor me! Ah, me!

Professor Morley will meet his classes for one week more. Cross of the "c" Prof., and the "i" as well on the first year German.

EXHORTATION.

(Translated by S. G. Morley from the (Catalan of Apeles Mestres.)

Sing, oh, Nightingale, for the earth's in flower,
 Famishing for songs, thirsty if they fail;
 Sing upon the hills, sing within the bower.
 Sing, oh Nightingale!

Sing thy roundelay, 'tis the oldest singing
 That e'er rose from earth up to heaven's pale.
 That which pleased God's ears, and in them still is ringing.
 Sing, oh Nightingale!

Sing thy song, the eternal threnody, which, falling
 On the blind world's cradle, woke it with its wail;
 'Tis the most sublime and the most enthralling.
 Sing, oh Nightingale!

Sing as yesterday, as at the Creation,
 Sing now more than aye, for the world's grown frail,
 For the Good and Fair, and for Inspiration.
 Sing, oh Nightingale!

OLD STUFF.

Do not fancy, gentle maiden,
 While you're lightly prancing thru
 Tripping trot or tangled tango,
 That you're doing something new.

This was one of the diversions
 Of old, prehistoric man,
 And they danced it in the jungle,
 E'er the human race began.

All the dances we are dancing
 Are legitimate successors
 Of the old orangoutango
 Of our early predecessors.
 —N. Y. American.

Mighty blows that "do things" in every walk of life nowadays are directed by keen brains of men and women, who have built themselves into fit condition to win.—Cosmopolitan.

The University of Washington has a registration of 3,028 men and women students, the largest in the history of the institution. It now takes twentieth place among the universities of the United States.—Ex.

A walking club has been organized at the Salt Lake Collegiate Institution. The members pledge themselves to walk at least one mile every day. A novel idea to encourage outdoor exercise.

Two hundred University of Pennsylvania men volunteered for social service work. The work includes first aid work, gym classes, and the review of prison conditions, and the teaching of English to foreigners.

He knows not, knows not that he knows not, is a Freshman. Shun him!
 He who knows not, and knows that he knows not, is a Sophomore—Honor him.

He who knows, and knows not that he knows, is a Junior—Pity him!
 He who knows, and knows that he knows, is a Senior—Reverence him!

IT'S NEVER TOO LATE.

The University of Wisconsin has a co-ed eighty-two years old. Mrs. Amy Winship, who is corresponding with Juan Buenez, a ninety years old, wealthy Spaniard living in the Philippines, who has just taken up the study of English. After he was seventy years old, Senor Buenez completed his high school course and then took up the study of shorthand and stenography.

OLIVE'S HAT.

Olive has a new spring hat
 As black as any crow;
 On one side it is raised up high,
 The other droops down low.
 Two ribbon bows, quite long and black,
 Stick up into the air;
 A bunch of flowers completes the hat,
 It's ready now for wear.
 On some one else 'twould be the theme
 Of ridicule or wit,
 But when Olive wears this stunning hat,
 She gets away with it.
 —F. M. S.
