## AMERICANS MIX WELL WITH FRENCH

Report of American University Union in France Shows That the French and Americans are Getting Together in an Excellent Manner.

(The second installment of the report concerning the activities of the University Union in France follows.)

### C.—French Affairs.

Professor Vibbert has taken charge of the important question of French lessons, and has successfully arranged many individual lessons, and some courses, and exchanges of lessons in French and English, conducted both at the Union and elsewhere. He has also made a list of pensions for the benefit of those who wish to live with French families, and has been active in co-operating with the French Committee on Receptions Parisiennes, discussed later in this report.

### D.—Publicity.

Mr. Crenshaw has recently been appointed chairman of the committee on publicity, and has already systematized the work of publicity as to notices of the concerts, lectures and other entertainments at the Union. He has also arranged for a suitable advertisement of the Union in the official paper, "The Stars and Stripes," which is published at General Pershing's suggestion as the official journal of news for the American forces abroad.

Mr. Lansingh, chairman of the house committee, has had charge of the general conduct of the business and office organization of the Union, and has co-operated with all the committees in carrying out within the Union their several arrangements. He has furthermore installed a purchasing agent who handles the numerous commissions for purchases received both in person and by mail. In general a 10 per cent charge is made above the cost of such purchases, an arrangement which should ultimately make this department self-supporting, besides adding greatly to the facilities afforded to individual members of the Union. The general office and the separate college bureaus likewise profit by this arrangement, and are relieved of many details of work.

The shop instituted by Mr. Lansingh has proved a great success and has had a daily business of between 200 and 300 francs. It has not been run for profit, but as a convenience to our guests. The financial statement, however, shows that a satisfactory profit has been realized.

The above outline, though somewhat extended, presents in reality only a partial summary of the various steps taken to perfect the organization and machinery of the affairs of the Union. But it will serve to indicate the general lines of policy and practice along which the affairs of the Union are being conducted.

Professor Alderfer has been placed in the general offices of the Union to assist especially in the work of the registration and correspondence with

## ARIZONA DEBATE MAY BE CALLED OFF

Sister University Writes That Draft Has Taken Her Debaters. Cannot Meet New Mexico May 13.

A letter to Professor D. A. Worcester from the University of Arizona debating authorities states that Arizona will not be able to meet the New Mexico debating team on May 13. No mention of a later date was made. It cannot be determined from the letter whether Arizona intends to call off the debate or merely to postpone it.

Five weeks ago Arizona wrote asking if there was any chance that our men would be taken by the draft before the time for the debate. They gave as an excuse that they did not want to work up a debate unless they were sure New Mexico would have a team. It now appears that part of their team has been drafted or has joined the army.

Our representatives have already been chosen and have been coached to some extent. The two chosen were Harold Booker and Mr. Gallagher.

colleges not specifically represented by their own representative in Paris. Mr. Irwin under the direction of Mr. Lansingh has taken over a considerable part of the work on the business side. These additions to the general staff have proved of great assistance in handling the ever increasing volume of business of every sort which the Union is called upon to transact.

### External Developments.

2. Important as have been the internal developments of the work of the Union at its Paris headquarters, even broader significance attaches to the relations already established by the Union with the social and especially with the educational interests of France. The success of the Union, which it would be an affection to belittle, has attracted widespread attention from French officials, learned societies, and individuals of prominence. The Union has become a recognized center where have converged lines of educational and intellectual influence in France. Of these it will be possible to note only the most significant.

### Rapprochement Universitaire.

(a) The Union has from the outset attracted special favor from the Rapprochement Universitaire, a recently organized club of university professors and men of similar intellectual interests in Paris. The various members of our staff have been invited to the meetings of the Rapprochement. At one of these the Rapprochement offered to arrange a Fete Solennelle at the Sorbonne in honor of the entrance of American university and college men in the war. Monsieur Leon Poincare, vice rector of the University of Paris, authorized the use of the large amphitheatre of the Sorbonne for the purpose. Since the arrival at Paris of Mr. Stokes, the date of the celebra-

(Continued on page 4.)

## MUSICAL COMEDY TO ROSWELL AND CLOVIS

"Up in the Air" Will Make Trip to Pecos Valley Monday and Tuesday, Showing at Roswell and Clovis. Cast Reduced.

"Up in the Air" will be staged in Roswell Monday night and in Clovis Tuesday night, according to plans now underway.

Manager King intends to leave for the army soon as soon as possible, and has turned the management over to Don Richardson. Don left Wednesday morning for Clovis and Roswell to make arrangements for the presentation of the comedy.

The original cast of sixty had to be reduced to about one-half before the trip could be made. There has been a doubling up in the choruses so that fifteen girls and five boys handle all the chorus parts. The leads are the same.

The party will leave Albuquerque Sunday night and return Wednesday night.

### Those making the trip are:

Chorus Girls	
Hayerford	Standley
T. Reagan	Fergusson
Angle	Keene
Hawkins	Dixon
McCanna	Bear
Lowber	Boellener

Chorus Boys	
McClure	Patton
Boldt	Buckley
Papen	

Besides the cast composed of

E. Harris	Wait
Stortz	Smith
Hawthorne	Kellam
Switzer	Hazlet

M. Reagan

Mr. Scotti, Miss Hickey, Mr. Seder and Miss Erna Fergusson will make the trip.

### A REPLY.

The committee on student standing has stated its intention of replying to the article published in last week's Weekly, in regard to the number of hours that each student should be permitted to carry. They have not yet had time to secure and examine all the different University catalogues which they wish to before making the reply. Their conclusions in regard to the eighteen hour maximum will be published in the next issue.

### AGGIE CAPTURES FIRST GUN.

Captain Joe Quesenberry, of the 19th Infantry, formerly a student of the State Agricultural College, commanded the first American soldiers to capture a German gun and soldier. He was highly commended in his action by General Pershing.

We extend our congratulations to Captain Quesenberry and to the institute from which he came.

## "UP IN THE AIR" A GREAT SUCCESS

Musical Comedy, Staged by the U. N. M. Dramatic Club, Scores Heavily Monday Night. Large House Greets Players.

"Up in the Air," written by Miss Hickey and Professor Seder, and presented by members of the University Dramatic club, was well received by the audience. In spite of a series of poor rehearsals the play went off without a hitch at the real performance.

The Morning Journal says of it:

"It was Joe McCollough, the great editor, wasn't it, who told his editorial staff that there could be but one story ever happen but what could be told in hal fa colmn,—and that would be the second coming of Christ?"

"He said it so many years ago that the most of the profession then alive are now dead; at a time when there wasn't any University of New Mexico and no dramatic club.

"Had he lived in this day and age, and had witnessed the club's presentation of "Up in the Air" last night at the Crystal theater, he probably would have instructed the dramatic critic of the St. Louis Globe-Democrat to "go over the top" for an additional stick or two.

To fully appreciate the whole situation, it must be remembered that the catchy music was composed by Prof. E. Stanley Seder. The bright book is the result of the diversified mind of Miss Ethel Hickey. The dainty dances were conceived by Joe Scotti. And he also produced the play.

"Without exception it was the cleanest, cleverest, brightest and best presented product of that exceptionally well trained and evenly balanced club.

"The costumes, designed and adapted by Lina Fergusson, and made by Elizabeth Brown, were in full keeping with the tout ensemble of the evening's entertainment.

"The piece abounded with catchy music, crisp bits of repartee which kept the house in an almost constant uproar of laughter, and interspersed with fancy and military dances that showed long and careful training.

"There was a love strain throughout the play that added much to its interest, the audience not losing sight of the lovers and love-chatter until, quite appropos of the times, there was interjected a splash of patriotism which was soul-inspiring.

"The lesson from the several patriotic scenes was to 'knit, not klack,' 'boost, not knock,' 'buy war savings stamps, not throw your money away.'

"There was also the bringing out of a well conveyed manner of the old maxim:

"It pays to advertise."

"It was a well directed hint to Albuquerque to lift the bushel basket off its advantages, let the world know of them, and take care of the world when it comes."

### PROPERTY RIGHTS—AND OTHER THINGS.

It is regrettable that in the past few weeks such little regard has been shown for University property. On several occasions property has been injured or destroyed, and although the damage has in most cases been very slight, the way in which it was done is to be criticised.

Property rights should be respected, no matter whether the property belongs to an individual or to a state. The first serious offense was the breaking open of the gymnasium and carrying off some sweaters and socks to the value of about thirty dollars. Then came the drinking fountain episode, though we must admit that it looks better now than it did. The locks were broken on several doors and the rooms entered; and, finally, the fence was torn down several times, and is still down.

There can be no excuse offered for such acts as these. No matter what the provocation may be or how badly a thing needed being done, such lawlessness should not be countenanced; two wrongs do not make a right.

But now let us see what the provocations were, and not confine our criticism to one side alone.

When the theft of the sweaters was discovered, a notice was posted requesting the freshmen to return them, inasmuch as the class fight had come off about that time, and it was assumed that the freshmen took them for self protection or something. When some weeks passed and they were not returned (because the class had never taken them and did not have them to return), the boys of the class were assessed \$1.21 apiece—apparently because that seemed to be the easiest way of getting them paid for. Immediately a howling protest arose, and as there was no proof that the boys had taken them, the matter was dropped. Not, however, until a thorn had been driven into the side of every freshman, which wound will be hard to heal.

Now about the drinking fountain and the fence.

The landscape gardener who planned the University's improvements had some rather peculiar ideas, to say the least. The white porcelain drinking fountain which was placed at the end of the sun dial, was about as much in place as a Brussels carpet in the Rio Grande. It very mysteriously changed color, for the better, in the opinion of many.

Another idea of the beauty expert was to put up some fences where the footpaths were. As some said, he seemed to stand around watching where people walked, then ordered a barbed wire fence to be put there. One of the most troublesome of these fences was that north from the corner of the chemistry building, cutting off

the path from the men's dormitory to the dining hall. Someone evidently thought it better away from there, and it went.

We condemn such wilful and malicious destruction of property. We do not advocate the taking of the law into one's own hands.

We suggest that there would be a better feeling among the students towards the University if they will be somewhat considered in the making of improvements, and if they will also be considered as gentlemen and ladies, not to be herded off the grass like cattle, but to be politely requested to go around. Politeness and respect can work both ways to a good advantage.

### SONGS FROM "GO ASK WILLIE" SUNG IN FRANCE.

In a letter written to Miss Hickey, Floyd Lee, manager of several University productions, says that "You'll Somehow or Other Get Used to It," is Battery A's war cry. Extracts from the letter follow:

"Today (April 2) I received some copies of the songs to be used in the new play. You don't know how glad I was to receive them and how I would like to be there and see the show. I know it will be a great success and a really good show.

"If you want to do your country some good, you should sit down and rewrite the song 'You'll Somehow or Other Get Used to It.' Don't change these words, just the others, and make them apply to army life. I certainly have sung (tried to sing) that song a thousand times since I have been in the army. How handy it comes in when some insignificant corporal 'climbs your frame.' You can't hit him, you know; you just have to 'get used to it.'

"I tried to teach a class the song one night during an air raid, but a bomb hit close by and some shrapnel broke the skylight in our 'billet' so we had to adjourn before they learned the whole song. Before the next raid they sang it just like a chorus in 'Go Ask Willie.' It also comes in handy when you get the 'cooties.' You think you will scratch all your hide off, but you get used to it."

"This army life is some life, but now we are getting down to the serious side of it and working hard. I hope even through the thickest of it I will be able to see the bright side of it."

"These Frenchmen don't think we will make good soldiers, as we don't seem to take life serious enough. They make me laugh, they don't know just how to take us 'Yanks.'"

"If you want to see a funny sight, it is to see some 'Yank' trying to talk to some Frenchman, especially when the 'Yank' is in a hurry and wants to get somewhere or find his way when lost."

"I can easily imagine how glad you members of the faculty are to get rid of such a trouble-making student as myself, but my only hope is that I can trouble old 'Kaiser Bill' just a little bit more."

### RAY McCANNA IN NAVY.

Ray McCanna, class of '17, enlisted in the navy the first part of this week, and proceeded at once to a naval training school in Massachusetts. Ray was enrolled in the School of Commerce of Harvard University at the time of his enlistment.

While at the University of New Mexico, Ray was identified with nearly every student activity in the school.

### DO YOU KNOW?

That "little brother" seems to be taking a hand?

The girl who went to dinner with the man and swiped the tip?

Why she did it?

The little blonde who has fallen again?

The girl who entertained her young looking and pretty mother this week?

The girl who was so pretty in pink in "Up in the Air."

Where the cowboy girls got the trousers?

How the owners got them back?

That the boys in the hayfever chorus surely looked "spiffy" in their "palm beach outfits"?

The heart-breaker?

The man who called up the girl and had to describe her because he could not recall her name?

That punctures are very convenient at times?

That hot tamales are good when served cold?

The girl who stunned and surprised the hotel clerk by appearing at 12 p. m. with her "Up in the Air" make-up on?

That the fellows mustn't forget to make their dates early for the student body dance?

The chap who has lost the bet just because he has started to smoking again?

That it would improve our looks if we could wear our make-up daily?

The best little sport on the hill?

That a hint to the wise is sufficient?

The little chorus girl in "Up in the Air" who received the lovely corsage bouquet?

The fellow who likes just three people?

That "Do You Knows" are scarce this week?

### RECITAL AT SANTA FE.

In response to several urgent invitations, Professor Stanley Seder has named a date to give a piano recital in Santa Fe. This will be in the Cathedral of the Desert, in St. Francis auditorium, the evening of April 30, and will be under the auspices of the extension department of the University of New Mexico.

### TENNIS CLUB MEETS.

A meeting of the Tennis Club was held last Wednesday noon, at the call of President Craig, and the following rules for play on the courts were adopted:

Rules for Play on Tennis Courts.  
1. All players must wear tennis shoes.

2. There must be no play on the courts when they are soft as a result of rain, etc.

3. No two players shall hold any court for more than one hour if others desire to play.

4. The right to use any court for any two non-consecutive hours may be reserved one day in advance.

5. If play is not begun within ten minutes after beginning of hour reserved, the right to hold the court for that hour shall be forfeited, and any persons desiring to play may do so.

6. Unreserved hours may be used by any one provided he does not violate rule 3.

7. Hours shall correspond to U. N. M. class hours.

8. Hours will be reserved for workmen to repair and keep courts in condition for play.

9. Nets must be placed in locker when not in use and in no case must they be left in rain.

10. Violation of these rules may be punished by suspension of right to play, in the option of the Tennis Club.

### PROFESSOR SEDER MAKES CONCERT TOUR.

Professor Seder left Tuesday morning for a short concert tour through northern New Mexico and part of Colorado. Tuesday night Professor Seder gave a piano recital in the St. Francis auditorium of the new museum at Santa Fe. Wednesday night he dedicated the new organ in the Methodist church in Raton. Thursday night he gave an organ recital on the new organ in the Baptist church at Pueblo, Colorado. Friday evening, on his way home, he will stop off at East Las Vegas and give a piano recital at the normal university auditorium. This recital ends the tour. Mr. Seder will return to Albuquerque Saturday and leave Sunday night with the play, "Up in the Air," for its trip to Roswell and Clovis.

## Great Wheat Stocks Isolated.

It's the shortage in ships that is putting the Allies and the United States on wheat rations. Great stocks of wheat are isolated in India, and Australia. At great sacrifice in ship space and use the Allies are forced to secure some wheat from Argentina.

On January 1, Australia had stored 100,000,000 bushels of wheat that was ready for export—but there were no ships. Then came the new crop with an exportable surplus of 80,000,000 bushels. Now Australia has approximately 180,000,000 bushels waiting for ships.

India, at the same time, had 70,000,000 bushels of wheat stored for export. During April 50,000,000 bushels more out of the new crop will be added to the pile.

Argentina closed the last shipping season with 11,000,000 bushels of wheat left in the stock available for export. The new crop will add 135,000,000 to the total.

It is not a problem that the wheat does not exist in the world—it is entirely a problem of shipping, which has thrown on America the obligation of dividing our stock with the Allies.

## UP AGAIN, DOWN AGAIN.

In this western land of endless distances it is a calamity for anyone to erect an artificial barrier. A real Westerner looks with distrust upon anyone who would improve upon nature.

The University campus artist, Mr. C. E. Adams, decided that the diagonal trail past the chemistry building, between the men's dormitory and the dining hall, was unsightly, therefore unjustifiable, and must be closed. Accordingly a barbed-wire fence of massive proportions was placed across the offending path.

And now the Western spirit asserts itself.

On the night of April fifteenth, some lover of freedom cut the fence down. Frank Anderson, superintendent of the grounds, was not perturbed: he had seen boys before. The fence was replaced.

A few days later, it was again cut; this time the lengths of wire between two posts were carried away. The Higher Powers were somewhat angry and they saw new wire being strung.

In less than forty-eight hours the passageway was open, as if there had never been a fence; poles, wires and all were strewn over the surrounding territory. The Higher Powers were wrought up. The fence was replaced. The Higher Powers were happy.

The next morning nothing could be seen of fence, posts, wires, or staples. A prolonged search revealed the charred remains of what formerly were posts. The Higher Powers were raging. As the deed was done under cover of darkness, the guilty parties could not be located. Therefore the University's faithful Mexican helpers dug new holes, twice as deep and half as far apart as the former ones, and an entirely new fence today bars trespassers.

## LOCALS.

Word has been received from Washington that Evelyn Trotter and Kathleen Long have secured excellent positions in the government service. Miss Trotter is a clerk in the war department and Miss Long has been appointed an assistant in the economics department.

Professor and Mrs. Arno K. Leupold are the parents of a son, born Monday night, April 29.

Born, Wednesday night, to Professor and Mrs. Worcester, a son. Mrs. Worcester is in Boulder, Colorado.

Rex Craig left Tuesday night for Deming, N. M., to visit his father, a captain in the medical corps. From Deming Craig will go to El Paso to enlist in the artillery branch of the army.

Lloyd Kellam will leave May 8 for an extended trip east. Kellam will go to Roswell and Clovis for the University play and will leave for the East from Clovis.

The Sigma Chi gave a little informal dance at their chapter house Saturday night. It was an impromptu affair, gotten up after dark, but those present had a jolly time. Some ten couples were present.

Misses Edith Boellener, Estelle Harris, and Irene Boldt, left for Roswell in a car Wednesday. Edith Boellener and Estelle Harris will take part in "Up in the Air," and return with it.

## AMERICANS MIX WELL WITH THE FRENCH

(Continued from page 1.)  
tion has been advanced from March to February 24, to enable him to attend and to represent the trustees of the Union. The project has been submitted to General Pershing, and all details of arrangement will necessarily be governed by military regulations and the exigencies of the moment. It will be apparent that this public recognition of the work of the Union and of its members is being planned on an impressive scale by the educational leaders of France.

Project of Monsieur Petit Dutailis for French Instruction for the American Troops.

(b) As the outgrowth of informal conferences with offices of the American University Union, Monsieur Petit Dutailis, director of the "Office National des Universités et Ecoles Françaises," and Inspector General of Public Instruction, has formulated a plan for putting at the disposal of the American military authorities the educational machinery of France. This project was transmitted formally to the University Union on December 10 and by it, on the following day, in turn submitted to Mr. Carter, head of the American Y. M. C. A. organization in Europe, for transmission to General Pershing. On account of his absence in England and for other reasons, Mr. Carter has been delayed in taking up these plans with General Pershing, and their ultimate reception or partial adoption will doubtless be a matter of long negotiation. It will be apparent, however, that the offer of the French education authorities, which is substantially to put at the disposal of the American troops through their responsible military leaders the educational machinery of France—is of great significance. It is gratifying to know that these plans were worked out largely in conference with the American University Union, and that the Union has been recognized as the appropriate medium through which to present these plans for consideration.

(To be concluded next week)

## GRUNER ACQUITTED.

Not guilty was the verdict of the Bernalillo County Council of Defense Monday night in the case of John Gruner, instructor in German and geology at the University of New Mexico, accused of being a pro-German, and disloyal to the United States. The examination was asked by authorities at the University to quiet rumors which had been circulated concerning Gruner.

When placed on the stand, Gruner told a straight-forward story, telling how he had left Germany six years ago, and had come to this country, and how his faith in Germany had gradually been shaken, until now he saw that Germany was in the wrong. No proof was found that he had in any way violated the provisions of the espionage act by word or deed.

The fact that Gruner had taken out his first citizenship papers and had purchased Liberty Bonds of each issue, together with war saving stamps, was brought out at the trial, as evidence in his behalf.

The trial lasted two hours.

Suggestion: Brand your balls and rackets.

Miss Boldt will visit Miss Myra Martin.

There will be a high school dance at the Colombo Friday night, to which Varsity students are invited.
