GOOD TENNIS PLAYED INTER-FRAT TOURNEY

Result of Playing Still in Doubt.

Although nearly half over, the result of the Inter-Fraternity tennis tournament is still in doubt. Four teams well balanced and equally matched have been put into the field by the Alpha Deltas, Pi K. A.'s, Sigma Chi's and Independents, and at the time of going to press the P. K. A. teams and Sigma Chi are tied.

In the initial match of the tourney, the Sigma Chi combination, Bevans and Witten, lost to Howden and Sganzi of Pi Kappa Alpha. The contest was forced to go to three sets, and was hard fought from start to finish. Bevans playing singles next day against Wilfley of P. K. A. won his contest after losing the prior set by a sizeable margin. The result of this encounter left both teams with one tally.

The next struggle occurred when Reeves, of Alpha Delta, met Horgan of the Independents, and won after three deuce sets. Reeves is showing promise of being the most stylish and heady player on the hill, and will undoubtedly be the nucleus for the Varsity team. In the doubles, the Independents, Horgan and Wagner, easily won from Reeves and Greenleaf of Alpha Delta in straight sets. Points were equally divided between the two teams, one each.

Wilfley advanced his team by winning from Horgan in straight sets in his singles match.

Bevans in two fast and well played sets with Reeves tied the one point lead of the P. K. A.s by defeating the Alpha Delta representative 6-4, 6-4. The standing of the teams is as follows:

Pi Kappa Alpha	2
Alpha Delta	2
Sigma Chi	1
Independents	1

It is expected that the tourney will be pushed along to its conclusion, in order that the open championship of the University may be decided by competition this spring. Coach Johnson has not announced what the trophy for the Greek contests is to be, but it is understood that he has something in view.

DIECKMAN CUP FOR TENNIS ORDERED

All-School Tournament to Be Held After Inter-Frat.

Coach Johnson has announced that the Dieckman Cup for the winner of the all-school singles tournament has been ordered and that the entries and tournament will be held after the Inter-Fraternity tournament is over. The donor of the cup, Bruno Dieckman, is treasurer of the Athletic Association, and has been interested in athletics at the University for a number of years.

STUDENT ROMANCE ENDS IN WEDDING

Students were surprised by the sudden marriage of Wilbur Roslington and Pepita Espinosa in Los Angeles on April 22. The romance developed here, but none of the most intimate friends imagined it to be so near to marriage. Wilbur Roslington is the son of George Roslington of the City Electric Company of this city. Both the young people were Freshman.

Probably the first person to file his credentials for entrance to college next fall is Eldon Waymire of Clayton, Ohio. Mr. Waymire expects to enter the course in Electrical Engineering as a Freshman.

RECITAL BY DEPT. OF MUSIC AT ASSEMBLY

Good Music Pleases All.

The first recital by the music department as a whole was given last Friday morning in Rodey Hall at the regular hour. The numbers by the Ladies' Chorus and Men's Double Quartett showed the results of much careful training. The solos and duets were without exception very well rendered. The piano duet by Miss Cameron and Mrs. Faw was excellent. The department and its head, Professor Lukken, are to be complimented on the splendid recital. The program follows:

"Rejoice, Ye Pure in Heart" (Messinger)—Audience and U. N. M. Chorus.

Vocal: "Spring's Awakening" (Sanderson)—Miss Evangeline Smith.

Vocal Duet: "Flow Gently, Deva" (Parry)—Messrs. Calkins and Lukken.

Vocal: "Tinker's Song" (Slater)—Mr. F. G. Heslet.

Piano Duet: "Montecchi e Capuleti" (Bellini)—Mrs. Jennie S. Faw and Miss Dorothy Cameron.

Vocal: Selected—Mr. Louis Hessel.

Vocal Duet: "Lanboard Watch" (Williams)—Messrs. Hite and Heslet.

Vocal: (a) "Ten Thousand Times" (Homer); (b) "Uncle Rome" (Homer)—Rev. Thomas Calkins.

(a) "Minuet" (Beethoven); (b) "Song Birds Are Singing" (Wooler); (c) "Day Is Awakened" (Grieg)—U. N. M. Women's Glee Club: Misses Sands, Travis, Luckey.

(Continued on page 3)

TRACK MEET TO BE SUCCESS; ENTRIES IN

Plans Being Laid to Entertain Visitors. Will Have Tennis Tournament, Too.

Entries for the ninth annual inter-scholastic track and field meet to which the State University is acting as host are coming rapidly to Prof. A. O. Weese, chairman of the committee in charge of arrangements. The date of the meet has been set for May 12 and 14, and Prof. Weese expects that practically every high school in the state will send a representation to the meet.

The University, which every year acts as host to the all-high school meet, is making elaborate plans for the meet, and will bear the entire expense of the entertainment of the visitors, as well as the expenses incidental to the meet itself. Members of the visiting teams will be housed in the University dormitories, and will secure their meals at the University dining hall. Transportation about town will be provided for by University cars, so that the only expense to which the teams will be put will be their railway fare. Social functions are also being arranged for the entertainment of the track and lyceum men during their stay.

The outcome of the track meet will determine the ownership of the inter-scholastic track meet cup, at present held by the Albuquerque High School. A second cup will be given to the team winning the relay race, and medals will be given to all contestants taking part in any event. The medals have been provided by the University, and are costing about \$300.

Preliminaries of the track events will be held on the first day of the meet, and the finals will be run off on the second. The meet, which will be conducted throughout according

(Continued on page 2.)

OWLS MAKE CAMPUS HOME LIVE OFF PESTS

Will Soon Kill Off Gophers.

If you wish to see the new residents of the campus who have been causing so much comment, a walk on the west slope of the campus late in the afternoon will give you a glimpse of these feathered guests. A few observant persons have seen the owl or pair of owls who have made the campus their home for the last month, and who seem to think that they have found a fine hunting ground on the gopher infested portions of the campus. A sudden rush and the slow beat of the heavy wings will surprise the casual wanderer on the campus and as with upturned head he stares he will see the great birds which are inhabiting the wooded slopes make their way to safety.

The owl is the most efficient rodent catcher that is known to man. As a mice catcher he has the house cat backed off the map. In fact, poor tabby is more of an ornament than a useful animal compared with the owl. The cat will kill a large number of song and insect-eating birds if allowed to roam instead of contenting himself with mice. Next to the owl as a rodent catcher the bull snake is the runner-up. All snakes are useful in this matter.

Campus workers expressed themselves as delighted with the coming of the owls, for they think that in a few months the gophers which have been marring the beauty of the campus will be exterminated. While the owls have been seen a number of times the exact kind of owl is not known.

HIGH TENNIS TEAM LOSE TO VARSITY MEN

More Experienced Players Have No Difficulty in Taking Matches.

Varsity tennis men took two matches from the doubles teams of the High School when they met last Saturday on the Varsity courts. Much good tennis was displayed on both sides of the net, but the Varsity men had little trouble and were never in danger of losing the match. The first match, in which William Sganzi and Bruce Bevans represented the Varsity against Owen Marron and Max Merritt for the High School, was taken by the University men 5-7, 6-4. The second match between Frank Reeves and Vernon Wilfley for the Varsity and Ralph Marron and Glassman for the prep. school also went to three games, 4-6, 6-4, 6-4. It had been expected that Eller would be mated with Marron in the second match, but his place was filled by Glassman instead.

AMENDMENTS TO CONSTITUTION TO VOTE

Two amendments to the Constitution are to be voted upon at Friday's assembly. Both are rather important.

The first is to empower the Student Council to interpret the Constitution. At present there is no power vested with this authority and it is obviously important that there be some "court of last resort" to pass on matters affecting the Constitution.

The other is to change the time of election of the Weekly editor, etc., to March instead of May, thus making it come at the same time as the election of all other student officers and avoiding the waste motion of two elections.

During the past year the following were noted:

The gift of \$1,500 by citizens for the grandstand, \$800 of which was

BIG TRACK MEET HERE MAY EIGHTH

University of Arizona Track Representatives to Contest With Cherry and Silver.

On Wednesday, May the 8th, the Arizona track team will meet the Varsity team at University field. Our chance to take a little of the sting from the football defeat is at hand, and all dope points very decidedly to the fact that we will do it.

The team is working conscientiously and have high hopes of winning. Captain Gerpheide guarantees that the best efforts of the men will be put forth on the day of the meet. The best efforts of the team and real, old-time support will mean a defeat for Arizona.

The manager is very anxious to have a record crowd out. Expenses are unusually high and the field must be filled to keep the sport on a financially sound basis. The track men have been faithful, now let the student body show that it is behind the team by advertising the meet, wringing their friends and selling tickets. Let's all unite in making the meet a success from every angle.

WILL PLAY TENNIS WITH ARIZ.—TWO-MAN TEAM

Coach Roy W. Johnson announced today that all arrangements had been made to play the University of Arizona both singles and doubles at the same time, May 4, when we meet them in track.

The U. of A. is sending a two-man tennis team besides the ten or more men who will come to participate in the track meet.

While the coach has not selected his men to meet with Arizona, it seems that without doubt that some of the good material which is being brought out by the present tournament will be used.

There will be a short, snappy meeting of the A. A. E. on Tuesday in the Practical Mechanics Building at 12:30.

Fred Calkins was a visitor on the hill last week. He came in to be at the Sigma Chi banquet.

CHERRY AND SILVER NINE LOSE TO REDSKINS, 7 TO 8

Game Played at United States Indian School Grounds.

The University nine met with defeat at the hands of the United States Indian School when the Redskins took the narrow winning margin in the 7 to 8 score Saturday afternoon at the Indian School grounds.

Cartwright and Bramlett formed the battery for the University and Burnside did the twirling for the Indian School nine. The Indians took the lead by making three runs in the first inning and managed to keep the lead throughout the game despite the efforts of the Cherry and Silver men.

The University line-up follows: Bramlett, c; Cartwright, p; Huffine, 1b; Bernhart, 2b; Bryan, ss; Swinney, 3b; Moore, 1f; Brown, cf; Scoopmire, rf; Wilkerson, sub.

Word has been received from Betty Arnot, an alumni, that she will return to this city in the near future. Miss Arnot has been teaching for the past year at Bisbee, Arizona.

Anita Osuna has accepted a position as a professor in Spanish at Leland Stanford University. She will enter on her duties in the fall.

Seniors, O'Brien Pearce, Vernon Wilfley, Ed Horgan, and George Bryan, who constitute the total active membership of the Khatahle Senior Honor Society, met for a short get-together and business meeting. While the organization is still a comparatively

Staff Meets Every Monday at 12:30 p. m., Seminar Room.

Entered in the Post Office in Albuquerque, New Mexico, February 11, 1914, as second class matter.

FRIDAY, APRIL 29, 1921.

THE END.

With this issue of the Weekly the present management lays down the wheel and retires to the blissfulness of private studentship. For nine months we have been the faithful servants of the student body trying to the best of our efforts to give them the kind of paper they wanted. We have put the best of our effort into the result which, when looking back over the past year, seems meager in our now more experienced eyes, for through mistakes we have learned.

Journalism is a fascinating game and even in the little paper which we have been in charge of almost all the factors which enter into a large city paper come up. We realize that we have not always put out a perfect paper from the newspaper man's point of view, but our mistakes were because of ignorance, not intentional carelessness. We have made enemies for ourselves and the paper during this year, but only because we have done what we thought was right despite consequences. We have made many friends which will last through life, we are sure.

It is with a sigh of relief that we lay down the burden and it is with a smile of welcome that we view the new management, for we know that they with splendid energy will take up the work where we have left off and carry the Weekly on to the more promising fields of service which lie before. Always keeping in mind that to make the Weekly better, as a newspaper, as a force in the student body, as a working element in promoting the welfare and success of our Alma Mater and as a spokesman of all that is right, is the goal before every editor and manager of this paper.

We predict fine things for the paper next year. We believe that there is nothing which will stand in the way of putting out a large paper with the "return to normalcy" in business, for it has been this year not a question of news but it has been a question of finance. The paper has been outgrown by the news supply, as was so ably shown by the larger paper which we put out this year while business conditions permitted or rather supported it.

The editor, manager and staff which retire with this issue feel that their reward is not and will not be in the plaudits of an admiring crowd, as the athlete who wins the century event of the track is rewarded, but we will receive our crown in the personal satisfaction of doing a job well and working to the best of our ability with the mechanical aids which we have.

North—"I see they're reviving the talk about trial marriages. Do you believe in them?"

West—"Well, mine is quite a trial, but I can't say I believe in it especially."

SPRING.

Yes, we are almost sure spring is here. And why? you may ask. Because, is the answer, it is so hard to study. Yes, the student needs to look out from now on for the gentle zephyrs of spring (not many lately, mostly hurricanes) will likely tend to drag him away from his studies. But because it is hard to study now is an added incentive to hit the ball harder and land old grades. We are here for a purpose, and that purpose is to learn. Dig in, bring home the bacon and be proud that even spring can not bring down your grades.

TRACT MEET TO BE SUCCESS.
(Continued from page 1)

to rules of the interscholastic athletic and lyceum association, will consist of the following events: 100 yard dash, 220 yard dash, 440 yard dash, 880 yard run, one-mile run, pole vault, high jump, 12 pound shot put, discus, javelin, running broad jump, 120 yard high hurdles, 220 yard low hurdles, and the one mile relay.

On the second day of the meet a lyceum contest will be held, consisting of orations for the boys and declamations for the girls. Each speech will be limited to fifteen minutes. The lyceum contest will also be conducted according to the rules of the interscholastic athletic and lyceum associations.

The gate receipts from the meet will be divided among the high schools sending teams according to the number of contestants and distance traveled.

Details are at present being arranged for an interscholastic tennis tournament to be played during the meet.

WHY HE APPLIED.

Wild Bill, chauffeur out of a job, was being interviewed by a prospective boss. Wild Bill's regard for speed laws was nil, but his love for the naked truth was as constant as that of the juvenile Washington.

"How many employers have you had this year?" questioned the magnate.

"Sixteen, sir."

"What in the world do you want to change for again, then?"

"Well, you see," explained Wild Bill, veraciously, "fifteen of them were killed in smash-ups and the sixteenth ain't out of the hospital yet."

—The American Legion Weekly: Mrs. Eve—Does your husband remember the anniversary of your marriage?

Mrs. Wye—Never; so I remind him of it in January and June and get two presents.—Boston Transcript.

The kirk was in urgent need of repair, and Sandy McNab, a very popular member, had been invited to collect subscriptions for the purpose.

One day the minister met Sandy walking irresolutely along the road. The good man at once guessed the cause.

"Sandy," he said earnestly, "I'm sorry to see ye in this state."

"Ah, weel, it's for the good of the cause," replied the delinquent, happily. "Ye see, meenister, it's a through these subscriptions. I've been down the glen collecting fun's, an' at every house they made 'me tae a wee drapple."

"Every house! But—surely, Sandy, there are some of the kirk members who are teetotlers?"

"Aye, there are; but I wrote tae those!"

BATHING SUITS at MATSON'S

SOCIETY

Cupid has evidently taken a great interest in our Varsity affairs. Seems as though it would be advisable to run a matrimonial column in our Weekly—two weddings and two recent engagements! The social functions of the week were not as numerous as is usual at our lively University, but those which occurred were exceptional for the gaiety to all participants.

PHI MU PATRONESSES

Phi Mu Sorority was elaborately entertained by a number of its patronesses with the dansante on Friday afternoon from four until seven o'clock at the spacious home of Mrs. W. W. Connell. Mrs. Connell, Mrs. Roy McDonald and Mrs. L. Huning were joint hostesses, and were assisted by other patronesses. About fifty guests were present, the men having been "sufficiently urged" to come. The house was filled with purple flags, lilacs, and lavender and rose sweet-peas. The refreshments consisted of coffee and sandwiches, ice cream, candy and dainty cakes. As the day was a perfect spring one, punch was served on the screened porch, which proved a favorite haunt for the guests.

SIGMA CHI FIFTH ANNUAL BANQUET

A milestone in Sigma Chi's life of the year was the fifth annual banquet of the fraternity held Saturday evening in Taft hall at the Alvarado hotel. The hall was decorated in the fraternity colors of blue and gold and was filled with flowers. Edmund Ross was toastmaster. Several extemporaneous toasts and speeches were made by members, alumni pledges. The last, made by Attorney Rodey, an alumnus, was the feature of the evening. There were places for forty men at the table.

DEAN AND MRS. MITCHELL

Dean and Mrs. L. B. Mitchell were at home to the students enrolled in the department of Latin and Greek Sunday from four to six o'clock at their home on 1307 East Central Avenue. Refreshments were served to over twenty guests, who called during the afternoon.

PI KAPPA ALPHA DANCE.

Pi Kappa Alpha fraternity were hosts Saturday evening at the Masonic Temple at an enjoyable dance for their friends. The hall was attractively decorated with P. K. A. colors, an appurtenance that added materially to the pep and enthusiasm of the dance. And the music by the Sandstorm Jazz completed the setting for a jolly good time. About sixty-five couples were present.

Douglas Howden, J. S. Ward and Walter Ward formed the committee in charge. Mr. and Mrs. Thos. Hughes acted as chaperones.

PI KAPPA ALPHA SMOKER.

The Sigma Chi fraternity members were the honor guests of the Pi Kappa Alpha fraternity at their chapter house Sunday afternoon. The affair was the last of a series of successful entertainments given by the fraternity for the various organizations of the University with the aim of promoting a closer comradeship between all the students and faculty members.

Y. W. C. A. TEA.

The University Y. W. C. A. will hold a Silver Tea Saturday afternoon from four to six o'clock at the Woman's Club. All friends are cordially invited. The object is to enable the organization to send delegates to the Estes Park conference which is to be held in June.

DORM. DANCE.

Rumors are circulating of another of those celebrated girls' dormitory dances, to take place Saturday night in the girls' gymnasium.

WEDDINGS.

With sighs of regret and the keen knowledge that "our loss was another's gain," the student body read of the marriage of captivating little Miss Pepita Espinosa, a Phi Mu pledge, to Mr. Wilbur Roslington of this city. The wedding was held in Los Angeles last Friday.

The young couple were very prominent in all circles while attending our school and their many friends wish them long years of happiness.

Miss Maude Rodney of Roswell, a student at the University last year, and Mr. George Anderman of Albuquerque were married in Roswell, Monday, April 18th. Miss Rodney is a Phi Mu and Mr. Anderman a Phi Delta Theta of Chicago University.

Announcement has been made of the betrothal of Donald Wilson, a former student, to Miss Frances Spencer, of Colorado Springs.

Miss Rose Maharan, also a former student, has announced her engagement to Mr. Albert Stein of Los Angeles. Miss Maharan is to be a June bride in Los Angeles.

PRESENT STAFF HOLDS LAST MEETING

On Monday the present staff of the Weekly held its last staff meeting. It bid fair to be a rather gloomy occasion until the editor produced a large box of candy and a handful of cigars. Then it turned into a joy feast.

There were expressions of regret at the severing of such pleasant connections, but on the whole the staff was glad to turn the responsibility over to the incoming staff.

A young doctor opened an office in this village a few years ago and gave the following advertisement to the local paper:

"W. B. C." Physician and Surgeon. Office over A's under-taking rooms. Use undertaker's phone for the present."

This ad was changed the following week, and the doctor had his own telephone installed.—Docket.

Betty Morrisette is in town for a few days.

LOCALS

Ralph E. Meyers, a U. N. M. graduate, was in the city for a period of ten days recently, on his way from Hurley, N. M., where he has been doing chemical research work for the Chino Copper Co., to Galveston, Texas, where he has accepted a position as chemist for a large creosote company.

Louis Hesselden and several U. N. M. alumni motored to Jemez Springs over the week-end.

The Rev. D. P. Lawton, S. J., will address the student body on Friday, April 29, at the weekly assembly on "Radiant Ideophony," a symposium.

State School Superintendent Conway has appointed President Hill on a committee to assist the state board of education in revising the system of certifying teachers and changing the courses of study at the Normal University and the Normal College.

Roswell High School won the interscholastic track meet for that section of the country at the N. M. M. I. meet, by the large score of 63 points. Hagerman was the nearest contender, with 19 points, and Artesia third, with 11 points.

Walter Gilbert, Cullen Pearce and Max Ferguson are working at the Central Fire Station.

George Bryan was out of school for a few days last week because of illness.

"TRADITIONS FIRST THOUGHT OF GRADUATE ON RETURN."

Have you ever happened to notice when an old "grad" comes back to look over the old institution for a few hours that he likes to talk to some one about something that happened when he was in school? Sure you have. Also you know that you like to get the bunch together and talk about the things that happened last year or the year before that. Well old "grads" are like that the world over, and in older schools they manage to have something happen every day that has been happening yearly for a good long time back. Then when the old "grad" comes back he can talk to the fellow who is yet to be a "grad" on a subject of general interest to both. They call it TRADITION. Every one knew all about it way back in the "nineties" and every one knows about it now. Tradition holds the old "grad's" interest. Tradition holds up the spirit of the undergraduate.

We used to have a few traditions here but they have all been killed. Let's bring them back or get some new ones.

A good tradition must be one that can hold up the public eye with pride. We must each one believe in it. It must be worth perpetuating. It must be perpetuated. If it is good enough it will live of its own accord. It will be passed down from year to year until, when we, as old "grads," come back we will then meet it as an old friend, an old landmark.

(Signed) AN ENGINEER.

RULES OF OPEN CHAMPIONSHIP FOR DIECKMAN CUP

1. All male students at University eligible and in good standing are entitled to compete.
2. Matches must be played on schedule.
3. Drawing for opponents will be made for the first round.
4. Entries for the open championship must be turned in to Coach Roy W. Johnson.
5. The cup becomes the permanent property of the winner.

DEBATERS OFF TO ARIZ. TO SPEAK THERE

Manager Goes With Team.

The University debating team, consisting of Charles Caldwell and Marvin Crawford, left for Tucson, Arizona on Wednesday evening at 10:10 to debate with the U. of A. A small crowd of students saw the party off. Manager Walter Burger accompanied the team. They expect to return next Sunday evening.

"WHAT IS AN ENGINEER?" THE ENGINEER EXPLAINED

Really, now, did you ever stop to think what an engineer is? Most every one just accepts the engineer more or less in the spirit of a necessary evil. It is too much trouble to go out of one's way to inquire into the parts of the other man's business that we are not forced to see.

In school, we find the engineer takes courses that do not interest most of us for one reason or the other. As a rule we find the engineer a fellow who does not get his enjoyment from brilliant social affairs. He is not much for show. Furthermore, on account of heavier courses, he is not able to even devote as much time to the social side of his education as he should. In the outer world away from student life, we find that much the same relation exists between the technically trained man and the average citizen.

Did you ever stop to think what engineering really means? You see a man traveling about with an instrument and a tripod and a rod, etc., and you say he is a civil engineer. If someone were to ask you what you thought a mechanical engineer did you'd probably tell him that he oiled the engines in the power houses and fixed Ford cars. Now, wouldn't you? We naturally get our impressions from what we are forced to see.

Under the head of dependent occupations might be classed lawyers, doctors, musicians, artists, etc. Their work is to help make the machinery run more smoothly. But essential to everything, we must produce something and then we must use it to an advantage. This is the engineer's field. He builds, he advises, he co-operates. He uses things nature endows us with to make man's task lighter and his stay on earth more pleasant.

Think what this field is. Think what it has done and is being done and is planned to do. What would we do if we had no roads, no structures other than which could be built without hundreds of years of scientific teachings back of them? What if we had no railroads? Suppose we plowed and sowed our fields by our own strength as the peasantry of Europe do today. Suppose electricity or steam had never been harnessed. Suppose we were left individually to produce and build for ourselves without an inkling of the things men have learned other than what passed from ear to ear.

Who makes it possible to avoid this? Why the engineer. He used the materials nature provides to suit the needs of man. Everything that is built is engineering work. It is the engineer's work to harness nature's forces. In his hand nature places the raw material as clay in a sculptor's hand. He produces the uncountable things about us that we use every day and do not think of why it is or where it came from. An untold number of engineering principles are involved in making it possible for you to read this printed page and engineers shaped the forces of nature to make it possible.

STUDENTS' NOTE BOOK COVERS AND SHEETS

We have put in the De Luxe line of Students' Note Books and Sheets. We have the sheets in regular and quadrille ruling.
