Come Out For Varsity Sing Friday Evening on the Campus

FRESHMEN TRIM SOPHS ON VARSITY DIAMOND

New Precedent Established in Freshman-Sophomore Baseball Game.

To the cheers of enthusiastic fans and gibes of the belligerent factions, Wednesday at 4:00 p. m., the ever warring freshmen and sophomores gave a five inning exhibition of the national game on the Varsity diamond.

The freshmen proved the better wielders of the "stick" and when the scorekeeper lost hope and begged for an adding machine the score was found to be 24 to 7 in favor of the new men. The freshmen did not bat in their half of the fifth inning, the game being called on account of the dark outlook of the sophomores.

Corey and Dennis formed the soph. battery, while Matsen did the mound work and Chandler caught for the freshies.

In the fourth inning Capt. Simmons, of the old heads, determining to pitch and thus stop the opponent's terrific batting, was hit for ten runs. Captain Wimberly occupied the mound for the new students in the fifth inning. He previously scored a home run off Corey's delivery.

Prof. Wand umpired the game—and got away with it! Perhaps it would be better to say: got away with himself.

This game established a new precedent in the athletic activities of the University of New Mexico, and the present freshmen, upon becoming sophomores of '16, will see that the performance is repeated with, if possible, no reverse in the score.

There is rumor afloat to the effect that a freshman-junior, senior game will be negotiated in the near future. The freshmen, flushed with their recent victory, are ready to take on all comers.

REGISTRATION NEARS TWO HUNDRED MARK

Interesting Facts Brought to Light With Regard to Nativity of Students.

With 190 new and old students to date, there appears no doubt that the total registration of the University of New Mexico this session will reach the long coveted 200 mark. At the same time last year only 137 had reported, a difference of fifty-three.

The strange thing about this year's registration is that although there are more students registered than ever before, more than three-fourths of the entire student body were born outside the state of New Mexico. Thirty-four different states and five foreign countries are represented. We have one student here from Mexico, one from Canada, one from Austria, and one from Germany. With regard to sectional division, we have with us one

(Continued on page 3)

FOOTBALL RALLY LAST TUESDAY

There was a bunch of very striking stuff scattered at the fair and football rally last Tuesday. But the most striking stuff that stuck was Hutch's promise to the students: "If you give football the proper support, the team will come through and clean up." Suffice it to say here that this "cleaning up act" has been the University's goal for years; and it is in sight now provided the team gets the proper support from you. Let's have it.

Dr. Boyd Airs Sentiments Concerning Fair and Football.

The fair, in Doctor Boyd's estimation, is to be a great thing. He spoke of the efficiency of those who are at its head and also urged the necessity for University support. Then he opened his football enthusiasm and made a speech. He told how we must need clean up the state, how we could depend on the faculty for support; and how he figured that we had the best coach that ever broke over the N. M. border. Recalling to mind the importance of the mass meeting Monday night, he called on "Doc." Wiley for a half hour's speech.

Mr. Wiley Enthuses at University's Opportunity.

The time will come with the fair

when the different factions of the state will be united. This means that the next legislature will treat the University as a state institution and not as an Albuquerque asset and govern appropriations accordingly. He told of a challenge received from the N. M. M. I. for a football game and other athletic activities during fair week. At a recent meeting of the men of the student body later these other athletic activities was defined as a track meet and the challenge was then accepted with the football challenge.

Hutch and "Red" Line Off Football Dope.

These talks can best be summarized in Hutch's promise at the beginning. He wants your support; the team needs it; the University requires it—almost. Fill up the bleachers and learn the game. And now for the clean up. A lot of Varsity yells closed the meeting.

Monday Night a Marker.

To see what the regular University spirit is look at Monday night.

Such spirit is going to characterize the U all through. The state fair can look for an unlimited store of support; and in the football line—keep an eye on the indicator.

PROF. WORCESTER GIVES A LECTURE

An Interesting Collection of Pictures Shown at High School Auditorium.

That the Philippines have made a wonderful advancement in civilization under American direction was the point Prof. Worcester emphasized most strongly in his illustrated lecture at the high school auditorium Thursday night, given under the auspices of the Woman's Club.

The subject of the lecture was: "What America has done for the Philippines." Prof. Worcester is a man well qualified to handle such an interesting subject, having spent two years in the islands engaged in educational work among the native Philippine tribes. During his stay he had sufficient time to study the characteristics peculiar to the different tribes, and is an authority in this field. Such a lecture by such a man could but be valuable and highly instructive to the fair-sized and appreciative audience to whom the lecture was delivered.

There were 120 slides shown, treating of the every day life, and illustrating the conditions in the islands before and after the American occupation. Pictures of roads, bridges, and towns also slides illustrating different industries and health conditions, were exhibited and commented upon fully. This set of pictures treated the conditions of life among the more civilized tribes. Stress was laid upon the point

(Continued on page 3)

TWENTY-FOUR MEN OUT FOR FOOTBALL

Pep is the Password; Bring Along Your School Spirit and Help 'Em Practice.

Football! Football!!! Football!!! That's the one bog noise about the campus, the dormitories, the dining hall. Instructors are fighting hard to keep the tall talk from invading the class room.

What was the breezy, interest-compelling subject discussed at assembly Tuesday morning? Football!

What was the "pep" meeting about in the gym Tuesday noon? Meeting Roswell athletically. Football!!

What are all the students yelling about? Football!!

If you haven't got your megaphone, get it. If your lungs aren't strong, start now and get back that voice you had when you kept papa walking the floor with you and the neighbors cussing you all night.

We've got the football team this year that is going to take the state championship in a walk. If we can't get it in a walk we'll run for it, fight for it. But the point is we are going to get it—the state championship—and we don't want to be too modest in letting people know about it, and how proud we are of possessing such a bear of a team.

Why have we got such a team?

Do you know that "Hutch" is absolutely the best coach that has ever

(Continued on page 3.)

RHODES SCHOLARSHIP EXAMS ANNOUNCED

U. N. M. Students Have Excellent Chance for Valuable Oxford Scholarship.

There are not many students of this University who know that they can qualify for the Rhodes' scholarship to Oxford, England. This scholarship is awarded twice every three years to each state and territory in the United States, and is of the annual value of \$1,500. On account of there being so few places in New Mexico able to give instruction in Greek and Latin of college grade, this state, for a long time yet, will be one of the best in which to seek appointment, as the competition will be far less keen than in the states of larger population with a greater number of college institutions.

The examinations qualifying to appointment of Rhodes scholars is to be held at the University of New Mexico for the state of New Mexico, the fifth and sixth of October. Qualifying examinations are held every year and a candidate having once passed the examinations is eligible to appointment until he has passed the age limit. No appointment from this state is made until December, 1916. If anyone is appointed at this time he will begin his Oxford residence the following October (1917).

It is not too soon to begin thinking about these scholarships while still in the high school. No one has so far announced that he will try the exams this year. There are six or eight men in the University preparing themselves to take the examinations next year. Every student interested in this scholarship should get the U. N. M. Bulletin No. 73 of the Educational Series, or get in touch with Prof. Mitchell.

VOLCANOES VISITED BY GEOLOGY CLASS

Trip to Volcanoes Proves to be a Geological Picnic.

With tired corns and sunburnt faces the geology class, chaperoned by Dr. Kirk, returned Saturday evening, Sept. 18th, after an all day's outing to the volcanoes west of Albuquerque, and declared themselves as having not only an instructive trip, but one filled with the pleasures of a picnic.

This geological picnic left the business center of Albuquerque a little after eight a. m. in the University bus, took the Barelaz road, crossed the "quick slivery" Rio Grande and made their first stop at the large sand dune a mile west of the river. In this vicinity each student made a collection of minerals. The only exciting incident that occurred at this stop was a sand fight, in which Miss Rebecca Horner emerged the victor. From the sand

TUESDAY, SEPTEMBER 28, 1915.

WHY NOT GO TO CRUCES?

This is not too early in the season to begin thinking and talking about the ways and means we intend to use to boost our football boys. It is all very well and good to preach the doctrine of "take your recreation on the bleachers." That has its place, and helps a whole lot, but the question we should be thinking about earnestly is, what can we do to cheer the boys on to victory during the moments of the big games. We are going to have a championship team; we have announced that fact before, and it is a sure thing. But games are not won by the efforts of the men on the field alone, not unless they have the clear knowledge that they have a united student body backing them to the last moment of play. Were we to meet all our opponents on our home grounds. The big game of the year will be played on the athletic field of our ancient and honorable rival, the A. and M. College, on Thanksgiving day. The question naturally arises: "How can we boost a game that we can't even see?" Why not see it? Why not go to Cruces? Show these people that we are alive up here. Why, they don't even know that we exist. Don't say that such a proposition is impossible to carry out. How do you know that it is impossible? We never know what we can do till we try, and now is the time to get busy. A car might be chartered at a reasonable rate, our band would accompany the team with about forty rooters besides, and before the game ended we could make that bunch of farmers look like a shot of brandy at a German beer bust. Think this over.

THE FRESHMAN.

Although sophomores and upper classmen are heaping contumely and woe on the head of the hapless freshman in these September days, he still possesses claim to consideration. Strong in a youthful ardor which has been thoroughly inflated by the praises of his high school commencement, the new student at the college or university finds himself in the midst of perplexing surroundings. To be sure he has not abandoned altogether the self-esteem and cocksureness which have characterized his utterances to the family circle, but inwardly with what real misgivings, with what anxiety, does he contemplate the great, self-complacent, not to say scornful, institution before him.

Down in his heart the boastful freshman knows that the tests of the past are as nothing compared with those before him. Credited with crass boldness, he frequently is endeavoring to cover up shortcomings of which he is only too painfully aware. The college with its exacting but more or less artificial traditions, the formidable array of new textbooks on his shelf; indeed, the capacities of his own unfolding personality—all are unknown quantities to him, possessed of a man's body, albeit adorned with clothes which would put a man to confusion—what can the freshman do but simulate?

Through the chastisings of the not too superior sophomores and the academic rod of his professors the freshman soon becomes a real asset to the school and the world.—Exchange.

GEOLOGISTS VISIT VOLCANOES.

(Continued from page 1.)

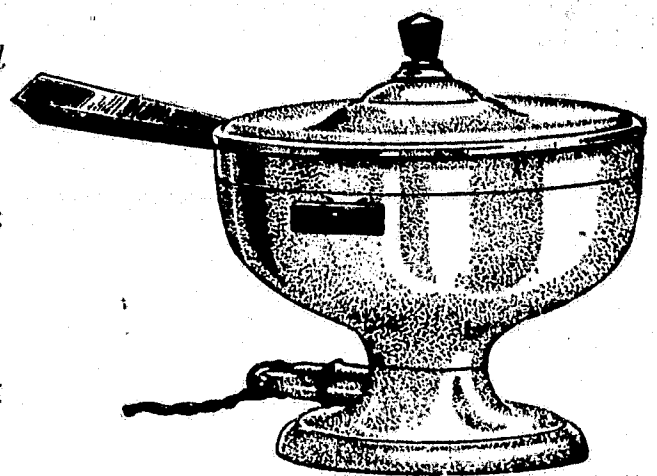

dune, the class continued its journey over "slow paky" boulevard, so called by a member of the party, and encamped at the ridge of the volcanoes about a mile from the first volcano to the south. Lunch was had at high noon and every one had plenty to eat, all the way from sandwiches to deserts. At the close of the lunch hour the real tramp began. The party split into two divisions, the first section, under Captain Upton, took the height of the ridge at one point, while the second division inspected the lava farther to the north. The two division joined at the first volcano, took a brief rest, and proceeded en masse to the third volcano to the north. It was during this tramp that Miss Arnot and the other girls became horrified at the sight of a large crawling snake. Messrs. Eldott and Knox arrived a few seconds later, but finding that they had left their implements of war back in the camp, decided that the snake was perfectly harmless, and to let the poor thing go. The cave in the third volcano was the last point of interest before the return trip was begun.

Those who made the trip besides Dr. Kirk were: Miss Rebecca Horner, Miss Elizabeth Arnot, Miss Fern Reeves, Messrs. Eldott, Roy Hall, Upton, Sincesio, Taylor, Ray, Knox, and Ernest Hall.

Emmet Hannum was on the campus Thursday saying good-bye to his old friends. Emmet left Friday night for the University of Chicago where he will take up a medical course.

FIRST VARSITY SING FRIDAY NIGHT.

The first University sing ever pulled off will be celebrated on the campus Friday night. Prof. Edington is in charge of this affair, and you can be sure there will be a few surprises ready and waiting. Anyway the band will be there to help things along, yells will be yelled and songs will be sung, and a good time is promised for everybody. Don't fail to be in on the merriment.

PROF. WORCESTER LECTURES.

(Continued from page 1.)

that wonderful progress has been made by the Philippines under the guidance and instruction of Americans, but that the moment that guiding hand relaxed its hold upon them all progress came to a dead stand still, and civilization began to take backward strides. This point could not be emphasized too strongly in view of the stand lately taken by ex-president Taft and others, and the recent comment aroused in the newspaper world with regard to the question of withdrawal from the Philippines.

Prof. Worcester has another set of slides, illustrating the conditions of life existing among the wild tribes of the islands, which he offers to exhibit to the students on the hill and to any down town people who may be interested. The proceeds to go to the athletic association.

TOURNAMENT PROGRESS.

Men's Singles.

R. McCanna won over Doering.
E. A. Gerhardt won over Lowden.
Wimberly defeated Gouin.
J. McCanna defeated Prof. Edington.
Claiborne won over Seder.
Threlkeld won over Olds.
Butler defeated Fielder.

Men's Doubles.

Doering and Edington defeated Wolking and Lowden.
Seder and Worcester defeated Upton and Fielder.
Butler and Threlkeld defeated Hunt and Vincent.

Women's Singles.

Fergusson won over Gustafson.
Helen Vincent won over Blaxter.
Beals won over Von Wachenhusen.

Women's Doubles.

Vincent and Fergusson defeated Beals and Dunn.

Mixed Doubles.

Lowber and Seder won over Sterns and Hunt.
Fergusson and Claiborne won over Beals and Threlkeld.
R. McCanna and Von Wachenhusen defeated Brorlein and Kieke.

DORMITORY PARTY.

Miss Allen gave a little party and spread to a number of her dormitory friends Friday evening. All who attended voted Miss Allen an excellent host.

DANCE OF WEEK.

Mr. Harold Perry was host of a dancing party given at the Masonic Temple Friday night. The dance was by far the most brilliant social affair of the week. A number of University students were present.

The affair was in honor of Miss Evangeline Perry who leaves this week for California where she will attend the "Girls Collegiate" in Los Angeles. Music was furnished by the Jones orchestra, an brunch was served during the entire evening. A delicious two course luncheon was served at 12:00 o'clock.

On the receiving line were Mr. and Mrs. Perry, Harold and Evangeline Perry.

REGISTRATION NEARS 200 MARK

(Continued from page 1.)

student of New England birth; the Southern States of Confederacy are well represented with forty-three students, and forty-nine students are here representing the Rocky Mountain and western division; while the middle western states carry off the prize with a representation of eighty-five students; This would tend to show that New Mexico is being populated by this section more rapidly than by any other, and that the great proportion of the citizens of the state are from the middle West.

Thirty-five members of our student body are New Mexicans by birth. The next state down the line is Texas. Sixteen longhorns decorate the campus on week days. Illinois comes next with eleven, etc., *ad infinitum*.

Another interesting fact to note is that the University has added five counties to its registration list. Only four counties now remain with no representatives. And again the largest county in the state, Socorro, has but one student here.

24 MEN OUT FOR FOOTBALL.

(Continued from page 1.)

crossed the line into the Sunshine State?

Do you know that twenty-four of New Mexico's best sons are out on the gridiron every day, chasing the pig skin, tackling the dummy, and skirmishing among themselves.

If you do, you are a live wire and you have the Varsity's O. K., but if you have not, come out to the athletic field tomorrow afternoon at four o'clock and see for yourself. It will put new life into you.

Get acquainted with Hutch and assistant coach Lee. See the old stars in action: Captain Balcomb, Jack LaPrak, McGary and Brorlein. Pass your judgment upon the new men who are showing up well: Adelott, Nohl, Ray, "Young" Feather, the giant Langston, and others.

If you haven't seen the boys tackle the "dummy" you have missed a treat. You've seen a hungry dog go after a hunk of fresh meat, haven't you? Well that's the way the boys treat that dummy—that's how the coming champions practice.

Then the skirmishes—just like a real dollar game, only it's between the home boys.

Again, let us repeat, come out and see the boys in action. If you haven't school spirit already, you'll absorb enough to last you many moons.

LOCALS

A "local box" will be placed in the hall near the bulletin board this week. Please have a heart and contribute some news, anything thrilling or interesting, to help make the local page of the Weekly a live one.

The Weekly office is in receipt of a letter written on the back of thirty-six inches of a return trip railroad ticket from Los Angeles to Albuquerque, punched in many holes with a complete description of Alma Baldrige, stating that the owner of said ticket is not making use thereof. Nevertheless, Peto, we're all looking for you back next semester.

Robert Hopewell enrolled as a freshman last week.

Girls, pay your Y. W. C. A. dues to Ruth McKowen and come to the meeting Wednesday afternoon. A clever poster drawn by Carolyn Michaels registers our membership campaign. Watch us grow!

Ruth McKowen entertained at tea at Hokona Saturday afternoon in honor of "Cousin Sally," Mrs. S. A. McKowen of Baton Rouge, La. Mrs. McKowen is on her way home from visits in Alaska and at the fair.

Miss Lillian Spickard of Nashville, Tennessee, is one of the new students to enroll last week. Miss Spickard is living in Hokona.

Fred Sabin is the proud owner of a handsome Cadillac "8." With Lizzie and Caddy on the campus the University can now organize a live automobile club.

FOUND: In Dr. Boyd's automobile, late last Thursday evening, a black and gold gauze butterfly and a pink silk handkerchief. Owner, please apply at president's office.

Miss Elizabeth Simms left last Wednesday for her old home in Herkimer, New York. She expects to spend the early winter in the East, and return to U. N. M. some time after Christmas.

J. Wickliffe Miller, a former Varsity student, was a visitor on the campus Thursday.

A mesa party was enjoyed Friday night by the Sigma Tau fraternity men and their lady friends. After a four-course luncheon served on the mesa, the party returned to Rodey Hall and danced until ten o'clock. Miss Margaret Gleason chaperoned the party. A jolly time was reported.

Y. W. C. A.

The first meeting of the Y. W. C. A. was held last Monday for the purpose of electing a president. The officers for the present year are Louise Lowber, recent representative of the University at Estes Park, president; Lydia Craxberger, vice president; and Ruth McGowen, secretary and treasurer. The cabinet, which is the executive committee of the association, will be appointed from the membership, at the first general meeting Wednesday, and the advisory committee of the faculty and city women will be chosen at the same time.

The meetings of the association are scheduled for Wednesday afternoons at four o'clock until further notice. Miss Winn, secretary of the city association, has promised to take charge of the Bible study, and the course she will give, "Student Problems," will be very interesting and helpful.

The very spirit of a student Christian association impels it to seek to enlist in its membership every woman registered in the institution. Membership in this, the world, as well as the local association activities, and the desire to have some share in them will appeal to every girl at the University.

Prof. Weese and his botany class, which is making a study of Rocky Mountain flowers, and particularly of Mexico plants, are planning to spend the week-end at Camp Whitcomb in Tijeras Canyon. The party expect to make the trip up to Rim Rock in careful search for native mountain wild flowers.

BAND UNIFORMS ORDERED.

The uniforms for the band men have been ordered at last and will be here some time before the opening of the fair at which time the boys expect to pull off their first dress parade. The uniforms will be gray in color with red trimmings. New musical selections have also been ordered, and when our department of melody marches down Central avenue for the first exhibit you can bank on it that you will be treated to some genuine music.
