BACCALAUREATE SERVICE GIVEN

Large Audience Sees Processional and Hears Address.

Sunday afternoon at three o'clock in Rodey Hall was rendered one of the most impressive addresses ever heard at the University when the Right Reverend Frederick B. Howden, bishop of New Mexico, gave a splendid baccalaureate sermon for the graduating class of 1920. The U. N. M. orchestra furnished excellent music, and the mixed quartette also favored the audience with several selections.

Bishop Howden is a pleasing speaker, and his address was brief and straight to the point, being full of pointed remarks for both Seniors and undergraduates. He emphasized the fact that it is the inalienable right of every man to have high ambitions and to strive to attain high positions but it is the duty of every person to use the powers conferred on him to the best advantage of society in general, and not for his own personal benefit. Usefulness and service are the two high aims of the useful life, and the character of the individual should be considered all important.

To the Seniors, Bishop Howden concluded with the following:

"To go forth into the world today, teeming as it is with needs and presenting golden opportunities for service, with no higher motive than the mere pleasing of ourselves, would be a tragedy, but to go forth with a purpose to make the largest contribution you possibly can, for the benefit of our common humanity and the glory of God, is that for which you have studied, and what the world and your country have the right to expect of you. And in the making of that contribution remember, above all else, your own character is of chief importance."

"AND GNASHING OF TEETH."

(By our special correspondent from Pajarito, N. M.)

"And there shall be wailing and gnashing of teeth."—The Bible.

This famous saying was written many years ago, in fact, ages ago. It refers, I believe, to the judgment day that will come with the end of the world. But I believe it also refers to a judgment day that does not come at the end of the world but at the end of a school year. If there is a time that this quotation applies to it is the last week of school.

The only objection that I have to this quotation is that it doesn't put things strong enough. The great majority of our students have a lot more serious effects from the final examinations than mere gnashing of teeth. Stop and consider some of the terrible things that have happened to students from the final examinations; lost self

(Continued on page 3.)

VARSITY TAKES THE INDIANS INTO CAMP

Hilltoppers Take Long End of 10 to 3 Score in Last of Indian Games and Win Series.

Last Saturday saw the last of the 1919-20 athletic season when the U. N. M. baseball team went into camp with the Indians and defeated them to the tune of 10 to 3. It was the last game of a series of three played with the local Indian school. The Indians were fortunate enough to win the first but the varsity won the second and third.

Enthusiasm started soon after lunch when the team gathered at the gym and were taken to the Indian school in a truck furnished by the Indian school for that purpose. The field was not crowded by an excess of U. N. M. rooters probably due to the hot weather but those who were there enjoyed the playing and helped the Varsity to win.

The Varsity won the toss-up and took the bat. Wilfey the first batter up for the Varsity knocked a fly to the outfield and was caught out. Cartwright our moundsman had no better luck but Whittier the third man to bat succeeded in getting on base. With two out and one man on base Captain Gentry took the bat. Gentry was in his old form and tapped the pill for a home run. Greenleaf followed Gentry to bat and was caught out.

The end of the first inning closed with the score two to nothing. At the end of the second inning the score stood unchanged. At the beginning of the third inning Wilfey walked, Cartwright was thrown out at first,

(Continued on page 4)

DRAMATIC CLUB CLOSES FINE YEAR

Club Has \$200.00 Balance Besides Its Costumes, Scenery, and Other Equipment.

The meeting on June 3, brought to close a most satisfying year for the U. N. M. Dramatic Club. In addition to the Community Playhouse Association the organization has fostered many small productions and successfully staged the Cabarabian Nights.

It is unnecessary to enter into a detailed account of the musical feature of the year, the Cabarabian Nights. The words of the comedy were written by the sponsor of the club, Miss Hickey, while the music was composed by Lloyd Kellam. These two together with the cast deserve hearty commendation for the way in which they so ably staged the performance.

Also several playettes were given under the auspices of the club. Among the best were "The Old Lady Shows Her Metals," and the Irish plays. The club has been instrumental in bringing many entertainments to the University, and they all have been well received by the student body.

At the final meeting a financial report was given by the business manager accrediting the Association with the sum of \$300. The club voted to contribute fifty dollars to the foot ball sweater fund and the same sum toward the expenses of the delegates to the Student Volunteer convention. This comfortable balance together with the record we have made this year the U. N. M. Dramatic Club has promises of a most successful session in 1921.

PANKEY ADDRESSES STUDENT BODY

Last Assembly of Year Well Attended and Enthusiastic.

The last assembly of the year was held Friday at ten o'clock in Rodey Hall, and proved to be a most interesting one. The girls' glee club gave a number and the U. N. M. orchestra was obliged to refuse an encore after a most agreeable selection. The meeting was conducted by Dr. Mitchell in the absence of Dr. Hill. Frank Neher, manager of the Mirage, announced that the new issue of the Mirage would be on sale Monday afternoon.

The University was fortunate in having two well known speakers for the morning and both their talks were interesting and instructive. Supt. Milne was the first and he gave a short address upon education. Lieut. Gov. Pankey was the next speaker and he entertained the audience with a number of clever remarks before and throughout his talk which was also about education. The value of education was stressed and the young men advised to wait the proper length of time before getting married or they would deprive themselves of the advantages of a complete education.

In conclusion, Dr. Mitchell complimented the students upon their attendance at these assemblies and encouraged everybody to return next year.

ENGINEERING AT THE STATE UNIVERSITY

At the request of students having in mind the good of the State University, and who have been annoyed by rumors alleging that engineering courses are not wanted and have not been supported by the authorities of the University, the undersigned offers the following memorandum. Any contrary statements concerning the attitude of the University administration are wholly unauthorized.

During a low ebb in the tide of University affairs in the summer of 1919, the University had under service one professor in engineering—Professor Leupold, and with no provision for the teaching of that fundamental subject physics. The new administration rapidly enlarged the faculty, as well as could be done in the few weeks remaining before the opening on October first. Two new professors were employed in engineering, an associate professor of physics, and there were added two capable assistants—one in engineering and one in physics. An excellent modern building begun during the previous year was completed and occupied. The expenditures of the University for engineering during the past year have been the highest in its history notwithstanding the urgent necessity for economy.

WEDNESDAY, JUNE 9, 1920

OUR MIRAGE.

Last Monday afternoon at one o'clock the Mirage came out. Every one was on hand with his ticket to get his Mirage at the seminar room when the door opened. This is an important event in the college calendar. Each student can get a record of the events of the school year. Some may not realize the fact, but years from now, when we are far from our dear old U. N. M., we can look over the Mirage and recall our college days.

The editorial staff and the management of the Mirage deserve much credit for their faithful effort and determination to put out the best Mirage possible under the circumstances. A perusal of its pages brings home the fact that such a book can not be a one-man affair. The deplorable lack of football and debating material should teach the student body a lesson so that ensuing issues may have the hearty interest of the students from the first day of school. Without such support material can not be gathered at the time. Remember next year.

FOR YOUR INSPECTION.

The following is a list of some of the names of leading college papers. A similar name should be chosen for the Weekly.

Beloit—Round-Table.
Washington—Sun Dodger.
U. of Pittsburgh—The Pitt Panther.
Princeton—The Princeton Tiger.
Harvard—Harvard Lampoon.
U. of California—California Pelican.
Cornell—The Widow.
Lehigh U.—The Burr.
U. of Syracuse—Orange Peel.
Colorado Col.—The Tiger.
U. of Pennsylvania—Punch Bowl.
Stanford—Chapparal.
Notre Dame—Juggler.
U. of Illinois—Siren.
U. of Carolina—Tar Baby.
Penn State—Froth.
U. of Nebraska—Awgwan.
U. of Michigan—Gargoyles.
Dartmouth—Jack O'Lantern.

ENGINEERING AT THE STATE UNIVERSITY

Continued from page 1.

The responses to the efforts of the administration have, with a few exceptions, been highly gratifying. Students of goodly number and quality enrolled, and citizens throughout the state frequently indicated the conviction that Albuquerque, the largest city in the state, is the location for a good college of engineering.

However, higher education in New Mexico staggers under the burdens of attempting to conduct at public expense three separate engineering schools—each striving to operate efficiently. Until a way can be found by the legislature to secure a better articulation of activities, less handicapping duplication of work, and a sensible allotment of functions among the higher institutions, a harmful competition is likely to continue. The lamentable fact is that there is not one worthy institution of higher learning in the state which is receiving a sufficient appropriation for the best conduct of its present activities.

In the meantime, it is the policy of the undersigned to continue the excellent beginning already made in the reorganized college of engineering at the State University. We shall endeavor to secure money for the enlargement of its equipment, and for the payment of salaries adequate to attract instructors as it becomes necessary from time to time to fill vacancies.

When we survey the difficulties confronting us last summer in the matter of engineering, and the relative progress made since then, we are not appalled at the task of building even a better organization for the coming year when we shall probably be perplexed in our efforts to care for an enlarged student body. During the summer Professor Leopold—who, I regret, is leaving us to try his fortune in the industrial world, held the fort practically alone, with an unfinished building on his hands. Today the board of regents has under consideration the expenditure not of less but rather of more money in behalf of engineering for the coming year, and where vacancies appear in our personnel every effort will be made to secure the right type of instructors from reputable universities in order constantly to strengthen and not to weaken the opportunities to be offered to our young men.

Today is an opportune time for our men students of loyal hearts and fair judgment to manifest their faith in the new State University by turning a deaf ear to foolish reports from unauthorized sources. Closing the best year in her history, Alma Mater now calls upon all graduates, all students, and upon all good citizens, for a continuance of that sturdy support which has made possible her marked advance in usefulness and esteem during the past eight months. The slogan for all students about to leave us temporarily for the summer vacation is growing in volume—"return and bring one good one."

DAVID SPENCE HILL,
President of the State University of New Mexico.
June 7, 1920.

How doth the gentle laundress
Search out the weakest joints,
And always scrape the buttons off
At most strategic points?

GETTING IT OVER

It was the week before little Willie's birthday and he was on his knees at his bedside petitioning Providence for presents in a very loud voice.

"Please send me," he shouted, "a

bicycle, a tool-chest, a—" "What are you praying so loud for?" his younger brother interrupted. "God ain't deaf." "I know he ain't," said little Willie, winking toward the next room, "but grandma is."—London Tit Bits.

COMMENCEMENT RECEPTION.

Friday evening the President and Board of Regents will be hosts to the faculty, alumni and students. All are urged to come as this will be the last Varsity get-together this year. President Hill and the Regents have proved themselves wonderful hosts before and a fine time will be enjoyed by all present.

Professor and Mrs. P. F. Sherwin entertained the Burney cottage girls last Wednesday evening at their home on Columbia avenue. The ban-juke was in great evidence and many Burney and Varsity songs were sung. The rest of the evening was spent in telling stories and various episodes of college life. Delicious refreshments were served among which were some "thing-a-ma-jigs" which only Mrs. Sherwin knows how to make. The end of the recreation hour came only too soon and the girls regretfully departed.

PHI MU RECEPTION.

A commencement reception will be given at the Phi Mu house on East Gold, Friday afternoon. Miss Grace Stortz will sing and Miss Lillian Patton will entertain the guests with selections. Miss Margaret Brooks and Miss Edna Miller are in charge and everybody is cordially invited. Miss Edna Mosher will be the official chaperone.

Mrs. David Spence Hill was at home to the girls of Kappa Delta Nu and the patronesses of the sorority, Saturday afternoon, at her home on South Fourteenth. The sorority colors, purple and lavender, were used in the decorative scheme, and dainties. Mrs. Hill was assisted by Mrs. J. S. Landers, and Mrs. J. P. Williams. Mrs. Tom Hughes and Mrs. B. H. Hinney could not be present, as they were out of town. Mrs. Hill has entertained all the University girls and has proven herself a most charming hostess.

THE PI KAPPA ALPHA DINNER DANCE

Pi Kappa Alpha will give a dinner dance Thursday evening at the Alvarado. It is to be very formal, with many impromptu stunts. The dining table will be decorated in fraternity colors and lovely corsages will be placed for the honor guests. Several of the alumni members of Pi Kappa Alpha will be called upon to entertain and many happy responses are expected from Laurence Lee, Ray McCanna, and Louis Hesselden. After the sumptuous banquet, the guests will enjoy dancing. A seven-piece orchestra will furnish the music and the young ladies will receive dainty favors, which as yet remain a secret.

SIGMA CHI PICNIC.

Wednesday evening, June 12th, at the Masonic Temple, the annual Sigma Chi post mortem will be given. Dancing will begin at 8:30 to a 7-piece jazz orchestra. All Sigs and Sig friends will be present to enjoy an evening of pleasure.

respect, crushed spirits, dejected personalities, lack of sleep, cracked domes (some can't crack), hair turning white from fear, imbedding of murder in their hearts, abedding of the profs, and, finally, heart failure. It is the last which is the most common, as there are so many different things that may cause it. Some causes of heart failure here on the hill are as follows: Imagine, figure, fancy, feature, picture, or any other procedure you may wish to use, a youth burning the midnight oil, over in Kwataka (if you can do this you have some imagination), Coach McGough sees the light, opens the door a crack and sees one of his flock studying. Now pause and consider the fact. The youth is STUDYING! STUDYING! I ask you do you think McGough would have a chance of escaping heart failure? You're right, friend, he wouldn't.

If you have survived this trial, try this next one. Feature an hombre, if you can, staying up till the early hours of the morning, engraving the backs of small slips of paper with characters that strangely resemble chemical formulas, or history dates, as the case may be. The ambitious young student appears the next morning for his examination, then, to his amazement, he discovers his slip and the examination questions do not match. Do you believe this would be a legitimate cause for heart failure?

But there are other things that may cause heart failure. For instance, the mere study of them. Consider the following case. A young man of our student body goes with one of the fair co-eds to the movies, sends her candy and flowers and keeps his automobile always at her beck and call. The night after exams. are through he takes her out for a nice ride on the mesa. They talk, and well you know what I mean. Suddenly our hero is awakened from his dream of bliss by the young lady's sweet voice, saying, "I am going home tomorrow." The young man gasps and falls dead. The next day the coroner says, "death from heart failure."

So on the case can be illustrated almost indefinitely. Can this evil go on forever? Must we always suffer? enlightened age.

LOCALS

Mrs. L. B. Mitchell and children left Saturday for Ohio, where they will spend the summer. Dean Mitchell will join them in about two weeks.

Miss Annie Lee Duncan was the house guest of Mrs. David Spence Hill during the past week.

Miss Mabelle Rogers, who was a student at U. N. M. during the fall quarter, was a visitor on the hill last Wednesday. She is enroute home from Tucson, Arizona.

Ensign Robert Wigely, a member of Sigma Chi, is in Albuquerque on a ten days' leave of absence from Fort Lyons, Colorado.

Miss Ruth Bursum visited her sister, Claire Bursum, last week.

Miss Evelyn Hunt has accepted a position with the First National Bank

Glenn Emmons, a former Varsity student, is in town this week.

Miss Linda Hill, the house guest of Myra Jackson, has been a frequent visitor on the campus the last few days.

Charlie Culpepper and 'Sing' Grantham of Carlsbad are spending the week at the University.

Glenn A. Rogers spent the week-end in Portales.

Word has been received of the marriage of Miss Mary Bright to Maurice J. Addison, June 2, at Hutchinson, Kansas. Mrs. Addison is a graduate of U. N. M. and a member of Phi Mu.

Ralph Meyers will leave the latter part of the week to take a position with the Chino Copper Company.

Miss Anne Earl Harris will arrive this week to spend a few days with her sister, Mrs. Guy L. Rogers. Miss Harris, who graduated from the University of Texas this year, is a former student of U. N. M. and a member of Kappa Kappa Gamma.

Notice: Students will remember that a fee of \$1.25 was added to student activities' fee at a meeting of the student body, Feb. 16, 1920—said fee to be deducted from guarantee deposit.

Varsity Takes The Indians Into Camp

(Continued from page 1)

Whittier had the same luck, Gentry started what would have been a home run had not the roof of a building got in the way, and made second base. This trip to bat Greenleaf did better. Those who saw it say that it was the longest home run ever knocked and it was sure worth the trouble of going to the game to see Fat run. The inning ended with a five run lead in our favor.

At the end of the seventh inning the Varsity had a seven run lead and it looked like a shut out but an error or two let in three runs. With two down and two on bases and the Indians at bat a long fly into left field and a sensational shoestring catch by Wilfey ended the inning. In the ninth the Varsity made three more runs, making the final score ten to three. Every one was satisfied with the results of the game and the few

Varsity rooters present joined in with the team and gave the Indians a yell. The players declare that they were royally treated by the Indians and the Indians must be congratulated on their good playing and the sportsmen-like manner in which they took their defeat.

The Indian line-up was not obtained. The men who played for the Varsity were: Wilfey lf; Cartwright p; Whittier, cf; Gentry, 2nd; Greenleaf, c; Mapes, 1st; Brown, rf; Bramlett, ss; and Swinney, 3rd.

GROTTO LIGHTS.
* By Steinman. *

One of the blessings of spring is that the young men may slumber on the grass to make up for the night before.

Love is the sensation a young girl feels when she learns the young man who stared at her has five cars and likes to go to dances.

Never again! Never again, what? Putting out a "Weekly" during exam week.

Absent Treatment.
"Bobby" Robinson—"Professor" Howard stayed up late last night picking out the question for this quiz, and I stayed up trying to follow him."

"Something is always taking the joy out of life," says the student as he knocks a mosquito off his brow, just after reclining on the grass for a nice long rest.

The most popular pastime on the campus during the spring months seems to have been the old game of "Two is company, three is a crowd."

Life's pretty sad, fellows—Willard says she threw him over.

There is a spirit of depression among the male students on the hill. The reason for this sadness is not hard to find. Colombo is closed and the boys are certainly lost on Wednesday and Saturday nights.

For the remaining two weeks of school chairs in the library promise to be at a premium, as the majority of our number are about to attempt the usual stunt of doing a quarter's worth in ten days.
