RUSH SEASON ENDS PLEDGES ANNOUNCED

Expectant Crowd Watches Parade of Girls From Hokona

It came off with a rush; the campus was converted into a bouquet of ribbons; a glorious time was had by all, and now everyone is opening up a keg of congratulations. Hokona was barricaded from all angles until four o'clock Sunday afternoon, when the expectant crowd of gamblers picketing the place were rewarded by the brilliant parade which started united but finished in four divisions, bound for the respective residences of the four women's fraternities, who announce their pledges as follows:

Alpha Chi Omega—Marjorie Cleve, Roswell, N. M.; Carol Wilson, Albuquerque, N. M.; Frances Andrews, Santa Fe, N. M., and Connie Walters, Santa Fe, N. M.

Alpha Delta Pi—Dorothy Cameron, Albuquerque, N. M.; Eleanor Cameron, Albuquerque, N. M.; Maebel Dunn, Maude Nelson, Ruth Morgan, Esther Morgan, Melena Farley and Elizabeth Porter.

Kappa Kappa Gamma—Mary Wilson, Gallup, N. M.; Mary Culpepper, Carlsbad, N. M.; Elizabeth Shepard, Roswell, N. M.; Mardell Morrison, Portales, N. M.; and Norma Williams, Albuquerque, N. M.

Phi Mu—Margaret Spargo, Newell Dixon, Olive Harden, Bertha Lee Payne, Dorothy Wagner and Margaret Gusdorf, all of Albuquerque; Geraldine Tully, Glencoe, N. M.; Margaret Phillips, Taos, N. M.; Velma Smith, Artesia, N. M., and Nelle Hess, Mannington, W. Va.

PAN-HELLENIC GROUP HOLDS FIRST MEETING

Last Saturday noon the Pan-Hellenic association of Albuquerque, whose membership is composed of college fraternity women in the city, held its first meeting of the year at the Alvarado. The organization made its appearance last year and was received enthusiastically by sorority members who were not affiliated in the city, and by those who had become alumnae of the University chapters.

At the present time there are about forty members of the association, who elected a new staff of officers Saturday as follows: Mrs. George P. Anderman, Phi Mu, president; Mrs. Isabel Riffle, Pi Beta Phi, vice president; Mrs. Guy Rogers, Kappa Kappa Gamma, secretary, and Miss Vera Kiech, Alpha Chi Omega, treasurer.

The meeting was held following a luncheon in the Taft Hall, and after the balloting had taken place there was not sufficient time to transact other business. However, it was announced at the time that the next gathering would take place November twelfth at the Phi Mu house, when the constitution of the organization will be revised. Last year the Pan-Hellenic association voted a fund to be used towards purchasing a women's fraternity scholarship trophy. It is expected that the award for last semester will be made when the association meets next month.

Charlie Caldwell was absent from the campus for a few days last week, travelling over the state in the interest of the First National Bank.

The Pathe Films which were taken of the University will be shown at the Y. M. C. A. tonight and tomorrow night.

NEW BLEACHERS ARE UNDER CONSTRUCTION

Male Members of Student Body Turn Out in Force to Complete Greatest Project Ever Undertaken by U. Students

New bleachers for the football field are now being constructed by the students of the University under the direction of the Dean of Engineering, Thomas T. Eyre.

The new bleachers were made possible through the effort of President Hill working in co-operation with the local alumni of the University, and a few business men of Albuquerque. That they will do nearly as much towards enlivening school spirits, and confidence in the ability of the loboes, as the winning of a game, is the opinion now held by those interested in the undertaking.

The members of the student body, at the weekly assembly last Friday, pledged themselves to aid in the construction of the bleachers. Under the able supervision of Dean Eyre the male members of the student body were divided into groups of nine each, a member of the Engineering Department being put in charge of each group. The work was systematically laid out, and divided among the groups so "there will be no conflicts in the working schedule," Dean Eyre promised the squads.

The new bleachers are being constructed on the ground that the old ones formerly occupied and when completed there will be consecutive sections, twelve tiers high with sixteen foot fronts, extending nearly the length of the field. These bleachers will not only be more commodious, but will be more comfortable than any erected heretofore. Each tier will have a separate foot rest for each individual, and if the present plans are carried out there will be a wind break at the back, which will also keep off the sun.

If the splendid support which the students are now giving lasts throughout tomorrow, field lieutenants Prof. Carey, Louis Hesselden and L. H. Waters feel confident that the bleachers will be completed and ready for occupancy by tomorrow night.

The girls responded to their pledge of last Friday was exceedingly welcome to the boys as it came in the way of sandwiches and other things to eat. But even without the material things to assure a warm reception, the boys asserted that the girls would have been welcome from a purely ethical point of view.

HIGHS VS. INDIANS ON SATURDAY CARD

Renewing the ancient feud with the Redskins, the eleven from the Albuquerque High expects to take Perry's husky combination into camp next Saturday. Reports from the Indian School indicate a strong team. Their opening game with Menaul ended in a scoreless tie, but the Presbyterians were on the defensive from the opening whistle.

In their first game, the Highs hung it on Menaul to the tune of 19 to 6, excelling in all departments of the game. The A. H. S. line is exceptionally strong this year. Their two ends, Wilson and Hoakum, are unusually heavy, and with a light, swift back-field, Coach Moore has developed an aggregation which scholastic football circles will find hard to break.

Lost: My last name. Finder please return to Room 7, Hokona. Signed, Ophelia.

VARSIITY ELEVEN IN FIRST GRIDIRON CONTEST SATURDAY

LOBOS MEET COLORADO COLLEGE AGGREGATION ON LATTER'S FIELD IN SEASON'S INITIAL CONTEST; EIGHTEEN MEN MAKE UP CHERRY AND SILVER SQUAD.

KORBER WIRELESS PLANT READY IN THIRTY DAYS

Apparatus for New Station Expected to Arrive This Week

Construction work on the Korber wireless station is proceeding rapidly under the direction of Prof. C. E. Carey, who expects that the plant will be ready for operation within thirty days.

Foundations for the antennae towers have already been laid and the frames will be erected within a day or two.

All of the apparatus for the station has been ordered, and most of it will probably arrive some time this week. The apparatus has been purchased from one of the ships of the merchant marine, and in this way it has been possible to obtain a superior grade of apparatus at a very great discount. The radio telephone parts have been purchased from the Westinghouse company, which has also allowed the university a substantial reduction from the list price.

The station will operate on a wave length of 300 meters, which is 100 meters more than is allowed to amateur stations. In times of emergency it is permitted to use any wave length which may be necessary, however.

The department of engineering is considering offering one or more courses in wireless telegraphy, but this will probably not be done until next year. Two courses, one in wireless operation and one in the theory of wireless telegraphy, will probably be offered then.

STUDENTS AND FACULTY BUY CONCERT TICKETS

As a result of Mrs. Faw's announcement in the last student body assembly on behalf of the Fortnightly Music Club, a number of students and faculty members are taking advantage of the reduced rates offered to University people. Undergraduates were much in evidence at the first concert of the series, that given by Leopold Godowsky on Monday night.

There remain three more performances by prominent musical artists in this winter's musical season. Richard Bonelli, baritone, will appear November seventh, Virginia Rea, Coloratura Soprano, is scheduled to sing on January sixth, and on February, second the Fortnightly has arranged to present Elias Breeskin, well known violinist. The music loving public of Albuquerque has expressed its appreciation of the wide variety of talent secured and a crowded auditorium greeted Godowsky when he opened the concert season.

Miss Wilma Shelton, who, in conjunction with Mrs. John D. Clark, is handling the student ticket sale, has announced that a season ticket for the three remaining concerts will cost undergraduates on three dollars, and will entitle the holder to reserved seats, which may be procured at Matson's before the dates announced for the performances. Miss Shelton has a number of tickets remaining to be sold, which may be obtained in the library during the day.

Keyed up to the highest pitch, and with only one thought in mind—"Beat Colorado"—the Lobos left last night for Colorado Spring accompanied by a retinue made up of the coach, the managers and such alumni and undergraduates who were confident of being able to escape the vigilant eye of the conductor. Eighteen warriors made up the cherry and silver squad, and Coach Johnson expects to be able to use all of them.

When the Varsity trots out on the Colorado college gridiron it will line up as follows:

Mapes, left end.
J. Popejoy, left tackle.
R. Hernandez, left guard.
Pearce, center.
Ferguson, right guard.
Greenleaf, right tackle.
White, right end.
Jones, quarterback.
Calkins, left half.
Willey, right half.
W. Hernandez, fullback.

As substitutes, Coach Johnson will take Greuter, Barnhardt, T. Popejoy, Angle, Moore, Dow.

This year's captain has not been selected since Dwight McClure, the captain-elect, did not return to the University. It is thought that the Lobos will choose their leader after the Colorado game, but Willey and Calkins will alternate in occupying the position of field captain.

Steady, hard scrimmage during the past week has been adhered to by the coach, and several "skull" practices have been held during the evenings. On arriving at Colorado Springs Friday afternoon the coach is planning on a short signal practice to round off the continuous grind that has kept the Varsity in top shape since the beginning of the season.

Uniforms that the Lobos will wear this season have been changed from those of former years, a cherry colored jersey being worn with silver gray stockings. Entire new equipment has been furnished the squad, supplemented by sheepskin lined coats to wear between halves and quarters.

Coach Johnson has been drilling his eleven in a number of effective plays, based on the Michigan system, and the shift which was used by Coach Heisman with great success at Georgia Tech. The Lobos average about one hundred and sixty-five pounds, which is a weight that can be very effectively used with bewildering shifts. It is expected that the Colorado eleven will outweigh the Varsity, but Johnson's proteges are going north to "Beat Colorado."

REEVE CHOSEN TO HERD YEARLINGS THRU TERM

The class of 1922 held two meetings during the past week. The first meeting was a get-together meeting and nothing important occurred. At the second meeting, last Monday, the class was organized and the following officers elected: Frank Reeve, president; Geraldine Tully, vice president; Norma Williams, secretary-treasurer, and Dick Culpepper, yell leader.

Plans were discussed for a Freshman dance to be held after the first semester and a committee was appointed to arrange the details.

Lines should join the Society as soon as possible in order to begin work for the coming year. The meeting has been called by George Bryan, who was last year manager of debate.

signs and have an unlimited supply. They also are carrying an excellent grade of fraternity stationery engraved with crests of the various fraternal organizations on the Hill and, best of all, they have two kodaks which they will loan—free—

low the example shown in older universities by making contributions, giving prize awards, and loan funds to the University. During the past year the following were noted: The gift of \$1,500 by citizens for the grandstand. \$600 of which was

seniors, Cullen Pearce, Vernon Willey, Ed Horgan, and George Bryan, who constitute the total active membership of the Khatable Senior Honor Society, met for a short get-together and business meeting. While the organization is still a comparatively

equipment is the best made for athletic use. The new uniform form with the present uniform that the sweaters are reinforced leather to prevent any chafing or tearing.

THE FRESHMAN MEETING.

The first Freshman meeting won the praise of all the upper classmen who were fortunate enough to attend. The yearlings conducted themselves in a manner wholly in accord with the ideals of the school, expressing a ready understanding of the position of a freshman, and demonstrating a hearty willingness to comply with the rules set down for their conduct. The promptness with which some of the members took the floor to offer suggestions proved that Freshman affairs will be carried on under no mean leadership.

In all, the first year men proved themselves a real loyal bunch of students. They are heart and soul with the rest of the school, and the upper classmen will take pleasure in backing them in everything they undertake. We might point out a few instances of freshmen with the wrong ideas. A very small minority seem to think the place for the green "kid" is in their hip pocket. However, the freshmen class as it now stands will be capable of taking care of these individuals without assistance from the older students. They belong.

"BEAR IN MIND—"

Since the Weekly's editorial entitled, "Looking Ahead," made its appearance, we have heard no adverse criticism of its sentiment on the campus. Only one communication has graced the columns of the paper treating on the subject, and it was written in a spirit of approval.

At the next student body meeting the question will be brought up for decision. We are advocating a change in the methods of selecting athletic managers, and student publication boards. We suggest that all such positions be filled only after a thorough systematic period of training and competition has been completed by the candidates for the respective positions.

Keep the proposed plan in mind. Any sincere communications expressing pertinent and logical views of the situation whether pro or con will be welcomed by the Weekly staff as showing the direction of student body sentiment.

The Modern Ham-and-Egger

(By Deacon Thos. V. Calkins)

In the good old days just passed a short millennium or so ago, when every Thomas or Richard or Harriet sojourned in a nice damp little hole in a rock and began to call it home, if a man desired to make his impression on society he would have to go out into the adamant world and make it with a club. He could also rest assured that Bill Snaggle Tooth was quite sure to be laying in wait just around the big spruce tree to bounce a nice little boulder off his head just as soon as the aforesaid Thomas or Richard stuck

said head out of his dingy lair. In those days if a man had the where-withal to fill his longing stomach he had to go out and get it with another club or else he would grow shockingly emaciated. As a result those who lived to see the flowers that bloom in the spring tra-la had to get out and rustle around and take something away from somebody else. Nobody was handed anything except the weighty end of a war club or a portion of unfeeling cliff shoved off of its ante-diluvian resting place. In those days if a man let the moss grow under his feet he would soon find it growing over his toes. But that was before the state begged a man to take the easy things of life and use them to his own profit.

And now we find ourselves living in the time of the modern collegiate ham-and-egger. What is a collegiate ham-and-egger? Why, they are animals of the bi-pedal type whose maws and paws delightedly send them from under the paternal roof to bother patient college professors and to roll down the soft green grass before administration buildings. One of the chief sports of the collegiate ham-and-egger is to hang around the girls' dorm and look noble while the football squad lopes out to practise, or drags back another favorite sport of some of them is to go over to the boys' gym when the squad is getting into pads and helmets. There they put on a gym suit and spend an hour standing in front of the full length mirror and exclaim upon the artistic work of the Preeminent Sculptor to be able to mold such beautiful creatures. Once in a while they vary this pastime and go onto the gym floor and skip lightly over a rope or maybe make ineffectual swings at another one of the same species with fourteen ounce boxing glove. But they never hurt each other. Ah, no! They never get hit.

In the old days, dead and gone, if a man wanted to obtain somebody to share his hand-picked dinosaur steak and his bed o' feas (made up of the skins and habits of rabbit, bear and coyote hides) he would charm the young lady concerned by a demonstration of strength and agility in physical exertion. They don't do it nowadays. I mean these collegiate ham-and-egggers don't. No. They lounge upon the dormitory porch swing (girls) in graceful, languorous poses, and again they smile indulgently as the sweaty, weary, bruised squad comes limping in. Oh, yes. I forgot. These embryonic men always have a variety of good advice to give to the squad and can always tell the boys how to beat to play football. They also tell the co-eds how they used to play the game in high school before they sprained their left ear. Most of these ham-and-egggers wear green caps. About forty of them do, in fact. Among the forty, four are playing football.

UNDERGRADS SEND TEAM OFF WITH PEP MEETINGS

Two rallies and pep meetings were held this week to help send the Lobos off to Colorado Springs with the assurance of student body support.

Tuesday night a large bonfire was built in the vicinity of Rose Cottage, where songs and yells were practised for about a half hour, after which the undergraduates wound their way in a snake dance over to the gymnasium, where the Cherry and Silver mentor was putting his Lobos through a "skull practise." The team and the coach were cheered, and a few talks were made by members of the Varsity squad.

Last night, as the eleven left for the Springs, the entire student body was on the station platform, rendering the air with the University cheers and singing the U. N. M. songs. In the confusion and noise attendant upon the team's send-off it was hoped that the numerous stowaways were comfortably settled without detection.

A great deal of credit is due the Kyotes and their leader, Slim Dixon, who furnished wood for the fire and who marched to the rallies in a body.

wedding in December? Please suggest something that may be used again."—December Bride. Pitfall and Gin suggests heavy underwear.

JOE REMARKS!

Depending upon whether he's writing for Pitfall and Gin or posterity, he says, "Please be quiet" or "Shut up that damned noise."

DIFFERENT.

He said, "You're light on your feet." She sighed and thought, "Divine." But the music stopped and she heard him add, "But not on mine."

RULES!

Those arriving at the dining hall after 7:20, including those who weigh more than 160, will be excluded.

OUR WEAKLY LOVE STORY.

She flopped into his lap— One knee was dislocated. He had two "cholly hosses," His left ankle was sprained. He had water on the shin. "Jose," she cooed, "I don't believe you love me any more, you look so unhappy."

A braver man would have said, "Susmaria! "Get off!"

But because her chin was Exquisitely dimpled, he "Smiled and bore it!" Oh, the dizzy dears!

NOTICE.

There is nothing about Jawn in this issue.

???

Pitfall and Gin would like to know whether college engagements are supposed to assure a man of dances or a wife?

THE PIN.

Reggie remarks that since being pledged to a frat he has solved the problem of becoming engaged to a girl. He's pretty serious about but hates to trust her with a \$300.00 ring.

HELP!

He was a slicker debonnaire With polished shoes and nails and hair, His deepest thought was what to wear—

Yes, blase, too. And then each summer he returned To father's grocery, where he earned The "million" that he gracefully burned Down at the U!

ENGINEERS CALL MEETING TO PLAN YEAR'S PROGRAM

Next Thursday the Engineers will hold their second meeting of the present semester to arrange for the annual banquet and dance of the local chapter of the A. E. I. Much other business is to be brought before the "Knights of St. Pat" when they gather, and the customary engineers' enthusiasm is being shown in getting a right start for the year. Vernon Willey was chosen to head the Engineers this year, and he will be assisted by Clarence Huffine, vice-president, Ralph Brooks, secretary, and Jonathan Sharp, treasurer. In the initial meeting, where officers were elected, Dean Eyre and Professor Carey made short addresses and predicted a busy and successful year for the Knights. Many new students in Engineering

ALPHA CHI OMEGA.

For the Pledges—Alpha Chi Omega entertained Sunday afternoon from four to six o'clock at their home on East Silver Avenue, for pledges, actives and Alumnae.

ALPHA DELTA PI.

Rush Dance—Rushes and friends of Alpha Delta Pi were entertained by the fraternity at their annual rush dance at the Woman's Club on Friday, Oct. 7. The hall was artistically arranged in the form of a Japanese bower. Dancing continued until eleven o'clock, when light refreshments were served.

KAPPA KAPPA GAMMA.

For the Pledges—Kappa Kappa Gamma entertained for their pledges at their home on East Central Avenue Sunday afternoon from four to six, following which the house was open for informal calls until eight o'clock.

PHI MU.

Rush Dance—The Phi Mu dance was perhaps the most noticeable of all the rush affairs. The charming setting in the country and the formality of the occasion gave the function an air of distinctiveness. During the evening Miss Grace Stortz, accompanied by members of the chapter, sang a couple of the favorite songs of Phi Mu.

Fraternities—The fraternities were content with letting the woman's auxiliary take the lead during the past week. It was just as entertaining and a lot less expensive. It might be added that a good time was enjoyed by all.

Interfraternity—Alpha Delta, Sigma Chi and P. K. A. will get together on December 2nd in honor of the football team. The affair will be a dance at the Masonic Temple.

DR. HILL ADDRESSES HIGH SCHOOL STUDENTS

"The Meaning of High School Life" was the subject of an address delivered by Dr. David S. Hill last Friday before the high school assembly.

Dr. Hill pointed out to the students the many advantages to be gained from a higher education, and urged the students to plan to attend university after their graduation from the high school.

Dr. Hill emphasized the importance of real scholarship and asked the students to balance their attention between athletics and study.

Previously to Dr. Hill's address Maurice Klein sang "Fair New Mexico."

J. V. CONWAY ADDRESSES STUDENTS ON "EDUCATION"

State Superintendent J. V. Conway, speaking in a sincere ecclesiastical voice, addressed the student body last Friday on "Advantages of a College Education."

Mr. Conway, in outlining the qualities a person must have to become an "ideal school teacher," asserted that "an instructor who is either soft-boiled or hard-boiled will never get very high in the field of education." He enlarged upon the discoveries made by scientists in the last few years, and prophesied that before many decades had passed that engineless automobiles, capable of a higher rate of speed, would replace the now cumbersome cars.

Mr. Conway praised the University for a "real for sure school" and pledged his hearty support.

Frank Neher, president of the student body, asked that a motion be made providing for the male members of the University to turn out in a body on the football field, Oct. 15 and 16, to erect the new bleachers that have been provided for by President Hill and the members of the Alumni. The motion carried unanimously.

The girls volunteered to serve dinner to the down town men on Saturday.

DIPHTHERIA SCARE OVER; CO-EDS TAKE ANTI-TOXIN

Miss Elizabeth Shepherd, dainty and attractive co-ed from Roswell, has been the unwilling cause of a great deal of excitement and activity in Hokona since Sunday, when it was thought that she had contracted from somewhere a slight case of diphtheria. However, Dr. W. R. Lovelace, her attendant, together with Doctors Frisbie and Docherty, the University and County health officers, getting into prompt action, prevented any possible advance of the illness, and Miss Shepherd is now reported to be rapidly improving.

Dr. Mosher and a few co-eds, not resident of Hokona, were temporarily quarantined with the inhabitants of the historic building, and for a few days enjoyed a very acceptable rest. Meals were carried over from the dining hall and many solicitous inquiries from all parts of the campus served to help the time pass pleasantly.

Miss Myrtle P. Greenfield of the state health laboratory, took throat cultures of all the women students in the dormitory, but found no indications that any cases of diphtheria might occur. All the occupants of Hokona, however, were subjected to three cultures of anti-toxin, which will adequately protect them against any future danger from the illness.

March 17, 1921, when with other
 elaborate ceremonies the Engineers
 pay honor to their patron, Saint Patrick.
 The Engineers expect to de-

participating with a dance at the Woman's
 Angle, Tom Bunn, Stewart Mac-Ar-
