ROSWELL GAME ENDS IN TIE

Neither Varsity Nor Institute Able to Score in a Hard Fought Game.

In their first game in five years, the University and the New Mexico Military Institute football aggregations fought stubbornly to a nothing to nothing score on the Institute's athletic field at Roswell Saturday afternoon.

The Varsity seems to have gone into the game with too much confidence, and their playing was not up to the standard of the game with the Colorado School of Mines. On the other hand, the Institute, realizing that the U. N. M. team was their strongest competitor, went into the game for all there was in it.

The first quarter of the game seemed to have been played with the University going strong, but the second quarter ended with the Institute on Albuquerque's five yard line.

In the second half the Varsity seemed to be out of their stride. A number of ill-assorted plays when the ball was near Roswell's goal were very costly for the U. N. M. Aydelotte attempted a few forward passes, but all were incomplete. Tubby Mann made his gains at all times. Gernheide, played a good game but was not up to his usual snuff. Greenleaf made big holes in his part of the line, but was replaced by Hernandez in the last quarter on account of his knee. Foraker substituted for MacArthur in the first quarter.

The line-up was as follows:

U. N. M.	N. M. M. I.
M. Rogersend..... Slaughter
Spearstackle..... Corn
Wittenguard..... Spence
G. Rogerscenter.... Armstrong
Greenleafguard Kinnison
McCluretackle..... Sherman
MacArthurend..... McKinney
C. Mannquarter..... West
Aydelottehalf..... Jacobsen
Gernheidehalf..... Bassett
G. Mannfull.... McQuarter

Subs: Hernandez for Greenleaf; Foraker for MacArthur.

ENGINEERING SOCIETY

The engineering students of the University under the leadership of Professor H. E. Weir, head of the department of Civil Engineering, are promoting the idea of an engineering society. The society is to be organized for the purpose of bringing the engineering men of this institution into touch with the practical outside world by securing noted men from the ranks of successful engineers as speakers for the society, and by taking industrial trips to the industrial enterprises of the city and state.

The organization if carried out will depend on the cooperative support given it by the different engineering colleges. The task is not impossible. Other schools have their engineering societies, and why cannot we have one, too?

SOPHOMORE ELECTION HELD

The first class election of the year was held Thursday at 12:30 by the Sophomore class, and the following officers were elected:

George Gentry, president; Mae Bell Rogers, vice-president; Dorothy Stephenson, secretary-treasurer; and Dwight McClure, student council representative.

Rumor has it that some rather "wordy" debates were engaged in by some of the members of the class.

THE GREEN FROSH ON THE HILL

By Ima Greencapper.

The following article was contributed by some Varsity student whose name is unknown to us, but we take the liberty of printing it in two installments, believing it gives a good picture of the Freshman's experience. Will the contributor please accept our hearty thanks and favor us with another article soon.—Editor.

"Yea, Cicero, verily I say unto you, the life of a Freshman is one Kiyote after another." Thus, gentle reader, did he spill it to me and if you will give close attention I will tell you a little of the strenuous life of a Freshman.

6:45 a. m. Snoring soundly and loudly. Alarm clock tinkles merrily and poor Frosh rouses from his peaceful slumbers; gazes evilly at the said clock and suddenly it dawns on him that he has about ten minutes to prepare his "toilette" and get to breakfast. He jumps into his clothes grabs a towel, and rushes madly to wash. Finds that he must wait his turn; his turn at last comes and soon he emerges from said wash—his ears and nose shining as brightly as the sun which is just showing up for the day's work. He goes back to his room and after comking his golden locks with a most deliciously smelling conglomeration, called "Liza's Vegetable Compound Hair Beautifier, Restorer and Perfumer," he slicks back his beautiful pompadour. Then grabs his coat, dons his little cap of emerald hue, and runs to the chow room. It is only after the waiters drop from exhaustion, due to many pilgrimages from his table to the kitchen and back, carrying hot cakes for him, that the poor Frosh leaves the table. He walks slowly back to the dorm, finds his dear books and ambles back to the administration building. Bell rings and he hurries to classroom only to find that said class will meet in the Chem lecture room. He runs wildly to that building and arrives just in time to answer "here."

(To be continued next week.)

George White was a visitor on the hill Sunday. "Blanco" seemed particularly pleased with the green caps and the Kiyote pillows which were much in evidence that day.

VARSIY MAN NAMED RHODES SCHOLAR

After two years during which no Rhodes scholars were appointed on account of the war, Donovan M. Richardson of Roswell was selected last week as the Rhodes Scholar from New Mexico for the year 191. Richardson is a senior in the University at present, and also president of the student body.

He entered as a freshman in 1916 and has taken all his college work at the U. N. M. In his freshman and sophomore years he was president of his class, and was a member of the debating team against Cruces in 1916. He is a member of the Phi Kappa Alpha fraternity, and has always been one of the firm supporters of the University. As a member of the Rhodes' class of 1918, "Don" leaves soon for England in order to be in residence there January 1, 1920.

This year sixty-four scholars were appointed in the United States, but after this year the regular quota will be thirty-two, the distribution among the states being so arranged that each state will send one man two years out of three.

The old custom of qualifying examinations in Latin, Green, and mathematics, formerly required of all candidates, has now been abandoned, selections being made on the record of the applicant in school.

Adlai Feather was the last Rhodes scholar to be appointed from New Mexico, being named as such in 1916. He has just taken up residence in Oxford, and sends his greetings to all his former Varsity friends.

ATHLETIC SUPPORT.

All connected with the University have felt that the people of Albuquerque are more interested in the University this year than ever before, and last Wednesday night we had a most convincing demonstration of the support of the townspeople. At the conclusion of Dr. Clark's fine lecture in Rodey Hall, a member of the audience stepped up to the Doctor and slipped a roll of bills into his hand, stating that it was to help make up the athletic deficit. This was done voluntarily and without any solicitation, and was certainly a very concrete manifestation of sportsmanship and interest in the University. The "roll" proved to be worth twenty-five dollars, and it has been learned with some difficulty that the donor was Dr. O. T. Hyde.

GORTNER NAMED VARSIY REGENT

Governor Larrozo has appointed William E. Gortner of Las Vegas a member of the board of regents of the University, according to word received here, to succeed John R. McFie, Jr., who resigned because he has entered business in the Philippines.

DOINGS IN GREEK LETTER WORLD

Being governed by the rules of the Pan-Hellenic Association, Monday, October 27, was designated as "bid day" for the sororities, and "great was the excitement thereon."

The pledges of the sororities are as follows:

Alpha Chi Omega—Beulah Breden, Opal Tipton, Blanche Guley, Pearl Frazier, Mildred Joyner, Norma Rasmus, Nettie Smith, Helen McAlvane, Florence O'Hara.

Phi Mu—Elosia Coffin, Margaret Hardemen, Margaret Brooks, Mae Bell Rogers, Edna Miller.

Kappa Kappa Gamma—Helen McArthur, Belle Barton, Louise Walraven, Annie Lee Duncan, Francis Parker, Irene Fee.

VARSIY "Y" TURNED OVER TO NATIONAL

Owing to the supposed failure of the Y. M. C. A. overseas, the work of the University "Y" is not meeting with the encouragement and support of former years. Believing this is a condition which is rightfully under the jurisdiction of the national organization, the University Y. M. C. A. has been turned over to it for disposition by T. C. Gallagher, president of the University Association.

While regretting the feeling of animosity of some of the returned men toward the overseas Y. M. C. A., yet the local president believes that much good can be accomplished by the organization here if everyone will get behind the movement and boost. He feels that the failure overseas was due directly to the men in charge of that department and not to the Y. M. C. A. as an organization. Mr. Gallagher stated further to the reporter that he believes that the national association will send speakers here to the University to try to adjust this difference of opinion.

The local Y. M. C. A. at the University last year was a live wire, and much enthusiasm prevailed among its members. It is hoped that the same spirit can be aroused this year. The "Student Union" known last year as the "Y" Hut has been opened at the boys' dormitory. The University membership rates are in effect and a great saving can be made by taking advantage of them.

Lt. Nelson (Fiji) Newman was on the hill for a short time last Friday, "looking for old landmarks." Lt. Newman, who has been with the forestry service in the southern part of the state since returning from France will make his headquarters in Albuquerque this winter.

The Kiyoti Klub announces the pledging of the following "whelps": Cullen Pearce, Bob Cartwright, Albert Zweifel, "Sing" Grantham, and Thomas Murphy.

Entered in the Post Office in Albuquerque, New Mexico, February 11, 1914, as second class matter.

WEDNESDAY, NOVEMBER 5, 1919.

ARE YOU INTERESTED?

Some days ago a communication was received from the University of Texas saying that a return debate was expected with this University this year at Austin, and asking us to select the question. A trip to Austin naturally costs money, and as the debating society receives only a very small portion of the athletic fee, the University would be called upon to pay part of the expenses of the team should the trip be undertaken. The University is perfectly willing to send a debating squad to Texas or to some other large school, if it is assured that there will be plenty of competition for the places, and that real interest will be shown by the students. In view of that fact, the following proposition has been made to the students: One or two literary societies shall be formed to meet once a week for an hour and a half, at which meetings practice in speaking shall be given each person by means of prearranged programs. Some one capable of directing, drilling and criticizing the speakers will be secured by the University from the faculty or members of the legal profession in town. Dr. Hill promises his hearty support, and assures us all the assistance he is in a position to render. If twenty or more people organize such a society or societies and demonstrate a real interest in this line of work, debates and Texas and Cruces will be secured, with the possibility of others later.

As we see it, the organization of a literary society in the University is one of the most important matters before us at present. That there is a live interest in this line of work is shown by the number of young men who, on entering here, ask about the department of public speaking. That their enthusiasm diminishes when they find there is no such department is a natural consequence. This proposed literary society will, we hope, be the first step towards the inauguration of such a department.

We realize that all the students do not mean to become public speakers, but every person should know how to express his thoughts before an audience. Be you a lawyer, doctor, engineer, or whatever you may, there are always times when it becomes necessary that you express yourself on some question, and your degree of success in persuading others to your way of thinking will be determined largely by your ability to express yourself clearly and forcibly. To give you this ability will be the aim of this society. It matters not whether you have had previous ex-

perience and training in such work, there will be work suited to your needs.

The result of public speaking and debating in the University depends on the interest shown in this movement. Now is the time for both teachers and pupils to boost, and this movement should be backed by every person in school. Other schools have such societies, why can't we?

PARKING CARS

Lately there has been much reckless driving of automobiles on the University Campus. This thoughtlessness not only endangers human life, but destroys the University property and gardens.

Lately some have been in the habit of driving their cars across the freshly watered lawns. This practice will within a short time entirely ruin the lawns about the buildings.

The promiscuous parking of cars should also be stopped. If the autos were parked in the regularly assigned places the grounds would look much more orderly. Parking places are located west of the Dining Hall on the west side of the drive. Another is being cleared off west of the Chemistry Building, and students should see to it themselves that the campus rules are enforced.

PATRONIZE THOSE WHO PATRONIZE US

There are certain loyal co-operative business men down town who advertise in the columns of our Weekly, just as there are some who seem to think that the University never has done them any good, and never will, and consequently take every opportunity to oppose the University or to belittle its deeds. We have examples of such action before us constantly, and for that reason, we should remember that the men advertising in the Weekly are not spending their good money for the fun of writing checks; they expect results and have a right to expect the patronage of the students, since it is only by their support that this paper can be printed. All of our advertisers have the best in their lines of business; so keep your eyes on the advertisements that appear in these columns and know that when you patronize a man who patronizes us, you are doing a favor to the Varsity and to the Weekly.

China is a Republic, Japan a monarchy. Are we to make democracy safe, in Shantung?

COLD STORAGE REGULATION.
Representative Niels Juul of Illinois has been taking a lively interest in perfecting and passing the bill to regulate the cold storage industry. Although the plants of many of the larger packers are located in his state Mr. Juul has consistently urged the most stringent regulations to prevent spoiled footstuffs being sold to the public. During the consideration of that section of the bill providing for federal inspections the congressman endeavored to secure the adoption of an amendment that would enable the inspectors to enter the packing plants or refrigerator cars at night or on Sunday. Mr. Juul made a valiant fight for his proposition, but was unable to win enough votes for its success.

AN INTERESTING RELIC.

Students who have seen the piece of the original charter oak in the library may be interested to know that some time ago the University received a keg which came over in the Mayflower. This was kept in the library for a while, but as it was too large for the glass case which contains the piece of the charter oak and as a dastardly attempt was made to carry off this valuable relic, it has been removed to a safer place, namely, to room 24 of the Administration building, where it is now on exhibition at such hours as the room is open.

Many people have tried to conjecture what kind of liquid the fathers brought over three centuries ago. The odor is now so faint that an extraordinarily developed sense of smell is required to recognize it.

Miss Helen Fallis has been recently pledged Kappa Delta Nu.

John Pope Hayes was pledged Pi Kappa Alpha last week.

SOCIETY

HALLOWEEN PARTY

Saturday night the Alpha Chi Omega sorority gave a most delightful Halloween party at their lodge on Central avenue. Mystery prevailed as witches floated here and there and pumpkin-men nearly lost their heads. During the evening the guests sat around the large open fireplace waiting for Santa C—, Oh, no, that's wrong. I mean, they told weird tales of the long ago, and toasted marshmallows. At 12:00 o'clock pumpkin pie and cider were served.

Those present were Misses Clyde Wilson, Morris, Louise Hilkerson, Lucille Makin, Vere Kiech, Flora Chess, Helen Thacher, Mayme Hart, Eunice Latamore, Helen McAlvane, Nettie Smith, Florence O'Hara, Norma Rasmus, Mildren Joyner, Opal Tipton, Pearl Frasier, Glanche Gouley, Beulah Breeden, Dorothy Stephenson, Betty O'Hara, and their gentlemen escorts.

MISS FERGUSSON HOSTESS.

Miss Erna Fergusson, alumna of the University of New Mexico, and now engaged in extension home service work, gave a tea, Sunday afternoon at the Phi Mu house. During the afternoon delicious refreshments were served, and about fifty people called.

PHI MU TEA.

The Phi Mu held their monthly tea Sunday afternoon from four to six. The home was artistically decorated in autumn colors, and rose carnations.

Miss Flora Marshall and Mr. M. Doran gave jazz selections during the afternoon.

Miss Maud Rodney was hostess and was assisted by the fraternity pledges.

KAPPA PARTY.

About twenty young ladies enjoyed a movie party Friday evening, when Kappa Kappa Gamma took their pledges to see Anita Stewart and then to Grimshaw's.

One neighbor said, as her little friend was returning home near "the witching hour": "Those girls are certainly have a good time, and they surely can sing."

K. M. INITIATION-BANQUET.

The Kappa Mus held their annual banquet and initiation in the University dining hall from 9 to 11:30 Sunday evening.

Those initiated were: A. Swiffl, A. Masten, John Whittier, Pearse, Breneman, Morgan, Sublet, and George Hite.

The old members present were: Byron Morris, Earl Olds, Clinton Little, Chalmers Bowers, and Samuel Romero.

Others present were: Mesdames Frazier, Ledger, Lapp, and Estes.

PHI MU CABARET.

Phi Mu gave one of the smartest fraternity dances of the season from 6 to 10:30 Thursday evening at the

OPTOMETRIST

(op-tom-e-trist)

An optometrist is one who refracts or "tests" the eyes without the use of drugs or drops. He never treats diseases of the eye, specializing in the fitting of glasses.

Optometrists are the only specialists who are required by law, in any state, to qualify themselves for this work.

My one and only Specialty is the refracting of the eye, and the fitting of "Eyeglasses that Satisfy" for the relief of all abnormal strains which impair the vision, waste the vitality, and lower the sum of human efficiency.

PEN POINTS.

The school term is now in full swing. You should have found your place in its affairs. Have you?

Better get your lessons the day they are assigned, if possible. It is safer.

A kicking mule doesn't get very far in this world. So don't be a mule.

Success in college depends largely upon common sense, hard work and sterling character. How are you lined up?

College is the place to make some friends. Get busy.

Don't forget that most of the tricks you Frosh try to put over on the faculty and the upperclassmen belong in the same class as nursing-bottles. Leave them at home.

Remember that your mother expects great things of you. That your dad did. And you to college to pass the walls of the school with cheer.

FOOTBALL NOTES.

At the regular meeting of the Athletic council, Monday, George Bryan and Teet Bramlett were elected unanimously to be assistant football managers. Both are seasoned men and will undoubtedly be of great assistance to Manager Caldwell.

The football men of the Colorado School of Mines expressed their gratitude to the students and faculty of the University of New Mexico for the gracious treatment they received while in Albuquerque.

Coach Glaze of the Miners was very highly pleased and said that the reception of his team has never been equalled.

Manager Caldwell of the Varsity football team, reported on the game with the Colorado Miners, to the Athletic Council and his report was favorably received.

A game with the Texas School of Mines at El Paso is practically assured. Arrangements are being made to play the game within the next few weeks at El Paso.

All faculty members voluntarily raised their athletic fees from \$1.25 to \$2.00 in view of the fact that the athletic fund is getting very low. It is hoped that the students take the hint and do like-wise soon.

Coach McGough will probably attend the next Rocky Mountain Conference to arrange the football games for the following season. The conference will take place in Denver.

LOCALS.

The Phi Kappa Alpha fraternity will give a dance Friday evening, Nov. 7, in the Masonic Temple. Chester Boldt is in charge, with Mr. and Mrs. L. Lee as chaperones.

Wednesday evening, Nov. 5, from 7 to 8 o'clock, will be recreation hour in Rodey Hall. Songs will be given by the U. N. M. chorus, followed by dancing.

The following is an extract from a freshman quiz paper in chemistry:

"A calorie is the process used to separate gas from water. A calorimeter is used."

Miss Allen of Portland, Oregon, sister of Mrs. R. A. Howard, wife of Professor Howard of the department of economics and business administration, is visiting with Professor and Mrs. Howard, and thinking of registering in the U. N. M.

George Hite, George Martin, Jack Kiss, George Henson, and Forrest Bramlett had their vocal abilities thoroughly tested Saturday night. All passed creditably and are now full "voiced Ky Yotes."

Miss Vernie Powers, formerly of Ames College Iowa, has enrolled in the University of New Mexico.

John Whittier is an Alpha Delta pledge.

Fred Gray, "Hak" Keinath, Perkins Patton, "Swede" Olds, Herbert Paulson, "Rex" Craig and "Sing" Grantham made up one car of rooters that made the trip to Roswell, last Friday.

William B. Orange, of Chillicothe, Mo., registered for the fall quarter, Monday, and is living at Kwataka.

Clair Fetzner, a former Varsity man who has been working at Socorro this summer, spent Sunday with friends on the hill. "Fetz" says it certainly is remarkable the attraction the Varsity has for a fellow.

Bill Bacon, "Toad" Brenneman, Ernest Hammond, Chet Boldt, Bruno Dieckmann, "Biff" White, Dick Bruce, Ted Pate, Milton Davenport, "Fritz" Ward, "Bish" Howden, and Willard Hopewell, were among the Varsity supporters who went to Roswell to show the Institute that we back our teams.

President David S. Hill was one of the University crowd at the Varsity-Institute game at Roswell Saturday, and is reported to have equalled any freshman when it came to enthusiasm and rooting ability.

Dr. Hill left Thursday night and will spend several days visiting various Pecos Valley towns, making addresses and getting acquainted with the people in that section of the state.
