MUSIC ON HILL DISCUSSED BY PROMINENT STUDENTS

Need of More Music and More Musical Organizations Is Clearly Stated.

Administration Not Giving Music Chance to Grow.

(By T. V. Calkins)
In any city which is the seat of a university, that university should be the cultural center of the community. This should be true not only intellectually but also in regards to all other things pertaining to culture—dramatics, art, literature, music, etc.

Music is one of the best cultural mediums known. More people can be reached and touched through the medium of music than through any other single channel. Throughout the universities of this country the department of music is widely used as a drawing card for those universities. In fact several schools in the middle west are known throughout the United States for the class of music which they produce and hundreds of students register in those universities solely on account of the music privileges of the institution. We believe the New Mexico University is missing a tremendous opportunity in neglecting to make this institution the music center, not only for the city but for the state.

If the administration should see fit to send a male quartet, male chorus, or mixed chorus on a tour of the state visiting those places where we find the largest high schools, it is not at all an improbable thing that the interest of the state in the State University would be increased many times through this agency. We send our athletic teams on tours, and it is absolutely necessary that we do so, but through music we could reach a class of individuals who would never be influenced by an athletic contest.

And we have very little music here! Somebody is at fault, but whom? Is it the music department? Many of us are inclined to blame the department and never stop to think of the real cause.

It is absolutely impossible for any organization to produce without material from which to produce. Music costs a lot of money nowadays and the Music Department has not the appropriation to carry on its work. Another thing is this. When the schedule of hours was made out for the year music was not given its proper place on that schedule. When the proposition of changing hours to suit student schedules was brought forward, the department of music was always shoved into the background. Certainly there is nothing fair about that. No doubt about it being very necessary for a student to learn their Spanish, Greek, Chemistry, Calculus, Trig, Surveying, Physics, etc., but the Lord help a man or woman who is not able to enjoy the finer things of life after they have absorbed the essentials.

We need music and to get it we must have a very definite place in the University schedule to get it. One great fault is with the students themselves. For some hazy and obscure reason the students of this institution, as a whole, seem unwilling to do anything which does not earn them credit. Mighty poor spirit. If we had a few score less people of that type and a dozen or so more of the type which does those things for the pleasure and cultural advantages of doing them we would be vastly better off. If a few of the deadheads on the campus would awaken to the fact that they owe the University something we would manage to make a great deal better impression and get somewhere in the estimation of the public.

We want to be challenged by a definite program by the Department of Music! We want to see the administration back that program! We want to see the STUDENTS SNAP OUT OF IT and get busy and inject a little bit of pep and enthusiasm into their school life through the medium of music.

SLOANAKER TO REFEREE AND OSBURN TO UMPIRE IN OFFICERS' GAME

C. M. Barber Time Keeper, Harris Headlinesman.

The game Saturday will be well officiated when Sloanaker of the U. S. Forest Service, and Osborne, "Y" athletic director, get on the field to enforce the rules of the game. Sloanaker, who played end for Ursinus in 1904, has had much experience in handling games.

Osborne has put in many years in athletics and knows the game thoroughly. The timekeeper, Mr. C. M. Barber, Chicago, is well-known in the city, and Mr. Harris needs no introduction.

ATHLETIC COUNCIL DECIDES IMPORTANT MATTERS THIS WEEK

Council Is to Give Gold Footballs.

The Athletic Council held a regular meeting at 7 o'clock last Tuesday evening, with Prof. Weese presiding. The giving of blankets to students making four letters in one year was brought up. Prof. Weese appointed Coach Johnson and Harold Booker to comprise a committee which would report on regulations concerning granting of letters and insignia. Gold footballs for watch fobs will probably be considered.

George Bryan, manager of the football team, reported to the council that he was arranging for officials for Saturday's game. He reported that the tickets were being placed on sale all over the city and that appeals for support would be made for some of the business and professional men's clubs. The sale is going very well, according to Mr. Bryan's report. He also reports that arrangements have been made for the erecting of a fence around the athletic field. In connection with this, the council gave the manager authority to employ five deputy sheriffs to keep the crowds back at Saturday's game.

The council decided to give Jack Kiss, of the Varsity Shop, a concession to sell candy, peanuts and pop at the field. No programs will be issued this year. This would have been an extra expense for the students, and the council is trying to put the cost of the games to the spectators at the smallest possible figure. The council also decided to issue complimentary tickets to the players.

During the course of the meeting Prof. Weese mentioned the fact that this is the first year that U. N. M. has furnished her football men with a complete football outfit. This fact shows that the Athletic Council, backed by the students, is becoming more and more efficient.

ROOSEVELT'S BIRTHDAY OBSERVED BY ADDRESS

George S. Klock Eulogized Life of Great American.

Theodore Roosevelt, the man and executive, was eulogized in an eloquent address by George S. Klock, an attorney of this city, in the student assembly last Friday in Rodey Hall. The commemoration of the sixty-second anniversary of Roosevelt's birth was celebrated by University students before the day, so that University exercises would not be interrupted.

Mr. Klock is perhaps better acquainted with the life and political activities of President Roosevelt than any other person in the city. He was personally acquainted with the great American and was in several political campaigns with Mr. Roosevelt in New York state. On one occasion Mr. Klock presided at a meeting at which the leader spoke.

President Hill presided at the assembly and Dean Mitchell introduced the speaker.

FOOTBALL PICTURES TAKEN BY MIRAGE

Start on Work Is Begun Early to Insure Fine Annual.

"The Mirage" is already under way. The staff is engineering the taking of individual pictures of the football men. The pictures are being taken at Walton's studio. They will appear in this year's Mirage. Requests have already come in from daily papers in El Paso and Tucson asking for the use of cuts made from these pictures to be used in the sport columns of those dailies.

Here's a chance for someone to help the athletics at U. N. M. The girls' basketball team will begin practice immediately. They need a referee. They will practice at 4 o'clock in the men's gymnasium. Someone who has a little knowledge of the game is asked to volunteer. Don't crowd, boys. Please see Miss Dorothy Stevenson.

STUDENT COUNCIL BUSY.

The Student Council, after three meetings, has completed some important amendments to the constitution as adopted by the student body.

These amendments will be published and read and voted on at some early date. As soon as this is accomplished, it will be presented to the board of regents for their official approval and will then be the legal constitution of the student body and will be recognized by the entire University.

Quite a few more matters are being taken up and will be presented to the students for approval at a later date.

THE STUDENT BODY CONSTITUTION TO BE PRESENTED FOR O. K.

Is Clear and Concise and Covers Ground.

Regents to Approve After Students.

On account of the fact that the Student Council could not get the new constitution ready for publication in this issue of the weekly, mimeographed copies of it will be passed out at the assembly, Friday, October 29, and it is hoped that we can get the assembly the following week to vote on the amendments.

This constitution, when voted on favorably by the Student Body, is to be presented to the University authorities and we have good reason to believe that it will be approved by them. This will make our constitution legal. Heretofore there has been no connection between the Administration and the Student Body, but inasmuch as the new constitution is to be adopted by the University authorities it will govern the Student Body as the will and intent of themselves with the endorsement of the Administration.

Take for instance the case of the Student Activities fee which amounts to more than \$1,500 annually. There has been an unwritten law that this money be divided as follows:

Athletics	\$2.94
Weekly36
Debating45
Total	\$3.75

The faculty has been handling this item very nicely but Miss Parsons' duties are becoming so intense that she wants to turn this over to the students, and to handle to money in this budget, which is collected from the students, requires that it be handled by our organized legal body. It should be our job to spend our own money and we can only accomplish this through our being an authentic and reorganized body.

When these copies of the constitution come out it is of the utmost importance that each student read them over, and give the new constitution careful consideration so that when the matter is up for adoption at assembly the students can vote on it intelligently.

The student council has imbedded everything in the constitution that it thinks ought to be there but that does not mean that any new amendment will not be considered at the time of voting on the constitution as it has been written.

GRIDIRON DOPE

- Ovt. 30—Soldiers vs. Lobos on University field.
- Nov. 3—U. S. Indian School vs. Lobos, University field, 4:00 p. m.
- Nov. 6—Texas School of Mines vs. Lobos on University field.
- Nov. 11—N. M. M. I. vs. Lobos on University field.
- Nov. 20—University of Arizona vs. Lobos in Arizona.
- Nov. 20—U. S. Indian School vs. University Seconds.
- Nov. 25—Aggies vs. Lobos, El Paso.

McClure and Hesselden have finally decided that football is more important than business, and have appeared on the University field in football suits. The Lobos are strengthened a great deal by these men. McClure played tackle last year on the undefeated Varsity team, and was chosen as all-Southwestern tackle in Spaulding's official handbook. He uses an aggressive fighting method in a game which has placed him without an equal in his position in the Southwest. Hesselden has been in the game for many years. He played on two University teams several years ago, and during his army life played on one of the best teams in the U. S. army. On offense he is fast, and in the old days had a reputation as a line plunger. He shows ability in open field running and puts every ounce he has into the game. He is a sure tackler on the defense, and it is impossible to complete a forward pass in his territory.

Fred Sganzi has been struggling with eligibility and at last has reached the place where he can say that he will be given a clean slate by the faculty as soon as he takes his "examinations." "Blanco" White doesn't know whether he will be eligible this season or not, but is showing the old "fight" and turns out regularly for practice.

Ben Gerpheide has been showing real class at end. He came to the University with a real "rep" as an athlete. If he can follow in the footsteps of his brother he will prove to be a great asset to University athletics.

Wilfley has shown what it means to sacrifice to support the University. At the first of the season he found that it was impossible for him to play football and keep his job. Did he quit (Continued on page 2)

ARMY AGGREGATION ARRIVES TODAY TO MEET THE LOBOS

FRESHMAN BIBLE TO BE OUT SOON SAYS STUDENT COUNCIL

Will Contain All Items of Interest.

Freshmen Will Have to Carry the Book.

The University is to have a new publication. The student council is in the throes of compiling a book, a sort of Freshman Bible. This institution has long needed something of this sort and the Council should have all the assistance and co-operation possible.

A wide variety of things are to be contained in this book, things that will be of general interest, not only to students, but to outsiders who are at all interested in the University. Possibly the most important of these will be the section containing the Constitution. Under this heading will come the rules for Freshmen and it will be compulsory for all Freshmen to become familiar with the entire section.

The multitudinous organizations on the hill will receive their full share of publicity. The Y. M. C. A., Y. W. C. A., Sororities, Fraternities, Honorary Fraternities, Kiyote Klub, and all the other clubs and societies will have their allotted space.

Athletics will also play an important part in the makeup of this book. The University's activities in all the various lines of athletics will be recorded at length, and the honors we have taken will be listed.

There will be a section devoted to Varsity songs and yells, and the Freshmen (not to mention the upper-classesmen) will be expected to spend a good portion of their time in learning them.

In compiling this work, the Council is following the example of many larger Universities and Colleges. Nothing fosters school spirit more than something of this kind, and though the Varsity has displayed more spirit this year than ever before, we could stand a great deal more.

Let's get behind the Council and show them we are in favor of their action by giving them all the aid we can.

LIBRARY RECEIVES MANY NEW BOOKS

Librarian Reports on Some of the Publications.

The library has received a number of new books which should be of general interest to all students. The Librarian has prepared a list of them which follows:

HAVE YOU READ?

Santayana, George, The Sense of Beauty; Hervieu, Paul, The Labyrinth; Harvieu, Paul, The Trail of the Torch; Sudermann, Hermann, The Joy of Living; Crothers, Samuel, The Paragon's Wallet; James, William, The Varieties of Religious Experience; James, William, A Pluralistic Universe; Lockwood, Francis, The Freshman and His College; Hall, S. Roland, Writing an Advertisement; Coe, George Albert, The Psychology of Religion.

These books are recent additions to the library. Ask for them.

EARLY STIRRINGS OF EUQREUQUBLA

Girl's Organization Starts Work on Frosh.

Already the green Frosh at Hkona have felt the heavy hand of upper-classmen discipline. After a night filled with wild cries and indistinct mutterings, the cause of which no one except those who have been initiated in the mysteries of Euqreuqubla has been able to ascertain, six green caps appear topping the customary pig tails and branded foreheads of Euqreuqubla pledges. But that is not all. A supply of alarm clocks, which go off at the crucial moment; suit cases full of books much in evidence; brushes and dusters, which must be used to sweep the steps of the main building between the classes; and other appropriate equipment accompany these embarrassed young Freshmen who dare not disobey orders in the least for wherever they go they are followed by the stern eye of one who has been fortunate to have gone through the same blood-curdling mysteries. At noon they are allowed to resume their natural appearance and thereafter an air of distinction and condescension for the yet untried, accompanies them.

Fort Bliss Team Heavy and Fast; Varsity Confident of Victory on Eve of Battle.

Game Will be Hard and Outcome Doubtful.

Saturday afternoon at the University Field the Lobo pack will tangle with the strong officers' team from Fort Bliss in their first home game.

The soldiers are coming here with a team made up mostly of ex-college players. Major Nealand, who will play end for the visitors, was in his collegiate days mentioned on the all-American team. Others of the team have enviable records back of them. Their record as a team for the past few years has been one of victories, and their advent here will mean that the students of the "U" and the followers of the sport in the city will have a chance to see the varsity in a real test.

Two of the Lobo regulars will probably be out of the lineup Saturday. Booker, who is out because of a bad knee, will have to play tackle on the sidelines. Bevins, our "line crimping" halfback, is still out of the game from the results of blood poisoning. The rest of the pack are in good condition and eager for the fray.

We must have a big ticket sale and a record crowd at the game. Students who can sell tickets should see the manager or assistant managers at once.

100 ENROLL IN UNIVERSITY EXTENSION COURSE IN PSYCHOLOGY

Sometime ago Superintendent John Milne of the Albuquerque schools and President David S. Hill of the State University of New Mexico arranged for a University extension course in applied Psychology to be given conveniently at the high school building. The course is for teachers and for all qualified adults who may desire to enroll.

A similar course last year obtained an enrollment of about seventy adults. At the first meeting of the group on Monday more than one hundred persons were enrolled including teachers and other citizens who are interested in a brief scientific study of the great fields of modern psychology led by a lecturer who until recently was a professor in one of the largest universities in America.

In order that his hearers may follow without confusion the great amount of material condensed in the lectures, President Hill prepares for his students upon each occasion a typewritten outline of the topics to be discussed and also furnishes his hearers with a list of well-known books accepted by scientific men as worth while in the different fields of Psychology. The books are grouped systematically in order to enable one who desires to build up a private library, to select suitable books from the different fields of Psychology with some discrimination as concerns the phases of the subjects under consideration.

GEORGES RUMORED TO BE ORGANIZING

Club of Men Named George Is In the Process of Being Formed.

The men named George who are in the University are making plans to have an organization formed in the next few days. The object and aim of this organization of course will remain a secret. There will be no trouble as to number, as there are many Georges on the campus.

The campus will hear in a few days the results of this movement, as this club when once started will not die the natural death which most such organizations do, for there will be no dearth of members from year to year while parents still inflict the name of George on their children. No doubt one of the objects of the club will be to eliminate the name of George so that other individuals will not be compelled to wear this title.

OBSERVATORY TO LOCATE HERE

Astronomers Consider As to Desirability of U. N. M.

From data gathered astronomers of the U. S. Weather Bureau have been taking data as to meteorological conditions in and around the University with the intent of locating an observatory on the campus. From reports they have found that the climate and atmospheric conditions at Albuquerque are suitable for the location of an observatory. University students may hope to see an addition to the buildings on the campus if the plans of investigators are looked upon with favor by the U. S. Government Bureau.

ARE WE TO HAVE A MUSICAL COMEDY?

The local which said in last week's paper that a certain student is going to write the musical this year will have to be taken back, as that student will not write the musical comedy nor will any other student, for a musical comedy is taboo. Why? Because Frexy does not like the idea. He may be right; there may be reasons which make it necessary to dispense with this yearly function, but is it wise to do away with a function which has left in the treasury of the Dramatic Club a sum well onto three hundred dollars? Is it wise to dispense with a function which the theater-going public of Albuquerque look forward to every year? Consider well before going further, Mr. President.

SELL FOOTBALL TICKETS.

The students must contribute some of their valuable time to the task of selling football tickets. The task will be easy when every student takes his share of the work, so get busy, students, and sell tickets to all your friends and more than one ticket to every prospect. We have something that the people want, so give it to them.

EL CIRCULO ESPANOL REORGANIZES; GREAT ENTHUSIASM SHOWN

The old members of the Spanish club met Tuesday evening for the purpose of reorganization and the election of officers for the ensuing year. There was a large percent of the Spanish students of the State University present and from all reports prospects for a successful year for the club are promising. Professor Ibarra, who spent the summer in Spain, has a great many new ideas on Spanish life. These ideas will be presented in regularly arranged programs to be presented at the meetings of the club every two weeks during the school year.

Miss Osuna was elected president of the club; Roy Gilbert was chosen vice president; Petipa Espinosa, as treasurer, and Conchita Perez as secretary. The president appointed Miss Sholbe and Mr. Gilbert as members of the program committee.

The first regular meeting of the club will be held November 4, at which time refreshments will be served and an interesting program presented.

EXCHANGE.

The State College defeated a soldier team, the Eighth Cavalry, 19 to 0, in a game characterized by lack of teamwork on the part of the soldiers who played clean and hard football but were outclassed by the Aggies. Butler and McGary starred for the Farmers.

At U. of U. Sororities and fraternities are pledging only sophomores and upper classmen.

U. of U. has installed the Honor System.

The Baylor Lariat gives an account of the publishing of a book on sociology by Prof. Dow, who was head of the department of economics here two years ago.

Denver University was defeated by the University of Colorado, last Saturday.

In Korea if a man meets his wife in the street he ignores her presence and passes on as if she were a stranger.—(Exchange.)

THE GHOST.

As I walked on the mesa the other night in the misty light of the moon. I saw a sight that you never would see in the hazy light of noon. Far out of the mist, and up from the sand, and out of the sage brush shade.

A weird, glimmering, white-robed ghost was all of a sudden made. I know it was there for I looked with care.

And I saw it through and through. Well, it looked at me with its sad, sad eyes, as old as the desert sands, and it bowed, and beckoned, and mouthed at me, and waved with its writhing hands.

And the desert owl in its night prow! called "woo" and "woo" and "woo."

But I looked at it with a flippant stare (to show that I wasn't afraid), and I said, "Oh Ghost, with the writhing hands, now tell me of what you are made."

And it answered me silently word by word, pronouncing with infinite care "Lo, I am made of the desert, cold and the heat of the desert air."

"And if this be so then I'd like to know by what name they speak to you." "I am known as ghost of the long dead hopes, the ghost of the plans that failed."

The ghost of homes that the desert mocked—and vanquished! the poor Ghost wailed.

Then the desert owl in its night prow! called "woo" and "woo" and "woo."

"I am made of the water that never came, the crops that shriveled away, Or the drifting sand and the pitiless glare that the sun sends down all day."

Of whitening bone, and snakes that And then I am made of the wild desert's scent and the moonlight's tender beam, Of the mighty dawn and the sweet bird's song;

I am made of beauty, too."

Then the moon went down and the mesa lay with never a thing to see For the desert's spirit had wandered on as it wanders eternally; But the lone sand owl in its nightly prow! called "woo" and "woo" and "woo."

—Alice Gould.

GRIDIRON DOPE.

(Continued from page 1)

football? No. He quit his job. That is what is called SCHOOL SPIRIT.

Coach Johnson reports that everyone is recovering from their injuries since the Colorado game and the Lobos with another week of practice will be able to go in in the heavy schedule of November with every man in good condition. "Blondy" Booker who came home from Colorado on crutches and who was reported to be out of the game for all season, is in a suit and will be able to play in a few days. "Bevo" Bevan is slowly recovering from a severe case of blood poisoning and will report for practice the early part of next week. Ankles, knees and fingers are all on the mend. Scrimmage each night is developing a fast and powerful offense, and a stone wall defense. All the Lobos need this year to put out a victorious team are more men in suits on the field. The turnout after the Colorado game strengthened the team more than can be realized by sideline spectators. But we can't lose any more games to get more men out. It's just up to the students themselves. If they want a victorious team they must report on the field for practice.

Announcing

Good Overcoats
\$25--\$35--\$40

Good overcoats—overcoats we can guarantee unconditionally with a cash refund, for as low as \$25. It's a merchandising achievement. We are proud of it.

The styles are exceptionally good. The popular ulsterettes and ulsters are amply represented. There are also many good single and double breasted models in every good overcoating of the season. Good overcoats at \$25, \$35 and \$40; better overcoats at proportionally low prices.

LOCALS

Mr. C. F. Linney, meteorologist of Santa Fe was at the University last Saturday with the U. S. Weather Bureau's standard barometer and made a series of readings with barometer here at the weather station. He found that the two instruments checked closely.

J. Sharp, who is selling Fleischman's yeast in Albuquerque, returned to the University Monday evening after having spent the week-end in Denver. The Fleischman Company had a get-together meeting for all their representatives for the western section, entertaining them with a banquet and with tickets to the matinee.

STUDENT COUNCIL PASSES RESOLUTION

Gift of Joshua Reynolds Calls Forth Expression From the Students.

The recent gift of \$5,000 which the Hon. Joshua Reynolds so generously offered to furnish the Home Economics building has called forth the following expressions from the Student Council:

Whereas, Mr. Joshua Reynolds has shown himself to be a true friend of the University and to the cause of education by his generous gift of five thousand dollars to the Home Economics building which will insure its proper equipment, the students of the State University are desirous of extending to him their gratitude and appreciation and to this end have empowered

the secretary to draw up the following resolution:

Be it resolved, that the students of the State University do express to Mr. Reynolds their sincere thanks for his magnanimous gift, and at all times do extend to him a hearty welcome to the State University of New Mexico, and

Be it further resolved, that one copy of said resolutions shall be sent to Mr. Reynolds and another copy shall be placed in the files of the student body.

(Signed) J. M. SCRUGGS,
Pres. Student Body.
MAYME HART,
Sec. Student Body.

GROTTO LIGHTS

Some people do not care what they say, neither do we.

You might call the 1919 series a "wild throw," eh?

A pianist played continuously for 106 hours, which is said to be a record. Nonsense. We know of a pianist who can play the "Stars and Stripes Forever."

Venus would be a perfectly safe woman to marry. Both her arms are missing, so she couldn't throw things.

A man of our acquaintance is putting by a dollar a week to buy new records for his phonograph. He calls it his fresh air fund.

Gerpheide says that he was once as pure as the drifted snow, but, like the snow, he fell. We don't know who he fell for.

I was coming from the Grotto
With some candy in my hand,
When a business-like reporter
Beside me took his stand.
His fingers held a pencil sharp.
His pocket held a pad;
And "Tell me some news for the Weekly"
Cried this energetic lad.

I stuttered twice and stammered thrice
Before I found my tongue,
And then replied: "To tell my news
It simply wasn't done."
"Oh, never mind," said Mr. Man,
"I'm sure all will be well,
Cause just the very kind I want
Is the news you cannot tell."

WEEKLY IS GIVING STUDENTS MORE NEWS EVERY WEEK

Column Inches From Last and This Year's Show Increase of Over Fifty Per Cent.

That the U. N. M. Weekly is giving the students more news than has been furnished by the publication last year and the first few issues this year is shown in the records of column inches of news published. The figures are very gratifying and show an improvement which it is hoped will be kept up.

Getting the news to the students every week is an important matter which must be done right and the figures show that the student publication is delivering the goods. The Weekly of October 9, 1919, has 126 column inches of leaded type devoted to news. The issue one year from then, dated September 22, and the first issue of this year, contained 128 column inches leaded type. The issue of October 1 has 105 column inches of solid type (solid type runs from one third to twice the words per column). The issue of October 22, or the last Weekly, contained 137 column inches of news in solid type.

CLASSIFIED ADV.

AD REFERENDUM

If it is finally decided in the minds of the beloved students which is the most curious, male or female, we have another. It may sound foolish, but really it is simply the way you take it. Here it is: "What is your idea of satisfaction?"

Bobbie: Matrimony.

Dwight: That the Alpha Chi house be located near the Sig house.

Skeel: Chesterfield cigarettes.

Jack Kiss: To be able to live up to a name.

Helen MacArthur: A world that loves freckles.

Bish: Three weeks in Paris.

Sam Wells: Something with the rifling left in it.

Dorothy: To have someone help in making a girls' basketball team.

Lorena: To have at least three more.

Blondy: To have 'em quit saying, "You are out of football for the season."

It Usually Works—When Theodore Roosevelt was police commissioner of New York he asked an applicant for a position on the force: "If you were ordered to disperse a mob, what would you do?" "Pass around the hat, sir," was the reply. —San Francisco "Argonaut."

Old But Lively—Supporting our contention that this Bolshevism is "Old Stuff" we quote Volunina in Shakespeare's "Coriolanus," act 4, scene 1, line 13, to-wit:

"Now the red pestilence strike all trades in Rome."
And occupations perish!—Little Rock, Ark., Democrat.
