Varsity "Seconds" TROUNCE MENAUL

Powell Proves too Heady for Aggregation From North and Leads His Team Over Line for Four Touchdowns.

The scrubs defeated the Menaul School aggregation Saturday afternoon by the score of 29-0. The men played good football but they were not able to carry the pigskin over the line for more than four touchdowns. Two safeties occurred during the contest and Clark kicked goal once out of four chances. Each man on the team did his share toward piling up the score, such as it was, but a little bit more co-operation might have caused the score to be much larger.

A brief synopsis of the game, by quarters, follows:

FIRST QUARTER.

Menaul punted 35 yards. Fullerton carried the ball back 10 yards. Varsity made down two or three times, but were finally held, and ball changed hands. Menaul unable to make their gains in the allotted four downs. Wilfley carried ball 15 yards through line, but was held for down. Gray blocked Menaul's punt, but Menaul recovered. Bernhardt intercepted forward pass and ran 35 yards for touchdown. Clark failed to kick goal. Clark kicked. Menaul advanced ball 5 yards. Whistle blew for end of quarter. End of quarter: Score, Varsity 6, Menaul 0.

SECOND QUARTER.

Menaul lost ball on fourth down on Varsity 15-yard line. Powell went through tackle for touchdown. Clark failed to kick goal. Menaul received but were unable to make gains. Clark attempted drop kick from 40-yard line but failed. On fumble Menaul's right halfback picked ball up back of Varsity's goal, but was downed before he could get back. Safety for Varsity. Dunlop blocked Menaul's kick and Clark recovered ball back of line for touchdown. Clark also kicked goal.

Menaul received again but fumbled and Varsity made another safety when Menaul halfback attempted to hurdle the fence out of bounds. End of half: Score: Varsity 23, Menaul 0.

THIRD QUARTER.

Menaul received but were unable to make sufficient gain, and punted on fourth down. Varsity's ball on 20-yard line, but lost it on fumble. Hoover, Upton and Williams replaced Craig, Gray and Fullerton. Varsity made several attempts at forward passes but all were incomplete. Ball changed hands and Menaul punted on fourth down. McMains advanced ball 10 yards, but whistle blew when ball was on 35-yard line in Varsity possession. End of quarter: Score, Varsity, 23, Menaul 0.

FOURTH QUARTER.

Fullerton and Craig re-enter game in place of Vincent and Hoover. Powell carried ball through line and between goal posts. Goal was missed. Clark again kicked and Menaul returned ball 20 yards. Unable to make gains Menaul punted on fourth down. Varsity's ball out of bounds. Menaul

PIONEER TELLS MANY INTERESTING STORIES

First President of University of New Mexico Makes Few Remarks at the Assembly Period Last Friday Morning.

Governor E. S. Stover, the first president of the University of New Mexico, spoke briefly last Friday morning at the assembly period. Governor Stover, although not in reality the president of the institution, was the president of the first Board of Regents and was the man who had active charge of everything that was transacted. Mr. George S. Ramsey was at that time president of the institution.

Governor Stover seems to be in just as good health now as he was at that time and is a good example of a man who appreciates that his health is the most important thing for his welfare. A man 80 years of age enjoying as good health as Governor Stover is most assuredly to be congratulated, and it is hoped by the students of the University of New Mexico that he will continue to have strength and vigor for many years to come.

Needless to say, the few words delivered by Governor Stover were greatly appreciated by the student body and we hope that we will have an opportunity to hear from him at some future date in regard to his ideas regarding physical culture and the secret of long life and good health.

WAND IS PRESIDENT OF U.N.M. RIFLE CLUB

Members of Organization Select Officers for Coming Year; Thirty-five or Forty Men Now Taking an Active Part.

There was a revival of the U. N. M. Rifle Club on Friday, October 20, at 12:30 in the Chemistry laboratory. This organization was started at the University last year but for some reason was abandoned. As a special inducement to join, all the members of last year are exempt from dues. Professor Weese is at the head of this organization. Many interested in improving their marksmanship attended this meeting. This is a very good thing to support and all students who have not joined should do so immediately. Show your interest in these activities by joining. One dollar is the fee.

Following officers were elected: Prof. Wand, president; Nick Upton, vice president; M. L. Doering, secretary; E. E. King; treasurer; John Gruner, captain; L. E. Ott, quartermaster.

intercepted forward pass and gained 15 yards. Menaul again punted. Powell returned ball 10 yards. Menaul penalized for off-side play. Whistle blew when Varsity had ball on 45-yard line.

The Liars' Edition

Determined to do something out of the ordinary, the members of the editorial staff of the Weekly, who are pro-William AlsoRandolph Hearst, have decided to perpetrate a "Yellow Sheet" edition on the subscribers of the paper. All are warned, therefore, that an edition in the near future is to be a scandal affair. But for the high cost of dyes on account of the war, the paper would be printed in yellow on red paper. We are prepared to defend any and all libel suits which may be filed and have retained all the lawyers in Albuquerque to see that we are not jailed for endeavoring to handle the truth recklessly and carelessly. It will be the policy of the editors to refrain from divulging the sources of scandal contributions. Come on with a story of exaggeration, without any foundation in fact. Give the name, age, height, weight, color and creed of the students implicated or participating. Drop the news in the Weekly box, or hand it to Misses Horner, Flournoy, Arnot, or Messrs. Timmons, White or Miller. Professional prevaricators now have an opportunity to display their talents.

A prize is to be awarded to the contributor offering the story containing the greatest combination of fact and fiction.

FISHER DELIVERS INTERESTING TALK

Chief of Economic Division of U. S. Biological Survey Points Out Some of Things Accomplished by Department.

Dr. A. K. Fisher, chief of the economic division of the United States Biological Survey, addressed the students of the University on Thursday morning in assembly. All those present had an opportunity of learning of the interesting work of this department of our government. Dr. Fisher gave many interesting incidents of the work. The particular branch of the work that Dr. Fisher took up was the extermination of predatory animals.

Negligence on the part of some careless individuals has been the cause of endless trouble on the part of farmers and others, as well as the cause of extensive work on the part of the men in this department. One instance of this was the spread of rabies in the region of Oregon. One affected dog was allowed to roam at will, mingling with other dogs which in turn mingled with the sheep of the region, thus spreading the disease. Such questions as the extermination of this disease are illustrative of the work of this department. Hunters are sent out, whose duty it is to capture and kill all animals infested with this disease. In the above incident, this work was accomplished, much to the surprise of numerous skeptical persons who did not believe it could be accomplished.

Another interesting illustration was the instance of a section of valuable

MUSICAL COMEDY WELL UNDER WAY

At Meeting of Dramatic Club Last Wednesday, Joe Scotti Picked the Characters to Represent the University in Annual Play.

Arrangements for the annual play to be given by the University are now proceeding famously. On Wednesday noon Joe Scotti, who is to coach the play, was on the hill for the purpose of choosing the characters and candidates for the choruses. The following will sing in the choruses, which will consist of a Girl's Cop Chorus, an Indian Chorus, a Carnival Crew and a Horde of Merry-makers: Misses Trotter, Flournoy, Loudon, Bell, Hawkins, Keleher, Horner, Hawthorne, Kieke, Michaels, von Wachenhusen, Little, Mills, Henderson, Spickard, Vincent, Hubbell, Pennington, Garrett, Borgerding, Long, Fortney, McCanna; Messrs. Lapraik, Sewell, Heeselden, Perry, Putney, Miller, Cole, Nohl, Upton Wolking, Grimmer, Costin, Hope-well. Dancers Hermione Hoge and Abbey Heacock.

The following are being tried out for the leads: Misses Switzer, Shields, Sellsor, Williams; Messrs. Timmons, Vincent, Waite.

Some additions will probably be made to this list, but this is authentic as it now stands.

The mystic order of Eukreukubla is to have a "shindig" in the girls' gym on Hallowe'en night. Admission to members only.

cotton lands being ruined by innumerable crawfish. The land was in the black prairie section of Mississippi. The soil was very fertile and of limestone composition containing a great supply of moisture. This formed an ideal home for the crawfish. These little pests were so well established that in one instance there were found to be fifteen thousand holes to one acre. The remedy must not only be effective, but economic as well. Carbon-sulphide was used, one drop being all that was necessary in one hole. In a very short time this same field was rid of these animals at the insignificant cost of \$2.25 an acre. Afterward this proved to be one of the best cotton crops in the region.

Dr. Fisher also dealt with the transportation of animals from one section of the country to another. An attempt was made by him to transport prairie chickens to the eastern coast where they were once very abundant. This first attempt, however, was not very successful on account of the proximity of chickens. A disease prevalent among chickens is fatal to these prairie chickens. Dr. Fisher is not the man, however, to be discouraged by one unsuccessful attempt and will undoubtedly continue in these experiments until he is successful.

All the University students certainly wish him success in this work, as in all other, and will look forward to hearing Dr. Fisher speak again at the University at some future time.

TUESDAY, OCTOBER 24, 1916.

ABOUT CAR TICKETS.

Students should buy their street car tickets from Al Hunt, Miss Sizer or Earl's Grotes. The street car company has sold the University \$1000 worth of street car tickets and it is the duty of each and every student to purchase said tickets from the University. Of course it is very exciting to buy tickets from the mobster, but Mr. Hunt or Earl's Grotes are much more exciting for the women and Miss Sizer will always be able to take care of the men. This is a simple matter and one which most likely passes by the majority of students without even a second thought. Remember that it is the simple matters that count, both in the business and professional world. One or two thoughts on these different subjects will enable us to materially off our Alma Mater, and that is what we should be thinking about all the time. Remember that there are three places where you may buy your street car tickets, up on the hill.

THE LOVE OF A WOMAN.

Dear, I will stand beside thee to the end.
Thy loving mate, thy comforter, thy friend.

If peace and pleasure shall bless thy ways,
I will enjoy them with thee all my days.

If shame and sin should be thy bitter lot,
My faith will cover thee and question not.

If thou art false to me, then I will say,
Thy spirit left asleep that cruel day.

But when wilt wake, and need thy loving care,
So I will watch with fasting and with prayer.

—*Don Barker, The Book of Love.*

THE LOVE OF MAN.

Dear, I will bridge beside thee to the end.
Unless you let yourself grow old and fat.

If you embark money from your dad,
I will endeavor to help you be glad.

If you are sweet and let me have my way,
You shall receive my praise from day to day.

If you are false to me in deed or thought,
I'll cast you off as quickly as you're caught.

Be sweet, be true; let me roam where I will.
And at the journey's end I'll love you still.

GEOGRAPHIC SOCIETY MEETING IS SUCCESS

Dr. Charles T. Kirk, Secretary of the Organization, Presents Map Corrections as Outlined by Members of Geology 7 Class.

The New Mexico Geographic Society held its annual meeting at the Commercial Club last Friday morning at 10 o'clock. The importance of this society may be easily seen by the members of the geology course offered by Dr. Kirk. The relation of this work with such an organization is bound to be in evidence in the near future, and by joining this organization you surely would be benefited to the greatest extent. The following officers were re-elected: Dr. D. R. Boyd, president; Governor W. C. McDonald and Senator L. Bradford Prince and Senator T. B. Catron, vice presidents; Dr. Charles T. Kirk, secretary; Levi A. Hughes, treasurer.

Dr. Kirk presented to the Society several interesting map corrections as drawn up by members of the Geology 7 Class.

Professor Roscoe R. Hill delivered an interesting address entitled "Geography and Commerce." The most important point in the address was the statement that the Panama Canal was the last big change in ocean trade routes that would be brought about. There have been only three great discoveries, namely: Discovery of America, opening of the Suez Canal and the Panama Canal. Professor Hill pointed out that about ten days time could be saved in going to Buenos Ayres, by means of the Panama Canal, going directly south to Peru, and from there to Buenos Ayres by rail.

This is a very interesting organization to belong to and undoubtedly will repay you a hundredfold if you join. The annual dues are only \$1 per year. Think it over, students, and decide to do something worth while for the state in which you are interested.

Why Not.

"Why did you strike this man?" asked the judge, sternly.

"He called me a liar, your honor," replied the accused.

"Is that true?" asked the judge, turning to the man with the matted up hair.

"Sure it's true," said the answer. "I called him a liar because he is one and I can prove it."

"What have you got to say to that?" asked the judge of the defendant.

"It's got nothing to do with the case, your honor," was the unexpected reply. "Even if I am a liar I guess I've got a right to be sensitive about it, ain't it?"

—*The Difference.*

"The rain falls all over the just and the unjust."

"Not exactly alike. The unjust man doesn't care whose umbrella he uses, and the consequence is he is very seldom caught without one."

—*Unavoidable.*

"Can't you children play without continually ringing the doorbell?" asked mother, who had been trying in vain to get an afternoon nap.

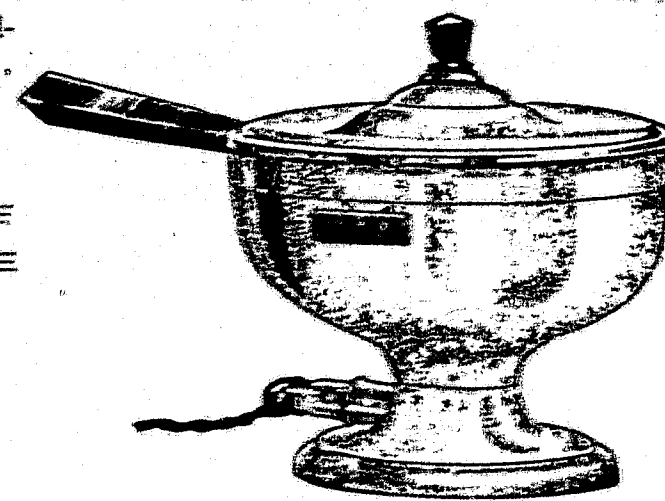

"No, mother," said Alice, "it's quite impossible. You see, Edith and I are playing house, and Father is the collector."

Miss Hickey: Where did English drama have its beginning.
Glenn Emmons: In Rome.

"Hutch" showed the football team the "real stuff" one night last week, when he kicked them off the field.

Greek Club Rotary Dance.

One of the most delightful dances of the year was the dance given by the Phi Mu Sorority to the Greek Rotary Club on Friday night at Rodey Hall. A good representation from the Alpha Gamma, Kappa Delta Nu, Pi Kappa Alpha, Sigma Chi and Alpha Delta fraternities enjoyed the hospitality of the Phi Mu.

An interesting and helpful talk was given by Will A. Keleher, a graduate of Washington and Lee University and a Sigma Chi. The hall was bright with autumn leaves and Navajo rugs. Punch and wafers were served.

Fudge Party.

On Saturday afternoon the members of the Chemistry laboratory class had a real birthday party. By way of celebration the class gave one of those jolly affairs especially appreciated by all the classes, known as a fudge party. The honor guests were Miss Gustafson and Mr. Menaul.

Kathleen and Evalyne Long entertained a number of their friends at a tea on Saturday afternoon, given in honor of their sister, Mrs. Miller, from Washington. Those who assisted were: Katherine McMillen, Rebecca Horner, Hazel Hawkins and Helen Thurman.

Professor Hodgkin entertained the Seniors and Normals at lunch last week at his home.

Allie Atkinson and Rebekah Skip- with had a "scrumptious" feed in their rooms Sunday evening. Allie was ill the early part of the week but it is said that the feast was not responsible.

Pueblo Breezes

English Humor.

There is a young lady in one of the public schools in England, named Ade'ine More. The fellows call her postscript for sshort. Oh, you English joke!

Jingles (?)

Old King Cole was a merry old soul,
But his wife was a terrible shrew;
That's the reason, of course, he got a divorce;

What else could the poor fellow do?
And if you don't believe it, all you've got to do,

Is to look in the book of nursery rhymes,
And you'll find its true.

In 1885.

In eighteen hundred and eighty-five,
Some folks who're now dead were then still alive;

They ate and they drank and they slept a bit,
They earned and they spent and they kept a bit,

They yawned and they laughed and they wept a bit—
Way back in eight-five.

Complimentary.

Jones—Say, Smith, I want to take back something I said about you the other day. In speaking of you I said you haven't even the intelligence of an

CLUB WOMEN TO ENTERTAIN AT DANCE

The Woman's Club is giving a Hal-lowe'en dance at the Armory on Tuesday night, October 31. All University students are urged to be there. This is being given to help pay off a debt of the club and is worthy of our support. You will be assured of a good time as well, however, so don't come with the idea that you are doing it all for charity with no returns for your good will. Tickets will be on sale at Matson's store.

COME ON RUBES!

A rube party will be given by the Y. M. C. A. and Y. W. C. A. of the University on October 28. All students of the University are invited on one condition—that you come dressed as a rube. No "fussy" clothes are to be allowed at this party. We will have a chance to see who will make the best farmer, or farmer's wife. This unusual entertainment is free to all the ladies as well as all the members of the Y. M. C. A. Those men not belonging to the Y. M. C. A. shall each be "taxed" ten cents admission. This entrance fee should not be the means of keeping any person at home. Plans are being made to have a box supper at this time; this plan, however, has not yet been completed.

Remember, on October 28 we are to put on our old and "tacky" clothes and come to the rube party! All students and friends are invited.

OTHERWISE NOT.

"Why do you want to get divorced?" "Because I'm married."—Philadelphia Public Ledger.

Jimmy giggled when the teacher read the story about the Roman who swam across the river three times before breakfast.

"You do not doubt a trained swimmer could do that, do you Jimmy?"

"No, sir," replied Jimmy. "I was just wonderin' why he didn't make it four times and get back to the side that his clothes was on."

This is the driest story ever told. A Scotchman and an Irishman went into a saloon to get a drink, and the Irishman had no money.

DID HE?

The Boss: "The last boy we had was worth twice as much as you are." Office Boy: "Did he get it?"—Splinters.

ass. I was wrong; you have got the intelligence of an ass.

Femininity.

Our idea of bliss (?) is to be one more man in a class room full of girls.

—What's yours?

A fellow is calling on a girl!

Says he: "What would you do if I should kiss you?"

Says she: "I would scream and call papa." Pause—then says she, demurely: "But pa is down town on business!"

LOCALS

Wednesday morning at 8 o'clock Mr. J. R. Van Horn, advertising manager of the Evening Herald, will talk to the members of the advertising class, in Professor Worcester's room. This is to be the first of a series of talks or lectures which will be given to this class and any and all students who are free at this hour are invited and earnestly requested to attend.

It has been suggested that Al Hunt, superintendent of grounds, make some attempt to regulate the water fountain in the main building. A regulator might be of some advantage.

Is it absolutely necessary that every time anyone wishes to converse with some one that they stop directly in front of the doorways? Think about this when you are tempted to do it and move two or three steps further. Everyone will be satisfied then.

Always keep in mind the fact that in order to have the different activities progress it is absolutely necessary and essential that each and every student do his part. Football is the main attraction at present and let's have the bleachers constantly filled, at practice as well as regular games. The second team are just as important as the first. Every time they have a game scheduled, make a special effort to attend.

Watch the bulletin board for time and place of play rehearsals. Be there promptly and prepare yourself for business. Time is short so every minute counts.

Nelson: What is God's hotel.
Joe Rosenbach: Heaven.

Nelson: I am in love with French and Italian cooking, because of the garlic flavor. After the war I will probably import for myself a French cook.

Class laughs.

Nelson: Of course a man cook.

Gilbert Mirabal, a former student of the University, is a candidate for secretary of state on the Republican ticket.

H. O. Dennis, former student, who attended K. T. last semester, is now attending the University of Illinois.

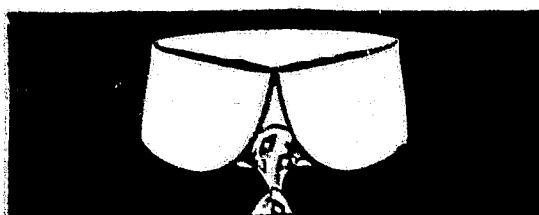

Bud Friday is back at Santa Fe, and will positively be back the second semester. Bud is now coaching a football team in the Ancient City, and will probably make a trip to Albuquerque with his team.

The alumni of the University have been enthusiastically supporting the different activities held on the hill this year. Almost as many alumni as students may be seen on the bleachers at football practice.

Kahn Taylor has gone to his home in Denning. Kahn is scoring on entering Vanderbilt.

Chalmers Powers will not return to school this year.

Miss Georgia Kelly has entered the University and is enrolled as a freshman.

MARLEY 2½ IN. DEVON 2¼ IN.

CLUETT, PEABODY & CO., INC. MAKERS

DR. W. C. HOTCHKISS VISITS UNIVERSITY

State Geologist of Wisconsin Traveling Through State, Experimenting in Ore Separating Process.

At last week-end the University was honored by the visit of Dr. W. C. Hotchkiss, state geologist of Wisconsin, and formerly professor of mineralogy in the University of Wisconsin. Dr. Hotchkiss had stopped in Albuquerque both to rest at the Alvarado hotel and to see the novel architecture of the University. Incidentally he visited with Dr. Kirk and Dr. Clark, saw the Varsity-Mines game and left with words of commendation upon the progress since his trip through New Mexico with a Geographic excursion some four years ago.

Primarily, Dr. Hotchkiss is in the state to study ore-separating processes, and expects to introduce such improvements as those in vogue at Kelly into the metallurgy of the famous lead and zinc industry of Wisconsin.

Prof. H. H. Mr. Boldt, tell something of the University of England in the middle ages.

Leslie Gottlieb: They weren't like the universities of today. They were places to study.

The freshmen are planning a dance in the near future to be given in Rodney hall. It is to be a very exclusive party and no upper classmen are invited.

Miss Hickey: What are guilds?

Lyle Vincent: Why er—they're a bunch of fellows kinda like the elders of the Presbyterian church. (Anyway Lyle, you're right there on church history.)

The "Yellow Dog" society is rapidly growing in membership, popularity and mystery. There are now thirty members in this notable society.

Teacher (on first day of term):—What is your name?

First boy—Jules ma'am.

Teacher—You shouldn't say Jules; say Julius. And now your name?

Second boy—Billious

"The evidence shows, said the judge, "that you kicked this man in the face. Ten dollars."

"Aw, judge," pleaded the culprit. "That ain't fair. Charlie Chaplin costs more than that."
