HICKMAN'S ORATION WINS ANNUAL EVENT

The final phases of the Teacher's Convention in Albuquerque were the oratorical contests held on Wednesday night in the Methodist Church. Of the schools of higher learning only two participated, the State University and the College of Agriculture, the former being represented by Roy D. Hickman and the Cruces aggregation by Tom Fort. Mr. Fort chose as his subject, "The Peaceful Penetration of the Japanese," while Mr. Hickman spoke on "Our Japanese Question," both closely related subjects of national interest. Mr. Hickman spoke with commendable clearness and force, and in the naturalness of his delivery he easily surpassed the Cruces orator. He was given first place by the judges and, as winner, he was presented with a medal by the New Mexico Educational Association.

The decision was based upon the quality and substance of the speaker's manuscripts as well as their manner of delivery and general appearance on the platform. The manuscripts, submitted a fortnight or more ago, were judged by Eastern and Middle Western authorities eminently qualified to criticize writings of this nature, while the judges who rendered the final decision were the Rev. Mr. Guy of the local Christian Church, Mr. Chamberlain of Silver City, and Mrs. Lebar of the Albuquerque High School.

NOT AS IT IS; BUT AS IT WAS TOLD UN-TO ME

By Joe Bursey

What I am about to record, if not exactly authentic, is at least current gossip, and if I succeed in presenting a true adumbration, remember that I am only an omnivorous being, and that the essence of my theme is chimerical.

Each afternoon, when the peaks of the Sandias become umbrageous under a blanket of rosy quartz, a group of young girls trot cursorily out to the basketball court behind their Dorm., and with great contumely engage in interecine pleasure. This ebullition, although ephemeral, happens daily and is egregious by the unusual cachinnation that accompanies it.

The young ladies all belong to the sect of hedonism, and, by their power of illuiveness, not only usurp the courts and surrounding grounds for their own use, but bring the young men down to the level of a neurospat. That is the reason why my next statement may not be extorical.

The game was on. Two assiduons girls wished to have a date with the same young man. They were playing against each other when one, by a strange piece of ophthalmic thaumaturgic drew the other's attention from the ball. In the obstreperous scramble that followed the one whose attention had been diverted, suffered a sprained ankle, and consequently the girl with the magic eye made the date.

Such salient, approbriousness, however, is not common. For the most part the girls engage in much superfluous persiflage, and injure each other from an anomalous, unconsolable desire to win.

Mr. and Mrs. J. H. Wagner of Las Vegas were interested visitors during the teachers convention.

Mary Von Nyvenheim and Fay Branson, both former U students gave the campus the "once over" during the convention. Both are school marmes in Santa Fe.

LOWELL CLUB PLANS VARIED ACTIVITIES

Members Expect to Give Impetus To Debating During Coming Year

MARTIN NEW PRESIDENT

Lowell Literary Society met in Rodey Hall on Wednesday last, elected officers for the present year, and discussed plans for coming activities. Fully a score of men and women students attended the meeting by way of expressing their interest in its purposes. The President, Charles Caldwell, announced that President Hill had offered a cup, valued at not less than fifty dollars to the winner of the inter-mural debates, which are scheduled for the winter, thus furnishing a very real incentive for the ambitiously inclined.

The main purpose of the Society is to encourage debating in the University upon some regular and well-defined program. In fact, until this year that has been the sole object of the organization, hitherto more or less of an incomplete structure. This year, however, it is proposed to broaden the scope of the Society's ambitions, and to include in its activities the study of literature, poetry and the arts. So far as its major purpose is concerned, a Varsity debating team that will meet Arizona, Colorado and other colleges on the forensic stage is the goal which the Society has set itself. During the year various members will also appear before Assemblies and speak upon topics of local interest.

A constitution will be drawn up in short order and the Lowell Literary Society will again attempt a formal beginning. The following officers were elected to guide its efforts during the coming months: President George Martin; Vice President, Kenneth Wilkenson; Secretary-Treasurer, Margaret Gustorff.

Miss Katherine Angle, Phi Mu and alumnus of the University has been on the campus several times during the past week. She is in town attending the Teachers' Convention.

Miss Claire Bursum is in the city visiting Miss Margaret Lee. Miss Bursum came up from Socorro to attend the wedding of Miss Anne Harris, K. K. G.

LOBOS TAKE AGGIES TO CAMP IN TURKEY DAY CONTEST 6-0

Tearing through stubborn Aggie defense, Lobos put ball across line for one touchdown in the last minutes of one of the toughest Thanksgiving Day games staged on the U. field.

For three quarters the ball saw-sawed back and forth without threatening either goal. In the last six minutes of play, the locals worked the ball to the four yard line, where White, back of the line, received a pass from Jones and made the winning tally.

Both teams early proved their inability to make effective gains thru the line and the game resolved itself into a kicking and passing contest. The shifty farmers had the edge on the Lobos in catching passes, but the niversity backs, especially Tom Popejoy, knocked all that would have meant points. The advantage in weight began to show in the second half when the Lobos made the long march which culminated in the one touch down.

Only once or twice when Aggie run-

U. N. M. GRADUATE RECEIVES HONORS

Samuel Rosenbach, who received the French Medal for Scholarship at the State University of New Mexico last Summer has been awarded a Teaching Fellowship at the Carnegie Institute of Technology. He has the only Fellowship in the Electrical Research Department of the Carnegie Institute. His particular research problem concerns a two hundred thousand volt transformer.

President David S. Hill has just received a letter from Mr. Rosenbach which is of great interest to his friends. Excerpts from the letter are as follows:

"To begin with I might say that I had a pleasant summer visiting in Pittsburgh and New York. I was especially interested in the universities and colleges in order to compare them with the University of New Mexico. I am still very proud of my Alma Mater and if I had my college days to go over again I would choose the same place....

...I was very glad to hear that the University is getting a wireless station. I believe wireless will become a very important thing in the Southwest because of the widespread ranches and mines. It ought to be a big factor in developing that part of the Country.

I wish you every success this year in making it the biggest in the history of the Institution. With kindest regards to Mrs. Hill and yourself, I remain,

Most sincerely,
SAMUEL ROSENBAACH."

GUILTY OR NOT GUILTY?

Top down; windshield flat; cap reversed; cut-out spouting a blast of flame sixty-mile mark rebounding from the stop peg on the speedometer; and sixty horse power gone hog-wild. That's Frank.

BUT!! Two cylinders popping; brass buttons and a silver star gleaming beneath a face all thrust jaw and blazing eyes; and the right handle-grip on the Harley-Davidson twisted all the way over. THAT'S the cop!

Which only proves that a good man gone wrong is emrely a bad man found out. Sure would like to know how much the fine was. "Yeah, you ask him, Cal., there he stands over yonder. I'll wait here for you."

ARIZONA DEFEATS FIGHTING VARSITY

Powerful Machine of Heavy Wildcats Holds Lobos Scoreless, Although U. N. M. Threatens Goal

JONES AND POPEJOY STAR

Before a record breaking crowd, the New Mexico Lobos bowed in defeat to the Arizona Wildcats, in their annual game last Saturday. After a heart-breaking struggle, with determined rallies staged by the Varsity at frequent intervals, the final score read: Arizona, 24; U. N. M., 0.

Coach McKale's veteran eleven was a revelation to the spectators of the game. Arizona, that institution of famous athletic teams, has never produced a more perfect machine, or a more deadly attack, than the one that faced the Lobos this year. Time after time, with a faultless interference, the speedy Wildcat backs swept around the Varsity wings, or drilled their way through the Red and Gray line.

The opinion of many critics indicates that the Lobos were outplayed, but not out-fought. Young in experience, and crippled by the loss of two regular backfield men, Wilfley and Calkins, the Varsity nevertheless made eleven first downs from scrimmage to the Wildcats' thirteen, and in the last half, displayed a smashing offensive that threatened the Arizona goal repeatedly.

Jones and John Popejoy starred for the Lobos, the speedy Varsity quarter outplaying Slonacher, the Arizona general, according to the local press. Popejoy, who got out of bed to don his uniform, proved a stone wall for the Wildcat backs, and they were unable to gain through him. The work of the Red and Gray line was remarkable, as they held their heavier opponents at all times. Hobbs proved to be the most consistent ground gainer for the Wildcats, although Marshall got close for several long runs.

Governor Mecham, who witnessed the game from a special car placed at the north side of the field, was very pleased at the showing that the Lobos made, and was rooting all through the contest. Crowley of Denver University refereed, and Bergman, of the Aggies umpired, and they proved to be the most efficient officials seen on University field for many years.

EXTEND GAS MAINS.

City gas mains have been extended to the University campus and the gas is now connected in all laboratories. The University owns one of the best automatic gas machines for making laboratory gas from gasoline in the State, automatic in that it requires no other attention than keeping the reservoir full of gasoline. This machine has a capacity of 350 burners and is giving excellent satisfaction. It was installed three years ago and its use is being discontinued only for the reason that gas made from gasoline cannot be piped from a central plant long distances underground. Moreover since the installation of the gas machine, the University has erected two new buildings—both requiring laboratory gas.

The Octette of the University figured prominently in the entertainment of the New Mexico Educational Association meeting held in the High School auditorium last Wednesday afternoon.

seniors, Cullen Pearce, Vernon Wilfley, Ed Horgan, and George Bryan, who constitute the total active membership of the Khatable Senior Honor Society, met for a short get-together and business meeting. While the organization is still a comparatively

equipment is the best made for athletic use. The new uniform form with the present uniform that the sweaters are reinforced leather to prevent any chafing or tearing.

FRIDAY, NOVEMBER 25, 1921.

BASKETBALL

Now that Football is about to lose the centre of the stage, we turn our eyes to basketball and its prospects. It has not been definitely determined if the finances of the Athletic Association will permit an extensive season for the 'Varsity five, but intermural ball during the first of the season will furnish plenty of excitement. The different fraternities are already beginning to form teams and an intense spirit of rivalry is bound to develop. The men of Kwataka will also put a team in the field in an effort to win the local championship. An appropriate trophy of some kind will go to the best Hill team.

This type of athletics is open to all the men of the institution. One does not have to be a star to make one of the four or five teams which will enter the competition. Every man who cares for athletic sports should find it easy to gain a berth and get into the melee. Let's get the basketball season started off right.

PROBLEM OF EXAMINATIONS ARE NOW SOLVED: HAUGHT

Dr. Haught, professor of the department of Psychology, has, according to Dean L. B. Mitchell, solved the question of flunking examinations. Dr. Haught, at the Friday assembly, produced an original diagram showing by the rise and fall of curves, the progress made by two men in learning to send and receive telegraphic messages. He defined "study" as "learning under school conditions," and the technical term, Plateau, as the period during which a person forgets as readily as he learned. In conclusion, Dr. Haught stated that in order to pass all examinations it was necessary for a person to know his subject, have enthusiasm over it

Have You Tried "Romance" Chocolates? If you have not, you have missed a confection "Truthfully pure" 5 — Certificates — 5 with each \$1.00 purchase on Saturdays

United Cigar Store
207 W. Central Ave.
Albuquerque, N. M.

and practice it. And about perfection attained by practice he said, "Practice does not make perfect; but practice joined with attention and enthusiasm comes nearer attaining perfection." On the platform with Dr. Haught were, C. F. Clark, Field Master of the Southwest, and Dean L. B. Mitchell. Before the main address of the morning the student body modestly listened to two vocal selections by Mrs. S. B. Miller, mother of Flossy Miller, a former University student. Following the address, "Dr." Magoggin, cheer leader, led the assembly in several lusty cheers.

CLARK MAKES ADDRESS

On Wednesday, November 22, Dr. J. D. Clark addressed the New Mexico Association for Science as President with the principal talk of the occasion which was, American Chemistry and the Safety of America.

TOWN ENGINEERS MEET

The downtown chapter of the American Association of Engineers plan to hold their annual meeting and banquet on Saturday, December 3rd, at the Y. M. C. A. The Publicity Manager of the Mountain States Telephone and Telegraph Co., Mr. Greenwald, of Denver, will be the principal speaker of the many distinguished guests expected to attend. Mr. Greenwald's address will be The Public Utility Problem of New Mexico. The subject of the rate hearing in Santa Fe will also be discussed. All members of the Student body and those of the public who are interested in Engineering problems are urged to attend.

LET'S YOU AND I DO IT TOO

Fat Greenleaf has been sleeping unmolested in his classes all week because no one had the heart to wake him up. Which proves there's some consolation in these rough games after all.

A PENALTY FOR EVERYTHING

"Well," declared the man who had been looking over the law "there seems to be a penalty for everything except stealing a man's daughter." "Oh," said his friend, "there a penalty provided for that too." "What is it?" "Hard labor for life."

YANNIGANS VS. HOOLIGANS

They're at it again. Maybe it's a real go this time. The game which was to have been played between these two rival organizations, but which had to be postponed on account of the building of the bleachers, again threatens. Bill Stahl, owner and manager of the Yannigans has authorized the Weekly to announce that the game will come off about ten days after we beat the Aggies—providing we beat the Aggies. If we fail to handle the farmers, the Hooligans and Yannigans will not perform. That is the final dope.

PITFALL AND GIN

ANNOUNCEMENT

PITFALL AND GIN is sorry to announce that the POME contest that was going across so strong up until last week has suddenly fallen thru. This is how it happened. The low person who was in charge of the column when he had received a respectable number of contributions suddenly absconded and on the proceeds from the sale of the poems sailed for China. From this it will be easy for the reader to gather how high the quality of the work was. Hereafter while reading Judge or Life or any other of the great American humorous weeklies remember that most of the funny ones would probably have come out in PITFALL AND GIN. However all those which involve mothers-in-law and prohibition are original with the two papers mentioned above; the first class we do not consider in good taste and the second, no man not under the influence of liquor thinks is a joke.

UNFEELING NATURE

Does the water in the river Dance and flicker in the light? Does the poplar bend and shiver In the early morning light? Do the mountains roll and tumble All along the sky-line free? What! They do? They have the heart?

BUT THE SAME SYMPTOMS

"Are you a messenger boy?" "No sir. I gotta sore toe makes me walk this way."

"Say, pa. Well, my son?" "I took a walk through the cemetery today and I read the inscriptions on the tombstones."

"Well, what about it?" "Where are all the wicked people buried?"

CLASSIFYING PAPA

"So," said Bob, "your engagement to Mand is broken off, is it? Why I thought she just dotted on you." "So she did," answered Tom, "but her father proved to be an idiot."

DESCRIBED

"And what do you say she's like?" "Well, she's this kind of a girl: When you are dancing with her she talks to you all the time, but when you're alone with her she just sits and looks at you."—Columbia Jester.

LITTLE BENNY'S NOTE BOOK

Mary Watkins

1. The sky is fair to gaze upon And the ocean is pleasant to see, But a site that's got them skunk a mile Is the site of Mary Watkins, O. G.!

2. Her hair is long and yellow, Her teeth are short and white, Her eyes are round and bluish And she's small around the height.

3. She's bewty looking on week days And on Sundays even more, An' if yo' like to see boys on door steps Look on hers and you'll see 3 or 4.

4. She looks wonderfll i her wite dress And absoolloty grate in her pink, And when she puts on her blue one You don't hardly know wat to think.

5. The stars are certeny a bewtifll site Wen they come out all together at nite But so is Mary Watkins, The sun looks grate as it sets in the west But bleve me boy wen she's washed and dressed So does Mary Watkins.

Lee Page

THERE WAS A REASON

"Why do you turn out for very road hog that comes along?" said the misssu rather crossly. "The right of way is ours, isn't it?"

"Oh, undoubtedly!" answered he, calmly. "As for our turning out, the reason is plainly suggested in this epitaph which appeared in a newspaper recently:

"Here lies the body of William Jay, who died maintaining his right of way. He was right, dead right, as he sped along. But he's just as dead as if he'd been wrong."

If youth but knew What age would crave, Many a penny Youth would save.

A STRANGER

A stranger knocked at a man's door and told him of a fortune to be made, says the *Atlanta Georgian*.

"Um," said the man. "It appears that considerable effort will be involved." "Oh, yes," said the stranger, "you will pass many sleepless nights and tollsome days."

"Um," said the man, "and who are you?" "I am called Opportunity."

"Um," said the man, "you call your self Opportunity, but you look like Hard Work to me."

And he slammed the door.

The things that a man intends to do when he gets the time never help him up the ladder of success.

WITH THE GREEKS

This was a big week with the Greeks. Every available date taken and every thing coming off from smokers to soires. The teachers convention did its little part in adding to the excitement, contributing a number of new and interesting faces.

ALPHA DELTA PI

A. D. P. is giving a dance at the Chapter House on Wednesday evening. It is to be strictly informal, and is given in honor of some of the visiting teachers.

ALPHA CHI OMEGA

Marjorie Cleve, A. X. pledge is leaving to spend Thanksgiving at her home in Roswell, where she will remain until after the wedding of her sister Miss Dorothy Cleve, former student and member of the fraternity here.

KAPPA KAPPA GAMMA

On Monday evening last, Miss Anne Harris became the bride of Capt. Jerry Counts of Los Angeles. All Kappas were in attendance. This event marked the seventh Kappa wedding from the local chapter during the past year, and the future looks good for more.

PHI MU

The girls of Phi Mu were a little tardy in social lines this week, coming out last in the struggle with the Date Committee.

ALPHA DELTA

A. D. is busy entertaining a flock of gushing school marms. They have been a great aid to the City Entertainment committee. The Alpha Deltas will also throw a party in Masonic Temple on December 9th which is expected to be a "come one-come all" affair.

PI KAPPA ALPHA

P. K. A. activities, pledges, and alumni are entertaining themselves and a few friends at a dance to be held Friday night at the Masonic temple. Messrs Dale Snyder and William Roy are in charge.

SIGMA CHI

Sigma Chi boasts the lion's share in entertainments during Thanksgiving week. Their great reunion starts Thanksgiving day and continues actively until Monday. Thursday night is the big Alumni smoker; Friday, the mammoth Turkey spread at the Country Club, followed by one of those ultra famous Sig dances at the Chapter House on Saturday night. One grand week end.

A GET-RICH-QUICK PLAN

"Is there any money in a perpetual motion machine?" asked the inventor. "I guess there is," said the man with the red tie. "I have a little machine in my store that would bring me in millions if I could keep it in perpetual motion."

"What is it?" asked the other. "A cash register."

THE PARSON KNEW

A Massachusetts Senator was back home, looking after his political fences and was asking the minister about some of his old acquaintances.

"How's old Mr. Jones?" he inquired. "Will I be likely to see him again?" "You'll never see Mr. Jones again," said the minister. "Mr. Jones has gone to heaven."

Loboes Take Aggies to Camp in Turkey-Day Contest

(Continued from page 1.)

tain Fairly played the most brilliant game. Small and elusive, those two Agriculturals often squirmed thru cranberries in the tight Lobo defense and made their yards.

The contest was witnessed by one of the largest crowds ever assembled on University Field. Indeed, all the beauty and chivalry of New Mexico was in evidence. Peanuts, pinons, pennants, the City and, the Lobo, and chrysanthemums combined to make the occasion one of rare merriment. Enthusiasm was at fever pitch until the last critical moments of play when the scene became nothing short of pandemonium. The cheer-leaders McGoggin and Patton, spurred the excited fans on to greater effort with everything but actual violence.

Frank Reeve is now in sole control of the Varsity Shop, having purchased Fat Greenleaf's interest. Due to the pressure of student activities, the Lobo captain was unable to continue his interest in the enterprise.

Alpha Delta announces the pledging of Everett Cheatham of Taos.

VISITORS ON THE CAMPUS

Governor Mechem and party inspected the new Girl's Dormitory and other buildings during their visit last Saturday.

Nora Fairley is another of our last years' students who visited us during the week.

"Sing" Grantham, ex-naval athlete, poet, and former scholar, having made his get away from the Pacific fleet took time out on his way to Clovis to come up and say Hello to a lot of his old friends.

HOW TO PROVE IT?

An American in dear old London was bragging about his auto. He ended his eulogy by declaring:

"It runs so smoothly you can't feel it, so quietly that you can't hear it, it has such perfect ignition you can't smell it, and as for speed—boy, you can't see it!"

"But my word, old dear," interrupted the Briton anxiously, "how do you know the bally thing is there?"
