BOOKS RECEIVED

Biodiversity in the Balance: Land Use, National Development and Global Welfare. By Raffaello Cervigni. Northampton, MA: Edward Elgar Publishing, Inc., 2001. Pp. 271. \$90.00 hardcover. Summarizing the scientific and economic debate about the definitions of biodiversity management objectives and examining the policy options and management practices that may counteract losses and encourage the development of sustainable land use and biodiversity conservation.

Canadian Forest Policy: Adapting to Change. Edited by Michael Howlett. Toronto: University of Toronto Press, 2001. Pp. 446. \$75.00 hardcover; \$29.95 paper. Examining, by the use of a *policy regime* concept, the current status of the Canadian forest policy regime, the nature of various factors driving change in this sector, and the impact that such factors have had and continue to have in actually effecting change in different Canadian jurisdictions.

Current Marine Environmental Issues and the International Tribunal for the Law of the Sea. Edited by Myron H. Nordquist & John Norton Moore. The Hague: Martinus Nijhoff Publishers, 2001. Pp. 395. \$87.00 hardcover. Focusing on the past, present, and future dispute settlement activities of the International Tribunal for the Law of the Sea and the regulatory consequences in Europe as a result of the Erika oil spill on December 12, 1999.

Implementing European Environmental Policy: The Impacts of Directives in the Member States. Edited by Matthieu Glachant. Northampton, MA: Edward Elgar Publishing, Inc., 2001. Pp. 203. \$75.00 hardcover. Investigating the political economy of environmental policy in Europe with a careful analysis of how European Union directives are realized in the member states.

Irrigated Agriculture and the Environment. Edited by James S. Shortle & Ronald C. Griffin. Northampton, MA: Edward Elgar Publishing, Inc., 2001. Pp. 272. \$100.00 hardcover. Pulling together most of the important theoretical papers since the early 1980s on the economics of nonpoint pollution control and showing how interdisciplinary modeling has improved our understanding of water quality and quantity issues, and how better management of water resources generates real economic benefits.

The Law of the Sea and Polar Maritime Delimitation and Jurisdiction. Edited by Alex G. Oude Elferink & Donald R. Rothwell. The Hague: Martinus Nijhoff Publishers, 2001. Pp. 382. \$124.00 hardcover. Exploring the impact the 1982 UN Convention on the Law of the Sea has had on the polar regions and

looking at a number of issue areas in the field of maritime delimitation and jurisdiction from a bipolar perspective.

Liability for Damage to Public Natural Resources: Standing, Damage and Damage Assessment. By Edward H.P. Brans. The Hague: Kluwer Law International, 2001. Pp. 453. \$110.00 hardcover. Focusing on liability damage to those natural resources that are of interest to the public and are protected by national, European, or international law and providing an overview of the law of the United States and of certain European Union member states on the recovery of damages for injury to natural resources.

Oak Forest Ecosystems: Ecology and Management for Wildlife. Edited by William J. McShea & William M. Healy. Baltimore: The Johns Hopkins University Press, 2001. Pp. 432. \$60.00 hardcover. Focusing on the relationship between an oak forest's acorn yield and species of wildlife that depend on it and suggesting ways to regenerate these forests and best manage them for current human use, wildlife habitation, and the future.

Pervasive Prejudice?: Unconventional Evidence of Race and Gender Discrimination. By Ian Ayres. Chicago: The University of Chicago Press, 2001. Pp. 434. \$40.00 hardcover. Using empirical research as well as game-theoretic and other economic methodologies to show how prejudice can enter the bargaining process even when participants are supposedly acting as rational economic agents and responding to critics of previous studies suggesting that race and gender discrimination is neither a thing of the past nor merely limited to the handful of markets that have been the traditional focus of civil rights law.

Terrestrial Ecoregions of North America: A Conservation Assessment. By Taylor H. Ricketts, Eric Dinerstein, David M. Olson, Colby J. Loucks, et al. Washington, DC: Island Press, 1999. Pp. 588. \$75.00 paper. Providing the framework in which to assess and approach our environmental debacle by presenting the rationale for the ecoregion approach, describing the biological distinctiveness of North American ecoregions, assessing the level of threats facing each, presenting a conservation agenda for the next decade, and setting forth recommendations for preserving and restoring biodiversity.

Trusteeship in Change: Toward Tribal Autonomy in Resource Management. Edited by Richmond L. Clow & Imre Sutton. Boulder: University Press of Colorado, 2001. Pp. 488. \$59.95 hardcover; \$24.95 paper. Exploring the evolution of Indian Affairs policies and administrative practices regarding the management of trust lands from treaty days to contemporary partnerships.
