## New Zonolite® fire-rated constructions can save you thousands of dollars on your next building!

With Zonolite's specifications, it is a simple matter to select the lightest, most inexpensive fire-rated constructions appropriate to your building design.

The rated systems cover every aspect of building where fireproofing is needed: girders, beams, columns, roof decks, walls, floors, and ceilings. New lightweight composite steel floor and composite beam assemblies are included.

Although many of these recent, rated assemblies are not known to the entire industry as yet, they have already been responsible for cutting millions of tons of unnecessary weight from existing buildings, and millions of dollars of unnecessary construction costs.

As you will quickly see, they can reduce total building weight and costs for you, too, while giving your buildings total fire protection.

For complete information,  
burn along dotted line and  
mail coupon  
today.

 Zonolite Division, W. R. Grace & Co.  
**GRACE** Merchandise Mart Plaza  
Chicago, Illinois 60654

Gentlemen: Please send me complete information on Zonolite's Total Fire Protection the Lightweight, Inexpensive Way. I am particularly interested in fire-rated assemblies for:
