Advertising: Send requests for rates and information to New Mexico Architecture, Robert G. Mallory, 115 Amherst Drive S.E., Albuquerque, N. M. 87106. 505 255-8668.

Additional copies of NMA available from John P. Conron AIA/FAID, P. O. Box 935, Santa Fe, N. M. 87501.

ChemComp doesn't shrink from any job.

When you want minimized shrinkage cracking for absolute structural integrity, durability, and beauty, the concrete answer is ChemComp, Southwestern Portland's expansive cement. ChemComp is finished cement, not an additive or partial replacement. It greatly reduces maintenance and repair costs due to cracks. It generally eliminates the need for waterproof membranes or surface sealants. Check ChemComp's many advantages.

WHITE MARBLE AGGREGATE GRACES NEW BANK BUILDING

White marble exposed aggregate concrete panels were used to enhance the new 5,000 square foot addition to the Citizens Bank Building in Farmington, New Mexico. The thirteen marble panels are concave with a 2½ foot inset to give an attractive shadow line. The white marble aggregate was chosen for its compatability with the cream colored brick of the existing building. The versatility of custom fabricated concrete panels is unlimited. See Hydro Conduit for ideas in concrete.
